Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation

The condensed consolidated financial statements contained herein have been prepared in accordance with generally accepted accounting principles for interim financial statements, the instructions to Form 10-QSB and Item 310 of Regulation S-B. Accordingly, these financial statements do not include all the information and footnotes required by generally accepted accounting principles for annual financial statements. In addition, certain comparative figures presented have been reclassified to conform the prior year's data to the Company's current financial statements. In the opinion of management, the accompanying condensed consolidated financial statements contain all the adjustments necessary (consisting only of normal recurring accruals) to fairly present the financial position of the Company at August 31, 2004, and its results of operations and cash flows for the three and nine months ended August 31, 2003 and August 31, 2004. Operating results for the three and nine months ended August 31, 2004, are not necessarily indicative of the results that may be expected for the fiscal year ending November 30, 2004.

Principles of Consolidation

The accompanying unaudited condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant inter-company balances and transactions have been eliminated.

Customer Base & Credit Concentration

The Company, over the last three years, has developed a large, diverse, and distinguished customer base of traditional retailers, ranging from national as well as large regional chains, specialty retailers, corporate accounts, college bookstores, motor sports, souvenir and gift shops, and golf shops. This expansion has been achieved through the acquisition of CMJ and Lil Fan and their respective substantial customer base, the introduction of additional major product lines and distribution channels, such as the Motor Sports Division, which sells to a national auto dealers market consisting of approximately 9,000 dealers, of which, the Company has sold to approximately 1,100 dealers thus far, as well as expansion of its traditional national retail merchant customer base. As a result of the expansion, the Company has lessened its dependence on any one large customer or distribution channel. During the nine months ended August 31, 2004, the Company's sales to six customers comprised 61.5% of total sales, one of which was a not a customer in the six months ended August 31, 2003. During the nine months ended August 31, 2003, the Company's sales to five customers comprised 65.1% of total sales, one of which represented a one-time order related to the Iraq war of approximately \$2,500,000. The Company's management believes that its credit risk exposure, based on current information available on the financial strength of its customers and previously recorded reserves, is limited. Such estimates could change in the future.

New Pronouncements

SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets"; SFAS No. 145, "Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections"; SFAS No. 141, "Business Combinations"; SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" and SFAS No. 148, "Accounting for Stock Based Compensation," FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others", FASB Interpretation No. 46, "Consolidation for Variable Interest Entities" all became effective for the Company during 2002. The provisions and interpretations of these pronouncements, that are applicable to the Company, had no material effect on the Company's financial statements.

SFAS No. 142, "Goodwill and Other Intangible Assets" became effective for the Company during 2002. SFAS 142 requires, among other things, the discontinuance of goodwill amortization. In addition, the standard includes provisions for the reclassification of certain existing recognized intangibles as goodwill, reassessment of the useful lives of existing recognized intangibles, reclassification of certain intangibles out of previously reported goodwill and the identification of reporting units for purposes of assessing potential future impairment of goodwill. SFAS 142 also requires the Company to complete a transitional goodwill impairment test six months from the date of adoption. The provisions of these interpretations that are applicable to the Company were implemented on a prospective basis as of January 1, 2002, which had no material effect on the Company's financial statements.

3.

4.

Deferred and Income Taxes

Income taxes have been computed in accordance with Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes (SFAS 109). This standard requires, among other things, recognition of future tax expenses or benefits, measured using enacted tax rates, attributable to taxable or deductible temporary differences between financial statements and income tax reporting bases of assets and liabilities.

The ultimate realization of deferred tax assets is dependent upon the attainment of forecasted results of operations. Management has taken these and other factors into consideration in recording the deferred tax estimate. The tax effects of temporary differences that give rise to significant portions of the deferred tax asset and liabilities at August 31, 2004, are as follows:

Current asset:	
Accounts receivable reserves	\$ 7,348

On April 15, 2004, the Company entered into a credit agreement with National City Bank for an \$8,000,000 revolving credit facility agreement, which matures on April 1, 2006. Accounts receivable, inventory, and certain personal assets and personal guarantees of the Company's CEO and CFO collateralize borrowings under the facility. The new credit agreement replaces the former lender, LaSalle Business Credit, LLC and increases the Company's borrowing base formula, reduces expenses, and extends the maturity date by one year.

On January 20, 2004, the Company entered into a subordinated loan agreement with Next Investors, LLC for \$400,000. The purpose of this loan was to provide working capital to be repaid out of a future equity infusion. The loan has a 4% interest rate and a maturity date of January 2006.

The Equity Line permits the Company to put up to \$10.0 million in shares of our common stock to Dutchess. The Company has not drawn any funds on the Equity Line and terminated the agreement on August 2, 2004.

On April 8, 2004, the Company issued, pursuant to a Securities Purchase Agreement 1,750 shares of Series A Convertible Preferred Stock to GCA Strategic Investment Fund Limited. The Company received net proceeds of \$1,662,500, which was utilized for working capital and debt reduction. However, the terms of the GCA Strategic Investment Fund Securities Purchase Agreement dated April 8, 2004 limits the sale by all Executive Officers of the Company of no more than 75,000 shares per year.

7.

Income (Loss) Per Share

The Company accounts for earnings per share (EPS) in accordance with Statement of Financial Accounting Standards (SFAS) No. 128, Loss Per Share . SFAS 128 requires the presentation of basic and fully diluted EPS. Basic and diluted EPS for the three and nine months ended August 31, 2003 and August 31, 2004 were calculated on the basis of the weighted average number of common shares outstanding during the three and nine-month periods, divided by the income available to common stockholders.

Introduction

As noted elsewhere in this report, the Company's principal customers are large national and regional retailers. In order to maintain its relationship with these customers, enhance revenues from them and enable them to improve their revenues and margins, the Company must work closely with these customers to ensure they receive the Company's products expeditiously and economically. The Company works diligently to maintain what Management calls supply chain excellence—a way for the Company to provide value added services to its customers.

In servicing its customers, the Company faces competition from numerous other providers of licensed promotional products. Many of these competitors are larger and better capitalized than the Company. Additionally, if the Company is to continue to grow its business by adding additional products and by making strategic acquisitions, it will require additional capital. Therefore, Management may enter into negotiations with sources of equity in an effort to furnish additional capital.

In assessing the Company's performance, Management focuses on (a) increasing revenues primarily through enhancing its licensing programs and (b) protecting such revenues by diversifying its customer bases regionally and demographically. In order to enhance profitability, Management monitors and seeks to improve gross margins primarily by internal cost controls and through international purchases of raw materials. Management also strives to reduce fixed costs as a percentage of sales, improve inventory turnover and reduce receivables measured by day's sales outstanding, all in an effort to improve profitability and cash flow.

Overview

The Company is a creative and innovative sales and marketing organization that designs, develops, markets, and distributes licensed and branded promotional products and imprinted sportswear primarily through key licensing agreements and the Company's own proprietary designs. Management believes that there are substantial growth opportunities in the promotional products and imprinted sportswear industries. Management believes that the Company is well positioned to take advantage of such growth opportunities. Management believes that the Company has an excellent reputation in the marketplace as a result of its ability to provide quality products and services, on-time delivery, at competitive prices. In recent years, licensed imprinted sportswear has become very popular. Licensing agreements are available for branded products and services, amateur and professional sports teams, and many other promotional areas. To maximize its potential, the Company has, over the last two years, significantly expanded its license program to include the following:

Licensing agreements to distribute its **Campus Traditions USA™** line for major colleges and universities in the U.S.;

Licensing agreements with **Chevy®**, **Pontiac®**, **Hummer®**, **Cadillac®**, **Dodge®**, **GMC®**, **Ford®** and **Chrysler®** for their respective "branded" logos for the **RPM Sports USA™** motor sports line, targeting the automotive dealership network market consisting of approximately 9,000 auto dealers, of which, the Company has sold to approximately 1,100 to date, and automotive venue markets which include NASCAR, the largest spectator sport in the nation;

Licensing and distribution agreements with Sturgis Bike Rally, Walter Payton Trust, Professional Bull Riders, and James Dean 50th commemorative anniversary;

Proprietary designs including **American Biker™**, **American Wildlife™**, **Ragtops Sportswear™**, **Cadre Athletic™**, and **Campus Traditions USA™**, among others.

Operations and Expansion

The Company is one of the significant companies in the highly fragmented licensed promotional products and imprinted sportswear industries. The Company has implemented its strategy of "The Total Solution Company" to meet its customers' key requirements including: art design and development, manufacturing (for imprinted sportswear), sourcing (for distributed products), warehousing and fulfillment. The Company has, over the last three years, developed a large, diverse, and distinguished customer base of traditional retailers, ranging from national as well as large regional chains, specialty retailers, corporate accounts, college bookstores, motor sports, souvenir and gift shops, and golf shops.

The Company is actively engaged in discussions with various potential acquisition targets and plans to grow through strategic acquisitions of complementary businesses. The Company has embarked on an aggressive acquisition program that targets companies servicing other segments of the promotional products and imprinted sportswear industry not currently serviced by the Company. It is anticipated that such strategic acquisition targets will enable the Company to more effectively utilize its marketing and sales expertise, acquire the ability to cross-distribute its branded products and licenses throughout a wider distribution base, lessen its dependency on the seasonality of retail customers and reduce overall operating costs by consolidating its services and distribution facilities, to the extent

feasible.

The Company has expanded its business to include e-commerce web sites through which some of the Company's most popular licensed products are marketed. The Company has been successful in establishing itself as a premier supplier under various e-commerce web sites, currently the most significant of which are www.campustraditionsusa.comTM; www.rpmsportswearusa.comTM; www.americanwildlifeusa.comTM; and www.americanbiker.netTM. The Company plans to establish additional e-commerce web sites as other product lines are established. Another recent addition includes a corporate website, www.nextinc.net, which gives information to the public about the Company.

Net Sales

Net sales increased 31.5% to \$6,059,394 for the three months ended August 31, 2004, from \$4,608,648 for the three months ended August 31, 2003. Net sales also increased by 2.5% to \$13,780,929 for the nine months ended August 31, 2004 from \$13,445,902 for the nine months ended August 31, 2003. In 2003, the Company had one-time sales orders of approximately \$2,500,000 attributable to the Iraq war. If these orders were excluded from the 2003 sales figure then the growth for the nine-month period ending August 31, 2004 would be 25.9%. Management believes that future sales growth will continue primarily through the diversification and expansion of the Company's customer base and its expanded product offerings.

Cost of Sales

Cost of sales was 70.3% for the three months ended August 31, 2004, compared to 69.4% of the Company's sales for the three months ended August 31, 2003. Cost of sales was 69.2% for the nine months ended August 31, 2004, compared to 70.0% for the nine months ended August 31, 2003. This reduction in cost as a percentage of sales resulted primarily from increased licensed business, which has higher margins.

Expenses included in cost of sales were primarily raw materials, labor, shipping supplies, and the depreciation of both the Company's principal manufacturing facility in Indiana and its equipment.

Operating and Other Expenses

General and administrative expenses were \$563,663 (9.3% of sales) for the three months ended August 31, 2004, compared to \$537,454 (11.7% of sales) for the three months ended August 31, 2003. The increase in expenses is related to the addition of the Noblesville sales office, which the Company did not have in the full nine months of 2003. General and administrative expenses were \$1,572,663 (11.4% of sales) for the nine months ended August 31, 2004, compared to \$1,565,008 for the nine months ended August 31, 2003 (11.6% of sales).

Royalty and commission expenses were \$765,724 (12.6% of sales) for the three months ended August 31, 2004, compared to \$502,624 (10.9% of sales) for the three months ended August 31, 2003. Royalty and commission expenses were \$1,650,599 (11.9% of sales) for the nine months ending August 31, 2004, compared to \$1,259,286 (9.4% of sales) for the nine months ending August 31, 2003. The increase in expense was directly related to a sales mix with higher royalty expense percentages than prior year. Commissions increased as a greater percentage of sales

are generated by outside sales representatives.

Corporate expenses were \$235,074 for the three months ended August 31, 2004, compared to \$156,336 for the three months ended August 31, 2003. Corporate expenses were \$751,928 for the nine months ended August 31, 2004, compared to \$583,297 for the nine months ended August 31, 2003. The increases in corporate expenses were a result of higher banking costs, and investment-banking fees related to the previous lender, LaSalle. The Company's expenses have increased for insurance, audit fees and labor from the prior year.

Interest expense relates to the Company's short and long-term debt. Interest expense was \$111,299 for the three months ended August 31, 2004, compared to \$109,806 for the three months ended August 31, 2003. The higher interest expense is attributable to higher debt balance. Interest expense for the nine months ended August 31, 2004, was \$342,634 compared to \$336,458, which relates to the higher interest rates charged by LaSalle for the period December 1, 2003 through April 15, 2004. The Company has replaced LaSalle with a new, more cost effective banking relationship effective April 15, 2004 (See NOTE 5).

Other income was \$24,197 for the three months period ending August 31, 2004, as compared to \$27,846 for the three months ended August 31, 2003. Other expense for the nine months ended August 31, 2004 includes an unusual one-time write off of \$640,000, offset by \$52,000 of other income. The components relate to \$501,000 of fees and expenses associated with the Company's former bank, LaSalle Business Credit, LLC that was terminated on April 15, 2004. It also includes \$139,000 of one time legal fees that were advanced on behalf of the former Chairman and CEO related to a complaint filed in the Southern District of New York that was dismissed on May 10, 2004, and cost was expensed accordingly.

The provision for income taxes for the three months ended August 31, 2004, was \$38,656, which is attributable to the Company's quarterly operating profit adjusted by book and income tax recognition of temporary differences. Provision for income taxes for the three-month period ended August 31, 2003, was \$52,055, which was higher related to the pre-tax income and recognition of book and tax temporary differences. These amounts are due to the Company's year-to-date net operating loss adjusted by book and income tax recognition of temporary differences. Benefits for income taxes for the nine months ended August 31, 2004, was \$341,191 as compared to the nine months ended August 31, 2003, which was a provision of \$127,375.

Financial Position, Capital Resources, and Liquidity August 31, 2004 and November 30, 2003

At August 31, 2004, working capital was \$9,015,209 representing an increase of \$2,389,214 from working capital at November 30, 2003 of \$6,625,995. The increase in working capital was primarily due to accounts receivable and inventory, which have grown in relation to sales. The Company is subject to seasonality in its sales cycle due to the amount of college-licensed products. The seasonality of sales results in the majority of the Company's revenues being generated in the third and fourth quarters.

Liquidity and Capital Resources

The Company has historically financed its operations through a combination of earnings and debt. The Company's principal sources of debt financing are its revolving line of credit with National City Bank and promissory notes issued by First Federal Bank. This credit facility matures on April 1, 2006, and is governed by various financial covenants. The First Federal Bank Promissory Notes consist of one principal loan in the amount of \$2,807,565 payable in monthly installments of \$26,000 of principal and interest and with a balloon payment of \$2,647,805 due January 16, 2006. The Company has also entered into a subordinated loan agreement with Next Investors, LLC in the amount of \$400,000 (see Note 5 to the Financial Statements).

The Company's principal use of cash is for operating activities and working capital. The increase in cash used stemmed primarily from increases in accounts receivable and inventory.

This net increase of \$423,044 was related to the issuance of preferred stock partially offset by a reduction in the amount of common stock issued.

On April 8, 2004, the Company entered into an agreement with GCA Strategic Investment Fund Limited to sell 1,750 shares of its Series A Convertible Preferred Stock, which value is \$1,750,000 subject to the conditions of a Securities Purchase Agreement, and issued a warrant convertible into 358,000 shares of common stock at \$1.88 per share which expires on April 8, 2009. Net proceeds of \$1,662,500 have been received and used to pay down debt, and for additional working capital.
