Immunex Acquisition

FAQ for RBU

By now you've heard the exciting news that Amgen has agreed to acquire Seattle-based Immunex. This acquisition will combine two of the world's fastest growing biotechnology leaders and create an impressive portfolio of biotechnology drugs with ENBREL(R), Kineret(TM), EPOGEN(R), NEUPOGEN(R) and Aranesp(TM).

We expect that you will encounter many questions from competitors and customers in the days and months to come. To assist you with responses to some of the most frequently asked questions, we will prepare a series of FAQ documents for your reference.

Following is the first of these important FAQs. If you have any questions in regards to this or any other aspects of the acquisition, please contact Peggy Mueller, Associate Director Human Resources, at 7-3929. She has been asked to be the central point of contact for all questions from Rheumatology Field staff.

Our commitment to our patients with rheumatoid arthritis and the benefits they will receive from Kineret(TM) continues to be our primary focus. Thank you for your continued commitment.

All Integration-Related Questions - e.g. "Will there be any changes to our current territories, compensation or structure?"

[_] We are in the very early stages of the acquisition. Specific details such as structural changes, process changes, or compensation changes have not been determined. An

integration team is being formed to manage these kinds of details and to

Edgar Filing: IMMUNEX CORP /DE/ - Form 425

ensure the timely communication of such details to all staff.

☐ "Who will have primary responsibility for the integration process? Do you have an integration plan laid out? Have integration teams been formed?"

- . We are committed to integrating the two companies as smoothly and quickly as possible after the closing. Peggy Phillips, COO at Immunex, will be working with Amgen's Fabrizio Bonanni, Senior VP for Quality and Compliance, to head up the integration team to plan this process. Until the transaction is closed, integration cannot be implemented.

All Media Questions

☐ Any questions from the media are to be referred to either of the following Public Relations staff:

- . Rebecca Hamm 7-3872
- . Jeff Richardson 7-3227

All Financial Questions

☐ Any financial questions are to be referred to either of the following Investor Relations staff:

- . Anna McDermott-Vitak 7-4888
- . Suzanne Beveridge 7-1265

What do I say to my doctors if I am asked about the acquisition?

☐ Explain that these exciting times for Amgen! As you've been telling them, Amgen is 100% committed to Immunology and Inflammation. What better way can Amgen demonstrate this commitment than combining two of the world's fastest growing biotechnology leaders?

☐ "What is driving this deal?"

- . This transaction is a strategically compelling combination of two of the world's most successful and fastest growing biotechnology companies. It represents a key step in accelerating Amgen's long-term growth program, should establish leadership in Inflammation, and should enable ENBREL(R) to achieve its full potential.

☐ "How will patients be affected?"

- . Patients will be better served by the integration of these two companies through greater potential for the development of new drugs. In particular, ENBREL(R)

users should benefit from the acquisition as Amgen's protein manufacturing expertise will help increase supply of that drug in the longer term.

Will there be any change to our current sales plans for Kineret(TM)?

☐ No. We continue our commitment to Kineret(TM). It is critical that you stay focused on this important launch.

Should I be the one to initiate a conversation with my customers about the

Edgar Filing: IMMUNEX CORP /DE/ - Form 425

acquisition?

☐ No.

What should I say to my AHP representative?

☐ Treat them no differently than you have in the past. Our business continues as usual. Do not engage in any discussions about Immunex or ENBREL(R).

How do I respond to my Centecor Representative?

☐ Treat them no differently than you have in the past. Our business continues as usual.

Are we admitting ENBREL(R) is a better product?

☐ ENBREL(R) and Kineret(TM) are directed at two different cytokines. They are fundamentally different therapies. By combining the most successful biotech company with one of the industry's fastest growing players, Amgen will enhance its position as the biotechnology leader with an unparalleled portfolio of blockbuster drugs. This is good news to our customers and our patients.

Will Amgen continue to conduct ENBREL(R) and Kineret(TM) combination studies?

☐ Prior to this acquisition Amgen had begun its two-cytokine trials. We continue to be committed to this area of study.

Forward-Looking Statements

This document contains forward-looking statements within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, including statements about future financial and operating results and Amgen's anticipated acquisition of Immunex. These statements are based on management's current expectations and beliefs and are subject to a number of risks, uncertainties and assumptions that could cause actual results to differ materially from those described in the forward-looking statements. All statements other than statements of historical fact are statements that could be deemed forward-looking statements. For example, statements of expected synergies, accretion, timing of closing, industry ranking, execution of integration plans and management and organizational structure are all forward-looking statements. Risks, uncertainties and assumptions include the possibility that the market for the sale of certain products and services may not develop as expected; that development of these products and services may not proceed as planned; the Immunex acquisition does not close or that the companies may be required to modify aspects of the transaction to achieve regulatory approval; that prior to the closing of the proposed acquisition, the businesses of the companies suffer due to uncertainty; that the parties are unable to successfully execute their integration strategies, or achieve planned synergies; and other risks that are described in the Securities and Exchange Commission reports filed by Amgen, including its most recent Form 10-Q. Amgen conducts research in the biotechnology/pharmaceutical field where movement from concept to product is uncertain; consequently, there can be no guarantee that any particular product candidate will be successful and become a commercial product.

Furthermore, Amgen's research, testing, pricing, marketing and other operations are subject to extensive regulation by domestic and foreign government regulatory authorities. In addition, sales of Amgen's products are affected by reimbursement policies imposed by third party payors, including governments, private insurance plans and managed-care providers. These government regulations and reimbursement policies may affect the development, usage and pricing of Amgen's products.

In addition, while Amgen routinely obtains patents for Amgen's products and technology, the protection offered by Amgen's patents and patent applications may be challenged, invalidated or circumvented by our competitors.

Because forward-looking statements involve risks and uncertainties, actual results and events may differ materially from results and events currently expected by Amgen and Immunex. Amgen and Immunex assume no obligation and expressly disclaim any duty to update information contained in this document except as required by law.
