ITEM 1. REPORT TO STOCKHOLDERS.

Attached hereto is the annual shareholder report transmitted to shareholders pursuant to Rule 30e-1 of the Investment Company Act of 1940, as amended.

BABSON CAPITAL PARTICIPATION INVESTORS

Babson Capital Participation Investors is a closed-end investment company, first offered to the public in 1988, whose shares are traded on the New York Stock Exchange.

INVESTMENT OBJECTIVE & POLICY

Babson Capital Participation Investors (the “Trust”) is a closed-end investment company, first offered to the public in 1988, whose shares are traded on the New York Stock Exchange under the trading symbol “MPV”. The Trust’s share price can be found in the financial section under either the New York Stock Exchange listings or Closed-End Fund listings.

The Trust’s investment objective is to maximize total return by providing a high level of current income, the potential for growth of income, and capital appreciation. The Trust’s principal investments are privately placed, below-investment grade, long-term debt obligations purchased directly from their issuers, which tend to be smaller companies. At least half of these investments normally include equity features such as warrants, conversion rights, or other equity features that provide the Trust with the opportunity to realize capital gains. The Trust will also invest in publicly traded debt securities (including high yield securities), again with an emphasis on those with equity features, and in convertible preferred stocks and, subject to certain limitations, readily marketable equity securities. Below-investment grade or high yield securities have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay principal. In addition, the Trust may temporarily invest in high quality, readily marketable securities.

Babson Capital Management LLC (“Babson Capital”) manages the Trust on a total return basis. The Trust distributes substantially all of its net income to shareholders each year. Accordingly, the Trust pays dividends to shareholders quarterly in January, May, August, and November. All registered shareholders are automatically enrolled in the Dividend Reinvestment and Cash Purchase Plan unless cash distributions are requested.

In this report you will find a complete listing of the Trust’s holdings. We encourage you to read this section carefully for a better understanding of the Trust. We cordially invite all shareholders to attend the Trust’s Annual Meeting of Shareholders, which will be held on April 27, 2012 at 1:00 P.M. in Springfield, Massachusetts.

* Data for Babson Capital Participation Investors (the “Trust”) represents portfolio returns based on change in the Trust's net asset value assuming the reinvestment of all dividends and distributions. These returns differ from the total investment return based on market value of the Trust's shares due to the difference between the Trust's net asset value and the market value of its shares outstanding (see page 12 for total investment return based on market value). 2011 Annual Report

TO OUR SHAREHOLDERS

I am pleased to share with you the Trust's Annual Report for the year ended December 31, 2011.

As I am sure you have noticed, in December, we changed the name of the Trust from MassMutual Participation Investors to Babson Capital Participation Investors. The name change was made to clarify the Trust's relationship with the Trust's investment adviser, Babson Capital. Babson Capital, and its predecessors, has been the investment adviser for the Trust since the Trust's inception in 1988, and will continue in this capacity. Other than the name of the Trust, nothing else has changed – the Trust's investment objectives, philosophies and policies are unchanged; even the Trust's New York Stock Exchange trading symbol, "MPV", is unchanged.

PORTFOLIO PERFORMANCE

The Trust's net total portfolio rate of return for 2011 was 10.6%, as measured by the change in net asset value and assuming the reinvestment of all dividends and distributions. The Trust's total net assets were \$120,319,666, or \$11.90 per share, as of December 31, 2011. This compares to \$119,540,235, or \$11.89 per share, as of December 31, 2010. The Trust paid a quarterly dividend of \$0.27 per share for each of the four quarters of 2011, up 8.0% from the \$0.25 per share quarterly dividend in 2010. In addition, the Trust declared a special year-end dividend of \$0.15 per share, paid in January 2012 to shareholders of record on December 30, 2011, bringing total dividends for the year to \$1.23 per share. This represents a 23% increase over the \$1.00 per share of total dividends paid in 2010. Net investment income for the year was \$1.14 per share, including approximately \$0.12 per share of non-recurring income, representing an 11.8% increase over 2010 net investment income of \$1.02 per share, which also included approximately \$0.04 per share of non-recurring income.

Investors continued to take note of the Trust's strong performance in 2011 as the Trust's stock price increased 14.2% during the year, from \$13.88 as of December 31, 2010 to \$15.85 as of December 31, 2011. This increase is on top of the 13.8% price appreciation that the Trust's stock price enjoyed in 2010. The Trust's stock price of \$15.85 as of December 31, 2011 equates to a 33.2% premium over the December 31, 2011 net asset value per share of \$11.90. The Trust's average quarter-end premium for the 3, 5 and 10-year periods was 8.0%, 8.9% and 9.3%, respectively.

The table below lists the average annual net returns of the Trust's portfolio, based on the change in net assets and assuming the reinvestment of all dividends and distributions. Average annual returns of the Barclays Capital U.S. Corporate High Yield Index and the Russell 2000 Index for the 1, 3, 5 and 10 years ended December 31, 2011 are provided for comparison purposes only.

PORTFOLIO ACTIVITY

New investment activity for the Trust was very sporadic once again in 2011. In the first three quarters of the year, the Trust completed six new private placement investments. In the fourth quarter, the Trust completed seven new investments. For the full year 2011, the Trust closed 13 new private placement investments and seven add-on investments in existing portfolio companies. Total private placement investments purchased in 2011 were \$12,396,081. Although our investment activity in 2011 was off the near-record pace of 2010, when the Trust closed 19 new private placement transactions and eight add-on investments aggregating \$18,434,897, we were pleased with both the quantity and quality of our 2011 investments. Leverage multiples remained reasonable overall during 2011, and pricing and return expectations on our new investments were stable throughout the year, after several years of declines. All in all, market conditions in 2011 continued to be favorable for new investment activity.

New private placement investments completed during 2011 were Arch Global Precision LLC; CHG Alternative Education Holding Company; DPC Holdings LLC; Handi Quilter Holding Company; Ideal Tridon Holdings, Inc.; K & N Parent, Inc.; LPC Holding Company; Marshall Physicians Services LLC; Merex Holding Corporation; NT Holding Company; SouthernCare Holdings, Inc.; Strata/WLA Holding Corporation and WP Supply Holding Corporation. In addition, the Trust added to existing private placement investments in Advanced Technologies Holdings; K N B Holdings Corporation; K W P I Holdings Corporation; MBWS Ultimate Holdco, Inc.; NetShape Technologies, Inc.; NT Holding Company; and TruStile Doors, Inc. A brief description of these investments can be found in the Consolidated Schedule of Investments.

The condition of the Trust's existing portfolio continued to improve during 2011. Sales and earnings for the Trust's portfolio as a whole continued their upward momentum - we now have seen 22 consecutive months of increases in the average sales and EBITDA of our portfolio companies since hitting trough levels in late 2009. During the year, a number of our portfolio companies resumed paying cash interest on their debt obligations to the Trust due to their improved operating performance and liquidity position. Patience and, in many cases, additional equity support from the sponsor groups, sometimes coupled with the temporary deferral of interest on our debt obligations, have proven to be the right approach to helping these companies rebound.

We had eight companies exit from the Trust's portfolio during 2011. In six of these exits, the Trust realized a significant positive return on its investment. These investments were Davis Standard LLC; KHOF Holdings, Inc.; Justrite Manufacturing Acquisition Company; Momentum Holding Company; Nesco Holding Corporation; and Total E & S Inc. We also realized on our investments in Navis Global and Telecorps Holdings, Inc., both of which were underperforming investments. In addition, we had a number of companies who took advantage of lower interest rates and improved operating performance to refinance and repay their debt obligations to the Trust.

OUTLOOK FOR 2012

We enter 2012 with a solid backlog of new investment opportunities. We also expect that leverage multiples and expected returns on new investments will continue to be stable during the year. We have a significant number of portfolio companies that are in various stages of a sale process. One exit has already closed in January - Savage Sports Holding, Inc. was sold for a nice gain near the end of the month, and we expect that realization activity will be very strong in 2012. Strong realization and refinancing activity is a double-edged sword, however, as that could result in a loss of income-producing investments. We have been fortunate that our new investment activity in recent years has been strong and has had a positive impact on net investment income. We will need to maintain a robust level of new investment activity in the face of expected high levels of realization and refinancing activity.

2011 Annual Report

The Trust weathered the difficult markets of 2008 and early 2009 well, and was able to maintain its dividend level. With improving market conditions in 2010 and 2011, the Trust was able to increase its dividend by 23% in 2011 over the prior year. Despite the unsettled global economic conditions and other challenges, we are optimistic heading into 2012. Regardless of the market environment, however, the Trust will continue to employ the investment philosophy that has served it well since its inception: investing in companies which we believe have a strong business proposition, solid cash flow and experienced, ethical management. This philosophy, along with Babson Capital's seasoned investment-management team, positions the Trust well to meet its investment objectives and policies. As always, I would like to thank you for your continued interest in and support of Babson Capital Participation Investors. I look forward to seeing you at the Trust's annual shareholder meeting in Springfield on April 27, 2012.

Sincerely,

Michael L. Klofas
President

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. History

Babson Capital Participation Investors (the "Trust") was organized as a Massachusetts business trust under the laws of the Commonwealth of Massachusetts pursuant to a Declaration of Trust dated April 7, 1988. Effective December 16, 2011, the Trust's name was changed to Babson Capital Participation Investors. Prior to December 16, 2011, the Trust's name was MassMutual Participation Investors.

The Trust is a diversified closed-end management investment company. Babson Capital Management LLC ("Babson Capital"), a wholly-owned indirect subsidiary of Massachusetts Mutual Life Insurance Company ("MassMutual"), acts as its investment adviser. The Trust's investment objective is to maximize total return by providing a high level of current income, the potential for growth of income, and capital appreciation. The Trust's principal investments are privately placed, below-investment grade, long-term debt obligations purchased directly from their issuers, which tend to be smaller companies. At least half of these investments normally include equity features such as common stock, warrants, conversion rights, or other equity features that provide the Trust with the opportunity to realize capital gains. The Trust will also invest in publicly traded debt securities (including high yield securities), again with an emphasis on those with equity features, and in convertible preferred stocks and, subject to certain limitations, readily marketable equity securities. Below-investment grade or high yield securities have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay capital. In addition, the Trust may temporarily invest in high quality, readily marketable securities.

On January 27, 1998, the Board of Trustees authorized the formation of a wholly-owned subsidiary of the Trust ("PI Subsidiary Trust") for the purpose of holding certain investments. The results of the PI Subsidiary Trust are consolidated in the accompanying financial statements. Footnote 2.D

which may be effected immediately if the market is adequate, restricted securities can be sold only in a public offering for which a registration statement is in effect under the Securities Act of 1933, as amended (the "1933 Act") or pursuant to a transaction that is exempt from registration under the 1933 Act. Restricted securities that are valued using public information, such as observable trades or market quotations, are reflected as restricted securities at market value. Valuation of securities in the Trust's portfolio is made on the basis of the market price whenever market quotations are readily available.

The value of restricted securities at fair value, and of any other assets for which there are no reliable market quotations, is the fair value as determined in good faith by the Trust's Board of Trustees (the "Trustees"). Each restricted security is valued by the Trustees at the time of its acquisition and at least quarterly thereafter. The Trustees have established guidelines to aid in the valuation of each security. Generally, restricted securities are initially valued at cost at the time of acquisition by the Trust. Values greater or less than cost are used thereafter for restricted securities in appropriate circumstances. Among the factors ordinarily considered in the valuation of debt and equity securities at fair value are the results of various valuation methods, which may include comparable company valuation analyses, discounted future cash flow models and recent private transactions. As part of the valuation process, we may take into account the following types of factors, if relevant, in determining the fair value of our investments: the enterprise value of a portfolio company (an estimate of the total fair value of the portfolio company's debt and equity), the portfolio company's earnings, the markets in which the portfolio company does business, a comparison of the portfolio company's securities to publicly traded securities with similar characteristics, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made in the future and other relevant factors. Consideration is also given to corporate governance, marketability, company and industry results and outlooks, and general market conditions. The determination of fair value involves

subjective judgments. As a result, using fair value to price a security may result in a price materially different from the price used by other investors or the price that may be realized upon the actual sale of the security. All of these factors are in accordance with the authoritative guidance on fair value measurements under U.S. GAAP. In making valuations, opinions of counsel may be relied upon as to whether or not securities are restricted securities and as to the legal requirements for public sale.

When market quotations are readily available for unrestricted securities of an issuer, restricted securities of the same class are generally valued at a discount from the market price of such unrestricted securities. The Trustees, however, consider all factors in fixing any discount, including the filing of a registration statement for such securities under the 1933 Act and any other developments which are likely to increase the probability that the securities may be publicly sold by the Trust without restriction.

2. Significant Accounting Policies

The following is a summary of significant accounting policies followed consistently by the Trust in the preparation of its consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

A. Valuation of Investments:

Nearly all securities which are acquired by the Trust directly from the issuers and shares into which such securities may be converted or which may be purchased on the exercise of warrants attached to such securities will be subject to legal or contractual delays in, or restrictions on, resale and will therefore be "restricted securities." Generally speaking, as contrasted with open-market sales of unrestricted securities (public securities),

Babson Capital Participation Investors

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Trustees meet at least once each quarter to approve the value of the Trust's portfolio securities as of the close of business on the last business day of the preceding quarter. This valuation requires the approval of a majority of the Trustees of the Trust, including a majority of the Trustees who are not interested persons of the Trust or of Babson Capital. In making valuations, the Trustees will consider reports by Babson Capital analyzing each portfolio security in accordance with the relevant factors referred to above. Babson Capital has agreed to provide such reports to the Trust at least quarterly.

The consolidated financial statements include private placement restricted securities valued at \$106,928,715 (88.87% of net assets) as of December 31, 2011 whose values have been estimated by the Trustees in the absence of readily ascertainable market values. Due to the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material.

The values for Rule 144A restricted securities and corporate public securities are stated at the last reported sales price or at prices based upon quotations obtained from brokers and dealers as of December 31, 2011, subject to discount where appropriate, and are approved by the Trustees.

Short-term securities with more than sixty days to maturity are valued at fair value and short-term securities having a maturity of sixty days or less are valued at amortized cost, which approximates fair value.

In accordance with the authoritative guidance on fair value measurements and disclosures under U.S. GAAP, the Trust discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to valuations based upon unobservable inputs that are significant to the valuation (level 3 measurements). The guidance establishes three levels of the fair value hierarchy as follows:

Level 1: quoted prices in active markets for identical securities

Level 2: other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3: significant unobservable inputs (including the Trust's own assumptions in determining the fair value of investments)

The following is a summary of the inputs used to value the Trust's net assets as of December 31, 2011:

| Assets: | Total | Level 1 | Level 2 | Level 3 |
|-----------------------|---------------|----------|--------------|---------------|

2011 Annual Report

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The inputs and methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

B. Accounting for Investments:

Investment transactions are accounted for on the trade date. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis, including the amortization of premiums and accretion of discounts on bonds held using the yield-to-maturity method. The Trust does not accrue income when payment is delinquent and when management believes payment is questionable.

Realized gains and losses on investment transactions and unrealized appreciation and depreciation of investments are reported for financial statement and Federal income tax purposes on the identified cost method.

C. Use of Estimates:

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

D. Federal Income Taxes:

The Trust has elected to be taxed as a "regulated investment company" under the Internal Revenue Code, and intends to maintain this qualification and to distribute substantially all of its net taxable income to its shareholders. In any year when net long-term capital gains are

securities of entities that could cause such trade or business income to be allocable to the Trust. The PI Subsidiary Trust (described in Footnote 1, above) was formed in order to allow investment in such securities without adversely affecting the Trust's status as a regulated investment company.

Net investment income and net realized gains or losses of the Trust as presented under U.S. GAAP may differ from distributable taxable earnings due to earnings from the PI Subsidiary Trust as well as certain permanent and temporary differences in the recognition of income and realized gains or losses on certain investments. Permanent differences will result in reclassifications to the capital accounts. In 2011, the Trust increased undistributed net investment income by \$511,765 decreased accumulated net realized gains by \$165,990, increased retained net realized gain on investments, prior years by \$311,532 and decreased additional paid in capital by \$657,307 to more accurately display the Trust's capital financial position on a tax-basis in accordance with U.S. GAAP. These re-classifications had no impact on net asset value.

The PI Subsidiary Trust is not taxed as a regulated investment company. The Trust's violation of this limitation could result in the loss of its status as a regulated investment company, thereby subjecting all of its net income and capital gains to corporate taxes prior to distribution to its shareholders. Beginning with the 2009 annual financial statements, the Trust recognizes a tax benefit from an uncertain position only if it is more likely than not that the position is sustainable, based solely on its technical merits and consideration of the relevant taxing authority's widely understood administrative practices and precedents. If this threshold is met, the Trust measures the tax benefit as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. The Trust has evaluated and determined that the tax positions did not have a material effect on the Trust's financial position and results of operations for the year ended

Babson Capital Participation Investors offers a Dividend Reinvestment and Cash Purchase Plan. The Plan provides a simple and automatic way for shareholders to add to their holdings in the Trust through the receipt of dividend shares issued by the Trust or through the reinvestment of cash dividends in Trust shares purchased in the open market. The dividends of each shareholder will be automatically reinvested in the Trust by DST Systems, Inc., the Transfer Agent, in accordance with the Plan, unless such shareholder elects not to participate by providing written notice to the Transfer Agent. A shareholder may terminate his or her participation by notifying the Transfer Agent in writing.

Participating shareholders may also make additional contributions to the Plan from their own funds. Such contributions may be made by personal check or other means in an amount not less than \$100 nor more than \$5,000 per quarter. Cash contributions must be received by the Transfer Agent at least five days (but no more than 30 days) before the payment date of a dividend or distribution.

Whenever the Trust declares a dividend payable in cash or shares, the Transfer Agent, acting on behalf of each participating shareholder, will take the dividend in shares only if the net asset value is lower than the market price plus an estimated brokerage commission as of the close of business on the valuation day. The valuation day is the last day preceding the day of dividend payment. When the dividend is to be taken in shares, the number of shares to be received is determined by dividing the cash dividend by the net asset value as of the close of business on the valuation date or, if greater than net asset value, 95% of the closing share price. If the net asset value of the shares is higher than the market value plus an estimated commission, the Transfer Agent, consistent with obtaining the best price and execution, will buy shares on the open market at current prices

ITEM 2. CODE OF ETHICS.

The Registrant adopted a Code of Ethics for Senior Financial Officers (the "Code") on October 17, 2003, which is available on the Registrant's website at www.babsoncapital.com/mpv. During the period covered by this Form N-CSR, there were no amendments to, or waivers from, the Code.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Registrant's Board of Trustees has determined that Mr. Donald E. Benson, a Trustee of the Registrant and a member of its Audit Committee, is an audit committee financial expert. Mr. Benson is "independent" for purposes of this Item 3 as required by applicable regulation.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Fees Billed to the Registrant

| | KPMG LLP Year Ended December 31, 2011 | KPMG LLP Year Ended December 31, 2010 |
|--------------------|--|--|
| Audit Fees | \$ 61,500 | \$ 52,500 |
| Audit-Related Fees | 0 | 0 |
| Tax Fees | 44,100 | 44,100 |
| All Other Fees | 0 | 0 |
| Total Fees | \$ 105,600 | \$ 96,600 |

Non-Audit Fees Billed to Babson Capital and MassMutual

| | KPMG LLP Year Ended December 31, 2011 | KPMG LLP Year Ended December 31, 2010 |
|--------------------|--|--|
| Audit-Related Fees | \$ 928,575 | \$ 1,040,600 |
| Tax Fees | 9,000 | 64,704 |
| All Other Fees | 0 | 0 |
| Total Fees | \$ 937,575 | \$ 1,105,304 |

The category "Audit-Related Fees" reflects fees billed by KPMG for various non-audit and non-tax services rendered to the Registrant, Babson Capital Management LLC ("Babson Capital"), and Massachusetts Mutual Life Insurance Company ("MassMutual"), such as SAS 70 review, IFRS consulting and agreed upon procedures reports. Preparation of Federal, state and local income tax returns and tax compliance work are representative of the fees reported in the "Tax Fees" category. The category "All Other Fees" represents fees billed by KPMG for consulting rendered to Babson Capital and MassMutual. The Sarbanes-Oxley Act of 2002 and its implementing regulations allows the Registrant's Audit Committee to establish a pre-approval policy for certain services rendered by the Registrant's independent accountants. During 2011, the Registrant's Audit Committee approved all of the services rendered to the Registrant by KPMG and did not rely on such a pre-approval policy for any such services.

The Audit Committee has also reviewed the aggregate fees billed for professional services rendered by KPMG for 2010 and 2011 for the Registrant and for the non-audit services provided to Babson Capital, and Babson Capital's parent, MassMutual. As part of this review, the Audit Committee considered whether the provision of such non-audit services was compatible with maintaining the principal accountant's independence.

The 2010 fees billed represent final 2010 amounts, which may differ from the preliminary figures available as of the filing date of the Registrant's 2011 Annual Form N-CSR and includes, among other things, fees for services that may not have been billed as of the filing date of the Registrant's 2011 Annual Form N-CSR, but are now properly included in the 2010 fees billed to the Registrant, Babson Capital and MassMutual.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The Registrant maintains an Audit Committee composed exclusively of Trustees of the Registrant who qualify as "independent" Trustees under the current listing standards of the New York Stock Exchange and the rules of the U.S. Securities and Exchange Commission. The Audit Committee operates pursuant to a written Audit Committee Charter, which is available (1) on the Registrant's website, www.babsoncapital.com/mpv; and (2) without charge, upon request, by calling, toll-free 866-399-1516. The current members of the Audit Committee are Donald E. Benson, Michael H. Brown and Maleyne M. Syracuse.

ITEM 6. SCHEDULE OF INVESTMENTS

A schedule of investments for the Registrant is included as part of this report to shareholders under Item 1 of this Form N-CSR.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Registrant's Board of Trustees has delegated proxy voting responsibilities relating to voting securities held by the Registrant to its investment adviser, Babson Capital Management LLC ("Babson Capital"). A summary of Babson Capital's proxy voting policies and procedures is set forth below.

Summary of Babson Capital's Proxy Voting Policy

Babson Capital views the voting of proxies as an integral part of its investment management responsibility and believes, as a general principle, that proxies should be acted upon (voted or abstained) solely in the best interest of its clients (i.e. in a manner it believes is most likely to enhance the economic value of the underlying securities held in client accounts). To implement this general principle, Babson Capital has engaged a proxy service provider (the "Service Provider"). The Service Provider is responsible for processing and maintaining records of proxy votes. In addition, the Service Provider has retained the services of an independent third party research provider (the "Research Provider") to provide research and recommendations on proxy voting. It is Babson Capital's Proxy Voting Policy to generally vote proxies in accordance with the recommendations of the Research Provider, or, in cases where the Research Provider has not made any recommendations with respect to a proxy, in accordance with the Research Provider's proxy voting guidelines (the "Guidelines"). If a proxy involves an issue on which the Research Provider has not made a recommendation or has not addressed in the Guidelines, it will be analyzed on a case-by-case basis.

Babson Capital recognizes, however, that there may be times when Babson Capital determines that it may be in the best interest of clients holding the securities to (1) vote against the Research Provider's recommendations or (2) in cases where the Research Provider has not provided Babson Capital with any recommendations with respect to a proxy, vote against the Research Provider's Guidelines. Babson Capital may vote, in whole or in part, against the Research Provider's recommendations or the Research Provider's Guidelines, as applicable. The procedures set forth in the Proxy Voting Policy are designed to ensure that votes against the Research Provider's recommendations or Guidelines have been made in the best interest of clients and are not the result of any material conflict of interest (a "Material Conflict"). For purposes of the Proxy Voting Policy, a Material Conflict shall mean any position, relationship or interest, financial or otherwise, of Babson Capital (or any person authorized under the Proxy Voting Policy to vote proxies on behalf of Babson Capital) that would or could reasonably be expected to affect Babson Capital's (or such person's) independence or judgment concerning how to vote proxies.

Summary of Babson Capital's Proxy Voting Procedures

Babson Capital will vote all client proxies for which it has proxy voting discretion in accordance with the Research Provider's recommendations or Guidelines, unless (i) a person authorized by the Best Execution and Proxy Committee (each a "Proxy Analyst"), the Best Execution and Proxy Committee or a designated member of the Best Execution and Proxy Committee, as applicable, determines that it is in the client's best interest to vote against the Research Provider's recommendation or Guidelines or (ii) Babson Capital is unable or determines not to vote a proxy in accordance with the Proxy Voting Policy. In these cases: if (i) a Proxy Analyst recommends that a proxy should be voted against the Research Provider's recommendation or Guidelines, (ii) no other Proxy Analyst reviewing such proxy disagrees with such recommendation, and (iii) no known Material Conflict is identified by the Proxy Analyst(s) or by a person designated by Babson Capital's Executive Committee Chair (the "Proxy Administrator"), the Proxy Administrator will vote the proxy or post the proxy for voting in accordance with the Proxy Analyst's recommendation. Otherwise, the proxy is to be submitted to a member of the Best Execution and Proxy Committee, who shall determine how to vote the proxy unless (i) the Proxy Analyst or Proxy Administrator has identified a Babson Capital Material Conflict or (ii) said Best Execution and Proxy Committee member has identified a Material Conflict personal to him or herself or a Babson Capital Material Conflict. In such cases, the proxy shall be submitted to the Best Execution and Proxy Committee, which may authorize a vote against the Research Provider's recommendation or Guidelines only if the Best Execution and Proxy Committee determines that such vote is in the client's best interests.

Nothing herein shall preclude Babson Capital from splitting a vote among different advisory clients in those cases where Babson Capital deems it appropriate.

No associate, officer, director or board of managers member of Babson Capital or its affiliates (other than those assigned such responsibilities under the Proxy Voting Policy) may influence how Babson Capital votes client proxies, unless such person has been requested to provide such assistance by a Proxy Analyst or Best Execution and Proxy Committee member and has disclosed any known Material Conflict. Any pre-vote communications prohibited by the Proxy Voting Policy shall be reported to a Best Execution and Proxy Committee member prior to voting and to Babson Capital's Chief Compliance Officer or General Counsel.

Obtaining a Copy of the Proxy Voting Policy

Clients may obtain a copy of Babson Capital's Proxy Voting Policy and information about how Babson Capital voted proxies related to their securities, free of charge, by contacting the Chief Compliance Officer, Babson Capital Management LLC, Independence Wharf, 470 Atlantic Avenue, Boston, MA 02210, or calling toll-free, 1-877-766-0014.

MATERIAL CONFLICTS OF INTEREST. The potential for material conflicts of interest may exist as the members of the Portfolio Management Team, have responsibilities for the day-to-day management of multiple advisory accounts. These conflicts may be heightened to the extent the individual, Babson Capital and/or an affiliate has an investment in one or more of such accounts. Babson Capital has identified (and summarized below) areas where material conflicts of interest are most likely to arise, and has adopted policies and procedures that it believes are reasonable designed to address such conflicts.

Transactions with Affiliates: Babson Capital or its affiliates, including MassMutual and its affiliates, may from time to time, acting as principal, buy securities or other investments for itself from or sell securities or other investments it owns to its advisory clients. Likewise, Babson Capital may either directly or on behalf of MassMutual, purchase and/or hold securities or other investments that are subsequently sold or transferred to advisory clients. Babson Capital has a conflict of interest in connection with a transaction where it or an affiliate is acting as principal since it may have an incentive to favor itself or its affiliates over its advisory clients in connection with the transaction. To address these conflicts of interest, Babson Capital has adopted a Transactions with Affiliates Policy, which ensures any such transaction is consistent with Babson Capital's fiduciary obligations to act in the best interests of its clients, including its ability to obtain best execution in connection with the transaction, and is in compliance with applicable legal and regulatory requirements.

Cross Trades: Babson Capital may effect cross-trades on behalf of its advisory clients whereby one advisory client buys securities or other investments from or sells securities or other investments to another advisory client. Babson Capital may also effect cross-transactions involving advisory accounts or funds in which it or its affiliates, including MassMutual, and their respective employees, have an ownership interest or for which Babson Capital is entitled to earn a performance or incentive fee. As a result, Babson Capital has a conflict of interest in connection with the cross-transaction since it may have an incentive to favor the advisory client or fund in which it or its affiliate has an ownership interest and/or is entitled to a performance or incentive fee. To address these conflicts of interest, Babson Capital has adopted a Transactions with Affiliates Policy, which ensures any such cross-transaction is consistent with Babson Capital's fiduciary obligations to act in the best interests of each of its advisory clients, including its ability to obtain best execution for each advisory client in connection with the cross-trade transaction, and is in compliance with applicable legal and regulatory requirements. Babson Capital will not receive a commission or any other remuneration (other than its advisory fee) for effecting cross-transactions between advisory clients.

Loan Origination Transactions: While Babson Capital or its affiliates generally do not act as an underwriter or member of a syndicate in connection with a securities offering, Babson Capital or its affiliates (or an unaffiliated entity in which Babson Capital or its affiliates has an ownership interest) may act as an underwriter, originator, agent, or member of a syndicate in connection with the origination of senior secured loans or other lending arrangements with borrowers, where such loans may be purchased by Babson Capital advisory clients during or after the original syndication. Babson Capital advisory clients may purchase such loans directly from Babson Capital or its affiliates (or an unaffiliated entity in which Babson Capital or its affiliates has an ownership interest) or from other members of the lending syndicate. Babson Capital or its affiliates may directly or indirectly receive underwriting, origination, or agent fees in connection with such loan originations. As a result, Babson Capital has a conflict of interest in connection with such loan origination transactions since it has an incentive to base its investment recommendation to its advisory clients on the amount of compensation, underwriting, origination or agent fees it would receive rather than on its advisory clients' best interests. To address this conflict of interest, Babson Capital has adopted a Transactions with Affiliates Policy, which ensures any such transaction is consistent with Babson Capital's fiduciary obligations to act in the best interests of its clients, including its ability to obtain best execution in connection with the transaction, and is in compliance with applicable legal and regulatory requirements.

MML Investors Services, LLC (“MMLISI”), an indirect wholly-owned subsidiary of MassMutual, is an SEC-registered broker-dealer that may act as an introducing broker for the purpose of effecting securities transactions for brokerage customers. While a Babson Capital advisory client could request that MMLISI effect securities transactions for it that would result in commissions to MMLISI, currently no Babson Capital advisory client directs Babson Capital to effect securities transactions for its account through MMLISI.

Investments by Advisory Clients: Babson Capital may invest client assets in securities or other investments that are also held by (i) Babson Capital or its affiliates, including MassMutual, (ii) other Babson Capital advisory accounts, (iii) funds or accounts in which Babson Capital or its affiliates or their respective employees have an ownership or economic interest or (iv) employees of Babson Capital or its affiliates. Babson Capital may also, on behalf of its advisory clients, invest in the same or different securities or instruments of issuers in which (i) Babson Capital or its affiliates, including MassMutual, (ii) other Babson Capital advisory accounts, (iii) funds or accounts in which Babson Capital, its affiliates, or their respective employees have an ownership or economic interest or (iv) employees of Babson Capital or its affiliates, have an ownership interest as a holder of the debt, equity or other instruments of the issuer. Babson Capital has a conflict of interest in connection with any such transaction since investments by its advisory clients may directly or indirectly benefit Babson Capital and/or its affiliates and employees by potentially increasing the value of the securities or instruments it holds in the issuer. Any investment by Babson Capital on behalf of its advisory clients will be consistent with its fiduciary obligations to act in the best interests of its advisory clients, and otherwise be consistent with such clients’ investment objectives and restrictions.

Babson Capital or its affiliates may also recommend that clients invest in registered or unregistered investment companies, including private investment funds such as hedge funds, private equity funds or structured funds (i) advised by Babson Capital or an affiliate, (ii) in which Babson Capital, an affiliate or their respective employees has an ownership or economic interest or (iii) with respect to which Babson Capital or an affiliate has an interest in the entity entitled to receive the fees paid by such funds. Babson Capital has a conflict of interest in connection with any such recommendation since it may have an incentive to base its recommendation to invest in such investment companies or private funds on the fees that Babson Capital or its affiliates would earn as a result of the investment by its advisory clients in the investment companies or private funds. Any recommendation to invest in a Babson Capital advised fund or other investment company will be consistent with Babson Capital’s fiduciary obligations to act in the best interests of its advisory clients, consistent with such clients’ investment objectives and restrictions. Babson Capital may, in certain limited circumstances, offer to clients that invest in private investment funds that it advises an equity interest in entities that receive advisory fees and carried profits interest from such funds.

Employee Co-Investment: Babson Capital may permit certain of its portfolio managers and other employees to invest in private investment funds advised by Babson Capital or its affiliates and/or share in the performance or incentive fees received by Babson Capital from such funds. If the portfolio manager or other employee was responsible for both the portfolio management of the private fund and other Babson Capital advisory accounts, such person would have a conflict of interest in connection with investment decisions since the person may have an incentive to direct the best investment ideas, or to allocate trades, in favor of the fund in which he or she is invested or otherwise entitled to share in the performance or incentive fees received from such fund. To address these conflicts of interest, Babson Capital has adopted a Side by Side Management of Private Investment Funds and Other Advisory Accounts Policy which requires, among others things, that Babson Capital treat each of its advisory clients in a manner consistent with its fiduciary obligations and prohibits Babson Capital from favoring any particular advisory account as a result of the ownership or economic interests of Babson Capital, its affiliates or employees, in such advisory account. Any investment by a Babson Capital employee in one of its private funds is also governed by Babson Capital’s Employee Co-Investment Policy, which ensures that any co-investment by a Babson Capital employee is consistent with Babson Capital’s Code of Ethics.

Management of Multiple Accounts: As noted above, Babson Capital’s portfolio managers are often responsible for the day-to-day management of multiple accounts, including, among others, separate accounts for institutional clients,

closed-end and open-end registered investment companies, and/or private investment funds (such as hedge funds, private equity funds and structured funds), as well as for proprietary accounts of Babson Capital and its affiliates, including MassMutual and its affiliates. The potential for material conflicts of interest exist whenever a portfolio manager has responsibility for the day-to-day management of multiple advisory accounts. These conflicts may be heightened to the extent a portfolio manager is responsible for managing a proprietary account for Babson Capital or its affiliates or where the portfolio manager, Babson Capital and/or an affiliate has an investment in one or more of such accounts or an interest in the performance of one or more of such accounts (e.g., through the receipt of a performance or incentive fee).

Investment Allocation: Such potential conflicts include those relating to allocation of investment opportunities. For example, it is possible that an investment opportunity may be suitable for more than one account managed by Babson Capital, but may not be available in sufficient quantities for all accounts to participate fully. Similarly, there may be limited opportunity to sell an investment held by multiple accounts. A conflict arises where the portfolio manager has an incentive to treat an account preferentially because the account pays Babson Capital or its affiliates a performance-based fee or the portfolio manager, Babson Capital or an affiliate has an ownership or other economic interest in the account. As noted above, Babson Capital also acts as an investment manager for certain of its affiliates, including MassMutual. These affiliate accounts co-invest jointly and concurrently with Babson Capital's other advisory clients and therefore share in the allocation of such investment opportunities. To address these conflicts of interest associated with the allocation of trading and investment opportunities, Babson Capital has adopted an Investment Allocation Policy and trade allocation procedures that govern the allocation of portfolio transactions and investment opportunities across multiple advisory accounts, including affiliated accounts. In addition, as noted above, to address these conflicts of interest, Babson Capital has adopted a Side by Side Management of Private Investment Funds and Other Advisory Accounts Policy which requires, among others things, that Babson Capital treat each of its advisory clients in a manner consistent with its fiduciary obligations and prohibits Babson Capital from favoring any particular advisory account as a result of the ownership or economic interests of Babson Capital, its affiliates or employees, in such advisory accounts. Any investment by a Babson Capital employee in one of its private funds is also governed by Babson Capital's Employee Co-Investment Policy, which ensures that any co-investment by a Babson Capital employee is consistent with Babson Capital's Code of Ethics.

Personal Securities Transactions; Short Sales: Potential material conflicts of interest may also arise related to the knowledge and timing of an account's trades, investment opportunities and broker selection. Babson Capital and its portfolio managers have information about the size, timing and possible market impact of the trades of each account they manage. It is possible that portfolio managers could use this information for their personal advantage and/or the advantage or disadvantage of various accounts which they manage. For example, a portfolio manager could, or cause a favored account to, "front run" an account's trade or sell short a security for an account immediately prior to another accounts sale of that security. To address these conflicts, Babson Capital has adopted policies and procedures, including a Short Sales Policy, which ensures that the use of short sales by Babson Capital is consistent with Babson Capital's fiduciary obligations to its clients, a Side by Side Management of Private Investment Funds and Other Advisory Accounts Policy, which requires, among other things, that Babson Capital treat each of its advisory clients in a manner consistent with its fiduciary obligations and prohibits Babson Capital from favoring any particular account as a result of the ownership or economic interest of Babson Capital, its affiliates or employees and a Code of Ethics.

Trade Errors: Potential material conflicts of interest may also arise if a trade error occurs in a client account. A trade error is deemed to occur if there is a deviation by Babson Capital from the applicable standard of care in connection with the placement, execution or settlement of a trade for an advisory account that results in (1) Babson Capital purchasing securities not permitted or authorized by a client's investment advisory agreement or otherwise failing to follow a client's specific investment directives; (2) Babson Capital purchasing or selling the wrong security or the wrong amount of securities on behalf of a client's account; or (3) Babson Capital purchasing or selling securities for, or allocating securities to, the wrong client account. When correcting these errors, conflicts of interest between Babson Capital and its advisory accounts may arise as decisions are made on whether to cancel, reverse or reallocate the erroneous trades. In order to address these conflicts, Babson Capital has adopted an Errors Policy governing the resolution of trading errors, and will follow the Errors Policy in order to ensure that trade errors are handled promptly and appropriately and that any action taken to remedy an error places the interest of a client ahead of Babson Capital's interest.

Best Execution; Directed Brokerage: With respect to securities transactions for most of the accounts it manages, Babson Capital determines which broker to use to execute each order, consistent with its fiduciary duty to seek best execution of the transaction. Babson Capital manages certain accounts, however, for clients who limit its discretion

with respect to the selection of brokers or direct it to execute such client's transaction through a particular broker. In these cases, trades for such an account in a particular security may be placed separately from, rather than aggregated with, those in the same security for other accounts. Placing separate transaction orders for a security may temporarily affect the market price of the security or otherwise affect the execution of the transaction to the possible detriment of one or more of the other account(s) involved. In order to address these conflicts, Babson Capital has adopted a Best Execution Policy, which establishes the necessary controls to satisfy its obligations regarding best execution and ensures it places advisory client trades in such a manner that the advisory client's total costs or proceeds are the most favorable under the circumstances, and a Directed Brokerage Policy, which ensures all directed brokerage instructions are executed in accordance with written client instructions and applicable legal requirements.

Babson Capital and its portfolio managers or employees may have other actual or potential conflicts of interest in managing an advisory account, and the list above is not a complete description of every conflict of interest that could be deemed to exist.

COMPENSATION. The current Babson Capital compensation and incentive program for investment professionals is designed to attract, motivate and retain high-performing individuals.

To help Babson Capital make informed decisions, Babson Capital participates in annual compensation surveys of investment management firms using McLagan Partners, in addition to other industry specific resources. The firms selected for periodic peer-group comparisons typically have similar asset size or business mix. Annually, a review is conducted of total compensation versus market, to ensure that individual pay is competitive with the defined overall market.

The compensation package for the members of the Portfolio Team is comprised of a market-driven base salary, a performance-driven annual bonus, and discretionary long-term incentives. The performance-driven annual bonus is based on the overall performance of Babson Capital as well as the performance of the accounts managed by the members of the Portfolio Team relative to appropriate benchmarks, including with respect to the Registrant, to the Russell 2000 Index and Lehman Brothers U.S. Corporate High Yield Index. Performance of the Registrant, like other accounts Portfolio Team members manage, are evaluated on a pre-tax basis, and are reviewed over one and three-year periods, with greater emphasis given to the latter. There are other factors that affect bonus awards to a lesser extent, such as client satisfaction, teamwork, and the assets under management. Such factors are considered as a part of the overall annual bonus evaluation process by the management of Babson Capital.

Long-Term incentives are designed to share with participants the longer-term value created in Babson Capital. Long-term incentives may take the form of deferred cash awards (including deferred cash awards that provide a portfolio manager with the economic equivalent of a "shareholder" interest in Babson Capital by linking the value of the award to a formula which ties to the value of the business), and/or, in the case of a portfolio manager who manages a private investment fund with a performance fee, a deferred cash award or a direct profit sharing interest that results in the portfolio manager receiving amounts based on the amount of the performance fee paid by such fund. These long-term incentives vest over time and are granted annually, based upon the same criteria used to determine the performance-driven annual bonus detailed above. Because the Portfolio Team members are generally responsible for multiple accounts (including the Registrant), they are compensated on the overall performance of the accounts that they manage, rather than a specific account, except for the portion of compensation relating to any performance fee award.

BENEFICIAL OWNERSHIP. As of December 31, 2011, members of the Portfolio Team beneficially owned the following dollar range of equity securities in the Registrant:

| Portfolio Team: | Dollar Range of Beneficially Owned* Equity Securities of the Registrant: |

| Sean Feeley | None |
| Michael P. Hermsen | \$10,001-\$50,000 |
| Michael L. Klofas | None |
| Richard E. Spencer II | None |

*Beneficial ownership has been determined in accordance with Rule 16a-1(a)(2) under the Securities Exchange Act of 1934, as amended. (Shares "beneficially owned" include the number of shares of the Registrant represented by the value of a Registrant-related investment option under Babson Capital's non-qualified deferred compensation plan for certain officers of Babson Capital (the "Plan"). The Plan has an investment option that derives its value from the market value of the Registrant's shares. However, neither the Plan nor the participation in the Plan has an actual ownership interest in the Registrant's shares.)
