## Item 2.02. Results of Operations and Financial Condition

On November 23, 2004, Mothers Work, Inc. ( Mothers Work or the Company ) issued a press release and held a broadly accessible conference call to discuss its financial results for its fourth quarter and full fiscal year ended September 30, 2004. A copy of the press release is attached hereto as Exhibit 99.1 and is incorporated herein by reference. Exhibit 99.2 attached hereto and incorporated by this reference sets forth the transcript of the prepared remarks made by representatives of Mothers Work during the conference call.

The press release and the comments by Mothers Work representatives during the conference call contained non-GAAP financial measures within the meaning of the Securities and Exchange Commission's Regulation G (the term GAAP refers to generally accepted accounting principles in the United States of America). Mothers Work believes that the non-GAAP financial measure EBITDA (earnings before interest, taxes, depreciation and amortization) and the measure selling, general and administrative (SG&A) expenses excluding depreciation and amortization, together with the percentage of net sales represented by these measures, provide useful information about the Company's results of operations to both investors and management because they constitute informative gauges of operating profitability. These measures provide information that the Company believes investors and securities research analysts in retailing and other businesses view as important and commonly use to evaluate the Company's financial performance and prospects for the future, and to make investment decisions. These measures are also significant to institutional lenders, and they are considered important internal benchmarks of performance by the Company. These measures should be considered in addition to, and not as a substitute for, or superior to, GAAP measures.

With respect to each non-GAAP financial measure discussed in the press release, Mothers Work has provided, as an attachment to such press release, a reconciliation of each non-GAAP financial measure to the most directly comparable GAAP financial measure.

The disclosure in this Current Report, including in the Exhibits attached hereto, of any financial information shall not constitute an admission that such information is material.
