The **Net Operating Revenues** presented a decrease of 4.6%, from R\$4,100.5 in the 3Q08 to R\$3,910.1 million in the 3Q09. This reduction is mainly related to the drop in traditional services revenues, mainly due to the decrease of the number of lines in service. The items impacted were monthly subscription fee and local service, the latter one due to the increase of duos and trios sales, which offer flat fee with local unlimited calls. Furthermore, the fixed-mobile revenues registered a decrease due to the drop of fixed-mobile traffic. These reductions were partially offset by an increase of PayTV and broadband services revenues, infrastructure rental revenues, besides the tariff readjustment of 0.98% as of September, 2009.

The **EBITDA** in the 3Q09 was R\$1,444.9 million, a 14.0% decrease when compared to the R\$1,679.2 million in the 3Q08.

The **EBITDA Margin** reached in 3Q09 was 37.0%, a 4.0 p.p. decrease when compared to the 3Q08. This drop is a result of the gradual change in Telesp's revenues mix, that showed an increase of PayTV and broadband services revenues, which have lower margins, and a decrease of local service and public telephony revenues. The EBITDA Margin in the quarter was also impacted by lower broadband revenues when compared to the previous quarter, due to the suspension of Speedy service sales, in accordance to Anatel's decision. It's important to highlight that the sale of this service had already been reestablished in a safer and trustable way, combined with a complete reformulation of the attendance process, warranting a new experience for customer relationship. As a result, the level of customer satisfaction registered an important improve, besides the strong reduction of the number of complaints registered.

The consolidated **Capex** until September, 2009 was of R\$1,403.6 million, presenting a decrease of 5.2% when compared to the same period of the previous year. This variation is directly related to Real appreciation in the period and the suspension of Speedy service sales. As a percentage over net operating revenue, the ratio was of 11.9% in the 9M09, almost in line with the ratio registered in the same period of the previous year.

OPERATING HIGHLIGHTS

Broadband - offered under the brands Speedy and Ajato, reached 2,577,873 clients in the 3Q09, a 5.5% decrease over the 2Q09. When compared to the 3Q08, the growth was of 5.0%, lower than the registered in the previous quarters, as a consequence of the suspension of Speedy service sales on June 22, 2009 in accordance to Anatel's decision. On August 27, 2009 the sale of this service was reestablished in a safer and trustable way, followed by a reformulation on the attendance process, providing a new experience for customer relationship.

Pay TV offered in bundles or stand-alone, it is available through DTH (Direct to the Home) and MMDS (Multichannel Multipoint Distribution Service). In the 3Q09 the Company reached 508,212 clients, a decrease of 1.2% when compared to the 2Q09. When compared to the 3Q08, an increase of 19.6% was lower than the ones registered in the previous quarters, as a consequence of the suspension of Speedy service sales, once this service is mainly sold through trio bundles.

Duos and Trios Telefônica - are combined offers of PayTV, Broadband and Local Calls services offered in all Company's concession area. In 2007, the Company celebrated a commercial and operational agreement with TVA, strengthening and extending even more the integrated PayTV offer.

Posto de Trabalho Informático (PDTI) launched in 2007, is offered to the corporate segment as a solution for infra-structure of Information Technology customized to the client. Through a monthly fee payment, Telesp offers a bundle composed by voice, data, internet access, network management and equipments for small, medium and big clients.

Others	291.4	268.9	8.4	864.2	799.9	8.0

The changes are explained as follows:

Monthly Subscription Fee: reached R\$1,261.4 million in the 3Q09, a decrease of 6.2% when compared to the R\$1,344.2 million in the 3Q08. This drop is mainly related to the decrease of average lines in service and the increase of alternative plan base for fixed line that have lower monthly subscription fee. On the other hand, an increase of revenues in the corporate segment and the tariff readjustment of 0.98% as of September, 2009 occurred. On September 30, 2009 the penetration of the local, controle , duos and trios plans was around 66% of the lines in service.

Installation Fee: increased from R\$27.7 million in the 3Q08 to R\$29.5 million in the 3Q09, a rise of 6.5%. This variation is mainly justified by the success of commercial effort focused on alternative plans and the tariff readjustment of 0.98% as of September, 2009.

Local Service: totaled R\$624.2 million in the 3Q09, a decrease of 14.8% when compared to R\$732.4 million in the 3Q08. This variation is directly related to the decrease of lines in service and the increase of duos and trios bundles sales which offer flat fee with local unlimited calls aiming customer loyalty, resulting in a decrease of the exceeding traffic. Furthermore, the local service revenues were impacted by the decrease of the demand of 0300 service for promotional campaigns. These drops were partially offset by the tariff readjustment of 0.98% as of September, 2009.

DLD: in the 3Q09 totaled R\$934.8 million, a decrease of 3.9% when compared to the R\$972.7 million in the 3Q08. This effect is explained by a decrease of fixed outgoing traffic, been partially offset by an increase of SMP traffic with the 15 use (selection code of the operator), due to the mobile market growth and a positive impact of the tariff readjustment of 0.98% as of September, 2009.

Fixed-to-mobile revenues: dropped from R\$1,120.2 million in the 3Q08 to R\$1,006.5 million in the 3Q09, a decrease of 10.1%, due to the reduction of VC1, VC2 and VC3 traffic in the period.

ILD: reached R\$24.8 million in the 3Q09, a decrease of 31.6% when compared to the R\$36.3 million in the 3Q08. This effect is mainly explained by a decrease of fixed outgoing traffic.

4

Interconnection Revenues: remained almost stable, from R\$121.2 million in 3Q08 to R\$120.7 million in the 3Q09. This item was impacted by traffic decrease from other companies, been partially offset by the tariff readjustment of 0.98% as of September, 2009. When compared to the 2Q09, the interconnection revenues registered a rise of 5.7%, mainly explained by the increase of ingoing mobile traffic and the tariff readjustment in the quarter.

Public Telephony: in the 3Q09 was R\$98.1 million, a decrease of 7.8% when compared to the R\$106.5 million in the 3Q08. This variation is registered mainly due a higher competition of the mobile market, been partially offset by the tariff readjustment of 0.98% as of September, 2009.

Data Transmission: totaled R\$1,054.9 million in the 3Q09, a positive evolution of 11.8% when compared to the R\$943.6 million in the 3Q08. This effect is mainly explained by the residential segment growth, through the broadband offer with Speedy and Ajato brands, as well as the growth of data transmission in the corporate segment. When compared to the 2Q09, the data transmission revenues registered a slightly decrease of 1.5%, as a consequence of the suspension of Speedy service sales during 65 days, in accordance to Anatel's decision.

Infrastructure rental: raised from R\$112.9 million in the 3Q08 to R\$132.8 million in the 3Q09, an increase of 17.6%. This effect is mainly explained by the higher volume of rented circuits, due to the telecommunications market growth and the demand for a higher volume of band for data transmission.

Pay TV: launched in August, 2007, this service reached R\$151.6 million in the 3Q09, a positive evolution of 45.3% when compared to the R\$104.4 million in the 3Q08. The Company registered a base of 508,212 clients in the 3Q09, including TV services through DTH and MMDS, the latter one as a result of Telefônica Sistema de Televisão acquisition in the 4Q07. When comparing the 2Q09, the Pay TV revenues registered a decrease of 4.2%, mainly explained by the promotion that results in exception of installation fee, besides the impact of duos and trios sales due to the suspension of Speedy service sales.

Others: increased from R\$268.9 million in the 3Q08 to R\$291.4 million in the 3Q09, a rise of 8.4%. This effect is chiefly explained by the performance of PDTI, been partially offset by the decrease of value added services revenues.

OPERATING EXPENSES

Operating expenses in the third quarter of 2009 reached R\$2,465.2 million, an increase of 1.8% when compared to the R\$2,421.3 million in the same period of the previous year.

Other operating revenues (expenses)	14.7	34.2	(56.9)	214.9	91.6	n.a.

The variations are explained by the following items:

Personnel expenses: reached R\$194.2 million in the 3Q09, an increase of 13.4% when compared to the R\$171.9 million in the 3Q08. This variation is mainly explained by the increase of labor indemnities.

Supplies: increased from R\$58.9 million in the 3Q08 to R\$59.7 million in the 3Q09, a rise of 1.3%. This variation is mainly explained by an increase of cost of goods sold for the corporate segment been partially offset by a decrease of phone card expenses.

Outsourcing expenses: remained almost stable, from R\$883.4 million in the 3Q08 to R\$884.7 million in the 3Q09. This variation is mainly related to the increase of customer service expenses, largely due to the efforts to improve the attendance and to fulfill the new call center law, purchase of TV content and network maintenance. These increases were almost offset by the decrease of advertising expenses and sales commission, as a consequence of the suspension of Speedy service for 65 days. When comparing to the 2Q09, outsourcing expenses registered a reduction of 8.2%, as a result of the decrease of advertising expenses and sales commission due to the suspension of Speedy service sales.

Interconnection expenses: in the 3Q09 reached R\$946.9 million, a decrease of 2.6% when compared to the R\$972.0 million in the 3Q08. This effect is mainly explained by the decrease of VC1, VC2 and VC3 traffic in the period.

Rental Expenses: increased from R\$130.2 million in the 3Q08 to R\$137.6 million in the 3Q09, a rise of 5.7% mainly due to the increase of network rental expenses and infrastructure for last-mile traffic termination.

Taxes: remained almost stable, from R\$117.1 million in the 3Q08 to R\$116.2 million in the 3Q09. This effect is mainly explained by the decrease of FUST and FUNTTEL contribution, been partially offset by the increase of PIS and COFINS expenses, as a consequence of the increase of other operating revenues.

Bad Debt Provisions: reached R\$148.4 million in the 3Q09, an increase of 21.4% when compared to the 3Q08. As a percentage of the operating revenues, the ratio was of 3.8% in the quarter. When comparing with the 2Q09, registered a decrease of 3.6%, showing Telesp's strong efforts to improve its customer base profile through its commercial policy practices, besides the recovery

efforts and its differentiated service offers to better suit each segment of the market.

6

Investment gains (losses): in the 3Q09 recorded a positive result of R\$7.7 million compared to a positive result of R\$0.3 million in the 3Q08 and a negative result of R\$0.5 million in the 2Q09. These variations are justified by the effect of equity accounting of shareholding on Cable TV operators.

Other operating revenues (expenses): totaled R\$14.7 million in the 3Q09, a negative variation of R\$19.4 million when compared to the 3Q08. This effect is mainly justified by the reversion of provisions for tax processes and fine payment.

Depreciation: dropped from R\$686.3 million in the 3Q08 to R\$613.4 million in the 3Q09, a decrease of 10.6%. This effect is mainly explained by an increase of the balance of assets fully depreciated and the decrease of goodwill amortization that as of 2009 isn't registered anymore in accordance to the new accounting practices. These variations were partially offset by an increase of modem obsolescence provision.

FINANCIAL DATA

Financial Investments: the Company invests the excess cash and cash equivalents of R\$1,541.9 million, mainly in financial investments (Certificados de Depósitos Bancários) in short-term, based on the variation of the CDI, reducing the exposure of the domestic interest rate (CDI) over its net debt. The Company diversifies its exposure investing in different first line financial institutions, in accordance to the credit limits and diversification set on the Company's current credit risk policy.

Loans, Financing and Debentures: on September 30, 2009, the Company had a liability of R\$3,388.7 million, from which R\$23.3 million are loans denominated in foreign currency raised at fixed interest rates (with swap for %CDI rate), R\$1,510.3 million in debentures paying interests based on the variation of the CDI rate + fixed spread of 0.35% (also with swap for %CDI rate) and the amount of R\$1,855.0 million in loans with *Banco Nacional de Desenvolvimento Econômico e Social* (BNDES).

Debentures: on September 03, 2004, Telesp announced a Public Offering of Securities and the activation, within the Program's parameters, of the first issuance of Telesp's debentures. The offer consisted of the issuance of 150 thousand not convertible debentures, of unsecured type, with face value of R\$10 thousand per unit, totaling the amount of R\$1.5 billion, in single tranche. The debentures conditions were renegotiated on September 01, 2007, end date of the first validity remuneration period, and the second period also began in that date with closing foreseen to September 01, 2010, the debentures' maturity date. The debenture bears interest on a quarterly basis payment, of the accumulated average rates of the Interbank Interest rate of one day (DI rate), capitalized by a spread of 0.35% per year, calculated and disclosed by the Câmara de Custódia e Liquidação CETIP, since the renegotiation date.

BNDES: on October 10, 2007, the BNDES approved a loan of R\$2,034.7 millions for Telesp, from which R\$1,830.9 million have already been released and invested on network modernization and expansion of voice, data and video services. Of this amount, R\$1,686.9 million had already been confirmed and approved by BNDES. On September, 2009 the amount of R\$144 million was released and the investments related to it are in the final step of the verification process by BNDES.

Net exposure on CDI variation		(1,553,233)

The CDI net exposure (R\$1,553.2 million) doesn't reflect the total exposure to domestic interest rate, once the Company has, as a natural hedge, short term financial investments based on CDI variation (R\$1,541.9 million on September 30, 2009).

Financial Result: by the end of the period on September 30, 2009 reached -R\$143.4 million, improving R\$40.6 million or 22.1% when compared to the same period of 2008, mainly due to higher financial investments revenue, related to a higher average balance invested this year. In the 3Q09, the financial result reached -R\$56.2 million, a decrease of R\$14.8 million when compared to the previous quarter, mainly due to lower revenues with financial investment, been impacted by a lower average balance invested in the quarter (mainly due to the payment of dividends and interest on own capital as of June 17, 2009) and also due to the CDI decrease.

ADDITIONAL NOTES

1) BOARD OF DIRECTORS MESSAGE

On June 22, 2009, Anatel determined to Telesp the temporary suspension of Speedy Service sales. Anatel requested to the Company the elaboration in within 30 days of a plan to guarantee the fruition and availability of Speedy Service, which includes steps of contingency planning, administration of changes, implantation of network redundancy and critical systems, operating planning and the respective schedule. On June 26, 2009, the Stability Plan was presented to the Agency, before the deadline set, containing actions to stabilize the network, involving improvements on IP (Internet Protocol) and DNS (Domain Name Server) network. On July 17, 2009, Telesp announced to the Agency the conclusion of the implantation of the Stability Plan. Furthermore, the Company completely reformulated the attendance process, including training programs, new performance evaluation model and increase of the number of attendants, to warrant a new experience for customer relationship. On August 27, 2009, after receiving a notification from the Agency, Telesp reestablished Speedy service sales in a safer and trustable way. As a result, during the first 4 days the number of calls was 2.5 times higher than the historical average calls, an expressive improve of the opinion of new customers in researches applied was shown, besides the strong reduction of the number of complaints registered.

2) SUBSEQUENT EVENTS

a) Voluntary Public Tender Offer: On October 7, 2009, Telesp's Board of Directors approved the launching of a voluntary public tender offer for the acquisition of up to 100% of the shares issued by GVT (Holding) S.A. for the price of R\$ 48.00 per share to be paid in cash. The amount of the transaction, considering the acquisition of total amount of fully diluted shares, represents an investment of approximately R\$ 6.5 billion.

GVT is a telecommunication services provider with strong presence on Region II of the *Plano Geral de Outorgas* and has been successful in its strategy targeting users of high technology services with innovative and tailored products.

The voluntary public tender offer is subject, among other conditions usual to this type of transaction, to the following conditions, also detailed in the Offer Notice, submitted to BM&FBOVESPA on October 7, 2009:

(i) the acquisition of a minimum amount of shares that corresponds to 51% of the sum of: (a) all shares issued by GVT; and (b) the shares not issued and subject to the Stock Option Plan;

(ii) the waiver of anti takeover provisions as determined by GVT's By-laws; and

(iii) Anatel's approval for the acquisition of GVT control, without imposition of restrictions and conditions, besides the usually adopted by Anatel in previous instances, as previewed in the Offer Notice.

On October 8, 2009 Telesp presented to Anatel the requirement for previous approval to implement the transfer of acquired shares as a result of the offer. On October 19, 2009, BM&FBOVESPA approved the Auction of the voluntary public tender offer for the acquisition of up to 100% of shares issued by GVT, on its trading system.

On November 4, 2009, Telesp increased the offer price to R\$50.50 per share, as a consequence of the excellent results published by the Company in the third quarter of this year. That increases the amount to be invested to around R\$6.9 billion. The increase of the price aimed the confirmation of the success of the voluntary public tender offer execution, while showed the capacity and reinforced Telesp's intention to acquire 100% of GVT's shares.

b) Promissory Notes Subscription: on November 9, 2009, the Board of Directors approved the second subscription of Promissory Notes by the Company, for public distribution under limited placing efforts, in accordance to the terms of CVM Instruction 476, in the total amount of up to R\$6.0 billion, which resources will be used exclusively to liquidate the payment of obligations that the Company may assume as a consequence of the result of the auction related to the Public Tender Offer launched on October 8, 2009 proposed by the Company for the acquisition of up to 100% of shares issued by GVT. Up to 600 Promissory Notes will be subscribed with unit face value of R\$ 10.0 million, with term of 1 year, without any warrant, that will be object of limited placing efforts, in accordance to the terms of CVM Instruction 476, with intermediation of intermediating institutions that are members of securities distribution system under a firm guarantee of placement regime. The Promissory Notes will pay interest equivalent to the average daily rate of one-day Interfinancial Deposits (DI), out of the group, in a ratio of 109%, considering the reduction of 2.0 p.p. to 107% if the Company execute the withdrawal in advance, partially or totally, in within 90 days, or reduce 1.0 p.p. to 108% if the Company execute the withdrawal in advance, totally or partially in between 91 and 180 days.

3) RECENT CORPORATE EVENTS

a) Corporate Reorganization involving Telefônica Data do Brasil Participações Ltda. DABR and Telefônica Televisão Participações S.A. TTP - In accordance to the relevant fact published on October 21, 2008, the Company's Board of Directors approved, on that date, the propose of corporate reorganization involving DABR and TTP (wholly-owned subsidiary of Telesp, which had stakes on Telefônica Sistema de Televisão S.A., A. Telecom S.A. and Telefônica Data S.A.'s capital).

For Telesp's management this corporate reorganization reflects Company and shareholders' aim and will allow the improvement of synergies, the reduction of managing risks, the simplification of corporate and administrative organization, reducing costs, but also getting the opportunity of the tax benefit and the Company's cash flow improvement and, as a consequence, to its shareholders.

On November 11, 2008, the propose of merger of DABR and TTP by Telesp was approved by the Company's shareholders on its Extraordinary Shareholders' meeting. As a result of the merger of TTP, Telefônica Sistema de Televisão S.A., A. Telecom and Telefônica Data companies became wholly-owned subsidiaries of Telesp.

b) Increase on Telefônica Televisão Participações S.A.'s Equity (previously named Navytree Participações S.A.) On July 25, 2008, the Company increased the Telefônica Televisão's capital with stocks of Telefônica Data S.A.'s equity. As a result, T. Data became a wholly-owned subsidiary of Telefônica Televisão.

4) TARIFFS READJUSTMENT OCCURRED IN 2009 AND 2008

a) Fixed-to-Fixed Tariff On September 11, 2009, through Edicts# 5,179 and 5,180, Agência Nacional de Telecomunicações - Anatel approved the tariff readjustment of the Serviço Telefônico Fixo Comutado - STFC, according to the criteria established in the Concession Contracts for Local and Domestic Long Distance Services, effective as of September 16, 2009. The tariff readjustments were 0.98%.

b) Fixed-to-Fixed Tariff On July 21, 2008, through Edicts# 4,288 and 4,289, Anatel approved the tariff readjustment of the Serviço Telefônico Fixo Comutado - STFC, according to the criteria established in the Concession Contracts for Local and Domestic Long Distance Services, effective as of July 24, 2008. The tariff readjustments were 3.01%.

b) Fixed-to-Mobile Tariff On July 21, 2008, through Edict# 4,290, Anatel approved the 3.01% tariff readjustment for the fixed-to-mobile calls (VC1, VC2 and VC3) throughout the entire concession area of Telesp, sectors 31, 32 and 34 of Region III. On the same date, was also approved the readjustment of fixed-to-mobile

interconnection rate (VUM) related to the VC1, VC2 and VC3 in 2.06%. The readjustments were effective as of July 24, 2008.

5) CHANGES ON THE ADOPTED ACCOUNTING PRACTICES

The Company decided to adopt as of 2008 the changes on accounting practices introduced by the Law# 11,638/07 and Law# 11,941/09, due to several accounting pronouncements issued by *Comitê de Pronunciamentos Contábeis* (CPC) and deliberated by CVM. As a result, the comparative information in the first quarter of 2009 already presents these practices, among which are highlighted:

- a) Financial Leasing: PDTI contracts are accounted with financial leasing characteristics;
- b) Financial Instruments: financial assets and liabilities initially evaluated by fair value;
- c) Present Value Adjustment: certain long term assets and liabilities initially accounted by its discounted present value;
- d) Accumulated Translation Adjustment: exchange variations over investments abroad registered as accumulated translation adjustment, on Company's equity.

6) NUMBER PORTABILITY

In September, 2008, the number portability process has been activated under commercial disposition between companies that offer the same service mode. As a result, fixed and mobile's clients can keep their phone number when changing operator or address, if the process refers to the same local area. Following this, Telesp reinforced its efforts in customers' loyalty and retention plans, although the volume of number portability processes isn't relevant so far. The number portability's process was concluded in March, 2009.
