**Protecting Your Privacy
Our Pledge to You**

THE FUND IS COMMITTED TO YOUR PRIVACY. On this page, you will find the Fund's policies and practices for collecting, disclosing, and safeguarding "nonpublic personal information," which may include financial or other customer information. These policies apply to individuals who purchase Fund shares for personal, family, or household purposes, or have done so in the past. This notification replaces all previous statements of the Fund's consumer privacy policy, and may be amended at any time. We'll keep you informed of changes as required by law.

YOUR ACCOUNT IS PROVIDED IN A SECURE ENVIRONMENT. The Fund maintains physical, electronic and procedural safeguards that comply with federal regulations to guard nonpublic personal information. The Fund's agents and service providers have limited access to customer information based on their role in servicing your account.

THE FUND COLLECTS INFORMATION IN ORDER TO SERVICE AND ADMINISTER YOUR ACCOUNT. The Fund collects a variety of nonpublic personal information, which may include:

- Information we receive from you, such as your name, address, and social security number.
- Information about your transactions with us, such as the purchase or sale of Fund shares.
- Information we receive from agents and service providers, such as proxy voting information.

THE FUND DOES NOT SHARE NONPUBLIC PERSONAL INFORMATION WITH ANYONE, EXCEPT AS PERMITTED BY LAW.

Thank you for this opportunity to serve you.

The views expressed in this report reflect those of the portfolio manager(s) only through the end of the period covered and do not necessarily represent the views of Dreyfus or any other person in the Dreyfus organization. Any such views are subject to change at any time based upon market or other conditions and Dreyfus disclaims any responsibility to

update such views. These views may not be relied on as investment advice and, because investment decisions for a Dreyfus fund are based on numerous factors, may not be relied on as an indication of trading intent on behalf of any Dreyfus fund.

Dreyfus High Yield Strategies Fund

The Fund

A LETTER FROM THE PRESIDENT OF DREYFUS

Dear Shareholder:

We are pleased to present this annual report for Dreyfus High Yield Strategies Fund, covering the 12-month period from April 1, 2017 through March 31, 2018. For information about how the fund performed during the reporting period, as well as general market perspectives, we provide a Discussion of Fund Performance on the pages that follow.

Heightened volatility has returned to the financial markets. After a period of unusually mild price swings in 2017, inflation concerns, geopolitical tensions and trade disputes caused volatility to increase substantially over the opening months of 2018. As a result, U.S. stocks and bonds generally lost a degree of value over the first quarter of the year.

Despite recent market weakness, stocks across all capitalization ranges posted double-digit returns for the overall reporting period on the strength of rising corporate earnings, improving global economic conditions, and the passage of tax reform legislation and other government policy reforms. Bonds typically produced more mildly positive total returns for the same period, led by corporate-backed securities and long-term U.S. Treasury securities.

In our judgment, underlying market fundamentals remain strong, characterized by sustained economic growth, a robust labor market and strong consumer and business confidence. We expect these favorable conditions to persist, but we remain aware of economic and political developments that could negatively affect the markets. As always, we encourage you to discuss the risks and opportunities of today's investment environment with your financial advisor.

Thank you for your continued confidence and support.

Sincerely,

Renee Laroche-Morris
President
The Dreyfus Corporation
April 16, 2018

2

DISCUSSION OF FUND PERFORMANCE (Unaudited)

For the period from April 1, 2017 through March 31, 2018, as provided by Chris Barris, Kevin Cronk, and Leland Hart, Portfolio Managers

Market and Fund Performance Overview

For the 12-month period ended March 31, 2018, Dreyfus High Yield Strategies Fund produced a total return of 4.62% (on a net asset value basis) and provided aggregate income dividends of \$0.294 per share.¹ In comparison, the ICE BofA Merrill Lynch U.S. High Yield Master II Constrained Index (the "Index"), the fund's benchmark, achieved a total return of 3.70% for the same period.²

High yield corporate bonds produced moderately positive returns over the reporting period amid accelerating economic growth and rising corporate earnings. The fund outperformed the Index, primarily due to favorable security selections and a relatively short average duration.

On February 22, 2018, Leland Hart became a portfolio manager for the fund.

The Fund's Investment Approach

The fund primarily seeks high current income. The fund also seeks capital growth as a secondary objective, to the extent consistent with its objective of seeking high current income. The fund invests primarily in fixed-income securities of below-investment-grade credit quality. Issuers of below-investment-grade securities may include companies in early stages of development and companies with a highly leveraged financial structure. To compensate investors for taking on greater risk, such companies typically must offer higher yields than those offered by more established or conservatively financed companies. The fund may invest up to 10% of its total assets in floating rate loans.

Corporate Earnings Advanced in a Growing Economy

High yield bonds were energized over most of the reporting period by better-than-expected corporate earnings growth, strengthening U.S. labor markets, encouraging global economic developments, and the enactment of U.S. tax reform legislation. However, gains achieved during the final nine months of 2017 were partly offset by heightened market volatility over the first quarter of 2018, when rekindled inflationary pressures, rising geopolitical tensions, and concerns regarding U.S. trade policy undermined investor sentiment.

While lower-rated corporate bonds fared relatively well in the constructive economic environment, higher-quality sectors of the U.S. bond market were undermined by rising interest rates. The Federal Reserve Board (the "Fed") continued to move away from the aggressively accommodative monetary policies of the past few years, implementing short-term interest-rate hikes in June 2017, December 2017, and March 2018. In October 2017, the Fed began to unwind its balance sheet through sales of U.S. government securities. Longer-term interest rates also climbed over much of the reporting period, putting upward pressure on bond yields. Consequently, the Index and most bond market sectors gave back some of their previous gains over the reporting period's second half.

As of March 31, 2018 approximately 17.2% of the fund's holdings were callable within one year, compared to an average of 16.9% over the past five years.³

Lower-Rated Securities Fared Best

The fund's performance compared to the Index was enhanced over the reporting period by our security selection strategy. The fund received especially strong contributions to relative results from bonds with B and CCC credit ratings, which are at the lower end of the high yield credit-quality spectrum. The reporting period's top performers included bonds backed by companies in the services, technology, packaging and telecommunications sectors. In the industrials sector, equipment rental companies were bolstered by recovery activities in the wake of several natural disasters. In the health

3

DISCUSSION OF FUND PERFORMANCE (Unaudited) (continued)

care sector, a biopharmaceutical developer bounced back from previous weakness. The fund's positions in senior floating rate loans also helped bolster its relative performance.

The fund further benefited from our interest rate strategies. The fund's holdings featured shorter durations, on average, than their counterparts in the Index, which helped cushion the full brunt of weakness stemming from rising interest rates.

Our asset allocation strategy produced results that were roughly in line with market averages. The benefits of overweighted exposure to the stronger-performing metals-and-mining and chemicals industry groups were balanced by shortfalls resulting from an underweighted position in utilities and relatively heavy holdings of bonds from the telecommunications and packaging sectors. Moreover, disappointing security selections for the reporting period included bonds issued on behalf of a supermarket chain and a cable television provider.

Positioned for Continued Economic Growth

We remain optimistic regarding the prospects for high yield bonds. Business fundamentals remain strong, global economic growth has continued, corporate earnings are rising, and default rates have stayed low. Nonetheless, we are aware of potential pitfalls that could spark additional market volatility over the months ahead. Investors remained worried about geopolitical conflicts and potential trade disputes as of the reporting period's end, and most analysts expect additional short-term interest rate hikes by the Fed over the remainder of 2018.

Therefore, we believe that a disciplined, research-intensive approach to security selection may become even more important for investment success going forward. We have maintained overweighted exposure to B-rated and CCC-rated securities, and we have identified ample opportunities among bonds backed by companies in the packaging, services and building materials industries. We have found fewer securities meeting our investment criteria among companies in the fixed-line telecommunications and retail sectors.

April 16, 2018

¹ Total return includes reinvestment of dividends and any capital gains paid, based upon net asset value per share. Past performance is no guarantee of future results. Share price, yield and investment return fluctuate such that upon redemption, fund shares may be worth more or less than their original cost.

² Source: FactSet — The ICE BofA Merrill Lynch U.S. High Yield Master II Constrained Index contains all securities in the ICE BofA Merrill Lynch U.S. High Yield Index but caps issuer exposure at 2%. Index constituents are capitalization-weighted, based on their current amount outstanding, provided the total allocation to an individual issuer does not exceed 2%. Issuers that exceed the limit are reduced to 2% and the face value of each of their bonds is adjusted on a pro-rata basis. Similarly, the face values of bonds of all other issuers that fall below the 2% cap are increased on a pro-rata basis. In the event there are fewer than 50 issuers in the index, each is equally weighted and the face values of their respective bonds are increased or decreased on a pro-rata basis. Investors cannot invest directly in any index.

³ Callable securities give the issuer the option to prepay or “call” the securities before their maturity date, which may reduce the market value of the security if the security’s market price is above its call price. Issuers often exercise this right when interest rates are lower than when the security was issued. If an issuer “calls” its securities during a time of lower interest rates, the fund might have to reinvest the proceeds in an investment offering a lower yield, which could impact the fund’s yield and, indirectly, its market price.

Bonds are subject generally to interest-rate, credit, liquidity, and market risks, to varying degrees. Generally, all other factors being equal, bond prices are inversely related to interest-rate changes, and rate increases can cause price declines. High yield bonds are subject to increased credit risk and are considered speculative in terms of the issuer’s perceived ability to continue making interest payments on a timely basis and to repay principal upon maturity. The use of leverage may magnify the fund’s gains or losses. For derivatives with a leveraging component, adverse changes in the value or level of the underlying asset can result in a loss that is much greater than the original investment in the derivative.

FINANCIAL HIGHLIGHTS

The following table describes the performance for the fiscal periods indicated. Total return shows how much your investment in the fund would have increased (or decreased) during each period, assuming you had reinvested all dividends and distributions. These figures have been derived from the fund's financial statements and market price data for the fund's shares.

	Year Ended March 31,				
	2018	2017	2016	2015	2014

NOTES TO FINANCIAL STATEMENTS

NOTE 1—Significant Accounting Policies:

Dreyfus High Yield Strategies Fund (the “fund”) is registered under the Investment Company Act of 1940, as amended (the “Act”), as a non-diversified, closed-end management investment company. The fund’s primary investment objective is to seek high current income. Under normal market conditions, the fund invests at least 65% of its total assets in income securities of U.S. issuers rated below investment grade quality or unrated income securities that The Dreyfus Corporation (the “Manager” or “Dreyfus”), a wholly-owned subsidiary of The Bank of New York Mellon Corporation (“BNY Mellon”), serving as the fund’s investment manager and administrator, determines to be of comparable quality. The fund’s Common Stock trades on the New York Stock Exchange (the “NYSE”) under the ticker symbol DHF.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative U.S. generally accepted accounting principles (“GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (“SEC”) under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The fund’s financial statements are prepared in accordance with GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

(a) Portfolio valuation: The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price). GAAP establishes a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Additionally, GAAP provides guidance on determining whether the volume and activity in a market has decreased significantly and whether such a decrease in activity results in transactions that are not orderly. GAAP requires enhanced disclosures around valuation inputs and techniques used during annual and interim periods.

Various inputs are used in determining the value of the fund’s investments relating to fair value measurements. These inputs are summarized in the three broad levels listed below:

26

Level 1—unadjusted quoted prices in active markets for identical investments.

Level 2—other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3—significant unobservable inputs (including the fund’s own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Changes in valuation techniques may result in transfers in or out of an assigned level within the disclosure hierarchy. Valuation techniques used to value the fund’s investments are as follows:

Registered investment companies that are not traded on an exchange are valued at their net asset value and are generally categorized within Level 1 of the fair value hierarchy.

Investments in securities, floating rate loan interests and other securities, excluding short-term investments (other than U.S. Treasury Bills), and forward foreign currency exchange contracts (“forward contracts”) are valued each business day by an independent pricing service (the “Service”) approved by the fund’s Board of Trustees (the “Board”). Investments for which quoted bid prices are readily available and are representative of the bid side of the market in the judgment of the Service are valued at the mean between the quoted bid prices (as obtained by the Service from dealers in such securities) and asked prices (as calculated by the Service based upon its evaluation of the market for such securities). Other investments (which constitute a majority of the portfolio securities) are valued as determined by the Service, based on methods which include consideration of the following: yields or prices of securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions. These securities are generally categorized within Level 2 of the fair value hierarchy.

The Service is engaged under the general supervision of the Board.

When market quotations or official closing prices are not readily available, or are determined to not accurately reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the fund calculates its net asset value, the fund may value these investments at fair value as determined in accordance with the procedures approved by the Board. Certain factors may be considered when fair

27

NOTES TO FINANCIAL STATEMENTS *(continued)*

valuing investments such as: fundamental analytical data, the nature and duration of restrictions on disposition, an evaluation of the forces that influence the market in which the securities are purchased and sold, and public trading in similar securities of the issuer or comparable issuers. These securities are either categorized within Level 2 or 3 of the fair value hierarchy depending on the relevant inputs used.

For restricted securities where observable inputs are limited, assumptions about market activity and risk are used and are generally categorized within Level 3 of the fair value hierarchy.

Investments denominated in foreign currencies are translated to U.S. dollars at the prevailing rates of exchange.

Edgar Filing: DREYFUS HIGH YIELD STRATEGIES FUND - Form N-CSR

Forward contracts are valued at the forward rate and are generally categorized within Level 2 of the fair value hierarchy.

The following is a summary of the inputs used as of March 31, 2018 in valuing the fund's investments:

	Level 1– Unadjusted Quoted Prices	Level 2–Other Significant Observable Inputs	Level 3–Significant Unobservable Inputs	Total
Assets (\$)				
Investments in Securities:				
Collateralized Loan Obligations [†]	–	5,342,299	–	5,342,299
Corporate Bonds [†]	–	346,143,571	–	346,143,571
Floating Rate Loan Interests [†]	–	7,602,295	–	7,602,295
Registered Investment Company	6,104,455	–	–	6,104,455
Other Financial Instruments:				
Forward Foreign Currency Exchange Contracts ^{††}	–	127,604	–	127,604
Liabilities(\$)				
Other Financial Instruments:				
Forward Foreign Currency Exchange Contracts ^{††}	–	(6,526)	–	(6,526)

[†]See Statement of Investments for additional detailed categorizations.

^{††}Amount shown represents unrealized appreciation (depreciation) at period end.

At March 31, 2018, there were no transfers between levels of the fair value hierarchy. It is the fund's policy to recognize transfers between levels at the end of the reporting period.

28

(b) Foreign currency transactions: The fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in the market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

Net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized on securities transactions between trade and settlement date, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities other than investments resulting from changes in exchange rates. Foreign currency gains and losses on foreign currency transactions are also included with net realized and unrealized gain or loss on investments.

(c) Securities transactions and investment income: Securities transactions are recorded on a trade date basis. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recognized on the ex-dividend date and interest income, including, where applicable, accretion of discount and amortization of premium on investments, is recognized on the accrual basis.

(d) Affiliated issuers: Investments in other investment companies advised by Dreyfus are defined as “affiliated” under the Act.

(e) Risk: The fund invests primarily in debt securities. Failure of an issuer of the debt securities to make timely interest or principal payments, or a decline or the perception of a decline in the credit quality of a debt security, can cause the debt security’s price to fall, potentially lowering the fund’s share price. High yield (“junk”) bonds involve greater credit risk, including the risk of default, than investment grade bonds, and are considered predominantly speculative with respect to the issuer’s continuing ability to make principal and interest payments. In addition, the value of debt securities may decline due to general market conditions that are not specifically related to a particular issuer, such as real or perceived adverse economic conditions, changes in outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment. Such values may also decline because of factors that affect a particular industry.

The fund may invest in collateralized loan obligations (CLOs). A CLO is a trust typically collateralized substantially by a pool of loans, which may include, among others, domestic and foreign senior secured loans, senior

29

NOTES TO FINANCIAL STATEMENTS *(continued)*

unsecured loans, and subordinate corporate loans, including loans that may be rated below investment grade or equivalent unrated loans. The cash flows from the trust are split into two or more portions, called tranches, varying in risk and yield. The riskiest portion is the "equity" tranche which is subordinate to the other tranches in the event of defaults from the loans in the trust. Senior tranches typically have higher ratings and lower yields than the CLO's underlying securities and subordinated tranches, and may be rated investment grade. The ratings reflect both the credit quality of underlying collateral as well as how much protection a given tranche is afforded by tranches that are subordinate to it. The fund will not invest in CLO equity tranches.

The risks of an investment in a CLO depend largely on the type of the collateral and the tranche of the CLO in which the fund invests. CLO tranches can experience substantial losses due to actual defaults, increased sensitivity to defaults due to collateral default, market anticipation of defaults, as well as aversion to CLO securities as an asset class. Normally, CLOs are privately offered and sold, and thus, are not registered under the securities laws and may not have an active secondary trading market. As a result, investments in CLOs may be characterized by the fund as illiquid securities. In addition to the normal risks associated with credit-related securities discussed elsewhere in this prospectus (e.g., interest rate risk and default risk), investments in CLOs may be more volatile, less liquid and more difficult to price than other types of investments.

The fund is permitted to invest up to 5% of its assets directly in the common stock of junk bond issuers. This percentage will be in addition to any other common stock holdings acquired as part of warrants or “units”, so that the fund’s total common stock holdings could exceed 5% at a particular time. However, the fund currently intends to invest directly in common stocks (including those offered in an initial public offering) to gain sector exposure and when suitable junk bonds are not available for sale. The fund expects to sell the common stock promptly when suitable junk bonds are subsequently acquired.

The fund is permitted to invest up to 10% of the fund’s total assets in floating rate loans. Unlike publicly-traded common stocks which trade on national exchanges, there is no central market or exchange for loans to trade. Loans trade in an over-the-counter market, and confirmation and settlement, which are effected through standardized procedures and documentation, may take significantly longer than seven days to complete. The secondary market for floating rate loans also may be subject to irregular trading activity and wide bid/ask spreads. The lack of an active

trading market for certain floating rate loans may impair the ability of the

30

fund to realize full value in the event of the need to sell a floating rate loan and may make it difficult to value such loans. There may be less readily available, reliable information about certain floating rate loans than is the case for many other types of securities, and the fund's portfolio managers may be required to rely primarily on their own evaluation of a borrower's credit quality rather than on any available independent sources. The value of collateral, if any, securing a floating rate loan can decline, and may be insufficient to meet the issuer's obligations in the event of non-payment of scheduled interest or principal or may be difficult to readily liquidate. In the event of the bankruptcy of a borrower, the fund could experience delays or limitations imposed by bankruptcy or other insolvency laws with respect to its ability to realize the benefits of the collateral securing a loan. The floating rate loans in which the fund invests typically will be below investment grade quality and, like other below investment grade securities, are inherently speculative. As a result, the risks associated with such floating rate loans are similar to the risks of below investment grade securities, although senior loans are typically senior and secured in contrast to other below investment grade securities, which are often subordinated and unsecured. Floating rate loans may not be considered to be "securities" for purposes of the anti-fraud protections of the federal securities laws, including those with respect to the use of material non-public information, so that purchasers, such as the fund, may not have the benefit of these protections.

(f) Dividends and distributions to Shareholders: Dividends and distributions are recorded on the ex-dividend date. Dividends from investment income-net are normally declared and paid monthly. Dividends from net realized capital gains, if any, are normally declared and paid annually, but the fund may make distributions on a more frequent basis to comply with the distribution requirements of the Internal Revenue Code of 1986, as amended (the "Code"). To the extent that net realized capital gains can be offset by capital loss carryovers, it is the policy of the fund not to distribute such gains. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP.

Shareholders will have their distributions reinvested in additional shares of the fund, unless such Shareholders elect to receive cash, at the lower of the market price or net asset value per share (but not less than 95% of the market price). If market price is equal to or exceeds net asset value, shares will be issued at net asset value. If net asset value exceeds market price, Computershare Inc., the transfer agent, will buy fund shares in the open market and reinvest those shares accordingly.

31

NOTES TO FINANCIAL STATEMENTS *(continued)*

On March 27, 2018, the Board declared a cash dividend of \$0.0235 per share from undistributed investment income-net, payable on April 25, 2018 to Shareholders of record as of the close of business on April 11, 2018. The ex-dividend date was April 10, 2018.

(g) Federal income taxes: It is the policy of the fund to continue to qualify as a regulated investment company, if such qualification is in the best interests of its shareholders, by complying with the applicable provisions of the Code, and to make distributions of taxable income sufficient to relieve it from substantially all federal income and excise taxes.

As of and during the period ended March 31, 2018, the fund did not have any liabilities for any uncertain tax positions. The fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of Operations. During the period ended March 31, 2018, the fund did not incur any interest or penalties.

Each tax year in the four-year period ended March 31, 2018 remains subject to examination by the Internal Revenue Service and state taxing authorities.

At March 31, 2018, the components of accumulated earnings on a tax basis were as follows: undistributed ordinary income \$1,348,004, accumulated capital losses \$30,382,069 and unrealized appreciation \$2,150,569.

Under the Regulated Investment Company Modernization Act of 2010, the fund is permitted to carry forward capital losses for an unlimited period. Furthermore, capital loss carryovers retain their character as either short-term or long-term capital losses.

The accumulated capital loss carryover is available for federal income tax purposes to be applied against future net realized capital gains, if any, realized subsequent to March 31, 2018. The fund has \$7,138,603 of short-term capital losses and \$23,243,466 of long-term capital losses which can be carried forward for an unlimited period.

The tax character of distributions paid to shareholders during the fiscal periods ended March 31, 2018 and March 31, 2017 were as follows: ordinary income \$21,376,060 and \$23,477,376, respectively.

During the period ended March 31, 2018, as a result of permanent book to tax differences, primarily due to the tax treatment for amortization of premium, consent fees, capital loss carryover expiration and foreign currency transactions, the fund increased accumulated undistributed investment income-net by \$2,525,067, increased accumulated net realized gain (loss) on investments by \$30,939,072 and decreased paid-in capital by

32

\$33,464,139. Net assets and net asset value per share were not affected by this reclassification.

NOTE 2—Borrowings:

The fund has a \$125,000,000 Revolving Credit and Security Agreement (the “Agreement”), which was renewed until November 21, 2018, subject to certain amendments. Under the terms of the Agreement, the fund may borrow “Advances” (including Eurodollar Rate Advances), on a collateralized basis with certain fund assets used as collateral, which amounted to \$297,128,859 as of March 31, 2018. The interest to be paid by the fund on such Advances is determined with reference to the principal amount of each Advance (and/or Eurodollar Rate Advance) outstanding from time to time. The fund also pays additional fees pursuant to the Agreement. During the period ended March 31, 2018, total expenses pursuant to the Agreement amounted to \$2,760,238.

The average amount of borrowings outstanding under the Agreement during the period ended March 31, 2018 was \$116,241,100, with a related weighted average annualized interest rate of 2.37% and is inclusive of all expenses related to the Agreement.

NOTE 3—Management Fee and Other Transactions with Affiliates:

(a) Pursuant to a management and administration agreement with Dreyfus, the management and administration fee is computed at the annual rate of .75% of the value of the fund’s average weekly total assets minus the sum of accrued

liabilities (other than the aggregate indebtedness constituting financial leverage) (the “Managed Assets”) and is payable monthly.

(b) The fund compensates The Bank of New York Mellon, a subsidiary of BNY Mellon and an affiliate of Dreyfus, under a custody agreement for providing custodial services for the fund. These fees are determined based on net assets and transaction activity. During the period ended March 31, 2018, the fund was charged \$27,374 pursuant to the custody agreement. These fees were partially offset by earnings credits of \$1,491.

The fund has an arrangement with the custodian whereby the fund may receive earnings credits when positive cash balances are maintained, which are used to offset custody fees. For financial reporting purposes, the fund includes net earnings credits as an expense offset in the Statement of Operations.

During the period ended March 31, 2018, the fund was charged \$7,232 for services performed by the Chief Compliance Officer and his staff.

33

NOTES TO FINANCIAL STATEMENTS (*continued*)

The components of “Due to The Dreyfus Corporation and affiliates” in the Statement of Assets and Liabilities consist of: management fees \$233,453, custodian fees \$16,200 and Chief Compliance Officer fees \$1,896.

(c) Each Board member also serves as a Board member of other funds within the Dreyfus complex. Annual retainer fees and attendance fees are allocated to each fund based on net assets.

NOTE 4—Securities Transactions:

The aggregate amount of purchases and sales of investment securities, excluding short-term securities and forward contracts, during the period ended March 31, 2018, amounted to \$172,713,258 and \$174,796,193, respectively.

Derivatives: A derivative is a financial instrument whose performance is derived from the performance of another asset. The fund enters into International Swaps and Derivatives Association, Inc. Master Agreements or similar agreements (collectively, “Master Agreements”) with its over-the-counter (“OTC”) derivative contract counterparties in order to, among other things, reduce its credit risk to counterparties. Master Agreements include provisions for general obligations, representations, collateral and events of default or termination. Under a Master Agreement, the fund may offset with the counterparty certain derivative financial instrument’s payables and/or receivables with collateral held and/or posted and create one single net payment in the event of default or termination.

Each type of derivative instrument that was held by the fund during the period ended March 31, 2018 is discussed below.

Forward Foreign Currency Exchange Contracts: The fund enters into forward contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings, to settle foreign currency transactions or as a part of its investment strategy. When executing forward contracts, the fund is obligated to buy or sell a foreign currency at a specified rate on a certain date in the future. With respect to sales of forward contracts, the fund incurs a loss if the value of the contract increases between the date the forward contract is opened and the date the forward contract is closed. The fund realizes a gain if the value of the contract decreases between those dates. With respect to purchases of forward contracts, the fund incurs a loss if the value of the contract decreases between the date the forward contract is opened and the date the forward contract is closed. The fund realizes a gain if the value of the

contract increases between those dates. Any realized or unrealized gains or losses which occurred during the period are reflected in the Statement of

34

Operations. The fund is exposed to foreign currency risk as a result of changes in value of underlying financial instruments. The fund is also exposed to credit risk associated with counterparty nonperformance on these forward contracts, which is generally limited to the unrealized gain on each open contract. This risk may be mitigated by Master Agreements, if any, between the fund and the counterparty and the posting of collateral, if any, by the counterparty to the fund to cover the fund's exposure to the counterparty. Forward Contracts open at March 31, 2018 are set forth in the Statement of Forward Foreign Currency Exchange Contracts.

The provisions of ASC Topic 210 "Disclosures about Offsetting Assets and Liabilities" require disclosure on the offsetting of financial assets and liabilities. These disclosures are required for certain investments, including derivative financial instruments subject to Master Agreements which are eligible for offsetting in the Statement of Assets and Liabilities and require the fund to disclose both gross and net information with respect to such investments. For financial reporting purposes, the fund does not offset derivative assets and derivative liabilities that are subject to Master Agreements in the Statement of Assets and Liabilities.

At March 31, 2018, derivative assets and liabilities (by type) on a gross basis are as follows:

Derivative Financial Instruments:	Assets (\$)	Liabilities (\$)
Forward contracts	127,604	(6,526)
Total gross amount of derivative assets and liabilities in the Statement of Assets and Liabilities	127,604	(6,526)
Derivatives not subject to Master Agreements	-	-
Total gross amount of assets and liabilities subject to Master Agreements	127,604	(6,526)

35

NOTES TO FINANCIAL STATEMENTS (continued)

The following tables present derivative assets and liabilities net of amounts available for offsetting under Master Agreements and net of related collateral received or pledged, if any, as of March 31, 2018:

Counterparty	Gross Amount of Assets (\$)	¹	Financial Instruments and Derivatives Available for Offset (\$)	Collateral Received (\$)	Net Amount of Assets (\$)
Barclays Bank	88,370	-	-	-	88,370
	18,850	-	-	-	18,850

Commonwealth Bank of Australia Morgan Stanley Capital Services	20,384	-	-	20,384
Total	127,604	-	-	127,604

Counterparty	Gross Amount of Liabilities (\$)	1	Financial Instruments and Derivatives Available for Offset (\$)	Collateral Pledged (\$)	Net Amount of Liabilities (\$)
Goldman Sachs International	(6,526)	-	-	-	(6,526)

¹ Absent a default event or early termination, OTC derivative assets and liabilities are presented at gross amounts and are not offset in the Statement of Assets and Liabilities.

The following summarizes the average market value of derivatives outstanding during the period ended March 31, 2018:

Forward contracts	Average Market Value (\$)
	22,245,107

At March 31, 2018, the cost of investments inclusive of derivative contracts for federal income tax purposes was \$363,049,209; accordingly, accumulated net unrealized appreciation on investments was \$2,143,411, consisting of \$10,778,462 gross unrealized appreciation and \$8,635,051 gross unrealized depreciation.

36

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Trustees

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Dreyfus High Yield Strategies Fund (the Fund), including the statements of investments, forward foreign currency exchange contracts and investments in affiliated issuers, as of March 31, 2018, the related statement of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, and the related notes (collectively, the financial statements) and the financial highlights for each of the years in the five-year period then ended. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Fund as of March 31, 2018, the results of its operations for the year then ended, the changes in its net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. We are a public

accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Such procedures also included confirmation of securities owned as of March 31, 2018, by correspondence with the custodian and brokers or by other appropriate auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. We believe that our audits provide a reasonable basis for our opinion.

We have served as the auditor of one or more Dreyfus advised investment companies since 1994.

New York, New York

ADDITIONAL INFORMATION (Unaudited)

Dividend Reinvestment Plan

To participate automatically in the Dividend Reinvestment Plan (the “Plan”) of the fund, fund shares must be registered in either your name, or, if your fund shares are held in nominee or “street” name through your broker-dealer, your broker-dealer must be a participant in the Plan. You may terminate your participation in the Plan, as set forth below. All shareholders participating (the “Participants”) in the Plan will be bound by the following provisions:

Computershare Inc. (the “Agent”) will act as Agent for each Participant, and will open an account for each Participant under the Plan in the same name as their present shares are registered, and put into effect for them the dividends reinvestment option of the plan as of the first record date for a dividend or capital gains distribution.

Whenever the fund declares income dividend or capital gains distribution payable in shares of the fund or cash at the option of the shareholders, each Participant that does not opt for cash distributions shall take such distribution entirely in shares. If on the payment date for a dividend or capital gains distribution, the net asset value is equal to or less than the market price per share plus estimated brokerage commissions, the Agent shall automatically receive such shares, including fractions, for each Participant’s account except in the circumstances described in the following paragraph. Except in such circumstances, the number of additional shares to be credited to each Participant’s account shall be determined by dividing the dollar amount of the income dividend or capital gains distribution payable on their shares by the greater of the net asset value per share determined as of the date of purchase or 95% of the then current market price per share of the fund’s shares on the payment date.

Should the net asset value per share of the fund shares exceed the market price per share plus estimated brokerage commissions on the payment date for a share or cash income dividend or capital gains distribution, the Agent or a

broker-dealer selected by the Agent shall endeavor, for a purchase period of 30 days to apply the amount of such dividend or capital gains distribution on each Participant's shares (less their pro rata share of brokerage commissions incurred with respect to the Agent's open-market purchases in connection with the reinvestment of such dividend or distribution) to purchase shares of the fund on the open market for each Participant's account. In no event may such purchase be made more than 30 days after the payment date for such dividend or distribution except where temporary curtailment or suspension of purchase is necessary to comply with applicable provisions of federal securities laws. If, at the close of business on any day during the purchase period the net asset value per share equals or is less than the market price per share plus estimated brokerage commissions, the Agent will not make any further open-market purchases in connection with the reinvestment of such dividend or distribution. If the Agent is unable to invest the full dividend or distribution amount through open-market purchases during the purchase period, the Agent shall request that, with respect to the uninvested portion of such dividend or distribution amount, the fund issue new shares at the close of business on

38

the earlier of the last day of the purchase period or the first day during the purchase period on which the net asset value per share equals or is less than the market price per share, plus estimated brokerage commissions. These newly issued shares will be valued at the then-current market price per share of the fund's shares at the time such shares are to be issued.

For purposes of making the dividend reinvestment purchase comparison under the Plan, (a) the market price of the fund's shares on a particular date shall be the last sales price on the NYSE on that date, or, if there is no sale on such NYSE on that date, then the mean between the closing bid and asked quotations for such shares on such NYSE on such date and (b) the net asset value per share of the fund's shares on a particular date shall be the net asset value per share most recently calculated by or on behalf of the fund.

Open-market purchases provided for above may be made on any securities exchange where the fund's shares are traded, in the over-the counter market or in negotiated transactions and may be on such terms as to price, delivery and otherwise as the Agent shall determine. Each Participant's uninvested funds held by the Agent will not bear interest, and it is understood that, in any event, the Agent shall have no liability in connection with any inability to purchase shares within 30 days after the initial date of such purchase as herein provided, or with the timing of any purchase effected. The Agent shall have no responsibility as to the value of the fund's shares acquired for each Participant's account. For the purpose of cash investments, the Agent may commingle each Participant's fund with those of other shareholders of the fund for whom the Agent similarly acts as Agent, and the average price (including brokerage commissions) of all shares purchased by the Agent as Agent shall be the price per share allocable to each Participant in connection therewith.

The Agent may hold each Participant's shares acquired pursuant to the Plan together with the shares of other shareholders of the fund acquired pursuant to the Plan in noncertificated form in the Agent's name or that of the Agent's nominee. The Agent will forward to each Participant any proxy solicitation material; and will vote any shares so held for each Participant first in accordance with the instructions set forth on proxies returned by the Participant to the fund, and then with respect to any proxies not returned by the participant to the fund in the same portion as the Agent votes proxies returned by the Participants to the fund. Upon a Participant's written request, the Agent will deliver to the Participant, without charge, a certificate or certificates for the full shares.

The Agent will confirm to each Participant each acquisition made for their account as soon as practicable but not later than 60 days after the date thereof. Although each Participant may from time to time have an undivided fractional interest (computed to four decimal places) in a share of the fund, no certificates for a fractional share will be issued. However, dividends and distributions on fractional shares will be credited to each Participant's account. In the event of

termination of a Participant's account under the Plan, the Agent will adjust for any such undivided fractional interest in cash at the market value of the fund's shares at the time of termination.

39

ADDITIONAL INFORMATION (Unaudited) (continued)

Any share dividends or split shares distributed by the fund on shares held by the Agent for Participants will be credited to their accounts. In the event that the fund makes available to its shareholders rights to purchase additional shares of other securities, the shares held for each Participant under the Plan will be added to other shares held by the Participant in calculating the number of rights to be issued to each Participant.

The Agent's service fee for handling capital gains distributions or income dividends will be paid by the fund. Each Participant will be charged their pro rata share of brokerage commissions on all open market purchases.

Each Participant may terminate their account under the Plan by notifying the Agent in writing. Such termination will be effective immediately if the Participant's notice is received by the Agent not less than ten days prior to any dividend or distribution record date, otherwise such termination will be effective shortly after the investment of such dividend distributions with respect to any subsequent dividend or distribution. The Plan may be terminated by the Agent or the fund upon notice in writing mailed to each Participant at least 90 days prior to any record date for the payment of any dividend or distribution by the fund. Upon any termination, the Agent will cause a certificate or certificates to be issued for the full shares held for each Participant under the Plan and cash adjustment for any fraction to be delivered to them without charge. If a Participant elects by notice to the Agent in writing in advance of such termination to have the Agent sell part or all of their shares and remit the proceeds to them, the Agent is authorized to deduct a \$5.00 fee plus brokerage commission for this transaction from the proceeds.

These terms and conditions may be amended or supplemented by the Agent or the fund at any time or times but, except when necessary or appropriate to comply with applicable law or the rules or policies of the SEC or any other regulatory authority, only by mailing to each Participant appropriate written notice at least 30 days prior to the effective date thereof. The amendment or supplement shall be deemed to be accepted by each Participant unless, prior to the effective date thereof, the Agent receives written notice of the termination of their account under the Plan. Any such amendment may include an appointment by the Agent in its place and stead of a successor Agent under these terms and conditions, with full power and authority to perform all or any of the acts to be performed by the Agent under these terms and conditions. Upon any such appointment of any Agent for the purpose of receiving dividends and distributions, the fund will be authorized to pay to such successor Agent, for each Participant's account, all dividends and distributions payable on shares of the fund held in their name or under the Plan for retention or application by such successor Agent as provided in these terms and conditions.

The Agent shall at all times act in good faith and agree to use its best efforts within reasonable limits to insure the accuracy of all services performed under this Agreement and to comply with applicable law, but assumes no responsibility and shall not be liable for loss or damage due to errors unless such error is caused by the Agent's negligence, bad faith, or willful misconduct or that of its employees.

40

These terms and conditions shall be governed by the laws of the State of New York.

Supplemental Information

During the period ended March 31, 2018, there were: (i) no material changes in the fund's investment objectives or fundamental investment policies, (ii) no changes in the fund's charter or by-laws that would delay or prevent a change of control of the fund, and On February 22, 2018, the Board approved the appointment of Leland Hart as a primary portfolio manager for the fund. Mr. Hart will manage the fund with the fund's current primary portfolio managers, Chris Barris and Kevin Cronk.

41

IMPORTANT TAX INFORMATION (Unaudited)

For federal tax purposes, the fund reports the maximum amount allowable but not less than 74.54% as interest-related dividends in accordance with Section 871(k)(1) and 881(e) of the Internal Revenue Code.

42

INFORMATION ABOUT THE RENEWAL OF THE FUND'S MANAGEMENT AGREEMENT (Unaudited)

At a meeting of the fund's Board of Trustees held on February 21-22, 2018, the Board considered the renewal of the fund's Investment Management and Administration Agreement pursuant to which Dreyfus provides the fund with investment advisory and administrative services (the "Agreement"). The Board members, none of whom are "interested persons" (as defined in the Investment Company Act of 1940, as amended) of the fund, were assisted in their review by independent legal counsel and met with counsel in executive session separate from Dreyfus representatives. In considering the renewal of the Agreement, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Board member may have attributed different weights to the factors considered.

Analysis of Nature, Extent, and Quality of Services Provided to the Fund. The Board considered information provided to them at the meeting and in previous presentations from Dreyfus representatives regarding the nature, extent, and quality of the services provided to funds in the Dreyfus fund complex. Dreyfus representatives stated that the fund was a closed-end fund without daily inflows and outflows of capital and provided the fund's asset size. Dreyfus also had previously provided information regarding the diverse intermediary relationships and distribution channels of funds in the Dreyfus fund complex and Dreyfus' corresponding need for broad, deep, and diverse resources to be able to provide ongoing shareholder services to intermediaries and shareholders.

The Board also considered research support available to, and portfolio management capabilities of, the fund's portfolio management personnel and that Dreyfus also provides oversight of day-to-day fund operations, including fund accounting and administration and assistance in meeting legal and regulatory requirements. The Board also considered Dreyfus' extensive administrative, accounting and compliance infrastructures.

Comparative Analysis of the Fund's Performance and Management Fee and Expense Ratio. The Board reviewed reports prepared by Broadridge Financial Solutions, Inc. ("Broadridge"), an independent provider of investment company data, which included information comparing (1) the fund's performance with the performance of a group of comparable funds (the "Performance Group") and with a broader group of funds (the "Performance Universe"), all for

various periods ended December 31, 2017, and (2) the fund's actual and contractual management fees and total expenses with those of a group of comparable funds (the "Expense Group") and with a broader group of funds (the "Expense Universe"), the information for which was derived in part from fund financial statements available to Broadridge as of the date of its analysis. Dreyfus previously had furnished the Board with a description of the methodology Broadridge used to select the Performance Group and Performance Universe and the Expense Group and Expense Universe.

43

INFORMATION ABOUT THE RENEWAL OF THE FUND'S MANAGEMENT AGREEMENT (Unaudited)
(continued)

Dreyfus representatives stated that the usefulness of performance comparisons may be affected by a number of factors, including different investment limitations that may be applicable to the fund and comparison funds. The Board discussed with representatives of Dreyfus and/or its affiliates the results of the comparisons and considered that the fund's total return performance, on a net asset value basis, was at or above the Performance Group and Performance Universe medians in all periods, except the two-year period when the fund's total return performance was below the Performance Group and Performance Universe medians and the ten-year period when the fund's performance was below the Performance Group median. The Board also considered that the fund's total return performance, on a market price basis, was at or below the Performance Group and Performance Universe medians in all periods, except the five- and ten-year periods when the fund's performance was above the Performance Universe median. The Board also considered that the fund's yield performance, on a net asset value basis, was at or above the Performance Group median for six of the one-year periods ended December 31st and was above the Performance Universe median for eight of the ten one-year periods ended December 31st. The Board also considered that the fund's yield performance, on a market value basis, was above the Performance Group and Performance Universe medians for seven of the ten one-year periods ended December 31st. Dreyfus also provided a comparison of the fund's calendar year total returns to the returns of the fund's benchmark index, and it was considered that the fund's returns were above the returns of the index in six of the ten calendar years shown.

The Board also reviewed the range of actual and contractual management fees and total expenses of the Expense Group and Expense Universe funds and discussed the results of the comparisons. The Board was reminded that the fund's management fee was .75% of the value of the fund's average weekly total assets (minus the sum of accrued liabilities, other than the aggregate indebtedness constituting financial leverage) ("Managed Assets"). The Board considered that the fund's contractual management fee was above the Expense Group median, the fund's actual management fee was above the Expense Group medians (based on both Managed Assets and common assets alone) and below and at the Expense Universe medians (based on both Managed Assets and common assets alone, respectively). The Board also noted that the fund's total expense ratio, which was provided by Broadridge and included investment-related expenses such as costs associated with the fund's leverage, was below the Expense Group medians (based on both Managed Assets and common assets alone) and slightly above the Expense Universe medians (based on both Managed Assets and common assets alone).

Dreyfus representatives reviewed with the Board the management or investment advisory fees (1) paid by funds advised or administered by Dreyfus that are in the same Lipper category as the fund and (2) paid to Dreyfus or the Dreyfus-affiliated primary employer of the fund's primary portfolio manager(s) for advising any separate accounts and/or other types of client portfolios that are considered to have similar investment strategies and policies as the fund (the "Similar Clients"), and explained the nature of the Similar Clients. They discussed differences in fees paid and the relationship of the fees paid in light of any differences in the services provided and other relevant factors,

44

stating that the fund is a closed-end fund. The Board considered the relevance of the fee information provided for the Similar Clients to evaluate the appropriateness of the fund's management fee.

Analysis of Profitability and Economies of Scale. Dreyfus representatives reviewed the expenses allocated and profit received by Dreyfus and its affiliates and the resulting profitability percentage for managing the fund and the aggregate profitability percentage to Dreyfus and its affiliates for managing the funds in the Dreyfus fund complex, and the method used to determine the expenses and profit. The Board concluded that the profitability results were not unreasonable, given the services rendered and service levels provided by Dreyfus. The Board also had been provided with information prepared by an independent consulting firm regarding Dreyfus' approach to allocating costs to, and determining the profitability of, individual funds and the entire Dreyfus fund complex. The consulting firm also had analyzed where any economies of scale might emerge in connection with the management of a fund.

The Board considered, on the advice of its counsel, the profitability analysis (1) as part of its evaluation of whether the fees under the Agreement, considered in relation to the mix of services provided by Dreyfus, including the nature, extent and quality of such services, supported the renewal of the Agreement and (2) in light of the relevant circumstances for the fund and the extent to which economies of scale would be realized if the fund grows and whether fee levels reflect these economies of scale for the benefit of fund shareholders. Dreyfus representatives stated that, because the fund is a closed-end fund without daily inflows and outflows of capital, there were not at this time significant economies of scale to be realized by Dreyfus in managing the fund's assets. Dreyfus representatives also stated that, as a result of shared and allocated costs among funds in the Dreyfus fund complex, the extent of economies of scale could depend substantially on the level of assets in the complex as a whole, so that increases and decreases in complex-wide assets can affect potential economies of scale in a manner that is disproportionate to, or even in the opposite direction from, changes in the fund's asset level. The Board also considered potential benefits to Dreyfus from acting as investment adviser and considered that there were no soft dollar arrangements in effect for trading the fund's investments.

At the conclusion of these discussions, the Board agreed that it had been furnished with sufficient information to make an informed business decision with respect to the renewal of the Agreement. Based on the discussions and considerations as described above, the Board concluded and determined as follows.

- The Board concluded that the nature, extent and quality of the services provided by Dreyfus are adequate and appropriate.
- The Board generally was satisfied with the fund's overall performance.
- The Board concluded that the fee paid to Dreyfus continued to be appropriate under the circumstances and in light of the factors and the totality of the services provided as discussed above.

45

INFORMATION ABOUT THE RENEWAL OF THE FUND'S MANAGEMENT AGREEMENT (Unaudited) (continued)

- The Board determined that the economies of scale which may accrue to Dreyfus and its affiliates in connection with the management of the fund had been adequately considered by Dreyfus in connection with the fee rate charged to the fund pursuant to the Agreement and that, to the extent in the future it were determined that material economies of scale had not been shared with the fund, the Board would seek to have those economies of scale shared with the fund.

In evaluating the Agreement, the Board considered these conclusions and determinations and also relied on its previous knowledge, gained through meetings and other interactions with Dreyfus and its affiliates, of Dreyfus and the services provided to the fund by Dreyfus. The Board also relied on information received on a routine and regular basis throughout the year relating to the operations of the fund and the investment management and other services provided under the Agreement, including information on the investment performance of the fund in comparison to similar funds and benchmark performance indices; general market outlook as applicable to the fund; and compliance reports. In addition, the Board's consideration of the contractual fee arrangements for this fund had the benefit of a number of years of reviews of the Agreement for the fund, or substantially similar agreements for other Dreyfus funds that the Board oversees, during which lengthy discussions took place between the Board and Dreyfus representatives. Certain aspects of the arrangements may receive greater scrutiny in some years than in others, and the Board's conclusions may be based, in part, on their consideration of the fund's arrangements, or substantially similar arrangements for other Dreyfus funds that the Board oversees, in prior years. The Board determined to renew the Agreement.

Item 2. Code of Ethics.

The Registrant has adopted a code of ethics that applies to the Registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There have been no amendments to, or waivers in connection with, the Code of Ethics during the period covered by this Report.

Item 3. Audit Committee Financial Expert.

The Registrant's Board has determined that Joseph S. DiMartino, a member of the Audit Committee of the Board, is an audit committee financial expert as defined by the Securities and Exchange Commission (the "SEC"). Joseph S. DiMartino is "independent" as defined by the SEC for purposes of audit committee financial expert determinations.

Item 4. Principal Accountant Fees and Services.

(a) Audit Fees. The aggregate fees billed for each of the last two fiscal years (the "Reporting Periods") for professional services rendered by the Registrant's principal accountant (the "Auditor") for the audit of the Registrant's annual financial statements or services that are normally provided by the Auditor in connection with the statutory and regulatory filings or engagements for the Reporting Periods, were \$102,600 in 2017 and \$104,140 in 2018.

(b) Audit-Related Fees. The aggregate fees billed in the Reporting Periods for assurance and related services by the Auditor that are reasonably related to the performance of the audit of the Registrant's financial statements and are not reported under paragraph (a) of this Item 4 were \$5,280 in 2017 and \$5,360 in 2018. These services consisted of one or more of the following: (i) agreed upon procedures related to compliance with Internal Revenue Code section 817(h), (ii) security counts required by Rule 17f-2 under the Investment Company Act of 1940, as amended, (iii) advisory services as to the accounting or disclosure treatment of Registrant transactions or events and (iv) advisory services to the accounting or disclosure treatment of the actual or potential impact to the Registrant of final or proposed rules, standards or interpretations by the Securities and Exchange Commission, the Financial Accounting Standards Boards or other regulatory or standard-setting bodies.

The aggregate fees billed in the Reporting Periods for non-audit assurance and related services by the Auditor to the Registrant's investment adviser (not including any sub-investment adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the Registrant ("Service Affiliates"), that were reasonably related to the performance of the annual audit of the Service Affiliate, which required pre-approval by the Audit Committee were \$0 in 2017 and \$0 in 2018.

(c) Tax Fees. The aggregate fees billed in the Reporting Periods for professional services rendered by the Auditor for tax compliance, tax advice, and tax planning ("Tax Services") were \$2,600 in 2017 and \$2,650 in 2018. These services consisted of review or preparation of U.S. federal, state, local and excise tax returns. The aggregate fees billed in the Reporting Periods for Tax Services by the Auditor to Service Affiliates, which required pre-approval by

the Audit Committee were \$0 in 2017 and \$0 in 2018.

(d) All Other Fees. The aggregate fees billed in the Reporting Periods for products and services provided by the Auditor, other than the services reported in paragraphs (a) through (c) of this Item, were \$0 in 2017 and \$0 in 2018.

The aggregate fees billed in the Reporting Periods for Non-Audit Services by the Auditor to Service Affiliates, other than the services reported in paragraphs (b) through (c) of this Item, which required pre-approval by the Audit Committee, were \$0 in 2017 and \$0 in 2018.

(e)(1) Audit Committee Pre-Approval Policies and Procedures. The Registrant's Audit Committee has established policies and procedures (the "Policy") for pre-approval (within specified fee limits) of the Auditor's engagements for non-audit services to the Registrant and Service Affiliates without specific case-by-case consideration. The pre-approved services in the Policy can include pre-approved audit services, pre-approved audit-related services, pre-approved tax services and pre-approved all other services. Pre-approval considerations include whether the proposed services are compatible with maintaining the Auditor's independence. Pre-approvals pursuant to the Policy are considered annually.

(e)(2) Note. None of the services described in paragraphs (b) through (d) of this Item 4 were approved by the Audit Committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

(f) None of the hours expended on the principal accountant's engagement to audit the registrant's financial statements for the most recent fiscal year were attributed to work performed by persons other than the principal account's full-time, permanent employees.

Non-Audit Fees. The aggregate non-audit fees billed by the Auditor for services rendered to the Registrant, and rendered to Service Affiliates, for the Reporting Periods were \$21,315,000 in 2017 and \$18,186,000 in 2018.

Auditor Independence. The Registrant's Audit Committee has considered whether the provision of non-audit services that were rendered to Service Affiliates, which were not pre-approved (not requiring pre-approval), is compatible with maintaining the Auditor's independence.

Item 5. Audit Committee of Listed Registrants.

During the reporting period, the Registrant had a separately-designated standing Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, consisting of the following members: Joseph S. DiMartino, Francine J. Bovich, Kenneth A. Himmel, Stephen J. Lockwood, Roslyn M. Watson and Benaree Pratt Wiley.

Item 6. Investments.

(a) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The board has delegated to The Dreyfus Corporation ("Dreyfus") the authority to vote proxies of companies held in the fund's portfolio.

Information regarding how the fund's proxies were voted during the most recent 12-month period ended June 30th is available on Dreyfus' website, by the following August 31st, at <http://www.dreyfus.com> and on the SEC's website at <http://www.sec.gov> on the fund's Form N-PX.

Proxy Voting By Dreyfus

Dreyfus, through its participation in The Bank of New York Mellon Corporation's ("BNY Mellon") Proxy Voting and Governance Committee (the "Proxy Voting Committee"), applies detailed, pre-determined, written proxy voting guidelines for specific types of proposals and matters commonly submitted to shareholders (the "BNY Mellon Voting Guidelines"). This includes guidelines for proxy voting with respect to open-end registered investment company shares (other than securities of a registered investment company over which BNY Mellon and its direct and indirect subsidiaries, including Dreyfus ("BNYM") has proxy voting authority).

Securities Out on Loan. It is Dreyfus' policy to seek to vote all proxies for securities held in the fund's portfolios for which Dreyfus has voting authority. However, situations may arise in which the Proxy Voting Committee cannot, or has adopted a policy not to, vote certain proxies, such as refraining from securities out on loan in instances in which the costs are believed to outweigh the benefits, such as when the matters presented are not likely to have a material impact on shareholder value or clients' voting will not impact the outcome of the vote.

Securities Out on Loan. For securities that the fund has loaned to another party, any voting rights that accompany the loaned securities generally pass to the borrower of the securities, but the fund retains the right to recall a security and may then exercise the security's voting rights. In order to vote the proxies of securities out on loan, the securities must be recalled prior to the established record date. The fund may recall the loan to vote proxies if a material issue affecting the fund's investment is to be voted upon.

Material Conflicts of Interest. Dreyfus seeks to avoid material conflicts of interest between the fund and fund shareholders, on the one hand, and Dreyfus, the Distributor, or any affiliated person of the fund, Dreyfus or the Distributor, on the other, through its participation in the Proxy Voting Committee. The BNY Mellon Proxy Voting Policy states that the Proxy Voting Committee seeks to avoid material conflicts of interest through the establishment of the committee structure, which applies the BNY Mellon Voting Guidelines in an objective and consistent manner across client accounts, based on internal and external research and recommendations provide by third party proxy advisory services (including Institutional Shareholder Services, Inc. and Glass Lewis & Co., LLC (the "Proxy Advisers")) and without consideration of any client relationship factors. The Proxy Voting Committee utilizes the research services of the Proxy Advisers most frequently in connection with proposals that may be controversial or require a case-by-case analysis in accordance with the BNY Mellon Proxy Voting Guidelines. In addition, the BNY Mellon Proxy Voting Policy states that the Proxy Voting Committee engages a third party as an independent fiduciary to vote all proxies for securities of BNY Mellon or securities of a registered investment company over which BNYM has proxy voting authority and may engage an independent fiduciary to vote proxies of other issuers at the Proxy Voting Committee's discretion.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a)(1) The following information is as of May 29, 2018, the date of the filing of this report:

Chris Barris, Kevin Cronk, CFA and Leland Hart are the fund's primary portfolio managers, positions they have held since October 2010, September 2012 and February 2018, respectively. Mr. Barris has been a portfolio manager of the fund and employed by Dreyfus since July 2007. Mr. Barris is head of global high yield and a senior portfolio manager at Alcentra NY, LLC (Alcentra), an affiliate of Dreyfus, which he joined in January 2013. He joined Standish Mellon Asset Management Company LLC (Standish), an affiliate of Dreyfus, in 2005, where he is director of global high yield and a senior portfolio manager. Mr. Cronk has been a portfolio manager of the fund and employed by Dreyfus since July 2012. Mr. Cronk is head of U.S. credit research and a portfolio manager at Alcentra, which he joined in January 2013. He joined Standish in 2011, where he is a senior credit analyst and portfolio manager. Prior to joining Standish, he worked as a high yield analyst and portfolio manager at Columbia Management, which he joined in 1999. Mr. Hart is the Managing Director and Head of U.S. Loans and High Yield at Alcentra, which he joined in January

2018. He joined BlackRock Asset Management, where he was a Managing Director, having joined in 2009. Messrs. Barris, Cronk and Hart manage the fund as employees of Dreyfus.

(a)(2) The following information is as of March 31, 2018:

Portfolio Managers. The Registrant's investment adviser is responsible for investment decisions and provides the Registrant with portfolio managers who are authorized by the Trust's Board to execute purchases and sales of securities. Chris Barris, Kevin Cronk and Leland Hart are the Registrant's primary portfolio managers. Messrs. Barris, Cronk and Hart are dual employees of Alcentra and Dreyfus.

Portfolio Managers Compensation. Portfolio managers' compensation is comprised primarily of a market-based salary and an incentive compensation plan (annual and long-term).

Alcentra's compensation arrangements include a fixed salary, discretionary cash bonus and a number of long term incentive plans that are structured to align an employee's interest with the firm's longer term goals. Portfolio managers are compensated in line with portfolio performance, rather than the growth of assets under management. Other factors that may be taken into consideration include asset selection and trade execution and management of portfolio risk.

Additional Information About Portfolio Managers. The following table lists the number and types of other accounts advised by the primary portfolio manager and assets under management in those accounts as of March 31, 2018:

<u>Portfolio Manager</u>	<u>Registered Investment Company Accounts</u>	<u>Assets Managed</u>	<u>Pooled</u>	<u>Assets</u>	<u>Other</u>	<u>Assets Managed</u>
			<u>Accounts</u>	<u>Managed</u>	<u>Accounts</u>	
Chris Barris	4	\$2.73 billion	4	\$718 million	7	\$630 million
Kevin Cronk	4	\$2.73 billion	4	\$889 million	1	\$3.39 billion
Leland Hart	4	\$2.73 billion	7	\$1.49 billion	18	\$8.23 billion

None of the funds or accounts are subject to a performance-based advisory fee.

The dollar range of shares of the Registrant beneficially owned by the primary portfolio manager is as follows as of March 31, 2018:

<u>Portfolio Manager</u>	<u>Registrant Name</u>	<u>Dollar Range of Registrant Shares Beneficially Owned</u>
Chris Barris		8,000 Shares

Edgar Filing: DREYFUS HIGH YIELD STRATEGIES FUND - Form N-CSR

Kevin Cronk	Dreyfus High Yield Strategies Fund	9,200 Shares
Leland Hart	Dreyfus High Yield Strategies Fund	0

Portfolio managers at Dreyfus may manage multiple accounts for a diverse client base, including mutual funds, separate accounts (assets managed on behalf of institutions such as pension funds, insurance companies and foundations), bank common trust accounts and wrap fee programs ("Other Accounts").

Potential conflicts of interest may arise because of the management of Other Accounts. For example, conflicts of interest may arise with both the aggregation and allocation of securities transactions and allocation of limited investment opportunities, as Dreyfus may be perceived as causing accounts it manages to participate in an offering to increase Dreyfus' overall allocation of securities in that offering, or to increase Dreyfus' ability to participate in future offerings by the same underwriter or issuer. Allocations of bunched trades, particularly trade orders that were only partially filled due to limited availability, and allocation of investment opportunities generally, could raise a potential conflict of interest, as Dreyfus may have an incentive to allocate securities that are expected to increase in value to preferred accounts. Initial public offerings, in particular, are frequently of very limited availability. Additionally, portfolio managers may be perceived to have a conflict of interest if there are a large number of Other Accounts, in addition to the Registrant, that they are managing on behalf of Dreyfus. Dreyfus periodically reviews each portfolio manager's overall responsibilities to ensure that he or she is able to allocate the necessary time and resources to effectively manage the Registrant. In addition, Dreyfus could be viewed as having a conflict of interest to the extent that Dreyfus or its affiliates and/or portfolio managers have a materially larger investment in Other Accounts than their investment in the Registrant.

Other Accounts may have investment objectives, strategies and risks that differ from those of the Registrant. For these or other reasons, the portfolio manager may purchase different securities for the Registrant and the Other Accounts, and the performance of securities purchased for the Registrant may vary from the performance of securities purchased for Other Accounts. The portfolio manager may place transactions on behalf of Other Accounts that are directly or indirectly contrary to investment decisions made for the Registrant, which could have the potential to adversely impact the Registrant, depending on market conditions.

A potential conflict of interest may be perceived to arise if transactions in one account closely follow related transactions in another account, such as when a purchase increases the value of securities previously purchased by the other account, or when a sale in one account lowers the sale price received in a sale by a second account.

Conflicts of interest similar to those described above arise when portfolio managers are employed by a sub-investment adviser or are dual employees of Dreyfus and an affiliated entity and such portfolio managers also manage other accounts.

Dreyfus' goal is to provide high quality investment services to all of its clients, while meeting Dreyfus' fiduciary obligation to treat all clients fairly. Dreyfus has adopted and implemented policies and procedures, including brokerage and trade allocation policies and procedures, that it believes address the conflicts associated with managing multiple accounts for multiple clients. In addition, Dreyfus monitors a variety of areas, including compliance with Fund guidelines, the allocation of IPOs, and compliance with the firm's Code of Ethics. Furthermore, senior investment and business personnel at Dreyfus periodically review the performance of Dreyfus' portfolio managers.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Companies and Affiliated Purchasers.

Not applicable.

Item 10. Submission of Matters to a Vote of Security Holders.

There have been no material changes to the procedures applicable to Item 10.

Item 11. Controls and Procedures.

(a) The Registrant's principal executive and principal financial officers have concluded, based on their evaluation of the Registrant's disclosure controls and procedures as of a date within 90 days of the filing date of this report, that the Registrant's disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the Registrant on Form N-CSR is recorded, processed, summarized and reported within the required time periods and that information required to be disclosed by the Registrant in the reports that it files or submits on Form N-CSR is accumulated and communicated to the Registrant's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

(b) There were no changes to the Registrant's internal control over financial reporting that occurred during the second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12. Exhibits.

(a)(1) Code of ethics referred to in Item 2.

(a)(2) Certifications of principal executive and principal financial officers as required by Rule 30a-2(a) under the Investment Company Act of 1940.

(a)(3) Not applicable.

(b) Certification of principal executive and principal financial officers as required by Rule 30a-2(b) under the Investment Company Act of 1940.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.
