

Edgar Filing: Aeterna Zentaris Inc. - Form 6-K

1. Aeterna's Interim Report 2003 - Third Quarter (Q3)

November 5, 2003

To our stockholders,

At the financial level, this quarter was marked mainly by substantial revenues from Cetrotide(R), a marketed novel treatment for in vitro fertilization, and by the strong growth in sales and net earnings from our subsidiary Atrium, which acquired Chimiray/Interchemical in August of this year.

At the clinical development level, our kidney cancer Phase III trial with Neovastat did not meet its main clinical endpoint. However, we are pursuing our non-small cell lung cancer Phase III trial, whereby Neovastat is administered on a first-line basis in combination with standard treatment.

In addition, many other products in oncology, endocrinology and infectious diseases ensure a constant flow of high potential projects. Two already marketed products are gaining new market share; Cetrotide(R), a novel treatment for IN VITRO fertilization, and Impavido(R), sold in India as the first oral treatment for the visceral form of leishmaniasis, better known as black fever, which can prove life-threatening. Last July, we released positive Phase III trial results still with Impavido(R), this time for the cutaneous form of leishmaniasis, a severe parasitic skin disease prevalent in South America. As a matter of fact, we are currently preparing to file for its eventual approval on that continent. Finally, we are completing Phase II trials with Cetrorelix for uterus myoma, endometriosis and benign prostatic hyperplasia, diseases that affect millions of people worldwide.

Considering the scope of our pipeline, the strength of our international partnership network, the profitability of our subsidiary Atrium and our \$75 million cash position, I am confident that the Company is well positioned to pursue its long-term growth.

THIRD QUARTER 2003 HIGHLIGHTS

- o PHASE III TRIAL RESULTS FOR NEOVASTAT IN KIDNEY CANCER - In September, we reported Phase III trial results for Neovastat in renal cell carcinoma, a form of kidney cancer. The study involved 305 patients and did not reach its primary endpoint, which was to increase the median survival time of treated patients by 50%.
- o POSITIVE PHASE III RESULTS FOR IMPAVIDO(R) IN CUTANEOUS LEISHMANIASIS (PARASITIC SKIN DISEASE) - In July, we reported positive results of a Phase

Edgar Filing: Aeterna Zentaris Inc. - Form 6-K

III trial evaluating Impavido(R) (Miltefosine) for the treatment of cutaneous leishmaniasis, a severe skin disease. The data showed that patients taking Impavido(R) had a 220% better cure rate than those in the placebo group. These favorable data enable the Company to apply for marketing authorization in South American countries where the cutaneous form of the disease is predominant. Impavido(R) is currently sold in India and is the only oral cure for the life-threatening visceral form of leishmaniasis.

- o CLOSING OF A \$35.6 MILLION BOUGHT DEAL - In July, we closed a \$35.6 million bought deal, issuing 4.5 million subordinate voting shares at \$7.90 per share. The net proceeds of \$33.8 million of this financing will be used to further develop the product pipeline, pursue the Company's growth strategy and general corporate purposes.
- o ACQUISITION OF CHIMIRAY/INTERCHEMICAL BY ATRIUM BIOTECHNOLOGIES - In August, our subsidiary, Atrium, acquired 100% of all issued and outstanding shares of Chimiray/Interchemical for E11.5 million (\$18.4 million), payable by the issuance of a long-term debt of E5 million (\$8 million) and the residual of E6.5 million (\$10.4 million) in cash. Based in Paris, Chimiray/Interchemical is focused mainly in the distribution of fine chemicals and active ingredients. Net sales for the last twelve-month period were approximately E35 million (\$52 million). The company generated net earnings and was cash flow positive.

On behalf of my colleagues and our Board of Directors, I thank you for your continued interest and support.

Sincerely,

/s/ GILLES GAGNON

Gilles Gagnon, MSc, MBA
President and Chief Executive Officer

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

The following analysis explains the variations in the Company's results of operations, financial condition and cash flow. It provides an update to the discussion and analysis contained in our Annual Report of 2002. This discussion and analysis should be read in conjunction with the information contained in AETerna Laboratories Inc.'s interim consolidated financial statements and related notes for the nine-month periods ended September 30, 2003 and 2002. All figures are in Canadian dollars.

CRITICAL ACCOUNTING POLICIES

Edgar Filing: Aeterna Zentaris Inc. - Form 6-K

Our critical accounting policies are disclosed in the "Management's Discussion and Analysis of Financial Condition and Results of Operations" section and the annual consolidated financial statements contained in our 2002 Annual Report. Our financial statements are prepared in accordance with the Canadian Generally Accepted Accounting Principles (GAAP) and access to a summary of differences between Canadian and US GAAP is possible by consulting note 20 of our annual 2002 financial statements.

RESULTS OF OPERATIONS

REVENUES

Revenues for the third quarter ended September 30, 2003 were \$37.8 million compared to \$24.4 million for the same period last year. For the nine-month period ended September 30, 2003, the consolidated revenues were \$117.5 million compared to \$73.2 million in 2002. This increase for the quarter as well as for the first nine months of the year comes from the Biopharmaceutical segment with revenues totalling \$34.7 million, as of September 30, 2003. The balance of \$9.6 million comes from the Cosmetics & Nutrition (C&N) and the Distribution segments, representing an increase of 13% compared to the same period of 2002 for these segments.

The acquisition, in December 2002, of Frankfurt-based Zentaris provided most of the revenues in the Biopharmaceutical segment for this quarter as well as for the nine-month period. Revenues in this segment were generated by the marketing of Cetrotide(R) and Impavido(R), milestone payments, research and development contract fees and the amortization of up-front payments.

The increase of revenues in the C&N and the Distribution segments is generated by a continued growth of the C&N segment and by the acquisition, last August, of Chimiray/Interchemical in the Distribution segment.

OPERATING EXPENSES

The cost of sales during this quarter amounted to \$23.5 million compared to \$18.9 million for the same quarter in 2002. For the nine-month period ended September 30, 2003, the cost of sales has raised from \$56.3 million to \$67.2 million. The gross margin totalled \$8.2 million (25.7%) in the third quarter of 2003 in comparison with \$5.5 million (22.7%) in 2002, representing an increase of 47%. These costs are in direct proportion to corresponding revenues and their

percentage decreased by 3%. For the nine-month period, the gross margin has raised from \$16.8 million in 2002 to \$22.2 million this year, for an increase of 31%.

Selling, general and administrative expenses amounted to \$7.5 million during this quarter compared to \$3.9 million in 2002. Regarding the nine-month period, selling, general and administrative expenses were \$19.4 million compared to \$12.1 million in 2002. This increase is attributed to the Biopharmaceutical segment for an amount of \$5.1 million, as a result of the acquisition of Zentaris made last December. In addition, the C&N and Distribution segments increased their selling expenses by \$2 million as a result of the acquisition of Chimiray/Interchemical as well as the increase in their sales force.

Research and Development (R&D) investments, net of R&D tax credits and grants, amounted to \$9.8 million during this quarter in comparison with \$6.5 million last year. As of September 30, 2003, net R&D investments reached \$31.7 million in comparison with \$17.1 million in 2002. This increase is attributed to the

Edgar Filing: Aeterna Zentaris Inc. - Form 6-K

acquisition of Zentaris, whereby the net investment in R&D amounted to \$4.3 million for this quarter and \$15.6 million for the nine-month period ended September 30, 2003. Therefore, the level of investment for Neovastat, our lead antiangiogenic compound in oncology, was approximately the same as last year since the Phase III program was actively ongoing for renal cell carcinoma and non-small cell lung cancer during this period.

Depreciation and amortization (D&A) for this third quarter amounted to \$2.3 million compared to \$0.6 million in 2002. For the nine-month period ended September 30, 2003, D&A amounted to \$6.9 million compared to \$1.7 million for the same period last year. This significant increase is mainly related to the amortization of Zentaris technologies acquired in December 2002 with an amount of \$3.8 million for the nine-month period ended September 30, 2003. The purchase price allocation has been completed during the second quarter and an amount of \$12 million was allocated to goodwill from identified intangible assets. We expect that the amortization expense for 2003 will increase significantly over that of the 2002 fiscal year due to the intangible additions incurred at the end of 2002.

The operating loss (before financial items, income tax expenses and non-controlling expenses) amounted to \$5.3 million during this quarter in comparison with \$5.5 million in 2002. For the nine-month period of 2003, the operating loss was \$7.6 million compared to \$14 million in 2002 resulting in a decrease of \$6.4 million. This significant reduction is related to the increase of gross margin within our C&N and Distribution segments, as well as to new revenues generated by our Biopharmaceutical segment.

Interest income has decreased from \$0.7 million to \$0.5 million for this quarter compared to the same quarter of 2002. The decrease for this quarter, as well as for the nine-month period ended September 30, 2003, is primarily due to the cash used for the Zentaris transaction, as well as to the reduction in market yield available on short-term investments. The interest and financial expenses, for this quarter as well as for the nine-month period, mainly include the financing cost on the convertible term loans, the balance of purchase price settled in March 2003 and the promissory note of \$43 million reimbursed last January as interim financing related to Zentaris' acquisition.

A net foreign exchange gain of \$0.1 million was recorded during the quarter ended September 30, 2003 as well as for last year. This gain is attributable to the stability of the Canadian dollar over the US dollar during the last quarter. For the nine-month period ended September 30, 2003, the net foreign exchange loss amounted to \$1.3 million compared to a loss of \$0.2 million in 2002. This loss is attributable to the effect of the strengthening Canadian dollar on our US investment portfolio and working capital denominated in US dollars. We are maintaining US dollar cash and cash equivalent and short-term investments to meet our future expenditures in US dollars.

Income tax expense was \$2.1 million during this quarter compared to \$0.9 million in 2002. From the beginning of the year, income tax expense amounted to \$5.3 million in comparison to \$3.1 million in 2002. Income tax expense relates to profitable companies within our group.

The net loss for this quarter amounted to \$9.2 million or \$0.20 per share in 2003 compared to a net loss of \$6.2 million or \$0.15 per share for the same quarter in 2002. For the nine-month period ended September 30, 2003, the net loss was \$18.6 million or \$0.43 per share compared to \$17.8 million or \$0.46 per share last year.

Edgar Filing: Aeterna Zentaris Inc. - Form 6-K

LIQUIDITY AND CAPITAL RESOURCES

The financial position of the Company remains strong with \$75.4 million in cash and short-term investments as at September 30, 2003. During this quarter, we closed a bought deal financing on July 24, 2003 with the issuance of 4.5 million subordinate voting shares at \$7.90 per share. This financing will be used to further develop our product pipeline, to pursue our growth strategy based on strategic alliances and acquisition of new technologies and for general corporate purposes.

During this quarter, an amount of \$1.1 million was used for operating activities. The cash flow used in investing activities amounted to \$14.7 million of which an amount of \$14.4 million was used for the acquisition of Chimiray/Interchemical and an additional portion of Unipex Finance S.A. Furthermore, an amount of \$0.3 million was used for the acquisition of long-lived assets. The cash flow from financing activities amounted to \$42 million in this quarter and is explained by the bought deal mentioned above, for net proceeds of \$34.1 million, and by the issuance of a long-term debt of \$7.9 million related to the acquisition of Chimiray/Interchemical.

For the nine-month period ended September 30, 2003, an amount of \$8.5 million was used in operational activities. The cash flow used in investing activities amounted to \$18.3 million of which \$17 million were used for the acquisition of Chimiray/Interchemical and an additional portion of Unipex Finance S.A. Furthermore, an amount of \$1.3 million was used for the acquisition of long-lived assets. The cash flow from financing activities amounted to \$20.9 million as a result of inflows generated by the bought deal, the convertible loan and the issuance of a long-term debt totalling \$66.3 million, as well as outflows for the reimbursement of the promissory note and the balance of purchase price for an amount of \$45.4 million.

RISK FACTORS

Economic and sector related risks are the same as those identified in the "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained in the Company's 2002 Annual Report.

/s/ DENNIS TURPIN

Dennis Turpin, CA
Vice President and Chief Financial Officer

This report contains forward-looking statements, which are made pursuant to the safe harbor provisions of the U.S. Securities Litigation Reform Act of 1995. Forward-looking statements involve known and unknown risks and uncertainties which could cause the Company's actual results to differ materially from those in the forward-looking statements. Such risks and uncertainties include, among others, the availability of funds and resources to pursue R&D projects, the successful and timely completion of clinical studies, the ability of the Company to take advantage of the business opportunities in the pharmaceutical industry, uncertainties related to the regulatory process and general changes in economic

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIODS ENDED SEPTEMBER 30, 2003 AND 2002
(expressed in thousands of Canadian dollars, except share and per share data)

UNAUDITED

1 BASIS OF PRESENTATION

These unaudited interim financial statements as at September 30, 2003 and for the periods ended September 30, 2003 and 2002, are unaudited. They have been prepared by the Company in accordance with Canadian generally accepted accounting principles (GAAP) for interim financial information. In the opinion of management, all adjustments necessary to present fairly the financial

Edgar Filing: Aeterna Zentaris Inc. - Form 6-K

position, results of operations and cash flows for these periods have been included.

The accounting policies and methods of computation adopted in these financial statements are the same as those used in the preparation of the Company's most recent annual consolidated financial statements. All disclosures required for annual financial statements have not been included in these financial statements. These consolidated financial statements should be read in conjunction with the Company's most recent annual consolidated financial statements. These interim results of operations are not necessarily indicative of the results for the full year.

2 BUSINESS ACQUISITION

Unipex Finance S.A.

On January 13, May 27, and July 16, 2003, the subsidiary Atrium Biotechnologies Inc. (Atrium) acquired 23,760 common shares of the outstanding capital stock of Unipex Finance S.A. (Unipex) for a cash consideration of \$2,843,766. In addition, Atrium also invested in its subsidiary by acquiring 70,400 treasury shares of Unipex increasing its interest in the latter to 80.65% (70.28% in 2002). The excess of the purchase price over the net identifiable assets on the date of acquisition is \$3,174,618 and is recorded as goodwill not deductible for income tax purposes.

Zentaris AG

The allocation of the purchase price, following the acquisition of Zentaris' shares in December 2002 has been completed during the second quarter. At the acquisition date, Zentaris AG had two products developed that provided benefits from the sale of these products. The developed technology and the in-process research and development (R&D) were valued using a discounted cash flow approach resulting in an allocated fair value of \$66.9 M. The in-process R&D would require further development. The goodwill related to this transaction was valued at \$12 M and, according to GAAP, it will be not amortized but tested annually for impairment in relation to the fair value this reporting unit to which goodwill applies.

Interchemical S.A. and Chimiray S.A.

On August 5, 2003, Unipex Finance S.A., a French subsidiary of Atrium, acquired 100 % of the issued and outstanding common shares of Interchemical S.A. and Chimiray S.A. for a total consideration of \$ 18,714,636 of which an amount of \$14,198,063 was paid cash and \$ 933,492 as a balance of purchase price. These companies are focused mainly in the distribution of fine chemicals and active ingredients. The results of operations have been included in the statement of operations since August 5, 2003, being the date of acquisition. The net assets acquired at the allocated values are as follows:

AETERNA LABORATORIES INC.

3 COMPANY'S STOCK OPTION PLAN

The company has chosen not to use the fair value method to account for stock-based compensation costs arising from awards to employees but discloses the pro-forma information relating to net loss and loss per share as if the fair value method of accounting had been used.

	Three months ended September 30, 2003	Nine m Septem
Net loss for the period	\$ (9,238)	\$
Pro-forma adjustment for stock-based compensation costs	(283)	
Pro-forma net loss for the period	\$ (9,521)	\$

4 CONVERTIBLE TERM LOANS

The company issued convertible term loans in the aggregate principal amount of \$25 million, bearing interest at an annual rate of 12%, payable annually or at maturity at the option of the company. These term loans are secured by all assets of the company with the exception of equipments and the shares of Atrium Biotechnologie Inc. The term loans mature on March 31, 2006 and are convertible at all time at the option of the holders in subordinate voting shares of the company at a price of \$ 5.05 per share. The equity component, which corresponds to the option of the holders to convert term loans into shares of the company, was valued at the date of the loans and is classified as contributed surplus.

5 SHARE CAPITAL

	\$ 187,605	

Effective on May 29, 2003, all the multiple voting shares were converted into the same number of subordinate voting shares.

On July 24, 2003, pursuant a bought deal, the company issued 4,500,000 subordinate voting shares at a price of \$7.90 per share for a gross proceeds of \$35,550,000. Pursuant to the exercise of stock options, the company issued 141,965 subordinate voting shares.

6 SEGMENT INFORMATION

The company manages its business and evaluates performance based on three operating segments, which are the biopharmaceutical segment, the cosmetics and nutrition segment and the distribution segment. The accounting principles used for these three segments are consistent with those used in the preparation of these consolidated financial statements.
