By granting the Proxy, you authorize the persons named on the Proxy to represent you and vote your shares at the Annual Meeting. Those persons will also be authorized to vote your shares to adjourn the Annual Meeting from time to time and to vote your shares at any adjournments or postponements of the Annual Meeting.

You may grant your Proxy by signing, dating and returning the enclosed paper proxy card. Instead of returning the paper proxy card, you may complete a proxy card electronically through the Internet by accessing the website of the Company's transfer agent at www.continentalstock.com. See "Internet Voting" below.

If you attend the Annual Meeting, you may vote in person. If you are not present at the Annual Meeting, your shares may be voted only by a person to whom you have given a proper proxy, such as the accompanying Proxy or the Internet Proxy. You may revoke the Proxy in writing at any time before it is exercised at the Annual Meeting by delivering to the Secretary of the Company a written notice of the revocation, by signing and delivering to the Secretary of the Company a Proxy with a later date or by submitting your vote electronically through the Internet with a later date. Your attendance at the Annual Meeting will not revoke the Proxy unless you give written notice of revocation to the Secretary of the Company before the Proxy is exercised or unless you vote your shares in person at the Annual Meeting.

This Proxy Statement and the accompanying Notice of Annual Meeting and Proxy are first being sent or given to stockholders of the Company on or about April 7, 2004.

QUORUM AND VOTING

Voting Stock. The Company has one outstanding class of securities that entitles holders to vote generally at meetings of the Company's stockholders: common stock, par value \$.01 per share. Each share of common stock outstanding

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form DEF 14A

on the record date is entitled to one vote.

Record Date. The record date for stockholders entitled to notice of and to vote at the Annual Meeting is the close of business on March 17, 2004. At the record date, 120,024,319 shares of common stock were outstanding and entitled to be voted at the Annual Meeting.

Quorum and Adjournments. The presence, in person or by Proxy, of the holders of a majority of the votes eligible to be cast at the Annual Meeting is necessary to constitute a quorum at the Annual Meeting.

If a quorum is not present, the stockholders entitled to vote who are present in person or by Proxy at the Annual Meeting have the power to adjourn the Annual Meeting from time to time, without notice other than an announcement at the Annual Meeting, until a quorum is present. At any adjourned Annual Meeting at which a quorum is present, any business may be transacted that might have been transacted at the Annual Meeting as originally notified.

Vote Required. Directors will be elected by a plurality of the votes present and entitled to be voted at the Annual Meeting. Ratification of the selection of the Company's auditors will require the affirmative vote of the holders of a majority of the shares present and entitled to be voted at the Annual Meeting. An automated system that the Company's transfer agent administers will tabulate the votes. Brokers who hold shares in street name for customers are required to vote shares in accordance with instructions received

3

from the beneficial owners. Brokers are permitted to vote on discretionary items if they have not received instructions from the beneficial owners, but they are not permitted to vote (a "broker non-vote") on non-discretionary items absent instructions from the beneficial owner. Abstentions and broker non-votes will count in determining whether a quorum is present at the Annual Meeting. Both abstentions and broker non-votes will not have any effect on the outcome of voting on director elections. For purposes of voting on the ratification of the selection of auditors, abstentions will be included in the number of shares voting and will have the effect of a vote against the proposal, and broker non-votes will not be included in the number of shares voting and therefore will have no effect on the outcome of the voting.

Default Voting. A Proxy that is properly completed and returned will be voted at the Annual Meeting in accordance with the instructions on the Proxy. If you properly complete and return a Proxy, but do not indicate any contrary voting instructions, your shares will be voted as follows:

- o FOR the election of the three persons named in this Proxy Statement as the Board of Directors' nominees for election to the Board of Directors.
- o FOR the ratification of the selection of Ernst & Young LLP as the Company's auditors.

If any other business properly comes before the stockholders for a vote at the meeting, your shares will be voted in accordance with the discretion of the holders of the Proxy. The Board of Directors knows of no matters, other than those previously stated, to be presented for consideration at the Annual Meeting.

MANAGEMENT COMPENSATION

Compensation of Directors

For 2003, each non-employee director received an annual base retainer fee of \$40,000 and an annual fee of \$10,000 for service on one or more committees. Audit Committee members received an additional \$7,500 annual fee. Dr. Baroffio in his role as geosciences advisor to the Board of Directors received an additional \$7,500 annual fee, the lead director and the chairman of the Audit Committee each received an additional \$7,500 annual fee and other committee chairmen received an additional \$2,500 annual fee. Each non-employee director is also reimbursed for travel expenses to attend meetings of the Board of Directors or its committees. No additional fees are paid for attendance at Board of Directors or committee meetings. The Company's Chief Executive Officer does not receive additional compensation for serving on the Board of Directors.

9

For 2004, the lead director's additional fee will be increased from \$7,500 to \$15,000 and each director, following their initial three years of service as a director, in addition to their annual base retainer fee, will receive an annual equity award of \$60,000 equivalent value. For 2004, the annual equity award will be in the form of restricted stock.

Under the Company's Long-Term Incentive Plan, non-employee directors are eligible to receive their fees in the form of stock options, stock appreciation rights, restricted stock or performance units. The Company can use these awards instead of cash to pay its non-employee directors all or part of their annual fees. The Board of Directors determines the form (or combination of forms) of consideration each year, based on the economic and other circumstances at the time and based on its view of which awards will best align the interests of the stockholders and the directors. For the year following the 2004 Annual Meeting, the Board of Directors has determined that non-employee directors can elect to receive their annual fees 100 percent in cash or restricted stock or 50 percent cash and 50 percent restricted stock.

For 2003, the non-employee directors were given a choice to be compensated for their annual directors' fees in either (i) 100 percent cash, (ii) 100 percent stock options, (iii) 100 percent restricted stock or (iv) a 50/50 combination of any thereof. Messrs. Baroffio, Jones, Ramsey, Houghton and Solberg and Mrs. Lawson elected 100 percent cash compensation; Messrs. Gardner and Buchanan elected to receive 100 percent of their compensation in restricted stock. The number of shares granted to non-employee directors electing restricted stock was determined by dividing the director's fees elected to be paid by restricted stock by the closing price of one share of the Company stock on May 14, 2003 (the last closing sale price before the date of the grant). The restricted stock grants vested 25 percent each quarter with the first vesting

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form DEF 14A

date on August 15, 2003. Mr. Buchanan received a restricted stock grant of 2,112 shares to compensate him for 100 percent of his annual fees and Mr. Gardner received a restricted stock grant of 2,313 shares to compensate him for 100 percent of his annual fees.

Each non-employee director, upon commencement of initial service as a director, receives \$125,000 of restricted stock. The price used to calculate the number of shares to be granted is based on the closing stock price on the day prior to the day the director is elected to serve on the Board of Directors. The shares granted are subject to vesting and transfer restrictions that lapse with respect to one-third of the shares each year following the grant over a three-year period. The vesting of ownership and the lapse of transfer restrictions may be accelerated in the event of the death, disability or retirement of the director or a change in control of the Company. Each recipient is required to make an election under the Internal Revenue Code to include the value of the restricted stock in the recipient's income in the year of grant. The Company agrees to provide a cash award to the non-employee director in an amount sufficient to pay the federal income taxes due with respect to the grant and such cash payment.

Compensation of Executive Officers

The compensation paid to the Company's executive officers generally consists of base salaries, annual bonuses, awards under the Long-Term Incentive Plan, contributions to the Company's 401(k) retirement plan, contributions to the Company's deferred compensation retirement plan and miscellaneous perquisites. The following table summarizes the total compensation for 2003, 2002 and 2001 awarded to, earned by or paid to the following persons:

Long-Term Incentive Plan. The Long-Term Incentive Plan (the "Plan") provides for employee and non-employee director grants in the form of stock options, stock appreciation rights, restricted stock or performance units. The maximum number of shares of common stock that may be issued under the Plan is equal to 10 percent of the total number of shares of common stock equivalents outstanding from time to time minus the total number of shares of stock subject to outstanding grants on the date of calculation under any other stock-based plan for employees or directors of the Company. The Plan had 6,305,591 shares available for additional awards at December 31, 2003.

No performance units or stock appreciation rights have been awarded under the Plan.

(a) Amounts were calculated by multiplying the number of unexercised options by \$31.93, which was the closing price of the Company's common stock on December 31, 2003, and subtracting the aggregate exercise price, which was determined by multiplying the unexercised options by their respective exercise prices and summing the result.

Retirement Plan. The Company provides a 401(k) retirement plan but does not provide a defined benefit retirement plan or a restoration plan. Hewitt Associates advised the Company that it was not providing competitive retirement benefits for its officers by offering only a 401(k) plan. To maintain a competitive position, the Company also provides a nonqualified deferred compensation retirement plan for officers of the Company. Each participant is allowed to contribute up to 25 percent of base salary and 100 percent of annual bonus payments. The Company provides a matching contribution of 100 percent of the participant's contribution limited to the first 10 percent of the officer's base salary. The Company's matching contribution vests immediately.

Severance Agreements. The Company has entered into severance agreements with its officers. Salaries and bonuses are set by the Compensation and Management Development Committee independent of these agreements and the Compensation and Management Development Committee can increase or reduce base salaries at its discretion.

Either the Company or the officer may terminate the officer's employment under the severance agreement at any time. The Company must pay the officer an amount equal to one year's base salary if the officer's employment is terminated because of death, disability or normal retirement. The Company must pay the officer an amount equal to one year's base salary and continue health insurance for the officer's family for one year if the Company terminates the officer's employment without cause or if the officer terminates employment for good reason, which is when reductions in the officer's base annual salary exceed specified limits or when the officer's responsibilities have been significantly reduced. If within one year after a change in control of the Company, the Company terminates the officer without cause, or if the officer terminates employment for good reason, the Company must pay the officer an amount equal to 2.99 times the sum of the officer's base salary plus target bonus for the year and continue health insurance for the officer's family for three years. If the officer terminates employment with the Company without reason between six months and one year after a change in control, or at any time within one year after a change in control if the officer is required to move, then the Company must pay the officer one year's base salary and continue health insurance for the officer's family for one year. Officers are also entitled to additional payments for certain tax liabilities that may apply to severance payments following a

change in control.

Indemnification Agreements. The Company has entered into indemnification agreements with each of its directors and officers, including the named executive officers. Those agreements require the Company to indemnify the directors and officers to the fullest extent permitted by the Delaware General Corporation Law and to advance expenses in connection with certain claims against directors and officers. The Company expects to enter into similar agreements with persons selected to be directors and officers in the future.

13

Each indemnification agreement also provides that, upon a potential change in control of the Company and if the indemnified director or officer so requests, the Company will create a trust for the benefit of the indemnified director or officer in an amount sufficient to satisfy payment of all liabilities and suits against which the Company has indemnified the director or officer.

COMPENSATION AND MANAGEMENT DEVELOPMENT COMMITTEE
INTERLOCKS AND INSIDER PARTICIPATION

During 2003, no member of the Compensation and Management Development Committee also served as an executive officer of the Company. During 2003, there were no Compensation and Management Development Committee interlocks with other companies.

COMPENSATION AND MANAGEMENT DEVELOPMENT COMMITTEE
REPORT ON EXECUTIVE COMPENSATION

The Compensation and Management Development Committee of the Board of Directors submits the following report with respect to the executive compensation program of the Company.

Compensation Principles and Philosophy

The overriding responsibility of the committee is to maintain the Company's executive compensation program so that it attracts and retains a capable and highly motivated senior management team and aligns the compensation of the Company's executives with the Company's strategic business plan to increase stockholder value. During 2003, the committee retained Hewitt Associates to assist and advise it in its efforts to establish and administer fair and competitive compensation and incentive policies. These policies emphasize variable compensation and structure the annual bonus and long-term incentive awards to be a significant portion of an executive's total compensation so that total compensation is reflective of the executive's performance and the Company's performance. Beginning in 2004, the Committee elected to change the long-term incentive awards from a combination of stock options and restricted stock to a performance-based restricted stock program to further emphasize performance and alignment of stockholder and executive interests. The committee has adopted a policy of not repricing stock options and incorporated that policy into the Plan. Other critical elements of the Company's compensation and incentive policies provide for:

- o Base salaries at or slightly above median levels compared to industry survey information and peer group proxy analysis.
- o Annual target bonus levels slightly above median with payouts that are based on both individual and Company performance.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form DEF 14A

- o Long-term incentive target award levels that are above median.
- o Significant stock ownership by directors and the Chief Executive Officer.

To support the commitment to significant stock ownership, the Company's current common stock ownership guidelines are as follows:

- o Non-employee directors' stock value equal to at least three times each director's annual base retainer fee.
- o Chairman of the Board and Chief Executive Officer stock value equal to at least five times his annual base salary.

In determining compliance with these guidelines, the committee considers its expectations of the long-term value of the Company's common stock and the current trading levels. Mr. Sheffield and all directors are in compliance with the ownership guidelines.

14

The Omnibus Budget Reconciliation Act of 1993 ("OBRA93") placed restrictions on the deductibility of executive compensation paid by public companies. Under the restrictions, the Company is not able to deduct compensation paid to any of the named executive officers in excess of \$1,000,000 unless the compensation meets the definition of "performance-based compensation" in the legislation. Nondeductibility could result in additional tax costs to the Company. While the committee cannot assess with certainty how the Company's compensation program will ultimately be affected by OBRA93, the committee generally tries to preserve the deductibility of all executive compensation if it can do so without interfering with the Company's ability to attract and retain capable and highly motivated senior management.

Elements of Compensation

The elements of the compensation program the committee administers for executive officers, including the Chief Executive Officer, consist of base salaries, annual bonuses, awards made under the Plan, contributions to the Company's 401(k) retirement plan, contributions to the Company's deferred compensation retirement plan and miscellaneous perquisites. Base salaries, annual bonuses and long-term incentives are discussed separately below; however, the committee considers the aggregate remuneration of executives when evaluating the executive compensation program.

Base Salaries. An executive's base salary is viewed as a fixed component of total compensation that should be competitive with companies similar in terms of business strategy to the Company. The committee has targeted base salaries at or slightly above the median level for companies of similar business strategy to the Company. The committee evaluates the base salaries of the Company's executive officers on the basis of competitive base salary survey data provided by Hewitt Associates and consideration of each officer's duties and responsibilities. The committee views the executives below the Chief Executive Officer level as a team with diverse duties but with similar authority and responsibility. Hewitt Associates historically has provided base salary survey data on the majority of the Company's peer group companies, a group of independent exploration and production companies with similar asset, revenue and capital investment profiles as the Company. While the peer group provided by Hewitt Associates includes some of the members of the Dow Jones U.S. Oil

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form DEF 14A

Companies, Secondary Index (the "DJ Secondary Oil Index") reflected in the performance graph set forth under "Company Performance" below, it does not include all of the companies in that peer group and includes other companies with which the Company competes. The committee determines the base salary for all executives, including Mr. Sheffield, using the same methodology.

For 2004, Mr. Sheffield's annual base salary was increased from \$700,000 to \$775,000. Mr. Sheffield elected to take the equivalence of the amount of the increase (\$75,000) in shares of the Company's stock. Hewitt Associates indicated Mr. Sheffield's annual base salary is slightly above the 50th percentile. The base salary of one other named executive officer was increased for 2004 but the other named executive officer's base salaries were not increased. Hewitt Associates advised that their 2004 base salaries, as a group, continue to be slightly above the median.

Annual Bonuses. Each year the committee establishes a target bonus for each executive based on the target bonus median levels of executives in similar positions at peer group companies. To maintain internal equity, the level of responsibility, scope and complexity of the executive's position are considered. The range of awards for the annual incentive bonus plan can range from 0 to 200 percent of target. The 2004 target bonus levels for Mr. Sheffield and one other named executive increased to reflect competitive market conditions; however, the target bonus levels for the other named executive officers did not change from the 2003 target bonus levels. The target bonus levels were identified by Hewitt Associates as being slightly above the median level. In awarding 2003 bonuses, the Company reviewed the following criteria that are important to the success of the Company's business plan:

- o Operating cost per BOE
- o Debt/Book capitalization
- o Reserve replacement
- o Finding and development cost per BOE
- o Production growth
- o General and administrative costs per BOE
- o Return on equity

15

- o Net asset value per share
- o Growth of share value

In determining the executive officers' annual bonus awards, the committee also evaluated the Company's stock performance in relation to its peer group. The committee did not employ a formula, specific targets or predetermined weighting of the above financial and operational performance criteria. The committee evaluates Company performance in light of oil and gas industry fundamentals and assesses how effectively management adapts to changing industry conditions and opportunities during the year. The committee observes and evaluates the individual performance of executive officers throughout the year and specifically evaluates Mr. Sheffield's performance relative to the Company's performance in achieving the Company's goals.

For 2003, the committee awarded Mr. Sheffield and all but one of the other executives cash bonuses above the target bonus levels. Specific Company performance which resulted in bonus payouts above target for 2003 included:

- o Base operating costs of \$3.07 per BOE
- o Improved leverage position

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form DEF 14A

- o Reserve replacement of 193 percent
- o Finding and development costs of \$6.64 per BOE
- o Production growth of 36 percent
- o General and administrative cost of \$1.07 per BOE
- o Return on equity of 26 percent
- o 2003 stock price increase of 26 percent

Regarding stock performance, the Company's three-year cumulative total return based on stock price performance has exceeded both the Standard & Poor's 500 Index (the "S&P 500") and the DJ Secondary Oil Index per the graph below. In addition, the Company's stock price hit a five-year high of \$32.90 in December 2003.

COMPARISON OF THREE-YEAR CUMULATIVE TOTAL RETURN (a) AMONG THE COMPANY, THE S&P 500 INDEX AND THE DJ SECONDARY OIL INDEX

Year ended December 31, -----	Pioneer Natural Resources Company -----	S&P 500 -----	DJ Secondary Oil Index -----

2001	98	88	92
2002	128	69	94
2003	162	88	123

Long-Term Incentives. The value of the long-term incentive awards granted to Mr. Sheffield in 2003 was determined by a comparison of long-term incentive grants made to the Chief Executive Officers of peer group companies. The other executive officers were reviewed as a team. The value of long-term incentives granted to each executive was determined by comparing the value of awards granted to peer company executives holding similar positions, and their individual award levels were averaged to determine the actual awards to executives of the Company. The award levels were not influenced by the current stock holdings of the executives. The Company's philosophy is to award long-term incentives with values that are above market average. For 2003, Mr. Sheffield was awarded 90,000 stock options and 12,000 shares of restricted stock. Hewitt Associates concluded the 2003 award levels placed Mr. Sheffield and the other named executives as a group between the 60th and 70th percentile for long-term incentive awards among the peer group.

16

A significant portion of an executive officer's total compensation opportunity is comprised of long-term incentive awards, which are intended to align executive management's interests in long-term growth and success more closely with the interests of the Company's stockholders.

Beginning in 2004, to achieve this alignment and to emphasize long-term performance, the committee adopted a performance share program under the Long-Term Incentive Plan for executives. No stock options will be awarded to Mr. Sheffield or the named executives for 2004. This program establishes restricted stock award targets for Mr. Sheffield and each named executive determined by comparing the value of awards granted to peer company executives holding similar

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form DEF 14A

positions. The target award levels were not influenced by the current stock holdings of executives. Restricted stock awarded under this program will have a three-year cliff vesting requirement.

The number of restricted shares awarded each year as a percent of target award levels will be determined by a three-step process. First, the committee will conduct a subjective evaluation of the internal Company performance against the following one- and three-year metrics:

One-year metrics

Production growth
Operating cost per BOE
General and administrative costs per BOE
Debt statistics

Three-year metrics

Reserve replacement
Finding and development cost per BOE
Net asset value per share

Next, to finalize the award level for the executive group, the committee will consider the Company's Total Shareholder Return results compared to the Total Shareholder Return of the Company's peer group. As its final step, the committee will conduct an evaluation of each executive's individual performance.

In summary, the Company believes a significant portion of executive compensation should be variable and performance-based so that an executive's total compensation opportunity is linked to the performance of the individual, the Company and its stock price. The majority of an executive officer's total compensation is variable and at-risk. This structure allows the Company to administer overall compensation that rises or falls based on the Company's performance while maintaining a balance between the Company's short-term and long-term objectives.

AUDIT COMMITTEE REPORT

The Audit Committee's purpose is to assist the Board of Directors in its oversight of the Company's internal controls, financial statements and the audit process. The Board of Directors, in its business judgment, has determined that all members of the committee are independent as required under the listing standards of the New York Stock Exchange ("NYSE"). The committee operates pursuant to a charter adopted by the Board of Directors. A copy of the current charter is posted on the Company's website at www.pioneernc.com.

Management is responsible for the preparation, presentation and integrity of the Company's financial statements, accounting and financial reporting principles, and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The independent auditors, Ernst & Young LLP, are responsible for performing an independent audit

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form DEF 14A

of the consolidated financial statements in accordance with generally accepted auditing standards.

In performing its oversight role, the committee has reviewed and discussed the audited financial statements with management and the independent auditors. The committee has also discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees, as currently in effect. The committee has received the written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1, Independent with Audit Committees, as currently in effect. The committee has also considered whether the performance of other non-audit services by the independent auditors is compatible with maintaining the auditors' independence and has discussed with the auditors the auditors' independence.

Based on the reports and discussions described in this Report, and subject to the limitations on the roles and responsibilities of the committee referred to below and in the charter, the committee recommended to the Board of Directors that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2003, for filing with the SEC. The committee has also recommended the selection of the Company's independent auditors.

The members of the committee are not professionally engaged in the practice of auditing or accounting for the Company and are not experts in auditor independence standards. Members of the committee rely without independent verification on the information provided to them and on the representations made by management and the independent auditors. Accordingly, the committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards, that the financial statements are presented in accordance with generally accepted accounting principles or that Ernst & Young LLP is in fact independent.

CORPORATE GOVERNANCE

Corporate Governance Principles

The Board of Directors believes that sound governance practices and policies provide an important framework to assist it in fulfilling its duty to shareholders. In March 2003, the Board of Directors formally adopted the Company's Corporate Governance Principles, which cover the following principal subjects:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form DEF 14A

- o Role and functions of the Board of Directors
- o Qualifications and independence of directors
- o Size of the Board of Directors and selection process
- o Committee functions and independence of committee members
- o Meetings of non-employee directors
- o Self-evaluation
- o Ethics and conflicts of interest (a copy of the current Code of Business Conduct and Ethics is posted on the Company's website at www.pioneernc.com)
- o Reporting of concerns to non-employee directors or the Audit Committee
- o Compensation of the Board of Directors and stock ownership requirements
- o Succession planning and annual compensation review of senior management
- o Access to senior management and to independent advisors
- o Director orientation and continuing education
- o Evaluation of corporate governance principles

The Corporate Governance Principles are posted on the Company's website at www.pioneernc.com. The Corporate Governance Principles will be reviewed periodically and as necessary by the Company's Nominating and Corporate Governance Committee, and any proposed additions to or amendments of the Corporate Governance Principles will be presented to the Board of Directors for its approval.

The NYSE has adopted rules that require listed companies to adopt governance guidelines covering certain matters. The Company believes that the Corporate Governance Principles comply with the NYSE rules.

Director Independence

The Company's existing standards for determining director independence require the assessment of directors' independence on an annual basis. In February 2004, the Board of Directors again assessed the independence of each director in accordance with the independence standards for directors set forth in the Company's Corporate Governance Principles, which generally define an independent director as one who does not have any relationship with management or the Company that may interfere with the exercise of his or her independent judgment. The Board of Directors has determined, after careful review, that each member of the Board of Directors is independent, with the exception of Mr. Sheffield, who is an employee of the Company. Accordingly, eight out of the nine current members of the Board of Directors are independent directors.

The NYSE has adopted rules that define director independence for listed companies. The Board of Directors has adopted Corporate Governance Principles to ensure that the Company's standards for director independence meet or exceed those in the NYSE rules, and evaluates director independence in accordance with those standards. Based on the NYSE rules, the Board of Directors believes that all non-employee directors are independent.

Election of Lead Director

In February 2004, the Board of Directors reelected Mr. Ramsey, a non-employee director, to serve as chairman of the regular private meetings of the independent directors and as Chairman of the Company's Nominating and Corporate Governance Committee (the "Lead Director"). Utilizing input from all directors, the Lead Director will (i) work with the CEO and Chairman of the Board to determine the appropriate agenda and information package for Board of Director meetings; (ii) meet with the CEO and Chairman of the Board, senior

management and individual directors, as required, to facilitate effective communications and information flow; (iii) take a leadership role in CEO succession and senior management development; (iv) take a leadership role in director evaluation, continuing education, recruiting and orientation and (v) serve as the Board of Directors contact in the process for direct employee and stockholder communications with the Board of Directors.

Financial Literacy of Audit Committee and Designation of Financial Experts

In March 2003, the Board of Directors evaluated the members of the Audit Committee for financial literacy and the attributes of a financial expert. The Board of Directors determined that each of the Audit Committee members is financially literate and that three of the Audit Committee members (Mrs. Lawson and Messrs. Gardner and Houghton) are financial experts as defined by the SEC.

Procedure for Directly Contacting the Board of Directors and Whistleblower Policy

A means for stockholders and employees to contact the Board of Directors directly has been established and is published on the Company's website at www.pioneernc.com. Matters for which this contact may be used include allegations about actions of the Company or its directors, officers or employees involving (i) questionable accounting, internal controls and auditing matters; (ii) materially misleading statements or omissions in SEC reports, press releases, or other public statements or other forms of wire, mail or securities fraud or (iii) dishonest or unethical conduct, conflicts of interest, violations of the Company's code of ethics or business conduct, or violation of laws. Information may be submitted confidentially and anonymously, although the Company may be obligated by law to disclose the information or identity of the person providing the information in connection with government or private legal actions and in some other circumstances. The Company's policy is not to retaliate against any director, officer or employee who provides truthful information relating to a violation of law or Company policies.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

The executive officers and directors of the Company are required to file reports with the SEC, disclosing the amount and nature of their beneficial ownership in common stock, as well as changes in that ownership.

Based solely on its review of reports and written representations that the Company has received, the Company is aware that Thomas C. Halbouty, the Company's Vice President and Chief Information Officer, and Guimar Vaca Coca, the President of the Company's Argentine subsidiaries, did not timely file one report each on Form 4 covering transactions effected during 2003. The Company believes that all other required reports were timely filed during 2003.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

During 2003, the Company did not enter into any transactions with management and others, nor was it a party to business relationships or other arrangements or transactions, that would be reportable as certain relationships and related transactions. Mr. Jones is of counsel to the firm of Thompson & Knight, L.L.P. since his retirement from the firm in January 1998. Thompson & Knight, L.L.P. provides periodic legal services to the Company. Thompson & Knight, L.L.P. customarily gives the "of counsel" title to retired partners of the firm. Mr. Jones has no role in, and receives no pay from, Thompson & Knight, L.L.P. except payments under a retirement savings plan. Accordingly, the Board of Directors does not consider this relationship to be relevant to Mr. Jones' independence.

STOCKHOLDER PROPOSALS

Any stockholder of the Company who desires to submit a proposal for action at the 2005 annual meeting of stockholders and wishes to have such proposal (a "Rule 14a-8 Proposal") included in the Company's proxy materials, must submit such Rule 14a-8 Proposal to the Company at its principal executive offices no later than December 9, 2004, unless the Company notifies the stockholders otherwise. Only those Rule 14a-8 Proposals that are timely received by the Company and proper for stockholder action (and otherwise proper) will be included in the Company's proxy materials.

Any stockholder of the Company who desires to submit a proposal for action at the 2005 annual meeting of stockholders, but does not wish to have such proposal (a "Non-Rule 14a-8 Proposal") included in the Company's proxy materials, must submit such Non-Rule 14a-8 Proposal to the Company at its principal executive offices so that it is received no later than February 21, 2005, unless the Company notifies the stockholders otherwise. If a Non-Rule 14a-8 Proposal is not received by the Company on or before February 21, 2005, then the Company intends to exercise its discretionary voting authority with respect to such Non-Rule 14a-8 Proposal.

"Discretionary voting authority" is the ability to vote proxies that stockholders have executed and returned to the Company, on matters not specifically reflected in the Company's proxy materials, and on which stockholders have not had an opportunity to vote by proxy.

It is the responsibility of the Company's Nominating and Corporate Governance Committee to identify, evaluate and recommend to the Board the Directors nominees for election at the annual meeting of stockholders, as well as for filling vacancies or additions on the Board of Directors that may occur between annual meetings. The Nominating and Corporate Governance Committee endeavors to recommend only director candidates who possess the highest personal values and integrity; who have experience and have exhibited achievements in one or more of the key professional, business, financial, legal and other challenges that face a large global U.S. independent oil and gas company; who exhibit sound judgment, intelligence, personal character, and the ability to make independent analytical inquiries; who demonstrate a willingness to devote adequate time to Board of Director duties; and who are likely to be able to serve on the Board of Directors for a sustained period. Consideration will also be given to the Board of Directors' overall balance of diversity of perspectives, backgrounds and experiences.

The Nominating and Corporate Governance Committee will consider any nominee recommended by stockholders for election at the annual meeting of stockholders to be held in 2005 if that nomination is submitted in writing, not later than December 9, 2004, to the Corporate Secretary, Pioneer Natural Resources Company, 5205 North O'Connor Boulevard, Suite 900, Irving, Texas 75039. With respect to each such nominee, the following information must be provided to the Company with the written nomination:

- a) the nominee's name, address and other personal information;
- b) the number of shares of each class and series of stock of the Company held by such nominee;
- c) the nominating stockholder's name, residential address and telephone number, business address and telephone number; and
- d) all other information required to be disclosed pursuant to Regulation 14A of the Securities and Exchange Act of 1934.

Each submission must also include a statement of the qualifications of the nominee, a notarized consent signed by the nominee evidencing a willingness to serve as a Director, if elected, and a commitment by the nominee to meet personally with members of the Nominating and Corporate Governance Committee and

the Board of Directors.

Stockholders desiring to propose action at the annual meeting of stockholders must also comply with Article Nine of the Amended and Restated Certificate of Incorporation of the Company. Under Article Nine, a stockholder must submit to the Company, no later than 60 days before the annual meeting or ten days after the first public notice of the annual meeting is sent to stockholders, a written notice setting forth (i) the nature of the proposal with particularity, including the written text of the proposal, (ii) the stockholder's name, address and other personal information, (iii) any interest of the stockholder in the proposed business, (iv) the name of any persons nominated to be elected or reelected as a director by the stockholder and (v) with respect to each such nominee, the nominee's name, address and other personal information, the number of shares of each class and series of stock of the Company held by such nominee, all information required to be disclosed pursuant to Regulation 14A of the Securities and Exchange Act of 1934, and a notarized letter containing such nominee's acceptance of the nomination, stating his or her intention to serve as a director, if elected, and consenting to be

named as a nominee in any proxy statement relating to such election. The person presiding at the annual meeting will determine whether business is properly brought before the meeting and will not permit the consideration of any business not properly brought before the meeting.

Written requests for inclusion of any stockholder proposal should be addressed to Corporate Secretary, Pioneer Natural Resources Company, 5205 North O'Connor Boulevard, Suite 900, Irving, Texas 75039. The Company suggests that any such proposal be sent by certified mail, return receipt requested.

SOLICITATION OF PROXIES

Solicitation of Proxies may be made by mail, personal interview, telephone or telegraph by officers, directors and regular employees of the Company. The Company may also request banking institutions, brokerage firms, custodians, nominees and fiduciaries to forward solicitation material to the beneficial owners of the common stock that those companies or persons hold of record, and the Company will reimburse the forwarding expenses. In addition, the Company has retained D.F. King & Co., Inc. to assist in solicitation for a fee estimated not to exceed \$7,500. The Company will bear all costs of solicitation.

STOCKHOLDER LIST

In accordance with the Delaware General Corporation Law, the Company will maintain at its corporate offices in Irving, Texas, a list of the stockholders entitled to vote at the Annual Meeting. The list will be open to the examination of any stockholder, for purposes germane to the Annual Meeting, during ordinary business hours for ten days before the Annual Meeting.

ANNUAL REPORT

The Company's Annual Report to Stockholders for the year ended December 31, 2003, is being mailed to stockholders concurrently with this Proxy Statement and does not form part of the proxy solicitation material.

A copy of the Company's Annual Report on Form 10-K for the year ended December 31, 2003, as filed with the SEC, will be sent to any stockholder
