The Table covers the amounts payable under the Salaried Pension Plan and non-qualified Supplemental Income Security Plan (SISP).

Pension benefits are determined by the step-rate formula that places emphasis on the highest consecutive 60 months of earnings within the final 10 years of service.

7

Benefits for single participants under the Salaried Pension Plan are paid as straight life amounts and benefits for married participants are paid as actuarially reduced pensions with a survivorship benefit for spouses, unless participants choose otherwise.

The Salaried Pension Plan also permits pre-retirement survivorship benefits upon satisfaction of certain conditions. Additionally, certain reductions are made for employees electing early retirement.

The Internal Revenue Code places maximum limitations on benefit amounts that may be paid under the Salaried Pension Plan.

The Company has adopted a non-qualified SISP for senior management personnel. In 2002, 92 senior management personnel participated in the SISP, including the Named Officers.

Both plans cover salary shown in column (c) of the Summary Compensation Table and exclude bonuses and other forms of compensation.

Upon retirement and reaching age 65, participants in the SISP may elect a retirement benefit or a survivors' benefit with the benefits payable monthly for 15 years or as an equivalent life annuity.

As of December 31, 2002, the Named Officers were credited with the following years of service under the plans:

Name	Pension Service Years	SISP Service Years
Martin A. White	11	11
Douglas C. Kane	31	21
Ronald D. Tipton	19	19
Warren L. Robinson	14	14
Lester H. Loble, II	15	15
Vernon A. Raile	22	21

The maximum years of service for benefits under the Pension Plan is 35. Vesting under the SISP begins at 3 years and is complete after 10 years. Benefit amounts under both plans are not subject to reduction for offset amounts.

CHANGE-OF-CONTROL AND SEVERANCE ARRANGEMENTS

The Company entered into Change of Control Employment Agreements with the Named Officers and other executives ("executives") in November 1998, which provide certain protections to the executives in the event there is a change of control of the Company.

If a change of control occurs, the agreements provide for a three-year employment period from the date of the change of control, during which the executive is entitled to receive a base salary not less than the highest amount paid within the preceding twelve months, and annual bonuses not less than the highest bonus paid within the three years before the change of control, and to participate in the Company's incentive, savings, retirement and welfare benefit plans.

The agreements also provide that specified severance payments and benefits would be provided if the executive's employment is terminated during the employment period (or if connected to the change of control, prior thereto) by the Company, other than for cause or disability, or by the executive for good reason, which includes for any

8

reason during the 30-day period beginning on the first anniversary of the change of control.

In such event, the executive would receive an amount equal to three times his annual base pay plus three times his highest annual bonus (as defined). In addition, he would receive (i) an immediate pro-rated cash-out of his bonus for the year of termination based on the highest annual bonus and (ii) an amount equal to the excess of (a) the actuarial equivalent of the benefit under Company qualified and nonqualified retirement plans that he would receive if he continued employment with the Company for an additional three years over (b) the actual benefit paid or payable under these plans.

The executive and family would continue to be covered by the Company's welfare benefit plans for three years. The executive also would receive outplacement benefits. Finally, the executive would receive an additional payment if necessary to make him or her whole for any federal excise tax on excess parachute payments imposed upon the executive, unless the total parachute payments were not more than 110% of the safe harbor amount for that tax (in which event the executive's payments would be reduced to the safe harbor amount).

For these purposes, "cause" generally means the executive's willful and continued failure to substantially perform his duties or willfully engaging in illegal conduct or misconduct materially injurious to the Company. "Good reason" generally includes the diminution of the executive's position, authority, duties or responsibilities, the reduction of the executive's pay or benefits, and relocation or increased travel obligations.

Subject to certain exceptions described in the agreements, a "change of control" is defined in general as (i) the acquisition by an individual, entity, or group of 20% or more of the Company's voting securities; (ii) a turnover in a majority of the Board of Directors without the approval of a majority of the members of the Board who were members of the Board as of November 1998 or whose election was approved by such Board members; (iii) a merger or similar transaction; or (iv) the stockholders' approval of the Company's liquidation or dissolution.

The Company entered into a separation and release agreement with Mr. Douglas C. Kane in October 2002. Under the agreement, Mr. Kane agreed to resign, effective October 31, 2002, from his positions as Executive Vice President and Chief Administrative and Corporate Development Officer, and from his membership on the boards of directors of the Company and any related entities, and to become Special Projects Advisor to the Chief Executive Officer from November 1, 2002 until May 31, 2004. As Special Projects Advisor, Mr. Kane will receive a monthly salary of approximately \$23,000 until May 31, 2004. In addition, as consideration for Mr. Kane's agreement to release all claims related to his employment and membership on the Company's boards or termination thereof, including any rights to future participation in various stock and bonus plans, Mr. Kane received \$1,063,333 in January 2003. Mr. Kane forfeited his unvested stock options. Termination of employment for purposes of his vested stock options will be May 31, 2004. Mr. Kane's change of control agreement has expired and he acknowledged that he has no rights under that agreement. Other benefits to which Mr. Kane is entitled or to which he will become entitled upon termination of his position as Special Projects Advisor are determined in accordance with the terms and conditions of the Company's plans and programs.

Introduction

The Compensation Committee of the Board of Directors is responsible for determining the compensation of the Company's executive officers. Composed entirely of non-employee Directors, the Committee meets several times each year to review and determine compensation for the executive officers, including the Chief Executive Officer.

9

Executive Compensation

During 2002, the Compensation Committee conducted a study of the Company's executive compensation programs. With assistance from outside advisors, the Committee evaluated key elements of total direct compensation in the current program, including base salary, annual incentives and long-term incentives. The evaluation process included current trends in competitive compensation and legal and regulatory developments. The outside advisors also surveyed employees, including management, and Directors for their insight into the effectiveness of the current compensation program and desired outcomes of a new program. Based upon this, beginning in 2003, the Committee has made several changes to its approach to long-term incentive compensation, including the elimination of stock options and restricted stock grants. The changes are discussed below.

The Committee believes that appropriate compensation levels succeed in both attracting and motivating high quality employees. To implement this philosophy, the Committee analyzes trends in compensation among comparable companies participating in the oil and gas industry, segments of the energy and mining industries, the peer group of companies used in the graph following this report, and similar companies from general industry. The Committee then sets compensation levels that it believes are competitive within the industry and structured in a manner that rewards successful job performance. There are three components of total executive compensation: base salary, annual incentive compensation, and long-term incentive compensation.

In setting base salaries, the Committee does not use a particular formula. In addition to the above data, other factors the Committee uses in its analysis include the executive's current salary in comparison to the competitive industry standard as well as individual performance. Mr. White, the Chairman, President and Chief Executive Officer, received a 15.6% increase in base salary for 2002. During 2002, only approximately 27.8% of Mr. White's compensation was base pay. The remainder was performance-based. This reflects the Committee's belief in the importance of having substantial at risk compensation to provide a direct and strong link between performance and executive pay. For the other Named Officers, the Committee targeted salaries at the midpoint of the competitive industry standard, rather than at 95% of the midpoint, as in the past. The other Named Officers received base salary increases averaging 15.38% for 2002.

In keeping with the Committee's belief that compensation should be directly linked to successful performance, the Company employs both annual and long-term incentive compensation plans. The annual incentive compensation is determined under the Executive Incentive Compensation Plan. The Committee makes awards based upon the level of corporate earnings, cost efficiency, and individual performance. Mr. White received a total of \$509,340 (or 130.6% of the targeted amount) in annual incentive compensation for 2002; the other Named Officers received an average of \$141,701 or 130.6% of the targeted amount, (except Mr. Tipton who received \$111,958 or 72.7% of the targeted amount and Mr. Kane who did not receive a bonus), based upon achievement of corporate earnings and individual performance above the target level.

Long-term incentive compensation serves to encourage successful strategic management and is awarded under two plans: the 1992 Key Employee Stock Option Plan and the 1997 Executive Long-Term Incentive Plan. No options were granted in 2002. Options that were granted in 2001 with a three-year performance cycle (2001-2003) remain outstanding.

The Committee accelerated vesting of 54 percent of the restricted stock granted under the 1997 Executive Long-Term Incentive Plan, based on achievement of performance goals for the three-year period 2000-2002 at the 54th percentile.

In recent years, the Committee has used stock options with dividend equivalents and performance-accelerated restricted stock as the components of long-term incentive compensation. Options were granted every three years with three-year performance cycles. The options became exercisable automatically in nine years, but vesting was accelerated if the performance goals were met after three years. The size of the awards was based upon the executive's established pay grade, which took into consideration the job's

10

internal value, based on overall complexity and responsibility, and external value as reflected in a market competitiveness comparison.

Effective in 2003, several changes are being made to the long-term incentive program as a result of the study discussed above. The Committee does not expect to make additional stock option or restricted stock grants under the 1997 Executive Long-Term Incentive Plan. The Committee will use performance shares, with dividend equivalents, as the form of long-term incentive compensation, beginning with grants in 2003. These awards are expected to be made annually and will be paid out, if earned, in Company common stock. The performance periods will generally be three years, and performance goals will compare Company performance against a peer group in specified areas. This new long-term award is designed to ensure the retention value and the motivation effect of the Company's long-term compensation program on the Company's executive officers.

All regular employees participate in the growth of the Company through the Option Award Program. Stock options were granted under this program to all employees in 1998 and in 2001.

At December 31, 2002, there were approximately 3,240,845 million options outstanding under the Company's various plans, which is approximately 4.38% of shares outstanding.

In 1994, the Board of Directors adopted Stock Ownership Guidelines under which executives are required to own Company Common Stock valued from one to four times their annual salary.

The Committee monitors the impact of federal tax laws on executive compensation, including Section 162(m) of the Internal Revenue Code. The deductibility of some types of compensation depends upon the timing of an executive's vesting or exercise of awards or on whether such awards qualify as "performance-based" under the provisions of Section 162(m). The Committee will consider the possible tax effect when structuring performance-based compensation but may pay compensation to its executive officers that is not fully deductible.

BOARD AND COMMITTEE MEETINGS

During 2002, the Board of Directors held six meetings.

The Board has an Audit Committee, a Compensation Committee, a Finance Committee, and a Nominating Committee. All committees are composed entirely of outside Directors.

The Audit Committee meets regularly with management, internal auditors, and representatives of the Company's independent public accountants. During 2002, the Committee met seven times.

The Compensation Committee, which met four times during 2002, sets compensation levels for executive officers and recommends compensation for the Company Directors to the full Board.

The Finance Committee, which met ten times during 2002, reviews corporate financial plans, policies, budgets, investments and acquisitions, and reviews and authorizes actions necessary to issue and sell Company Common Stock and debt securities.

The Nominating Committee, which met three times during 2002, makes Director nominee recommendations to the full Board.

Each incumbent Director attended more than 90 percent of the combined total meetings of the Board and the Committees on which the Director served during 2002.

DIRECTORS' COMPENSATION

Each non-officer Director receives \$20,000 (\$33,000 for the Lead Director) and 1,000 shares of Company Common Stock as an annual retainer for Board service.

Audit, Nominating, Finance and Compensation Committee Chairmen each receive a \$4,000 annual retainer.

Edgar Filing: MDU RESOURCES GROUP INC - Form DEF 14A

Each non-officer Director additionally receives \$1,500 for each Board meeting attended and each Committee member receives \$1,000 for each Committee meeting attended.

Each non-officer Director receives an annual option to purchase 3,000 shares of Common Stock. On May 16, 2002, each non-officer Director received an option to purchase which vested immediately and is exercisable for 10 years from date of grant. The exercise price is \$29.315, the fair market value of the stock on the date of grant.

The Company post-retirement income plan for Directors was terminated in May 2001 for current and future Directors. The net present value of each Director's benefit was calculated and converted into phantom stock. Payment is deferred pursuant to the Deferred Compensation Plan for Directors and will be made in cash over a five-year period after the Director's retirement from the Board.

ACCOUNTING AND AUDITING MATTERS

On February 14, 2002, upon the recommendation of the Audit Committee, the Board of Directors approved the dismissal of Arthur Andersen LLP as the Company's independent auditors following the 2001 audit. New auditor candidates thereafter were reviewed by the Audit Committee. On March 25, 2002, the Board of Directors accepted the Audit Committee's recommendation that the firm of Deloitte & Touche LLP be retained as independent auditors for the Company for fiscal year 2002.

In connection with the audits for the fiscal years ended 2000 and 2001 and through February 20, 2002, there were no disagreements with Arthur Andersen LLP on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of Arthur Andersen LLP, would have caused Arthur Andersen LLP to make reference thereto in connection with its reports on the financial statements of the Company for such time periods. Also, during those time periods, there were no "reportable events," as such term is used in Item 304(a)(1)(v) of Regulation S-K.

Arthur Andersen LLP's reports on the financial statements of the Company for each of the fiscal years ended 2000 and 2001 neither contained an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles.

The Company provided Arthur Andersen LLP with a copy of the foregoing disclosure, and a letter from Arthur Andersen LLP confirming its agreement that this disclosure was filed as an exhibit to the Company's Current Report on Form 8-K, dated February 20, 2002.

During the Company's two fiscal years ended December 31, 2001 and the subsequent interim period through March 25, 2002, the Company did not consult with Deloitte & Touche LLP with respect to the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's consolidated financial statements, or any other matters or reportable events listed in Items 304(a)(2)(i) and (ii) of Regulation S-K.

A representative of Deloitte & Touche LLP will be present at the Annual Meeting of Stockholders. It is not anticipated that the representative will make a prepared statement at the meeting. However, he or she will be free to do so if he or she so chooses, as well as respond to appropriate questions.

AUDIT COMMITTEE REPORT

The Audit Committee consists of five non-employee Directors of the Company. All members are independent as defined in the applicable New York Stock Exchange listing standards. The Committee held seven meetings during 2002.

The Audit Committee is a separately-designated standing committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the committee are Homer A. Scott, Jr., Chairman, Bruce R. Albertson, Dennis W. Johnson, John L. Olson and Harry J. Pearce.

The Audit Committee is governed by a written charter adopted in 1979 and reissued on May 11, 2000.

Edgar Filing: MDU RESOURCES GROUP INC - Form DEF 14A

In connection with the December 31, 2002 financial statements, the Audit Committee has (1) reviewed and discussed the audited financial statements with management; (2) discussed with

17

the independent auditors the matters required to be discussed by SAS 61 (Codification of Statements on Auditing Standards, AU §380); (3) received the written disclosures and the letter from the independent accountants required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and discussed with the independent accountant the independent accountant's independence.

Based on the review and discussions referred to in items (1) through (3) of the above paragraph, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the last fiscal year for filing with the Securities and Exchange Commission.

The Audit Committee has considered whether the provision of services covered in Items 9(e)(2) and (e)(3) of Schedule 14A under the Securities Exchange Act of 1934 is compatible with maintaining the independence of Deloitte & Touche LLP. The Committee believes that the fees billed by Deloitte & Touche LLP for the services set forth below are compatible with Deloitte & Touche LLP maintaining its independence as the Company's principal accountant.

Audit Fees: The aggregate fees billed or expected to be billed by Deloitte & Touche LLP for professional services rendered for the audit of the Company's annual financial statements for 2002 and the reviews of the financial statements included in the Company's Forms 10-Q for 2002 are \$617,500.

All Other Fees: The aggregate fees billed or expected to be billed for services rendered by Deloitte & Touche LLP, other than services described in the preceding paragraph, for 2002 were \$302,700.
