(1) Restricted stock award under the company's stock plan, which is a Rule 16b-3 plan.

The performance share units are scheduled to cliff vest after a three year performance period and are tied to an equivalent target number of shares of common stock as shown. Any actual payout of shares of common stock is dependent entirely upon the relative total

(2) shareholder return of the company compared against a peer group over the performance period. Payout will not occur until the end of the performance period and will range from 0% to 200% of the target number of shares of common stock, with payout beginning at 50% of the target number of shares at total shareholder return of the company at the 25th percentile of the peer group.
