GENERAL INFORMATION

This Information Statement has been filed with the Securities and Exchange Commission and is being furnished, pursuant to Section 14C of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), to the holders of the common stock, par value \$0.01 per share (the "Common Stock"), Series A Preferred Stock, par value \$0.01 per share, and Series B Convertible Preferred Stock, par value \$0.01 per share, of which each share automatically converts into 500 shares of Common Stock, without any action on the part of the holder, upon there being sufficient authorized common shares to satisfy full conversion ("Series B Preferred Stock"), of PaperClip Software, Inc., a Delaware Corporation (the "Company"), (collectively, the "Stockholders"), to notify such Stockholders of the following:

On November 22, 2006, pursuant to Section 228 of the Delaware General Corporation Law ("D.G.C.L."), the Company received written consents in lieu of a meeting of shareholders from one stockholder, Aidong Yu, our Chief Executive Officer and Chief Financial Officer, holding (A) 9,746, 847 common shares, representing 36.99% of the 26,350,457 outstanding shares of Common Stock and (B) 946,275 Series B Convertible Preferred Stock shares, of which each share entitles the holder to 500 votes, which equates to 473,137,500 votes, representing 53.69% of the outstanding shares of Series B Convertible Preferred Stock (collectively, the "Majority Stockholder"), which aggregates to 482,884,347 votes or 52.99% of the 911,236,000 shares entitled to vote, authorizing the Company's Board of Directors to (a) amend our Certificate of Incorporation to: (i) change the Company's name to "Sunrise International, Inc."; and (ii) increase the number of authorized shares of Common Stock to one hundred million (100,000,000) shares of Common Stock, par value \$0.001 per share; and (b) effectuate a 1-for-37 reverse stock split of our issued and outstanding shares of Common Stock and Preferred Stock.

On January 22, 2007, pursuant to D.G.C.L. Sec. 141, the Board of Directors of the Company unanimously approved the above actions, subject to stockholder approval. According to D.G.C.L. The Majority Stockholder approved the actions by written consent in lieu of a meeting on November 22, 2006 in accordance with the Delaware General Corporation Law. Accordingly, your consent is not required and is not being solicited in connection with the approval of the Amendments.

The Company will request brokerage houses, nominees, custodians, fiduciaries and other like parties to forward this Information Statement to the beneficial owners of the Common Stock held of record by them and will reimburse such persons for their reasonable charges and expenses in connection therewith. The Board of Directors has fixed the close of business on January 22, 2007 as the record date (the "Record Date") for the determination of Stockholders who are entitled to receive this Information Statement.

You are being provided with this Information Statement pursuant to Section 14C of the Exchange Act and Regulation 14C and Schedule 14C thereunder, and, in accordance therewith, the Amendments will not be filed with the Secretary of State of the State of Delaware or become effective until at least 20 calendar days after the mailing of this Information Statement.

AMENDMENTS TO THE CERTIFICATE OF INCORPORATION

- A. Change the Name of the Company to "Sunrise International, Inc."

The Board of Directors and Majority Stockholder have adopted a resolution amending the Company's Certificate of Incorporation to change the Company's name to "Sunrise International, Inc.". The name change will become effective when the amended Certificate of Incorporation is filed with the Delaware Secretary of State. The Board believes that the name change is in the best interests of the Company after the reverse merger, which was reported on the Form 8-K filed on November 9, 2006, as amended November 17, 2006, since it better reflects the Company's new business of development and manufacturing of nutritional supplements and personal care products domestically in China.

- B. Increase the Number of Authorized Shares of Common Stock From 30,000,000 to 100,000,000

General

The Company's Certificate of Incorporation authorizes the maximum number of shares outstanding at any time shall be thirty million (30,000,000) shares of Common Stock. On January 22, 2007, the Board of Directors approved an amendment to the Certificate of Incorporation to authorize one hundred million (100,000,000) shares of Common Stock. The Board of Directors is authorized to fix the number of shares of and to determine or alter the rights, preferences, privileges and restrictions granted to or imposed upon the Common Stock. On January 22, 2007, the holders of a majority of the outstanding shares of Common Stock approved the amendment by written consent.

Specifically, the increase in authorized shares is necessary to issue shares to the American Sunrise International, Inc. ("ASI") shareholders pursuant to the Stock Purchase and Share Exchange Agreement dated November 6, 2006, which will complete the reverse merger reported in the Form 8-K filed on November 9, 2006, as amended November 17, 2006 and January 23, 2006.

Reverse Merger

On November 9, 2006, we acquired all of the outstanding capital stock of ASI in exchange for the issuance to the ASI shareholders, upon the increase in the authorized capital stock, of a total number of shares of PaperClip Software common stock, which will represent, and equate to, 98.70% of PaperClip Software's issued and outstanding common stock after the transaction is closed. Once our capital stock is increased we will be able to close this transaction by issuing the requisite number of shares.

After the additional shares are used for the specific purposes set forth above, the general purpose and effect of the amendment to the Company's Certificate of Incorporation in authorizing additional shares of Common Stock will be to use such additional shares of common stock for general corporate purposes, including acquisitions, equity financings, stock dividends, stock splits or other recapitalizations, and grants of stock options. When the Board of Directors deems it to be in the best interests of the Company and the Stockholders to issue additional shares of Common Stock in the future from authorized shares, the Board of Directors generally will not seek further authorization by vote of the Stockholders, unless such authorization is otherwise required by law or regulations.

The additional authorized shares of Common Stock could have an anti-takeover effect. If the Company's Board of Directors desires to issue additional shares in the future, such issuance could dilute the voting power of a person seeking control of the Company, thereby deterring or rendering more difficult a merger, tender offer, proxy contest or an extraordinary corporate transaction opposed by the Company. At this time we do not have any agreements, understandings or arrangements to issue any of the additional shares.

APPROVAL OF 1-FOR-37 REVERSE STOCK SPLIT

General

The Board of Directors and Majority Stockholder approved the 1-for-37 reverse stock split (the "Reverse Stock Split") of our Common Stock on January 22, 2007. Upon the effectuation of this Reverse Stock Split, each 37 shares of our Common Stock will be automatically converted into one (1) share of Common Stock. To avoid the issuance of fractional shares of Common Stock, the Company will issue an additional share to all holders of a fractional share .50 or greater and no additional shares shall be issued to a holder of a fractional share less than .50.

Shareholder approval for a reverse stock split of the Company's Common Stock is valid for one year following the date of such approval. If no such reverse stock split is effectuated for one year following January 22, 2007, the

Company will be required to present the matter to the shareholders again for approval prior to effectuating the Reverse Stock Split.

Please note that the Reverse Stock Split will become effective as of the date approved by the Nasdaq. The Board will have one year from the date hereof to declare the Reverse Stock Split. However, upon effectuation, the reverse stock split will not change your proportionate equity interests in the company, except as may result from the issuance or cancellation of shares pursuant to the fractional shares.

Purpose and Material Effects of the Reverse Stock Split

The Reverse Stock Split is necessary to complete the reverse merger and issue shares to the ASI shareholders as referenced above.

Additionally The Board of Directors had proposed the Reverse Stock Split as one method to attract business opportunities in the Company. When a company engages in a reverse stock split, it substitutes one share of stock for a predetermined amount of shares of stock. It does not increase the market capitalization of the company.

We believe that, upon effectuation, the Reverse Stock Split may improve the price level of our Common Stock and that the higher share price could help generate interest in the Company among investors and other business opportunities. However, the effect of a reverse split upon the market price for our Common Stock cannot be predicted, and the history of similar stock split combinations for companies in like circumstances is varied. There can be no assurance that the market price per share of our Common Stock after a reverse split will rise in proportion to the reduction in the number of shares of Common Stock outstanding resulting from the reverse split. The market price of our Common Stock may also be based on our performance and other factors, some of which may be unrelated to the number of shares outstanding.

Upon effectuation, the reverse split will affect all of our stockholders uniformly and will not affect any stockholder's percentage ownership interests in the Company or proportionate voting power, except to the extent that the reverse split results in any of our stockholders owning a fractional share. In lieu of issuing fractional shares, an additional share will be issued to all holders of a fractional share .50 or greater and no additional shares shall be issued to a holder of a fractional share less than .50. The principal effect of a reverse split is that the number of shares of Common Stock issued and outstanding will be reduced proportionately with the reverse split. The number of authorized shares of Common Stock is not affected.

The reverse split will not affect the par value of our Common Stock. As a result, on the effective date of the Reverse Stock Split, the stated capital, on a fully diluted basis, on our balance sheet attributable to our Common Stock will be reduced by up to 1/37 of its present amount, and the additional paid-in capital account shall be credited with the amount by which the stated capital is reduced. The per share net income or loss and net book value of our Common Stock will be increased because there will be fewer shares of our Common Stock outstanding.

The reverse split will not change the proportionate equity interests of our stockholders, nor will the respective voting rights and other rights of stockholders be altered, except for possible immaterial changes due to the cancellation of fractional shares. The Common Stock issued pursuant to the reverse split will remain fully paid and non-assessable. The reverse split is not intended as, and will not have the effect of, a "going private transaction" covered by Rule 13e-3 under the Securities Exchange Act of 1934. We will continue to be subject to the periodic reporting requirements of the Securities Exchange Act of 1934.

Stockholders should recognize that they will own a fewer number of shares than they presently own. While we expect that upon effectuation the reverse split will result in an increase in the potential market price of our Common Stock, there can be no assurance that the reverse split will increase the potential market price of our Common Stock by a multiple equal to the exchange number or result in the permanent increase in any potential market price (which is dependent upon many factors, including our performance and prospects) . Also, should the market price of our Common Stock decline, the percentage decline as an absolute number and as a percentage of our overall market capitalization may be greater than would pertain in the absence of a reverse split. Furthermore, the possibility exists that potential liquidity in the market price of our Common Stock could be adversely affected by the reduced number of shares that would be outstanding after the reverse split. In addition, the reverse split may increase the number of stockholders of the Company who own odd lots (less than 100 shares) . Stockholders who hold odd lots typically will experience an increase in the cost of selling their shares, as well as possible greater difficulty in effecting such sales. Consequently, there can be no assurance that the reverse split will achieve the desired results that have been outlined above.

The following tables set forth our capitalization before and after the increase in the number of authorized shares of common stock from 30,000,000 to 100,000,000 (the "Increase") and the Reverse Stock Split.

Security	Capitalization Before Increase and Reverse Stock Split		Capitalization After Increase and Reverse Stock Split	
	Authorized Shares	Issued and Outstanding Shares	Authorized Shares	Issued and Outstanding Shares
Common Stock	30,000,000	26,350,457	100,000,000	30,008,320
Preferred Stock¹	10,000,000	5,412,015	10,000,000	0
Series A Preferred Stock²	3,649,543	3,649,543	0	0
Series B Convertible Preferred Stock³	4,000,000	1,762,472	4,000,000	0

Our Board of Directors has designated two series of our preferred stock as enumerated in the above table. We

(1) have not issued any other shares of preferred stock.

- (2) We have received conversion notices for the outstanding shares of Series A Preferred Stock and will complete processing them and issuing shares once we increase our common stock, but before the reverse split is effective. Each share of Series A Preferred Stock is convertible into 1.09 shares of Common Stock. Shares of Series A Preferred Stock that are converted into shares of Common Stock will not be reissued.
- (3) Each share of Series B Convertible Preferred Stock is automatically converted into 500 shares of common stock once sufficient authorized common stock is available. Shares of Series B Convertible Preferred Stock that are converted into shares of Common Stock will not be reissued.

At this time we do not have any commitments to issue additional shares pursuant to options, warrants, convertible securities and the like.
