Zurich, August 5, 2003 □ Credit Suisse Group today announced a net profit of CHF 1.3 billion for the second quarter of 2003 and a net profit of CHF 2.0 billion for the first half of 2003. Net profit for the second quarter of 2003 was more than double that of the first quarter of 2003. Credit Suisse First Boston achieved solid results in the second quarter of 2003, driven by strong performance in the Institutional Securities segment. At Credit Suisse Financial Services, both Private Banking and Corporate & Retail Banking increased their operating income substantially, while Winterthur's results continued to improve in the second quarter of 2003, with reduced administration costs in both insurance segments.

Oswald J. Grübel, Co-CEO of Credit Suisse Group and Chief Executive Officer of Credit Suisse Financial Services, stated, "The doubling of the Group's net profit in the second quarter of 2003 demonstrates the underlying strength of our businesses. I am pleased that all segments of Credit Suisse Financial Services again reported stronger results compared with the first quarter of 2003, reflecting healthier operating income and the success of our efficiency measures."

John J. Mack, Co-CEO of Credit Suisse Group and Chief Executive Officer of Credit Suisse First Boston, said, "Credit Suisse First Boston's results firmly underscore its top-line momentum in the second quarter of 2003 and the strength of its franchise. Although many markets remain challenging, we are both confident that the Group will continue to make progress towards its goal of achieving sound profitability in 2003."

Group Results: Second Quarter of 2003

Credit Suisse Group reported a net profit of CHF 1.3 billion in the second quarter of 2003. The second quarter 2003 net profit increased CHF 694 million compared with the first quarter of 2003 and represents a strong improvement compared with the net loss of CHF 579 million in the second quarter of 2002. The Group's operating income was CHF 7.5 billion in the second quarter of 2003, up 7% on the first quarter of 2003 and down slightly compared with the second quarter of 2002. The Group's operating expenses increased 1% compared with the first quarter of 2003 to CHF 5.1 billion [] mainly reflecting increased incentive compensation accruals due to improved performance [] but were down 23% compared with the second quarter of 2002. The Group's valuation adjustments, provisions and losses were CHF 131 million in the second quarter of 2003, down 44% or CHF 102 million compared with the first quarter of 2003 and down 77% or CHF 431 million compared with the second quarter of 2002, due predominantly to lower valuations, provisions and losses at Credit Suisse First Boston, reflecting an improved credit environment and recoveries. Earnings per share for the second quarter of 2003 were CHF 1.09, compared with CHF 0.53 for the first quarter of 2003. The Group's return on equity was 18.5% in the second quarter of 2003, compared with 9.2% for the first quarter of 2003.

Back to Contents

Credit Suisse Group continued to strengthen its capital base during the second quarter of 2003, due primarily to earnings generation, managed balance sheet growth and the sale of non-core businesses (Pershing). The Group's consolidated BIS tier 1 ratio was 11.1% as of June 30, 2003, an increase from 10.0% as of March 31, 2003. In cooperation with the Swiss Federal Banking Commission, the capital treatment of the Group's investment in Winterthur is being refined; this will have an effect on the consolidated BIS capital calculations. The capital charge for the Winterthur Group investment will no longer be reflected as an addition to risk-weighted assets but as a reduction to regulatory capital. Subsequent to final regulatory approval, the revised methodology is expected to be applied as of the period ended September 30, 2003. If this methodology was applied retroactively, the Group's consolidated BIS tier 1 ratio would be 10.3% as of June 30, 2003, compared with 9.3% as of March 31, 2003.

Winterthur's announced divestitures of Churchill in the UK, Winterthur Italy and Republic in the US are expected to further improve the Group's capital base upon completion in the second half of 2003. The synthetic securitization of prime Swiss residential mortgages of approximately CHF 3.0 billion, originated by the Corporate & Retail Banking segment, is also expected to have a positive effect on the Group's capital position in the second half of 2003.

Group Results: First Half of 2003

The Group reported a net profit of CHF 2.0 billion for the first half of 2003, compared with a net loss of CHF 211 million for the first half of 2002. The Group's operating income was CHF 14.6 billion for the first six months of 2003, down 9% compared with the first half of 2002, while the Group's first half 2003 operating expenses decreased 23% to CHF 10.1 billion over the same period in 2002.

Private Banking reported a segment profit of CHF 469 million in the second quarter of 2003, up 26% compared with the first quarter of 2003 and in line with the strong second quarter of 2002. Operating income increased 9% compared with the first quarter of 2003 driven mainly by higher transaction-based income but declined 8% compared with the second quarter of 2002, due mainly to a lower asset base. Operating expenses increased CHF 22 million, or 3%, to CHF 793 million compared with the first quarter of 2003, as the reduction in base salary costs in line with headcount development was exceeded by higher performance-related compensation accruals and charges for headcount reductions. Compared with the second quarter of 2002, operating expenses decreased CHF 89 million, or 10%, reflecting ongoing efficiency measures. The cost/income ratio improved for the third consecutive quarter, declining 4.6 percentage points to 58.6% from the first quarter. The gross margin increased to 120.4 bp in the second quarter of 2003, compared with 113.8 bp in the first quarter of 2003 and 120.1 bp in the second quarter of 2002.

Corporate & Retail Banking reported a segment profit of CHF 157 million in the second quarter of 2003, up 27% compared with the first quarter of 2003 and up 41% compared with the second quarter of 2002. Operating income rose 7% compared with the first quarter of 2003 to CHF 784 million, due mainly to realized gains from the recovery portfolio within other ordinary income, and higher interest and trading income, but was practically unchanged compared with the second quarter of 2002. Second quarter 2003 operating expenses rose by CHF 11 million, or 2%, compared with the first quarter of 2003, to CHF 484 million, due to higher personnel expenses. A reduction in base salary costs in line with headcount development was exceeded by higher performance-related compensation accruals and charges for headcount reductions. Compared with the second quarter of 2002, operating expenses decreased CHF 68 million, or 12%, due to ongoing efficiency measures. The cost/income ratio improved further in the second quarter of 2003 to 64.8%, compared with 67.4% in the first quarter of 2003 and 72.5% in the second quarter of 2002. The return on average allocated capital increased compared with the first quarter of 2003 from 10.7% to 13.3%.

<u>Life & Pensions</u> reported a segment profit of CHF 228 million in the first half of 2003, compared with a segment loss of CHF 412 million in the first half of 2002. This result was driven primarily by a significant improvement in investment performance as well as a reduction in administration costs. In the second quarter of 2003, the segment profit increased by CHF 6 million, or 5%, to CHF 117 million, compared with the first quarter of 2003. In the first half of 2003, gross premiums written declined 3%, or CHF 293 million, to CHF 10.0 billion, compared with the first half of 2002. Adjusted for acquisitions, divestitures and exchange rate impacts, the volume of gross premiums written decreased 1% compared with the first half of 2002. Administration costs decreased 17% to CHF 599 million in the first half of 2003, and the expense ratio improved by 0.6 percentage points to 8.4%, compared with the first half of 2002. Investment income increased CHF 1.7 billion to CHF 2.5 billion in the first half of 2003 compared with the first half of 2002, due primarily to a significant decrease in impairments and realized losses on equity investments.

Insurance reported a segment profit of CHF 194 million in the first half of 2003, compared with a segment loss of CHF 637 million in the first half of 2002. This recovery was driven primarily by a significant improvement in the Insurance segment's underwriting results due to the implementation of broad-based tariff increases, a continued strict underwriting policy, a significant improvement in investment performance and reduced administration costs. In the second quarter of 2003, the segment profit increased by CHF 10 million, or 11%, to CHF 102 million, compared with the first quarter of 2003. For the first half of 2003, net premiums earned rose 4% compared with the first half of 2002, to CHF 8.1 billion, and □ adjusted for acquisitions, divestitures and exchange rate impacts □ were up 10%. The Insurance segment reported an improvement in net investment income from a loss of CHF 179 million in the first half of 2002 to income of CHF 604 million in the first half of 2003, due primarily to a significant decrease in impairments and realized losses on equity investments.

Net profit	296	161	84	457	n/a

Credit Suisse First Boston's results are reported and discussed below on a US dollar basis.

At Credit Suisse First Boston, increased operating income and continued cost control were the primary factors driving the improved performance compared with the first quarter of 2003. The business unit reported a net profit of USD 296 million (CHF 395 million) in the second quarter of 2003, compared with a net profit of USD 161 million (CHF 221 million) in the first quarter of 2003 and a net profit of USD 61 million (CHF 101 million) in the second quarter of 2002. Excluding the amortization of acquired intangible assets and goodwill net of tax, net operating profit increased 46% to USD 426 million (CHF 570 million) compared with the first quarter of 2003 and was up 86% compared with the second quarter of 2002. Excluding Pershing, which was sold to The Bank of New York effective May 1, 2003, net operating profit increased 55% compared with the first quarter of 2003 and 105% compared with the second quarter of 2002. Operating income increased 9% from the first quarter of 2003 to USD 3.2 billion (CHF 4.2 billion), mainly reflecting broad performance improvements across products and geographies and continued tight expense controls. Operating expenses rose 7% compared with the first quarter of 2003 ∏ due mainly to increased incentive compensation accruals linked to improved performance □ but declined 12% compared with the second guarter of 2002, reflecting headcount reductions and cost containment efforts. For the second quarter of 2003, Credit Suisse First Boston reported an 18.5% operating return on average allocated capital and an 18.3% operating pre-tax margin, compared with an operating return on average allocated capital of 12.4% and an operating pre-tax margin of 13.2% in the first quarter of 2003.

Institutional Securities reported a segment profit of USD 470 million (CHF 628 million) for the second quarter of 2003, compared with USD 348 million (CHF 476 million) in the first quarter of 2003 and USD 296 million (CHF 477 million) in the second quarter of 2002. Operating income increased 10% to USD 2.9 billion (CHF 3.8 billion) from the first quarter of 2003, with the Fixed Income division continuing to report strong results □ comparable to first quarter levels □ led by leveraged finance and mortgages, where Credit Suisse First Boston ranked number one in global high yield new issues and global commercial mortgage-backed securities transactions. Revenue increased compared with the first quarter of 2003 in both the Equity and Investment Banking divisions. Operating income in the second quarter of 2003 decreased 2% compared with the second quarter of 2002. Expense trends for the segment were consistent with those of Credit Suisse First Boston overall.

Back to Contents

CSFB Financial Services reported a segment profit of USD 38 million (CHF 50 million) for the second quarter of 2003, up 3% compared with the first quarter of 2003 but down 46% compared with the second quarter of 2002, primarily reflecting the sale of Pershing. Operating income of USD 299 million (CHF 397 million) for the second quarter of 2003 was down 2% compared with the first quarter of 2003 and 46% compared with the second quarter of 2002. Excluding Pershing (whose 2003 net results are shown in operating income net of expenses), operating income increased 3% compared with the first quarter of 2003, due mainly to improved results at Credit Suisse Asset Management, and declined 13% compared with the second quarter of 2002, due mainly to lower results at Private Client Services. In the second quarter of 2003, operating expenses increased 5% compared with the first quarter of 2003 but were down 42% compared with the second quarter of 2002. Excluding Pershing, operating expenses in the second quarter of 2003 were down 5% compared with the second quarter of 2002.

Net New Assets

Credit Suisse Group recorded a net asset inflow of CHF 2.3 billion in the second quarter of 2003, compared with a net asset outflow of CHF 3.5 billion in the first quarter of 2003. The Group's total assets under management were CHF 1,234.2 billion as of June 30, 2003. This corresponds to an increase of 6.4% compared with March 31, 2003, primarily reflecting the recent improvements in the markets. Credit Suisse Financial Services reported net new assets of CHF 4.8 billion in the second quarter of 2003, with net inflows of CHF 3.8 billion at Private Banking, CHF 0.5 billion at Corporate & Retail Banking and CHF 0.5 billion at Life & Pensions. Credit Suisse First Boston reported a net asset outflow of CHF 2.5 billion in the second quarter of 2003, as CHF 1.0 billion of net new assets at Institutional Securities was offset by net outflows of CHF 3.5 billion from CSFB Financial Services (CHF 1.7 billion from Credit Suisse Asset Management and CHF 1.8 billion from Private Client Services).

Outlook

Given the current business environment, Credit Suisse Group expects continued sound profitability for 2003, although many of the Group's markets remain challenging. The Group anticipates that operating income will remain strong in the banking industry [] albeit with a seasonally lower third quarter in Private Banking [] and expects improved technical results in the insurance segments going forward. Life & Pensions and Credit Suisse First Boston remain exposed to the volatility of the capital markets. A strong client focus, further improvements in efficiency and revenue growth remain the key priorities across the Group.

KEY TRENDS IN Q2/03

Substantial progress achieved in our efforts to return the Group to sound profitability

CSFS banking businesses improved results due to higher operating income and efficiency measures

Slightly higher results at Winterthur, driven mainly by reduced administration costs

CSFB results driven primarily by continued strength in Fixed Income, improvements in Equity and Investment Banking, and lower credit provisions

Further strengthening of capital base achieved due primarily to earnings generation and managed balance sheet growth

Improved net new assets generation across all segments

CALCULATION OF CONSOLIDATED BIS⁽¹⁾ CAPITAL RATIOS

New decree on methodology for calculation of Credit Suisse Group's consolidated capital ratios expected to be released by EBK⁽²⁾ in the second half of 2003

Capital charge for the Winterthur Group investment will no longer be reflected as an addition to risk-weighted assets but as a <u>deduction from regulatory capital</u>

50% of Winterthur Group's adjusted net asset value to be deducted from tier 1 capital and remaining 50% from total capital

Tier 1 capital deductions also include 100% of goodwill, own shares and minority interests of Winterthur Group

CREDIT SUISSE FINANCIAL SERVICES

OUTLOOK

Given current business environment, CSFS expects continued

sound profitability in 2003 supported by:

Overall: progress in implementation of efficiency

measures

Banking: continued strong operating income expected

in the

banking industry, albeit a seasonally lower

result

in Private Banking in the third quarter

Winterthur:improved technical results

Life & Pensions remains exposed to volatility of the capital markets

Compensation Philosophy and Option Reduction Program

Zurich August 5, 2003

COMPENSATION PHILOSOPHY

OVERVIEW

Successful change in compensation culture over past two years

Compensation plans are designed to:

Align employee and shareholder interests

Attract and retain key people

Reward employees for performance and offer future-oriented incentives

Ensure that compensation structure is in line with industry benchmarks

Stock option awards will continue to be part of compensation plans, but at a lower level

The Group will implement the following changes:

Reduce future annual issuance of option awards in favor of stock

Introduce three-year vesting on future option awards and, at CSFB only, on stock awards

Expense the fair value of future option awards over the respective vesting period

Launch an option reduction program

COMPENSATION PHILOSOPHY

OPTION REDUCTION PROGRAM

Purpose of option reduction program:

Reduce the number of options outstanding

Exchange previously awarded option grants for equity-based awards that provide a more effective means of rewarding and retaining our best people

Offer to exchange existing options on a <u>value-for-value</u> basis under applicable accounting rules

Open to all <u>current employees</u> to exchange old options⁽¹⁾ with an exercise price

equal to or greater than CHF 60 for either new options, restricted or phantom shares or a 50/50 combination thereof

greater than CHF 30 and below CHF 60 for either restricted or phantom shares

New options to be granted with an exercise price of 10% above market price on the valuation date (which is currently September 5, 2003)

Provisional timing: commencement of tender offer on August 6, 2003, and closing on September 9, 2003

No significant P&L impact expected in 2003 from the option reduction program

(1) meaning eligible vested options originally granted on or after December 31, 1999

ACCOUNTING FOR EQUITY-BASED COMPENSATION

Fair value of future <u>stock option awards</u> to be expensed over the respective 3-year vesting period as of the financial year 2003, with vesting starting in 2004

Credit Suisse First Boston to adopt three-year vesting approach for stock awards in future compensation cycles, in line with industry practice

Future stock awards will result in deferred recognition of the related compensation costs over the vesting period

Implementation of this deferral is expected to result in a decrease of around 3% points in the compensation-to-revenue ratio at CSFB for the second half of 2003

Credit Suisse Financial Services and Group Corporate Center to continue to vest <u>stock awards</u> at grant, with four-year blocking period

Credit Suisse Group ("CSG") has not commenced the exchange offer to which this communication pertains. Holders of CSG options are strongly advised to read the Schedule TO, the Offer to Exchange and other documents related to the exchange offer to be filed with the Securities and Exchange Commission when they become available because they will contain important information. Holders of CSG options may obtain copies of these documents for free, when available, at the Securities and Exchange Commission website at www.sec.gov or from CSG's Human Resources department.

Cautionary Statement Regarding Forward-looking Information

This communication contains statements that constitute forward-looking statements. In addition, in the future we, and others on our behalf, may make statements that constitute forward-looking statements. Such forward-looking statements may include, without limitation, statements relating to our plans, objectives or goals; our future economic performance or prospects; the potential effect on our future performance of certain contingencies; and assumptions underlying any such statements. Words such as "believes," "anticipates," "expects," "intends" and "plans" and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific, and risks exist that predictions, forecasts, projections and other outcomes described or implied in forward-looking statements will not be achieved. We caution you that a number of important factors could cause results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements. These factors include (i) market and interest rate fluctuations; (ii) the strength of the global economy in general and the strength of the economies of the countries in which we conduct our operations in particular; (iii) the ability of counterparties to meet their obligations to us; (iv) the effects of, and changes in, fiscal, monetary, trade and tax policies, and currency fluctuations; (v) political and social developments, including war, civil unrest or terrorist activity; (vi) the possibility of foreign exchange controls, expropriation, nationalization or confiscation of assets in countries in which we conduct our operations; (vii) the ability to maintain sufficient liquidity and access capital markets; (viii) operational factors such as systems failure, human error, or the failure to properly implement procedures; (ix) actions taken by regulators with respect to our business and practices in one or more of the countries in which we conduct our operations; (x) the effects of changes in laws, regulations or accounting policies or practices; (xi) competition in geographic and business areas in which we conduct our operations; (xii) the ability to retain and recruit qualified personnel; (xiii) the ability to maintain our reputation and promote our brands; (xiv) the ability to increase market share and control expenses; (xv) technological changes; (xvi) the timely development and acceptance of our new products and services and the perceived overall value of these products and services by users; (xvii) acquisitions, including the ability to integrate successfully acquired businesses; (xviii) the adverse resolution of litigation and other contingencies; and (xix) our success at managing the risks involved in the foregoing. We caution you that the foregoing list of important factors is not exclusive; when evaluating forward-looking statements, you should carefully consider the foregoing factors and other uncertainties and events, as well as the risks identified in our most recently filed Form 20-F and reports on Form 6-K furnished to the US Securities and Exchange Commission. CSG disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise except as may be required by applicable laws.
