ATM Business in Canada

Background of the ATM Business

In the latter part of 1997, the Canadian Banking and Financial sectors of Canadian industry commenced a government deregulation program in which, under deregulation of the Canada Bank Act, allowed for the release of certain segments of proprietary control involving banking institutions. One of the preliminary results of the deregulation was the allowance of the private operation of ATMs not associated with Canadian Banking financial institutions. This private ownership and operation of ATM equipment has been described within the industry as the white label ATM market.

Canadian Banking Institutions have been participating in the development of new technology, particularly in regard to online computer banking. Advances originating from the introduction of credit card and debit card services evolved into the installation of commercial POS management systems across the country and the development of the Canadian INTERAC system which provided complete online banking services and 24-hour customer banking between the various existing banking institutions. It also provided for full-bank service availability from remote site locations throughout Canada.

Evolving online financial technology being pursued by the institutional banking financial sectors has been confronted by growth of computer-based commerce. The Internet and the expansion of computer generated online commerce shifted a significant amount of consumer financial services from conventional banking and financial institutions to non-traditional and new and innovative virtual-based methods of conducting financial transactions. This on-line or INTERAC connecting of the conventional banking institutions was a significant factor for profits produced by Canadian conventional banking and financial institutions during the last five (5) years.

In late 1997, non-conventional banking participation and private ownership of ATMs was authorized through the deregulation process within the Canada Bank Act that allowed for private participation within the Canadian INTERAC system. The implications of private ownership and participation within this technologically based commerce have been significant.

Many Canadian companies pursued participation in the field of marketing, distribution, selling, and leasing cash dispensing equipment recognized in the market place as ATMs, ABMs (automated banking machines), white label machines (a privately owned and operated cash dispensing machine).

A switch as used herein means a computer system that receives requests for financial transactions from ATM terminals, POS or electronic transfer terminals in retail businesses which routes transaction requests to and from ATM devices and financial institutions for final transaction processing and/or authorization. In Canada, the Canadian INTERAC network coordinates this activity. Under recent deregulation, non-financial institutions that are members of INTERAC are allowed to be indirect connectors. These non-financial institutions provide switching services for shared cash dispensing, data processing, and other associated services in connection with the network. Pursuant to the rules and regulations set out by INTERAC and current switch technology, a switch can process up to ten thousand (10,000) transactions at any given time.

The Entry of Vencash into the ATM Business

Vencash Capital identified opportunities resulting from the privatization of the ATM business. During December 1997, the first privately owned ATMs were placed in Western Canada and in July 1998, Vencash Capital entered the white label ATM marketplace. Vencash Capital contracted with TNS Smart Network Inc., an Etobicoke, Ontario Corporation, which provides switching services to the industry, and became the 7th Canadian Channel authorized to participate within the white label ATM business.

By March 1999, Vencash Capital had ninety (90) ATMs under its management across Canada, primarily in the Provinces of Ontario, British Columbia and Alberta. We reached an agreement with Vencash Capital to fund, by way of lease and loan agreements, the expansion of Vencash Capital's placement of ATMs. By the 1999 year-end and with our financial assistance, Vencash Capital was able to expand its management and ownership of ATMs across Canada, increasing its network to the Maritime Provinces by establishing (2) two new distributorships, one in Prince Edward Island and one in New Brunswick.

By December 2005, Vencash Capital had sites located nationally across Canada and managed nine hundred thirty-two (932) ATMs. As of March 31, 2006, Vencash Capital held nine hundred twenty-five (925) ATM sites under management nationally across Canada, most notably in the Provinces of British Columbia and Alberta, Saskatchewan, Ontario and Maritimes. As of March 31, 2007, Vencash Capital held nine hundred seventy-seven (977) ATM sites under management nationally across Canada, most notably in the Provinces of British Columbia and Alberta, Saskatchewan, Ontario and Maritimes. As of March 31, 2008, Vencash Capital held nine hundred and twenty (920) ATM sites under management nationally across Canada, most notably in the Provinces of British Columbia and Alberta, Saskatchewan, Ontario and Maritimes. As of March 31, 2009, Vencash Capital held Eight Hundred and Eight (808) ATM sites under management nationally across Canada, most

notably in the Provinces of British Columbia and Alberta, Saskatchewan, Ontario and Maritimes.

Edgar Filing: WESTSPHERE ASSET CORPORATION, INC - Form 10-K

Vencash Capital is one of several nation-wide companies involved in the private ATM market in Canada and presently has one (1) distributor in the Maritime region of Canada, one (1) independent distributor in the Metro Toronto area of Ontario, Canada, one (1) distributor in the Province of Saskatchewan, one (1) distributor in Kamloops, British Columbia and one (1) distributor in the Greater Vancouver, British Columbia area.

At present, Vencash Capital acts as a channel which contracts its financial electronic transfer responsibilities with three (3) switches (Data West Solutions and Calypso Canada Ltd. and Westsphere Systems Inc.)

The switch supplies the financial information to the channel in relationship to the processing of all surcharge fees that are associated with the customer use of the ATM.

Current Stage of Corporate Development

Historically, Vencash Capital has provided a large percentage of the cash flow which fuelled its and our other expansion. Our management believes that Vencash Capital will continue to generate positive revenues and returns. We plan to focus on supplying the required funding for the growth of our placement and ownership of equipment to Vencash Capital customers through our relationship with equipment suppliers and our contracted Switching Network to allow for the growth of the Vencash Capital distribution network.

Growth Strategy and Market Niche

Vencash Capital has been an integrated ATM provider offering a complete suite of ATM management services ranging from ATM deployment, maintenance reporting and settlement. Vencash Capital has focused on organic growth over the past three (3) years and its management's plan is to continue to grow within the ATM market place into the future as follows:

- i. In 2009, Vencash Capital plans to evaluate the management of its ATMs in the Canadian in the view to consolidate all of its ATM processing and business operations in order to maximize our current revenues and reduce our costs of administration and operations.
- ii. Vencash Capital will review its geographically based ATM estate to determine the viability of reorganizing those business operations in order to maximize our current revenues and reduce our costs of administration, which might include the sale of those estates to our distribution network or other third parties.

The Canadian Current ATM Market

In late 1997, non-conventional banking participation and private ownership of ATMs was authorized allowing for participation within the Canadian INTERAC system. The Canadian Interac Association as used herein is a national organization linking enterprises that have proprietary networks to enable them to communicate with each other for purposes of exchanging electronic financial transactions. Five (5) Canadian Banking and Financial Institutions founded the association in 1984. As of March 2006, there were eighty-eight (88) member organizations. INTERAC is the organization responsible for the development of a national network of shared electronic financial services: INTERAC Shared Cash Dispensing Service (SCD) at ATMs and INTERAC Direct Payment Services (IDP), Canada's national debit service. IDP is Canada's national debit card service, available at more than 365,616 merchants across the country.

The business opportunities originating for private ownership and operation of ATMs within the INTERAC system resulting from the Canada Bank Act deregulation in 1998 has matured over the past several years. With the maturity of this aspect of the business, acceptance of the white label ATM placement has become routine, however, saturation is not yet comparable to the United States market experience.

The Corporation believes there will be a continued consolidation in the Canadian white-label ATM marketplace in 2009. Over the past two years several large national organizations have been vying for marketplace dominance. The sourcing of acquisitions and business consolidation has been quite active in Canada but to date the Corporation has not found an acceptable model for consolidated with third parties that would provide maximum benefit to the Corporation. As a result the Corporation is in the process of consolidating our associated subsidiary business operations. It is anticipated that the consolidation will maximize our consolidated revenues and reduce our costs of administration and operations.

Edgar Filing: WESTSPHERE ASSET CORPORATION, INC - Form 10-K

Competitors

- i. DirectCash Income Trust - Canada's largest ATM company in operation. It has offices and distribution centers in all of the major cities across Canada.
- ii. Frisco Bay - A large ATM corporation with integrated business operations which supplies security systems to major financial corporations and the banking industry.
- iii. Laser Cash (Threshold) - A large ATM operator in service. This corporation also has distribution capabilities across Canada with head offices located in Mississauga, Ontario.
- iv. Cash-Line - A Victoria, B.C. based corporation with ATM machines in service primarily across Western Canada.
- v. Ezee Cash - An Ontario and Quebec centered ATM company that has a national presence.
- vi. Several Regional and National Companies - These companies compete on a regional basis with Vencash Capital's regional distributor network and nationally with Vencash Capital corporately.

Competitive Advantages

Motivation of the Vencash Distribution network has been to focus on customer site and consumer service, and on long-term contractual relationships which provide recurring transactional and fixed revenue streams with a national presence and a diverse customer base, including primarily small and medium retail site locations as well as a secondary presence in national or regional chain accounts.

Vencash Capital's management continues to utilize selective placement and monitoring of ATMs, to obtain maximum value for placement and a higher percentage return per terminal. Service and information dissemination will continue to be a priority for the management team, employees, distributors and strategic partners. Information processing and communications systems will integrate all components of Vencash Capital's internal and external operations.

Vencash Capital's management believes there will be a continued consolidation in the white-label ATM marketplace in 2009. This will likely result in several large national organizations vying for marketplace dominance. The sourcing of acquisitions and business consolidation has been quite active in Canada and remains an option that continues to be reviewed by us.

On June 08, 1998, Vencash Capital signed a supply agreement with Triton Systems, Inc., an ATM manufacturer and supplier. The agreement contains pricing schedules based upon Vencash Capital's volume purchase requirements.

Vencash Capital has processing agreements with the following vendors:

- i. Open Solutions formerly known as Data West and TCS (Canada) Ltd, executed June 24, 1999.
- ii. Calypso Canada Ltd. originally executed on August 1999 and later renegotiated in December 2003.
- iii. Westsphere Systems Inc. executed November, 2009

We have a large customer base and a large geographical area in which to market our products. Vencash Capital presently has ten (10) distributors of its equipment, products and services under contract across Canada, two (2) contracted sales persons in Vancouver, B.C. and five (5) contracted sales persons in the Province of Alberta, Canada. Vencash Capital is one of several nation-wide companies involved in the private ATM market in Canada. To enhance the opportunities of the Distributor Network, the Corporation is developing a business model based on consolidating all of its related business operations and the enhancement of its Distribution network with the potential of direct ownership of its ATM estate under terms and conditions which allows for growth and development of both the Distributor and the Corporation.

Risk Assessment

The private white label ATM business is highly competitive. We face competition from large numbers of companies engaged in the selling and servicing of ATM products in all areas in which we may attempt to operate. Many of the programs and companies so engaged possess greater financial and personnel resources than us and therefore have greater leverage to use in developing technologies, establishing markets, acquiring prospects, hiring personnel and marketing. Accordingly, a high degree of competition in these areas is expected to continue. The major banks in Canada could aggressively enter the white label market and we could not overcome or compete with them due to their financial and corporate strength.

We and our subsidiaries are subject to the terms and conditions applicable to channels as set forth by the INTERAC network system.

Edgar Filing: WESTSPHERE ASSET CORPORATION, INC - Form 10-K

On January 7, 2009 the Board of Directors, after reviewing the Corporation's business operations at the Annual General Meeting of the Shareholders on December 6, 2008, approved the consolidation of Vencash's processing and business operations with the assignment of ATM related processing agreements and ATM assets under a purchase and sale agreement to be offset against receivables and payables to the Corporation's wholly owned subsidiary Westsphere Systems Inc.

b. Business of Westsphere Financial Group Ltd.

Upon Management's 2004 review and reorganization and consolidation of our business operations, we suspended all distribution, software injection and key coding related to point of sale placement on the switch. The corporate shell was sold in May 2005 to an arm's length third party after being inactive for a period of six (6) months.

c. Business of Vencash POS Services Inc.

On May 09, 2003, we incorporated Westsphere POS Services Ltd. (Westsphere POS) under the laws of the Province of Alberta for the purpose of providing sales and servicing in the POS market. POS as used herein means an electronic terminal that accepts bank debit cards and credit cards to pay by way of direct settlement to the retailer's account from the customers banking or credit card provider on a daily basis for the purchase of goods or services. On January 04, 2006, Westsphere POS changed its name to Vencash POS Services Inc. (Vencash POS) with the intent that Vencash POS would consolidate all of our POS related business activity to date. The consolidation process is ongoing and, until such time as the consolidation is completed, there will be limited business activity.

d. Business of Kan-Can Resorts Ltd.

Kan-Can Resorts Ltd. having no current or future business operations or opportunities has been dissolved effective January 08, 2009

e. Business of Westsphere Systems Inc.

Westsphere Systems was formed to provide the Corporation with technical services and is focusing its business development primarily on:

- i. Having received approval in March 2007 by INTERAC Association, as an acquirer in the Association's SCD Service and as an acquirer in the Association's IDP Service. - ii. During the Month of November 2008 Westsphere Systems Inc. commenced processing the Corporation's ATM estate held under contract by Vencash Capital. As of March 2009, 146ATM's were under Westsphere Systems processing.
- iii. Providing internal security for intellectual property and technical development.

Edgar Filing: WESTSPHERE ASSET CORPORATION, INC - Form 10-K

On January 7, 2009 the Board of Directors, after reviewing the Corporation's business operations at the Annual General Meeting of the Shareholders on December 6, 2008, approved the sale and transfer of 100% of the issued and outstanding shares of E-Debit International to the Corporation's wholly owned subsidiary Westsphere Systems Inc. Also at this time, the Board approved the consolidation of its wholly owned subsidiary Vencash Capital Corporation's processing and business operations with the assignment of ATM related processing agreements and ATM assets under a purchase and sale agreement to be offset against receivables and payables to Westsphere System.

f. Business of E-Debit International Inc.

E-Debit initial development stages focused on meeting the payment system needs of current and potential online shoppers. E-Debit's business model was based on an anonymous payment system to protect the identity of the purchaser while allowing for guaranteed payment to the merchant. E-Debit intended to accomplish this system by developing and marketing a secure, anonymous online payment system that could be used by online consumers and merchants.

The events of September 11, 2001 caused our management to seriously evaluate the anonymity factor of the E-debit process, particularly because the E-debit process allowed for the anonymous transfer of currency. The anonymity extended to E-Debit as the E-debit account holder's identity would not be available to E-Debit once the account numbers had been changed by the individual account holder; thereby allowing currency transfers without any ability to track or trace the account holder.

On February 11, 2004, we entered into a purchase agreement to acquire an additional ten percent (10%) interest in E-Debit from a non-affiliated third party E-Debit shareholder. With this purchase, E-Debit became one of our wholly owned subsidiaries. The function of E-Debit has been expanding in conjunction with the original functionality of the E-debit process. The business model has been amended in order to incorporate and integrate the E-debit process into the aspects of our ATM, POS and Westsphere Systems Inc. business operations. This project is now pending until determination of its appropriate applications. E-Debit has had no new business activity to date.

On January 7, 2009 the Board of Directors, after reviewing the Corporation's business operations at the Annual General Meeting of the Shareholders on December 6, 2008, approved the sale and transfer of 100% of the issued and outstanding shares of E-Debit International to the Corporation's wholly owned subsidiary Westsphere Systems Inc.

g. Business of Cash Direct Financial Services Inc.

Cash Direct was formed to expand our non-conventional banking operations branded Personal Financial Solutions.

The first Personal Financial Solutions storefront commenced business operations on November 1, 2004, supplying short-term cash advance loan agreements under the brand name CashDirect Advance, cheque cashing services, corporate registry and filing and other related services.

Cash Direct generated revenues from its investment in Personal Financial Solutions and through its first beta site which grew on a monthly basis during the first full year of operations. It was apparent that the beta test supported the acceptance, convenience, versatility and reliability of the Cash Direct proprietary hardware and related software and through two (2) additional Personal Financial Solutions arms length privately held distributorships one in Edmonton, Alberta and another in Calgary, Alberta

With the start up of the second Calgary Personal Financial Solutions independent business centre on March 15, 2006, the Calgary beta test store was wound down and its client base was transferred to the Calgary, Alberta distributor which continued to operate into 2007. The Calgary, Alberta based distributor wound down its business operations in mid 2007 while the Edmonton, Alberta based distributor suspended his business operations in order to renovate the building which housed his distributorship.

The Corporation had previously viewed the operation of cheque cashing services, corporate registry and filing services was not adding to the financial potential of our core business model as the fee per transaction based business operations of its ATM, POS and card management businesses. With recent changes to the current North American economy and damage to the conventional banking infrastructure the Corporation is engaged in a renewed review of Cash Direct's potential.

Current Stage of Our Development

Our group of companies employs eighteen (18) full-time employees and three (2) contracted consultant groups working in Edmonton, Alberta and Omaha, Nebraska. We were incorporated in Colorado on July 21, 1998, and hold wholly owned subsidiaries which conduct business throughout Canada. We file and prepare our financial information in accordance with U.S. generally accepted accounting principles (GAAP).

ITEM 1A RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the following risk factors and the other information in this registration statement before investing in our common stock. Our business and results of operations could be seriously harmed by any of the following risks.

We have substantial indebtedness.

As of December 31, 2008, we had a working capital deficit of \$445,656 which includes \$551,446 payable to suppliers and day-to-day operations. Our ability to meet our debt service requirements will depend upon achieving significant and sustained growth in our expected cash flow. Our cash flow will be affected by our success in implementing our business strategy, prevailing economic conditions and financial, business and other factors, some of which are beyond our control. Accordingly, we cannot be certain as to whether or when we will have sufficient resources to meet our debt service obligations. If we are unable to generate sufficient cash flow to service our indebtedness, we will have to sell assets, restructure or refinance our indebtedness or seek additional equity capital. We cannot assure you that any of these strategies can be effect on satisfactory terms, if at all, particularly in light of our high levels of indebtedness. In addition, the extent to which we continue to have substantial indebtedness could have significant consequences, including:

our ability to obtain additional financing in the future for working capital, capital expenditures, acquisitions and other general corporate purposes may be materially limited or impaired,

a substantial portion of our cash flow from operations may need to be dedicated to the payment of general operations and therefore not available to finance our business growth, and our indebtedness,

our high degree of indebtedness may make us more vulnerable to economic downturns, limit our ability to withstand competitive pressures or reduce our flexibility in responding to changing business and economic conditions.

Requirements associated with being a reporting public company will require significant company resources and management attention.

Compliance with reporting and other requirements applicable to public companies such as Sarbanes Oxley will create additional costs for us, will require the time and attention of management and will require the hiring of additional personnel and outside consultants. We cannot predict or estimate the amount of the additional costs we may incur, the timing of such costs or the degree of impact on our management's attention to these matters will have on our business.

In addition, being a reporting public company could make it more difficult or more costly for us to obtain certain types of insurance, including directors' and officers' liability insurance, and we may be forced to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. The impact of these events could also make it more difficult for us to attract and retain qualified persons to serve on our board of directors, our board committees or as executive officers.

We depend upon key personnel, the loss of which could seriously harm our business.

Our performance is substantially dependent on the continued services of our executive officers and key employees. Our long-term success will depend on our ability to recruit, retain and motivate highly skilled personnel. Competition for such personnel is intense. We have at times experienced difficulties in recruiting qualified personnel, and we may experience difficulties in the future. The inability to attract and retain necessary technical and managerial personnel could seriously harm our business, financial condition and results of operations and our ability to achieve sufficient cash flow to service our indebtedness.

Our management has broad discretion over the use of capital raised.

We plan on raising capital for working capital and to help pay off the outstanding indebtedness and for general corporate purposes. Thus, management will have broad discretion in allocating proceeds of any offering.

Our prior growth rates may not be indicative of our future growth rates and should not be relied upon.

You should not consider prior growth rates in our revenue to be indicative of our future operating results. The timing and amount of future revenues will depend on our ability to add new ATM/POS terminals to the switch product. Our future operating results will depend upon many other factors, including:

- the level of processing transactions and price competition,
- our success in expanding our business network and managing our growth,
- our ability to develop and market product enhancements and new products,
- the ability to hire additional employees, and
- the timing of such hiring and the ability to control costs.

We do not anticipate paying cash dividends on our capital stock in the foreseeable future.

We do not anticipate paying cash dividends in the foreseeable future. We currently intend to retain our future earnings, if any, to fund the growth of our business.

ITEM 6 - SELECTED FINANCIAL DATA

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND CHANGES IN FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Westsphere and its subsidiaries generated a net loss of \$650,868 from operations for the twelve month period ending December 31, 2008. During the period of operations ending December 31, 2007, Westsphere and its subsidiaries generated a net loss of \$314,427. The increase in year 2008's net loss of \$336,441 over the previous year was primarily due to a significant decrease in gross profit of \$320,841 or 19.68%, a decrease in interest income of \$8,544, an increase in interest expense of \$42,970, increase in other expenses of \$86,109, and a decrease in provision for income taxes of \$89,652 was due to valuation allowance. The increase in net loss is partially offset against a significant decrease in legal and accounting fees of \$116,800, a decrease in travel, delivery and vehicle expenses of \$65,770, and a decrease in salaries and benefits of \$19,855 over the same period from the previous year.

The decrease in gross profit was primarily caused by a decrease in residual and interchange income and a decrease in equipment and supplies sales.

The decrease in residual and interchange income was caused by a decrease in the number of placements of ATMs in the latter part of year 2007 to present. The decrease in the number of placements was due to Westsphere's subsidiary Vencash no longer having the finance/lease program available offered by an ATM supplier to place more ATMs in the market place at a lower cost. This is due to changes within the organization of a major Vencash ATM supplier, equipment and supply agreements along with related transaction processing agreements signed in the latter part of year 2006 that are presently in dispute. In addition, according to Canadian Interac data, the number of transactions using an ATM other than the cardholder's institution has dropped from 375 million in 2001 to 285 million in 2006 and the number of shared ATMs increased by 4% but the number of shared cash dispensing decreased by 6.5%.

Edgar Filing: WESTSPHERE ASSET CORPORATION, INC - Form 10-K

The decrease in net of equipment and supplies sales was due to Westsphere's subsidiary Vencash Capital Corporation mainly focusing on the placement, and finance/lease program offered by an ATM supplier in year 2006. The finance/lease program provides Vencash Capital an opportunity to place more ATMs in the marketplace at a lower cost. However, as mentioned above, the finance/lease program offered by an ATM supplier is currently under dispute. The dispute with the ATM supplier is an ongoing matter with no further agreement in place. This has resulted in a requirement to find additional financial resources related to growth in its ATM business and to determine whether or not Vencash's current ATM equipment supplier can meet the upgrade requirements as set forth in regards to meeting ongoing regulatory compliance.

A significant decrease in interest income was mainly caused by the sale of the sales-type lease contract in November 2006 and the mortgage receivable was paid in full on April 1, 2007. Therefore, no interest income was earned.

The increase in interest expense was due to Westsphere entering into two new loan agreements during year 2007 totaling \$188,918 (\$231,000 CDN), bearing interest at 12% per annum, blended monthly payments of interest only of \$1,889 (\$2,310 CDN). The purpose of these loans is to supply vault cash to Westsphere's wholly owned subsidiary Vencash's customer's ATM equipment and site locations. Westsphere also committed to pay \$1,227 (\$1,500 CDN) interest per month to an investor who provides vault cash to Westsphere's subsidiary Vencash's customer's ATM equipment and site locations. Revenue from these funds will be generated from surcharge transactions. In January 2008, Westsphere entered into a new loan agreement with Westsphere's Vice President totaling \$44,980 (\$55,000 CDN), bearing interest at 12% per annum, blended monthly payments of interest only of \$450 (\$550 CDN). As of December 31, 2008, the balance is \$36,313 (\$44,402 CDN). The purpose of the loan is to purchase ATM parts and accessories.

An increase in other expenses was primarily caused by the written off of bad debt of \$93,174 and partially offset against the decrease in related to various general and administrative expenses of \$7,065.

The significant decrease in legal and accounting fees of \$116,800 was primarily due to the recording of the annually and quarterly audit fees in the same period from the previous year. The prior year's legal and accounting fees include the annual audit fee for year ending December 31, 2005, accrued annual and quarterly audit fees for the year ending December 31, 2006, and two quarterly audit fees accrued for the year 2007.

A decrease in travel, delivery and vehicle expenses was caused by a decrease in number of placement of ATMs in the marketplace. The decrease in the number of placements was due to Westsphere's subsidiary Vencash no longer having the finance/lease program available offered by an ATM supplier to place more ATMs in the market place at a lower cost. This is due to changes within the organization of a major Vencash ATM supplier, equipment and supply agreements along with related transaction processing agreements signed in the latter part of year 2006 that are presently in dispute.

To this date, 808 ATM and 480 POS sites are being processed between two switches. There was no change in operations during the year 2008 as compared to prior year.

Westsphere and its subsidiaries currently on the border of generate sufficient revenues to meet overhead needs. This is due to Westsphere's subsidiary Vencash experiencing a steady decrease in gross profit; specifically in the residual and interchange income over the past two year. In order to meet its growth plan, Westsphere will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds. Westsphere believes that it will continue as a going concern with the present revenues from its subsidiary Vencash but it would be unable to meet its market growth projections without further funding outside of the ongoing revenue from the operations of Vencash.

In order for Westsphere's subsidiaries to remain competitive in the marketplace, Westsphere, through its subsidiary Westsphere Systems Inc., has successfully gained membership into the Canadian Interac Association as an Acquirer. This will enable the direct processing of ATM, POS and other transactions for its other subsidiaries, Vencash and Trac POS. Westsphere has sourced out an industry leader, ACI Worldwide, and invested in the development and ongoing support required to facilitate the processing of transactions.

Westsphere Systems Inc. will process all transactions through its association with ACI thereby eliminating the costs, restrictions, and potential risks of relying on third party processors. Most importantly, the investment in the processor, or switch, will also enable Westsphere's direct entry into new and emerging markets such as card management and processing.

Westsphere is unable to continue supporting the switch development project where it has funded the start up costs. As mentioned above, this is due to Westsphere's subsidiary Vencash experiencing a steady decrease in the residual and interchange income over the past two year. As of December 31, 2008, Westsphere has raised total \$369,129 (\$451,653 CDN) for the switch development project. The funds are advanced by Westsphere's President of \$208,348 (\$254,757 CDN), Westsphere's Vice President of \$81,300 (\$99,410 CDN), and Westsphere's arms-length directors of \$79,481 (\$97,486 CDN). These advances are not a demand loan. Westsphere will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds to fund the switch development project.

Edgar Filing: WESTSPHERE ASSET CORPORATION, INC - Form 10-K

The switch development project is in the final phase where the testing of the systems has been completed at the end of December 2008. As of March 2009, 146 ATM s were under Westsphere Systems processing.

In order to grow Westsphere s businesses in ATM machines and in POS machines, Westsphere is dependent upon private placements, loans and/or joint venture arrangements. The profits are expected to be generated by the interchange and surcharges collected from ATM and POS machines and the sale of ATM and POS machines.

In January 2009, the board after reviewing the business operations of its wholly owned subsidiary E-Debit International Inc. have determined that it is in the best financial interests of the Corporation to sell all of the issued and outstanding shares of E-Debit International Inc. to the Corporation s wholly owned subsidiary Westsphere Systems Inc. for the total cash purchase price of one hundred (\$100) dollars in Canadian funds. The completion of the transaction is expecting to be completed by the second quarter of year 2009.

In January 2009, the board after reviewing the business operations of its wholly owned subsidiary Vencash Capital Corporation and Westsphere Systems Inc. have determined that it is in the best financial interests of the Corporation to consolidate the ATM processing and business operations with the assignment of ATM related processing agreements from Vencash Capital Corporation to Westsphere Systems Inc. and a net book value consolidation and transfer of the ATM related capital assets of Vencash Capital Corporation to Westsphere Systems Inc. under a purchase and sale agreement to be offset against receivable and payables due to Westsphere Systems Inc. The completion of the transition is expecting to be completed by the second quarter of the year 2009.

In January 2009, the boards have resolved to dissolve its wholly owned subsidiary Kan-Can Resorts Ltd. as there is no a further business operation or remaining value. The purpose of the dissolution is to reduce the audit and legal costs.

Changes in Financial Position

During fiscal year 2007, total assets increased to \$1,546,748 primarily due to an increase in accounts receivable of \$190,120, an increase in accounts receivable related parties of \$28,093, an increase in inventory of \$45,593, an increase in prepaid expense and deposit of \$45,737, an increase in property and equipment, net of depreciation of \$100,533, and an increase in intellectual property of \$36,939. The increased is partially offset against a decrease in mortgage receivable of \$61,291 and a decrease in cash of \$201,688.

The increase in accounts receivable of \$190,120 is primarily consist of \$239,308 (\$235,000 CDN) notes receivable bearing interest at 0% per annum, requiring no monthly payments. The Company can demand funds be returned at anytime. The purpose of these notes receivable are to supply vault cash to Westsphere s wholly owned subsidiary Vencash s customers ATM equipments and site locations. Revenue from these notes is generated from surcharge transactions. The increase in notes receivable is partially offset against a decreased in operating receivable of \$49,188.

The increase in accounts receivable related parties was caused by the sale of ATM and ATM parts to an officer 100% owned company. These transactions are in the normal course of operations and on terms and conditions that are similar to those of transactions with unrelated parties.

The increase in inventory is caused by the purchase of inventory for resale/lease and upgrade kits for ATMs to maintain adequate levels of inventory on hand at year end.

The increase in prepaid expense and deposit was primarily caused by a prepayment to ACI Worldwide Inc. of \$45,000 (\$41,085 CDN). In October 2007, Westsphere Asset Corporation, Inc. through its subsidiary companies Vencash Capital Corporation and Westsphere Systems Inc. have commenced an agreement with ACI Worldwide Inc. for the enablement of Westsphere Systems Inc to become a new ATM/POS acquirer (Switch) in the Canadian marketplace and in association with Canadian electronic payment network, Interac which Westsphere Systems Inc. is an indirect connect member.

The increase in property and equipment, net of depreciation, was caused by the purchase of used ATMs from investors at below market costs and an exercised early buyout on the leased ATMs.

The increase in intellectual property was caused by the switch development project with ACI Worldwide Inc. The project is expecting to complete by May 2008.

Edgar Filing: WESTSPHERE ASSET CORPORATION, INC - Form 10-K

The increase is partially offset against a decrease in cash of \$201,688; a decrease in current portion of mortgage receivable of \$48,361; and a decrease in mortgage receivable of \$12,930. Banff Gate Mountain Resort Ltd., the mortgagee, has exercised their option to pay the mortgage in full on April 1, 2007.

As of December 31, 2007, Westsphere's current liabilities consisted of accounts payable of \$504,886, current portion of loans of \$113,034, and accounts payable to related parties of \$178,350. Accounts payable includes a payable of \$26,076 to suppliers for the purchase of ATM machines and POS machines; \$179,423 is payable for the return of surcharge and interchange; legal and accounting fees of \$119,079; accrued vacation payable of \$44,066, and \$136,242 due for consulting services, office expenses and various other general fees and charges.

Long term liabilities as at December 31, 2007 consisted of a shareholder loans totaling \$264,310, and loans payable, less current portion of \$324,633. Westsphere's shareholder loans related to TRAC of \$213,393 has an interest rate of 18% per annum. This is a demand loan. The remaining balance of shareholder loans total \$50,917 with no specific terms of repayment.

Westsphere's subsidiary Vencash entered into two loan agreements with its major ATM supplier in July of 2006. The first loan agreement of \$161,249 (\$188,080 CDN) bearing interest at 6% per annum requires blended monthly payments of principal and interest of \$4,452 to March 2009. As of December 31, 2007, the balance is \$100,446 (\$98,638 CDN). The second loan agreement of \$36,226 (42,254 CDN), bearing interest at 18% per annum, requires blended monthly payments of principal and interest of \$1,041 to July 2011; with a final payment of \$90 in August 2011. These two loan payables are classified under current liabilities as an operating payable at the time of filing the 10KSB 2006. These two loans were converted into a formal loan payable during the first quarter of 2007. As of December 31, 2007, the balance is \$37,997 (\$37,313 CDN). In September 2007, Westsphere's subsidiary Vencash entered into a loan agreement totaling \$100,715 (\$100,000 CDN) with an external arms-length investor, bearing interest at 12% per annum, blended monthly payments of interest only of \$1,007 (\$1,000 CDN) to September 2008 with an automatic extension for a further 6 month term. The principle is to be repaid in a maximum of 18 months. The purpose of the loan is to supply vault cash to Westsphere's wholly owned subsidiary Vencash's customers' ATM equipment and site locations. As of December 31, 2007, the balance is \$101,833 (\$100,000 CDN). This loan is reflected in the accompanying consolidated balance sheet as loans payable, less current portion.

The decrease is partially offset against an increase in intellectual property of \$107,541.

The decrease in accounts receivable of \$235,041 is primarily consist of a collection of accounts receivable of \$77,401 and \$157,640 as allowance for doubtful account.

The increase in intellectual property of \$107,541 was caused by the switch development project with ACI Worldwide Inc. Liquidity

Westsphere was able to raise \$188,918 (\$231,000 CDN) from the collection of loans payable in the latter part of year 2007. The cash is used for circulation in Vencash's owned ATMs of \$81,782 (\$100,000 CDN) and \$107,136 (\$131,000 CDN) is used for the switch development.

Westsphere was able to raise \$430,877 (\$526,855 CDN) from directors and officers in year 2008: A loan advanced from Westsphere's President in the amount of \$270,096 (\$330,259 CDN), a loan advanced from Westsphere's Vice President in the amount of \$81,300 (\$99,410 CDN), and a loan advance from Westsphere's arms-length directors in the amount of \$79,481 (\$97,186 CDN). The cash is used to support the switch development project.

Westsphere did not raise funds last year to facilitate Vencash Capital growth opportunities due to the condition of Corporations' financial market.

Westsphere expects that its need for liquidity will increase in 2009 in anticipation of expending funds to develop its growth and upgrade plan. The need is due to the finance/lease requirements to replace an aged estate of ATM equipment which is under VenCash management and/or ownership. Due to changes within the organization of a major Vencash ATM supplier, equipment and supply agreements along with related transaction processing agreements signed in the latter part of year 2006 are presently in dispute. This has resulted in a requirement to find additional financial recourses related to growth in its ATM business and to determine whether or not Vencash's current ATM equipment supplier can meet the upgrade requirements as set forth in regards to meet ongoing regulatory compliance.

Short Term

On a short term basis, Westsphere and its subsidiaries are currently on the border of generating sufficient revenues to meet overhead needs. This is due to Westsphere's subsidiary Vencash experiencing a steady decrease in gross profit; specifically in the residual and interchange income over the past two years. The Company has incurred net losses for the years ended December 31, 2008 and 2007, and as of December 31, 2008, had a working capital deficit of \$445,656 and an accumulated deficit of \$459,859. These conditions raise substantial doubt as to the Company's ability to continue as a going concern.

Management recognizes that the Company must generate additional resources to enable it to continue operations. Management intends to raise additional funds through debt financing and equity financing or through other means that it deems necessary, with a view to moving forward and sustaining a prolonged growth in its strategy phases. However, no assurance can be given that the Company will be successful in raising additional capital.

Furthermore, Westsphere's management is in the process of restructuring, reorganization and consolidation of all its operations as a whole in order to save costs. In addition, there is no demand for payment on the accounts payable to related parties of \$485,768 as this liability is owed to internal officers and directors. Westsphere believes that the Corporations' subsidiaries upon restructuring, reorganization and consolidation combined with continued investment from related parties and outside investors will continue to produce sufficient ongoing funding to meet its current and future financial requirements.

Edgar Filing: WESTSPHERE ASSET CORPORATION, INC - Form 10-K

In order to meet its growth plan, Westsphere will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds. Westsphere believes that it will continue as a going concern with the present revenues from its subsidiary Vencash Capital Corporation, but it would be unable to meet its market growth projections without further funding outside of the ongoing revenue from operations of Vencash.

Westsphere's current assets of \$591,558 are lower than its current liabilities of \$1,037,214 as at the year ending December 31, 2008. The current liabilities include the accounts payable to related parties of \$485,768 which consist of Officers' and Directors' bonuses payable carried forward from year 2002 in the amount of \$54,891 (\$67,118 CDN), a loan advanced from Westsphere's President in the amount of \$270,096 (\$330,259 CDN), a loan advanced from Westsphere's Vice President in the amount of \$81,300 (\$99,410 CDN), and a loan advance from Westsphere's arms-length directors in the amount of \$79,481 (\$97,186 CDN).

Long Term

Westsphere, through its subsidiary Westsphere Systems Inc. has successfully gained membership into the Canadian Interac Association as an Acquirer. This will enable the direct processing of ATM, POS and other transactions for its other subsidiaries, Vencash and Trac POS. Westsphere has sourced out an industry leader, ACI Worldwide, and invested in the development and ongoing support required to facilitate the processing of transactions. Westsphere Systems Inc. will process all transactions through its association with ACI thereby eliminating the costs, restrictions, and potential risks of relying on third party processors. Most importantly, the investment in the processor, or switch, will also enable Westsphere's direct entry into new and emerging markets such as card management and processing. To fund the switch development project, Westsphere will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds.

As mentioned above, Westsphere believes that the Corporation's subsidiaries upon consolidation combined with continued investment from related parties and outside investors will continue to produce sufficient ongoing funding to meet its current and future financial requirements. The Corporation also will continue its plan to sell some of its business operations to its current distribution network participants and/or non-related parties in order to maximize the financial potential of those assets.

Capital Resources

The primary capital resources of Westsphere are its consolidated business operations as well as equity funds raised, joint venture arrangements and/or loan proceeds.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders:
Westsphere Asset Corporation, Inc.

We have audited the accompanying consolidated balance sheets of Westsphere Asset Corporation, Inc. as of December 31, 2008 and 2007, and the related consolidated statements of operations, changes in shareholders' equity (deficit), and cash flows for the years ended December 31, 2008 and 2007. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Westsphere Asset Corporation, Inc. as of December 31, 2008 and 2007, and the results of their operations and cash flows for the years ended December 31, 2008 and 2007, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As shown in the financial statements, the Company has suffered recurring losses, has a working capital deficit at December 31, 2008, and has an accumulated deficit of \$459,859 as of December 31, 2008. These factors and others discussed in Note 13 raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue in existence.

Notes to the Consolidated Financial Statements
For the Years Ended December 31, 2008 and 2007

Note 1 Organization and Principles of Consolidation

Westsphere Asset Corporation, Inc. (Company) was incorporated in Colorado on July 21, 1998 as Newslink Networks TDS, Inc. and changed its name to Westsphere Asset Corporation Inc. on April 29, 1999.

The Company's primary business is the sale and operation of cash vending (ATM) and point of sale (POS) machines in Canada.

On December 12, 1998, the Company acquired 41% of Vencash Capital Corporation (Vencash), a Canadian Corporation, and then on December 17, 1999 acquired the remaining 59% of the outstanding stock of Vencash. The Vencash stock was acquired by exchanging the Company's common stock with shareholders of Vencash. Vencash is in the business of selling and installing cash vending machines (ATM machines) throughout Canada. Because certain shareholders were shareholders of both corporations, the Company accounted for its acquisition of Vencash as a reverse acquisition, which are a capital transaction and not a business combination.

On September 23, 1998, Vencash Capital Corporation incorporated Vencash Financial Corporation (Financial) in Alberta. Vencash Financial has had no business activity.

During the period from June 1999 through October 2001 the Company acquired 99% of Kan-Can Resorts Ltd. (Kan-Can), an Alberta company, by exchanging stock.

On May 16, 2000, Vencash ATM/POS Services Inc. (formerly VC/POS/ATM Services Inc.) and Westsphere Systems Inc. (formerly 880487 Alberta Ltd.) were incorporated as wholly owned Alberta subsidiaries of the Company.

During 2000 and 2001, the Company acquired a 90% interest in E-Debit International Inc. (E-Debit), a company engaged in the development of online payment systems, and which has no other operations. On June 1, 2004, the Company acquired the remaining 10% interest in E-Debit International Inc., which increased the ownership to 100%.

During the period from May 2000 to July 2004, the Company acquired a 56% interest in Trac Pos Processing Inc. (Trac); Trac is a distributor and financial processor of point-of-sale (POS) terminals. On January 26, 2007, the Company acquired an additional 26% interest in Trac Pos Processing Inc., which increased the ownership to 82%.

On January 4, 2005, the Company incorporated a wholly owned Alberta subsidiary, Westsphere Capital Group Ltd. to supply operational, financial, and administrative support to the Westsphere Group of companies.

During 2005, the Company formed a wholly owned Alberta subsidiary, Cash Direct Financial Services Ltd (Cash Direct), as a holding company for a 51% interest in 1105725 Alberta Ltd DBA Personal Financial Solutions, an Alberta Corporation, to pursue opportunities in check cashing, payday loans, and similar businesses.

Note 2 Summary of Significant Accounting Policies

These financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and are stated in United States dollars.

Use of Estimates in the Preparation of Financial Statements

The preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and to report amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments with an original maturity of three months or less to be cash equivalents.

Estimated Fair Value of Financial Instruments

The carrying value of accounts receivable, accounts payable and accrued expenses, and loans payable to related parties reflected in the financial statement approximate fair value due to the short-term maturity of the instruments.

Accounts Receivable

Accounts receivable consist of amounts due from customers. The Company considers accounts more than 180 days old to be past due. The Company uses the allowance method for recognizing bad debts. When an account is deemed uncollectible, it is written off against the allowance.

Inventory

Inventory consists primarily of cash vending and POS machines, which are valued at the lesser of cost (on a first-in, first-out method) or net realizable value.

Property, Equipment and Depreciation

Property and equipment are stated at cost less accumulated depreciation. Depreciation is calculated using a declining balance method over the estimated useful lives of the property and equipment.

Earnings (Loss) per Share

Basic earnings (loss) per share are computed by dividing the net (loss) by the weighted average number of shares outstanding during the years ended December 31, 2008 and 2007. Diluted earnings (loss) per common share is calculated by dividing the applicable net earnings (loss) by the sum of the weighted-average number of common shares outstanding and all additional common shares that would have been outstanding if potentially dilutive Westphere Asset Corporation, Inc. common shares had been issued during the years ended December 31, 2008 and 2007.

The weighted-average number of shares computation for diluted earnings (loss) per common share does not include the 214,583 options to purchase common shares because the potential common shares are anti-dilutive. The options' exercise price was greater than the average market price of the common shares at the end of year 2008.

Valuation of Long-Lived Assets

The Company periodically analyzes its long-lived assets for potential impairment, assessing the appropriateness of lives and recoverability of unamortized balances through measurement of undiscounted operation cash flows on a basis consistent with accounting principles generally accepted in the United States of America.

Revenue Recognition

Revenues are recognized in accordance with SEC Staff Accounting Bulletin (SAB) No. 101, Revenue Recognition in Financial Statements. Under SAB 101, product revenues (or service revenues) are recognized when persuasive evidence of an arrangement exists, delivery has occurred (or service has been performed), the sales price is fixed and determinable and collection is reasonably assured.

Revenues from sales, leasing and servicing of individual cash vending machines are recognized when substantially all significant events to be provided by the Company have been performed. Interchange and residual revenues from the operation of vending and point-of-sale machines are recognized when the transaction is processed and due to the company.

The Company rents ATM machines to customers on a month-to-month basis. The carrying value of property rented to customers as of December 31, 2008 is \$28,621. Because all rental agreements are on a month-to-month basis, there are no minimum future rentals.

The Company offers no warranties or right of return beyond manufacturers' warranties.

Edgar Filing: WESTSPHERE ASSET CORPORATION, INC - Form 10-K

Foreign Currency

The functional currency of the Company and its subsidiaries is the Canadian dollar. The Company translates amounts into United States dollars using the current rate method. Under this method, assets and liabilities are translated to United States dollars at current exchange rates; revenues and expenses are translated at the average exchange rate during the period, and equity account are translated at the historical rate. Related translation adjustments are reported as other comprehensive income, a component of stockholders' equity.

Income Taxes

The Company records deferred taxes in accordance with Statement of Financial Accounting Standards (SFAS) No. 109, Accounting for Income Taxes. The statement requires recognition of deferred tax assets and liabilities for temporary differences between the tax bases of assets and liabilities and the amounts at which they are carried in the financial statements, based upon the enacted tax rates in effect for the year in which the differences are expected to reverse. A valuation allowance is established when necessary to reduce deferred tax assets to the amount expected to be realized.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and all of its wholly-owned and majority-owned subsidiaries. All inter-company accounts have been eliminated in the consolidation.

Minority interests in the income and equity of consolidated subsidiaries that are less than wholly-owned are recorded except when the subsidiary has a deficit and there are no agreements for the minority shareholders to contribute additional capital. As of December 31, 2007 all minority-owned subsidiaries had deficits and therefore no minority interest is recorded.

Advertising expenses

The Company expenses advertising costs as incurred and the total amounts for 2008 and 2007 were nominal.

Reclassifications

Certain comparative figures for the prior period have been reclassified to conform to the current year presentation.

Dividends

The Company paid no dividends during the years presented.

Note 4 Deferred Costs

In order for Westsphere's subsidiaries to remain competitive in the marketplace, Westsphere, through its subsidiary Westsphere Systems Inc. has successfully gained membership into the Canadian Interac Association as an Acquirer. This will enable the direct processing of ATM, POS and other transactions for its other subsidiaries, Vencash and Trac POS. Westsphere has sourced out an industry leader, ACI Worldwide, and invested in the development and ongoing support required to facilitate the processing of transactions. Westsphere Systems Inc. will process all transactions through its association with ACI thereby eliminating the costs, restrictions, and potential risks of relying on third party processors. Most importantly, the investment in the processor, or switch, will also enable Westsphere's direct entry into new and emerging markets such as card management and processing.

Note 13 Going Concern

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. The Company has incurred net losses for the years ended December 31, 2008 and 2007, and as of December 31, 2008, had a working capital deficit of \$445,656 and an accumulated deficit of \$459,859. These conditions raise substantial doubt as to the Company's ability to continue as a going concern. These financial statements do not include any adjustments that might result from the outcome of this uncertainty. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Management recognizes that the Company must generate additional resources to enable it to continue operations. Management intends to raise additional funds through debt financing and equity financing or through other means that it deems necessary, with a view to moving forward and sustaining a prolonged growth in its strategy phases. However, no assurance can be given that the Company will be successful in raising additional capital. Furthermore, the management is in the process of restructuring, reorganization and consolidation of all its operations as a whole in order to save costs. In addition, there is no demand for payment on the accounts payable to related parties of \$485,768 as this liability is owed to internal officers and directors. Further, even if the Company raises additional capital, there can be no assurance that the Company will achieve profitability or positive cash flow. If management is unable to raise additional capital and expected significant revenues do not result in positive cash flow, the Company will not be able to meet its obligations and may have to cease operations.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's (SEC) rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Internal controls are procedures that are designed with the objective of providing reasonable assurance that (1) our transactions are properly authorized, recorded and reported; and (2) our assets are safeguarded against unauthorized or improper use, to permit the preparation of our consolidated financial statements in conformity with United States generally accepted accounting principles.

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(e) and 15d-15(e). Based upon the foregoing, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that the information required to be disclosed by us in this Report was (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and instructions for Form 10-KSB.

Changes in Internal Controls over Financial Reporting

There have been no changes in our internal controls over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect our internal controls over financial reporting.

Inherent Limitations on Effectiveness of Controls

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all errors and all fraud. This is because a control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. In addition, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) under the Exchange Act. Internal control over financial reporting refers to a process designed by, or under the supervision of, our Chief Executive Officer and Chief Financial Officer and effected by our Board, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in connection with generally accepted accounting principles, including those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting cannot provide absolute assurance of the prevention or detection of misstatements. In addition, projections of any evaluation of effectiveness to future periods are subject to risk that controls may become

inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Edgar Filing: WESTSPHERE ASSET CORPORATION, INC - Form 10-K

In connection with the preparation of this Annual Report on Form 10-KSB for the year ended December 31, 2008, management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our internal controls over financial reporting, pursuant to Rule 13a-15 under the Exchange Act. Our Chief Executive Officer and Chief Financial Officer have concluded that the design and operation of our internal controls and procedures are effective as of December 31, 2008. There were no significant changes in our internal controls over financial reporting that occurred during the fourth fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Item 9A(T). Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, with the participation of our chief executive and chief financial officer, of the effectiveness, as of December 31, 2008, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934). Due to the fact that we have a limited number of employees and are not able to have proper segregation of duties based on the cost/benefit of hiring additional employees solely to address the segregation of duties issue, we have concluded that our disclosure controls and procedures are not effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms. However, we have determined that the risks associated with the lack of segregation of duties are partially mitigated based on the close involvement of management in day-to-day operations. We have limited resources available. As we obtain additional funding and employ additional personnel, we will implement programs to ensure the proper segregation of duties and reporting channels.

Further, our management with the participation of our principal executive officer and principal financial officer or persons performing similar functions has determined that no change in our internal control over financial reporting occurred during the fourth quarter of our fiscal year ended December 31, 2008 that has materially affected, or is (as that term is defined in Rules 13(a)-15(f) and 15(d)-15(f) of the Securities Exchange Act of 1934) reasonably likely to materially affect, our internal control over financial reporting.

Changes in Internal Controls over Financial Reporting

There are been no changes in the Company's internal control over financial reporting during the last quarterly period covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

REPORT OF MANAGEMENT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting for the company. Internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of our financial reporting for external purposes in accordance with accounting principles generally accepted in the United States of America. Internal control over financial reporting includes maintaining records that in reasonable detail accurately and fairly reflect our transactions; providing reasonable assurance that transactions are recorded as necessary for preparation of our financial statements; providing reasonable assurance that receipts and expenditures of company assets are made in accordance with management authorization; and providing reasonable assurance that unauthorized acquisition, use or disposition of company assets that could have a material effect on our financial statements would be prevented or detected on a timely basis. Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that a misstatement of our financial statements would be prevented or detected.

Although management did not conduct an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission, it has concluded that notwithstanding the foregoing, the Company's internal controls over financial reporting are not effective. This is based on the fact that we have only 15 employees. As noted in this Annual Report, we have limited resources available. As we obtain additional funding and employ additional personnel, we will implement programs to ensure the proper segregation of duties and reporting channels.

Our independent public accountant has not conducted an audit of our controls and procedures regarding internal control over financial reporting and expresses no opinion with regards to the effectiveness or implementation of our controls and procedures with regards to internal control over financial reporting.

ITEM 9A(T). Controls and Procedures.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the company to provide only management's report in this annual report.

Compensation Discussion and Analysis

The following Compensation Discussion and Analysis (CD&A) provides information on the compensation programs established for our Named Executive Officers during our fiscal year ended December 31, 2008. All information provided herein should be read in conjunction with the tables provided below.

Edgar Filing: WESTSPHERE ASSET CORPORATION, INC - Form 10-K

Our Board of Directors is responsible for establishing, implementing and monitoring the policies governing compensation for our executives. Currently our Board does not have a compensation committee. Our officers are members of our Board of Directors and are able to vote on matters of compensation. We are not currently under any legal obligation to establish a compensation committee and have elected not to do so at this time. In the future, we may establish a compensation committee if the Board determines it to be advisable or we are otherwise required to do so by applicable law, rule or regulation. During the year ended December 31, 2008 our Board did not employ any outside consultants to assist in carrying out its responsibilities with respect to executive compensation, although we have access to general executive compensation information regarding both local and national industry compensation practices. In future periods we may participate in regional and national surveys that benchmark executive compensation by peer group factors such as company size, annual revenues, market capitalization and geographical location.

The executive employment market in general is very competitive due to the number of companies with whom we compete to attract and retain executive and other staff with the requisite skills and experience to carry out our strategy and to maintain compliance with multiple Federal and State regulatory agencies. Many of these companies have significantly greater economic resources than our own. Our Board has recognized that our compensation packages must be able to attract and retain highly talented individuals that are committed to our goals and objectives, without at this time paying cash salaries that are competitive with some of our peers with greater economic resources. Our compensation structure is weighted towards equity compensation in the form of options to acquire common stock, which the Board believes motivates and encourages executives to pursue strategic opportunities while managing the risks involved in our current business stage, and aligns compensation incentives with value creation for our shareholders.

Components of Our Executive Compensation Program

Our current executive compensation program is entirely salary based. In the future we intend to incorporate additional components we believe are necessary in order for the Company to provide a competitive compensation package relative to our peers and to provide an appropriate mix between short-term and long-term cash and non-cash compensation. Elements of our future executive compensation are likely to include:

Base Salary

Stock Awards

Other benefits available to all employees

Items specific to our President and Chief Executive Officer per an employment agreement

Base Salary: At present we do not have a salary structure for employees and Executives, and amounts are based on skill set, knowledge and responsibilities. Base salaries may be established as necessary. During the year ended December 31, 2008 none of our Named Executive Officers received a salary increase.

Stock Awards: A portion of compensation paid to our executives will be equity based. We believe equity compensation helps align the interests of our executives with the interests of our shareholders. In that regard, our executives' compensation is subject to downside risk in the event that our common stock price decreases. In addition, we believe stock awards provide incentives to aid in the retention of key executives. No stock compensation awards were granted during the year ending December 31, 2008.

Other Benefits: Our Executive Officers and employees receive group benefits plan.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth information concerning the beneficial ownership of our outstanding common and preferred stock as of May 15, 2009 for: each of our directors and executive officers individually; each person or group that we know owns beneficially more than five percent (5%) of our common stock; and all directors and executive officers as a group.

Rule 13d-3 under the Securities Exchange Act defines the term, "beneficial ownership". Under this rule, the term includes shares over which the indicated beneficial owner exercises voting and/or investment power. The rules also deem common stock subject to options currently exercisable or exercisable within sixty (60) days, to be outstanding for purposes of computing the percentage ownership of the person holding the options, but do not deem such stock to be outstanding for purposes of computing the percentage ownership of any other person. The applicable percentage of ownership for each shareholder is based on 592,785 shares of common stock and 1,416,143 shares of preferred stock outstanding as of May 15, 2009 together with applicable options for that shareholder.
