NOTE 1 - SUMMARY OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

(a) SUMMARY OF BUSINESS

The Company was incorporated under the laws of the State of Nevada on April 23, 2002. The Company is creating a business as a retailer of specialty personal care products. The Company has not commenced principal operations and is considered a "Development Stage Company" as defined by the Financial Accounting Standards Board Statement No. 7.

(b) CASH FLOWS

For purposes of the statement of cash flows, the Company considers all highly liquid investments purchased with a maturity of three months or less to be cash or cash equivalents.

(c) NET LOSS PER SHARE

The net loss per share calculation is based on the weighted average number of shares outstanding during the period. Fully diluted earnings per share have not been disclosed, as it is anti-dilutive.

(d) USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amount reported in the consolidated financial statements and accompanying notes. These estimates are based on management's best knowledge of current events and actions that the company may undertake in the future. Accordingly, actual results could differ from those estimates.

(e) REVENUE RECOGNITION

All revenue is recorded and related cost transferred to cost of sales at the time the product is shipped or the service is provided.

ITEM 2. PLAN OF OPERATIONS.

Old Goat is a development stage company with no operations, no revenue, no financial backing and few assets. Our plan of operations is to build a retail business selling specialty personal care products.

We currently do not have the \$75,000 needed to develop our web site, acquire a retail facility, purchase inventory and market our products, nor do we have a source to supply the necessary funding if we are unsuccessful in raising the capital through our prospectus offering. Old Goat believes it will take from two (2) to three (3) months to raise capital for completion of the development of the business after its effective registration date of December 24, 2002.

We have begun to develop a Corporate Identity Package, which consists of a unique and distinctive identifying mark, or logo, and a background and typeface color scheme for use in both printed material such as stationery, business cards and sales material, as well as for use on Old Goat's website. Through the use of this package Old Goat hopes to develop a unique marketing identity which will make Old Goat easily recognizable in its target marketplace.

We have also begun to design and build our website. Our domain name www.oldgoatinc.com has been registered and we have made an information page available on the internet. Building of the complete website will start after the completion of the financing.

The Old Goat website will also display all of the products our company has available for sale. Those items will include a variety of personal care products produced by various manufacturers. There will be full product descriptions, along with pictures and technical specifications for each individual item offered for sale.

Edgar Filing: OLD GOAT ENTERPRISES INC - Form 10QSB

In addition to the website, we are planning to open a retail facility in a mall in New Westminster, British Columbia. If inadequate funds are available for the development of our retail store, we will be located in a kiosk type structure situated in the main traffic area of the mall. In discussions with administrative officials, we have been advised that pre-existing kiosk facilities are available for rent on a daily, weekly, and monthly basis. The structures require only minor modifications to suit our needs. The cost of those minor modifications would be our responsibility.

Unlike nearly every other company that markets personal care products, we plan to market only those types of products suitable for people who are unable to use regular personal care products. We believe that personal care products are important enough and the decision making process is complex enough to warrant the establishment of a specialty retail outlet. The Company's limited internal market research has also provided evidence that most retailers that sell these products do not provide any meaningful amount of product information or customer education. Our sales clerks will be provided with a substantial basis of product information and consumer education knowledge and materials.

8

While the Company has not yet secured product suppliers, there has been a significant amount of research into the availability and suitability of products. We intend to continue to identify specific products and determine reliable manufacturers and wholesale suppliers now that our registration has become effective. We will order inventory as soon as the manufacturers and/or suppliers are selected and the funds are available. Old Goat has confirmed through telephonic and other electronic contact such as e-mail, a number of potentially acceptable manufacturers and suppliers and foresees no problem in being able to meet our target objectives based on the information received from said manufacturers and suppliers.

During the first stages of the Company's growth the Officers and Directors will provide all the labor required to operate the website as well as the retail store at no charge. Since we intend to operate with very limited administrative support, the Officers and Directors will continue to be responsible for these duties for at least the first year of operations.

How long Old Goat will be able to satisfy its cash requirements, and whether we will require additional outside funding in the next twelve months depends on how quickly our company can generate sales revenue and how much revenue can be generated. At the present time we only have funds available to complete the expenses our prospectus offering and our corporate identity package. . However, should we raise the entire \$75,000 we are seeking from our offering, management is of the opinion that no further funds need be required for the operation of the Company's business for the twelve month period following the completion of its offering.

If we are unable to raise additional funding through our offering or from other sources, we will not be able to survive more than several months. In that event, it will be critical that we begin to realize sales revenues as quickly as possible. We will require additional funding from either outside sources or from sales revenues to survive past our first year of operation.

During the first year of operations, we will concentrate our efforts exclusively on building our Internet business and one retail store location in New Westminster, British Columbia. As we gain experience, and develops sufficient revenues from sales, we may consider expanding our business within the region and possibly to other locations within Canada. At this time, we have no plans to

Edgar Filing: OLD GOAT ENTERPRISES INC - Form 10QSB

expand outside Canada.

LIQUIDITY AND CAPITAL RESOURCES

The Company will need additional working capital to finance its planned activity.

RESULTS OF OPERATIONS

The Company has had no operations during this reporting period.
