CHIEF FINANCIAL OFFICER

---

llment purchase that is issued by a state or local government to acquire equipment and facilities. Income from such obligations generally is exempt from state and local taxes in the state of issuance. Leases and installment purchase or conditional sale contracts (which normally provide for title to the leased asset to pass eventually to the governmental issuer) have evolved as a means for governmental issuers to acquire property and equipment without meeting the constitutional and statutory

requirements for the issuance of debt. The debt issuance limitations are deemed to be inapplicable because of the inclusion in many leases or contracts of non-appropriation clauses that relieve the governmental issuer of any obligation to make future payments under the lease or contract unless money is appropriated for such purpose by the appropriate legislative body on a yearly or other periodic basis. In addition, such leases or contracts may be subject to the temporary abatement of payments in the event the issuer is prevented from maintaining occupancy of the leased premises or utilizing the leased equipment or facilities. Although the obligations may be secured by the leased equipment or facilities, the disposition of the property in the event of non-appropriation or foreclosure might prove difficult, time consuming and costly, and result in a delay in recovering, or the failure to recover fully, the Fund's original investment. To the extent that the Fund invests in unrated municipal leases or participates in such leases, the credit quality rating and risk of cancellation of such unrated leases will be monitored on an ongoing basis. In order to reduce this risk, the Fund will only purchase municipal securities representing lease obligations where NAM believes the issuer has a strong incentive to continue making appropriations until maturity.

A certificate of participation represents an undivided interest in an unmanaged pool of municipal leases, an installment purchase agreement or other instruments. The certificates are typically issued by a municipal agency, a trust or other entity that has received an assignment of the payments to be made by the state or political subdivision under such leases or installment purchase agreements. Such certificates provide the Fund with the right to a pro rata undivided interest in the underlying municipal securities. In addition, such participations generally provide the Fund with the right to demand payment, on not more than seven days' notice, of all or any part of the Fund's participation interest in the underlying municipal securities, plus accrued interest.

*Municipal Notes.* Municipal securities in the form of notes generally are used to provide for short-term capital needs, in anticipation of an issuer's receipt of other revenues or financing, and typically have maturities of up to three years. Such instruments may include tax anticipation notes, revenue anticipation notes, bond anticipation notes, tax and revenue anticipation notes and construction loan notes. Tax anticipation notes are issued to finance the working capital needs of governments. Generally, they are issued in anticipation of various tax revenues, such as income, sales, property, use and business taxes, and are payable from these specific future taxes. Revenue anticipation notes are issued in expectation of receipt of other kinds of revenue, such as federal revenues available under federal revenue sharing programs. Bond anticipation notes are issued to provide interim financing until long-term bond financing can be arranged. In most cases, the long-term bonds then provide the funds needed for repayment of the bond anticipation notes. Tax and revenue anticipation notes combine the funding sources of both tax anticipation notes and revenue anticipation notes. Construction loan notes are sold to provide construction financing. Mortgage notes insured by the Federal Housing Authority secure these notes; however, the proceeds from the insurance may be less than the economic equivalent of the payment of principal and interest on the mortgage note if there has been a default. The anticipated revenues from taxes, grants or bond financing generally secure the obligations of an issuer of municipal notes. An investment in such instruments, however, presents a risk that the anticipated revenues will not be received or that such revenues will be insufficient to satisfy the issuer's payment obligations under the notes or that refinancing will be otherwise unavailable.

*Pre-Refunded Municipal Securities.* The principal of, and interest on, pre-refunded municipal securities are no longer paid from the original revenue source for the securities. Instead, the source of such payments is typically an escrow fund consisting of U.S. Government securities. The assets in the escrow fund are derived from the proceeds of refunding bonds issued by the same issuer as the pre-refunded municipal securities. Issuers of municipal securities use this advance refunding technique to obtain more favorable terms with respect to securities that are not yet subject to call or redemption by the issuer. For example, advance refunding enables an issuer to refinance debt at lower market interest rates, restructure debt to improve cash flow or eliminate restrictive covenants in the indenture or other governing instrument for the pre-refunded municipal securities. However, except for a change in the revenue source from which principal and interest payments are made, the pre-refunded municipal securities remain outstanding on their original terms until they mature or are redeemed by the issuer.

*Private Activity Bonds.* Private activity bonds, formerly referred to as industrial development bonds, are issued by or on behalf of public authorities to obtain funds to provide privately operated housing facilities, airport, mass transit or port facilities, sewage disposal, solid waste disposal or hazardous waste treatment or disposal facilities and certain local facilities for water supply, gas or electricity. Other types of private activity bonds, the proceeds of which are used for the construction, equipment, repair or improvement of privately operated industrial or commercial facilities, may constitute municipal securities, although the current federal tax laws place substantial limitations on the size of such issues.

*Inverse Floating Rate Securities.* Inverse floating rate securities (sometimes referred to as inverse floaters) are securities whose interest rates bear an inverse relationship to the interest rate on another security or the value of an index. Generally, inverse floating rate securities represent beneficial interests in a special purpose trust formed by a third party sponsor for the purpose of holding municipal bonds. The special purpose trust typically sells two classes of beneficial interests or securities: floating rate securities (sometimes referred to as short-term floaters or tender option bonds) and inverse floating rate securities (sometimes referred to as inverse floaters or residual interest securities). Both classes of beneficial interests are represented by certificates. The short-term floating rate securities have first priority on the cash flow from the municipal bonds held by the special purpose trust. Typically, a third party, such as a bank, broker-dealer or other financial institution, grants the floating rate security holders the option, at periodic intervals, to tender their securities to the institution and receive the face value thereof. As consideration for providing the option, the financial institution receives periodic fees. The holder of the short-term floater effectively holds a demand obligation that bears interest at the prevailing short-term, tax-exempt rate. However, the institution granting the tender option will not be obligated to accept tendered short-term floaters in the event of certain defaults or a significant downgrade in the credit rating assigned to the bond issuer. For its inverse floating rate investment, the Fund receives the residual cash flow from the special purpose trust. Because the holder of the short-term floater is generally assured liquidity at the face value of the security, the Fund as the holder of the inverse floater assumes the interest rate cash flow risk and the market value risk associated with the municipal bond deposited into the special purpose trust. The volatility of the interest cash flow and the residual market value will vary with the degree to which the trust is leveraged. This is expressed in the ratio of the total face value of the short-term floaters in relation to the value of the inverse floaters that are issued by the special purpose trust. All voting rights and decisions to be made with respect to any other rights relating to the municipal bonds held in the special purpose trust are passed through to the Fund, as the holder of the residual inverse floating rate securities.

Because increases in the interest rate on the short-term floaters reduce the residual interest paid on inverse floaters, and because fluctuations in the value of the municipal bond deposited in the special purpose trust affect the value of the inverse floater only, and not the value of the short-term floater issued by the trust, inverse floaters' value is generally more volatile than that of fixed rate bonds. The market price of inverse floating rate securities is generally more volatile than the underlying bonds due to the leveraging effect of this ownership structure. These securities generally will underperform the market of fixed rate bonds in a rising interest rate environment (*i.e.*, when bond values are falling), but tend to out-perform the market of fixed rate bonds when interest rates decline or remain relatively stable. Although volatile, inverse floaters typically offer the potential for yields available on fixed rate bonds with comparable credit quality, coupon, call provisions and maturity. Inverse floaters have varying degrees of liquidity based upon the liquidity of the underlying bonds deposited in a special purpose trust.

The Fund may invest in inverse floating rate securities issued by special purpose trusts that have recourse to the Fund. In NAM's discretion, the Fund may enter into a separate shortfall and forbearance agreement with the third party sponsor of a special purpose trust. The Fund may enter into such recourse agreements (i) when the liquidity provider to the special purpose trust requires such an agreement because the level of leverage in the trust exceeds the level that the liquidity provider is willing to support absent such an agreement; and/or (ii) to seek to prevent the liquidity provider from collapsing the trust in the event that the municipal obligation held in the trust has declined in value. Such an agreement would require the Fund to reimburse the third party sponsor of such inverse floater, upon termination of the trust issuing the inverse floater, the difference between the liquidation value of the bonds held in the trust and the principal amount due to the holders of floating rate interests. Such

agreements may expose the Fund to a risk of loss that exceeds its investment in the inverse floating rate securities. Absent a shortfall and forbearance agreement, the Fund would not be required to make such a reimbursement. If the Fund chooses not to enter into such an agreement, the special purpose trust could be liquidated and the Fund could incur a loss.

The Fund's investments in inverse floating rate securities issued by special purpose trusts that have recourse to the Fund may be highly leveraged. The structure and degree to which the Fund's inverse floating rate securities are highly leveraged will vary based upon a number of factors, including the size of the trust itself and the terms of the underlying municipal security held in a special purpose trust. An inverse floating rate security generally is considered highly leveraged if the principal amount of the short-term floating rate interests issued by the related special purpose trust is in excess of three times the principal amount of the inverse floating rate securities owned by the trust (the ratio of the principal amount of such short-term floating rate interests to the principal amount of the inverse floating rate securities is referred to as the "gearing"). In the event of a significant decline in the value of an underlying security, the Fund may suffer losses in excess of the amount of its investment (up to an amount equal to the value of the municipal securities underlying the inverse floating rate securities) as a result of liquidating special purpose trusts or other collateral required to maintain the Fund's anticipated effective leverage ratio.

The Fund will segregate or earmark liquid assets with its custodian in accordance with the 1940 Act to cover its obligations with respect to its investments in special purpose trusts. See also "Segregation of Assets" in the Statement of Additional Information.

The Fund invests in both inverse floating rate securities and floating rate securities (as discussed below) issued by the same special purpose trust.

*Floating Rate Securities.* The Fund may also invest in floating rate securities, as described above, issued by special purpose trusts. Floating rate securities may take the form of short-term floating rate securities or the option period may be substantially longer. Generally, the interest rate earned will be based upon the market rates for municipal securities with maturities or remarketing provisions that are comparable in duration to the periodic interval of the tender option, which may vary from weekly, to monthly, to extended periods of one year or multiple years. Since the option feature has a shorter-term than the final maturity or first call date of the underlying bond deposited in the trust, the Fund as the holder of the floating rate securities relies upon the terms of the agreement with the financial institution furnishing the option as well as the credit strength of that institution. As further assurance of liquidity, the terms of the trust provide for a liquidation of the municipal bond deposited in the trust and the application of the proceeds to pay off the floating rate securities. The trusts that are organized to issue both short-term floating rate securities and inverse floaters generally include liquidation triggers to protect the investor in the floating rate securities.

*Special Taxing Districts.* Special taxing districts are organized to plan and finance infrastructure developments to induce residential, commercial and industrial growth and redevelopment. The bond financing methods such as tax increment finance, tax assessment, special services district and Mello-Roos bonds, are generally payable solely from taxes or other revenues attributable to the specific projects financed by the bonds without recourse to the credit or taxing power of related or overlapping municipalities. They often are exposed to real estate development-related risks and can have more taxpayer concentration risk than general tax-supported bonds, such as general obligation bonds.

Further, the fees, special taxes, or tax allocations and other revenues that are established to secure such financings are generally limited as to the rate or amount that may be levied or assessed and are not subject to increase pursuant to rate covenants or municipal or corporate guarantees. The bonds could default if development failed to progress as anticipated or if larger taxpayers failed to pay the assessments, fees and taxes as provided in the financing plans of the districts.

### **Zero Coupon Bonds**

A zero coupon bond is a bond that does not pay interest either for the entire life of the obligation or for an initial period after the issuance of the obligation. When held to its maturity, its return comes from the difference between the purchase price and its maturity value. A zero coupon bond is normally issued and traded at a deep discount from face value. Zero coupon bonds allow an issuer to avoid or delay the need to generate cash to meet current interest payments and, as a result, may involve greater credit risk than bonds that pay interest currently or in cash. The market prices of zero coupon bonds are affected to a greater extent by changes in prevailing levels of interest rates and thereby tend to be more volatile in price than securities that pay interest periodically. In addition, the Fund would be required to distribute the income on any of these instruments as it accrues, even though the Fund will not receive all of the income on a current basis or in cash. Thus, the Fund may have to sell other investments, including when it may not be advisable to do so, to make income distributions to its shareholders.

### **Structured Notes**

The Fund may utilize structured notes and similar instruments for investment purposes and also for hedging purposes. Structured notes are privately negotiated debt obligations where the principal and/or interest is determined by reference to the performance of a benchmark asset, market or interest rate (an embedded index), such as selected securities, an index of securities or specified interest rates, or the differential performance of two assets or markets. The terms of such structured instruments normally provide that their principal and/or interest payments are to be adjusted upwards or downwards (but not ordinarily below zero) to reflect changes in the embedded index while the structured instruments are outstanding. As a result, the interest and/or principal payments that may be made on a structured product may vary widely, depending upon a variety of factors, including the volatility of the embedded index and the effect of changes in the embedded index on principal and/or interest payments. The rate of return on structured notes may be determined by applying a multiplier to the performance or differential performance of the referenced index or indices or other assets. Application of a multiplier involves leverage that will serve to magnify the potential for gain and the risk of loss. These types of investments may generate taxable income.

### **Other Investment Companies**

The Fund may invest up to 10% of its Managed Assets in securities of other open- or closed-end investment companies (including exchange-traded funds (often referred to as ETFs)) that invest primarily in municipal securities of the types in which the Fund may invest directly. The Fund may invest in investment companies that are advised by NAM or its affiliates to the extent permitted by applicable law and/or pursuant to exemptive relief from the Securities and Exchange Commission. As a stockholder in an investment company, the Fund will bear its ratable share of that investment company's expenses, and would remain subject to payment of the Fund's advisory and administrative fees with respect to assets so invested. Fund common shareholders would therefore be subject to duplicative expenses to the extent the Fund invests in other investment companies.

NAM will take expenses into account when evaluating the investment merits of an investment in the investment company relative to available municipal security investments. In addition, because the securities of other investment companies may be leveraged and subject to leverage risk, the Fund may indirectly be subject to those risks. See Risks Other Investment Companies Risk.

### **Derivatives**

The Fund may invest in derivative instruments in pursuit of its investment objectives. Such instruments include financial futures contracts, swap contracts (including interest rate and credit default swaps), options on financial futures, options on swap contracts, or other derivative

## Edgar Filing: SMALLEY GARY G. - Form 4

instruments. NAM uses derivatives to seek to enhance return, to hedge some of the risks of its investments in fixed income securities or as a substitute for a position in the underlying asset. See the SAI for additional information.

**Portfolio Investments**

As used in this prospectus, the term "municipal securities" includes municipal securities with relatively short-term maturities. Some of these short-term securities may be variable or floating rate securities. The Fund, however, emphasizes investments in municipal securities with long- or intermediate-term maturities. The Fund buys municipal securities with different maturities and intends to maintain an average portfolio maturity of 15 to 30 years, although this may be shortened depending on market conditions. As a result, the Fund's portfolio may include long-term and intermediate-term municipal securities. If the long-term municipal security market is unstable, the Fund may temporarily invest up to 100% of its assets in temporary investments. Temporary investments are high quality, generally uninsured, short-term municipal securities that may either be tax-exempt or taxable. The Fund will buy taxable temporary investments only if suitable tax-exempt temporary investments are not available at reasonable prices and yields. The Fund will invest only in taxable temporary securities that are U.S. Government securities or corporate debt securities rated within the highest grade by Moody's, S&P or Fitch, and that mature within one year from the date of purchase or carry a variable or floating rate of interest. The Fund's policies on securities ratings only apply when the Fund buys a security, and the Fund is not required to sell securities that have been downgraded. See Appendix B to the SAI for a description of securities ratings. The Fund also may invest in taxable temporary investments that are certificates of deposit from U.S. banks with assets of at least \$1 billion, or repurchase agreements. The Fund intends to allocate taxable income on temporary investments, if any, proportionately between common shares and Preferred Stock, including MTP Shares, based on the percentage of total dividends distributed to each class for that year.

---

## RISKS

Risk is inherent in all investing. Investing in any investment company security involves risk, including the risk that you may receive little or no return on your investment or even that you may lose part or all of your investment. Therefore, before investing you should consider carefully the following risks that you assume when you invest in MTP Shares. The section below does not describe all of the risks associated with an investment in the Fund. Additional risks and uncertainties may also adversely affect and impact the Fund.

### Risks of Investing in MTP Shares

*Interest Rate Risk MTP Shares.* MTP Shares pay dividends at a fixed dividend rate. Prices of fixed income investments vary inversely with changes in market yields. The market yields on intermediate term securities comparable to MTP Shares may increase, which would likely result in a decline in the secondary market price of MTP Shares prior to its term redemption. See Description of MTP Shares Dividends and Dividend Periods and Secondary Market Risk.

*Secondary Market and Delayed Listing Risk.* Because the Fund has no prior trading history for exchange-listed preferred shares, it is difficult to predict the trading patterns of MTP Shares, including the effective costs of trading MTP Shares. During a period of up to 30 days from the date of this prospectus, the MTP Shares will not be listed on any securities exchange. During this period, the underwriters do not intend to make a market in MTP Shares. Consequently, an investment in MTP Shares during this period will likely be illiquid and holders of MTP Shares may not be able to sell such shares as it is unlikely that a secondary market for MTP Shares will develop during this period. If a secondary market does develop during this period, holders of MTP Shares may be able to sell such shares only at substantial discounts from liquidation preference. Application has been made to list the MTP Shares on the New York Stock Exchange so that trading on such exchange will begin within 30 days from the date of this prospectus, subject to notice of issuance. If the Fund is unable to list MTP Shares on a national securities exchange, holders of MTP Shares may be unable to sell such shares at all, or if they are able to, only at substantial discounts from liquidation preference. Even after the MTP Shares are listed on the New York Stock Exchange as anticipated, there is a risk that the market for MTP Shares may be thinly traded and relatively illiquid compared to the market for other types of securities, with the spread between the bid and asked prices considerably greater than the spreads of other securities with comparable terms, credit ratings and tax-advantaged income features.

*Ratings Risk.* The Fund expects that, at issuance, the MTP Shares will be rated Aaa, AAA and AAA by Moody's, S&P and Fitch, respectively, and that such ratings will be a requirement of issuance of such shares by the underwriters pursuant to an underwriting agreement. There can be no assurance that such ratings will be maintained at the level originally assigned through the term of MTP Shares. Ratings do not eliminate or mitigate the risks of investing in MTP Shares. A rating issued by a Rating Agency (including Moody's, S&P and Fitch) is only the opinion of the entity issuing the rating at that time, and is not a guarantee as to quality, or an assurance of the future performance, of the rated security (in this case, MTP Shares). In addition, the manner in which the Rating Agency obtains and processes information about a particular security may affect the Rating Agency's ability to timely react to changes in an issuer's circumstances (in this case, the Fund) that could influence a particular rating. A Rating Agency could downgrade MTP Shares, which may make MTP Shares less liquid in the secondary market and reduce market prices, though with higher resulting dividend rates than the Fixed Dividend Rate. If a Rating Agency downgrades MTP Shares of the Fund, the Fund is required to pay a higher dividend rate on those shares.

*Early Redemption Risk.* The Fund may voluntarily redeem MTP Shares or may be forced to redeem MTP Shares to meet regulatory requirements and the asset coverage requirements of the MTP Shares. Such redemptions may be at a time that is unfavorable to holders of MTP Shares. The Fund expects to voluntarily redeem MTP Shares before the Term Redemption Date to the extent that market conditions allow the Fund to issue other preferred shares or debt securities at a rate that is lower than the Fixed Dividend Rate on MTP Shares. For further information, see Description of MTP Shares Redemption and Description of MTP Shares Asset Coverage.

*Tax Risk.* To qualify for the favorable U.S. federal income tax treatment generally accorded to regulated investment companies, among other things, the Fund must derive in each taxable year at least 90% of its gross income from certain prescribed sources. If for any taxable year the Fund does not qualify as a regulated investment company, all of its taxable income (including its net capital gain) would be subject to tax at regular corporate rates without any deduction for distributions to stockholders, and such distributions would be taxable as ordinary dividends to the extent of the Fund's current and accumulated earnings and profits. The value of MTP Shares may be adversely affected by changes in tax rates and policies. Because dividends from MTP Shares are generally not expected to be subject to regular federal or California income taxation, the attractiveness of such shares in relation to other investment alternatives is affected by changes in federal or California income tax rates or changes in the tax-exempt treatment of dividends on MTP Shares. A portion of the dividends from MTP Shares may be subject to the federal alternative minimum tax. In addition, the Fund intends to treat MTP Shares as stock in the Fund for federal income tax purposes. Because there is no direct legal authority on the classification of instruments similar to MTP Shares, investors should be aware that the Internal Revenue Service (the IRS) could assert a contrary position meaning that the IRS could classify MTP Shares as debt. If the IRS prevailed on such a position, the Fund would not be able to pass through tax-exempt income to holders of MTP Shares, and dividends paid on MTP Shares (including dividends already paid) could become taxable. See Tax Matters. See also the form of opinion of counsel included as Appendix C to the SAI.

*Income Shortfall Risk.* The municipal securities held in the Fund's portfolio generally pay interest based on long-term yields. Long-term, as well as intermediate-term and short-term interest rates may fluctuate. If the interest rates paid on the municipal securities held by the Fund fall below the Fixed Dividend Rate, the Fund's ability to pay dividends on MTP Shares could be jeopardized.

*Subordination Risk.* While holders of MTP Shares will have equal liquidation and distribution rights to any other Preferred Stock that might be issued by the Fund, they will be subordinated to the rights of holders of senior indebtedness, if any, of the Fund. Therefore, dividends, distributions and other payments to holders of MTP Shares in liquidation or otherwise may be subject to prior payments due to the holders of senior indebtedness. In addition, the 1940 Act may provide debt holders with voting rights that are superior to the voting rights of Preferred Stock holders, including holders of MTP Shares. Currently, the Fund, as a fundamental policy, may not issue debt securities that rank senior to MTP Shares. See the SAI, Investment Restrictions. If the Fund enters into borrowings in accordance with its fundamental investment policies, delayed delivery purchases and/or forward delivery contracts, the rights of lenders and counterparties in those transactions will also be senior to those of holders of MTP Shares.

*Credit Crisis and Liquidity Risk.* General market uncertainty and extraordinary conditions in the credit markets, including the municipal market, may impact the liquidity of the Fund's investment portfolio, which in turn, during extraordinary circumstances, could impact the Fund's distributions and/or the liquidity of the Term Redemption Liquidity Account (as described under Description of MTP Shares). Further, there may be market imbalances of sellers and buyers of MTP Shares during periods of extreme illiquidity and volatility. Such market conditions may lead to periods of thin trading in any secondary market for MTP Shares and may make valuation of MTP Shares uncertain. As a result, the spread between bid and asked prices is likely to increase significantly such that an MTP Shares investor may have greater difficulty selling his or her MTP Shares. Less liquid and more volatile trading environments could result in sudden and significant valuation increases or declines in MTP Shares.

*Inflation Risk.* Inflation is the reduction in the purchasing power of money resulting from the increase in the price of goods and services. Inflation risk is the risk that the inflation-adjusted (or real) value of an investment in MTP Shares or the income from that investment will be worth less in the future. As inflation occurs, the real value of MTP Shares and dividends on MTP Shares declines.

*Reinvestment Risk MTP Shares.* Given the five-year term and potential for early redemption of MTP Shares, holders of MTP Shares may face an increased reinvestment risk, which is the risk that the return on an investment purchased with proceeds from the sale or redemption of MTP Shares may be lower than the return previously obtained from an investment in MTP Shares.

*Other Dividend Risks.* In addition to the interest rate risks noted above, the Fund may otherwise be unable to pay dividends on MTP Shares in extraordinary circumstances.

### **General Risks of Investing in the Fund**

*Credit and Below Investment Grade Risk.* Credit risk is the risk that one or more municipal securities in the Fund's portfolio will decline in price, or the issuer thereof will fail to pay interest or principal when due, because the issuer experiences a decline in its financial status. Credit risk is increased when a portfolio security is downgraded or the perceived creditworthiness of the issuer deteriorates. The Fund may invest up to 20% (measured at the time of investment) of its net assets in municipal securities that are rated below investment grade or that are unrated but judged to be of comparable quality by NAM. If a municipal security satisfies the rating requirements described above at the time of investment and is subsequently downgraded below that rating, the Fund will not be required to dispose of the security. If a downgrade occurs, NAM will consider what action, including the sale of the security, is in the best interests of the Fund and its shareholders. Municipal securities of below investment grade quality are regarded as having predominately speculative characteristics with respect to the issuer's capacity to pay interest and repay principal when due, and are more susceptible to default or decline in market value due to adverse economic and business developments than investment grade municipal securities. Also, to the extent that the rating assigned to a municipal security in the Fund's portfolio is downgraded by any NRSRO, the market price and liquidity of such security may be adversely affected. The market values for municipal securities of below investment grade quality tend to be volatile, and these securities are less liquid than investment grade municipal securities. For these reasons, an investment in the Fund, compared with a portfolio consisting solely of investment grade securities, may experience the following:

- increased price sensitivity resulting from a deteriorating economic environment and changing interest rates;
- greater risk of loss due to default or declining credit quality;
- adverse issuer specific events that are more likely to render the issuer unable to make interest and/or principal payments; and
- the possibility that a negative perception of the below investment grade market develops, resulting in the price and liquidity of below investment grade securities becoming depressed, and this negative perception could last for a significant period of time.

*Municipal Securities Market Risk.* Investing in the municipal securities market involves certain risks. The municipal market is one in which dealer firms make markets in bonds on a principal basis using their proprietary capital, and during the recent market turmoil these firms' capital became severely constrained. As a result, some firms were unwilling to commit their capital to purchase and to serve as a dealer for municipal securities. The amount of public information available about the municipal securities in the Fund's portfolio is generally less than that for corporate equities or bonds, and the Fund's investment performance may therefore be more dependent on NAM's analytical abilities than if the Fund were to invest in stocks or taxable bonds. As noted above the secondary market for municipal securities also tends to be less well-developed or liquid than many other securities markets, which may adversely affect the Fund's ability to sell its municipal securities at attractive prices or at prices approximating those at which the Fund currently values them. Municipal securities may contain redemption provisions, which may allow the securities to be called or redeemed prior to their stated maturity, potentially resulting in the distribution of principal and a reduction in subsequent interest distributions.

The ability of municipal issuers to make timely payments of interest and principal may be diminished during general economic downturns and as governmental cost burdens are reallocated among federal, state and local governments. If the current national economic recession continues, the ability of municipalities to collect revenue and service their obligations could be materially and adversely affected. The taxing power of any government entity may be limited by provisions of state constitutions or laws and an entity's credit will depend on many factors, including the entity's tax base, the extent to which the entity relies on federal or state aid, and other

factors which are beyond the entity's control. In addition, laws enacted in the future by Congress or state legislatures or referenda could extend the time for payment of principal and/or interest, or impose other constraints on enforcement of such obligations, or on the ability of municipalities to levy taxes. Issuers of municipal securities might seek protection under the bankruptcy laws. In the event of bankruptcy of such an issuer, the Fund could experience delays in collecting principal and interest and the Fund may not, in all circumstances, be able to collect all principal and interest to which it is entitled. To enforce its rights in the event of a default in the payment of interest or repayment of principal, or both, the Fund may take possession of and manage the assets securing the issuer's obligations on such securities, which may increase the Fund's operating expenses. Any income derived from the Fund's ownership or operation of such assets may not be tax-exempt.

Revenue bonds issued by state or local agencies to finance the development of low-income, multi-family housing involve special risks in addition to those associated with municipal securities generally, including that the underlying properties may not generate sufficient income to pay expenses and interest costs. These bonds are generally non-recourse against the property owner, may be junior to the rights of others with an interest in the properties, may pay interest that changes based in part on the financial performance of the property, may be prepayable without penalty and may be used to finance the construction of housing developments which, until completed and rented, do not generate income to pay interest. Additionally, unusually high rates of default on the underlying mortgage loans may reduce revenues available for the payment of principle or interest on such mortgage revenue bonds.

*Interest Rate Risk The Fund.* Generally, when market interest rates rise, bond prices fall, and vice versa. Interest rate risk is the risk that the municipal securities in the Fund's portfolio will decline in value because of increases in market interest rates. In typical market interest rate environments, the prices of longer-term municipal securities generally fluctuate more than prices of shorter-term municipal securities as interest rates change.

*Concentration Risk.* As described above, the Fund will invest its net assets in a portfolio of municipal securities that are exempt from regular federal and California income taxes. The Fund is therefore more susceptible to political, economic or regulatory factors affecting issuers of such securities. The information set forth below and the related information in Appendix A of this prospectus are derived from sources that are generally available to investors. The information is intended to give a recent historical description and is not intended to indicate future or continuing trends in the financial or other positions of California. It should be noted that the creditworthiness of obligations issued by local California issuers may be unrelated to the creditworthiness of obligations issued by the State of California, and that there is no obligation on the part of the State to make payment on such local obligations in the event of default.

Since the start of 2008, California has been experiencing the most significant economic downturn and financial pressure since the Great Depression of the 1930s. The broad decline in economic activity and rise in unemployment across many sectors of the California economy resulted in a State unemployment rate of 12.2% as of September 2009, which is among the highest in the nation and could possibly continue at such levels through the end of 2009 and into 2010. As a result of continuing weakness in the state economy, state tax revenues have declined precipitously, resulting in large budget gaps and cash shortfalls.

The Legislature and the Governor adopted three major budget plans, covering both the 2008-09 and 2009-10 fiscal years, in less than 11 months, in response to the continuing deterioration in the State's fiscal condition. In December 2008, less than four months after the 2008-09 fiscal year budget was enacted on September 16, 2008 ( 2008 Budget Act ), the Governor estimated a combined budget deficit of \$41.6 billion in fiscal years 2008-9 and 2009-10, the largest deficit in California history. On February 19, 2009, after protracted negotiations, the legislature adopted a budgetary package to address this shortfall by revising the 2008-09 fiscal year budget and setting forth the 2009-10 fiscal year budget ( Initial 2009 Budget Act ). Because of the delayed enactment of the 2008 Budget Act and a weak municipal bond market, the California State Treasurer's Office was unable to issue any general obligation bonds or lease revenue bonds between June 2008 and March 2009. The Initial 2009

Budget Act was structured to resolve the anticipated \$41.6 billion budget deficit through \$12.5 billion in temporary tax and revenue increases, \$15.7 billion in spending cuts, \$5.4 billion in borrowing, and an expected receipt of \$8.0 billion in Federal stimulus funds. However, continued deteriorating economic and fiscal conditions since then and the decision by State voters to reject certain budgetary propositions in a statewide special election held on May 19, 2009 created a subsequent projected budget deficit of \$24.2 billion for the 2009-10 fiscal year as of July 2009. On July 28, 2009, a new budget solution to this \$24.2 billion shortfall was adopted ( Amended 2009 Budget Act ), which included \$16.1 billion in additional spending cuts and \$8.1 billion in various revenue enhancing measures. The Amended 2009 Budget Act provided for a \$500 million reserve at June 30, 2010, which, as of the end of October 2009, was considered to be possibly depleted because of less than full realization of some of the budgetary assumptions. Also as of the end of October 2009, the State s Department of Finance anticipated annual multi-billion dollar budget gaps through at least fiscal year 2012-13 without further corrective actions. On November 18, 2009, the CLAO forecast another budget deficit of \$20.7 billion by the end of the 2010-11 fiscal year. According to the CLAO, the projected deficit consists of a \$6.3 billion projected shortfall for the 2009-10 fiscal year and a \$14.4 billion deficit in the 2010-11 fiscal year.

In light of these developments and continued economic and revenue weakening, the CLAO stated in early May 2009 that the State would experience a cash flow crisis by the summer and fall of 2009 that, without significant budget-balancing and cash management actions by the Legislature or unprecedented borrowing from the short-term credit markets, would prevent the State from paying many of its bills on time for much of 2009-10. Likewise, the California State Controller projected in early June 2009 that, in the absence of legislative action, the State would not have sufficient cash to meet all of its payment obligations for the 2009-10 fiscal year by the end of July 2009. On May 13, 2009, the California Treasurer formally requested that the U.S. Treasury extend TARP assistance to the State of California in order to mitigate the State s severe cash flow crunch. In mid June 2009, the U.S. Treasury declined the request and expressed public reservations against extending such funds for assisting individual state budget imbalances. Because of continued fiscal and economic weakness, the State confronted an estimated \$2.8 billion cash deficit for the end of July 2009, requiring the California State Controller to issue individual registered warrants, which are promises to pay or IOUs, in place of regular warrants or checks as payment to private businesses, local governments, taxpayers receiving income tax refunds, and owners of unclaimed property. The issuance of the individual registered warrants began on July 2, 2009 with each warrant carrying an interest rate of 3.75%. Between July 2, 2009 and September 4, 2009, the date upon which the warrants matured and ceased accruing interest, the State issued approximately 450,000 warrants worth about \$2.6 billion. With the passage of the Amended 2009 Budget Act and the ability to issue \$1.5 billion of interim revenue anticipation notes, the State was able to begin redeeming the registered warrants on September 4, 2009 and will continue to redeem the warrants through October 1, 2010. The issuance of registered warrants in 2009 was only the second time the State has issued registered warrants to these types of State creditors since 1930.

Due to California s fiscal difficulties, in February 2009 S&P lowered its rating on California general obligation bonds from A+ to A, and in March 2009, Moody s and Fitch also lowered their respective ratings on the bonds from A1 to A2 and A+ to A. In June and July of 2009, Fitch further lowered its rating to A- and then to BBB due to the severity and size of the State s fiscal challenges and continued economic and revenue weakening. Moody s likewise further lowered its rating on the bonds to Baa1 from A2 in July 2009, citing the State s use of IOUs for non priority payments, the deadlock on the subsequent budget gap, and the risk to priority payments. California currently has the lowest credit status of any state, and in light of the State s current financial crisis, the rating agencies continue to monitor the State s economic situation and weigh further downgrades.

California s current economic problems heighten the risk of investing in bonds issued by the State and its political subdivisions, agencies, instrumentalities and authorities, including the risk of potential issuer default. There is a heightened risk that there could be an interruption in payments to bondholders in some cases. This possibility, along with the risk of a further downgrade in the credit rating of the State s general obligation debt, could result in a reduction in the market value of the bonds held by the Fund, which could adversely affect the Fund s net asset values or the distributions paid by the Fund.

*Inverse Floating Rate Securities Risk.* The Fund may invest up to 15% of its net assets in inverse floating rate securities. Typically, inverse floating rate securities represent beneficial interests in a special purpose trust (sometimes called a tender option bond trust) formed by a third party sponsor for the purpose of holding municipal securities. See Portfolio Composition Municipal Securities Inverse Floating Rate Securities. In general, income on inverse floating rate securities will decrease when interest rates increase and increase when interest rates decrease. Investments in inverse floating rate securities may subject the Fund to the risks of reduced or eliminated interest payments and losses of principal.

Inverse floating rate securities may increase or decrease in value at a greater rate than the underlying interest rate, which effectively leverages the Fund's investment. As a result, the market value of such securities generally will be more volatile than that of fixed rate securities.

The Fund may invest in inverse floating rate securities issued by special purpose trusts that have recourse to the Fund. In NAM's discretion, the Fund may enter into a separate shortfall and forbearance agreement with the third party sponsor of a special purpose trust. The Fund may enter into such recourse agreements (i) when the liquidity provider to the special purpose trust requires such an agreement because the level of leverage in the special purpose trust exceeds the level that the liquidity provider is willing to support absent such an agreement; and/or (ii) to seek to prevent the liquidity provider from collapsing the special purpose trust in the event that the municipal obligation held in the trust has declined in value. Such an agreement would require the Fund to reimburse the third party sponsor of the trust, upon termination of the trust issuing the inverse floater, the difference between the liquidation value of the bonds held in the trust and the principal amount due to the holders of floating rate interests. In such instances, the Fund may be at risk of loss that exceeds its investment in the inverse floating rate securities.

The Fund's investments in inverse floating rate securities issued by special purpose trusts that have recourse to the Fund may be highly leveraged. The structure and degree to which the Fund's inverse floating rate securities are highly leveraged will vary based upon a number of factors, including the size of the trust itself and the terms of the underlying municipal security held in a special purpose trust. An inverse floating rate security generally is considered highly leveraged if the principal amount of the short-term floating rate interests issued by the related special purpose trust is in excess of three times the principal amount of the inverse floating rate securities owned by the trust (the ratio of the principal amount of such short-term floating rate interests to the principal amount of the inverse floating rate securities is referred to as the gearing). In the event of a significant decline in the value of an underlying security, the Fund may suffer losses in excess of the amount of its investment (up to an amount equal to the value of the municipal securities underlying the inverse floating rate securities) as a result of liquidating special purpose trusts or other collateral required to maintain the Fund's anticipated effective leverage ratio.

The economic effect of leverage through the Fund's purchase of inverse floating rate securities creates an opportunity for increased net income and returns, but also creates the possibility that the Fund's long-term returns will be diminished if the cost of leverage exceeds the return on the inverse floating rate securities purchased by the Fund.

Inverse floating rate securities have varying degrees of liquidity based upon the liquidity of the underlying securities deposited in a special purpose trust. The market price of inverse floating rate securities is more volatile than the underlying securities due to leverage. The leverage attributable to such inverse floating rate securities may be called away on relatively short notice and therefore may be less permanent than more traditional forms of leverage. In certain circumstances, the likelihood of an increase in the volatility of net asset value and market price of the common shares may be greater for the Fund to the extent that it relies on inverse floating rate securities to achieve a significant portion of its desired effective leverage ratio. The Fund may be required to sell its inverse floating rate securities at less than favorable prices, or liquidate other Fund portfolio holdings in certain circumstances, including, but not limited to, the following:

- If the Fund has a need for cash and the securities in a special purpose trust are not actively trading due to adverse market conditions;
- If special purpose trust sponsors (as a collective group or individually) experience financial hardship and consequently seek to terminate their respective outstanding special purpose trusts; and

- If the value of an underlying security declines significantly (to a level below the notional value of the floating rate securities issued by the trust) and if additional collateral has not been posted by the Fund.

*Taxability Risk.* The Fund will invest in municipal securities in reliance at the time of purchase on an opinion of bond counsel to the issuer that the interest paid on those securities will be excludable from gross income for regular federal income tax purposes, and NAM will not independently verify that opinion. Subsequent to the Fund's acquisition of such a municipal security, however, the security may be determined to pay, or to have paid, taxable income. As a result, the treatment of dividends previously paid or to be paid by the Fund as exempt-interest dividends could be adversely affected, subjecting the Fund's shareholders to increased federal income tax liabilities.

Under highly unusual circumstances, the IRS may determine that a municipal bond issued as tax-exempt should in fact be taxable. If the Fund held such a bond, it might have to distribute taxable ordinary income dividends or reclassify as taxable income previously distributed as exempt-interest dividends.

Distributions of ordinary taxable income (including any net short-term capital gain) will be taxable to shareholders as ordinary income (and not eligible for favorable taxation as qualified dividend income), and capital gain dividends will be subject to capital gains taxes. In certain circumstances, the Fund will make payments to holders of MTP Shares to offset the tax effects of a taxable distribution. See Tax Matters.

*Other Investment Companies Risk.* The Fund may invest in the securities of other investment companies. Such securities may be leveraged. As a result, the Fund may be indirectly exposed to leverage through an investment in such securities. Utilization of leverage is a speculative investment technique and involves certain risks. An investment in securities of other investment companies that are leveraged may expose the Fund to higher volatility in the market value of such securities and the possibility that the Fund's long-term returns on such securities will be diminished.

*Deflation Risk.* Deflation risk is the risk that prices throughout the economy decline over time, which may have an adverse effect on the market valuation of companies, their assets and revenues. In addition, deflation may have an adverse effect on the creditworthiness of issuers and may make issuer default more likely, which may result in a decline in the value of the Fund's portfolio.

*Insurance Risk.* The Fund may purchase municipal securities that are additionally secured by insurance, bank credit agreements or escrow accounts. The credit quality of the companies that provide such credit enhancements will affect the value of those securities. Many significant providers of insurance for municipal securities have recently incurred significant losses as a result of exposure to sub-prime mortgages and other lower credit quality investments that have experienced recent defaults or otherwise suffered extreme credit deterioration. As a result, such losses have reduced the insurers' capital and called into question their continued ability to perform their obligations under such insurance if they are called upon to do so in the future. As of December 1, 2009, there are no longer any bond insurers rated AAA by all of Moody's, S&P and Fitch and at least one rating agency has placed each insurer on negative credit watch, credit watch evolving, credit outlook developing, or rating withdrawn. Moody's, S&P and Fitch have also withdrawn all ratings for one bond insurer. These events may presage one or more rating reductions for any other insurer in the future. While an insured municipal security will typically be deemed to have the rating of its insurer, if the insurer of a municipal security suffers a downgrade in its credit rating or the market discounts the value of the insurance provided by the insurer, the rating of the underlying municipal security will be more relevant and the value of the municipal security would more closely, if not entirely, reflect such rating. In such a case, the value of insurance associated with a municipal security would decline and the insurance may not add any value. As concern has increased about the balance sheets of insurers, prices on insured bonds—especially those bonds issued by weaker underlying credits—declined. Most insured bonds are currently being valued according to their fundamentals as if they were uninsured. The insurance feature of a municipal security normally provides that it guarantees the full payment of principal and interest when due through the life of an insured obligation, but does not guarantee the market value of the insured obligation or the net asset value of the common shares represented by such insured obligation.

*Counterparty Risk.* Changes in the credit quality of the companies that serve as the Fund's counterparties with respect to derivatives, insured municipal securities or other transactions supported by another party's credit will affect the value of those instruments. Certain entities that have served as counterparties in the markets for these transactions have recently incurred significant financial hardships including bankruptcy and losses as a result of exposure to sub-prime mortgages and other lower quality credit investments that have experienced recent defaults or otherwise suffered extreme credit deterioration. As a result, such hardships have reduced these entities' capital and called into question their continued ability to perform their obligations under such transactions. By using such derivatives or other transactions, the Fund assumes the risk that its counterparties could experience similar financial hardships. In the event of insolvency of a counterparty, the Fund may sustain losses or be unable to liquidate a derivatives position.

*Call Risk or Prepayment Risk.* During periods of declining interest rates or for other purposes, issuers may exercise their option to prepay principal earlier than scheduled, forcing the Fund to reinvest in lower-yielding securities. This is known as call or prepayment risk.

*Reinvestment Risk the Fund.* With respect to the Fund, reinvestment risk is the risk that income from the Fund's portfolio will decline if and when the Fund invests the proceeds from matured, traded or called bonds at market interest rates that are below the Fund's portfolio's current earnings rate.

*Reliance on Investment Adviser.* The Fund is dependent upon services and resources provided by its investment adviser, NAM, and therefore the investment adviser's parent, Nuveen Investments, Inc. ( "Nuveen Investments" ). Nuveen Investments, through its own business or the financial support of its affiliates, may not be able to generate sufficient cash flow from operations or ensure that future borrowings will be available in an amount sufficient to enable it to pay its indebtedness or to fund its other liquidity needs. For additional information on NAM and Nuveen Investments, see "Management of the Fund - Additional Information Related to the Investment Adviser and Nuveen Investments."

*Certain Affiliations.* Certain broker-dealers may be considered to be affiliated persons of the Fund, NAM and/or Nuveen Investments. Absent an exemption from the Securities and Exchange Commission or other regulatory relief, the Fund generally is precluded from effecting certain principal transactions with affiliated brokers, and its ability to purchase securities being underwritten by an affiliated broker or a syndicate including an affiliated broker, or to utilize affiliated brokers for agency transactions, is subject to restrictions. This could limit the Fund's ability to engage in securities transactions and take advantage of market opportunities.

*Anti-Takeover Provisions.* The Fund's Declaration of Trust and By-laws include provisions that could limit the ability of other entities or persons to acquire control of the Fund or convert the Fund to open-end status.

#### **HOW THE FUND MANAGES RISK**

The Fund has adopted certain investment limitations designed to limit investment risk and maintain portfolio diversification. These limitations are fundamental and may not be changed without the approval of the holders of a majority of the Fund's outstanding common shares and Preferred Stock, including MTP Shares, voting together as a single class, and the approval of the holders of a majority of the outstanding Preferred Stock voting as a separate class.

The Fund may not:

## Edgar Filing: SMALLEY GARY G. - Form 4

- Invest more than 25% of its total assets in securities of issuers in any one industry, other than municipal securities issued by states and local governments and their instrumentalities or agencies (not including those backed only by the assets and revenues of non-governmental users), and municipal securities issued or guaranteed by the U.S. Government or its instrumentalities or agencies; and

- Invest more than 5% of its total assets in securities of any one issuer (not including securities of the U.S. Government and its agencies, or the investment of 25% of the Fund's total assets).

See the SAI for additional fundamental and non-fundamental policies of the Fund.

In addition, Moody's, S&P and Fitch, in connection with establishing and maintaining ratings on the Fund's MTP Shares, restrict the Fund's ability to borrow money, sell securities short, lend securities, buy and sell futures contracts, and write put or call options. The Fund does not expect that these restrictions will adversely affect its ability to achieve its investment objectives. These restrictions are not fundamental policies and the Fund may change them without shareholder approval.

## MANAGEMENT OF THE FUND

### Trustees and Officers

The Fund's Board of Trustees is responsible for the management of the Fund, including supervision of the duties performed by NAM. The names and business addresses of the Fund's trustees and officers and their principal occupations and other affiliations during the past five years are set forth under Management of the Fund in the SAI.

### Investment Adviser and Portfolio Managers

NAM will be responsible for the Fund's overall investment strategy and its implementation. NAM also is responsible for managing the Fund's business affairs and providing certain clerical, bookkeeping and other administrative services.

NAM, 333 West Wacker Drive, Chicago, Illinois 60606, a registered investment adviser, is a wholly owned subsidiary of Nuveen Investments. Founded in 1898, Nuveen Investments and its affiliates had approximately \$141 billion of assets under management as of September 30, 2009, of which approximately \$68.8 billion was in municipal securities. Regarding this approximately \$68.8 billion of tax-exempt municipal securities, approximately \$35.5 billion, \$16.1 billion, \$15.3 billion and \$1.9 billion represent assets relating to closed-end municipal bond funds, open-end municipal bond funds, retail municipal managed accounts and institutional municipal managed accounts, respectively. At such time as the Fund receives an exemptive order permitting it to do so, or as otherwise permitted by the 1940 Act or the rules thereunder, the Fund may, without obtaining approval of the shareholders, retain an unaffiliated subadviser to perform some or all of the portfolio management functions on the Fund's behalf.

Scott R. Romans, Ph.D serves as the portfolio manager of the Fund. He is Vice President of Nuveen Investments. He has direct responsibility for approximately \$5.3 billion of municipal bond assets in 29 municipal bond funds. He joined Nuveen in 2000 as a senior analyst in the education sector and in January, 2003 was assigned management responsibility for several closed- and open-end municipal bond funds, most of which are state funds covering California and other western states. Mr. Romans holds an undergraduate degree from the University of Pennsylvania, an MSF from the Illinois Institute of Technology, and an MA and Ph.D from the University of Chicago.

## Edgar Filing: SMALLEY GARY G. - Form 4

Additional information about the portfolio manager's compensation, other accounts managed by him or her and other information is provided in the SAI. The SAI is available free of charge by calling (800) 257-8787 or by visiting Nuveen's website at [www.nuveen.com](http://www.nuveen.com). The information contained in, or that can be accessed through, the Fund's website is not part of this prospectus of the SAI.

### **Nuveen Investments**

On November 13, 2007, Nuveen Investments was acquired by an investor group led by Madison Dearborn Partners, LLC, a private equity firm based in Chicago, Illinois (the "MDP Acquisition"). The investor group led

by Madison Dearborn Partners, LLC includes affiliates of Merrill Lynch, Pierce, Fenner & Smith Incorporated ( Merrill Lynch ) which has since been acquired by Bank of America Corporation ( Bank of America ). As a result of the MDP Acquisition, Merrill Lynch currently owns a 32% non-voting equity stake in Nuveen Investments, owns a \$30 million position in the \$250 million revolving loan facility of Nuveen Investments and holds two of ten seats on the board of directors of Nuveen Investments. Because these arrangements may give rise to certain conflicts of interest involving NAM and Bank of America (including Merrill Lynch), NAM has adopted policies and procedures intended to address these potential conflicts. Certain underwriters or their affiliates, including also own an interest in Nuveen Investments.

**Additional Information Related to the Investment Adviser and Nuveen Investments**

The Fund is dependent upon services and resources provided by its adviser NAM and therefore the investment adviser’s parent Nuveen Investments. Nuveen Investments significantly increased its level of debt in connection with the MDP Acquisition. As of September 30, 2009, Nuveen Investments had outstanding approximately \$4.0 billion in aggregate principal amount of indebtedness, with approximately \$531.8 million of available cash on hand. Nuveen Investments believes that monies generated from operations and cash on hand will be adequate to fund debt service requirements, capital expenditures and working capital requirements for the foreseeable future; however, Nuveen Investments ability to continue to fund these items and to service debt may be affected by general economic, financial, competitive, legislative, legal and regulatory factors and by its ability to refinance outstanding indebtedness with scheduled maturities beginning in 2013. The risks, uncertainties and other factors related to Nuveen Investments’ business, the effects of which may cause its assets under management, earnings, revenues, and/or profit margins to decline, are described in its filings with the Securities and Exchange Commission, which are publicly available.

**Investment Management Agreement**

Pursuant to an investment management agreement between NAM and the Fund, the Fund has agreed to pay an annual management fee for the services and facilities provided by NAM, payable on a monthly basis, based on the sum of a fund-level fee and a complex-level fee, as described below, according to the following schedule:

**Fund-Level Fee.** The fund-level fee shall be applied according to the following schedule:

<u>Fund-Level Average Daily Managed Assets</u>	<u>Fund-Level Fee Rate</u>
For the first \$125 million	0.4500%
For the next \$125 million	0.4375%
For the next \$250 million	0.4250%
For the next \$500 million	0.4125%
For the next \$1 billion	0.4000%
For net assets over \$2 billion	0.3750%

For the first ten years of the Fund’s operations, NAM has agreed to reimburse the Fund, as a percentage of average daily net assets, for fees and expenses in the amounts and for the time periods set forth below:

<b>Year Ending</b>	<b>Year Ending</b>
<b>March 31,</b>	<b>March 31,</b>

## Edgar Filing: SMALLEY GARY G. - Form 4

2001*	.30%	2007	.25%
2002	.30%	2008	.20%
2003	.30%	2009	.15%
2004	.30%	2010	.10%
2005	.30%	2011	.05%
2006	.30%		

\* From the commencement of operations.

NAM has not agreed to reimburse the Fund for any portion of its fees and expenses beyond March 31, 2011.

**Complex Level Fee.** The effective rates of the complex-level fee at various specified complex-wide asset levels are as indicated in the following table:

<u>Complex-Level Asset Breakpoint Level(1)</u>	<u>Effective Rate At Breakpoint Level</u>
\$55 billion	0.2000%
\$56 billion	0.1996%
\$57 billion	0.1989%
\$60 billion	0.1961%
\$63 billion	0.1931%
\$66 billion	0.1900%
\$71 billion	0.1851%
\$76 billion	0.1806%
\$80 billion	0.1773%
\$91 billion	0.1691%
\$125 billion	0.1599%
\$200 billion	0.1505%
\$250 billion	0.1469%
\$300 billion	0.1445%

- (1) Breakpoints apply up to the dollar amounts listed above. The complex-level fee is based on the aggregate daily managed assets (as managed assets is defined in each Nuveen Fund's investment management agreement with NAM, which generally includes assets attributable to any preferred shares that may be outstanding and any borrowings (including the issuance of commercial paper or notes) and the portion of assets in special purpose trusts of which the fund owns inverse floater certificates that has been effectively financed by the special trust's issuance of floating rate certificates) of the Nuveen Funds. The complex-level fee was based on approximately \$65.8 billion as of September 30, 2009.

In addition to NAM's management fee, the Fund pays all other costs and expenses of its operations, including compensation of its trustees (other than those affiliated with NAM), custodian, transfer agency and dividend disbursing expenses, legal fees, expenses of its independent registered accounting firm, expenses of repurchasing shares, expenses of issuing any MTP Shares, expenses of preparing, printing and distributing shareholder reports, notices, proxy statements and reports to governmental agencies, listing fees and taxes, if any. All fees and expenses are accrued daily and deducted before payment of distributions to shareholders.

The basis for the Board of Trustees' continuation of the Fund's investment management agreement will be provided in Annual or Semi-Annual Reports to shareholders for the periods during which such continuations occur.

#### NET ASSET VALUE

The Fund's custodian calculates the Fund's net asset value. The custodian uses prices for portfolio securities from a pricing service the Fund's Board of Trustees has approved. The pricing service values portfolio securities at the mean between the quoted bid and asked price or the yield equivalent when quotations are readily available. Securities for which quotations are not readily available (which will constitute the majority of the Fund's portfolio securities) are valued at fair value as determined by the Board of Trustees in reliance upon data supplied by the pricing service. The pricing service uses methods that consider yields or prices of municipal securities of comparable quality, type of issue, coupon,

## Edgar Filing: SMALLEY GARY G. - Form 4

maturity, and ratings; dealers' indications of value; and general market conditions. The pricing service may use electronic data processing techniques or a matrix system, or both. The Fund's officers review the pricing service's procedures and valuations, under the general supervision of the Board of Trustees of the Fund.

## DESCRIPTION OF BORROWINGS

The Fund's Declaration of Trust authorizes the Fund, without prior approval of holders of common stock or Preferred Stock, including MTP Shares, to borrow money. In this connection, the Fund may issue notes or other evidence of indebtedness (including bank borrowings or commercial paper) and may secure any such borrowings subject to the requirements of the 1940 Act. Any borrowings will rank senior to the Fund's shares of Preferred Stock, including the MTP Shares. The Fund, as a fundamental policy, may not issue debt securities that rank senior to MTP Shares, except for emergency or temporary purposes.

*Limitations.* Under the requirements of the 1940 Act, the Fund, immediately after issuing any borrowings that are senior securities representing indebtedness (as defined in the 1940 Act), must have an Asset Coverage of at least 300%. With respect to any such borrowings, asset coverage means the ratio which the value of the total assets of the Fund, less all liabilities and indebtedness not represented by senior securities, bears to the aggregate amount of any such borrowings that are senior securities representing indebtedness, issued by the Fund. Certain types of borrowings may also result in the Fund being subject to covenants in credit agreements relating to asset coverages or portfolio composition or otherwise. In addition, the Fund may be subject to certain restrictions imposed by guidelines of one or more rating agencies which may issue ratings for Preferred Stock, including MTP Shares, or indebtedness, if any, such as commercial paper or notes issued by the Fund. Such restrictions may be more stringent than those imposed by the 1940 Act.

*Distribution Preference.* The rights of lenders to the Fund to receive interest on and repayment of principal of any such borrowings will be senior to those of the holders of Preferred Stock (including MTP Shares), and the terms of any such borrowings may contain provisions which limit certain activities of the Fund, including the payment of dividends to holders of Preferred Stock in certain circumstances.

*Voting Rights.* The 1940 Act does (in certain circumstances) grant to the lenders to the Fund certain voting rights in the event of default in the payment of interest on or repayment of principal. In the event that such provisions would impair the Fund's status as a regulated investment company under the Code, the Fund, subject to its ability to liquidate its portfolio, intends to repay the borrowings.

## DESCRIPTION OF OUTSTANDING SHARES

### Common Shares

The Fund's Declaration of Trust authorizes the issuance of an unlimited number of common shares of beneficial interest. All common shares have equal rights to the payment of dividends and the distribution of assets upon liquidation. Common shares are, when issued, fully paid and non-assessable, and have no pre-emptive or conversion rights except as the trustees may determine or rights to cumulative voting. At any time when Preferred Stock is outstanding, common shareholders will not be entitled to receive any cash distributions from the Fund unless all accrued dividends on Preferred Stock have been paid, and unless Asset Coverage with respect to Preferred Stock would be at least 200% after giving effect to the distributions. The Fund pays monthly dividends, typically on the first business day of the following month.

The common shares are listed on the NYSE Amex. The Fund intends to hold annual meetings of shareholders so long as the Fund's shares are listed on a national securities exchange and such meetings are required as a condition to such listing.

### MuniPreferred Shares

Explanation of Responses:

## Edgar Filing: SMALLEY GARY G. - Form 4

The Fund's Declaration of Trust authorizes the issuance of an unlimited number of preferred shares. The Fund currently has outstanding MuniPreferred shares. Each share of Preferred Stock ranks on parity with respect to the payment of dividends and the distribution of assets upon liquidation. Under the 1940 Act, the MTP Shares are considered to be a separate series of the Fund's existing class of Preferred Stock, and are not considered to be a separate class of securities.

The Fund's outstanding MuniPreferred shares have a liquidation preference of \$25,000 per share, plus all accumulated but unpaid dividends (whether or not earned or declared) to the date of final distribution. MuniPreferred shares are, when issued, (i) fully paid and non-assessable, (ii) not convertible into common shares or other capital stock of the Fund, (iii) have no preemptive rights and (iv) not subject to any sinking fund. MuniPreferred shares are subject to optional and mandatory redemption in certain circumstances. MuniPreferred shares are auction rate securities, meaning that auctions in the securities were held on a periodic basis and interest on the shares was paid at the end of each auction period based on a Dutch auction process. In February 2008, the auction market failed and has not since recovered. The failure of the auction rate market has rendered the MuniPreferred shares virtually illiquid.

Prior to the general failure of the auction markets, MuniPreferred shares paid dividends based on a rate set at the auctions, which were normally held weekly. In most instances, dividends were also paid weekly on the day following the end of the rate period. The rate set at the auctions did not exceed a maximum rate. In instances where auctions have failed, the dividend rates for the MuniPreferred shares reset weekly at a maximum rate, which is determined by a formula, and is based on the greater of 110% of short-term municipal bond rates or AA taxable commercial paper.

A detailed description of the Fund's MuniPreferred shares, including a description of the maximum rate formula, is included in the Fund's Amendment and Restatement of Statement Establishing and Fixing the Rights and Preferences of MuniPreferred Shares that is on file with the Securities and Exchange Commission.

#### **CERTAIN PROVISIONS IN THE DECLARATION OF TRUST AND BY-LAWS**

Under Massachusetts law, shareholders could, under certain circumstances, be held personally liable for the obligations of the Fund. However, the Declaration of Trust contains an express disclaimer of shareholder liability for debts or obligations of the Fund and requires that notice of such limited liability be given in each agreement, obligation or instrument entered into or executed by the Fund or the trustees. The Declaration of Trust further provides for indemnification out of the assets and property of the Fund for all loss and expense of any shareholder held personally liable for the obligations of the Fund. Thus, the risk of a shareholder incurring financial loss on account of shareholder liability is limited to circumstances in which the Fund would be unable to meet its obligations. The Fund believes that the likelihood of such circumstances is remote.

The Declaration of Trust and By-Laws include provisions that could limit the ability of other entities or persons to acquire control of the Fund or to convert the Fund to open-end status. The By-Laws require the Board of Trustees elected by the holders of common and Preferred Stock, voting as a single class, be divided into three classes, with the term of one class expiring at each annual meeting of shareholders. See the Statement of Additional Information under Management of the Fund. This provision of the By-Laws could delay for up to two years the replacement of a majority of the Board of Trustees. Holders of Preferred Stock, voting as a separate class, will be entitled to elect two of the Fund's trustees, serving for a one year term. In addition, the Declaration of Trust requires a vote by holders of at least two-thirds of the common shares and Preferred Stock, voting together as a single class, except as described below, to authorize (1) a conversion of the Fund from a closed-end to an open-end investment company, (2) a merger or consolidation of the Fund, or a series or class of the Fund, with any other corporation, association, trust or other organization or a reorganization or recapitalization of the Fund or a series or class of the Fund, (3) a sale, lease or transfer of all or substantially all of the Fund's assets (other than in the regular course of the Fund's investment activities), (4) in certain circumstances, a termination or liquidation of the Fund, or a series or class of the Fund or (5) a removal of trustees by shareholders, and then only for cause, unless, with respect to (1) through (4), such transaction has already been authorized by the affirmative vote of two-thirds of the total number of trustees fixed in accordance with the Declaration of Trust or the By-Laws, in which case the affirmative vote of the holders of at least a majority of the Fund's common shares and Preferred Stock outstanding at the time, voting together as a single class, is required; provided, however, that where only a particular class or series is affected (or, in the case of removing a trustee, when the trustee has been elected by only one class), only the required vote by the applicable class or series will be required. Approval of shareholders is not required, however, for any transaction, whether deemed a merger,

consolidation, reorganization or otherwise whereby the Fund issues shares in connection with the acquisition of assets (including those subject to liabilities) from any other investment company or similar entity. In the case of the conversion of the Fund to an open-end investment company, or in the case of any of the foregoing transactions constituting a plan of reorganization that adversely affects the holders of any outstanding Preferred Stock, the action in question will also require the affirmative vote of the holders of at least two-thirds of the Preferred Stock outstanding at the time, voting as a separate class, or, if such action has been authorized by the affirmative vote of two-thirds of the total number of trustees fixed in accordance with the Declaration of Trust or the By-Laws, the affirmative vote of the holders of at least a majority of the Preferred Stock outstanding at the time, voting as a separate class. None of the foregoing provisions may be amended except by the vote of at least two-thirds of the common shares and Preferred Stock, voting together as a single class. The votes required to approve the conversion of the Fund from a closed-end to an open-end investment company or to approve transactions constituting a plan of reorganization that adversely affects the holders of any outstanding Preferred Stock are higher than those required by the 1940 Act. The Board of Trustees believes that the provisions of the Declaration of Trust relating to such higher votes are in the best interest of the Fund and its shareholders.

The Declaration of Trust provides that the obligations of the Fund are not binding upon the Fund's trustees individually, but only upon the assets and property of the Fund, and that the trustees shall not be liable for errors of judgment or mistakes of fact or law. Nothing in the Declaration of Trust, however, protects a trustee against any liability to which he or she would otherwise be subject by reason of willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his office.

The provisions of the Declaration of Trust and By-Laws described above could have the effect of depriving the common shareholders of opportunities to sell their common shares at a premium over the then current market price of the common shares by discouraging a third party from seeking to obtain control of the Fund in a tender offer or similar transaction. The overall effect of these provisions is to render more difficult the accomplishment of a merger or the assumption of control by a third party. They provide, however, the advantage of potentially requiring persons seeking control of the Fund to negotiate with its management regarding the price to be paid and facilitating the continuity of the Fund's investment objectives and policies. The Fund's Board of Trustees has considered the foregoing anti-takeover provisions and concluded that they are in the best interests of the Fund and its shareholders.

*Preemptive Rights.* The Declaration of Trust provides that common shareholders shall have no right to acquire, purchase or subscribe for any shares or securities of the Fund, other than such right, if any, as the Fund's Board of Trustees in its discretion may determine. As of the date of this prospectus, no preemptive rights have been granted by the Board of Trustees.

Reference should be made to the Declaration of Trust and By-Laws on file with the Securities and Exchange Commission for the full text of these provisions.

#### **REPURCHASE OF FUND SHARES; CONVERSION TO OPEN-END FUND**

The Fund is a closed-end investment company and as such its shareholders will not have the right to cause the Fund to redeem shares in the Fund held by such shareholders. Instead, the common shares will trade in the open market at a price that will be a function of several factors, including dividend levels (which are in turn affected by expenses), net asset value, dividend stability, relative demand for and supply of such shares in the market, general market and economic conditions and other factors. Because shares of closed-end investment companies may frequently trade at prices lower than net asset value, the Fund's Board of Trustees has currently determined that, at least annually, it will consider action that might be taken to reduce or eliminate any material discount from net asset value in respect of common shares, which may include the repurchase of such shares in the open market or in private transactions, the making of a tender offer for such shares at net asset value or submitting the conversion of the Fund to an open-end investment company to a vote of shareholders. The Fund cannot assure you that its Board of Trustees will decide to take any of these actions, or that share repurchases or tender offers will actually reduce market discount. The Fund will be unable to repurchase its common shares if it does not meet certain asset coverage requirements relating to outstanding Preferred Stock.

If the Fund converted to an open-end investment company, it would be required to redeem all Preferred Stock including MTP Shares then outstanding (requiring in turn that it liquidate a portion of its investment portfolio), and the common shares and MTP Shares would no longer be listed on the New York Stock Exchange or elsewhere. If approved by the applicable vote of the Fund's Board of Trustees, the conversion to an open-end fund would require the vote of the majority of the outstanding common shares and Preferred Stock voting together and the Preferred Stock voting as a separate class. In contrast to a closed-end investment company, shareholders of an open-end investment company may require the company to redeem their shares at any time (except in certain circumstances as authorized by the 1940 Act or the rules thereunder) at their net asset value, less any redemption charge that is in effect at the time of redemption. See the SAI under Repurchase of Fund Shares; Conversion to Open-End Fund for a discussion of the voting requirements applicable to the conversion of the Fund to an open-end investment company.

Before deciding whether to take any action if the common shares trade below net asset value, the Board of Trustees would consider all relevant factors, including the extent and duration of the discount, the liquidity of the Fund's portfolio, the impact of any action that might be taken on the Fund or its shareholders, and market considerations. Based on these considerations, even if the Fund's common shares should trade at a discount, the Board of Trustees of the Fund may determine that, in the interest of the Fund and its shareholders, no action should be taken. See the SAI under Repurchase of Fund Shares; Conversion to Open-End Fund for a further discussion of possible action to reduce or eliminate such discount to net asset value.

### TAX MATTERS

The discussion below, and the discussion in the SAI under the caption Tax Matters, is based on the opinion of K&L Gates LLP (Tax Counsel) on the anticipated U.S. federal income tax consequences of acquiring, holding, and disposing of MTP Shares. Tax Counsel's opinions are based on the current provisions and interpretations of the Internal Revenue Code of 1986, as amended (the Code) and the accompanying Treasury regulations and on current judicial and administrative rulings. All of these authorities are subject to change and any change can apply retroactively.

Upon issuance of MTP Shares, and subject to certain assumptions and conditions, and based upon certain representations made by the Fund, including representations regarding the nature of the Fund's assets and the conduct of the Fund's business, Tax Counsel will deliver its opinion concluding that for federal income tax purposes MTP Shares will qualify as stock in the Fund and distributions made with respect to the MTP Shares will qualify as exempt-interest dividends to the extent designated by the Fund and not otherwise limited under Section 852(b)(5)(A) of the Code (under which the total amount of dividends that may be treated as exempt-interest dividends is limited, based on the total amount of tax-exempt income generated by the Fund). The Fund's qualification and taxation as a regulated investment company depend upon the Fund's ability to meet on a continuing basis, through actual annual operating results, certain requirements in the federal tax laws. Tax Counsel will not review the Fund's compliance with those requirements. Accordingly, no assurance can be given that the actual results of the Fund's operations for any particular taxable year will satisfy such requirements.

The following is intended to be a general summary of the material U.S. federal income tax consequences of investing in MTP Shares. The discussion generally applies only to holders of MTP Shares who are U.S. holders. You will be a U.S. holder if you are an individual who is a citizen or resident of the United States, a U.S. domestic corporation, or any other person that is subject to U.S. federal income tax on a net income basis in respect of an investment in MTP Shares. This summary deals only with U.S. holders that hold MTP Shares as capital assets. It does not address considerations that may be relevant to you if you are an investor that is subject to special tax rules, such as a financial institution, insurance company, regulated investment company, real estate investment trust, investor in pass-through entities, U.S. holder of MTP Shares whose functional currency is not the United States dollar, tax-exempt organization, dealer in securities or currencies, trader in securities or commodities that elects mark to market treatment, person who holds MTP Shares in a qualified tax-deferred account such as an IRA, or person that will hold MTP Shares as a position in a straddle, hedge or as part of a

constructive sale for federal income tax purposes. It is not intended to be a complete discussion of all such federal income tax consequences, nor does it purport to deal with all categories of investors. This discussion reflects applicable tax laws of the United States as of the date of this prospectus, which tax laws may change or be subject to new interpretation by the courts or the Internal Revenue Service, possibly with retroactive effect. INVESTORS ARE THEREFORE ADVISED TO CONSULT WITH THEIR OWN TAX ADVISORS BEFORE MAKING AN INVESTMENT IN THE FUND.

### **Federal Income Tax Treatment of the Fund**

The Fund intends to continue to qualify as a regulated investment company under Subchapter M of the Code. As a regulated investment company, the Fund generally will not be subject to any federal income tax.

The Fund primarily invests in municipal securities issued by States, cities and local authorities and certain possessions and territories of the United States (such as Puerto Rico or Guam) or in municipal securities whose income is otherwise exempt from regular federal income taxes. Thus, substantially all of the Fund's dividends to the holders of common shares and MTP Shares will qualify as exempt-interest dividends. A shareholder treats an exempt-interest dividend as interest on state and local bonds exempt from regular federal income tax. Some or all of an exempt-interest dividend, however, may be subject to federal alternative minimum tax imposed on the shareholder. Different federal alternative tax rules apply to individuals and to corporations. The American Recovery and Reinvestment Act of 2009 provides an exemption from the federal alternative minimum tax applicable to individuals for interest on private activity bonds and, for purposes of calculating a corporate taxpayer's adjusted current earnings, an exemption for interest on all tax-exempt bonds, with both exemptions limited to bonds that are issued after December 31, 2008 and before January 1, 2011, including refunding bonds issued during that period to refund bonds originally issued after December 31, 2003 and before January 1, 2009.

In addition to exempt-interest dividends, the Fund also may distribute amounts that are treated as long-term capital gain or ordinary income to its shareholders. The Fund will allocate distributions to shareholders that are treated as tax-exempt interest and as long-term capital gain and ordinary income, if any, proportionately among the common and MTP Shares. In certain circumstances, the Fund will make payments to holders of MTP Shares to offset the tax effects of a taxable distribution. See "Description of MTP Shares Dividends and Dividend Periods" in this prospectus.

The SAI contains a more detailed summary of the federal tax rules that apply to the Fund and its shareholders. Legislative, judicial or administrative action may change the tax rules that apply to the Fund or its shareholders. Any change may be retroactive for Fund transactions.

### **Federal Income Tax Treatment of Holders of MTP Shares**

Under present law, Tax Counsel is of the opinion that MTP Shares of the Fund will constitute equity of the Fund, and thus distributions with respect to MTP Shares (other than distributions in redemption of MTP Shares subject to Section 302(b) of the Code) will generally constitute dividends to the extent of the Fund's current or accumulated earnings and profits, as calculated for federal income tax purposes. Because the treatment of a corporate security as debt or equity is determined on the basis of the facts and circumstances of each case, and no controlling precedent exists for the MTP Shares, there can be no assurance that the IRS will not question Tax Counsel's opinion and the Fund's treatment of MTP Shares as equity. If the IRS were to succeed in such a challenge, holders of MTP Shares could be characterized as receiving taxable interest income rather than exempt-interest or other dividends, possibly requiring them to file amended income tax returns and retroactively to recognize additional amounts of ordinary income or to pay additional tax, interest, and penalties.

## Edgar Filing: SMALLEY GARY G. - Form 4

Except in the case of exempt-interest dividends and capital gain dividends, if any, dividends paid by the Fund generally will be taxable to holders at ordinary income tax rates. Dividends derived from net capital gain and designated by the Fund as capital gain dividends will be treated as long-term capital gains in the hands of holders regardless of the length of time such holders have held their shares. Distributions in excess of the Fund's

earnings and profits, if any, will first reduce a shareholder's adjusted tax basis in his or her shares and, after the adjusted tax basis is reduced to zero, will constitute capital gains to a holder who holds such shares as a capital asset. A holder of MTP Shares will be required to report the dividends declared by the Fund for each day on which such holder is the shareholder of record. The Fund intends to notify holders of MTP Shares in advance if it will allocate to them income that is not exempt from regular federal income tax. In certain circumstances, the Fund will make payments to holders of MTP Shares to offset the tax effects of the taxable distribution.

The IRS currently requires that a regulated investment company that has two or more classes of stock allocate to each such class proportionate amounts of each type of its income (such as ordinary income and capital gains). Accordingly, the Fund intends to designate dividends made with respect to common shares and Preferred Stock, including MTP Shares, as consisting of particular types of income (e.g., exempt-interest dividends, net capital gain, or ordinary income) in accordance with each class's proportionate share of the total dividends paid by the Fund during the year.

Although dividends generally will be treated as distributed when paid, a distribution will be treated as having been paid on December 31 if it is declared by the Fund in October, November or December with a record date in such months and is paid by the Fund in January of the following year. Accordingly, such distributions will be taxable to shareholders in the calendar year in which the distributions are declared.

#### **California Tax Matters**

The following is based upon the advice of K&L Gates LLP, special counsel to the Fund.

The Fund's regular monthly dividends will not be subject to California personal income tax to the extent they are paid out of income earned on obligations that, when held by individuals, pay interest that is exempt from taxation by California under California law (e.g., obligations of California and its political subdivisions) or federal law, so long as at the close of each quarter of the Fund's taxable year at least 50% of the value of the Fund's total assets consists of such obligations and the Fund designates such tax-exempt distributions pursuant to certain written notice requirements to its shareholders. The portion of the Fund's monthly dividends that is attributable to income other than as described in the preceding sentence will be subject to the California income tax. The Fund expects to earn no or only a minimal amount of such non-exempt income. If you are an individual California resident, you will be subject to California personal income tax to the extent the Fund distributes any realized capital gains, or if you sell or exchange shares and realize a capital gain on the transaction.

The Fund's dividends may not qualify for exemption under the personal income tax laws of states other than California. Shareholders are advised to consult with their own tax advisors for more detailed information concerning California tax matters or the tax laws of their state and locality of residence. Please refer to the Statement of Additional Information for more detailed information.

#### **Other State and Local Tax Matters**

While exempt-interest dividends are exempt from regular federal and California income taxes, they may not be exempt from other state or local income or other taxes. Some states exempt from state income tax that portion of any exempt-interest dividend that is derived from interest a regulated investment company receives on its holdings of securities of that state and its political subdivisions and instrumentalities. Therefore, the Fund will report annually to its shareholders the percentage of interest income the Fund earned during the preceding year on tax-exempt obligations and the Fund will indicate, on a state-by-state basis, the source of this income. You should consult with your tax adviser about state and local tax matters.

**Sale of Shares**

The sale of MTP Shares by holders will generally be a taxable transaction for federal income tax purposes. A holder of MTP Shares who sells such shares will generally recognize gain or loss in an amount equal to the

difference between the net proceeds resulting from the sale and such holder's adjusted tax basis in the shares sold. A portion of any such gain will generally be characterized as dividend income to the extent it is attributable to declared but unpaid dividends. If such MTP Shares are held as a capital asset at the time of the sale, the gain or loss will generally be a capital gain or loss. Similarly, a redemption by the Fund (including a redemption resulting from liquidation of the Fund), if any, of all MTP Shares actually and constructively held by a shareholder generally will give rise to capital gain or loss under Section 302(b) of the Code if the shareholder does not own (and is not regarded under certain federal income tax rules of constructive ownership as owning) any common shares in the Fund, and provided that the redemption proceeds do not represent declared but unpaid dividends. Other redemptions may also give rise to capital gain or loss, but certain conditions imposed by Section 302(b) of the Code must be satisfied to achieve such treatment.

Losses realized by a shareholder on the sale or exchange of shares of the Fund held for six months or less are disallowed to the extent of any distribution of exempt-interest dividends received with respect to such shares, and, if not disallowed, such losses are treated as long-term capital losses to the extent of any distribution of long-term capital gain received (or designated amounts of undistributed capital gain that are treated as received) with respect to such shares.

Any loss realized on a sale or exchange will be disallowed to the extent that substantially identical shares are reacquired within a period of 61 days beginning 30 days before and ending 30 days after the disposition of such shares. In such case, the basis of the shares acquired will be adjusted to reflect the disallowed loss.

#### **Backup Withholding**

The Fund may be required to withhold, for U.S. federal income tax purposes, a portion of all distributions (including redemption proceeds) payable to shareholders who fail to provide the Fund with their correct taxpayer identification number, who fail to make required certifications or who have been notified by the IRS that they are subject to backup withholding (or if the Fund has been so notified). The current rate of backup withholding is 28%. Certain corporate and other shareholders specified in the Code and the regulations thereunder are exempt from backup withholding. Backup withholding is not an additional tax; any amounts withheld may be credited against the shareholder's U.S. federal income tax liability provided the appropriate information is furnished to the IRS.

Investors are advised to consult their own tax advisors with respect to the application to their own circumstances of the above-described general federal income taxation rules and with respect to other federal, state, local or foreign tax consequences to them before making an investment in MTP Shares.

**UNDERWRITERS**

Under the terms and subject to the conditions contained in an underwriting agreement dated the date of this prospectus, the underwriters named below, for whom Morgan Stanley & Co. Incorporated, Banc of America Securities LLC, Citigroup Global Markets Inc., UBS Securities LLC and Wells Fargo Securities, LLC are acting as representatives, have severally agreed to purchase, and the Fund has agreed to sell to them, severally, the number of MTP Shares indicated below:

Name	Number of MTP Shares
Nuveen Investments, LLC	
<b>Total</b>	

The underwriters are offering the MTP Shares subject to their acceptance of the MTP Shares from the Fund and subject to prior sale. The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the MTP Shares offered by this prospectus are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all of the MTP Shares offered by this prospectus if any such MTP Shares are taken.

The underwriters initially propose to offer part of the MTP Shares directly to the public at the public offering price listed on the cover page of this prospectus and part to certain dealers at a price that represents a concession not in excess of \$ \_\_\_\_\_ per MTP Share under the public offering price. Any underwriter may allow, and such dealers may reallow, a concession not in excess of \$ \_\_\_\_\_ per MTP Share to other underwriters or to certain dealers. After the initial offering of the MTP Shares, the offering price and other selling terms may from time to time be varied by the representatives. The underwriting discounts and commissions of \$0.15 per MTP Share are equal to 1.5% of the public offering price. Investors must pay for any MTP Shares purchased on or before \_\_\_\_\_, 2010.

The Fund has granted the underwriters an option, exercisable for 30 days from the date of this prospectus, to purchase up to an aggregate of \_\_\_\_\_ additional MTP Shares at the public offering price listed on the cover page of this prospectus, less underwriting discounts and commissions. The underwriters may exercise this option solely for the purpose of covering over-allotments, if any, made in connection with the offering of the MTP Shares offered by this prospectus. To the extent the option is exercised, each underwriter will become obligated, subject to certain conditions, to purchase about the same percentage of the additional MTP Shares as the number listed next to the underwriter's name in the preceding table bears to the total number of MTP Shares listed in the preceding table. If the underwriters' option is exercised in full, the total price to the public would be \$ \_\_\_\_\_, the total underwriting discounts and commissions would be \$ \_\_\_\_\_ and total proceeds to the Fund would be \$ \_\_\_\_\_.

The following table shows the underwriting discounts and commissions the Fund will pay in connection with this offering. The information assumes either no exercise or full exercise by the underwriters of their overallotment option. However, the underwriters are not required to take or pay for the MTP Shares covered by the underwriters over-allotment option described below.

	Per MTP Share	Without Option	With Option
Underwriting discounts and commissions	\$ 0.15	\$	\$

Application has been made to list the MTP Shares, subject to official notice of issuance, on the New York Stock Exchange under the symbol NNO Pr C. Prior to this offering, there has been no public market for MTP Shares. It is anticipated that trading on the New York Stock Exchange will begin within 30 days from the date of this prospectus. During such period, the underwriters do not intend to make a market in MTP Shares. Consequently, it is anticipated that, prior to the commencement of trading on the New York Stock Exchange, an investment in MTP Shares will be illiquid and holders of MTP Shares may not be able to sell such shares as it is

unlikely that a secondary market for MTP Shares will develop. If a secondary market does develop prior to the commencement of trading on the New York Stock Exchange, holders of MTP Shares may be able to sell such shares only at substantial discounts from liquidation preference.

The Fund and NAM have each agreed that, without the prior written consent of \_\_\_\_\_ on behalf of the underwriters, the Fund will not, during the period ending 180 days after the date of this prospectus:

- offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of, directly or indirectly, any senior securities (as defined in the 1940 Act) or any securities convertible into or exercisable or exchangeable for senior securities; or
- enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the MTP Shares,

whether any such transaction described above is to be settled by delivery of MTP Shares or such other securities, in cash or otherwise; or file any registration statement with the Securities and Exchange Commission relating to the offering of any MTP Shares or any securities convertible into or exercisable or exchangeable for MTP Shares.

In order to facilitate the offering of the MTP Shares, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the MTP Shares. Specifically, the underwriters may over-allot in connection with the offering, creating a short position in the MTP Shares for their own account. In addition, to cover over-allotments or to stabilize the price of the MTP Shares, the underwriters may bid for, and purchase, MTP Shares in the open market. Finally, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the MTP Shares in the offering, if the syndicate repurchases previously distributed MTP Shares in transactions to cover syndicate short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the MTP Shares above independent market levels. The underwriters are not required to engage in these activities, and may end any of these activities at any time.

The Fund anticipates that the representatives and certain other underwriters may from time to time act as brokers and dealers in connection with the execution of its portfolio transactions after they have ceased to be underwriters and, subject to certain restrictions, may act as such brokers while they are underwriters. From time to time, Morgan Stanley & Co. Incorporated has provided, and continues to provide, investment banking services to the Fund, NAM and its affiliates for which it has received customary fees and expenses. The underwriters may, from time to time, engage in transactions with or perform services for the Fund, NAM and its affiliates in the ordinary course of business. As a result of the acquisition of Nuveen Investments by Madison Dearborn Partners, LLC, Banc of America Securities LLC is a remote affiliate of NAM (and the Fund), and certain underwriters or their affiliates, including Citigroup Global Markets Inc. and Wells Fargo Securities, LLC, also have an ownership interest in Nuveen Investments. See Management of the Fund Nuveen Investments.

[NAM (and not the Fund) has agreed to pay from its own assets to Morgan Stanley & Co. Incorporated a development fee in an amount equal to 0.25% of the price to the public of the MTP Shares issued by the Fund in connection with this offering.]

Certain underwriters and their affiliates, including \_\_\_\_\_ currently own or are obligated to repurchase in the future outstanding MuniPreferred shares. In addition, customers of certain underwriters and their affiliates currently own outstanding MuniPreferred shares. In connection with an inquiry by FINRA into the activities of Nuveen Investments, LLC, a registered broker-dealer affiliate of NAM that is involved in the offering of the Fund's MTP Shares, in marketing and distributing MuniPreferred shares and FundPreferred shares (the latter being preferred shares issued by certain Nuveen non-municipal closed-end funds), FINRA staff members have notified Nuveen Investments, LLC

that they have made a preliminary determination to recommend that disciplinary action be brought against Nuveen Investments, LLC. The potential charges recommended by the FINRA staff in such action would allege that certain MuniPreferred share and FundPreferred share marketing materials provided by Nuveen Investments, LLC were false and misleading from 2006 to 2008, and also would allege failures by Nuveen Investments, LLC relating to its supervisory system with respect to the marketing of MuniPreferred and FundPreferred shares. The FINRA staff has provided Nuveen Investments, LLC an opportunity to make a written submission to FINRA to aid its consideration of whether to revise and/or go forward with the staff's preliminary determination to recommend disciplinary action. Nuveen Investments, LLC is preparing such a submission responding to the potential allegations and asserting its defenses. Nuveen Investments, LLC anticipates continuing to discuss these matters with the FINRA staff. Upon the successful completion of this offering, these outstanding MuniPreferred shares may be redeemed or purchased by the Fund with the net proceeds of the offering as set forth in Use of Proceeds. Although such a redemption or purchase would be done in accordance with the 1940 Act in a manner that did not favor these underwriters, affiliates or customers, the underwriters or their affiliates may nonetheless be deemed to obtain a material benefit from the offering of the MTP Shares due to such redemption or purchase including, for certain of the underwriters and their affiliates, potentially substantial financial relief and/or relief related to legal and regulatory matters associated with currently illiquid MuniPreferred shares.

The Fund, NAM and the underwriters have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act of 1933.

The address of Morgan Stanley & Co. Incorporated is 1585 Broadway, New York, New York 10036.

#### **CUSTODIAN, TRANSFER AGENT, DIVIDEND DISBURSING AGENT AND REDEMPTION AND PAYING AGENT**

The custodian of the assets of the Fund is State Street Bank and Trust Company ( State Street ), One Lincoln Street, Boston, Massachusetts 02110. The custodian performs custodial, fund accounting and portfolio accounting services. The Fund's transfer, shareholder services and dividend disbursing agent and redemption and paying agent is also State Street, 250 Royall Street, Canton, Massachusetts 02021. State Street has subcontracted the transfer agency servicing of the Fund to Computershare, Inc.

#### **LEGAL OPINIONS**

Certain legal matters in connection with MTP Shares will be passed upon for the Fund by K&L Gates LLP, Washington, DC, and for the Underwriters by Simpson Thacher & Bartlett LLP, New York, New York. K&L Gates LLP and Simpson Thacher & Bartlett LLP may rely as to certain matters of Massachusetts law on the opinion of Bingham McCutchen LLP, Boston, Massachusetts.

#### **INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The audited financial statements of the Fund appearing in the Fund's Annual Report dated February 28, 2009 and the Fund's unaudited financial statements for the six months ended August 31, 2009 are incorporated by reference into the Statement of Additional Information. The audited financial statements have been audited by Ernst & Young LLP, an independent registered public accounting firm, as set forth in their report thereon appearing elsewhere herein, and are included in reliance upon such report given upon the authority of such firm as experts in accounting and auditing. Ernst & Young LLP provides auditing services to the Fund. The principal business address of Ernst & Young LLP is 233 South Wacker Drive, Suite 1700, Chicago, Illinois 60606.

**MISCELLANEOUS**

To the extent that a holder of MTP Shares is directly or indirectly a beneficial owner of more than 10% of any class of the Fund's outstanding shares (meaning for purposes of holders of MTP Shares, more than 10% of the Fund's outstanding Preferred Stock), such a 10% beneficial owner would be subject to the short-swing profit rules that are imposed pursuant to Section 16 of the Securities Exchange Act of 1934, as amended (the Exchange Act) (and related reporting requirements). These rules generally provide that such a 10% beneficial owner may have to disgorge any profits made on purchases and sales, or sales and purchases, of the Fund's Preferred Stock (including MTP Shares) within any six month time period. Investors should consult with their own counsel to determine the applicability of these rules.

**AVAILABLE INFORMATION**

The Fund is subject to the informational requirements of the Exchange Act and the 1940 Act and is required to file reports, proxy statements and other information with the Securities and Exchange Commission. These documents can be inspected and copied for a fee at the Securities and Exchange Commission's public reference room, 100 F Street, N.E., Washington, D.C. 20549. Reports, proxy statements, and other information about the Fund can be inspected at the offices of the Securities and Exchange Commission.

This prospectus does not contain all of the information in the Fund's Registration Statement, including amendments, exhibits, and schedules. Statements in this prospectus about the contents of any contract or other document are not necessarily complete and in each instance reference is made to the copy of the contract or other document filed as an exhibit to the registration statement, each such statement being qualified in all respects by this reference.

Additional information about the Fund and MTP Shares can be found in the Fund's Registration Statement (including amendments, exhibits, and schedules) on Form N-2 filed with the Securities and Exchange Commission. The Securities and Exchange Commission maintains a web site (<http://www.sec.gov>) that contains the Fund's Registration Statement, other documents incorporated by reference, and other information the Fund has filed electronically with the Securities and Exchange Commission, including proxy statements and reports filed under the Exchange Act. Additional information may be found on the Internet at <http://www.nuveen.com>. The information contained in, or that can be accessed through, the Fund's website is not part of this prospectus.

**Appendix A Factors Affecting Municipal Securities in California**

The following information constitutes only a brief summary of some of the general factors that may impact certain issuers of municipal bonds and does not purport to be a complete or exhaustive description of all adverse conditions to which the issuers of municipal bonds held by the Fund are subject. Additionally, many factors, including national economic, social and environmental policies and conditions, which are not within the control of the issuers of the municipal bonds, could affect or could have an adverse impact on the financial condition of the issuers. The Fund is unable to predict whether or to what extent such factors or other factors may affect the issuers of the municipal securities, the market value or marketability of the municipal securities or the ability of the respective issuers of the municipal bonds acquired by the Fund to pay interest on or principal of the municipal securities. This information has not been independently verified.

The Fund invests a high proportion of its assets in California municipal securities. The payment of interest on and preservation of principal in these securities are dependent upon the continuing ability of California issuers and/or obligors of state, municipal and public authority debt obligations to meet their obligations thereunder. In addition to general economic pressures, certain California constitutional amendments, legislative measures, executive orders, administrative regulations and voter initiatives could adversely affect a California issuer's ability to raise revenues to meet its financial obligations.

As used below, California Tax-Exempt Securities include issues secured by a direct payment obligation of the State of California and obligations of other issuers that rely in whole or in part on California revenues to pay their obligations, the interest on which is, in the opinion of bond counsel, exempt from federal income tax and California personal income tax. Property tax revenues and part of the State's General Fund surplus are distributed to counties, cities and their various taxing entities; whether and to what extent a portion of the State's General Fund will be so distributed in the future is unclear.

**California State Economic and Budgetary Considerations**

The California economy and its general fiscal condition affect the ability of the State and local governments to raise and redistribute revenues to assist issuers of municipal securities to make timely payments on their obligations. California is the most populous state in the nation with a total population estimated at 38.1 million as of July 1, 2008. California has a diverse economy, with major employment in the agriculture, manufacturing, high technology, services, trade, entertainment and construction sectors. However, since the start of 2008, the State has been experiencing the most significant economic downturn and financial pressure since the Great Depression of the 1930s. At the end of September 2009, the State unemployment rate was 12.2%, which was among the highest State unemployment rates in the country and was one of the highest unemployment rates in California since February 1983. Through September 2009, the California construction industry lost 333,400 jobs, a drop of 35.2% from its peak in February 2006, and the California financial activities sector lost 144,700 jobs, a decrease of 15.4% from its peak in May 2006. From January 2008 through September 2009, 10 of California's 11 major industry sectors lost jobs while the only major industry sector to add jobs was educational and health services.

The breadth and depth of the recession has resulted in a dramatic reduction in state tax revenues, as compared to projections made in connection with the adoption of the 2008 Budget Act. In November and December 2008, the Governor estimated a combined budget shortfall for the 2008-09 and 2009-10 fiscal years of \$41.6 billion, the largest budget deficit in the history of the State. The sharp drop in revenues at the start of the 2008-09 fiscal year significantly depleted the cash resources available to pay the state's obligations. By February 2009, the State faced an unprecedented cash crisis that forced the California State Controller to delay a variety of state payments in order to preserve cash for education, debt service, and other obligations deemed by the State constitution and federal law as having first claim to available funds. On February 1, 2009 the Controller started to defer for 30 days, payments from the State General Fund of personal income and bank and corporate tax refunds, as well as payments for specified State operations, local assistance, vendors who do business with the State, trial

courts and programs for the mentally ill, blind, disabled, and elderly. The deteriorating State economic and fiscal conditions caused the Governor to order unpaid furloughs of state employees each month, commencing on February 1, 2009, as well as layoffs of State agency and department employees to reduce General Fund payroll expenditures by up to 10 percent. Litigation has challenged the furlough program. See State Cash Management and Litigation. During the month of February 2009, a total of almost \$3.0 billion in payments were deferred, including \$2.2 billion of tax refunds. With the passage of the Initial 2009 Budget Act in February 2009 (discussed below), the State started to release the deferred payments in the beginning of March 2009, and by the end of March, the State had made up the \$3.0 billion in delayed payments, including \$2.2 billion in tax refunds.

The Governor and the State Legislature began working on enacting legislation to address the \$41.6 billion budget shortfall in November 2008 in a fiscal emergency special session, which was followed by two additional special sessions in December 2008. Because the California constitution requires a two-thirds majority vote in the legislature to pass budgets and tax increases, budgetary measures that ultimately included amendments to the Budget Act of 2008 (which sets forth the California state budget for the fiscal year 2008-09), the Budget Act of 2009 (which sets forth the California State budget for the fiscal year 2009-10), and related budget legislation (collectively, Initial 2009 Budget Act ) were not enacted until such measures were adopted by the Legislature on February 19, 2009 and signed by the Governor on February 20, 2009.

The Initial 2009 Budget Act addressed the projected \$41.6 billion budget deficit for fiscal years 2008-09 and 2009-10 by reducing State expenditures by \$15.7 billion, temporarily increasing taxes to raise approximately \$12.5 billion in revenues, borrowing \$5.4 billion principally through the securitization of lottery revenues in the amount of \$5.0 billion, and by taking into account \$8.0 billion in Federal stimulus funds. A reduction of \$8.4 billion in the minimum guarantee of Proposition 98, which sets a minimum annual funding level for K-12 schools and community colleges ( K-14 schools ), accounted for over half of the \$15.7 billion of expenditure reductions. The other expenditure reductions consisted primarily of higher education (\$1.3 billion) and employee compensation (\$1.2 billion). The temporary tax increases included a one-cent increase in the State sales tax, an increase of 0.50 percent on vehicle license fees, a 0.125 percent across-the-board increase in personal income tax rates, and a reduction in the personal income tax exemption credit for dependents.

Despite the passage of the Initial 2009 Budget Act, the Governor still projected in February 2009 operating deficits for the fiscal years of 2010-11, 2011-12, and 2012-13 in the amounts of \$11.7 billion, \$9.9 billion, and \$13.4 billion, respectively, because of current fiscal and budgetary considerations.

Less than a month after the adoption of the Initial 2009 Budget Act, on March 13, 2009, the Department of Finance stated that General Fund revenues for February 2009 were already \$898 million lower than the projections assumed in the budgetary measure because of continued deteriorating economic and fiscal outlooks. These shortfalls arose primarily from \$427 million in lower than expected personal income tax revenues, \$334 million in lower than expected sales and use tax revenues, and \$138 million in lower than expected corporate tax revenues.

The Initial 2009 Budget Act contained triggers that eliminated certain planned temporary tax increases if the State were to receive at least \$10.0 billion of Federal stimulus funds allocable to the existing budget, as determined by the State Director of Finance and the Treasurer by April 1, 2009. On March 27, 2009, the State Director of Finance and the Treasurer, pursuant and subject to the applicable State law, determined that the State would receive less than \$10.0 billion of Federal stimulus funds allocable to the existing budget for the 2009-10 fiscal year, which was an amount insufficient to avoid the trigger tax increases and expenditure cuts.

Moreover, under the California constitution, some of the enacted provisions of the Initial 2009 Budget Act had to be ratified as ballot propositions by State voters. A statewide special election was held on May 19, 2009 for State voters to decide whether to adopt such budget measures. These propositions included the temporary tax increases that were to take effect in 2009 and set to expire in 2010 and 2011, unless State voters approved Proposition 1A to extend the temporary tax increases until 2012 (2013 in the case of the increase in vehicle

license fees). Proposition 1A also included a budgetary reform measure that, if approved by State voters in the special election, would have limited State spending in accordance with a long-term trend line and created a substantial rainy day fund of up to 12.5% of General Fund revenue for use only during times when revenue is insufficient to fund a moderate, population-and-inflation based growth in spending. State voters also decided in the May 2009 special election whether to adopt Proposition 1C, the \$5.0 billion securitization measure, which would have securitized lottery revenues to offset General Fund expenditures in 2009-10; Proposition 1D, which would have provided for the use of certain tobacco taxes, imposed pursuant to Proposition 10, to pay costs otherwise payable from the State's General Fund; and Proposition 1E, which would have provided for the use of a portion of the proceeds of an income tax surcharge on incomes above \$1 million, imposed pursuant to Proposition 63, to pay costs otherwise payable from the General Fund. State voters voted against five of the six propositions, including these four propositions, effectively creating a \$5.8 billion shortfall with respect to the Initial 2009 Budget Act.

State law also requires the Governor to update the Governor's Budget projections and budgetary proposals by May 14 of each year ( May Revision ), and as part of the Governor's May Revision to the originally adopted 2009-10 budget, the Department of Finance on May 14, 2009 projected a new separate shortfall of \$15.4 billion for the 2009-10 fiscal year due to continued State economic weakness and deteriorating fiscal conditions. Therefore, as of the end of May 2009, the State faced a new projected budget deficit of \$21.3 billion for the 2009-10 fiscal year due to the decision by State voters to reject the various propositions in the May 19, 2009 special election and the continued deterioration in State economic and fiscal conditions. By the beginning of July 2009, given further economic and revenue weakness, this projected shortfall increased to a total of \$26.3 billion, which was later revised to \$24.2 billion. On July 28, 2009, the California legislature adopted a new budget solution ( Amended 2009 Budget Act ) to address the anticipated \$24.2 billion shortfall and bring the 2009-10 budget back into balance. The Amended 2009 Budget Act included \$16.1 billion in additional spending cuts and \$8.1 billion in various revenue enhancing measures.

The Amended 2009 Budget Act provided for a \$500 million reserve at June 30, 2010, which, as of the end of October 2009, may already be depleted because of less than full realization of some of the budgetary assumptions. Moreover, on September 30, 2009, the State Supreme Court denied the State's petition for review of the appeals court decision in the case title *Shaw v. Chiang*, which had overturned provisions in the 2007 Budget Act authorizing use of certain sales and use taxes on vehicle fuels to offset certain transportation related costs in the General Fund. (The matter has been remanded to the trial court for further proceedings consistent with the appeals court decision.) See Litigation. The Amended 2009 Budget Act included use of such sales and use taxes for similar purposes, totaling up to \$1 billion. On September 30, 2009, the Department of Finance obtained preliminary data on revenue collections for personal income taxes in the month of September suggesting a shortfall in quarterly estimate payments of nearly \$1 billion, or about 33 percent below Department of Finance projections. On October 9, 2009, the California State Controller released a monthly report covering California's cash balance, receipts and disbursements in September that indicated total General Fund revenue was nearly \$1.1 billion below the Amended 2009 Budget Act estimates. Since many of the actions taken to balance the Amended 2009 Budget Act were either one-time actions, or involve loans which have to be repaid, or are based on temporary revenue increases or the limited receipt of federal stimulus funds, budget gaps of several billions of dollars a year are expected to recur in 2010-11 and subsequent years. The Department of Finance has projected that, using expenditure obligations under existing law and various assumptions concerning revenues in future years, the state would, in the absence of taking additional steps to balance its budget, face an operating deficit (expenditures exceeding revenues in the same fiscal year) of \$7.4 billion in fiscal year 2010-11, \$15.5 billion in 2011-12 and \$15.1 billion in 2012-13. Furthermore, on November 18, 2009, the California Legislative Analyst's Office ( CLAO ) forecasted another budget deficit of \$20.7 by the end of the 2010-11 fiscal year. According to the CLAO, the budget problem consists of a \$6.3 billion projected deficit for 2009-10 fiscal year and a \$14.4 billion gap between projected revenues and spending in 2010-11 fiscal year.

According to the Governor's official statement for the Initial 2009 Budget Act, California's chronic budget crises have been largely attributable to the use of higher-than-normal revenues to create permanent, ongoing

spending commitments and tax cuts; once revenues return to more normal levels, or drop precipitously during recessionary contractions, the higher spending base is unsustainable and deep spending cuts and tax increases are required. Because the Amended 2009 Budget Act and related legislation addressing the state financial situation, and the State's cash management plan, have been based on a variety of assumptions, there can be no assurances that the financial condition of the State will not be further materially adversely affected by actual conditions or circumstances, including but not limited to those described herein. Furthermore, over the years, a number of laws and constitutional amendments have been enacted, often through voter initiatives, which have increased the difficulty of raising state taxes, restricted the use of the state's General Fund or special fund revenues, or otherwise limited the Legislature and the Governor's discretion in enacting budgets. Historic examples of provisions that make it more difficult to raise taxes include Proposition 13, passed in 1978, which, among other things, required that any change in state taxes enacted for the purpose of increasing revenues collected pursuant thereto, whether by increased rates or changes in computation, be approved by a two-thirds vote in each house of the Legislature. Examples of provisions restricting the use of General Fund revenues are Proposition 98, passed in 1988, which mandates that a minimum amount of General Fund revenues be spent on local education, and Proposition 10, passed in 1998, which raised taxes on tobacco products and mandated how the additional revenues would be expended.

The long delay between the identification of the budget gap and enactment of the Initial 2009 Budget Act, combined with unfavorable market conditions for municipal debt starting in the fall of 2008, prevented the State Treasurer's Office (STO) from issuing any general obligation bonds or lease revenue bonds between June 2008 and March 2009. Because of some improvement in the condition of the municipal bond market and the passage of the Initial 2009 Budget Act, the STO has been able to make four issuances of general obligation bonds and three issuances of lease revenue bonds from March 2009 through the end of October 2009. However, the inability to access the capital markets prior to March 2009 and the absence of an enacted budget plan to address the \$41.6 billion deficit compelled the California Pooled Money Investment Board (PMIB), which is comprised of the state Treasurer, Controller, and Director of Finance, to suspend \$3.8 billion in short-term financing from the California Pooled Money Investment Account (PMIA) to State bond-funded infrastructure projects in December 2008, effectively halting or delaying approximately 5,600 infrastructure projects. See State Cash Management. On May 13, 2009, the California Treasurer formally requested that the U.S. Treasury extend TARP assistance to the State of California in order to mitigate the State's severe cash flow crunch. But in mid-June 2009, the U.S. Treasury declined the request and has expressed public reservations against extending such funds for assisting individual state budget imbalances. The State was compelled to take additional drastic cash management in beginning of July 2009 when the State confronted an estimated \$2.8 billion cash deficit for the end of July 2009. The \$2.8 billion cash deficit required the California State Controller to issue individual registered warrants, which are promises to pay or IOUs, in place of regular warrants or checks as payment to private businesses, local governments, taxpayers receiving income tax refunds, and owners of unclaimed property. The issuance of the individual registered warrants began on July 2, 2009 with each warrant carrying an interest rate of 3.75%. Between July 2, 2009 and September 4, 2009, the date upon which the warrants matured and ceased accruing interest, the State issued approximately 450,000 warrants worth about \$2.6 billion. With the passage of the Amended 2009 Budget Act and the ability to issue \$1.5 billion of interim revenue anticipation notes, the State was able to begin redeeming the registered warrants on September 4, 2009 and will continue to redeem the warrants through October 1, 2010. The issuance of registered warrants this year was only the second time the State has issued registered warrants to these types of State creditors since 1930. See State Cash Management.

### State Cash Management

**General.** The majority of the state's General Fund revenues are received in the latter part of the fiscal year. Expenditures from the General Fund occur more evenly throughout the fiscal year. The State's cash flow management program customarily addresses this timing difference by making use of internal borrowing and by issuing short-term notes in the capital markets. As further described herein, external borrowing is typically done with revenue anticipation notes (RANs) that are payable later in the fiscal year in which they are issued. The state also is authorized under certain circumstances to issue revenue anticipation warrants (RAWs) that are

payable in the succeeding fiscal year, as well as registered refunding warrants ( Refunding RAWs ) issued to refund RAWs.

RANs and RAWs are both payable from any Unapplied Money in the General Fund of the state on their maturity date, subject to the prior application of such money in the General Fund to pay Priority Payments. Priority Payments are payments as and when due to: (i) support the public school system and public institutions of higher education (as provided in Section 8 of Article XVI of the State Constitution); (ii) pay principal of and interest on general obligation bonds and general obligation commercial paper notes of the state; (iii) reimburse local governments for certain reductions in ad valorem property taxes (as required by Section 25.5 of Article XIII of the State Constitution), or make required payments for borrowings secured by such repayment obligation; (iv) provide reimbursement from the General Fund to any special fund or account to the extent such reimbursement is legally required to be made to repay borrowings therefrom pursuant to California Government Code Sections 16310 or 16418; and (v) pay state employees wages and benefits, state payments to pension and other state employee benefit trust funds, state Medi-Cal claims, lease payments to support lease revenue bonds, and any amounts determined by a court of competent jurisdiction to be required by federal law or the State Constitution to be paid with state warrants that can be cashed immediately.

The state has employed additional cash management measures during some fiscal years; all of the following techniques were used during fiscal year 2008-09 and so far during fiscal year 2009-10:

The State Controller has delayed certain types of disbursements from the General Fund.

Legislation has been enacted during the fiscal year increasing the state's internal borrowing capability, and the state has increased the General Fund's internal borrowings.

Legislation has been enacted deferring some of the state's disbursements until later in the fiscal year, when more cash receipts are expected, or into the succeeding fiscal year.

In addition, as noted below, the state was required to issue registered warrants for a time in July and August 2009 because of insufficient cash resources.

**Internal Borrowing.** The General Fund is currently authorized by law to borrow from more than 700 of the state's approximately 1,300 other funds in the State Treasury (the Special Funds). Total borrowing from Special Funds must be approved by the PMIB, and is currently limited by the PMIB to approximately \$21 billion. The Legislature may from time to time adopt legislation establishing additional authority to borrow from Special Funds. The state has historically made extensive use of its internal borrowing capability to provide cash resources to the General Fund. One fund from which moneys may be borrowed to provide additional cash resources to the General Fund is the Budget Stabilization Account (BSA), a reserve fund established in 2004 by Proposition 58. However, during fiscal year 2009-10, there are no funds available in the BSA. The state also may transfer funds into the General Fund from the state's Special Funds for Economic Uncertainties, which is not a Special Fund.

**External Borrowing.** As noted above, issuance of RANs is a normal part of the state's annual cash flow management program. RANs have been issued in 22 of the last 23 fiscal years. In fiscal year 2008-09, the state issued \$5.5 billion of RANs which matured and were paid prior to June 30, 2009. On September 29, 2009, the state issued \$8.8 billion of RANs which are scheduled to mature in May and June 2010. If the state determines that additional cash resources are needed for its cash management program during fiscal year 2009-10, the state may seek additional external borrowing. If the state expects it can repay such additional borrowing by June 30, 2010, it would issue additional RANs. The state also may issue RAWs maturing in the current or the succeeding fiscal year. The issuance of RAWs would result in adding cash resources to the Unapplied Money in the General Fund, which could permit the state to pay its obligations in the current fiscal year, including the 2009-10 Series A Notes and any RANs issued in fiscal year 2009-10 after the issuance of the 2009-10 Series A Notes. The state also is authorized to issue Refunding RAWs to refund maturing RAWs. The state issued RAWs to bridge short-term cash flow shortages in 1992, 1993, 1994, 2002 and 2003.

A-5

**Payment Deferrals.** From time to time, the Legislature changes by statute the due date for various payments, including those owed to public schools, universities and local governments, until a later date in the fiscal year, or even into the following fiscal year, in order to more closely align the state's revenues with its expenditures. This technique has been used several times through the enactment of budget bills in fiscal years 2008-09 and 2009-10. Some of these statutory deferrals were made permanent, and others were implemented only for one fiscal year. One effect of these deferrals has been to reduce the state's need for external borrowing to bridge its cash flow deficit during the fiscal year.

In addition, state law gives the State Controller some flexibility as to how quickly the state must pay its bills. For instance, income tax refunds for personal income taxes are not legally due until 45 days after the return filing deadline, which is normally April 15. Accordingly, while the state has typically paid tax refunds as returns are filed, it can conserve cash by withholding refund payments until after the April 15 due date. Payments to vendors generally must be made within 45 days of receipt of an invoice. The state may delay payment until the end of this period, or it may even choose to make these payments later and pay interest. These delays are only used if the State Controller foresees a relatively short-term cash flow shortage. Such an instance occurred in February 2009, when the State Controller delayed making about \$2.9 billion of tax refunds, and another \$1.3 billion of vendor and other payments. Enactment of the Initial 2009 Budget Act in February 2009 allowed all the delayed payments to be made up in March 2009. The state does not delay making payments for which, under state or federal law, a definitive due date is set.

**Cash Management in Fiscal Year 2008-09.** The 2008-09 Governor's Budget identified a prospective cash flow shortfall in light of deteriorating economic conditions. The state shored up cash resources by issuing the remainder of the authorized economic recovery bonds (ERBs) in February, 2008, which generated about \$3.3 billion of new cash for the General Fund. The state also permanently transferred \$1.5 billion to the General Fund from the BSA. As part of the legislation adopted in the February 2008 fiscal emergency special session, bills were passed to permit delay of payments by the General Fund for a number of programs, including payments to schools and other government agencies, during the first two months of fiscal year 2008-09, in order to conserve cash until the annual RAN issue could be sold.

After the Budget Act for the 2008-09 Fiscal Year was adopted on September 16, 2008, the State Controller estimated that the state needed to issue \$7 billion of RANs to allow an adequate cash management cushion during fiscal year 2008-09. The state issued \$5 billion of RANs in late October 2008. The state did not access the public market for a planned second sale following the release of reduced projections of revenues, which resulted in the Governor calling a special session of the Legislature in November 2008. Without the additional money from a second RAN sale, and without legislative action to resolve the budget shortfalls, the State Controller announced that, starting in February 2009, the state would begin taking unusual steps to manage and conserve cash so that the highest priority payments, such as payments to schools, debt service on bonds, employee salaries, and certain federally-mandated programs, could be met in February and March 2009. As a result, the State Controller deferred making certain payments, such as for tax refunds, certain vendor payments and payments to counties for certain social services during the month of February 2009, totaling almost \$4.2 billion (of which \$2.9 billion were tax refunds).

The Initial 2009 Budget Act included several bills to improve the state's cash management resources, including authorization of additional internal borrowings from special funds and the deferral of certain payments to schools and local governments. In addition, the state received early payment from the federal economic stimulus bill, and issued \$500 million of new RANs. All these actions allowed the state to repay all deferred payments in March 2009 and pay all its other obligations through June 30, 2009, including repayment of \$5.5 billion of RANs.

**Cash Management in Fiscal Year 2009-10.** The state entered fiscal year 2009-10 on July 1, 2009 with severely depleted cash resources as a result of having to pay significant obligations before June 30, 2009, including repayment of \$5.5 billion of RANs issued in fiscal year 2008-09. In addition, significant payments to

public schools had been deferred from the end of fiscal year 2008-09 into the first few weeks of July 2009. The state had projected in May 2009 that revenues would be lower than expected and that it faced a \$22 billion budget gap. However, by July 1, 2009, additional budget solutions for 2009-10 had not been adopted.

Faced with reduced cash resources, as described above, the State Controller started to issue registered warrants on July 2, 2009, for certain obligations of the state not having payment priority under law. The State Controller was able to manage cash resources, as described above, to ensure that higher priority payments, such as for schools and debt service, were made on time in July and August 2009. On July 28, 2009, the Governor signed the Amended 2009 Budget Act, which included a number of provisions for cash management purposes. With the adoption of the Amended 2009 Budget Act, the state was able to undertake its normal external borrowing program for fiscal year 2009-10. In order to provide an immediate increase in cash resources, the state issued \$1.5 billion of 2009 Interim RANs (the Interim Notes ) on August 27, 2009, which were scheduled to mature on October 5, 2009. This permitted early redemption of the outstanding registered warrants. All outstanding registered warrants became subject to redemption on September 4, 2009 and ceased to accrue interest on September 3, 2009. (The Interim Notes were subsequently repaid in full on September 29, 2009 with a portion of the proceeds of the 2009-10 Series A Notes.)

### **Obligations of the State of California**

The State Treasurer is responsible for the sale of debt obligations of the State and its various authorities and agencies. The State has always paid the principal of and interest on its general obligation bonds, general obligation commercial paper notes, lease-purchase obligations and short-term obligations, including revenue anticipation notes and revenue anticipation warrants, when due.

*General Obligation Bonds.* The State Constitution prohibits the creation of general obligation indebtedness of the state unless a bond measure is approved by a majority of the electorate voting at a general election or a direct primary. General obligation bond acts provide a continuing appropriation from the General Fund of all debt service payments on general obligation bonds, subject only to the prior application of moneys in the General Fund to the support of the public school system and public institutions of higher education. Under the State Constitution, the appropriation to pay debt service on the general obligation bonds cannot be repealed until the principal and interest on the bonds has been paid. Certain general obligation bond programs, called self-liquidating bonds, receive revenues from specified sources so that moneys from the General Fund are not expected to be needed to pay debt service, but the General Fund is liable as a back-up if the specified revenue source is not sufficient. The principal self-liquidating bond programs are the ERBs, supported by a special sales tax, and veterans general obligation bonds, supported by mortgage repayments from housing loans made to military veterans.

As of October 1, 2009, the state had outstanding \$68,362,254,045 aggregate principal amount of long-term general obligation bonds, of which \$58,532,634,045 were payable primarily from the state's General Fund, and \$9,829,620,000 were self-liquidating bonds payable first from other special revenue funds. As of October 1, 2009, there were unused voter authorizations for the future issuance of \$54,525,414,000 of long-term general obligation bonds, some of which may first be issued as commercial paper notes. Of this unissued amount, \$1,341,710,000 is for general obligation bonds payable first from other revenue sources.

*Variable Rate General Obligation Bonds.* The general obligation bond law permits the state to issue as variable rate indebtedness up to 20 percent of the aggregate amount of long-term general obligation bonds outstanding. As of October 1, 2009, the state had outstanding \$7,452,695,000 principal amount of variable rate general obligation bonds (which includes a portion of the ERBs described below), representing about 10.9 percent of the state's total outstanding general obligation bonds as of that date.

Under state law, except for the ERBs, the state must pay the principal of any general obligation bonds which are subject to optional or mandatory tender, and which are not remarketed or, if applicable, purchased by

A-7

financial institutions which provide liquidity support to the state. The state has not entered into any interest rate hedging contracts in relation to any of its variable rate bonds.

*Commercial Paper Program.* Pursuant to legislation enacted in 1995, voter-approved general obligation indebtedness may be issued either as long-term bonds or, for some but not all bond issues, as commercial paper notes. Commercial paper notes may be renewed or may be refunded by the issuance of long-term bonds. It is currently the state's policy to use commercial paper notes for a portion of the interim funding of voter approved projects. The balance of such funding has in the past been done through internal loans from the state's PMIA. The state then issues long-term general obligation bonds from time to time to retire its general obligation commercial paper notes (and internal loans). Pursuant to the terms of the bank credit agreement presently in effect, the general obligation commercial paper program may have up to \$2 billion in aggregate principal amount at any time. This maximum amount may be increased or decreased in the future. As of October 26, 2009, \$1,116,960,000 aggregate principal amount of general obligation commercial paper notes were outstanding.

*Lease-Purchase (Lease-Revenue) Obligations.* In addition to general obligation bonds, the state builds and acquires capital facilities through the use of lease-purchase (or lease-revenue) borrowing. Under these arrangements, the State Public Works Board, another state or local agency or a joint powers authority issues bonds to pay for the construction of facilities such as office buildings, university buildings or correctional institutions. These facilities are leased to a state agency, the California State University, or the University of California under a long-term lease that provides the source of payment of the debt service on the lease-purchase bonds. In some cases, there is not a separate bond issue, but a trustee directly creates certificates of participation in the state's lease obligation, which are then marketed to investors. Under applicable court decisions, such lease arrangements do not constitute the creation of indebtedness within the meaning of the State Constitutional provisions that require voter approval. For purposes of this Appendix A lease-purchase obligation or lease-purchase financing means principally bonds or certificates of participation for capital facilities where the lease payments providing the security are payable from the General Fund and also includes revenue bonds for a state energy efficiency program secured by payments made by various state agencies under energy service contracts. Lease payments in connection with certain of the lease-purchase financings are payable from special funds rather than the General Fund. In addition, legislation enacted in 2008 provides California's court system with increased fees which would be used to support up to \$5 billion of lease revenue bond authority to expand and repair its infrastructure to address significant caseload increases and reduce delays. (Additional legislative authorization is required prior to the issuance of lease revenue bonds for the court system and therefore the \$5 billion of lease revenue bond authority is not included within the authorized but unissued authorization set forth below.) The state had \$7,956,646,500 General Fund-supported lease-purchase obligations outstanding as of October 1, 2009. The State Public Works Board, which is authorized to sell lease revenue bonds, had \$11,610,524,671 authorized and unissued as of October 1, 2009.

*Non-Recourse Debt.* Certain state agencies and authorities issue revenue obligations for which the General Fund has no liability. Revenue bonds represent obligations payable from state revenue-producing enterprises and projects, which are not payable from the General Fund, and conduit obligations payable only from revenues paid by private users of facilities financed by the revenue bonds. The enterprises and projects include transportation projects, various public works projects, public and private educational facilities (including the California State University and University of California systems), housing, health facilities and pollution control facilities. State agencies and authorities had approximately \$53 billion aggregate principal amount of revenue bonds and notes which are non-recourse to the General Fund outstanding as of June 30, 2009.

*Future Issuance Plans.* Between November, 2006 and August, 2009, voters and the Legislature authorized more than \$60 billion of new general obligation bonds and lease revenue bonds, which are paid solely from the General Fund. This new authorization substantially increased the current amount of such General Fund supported debt authorized and unissued to about \$64.8 billion as of October 1, 2009. In order to address the expenditure needs for these new authorizations, along with those which existed before 2006, the state has increased the volume of issuance of both of these categories of bonds substantially, compared to previous years, starting in

fiscal year 2007-08. The amounts and timing of future issuance of general obligation and lease revenue bonds will depend on a variety of factors, including the actual timing of expenditure needs for the various programs for which such bonds are to be issued, the amount and timing of interim financing provided to the programs, the interest rate and other market conditions at the time of issuance, and the timing and amounts of additional general obligation bonds or lease revenue bonds that may be approved. The Amended 2009 Budget Act assumes that approximately \$13.4 billion of general obligation bonds and \$1.1 billion of lease revenue bonds will be issued in fiscal year 2009-10.

Disruptions in financial markets and uncertainties about the state's budget condition have caused significant disruptions over the past year in the state's bond issuance program. Because of these factors, the state did not issue any new general obligation bonds between July 2008 and March 2009. In March 2009, it issued \$6.54 billion of new tax-exempt bonds, the largest new money general obligation bond issue in the state's history (excluding ERBs). A few weeks later, the state took advantage of a new federal program called Build America Bonds (BABs) to issue \$6.86 billion of federally taxable general obligations bonds, of which \$5.3 billion were BABs. BABs are bonds whose interest is subject to federal income tax, but the U.S. Treasury will repay to the state an amount equal to 35 percent of the interest cost on the BABs. This will result in a net interest expense lower than what the state would have had to pay for tax-exempt bonds at that time and in that amount. In October 2009, the state issued \$2.825 billion of federally taxable general obligation bonds, of which \$1.75 billion were BABs. BABs may be issued by the state through December 31, 2010 (unless Congress extends the program). The state will consider issuing additional BABs as market conditions warrant.

Based on the current Department of Finance projections of program expenditure needs, without taking into account any future authorizations which may occur, the State Treasurer has estimated that the aggregate amount of outstanding general obligation and lease revenue bonds based on current voter and legislative authorizations is estimated to peak at approximately \$111.8 billion by June 2016, compared to the current total outstanding amount of about \$66.5 billion. The annual debt service costs on this amount of debt is estimated by the State Treasurer to peak in 2017-18 at approximately \$9.75 billion compared to about \$5.9 billion budgeted in fiscal year 2009-10. (These estimates do not include ERBs, described below, or veterans general obligation bonds supported by mortgage repayments from housing loans made to military veterans, nor do they take into account potential benefits from future refunding opportunities.)

The Administration also has proposed several new bond initiatives, including \$9.3 billion for water, \$23.9 billion for K-12 schools and higher education, and \$7.7 billion for various lease revenue bond-funded programs. To the extent that voters approve additional general obligation bonds at future elections and the Legislature authorizes additional lease revenue bonds consistent with those supported by the Administration, debt service would increase commensurately. In light of the substantial drop in General Fund revenues since fiscal year 2007-08 and the projections for substantial new bond sales in the future, the ratio of debt service on general obligation and lease revenue bonds supported by the General Fund, to annual General Fund revenues, can be expected to increase significantly in future years.

*Economic Recovery Bonds.* The California Economic Recovery Bond Act ( Proposition 57 ) was approved by the voters on March 2, 2004. Proposition 57 authorized the issuance of up to \$15 billion in ERBs to finance the negative General Fund reserve balance as of June 30, 2004, and other General Fund obligations undertaken prior to June 30, 2004. Repayment of the ERBs is secured by a pledge of revenues from a one-quarter cent increase in the state's sales and use tax that became effective July 1, 2004. In addition, as voter-approved general obligation bonds, the ERBs are secured by the state's full faith and credit and payable from the General Fund in the event the dedicated sales and use tax revenue is insufficient to repay the bonds.

In May and June, 2004, the state issued \$10.896 billion principal amount of ERBs, resulting in the deposit of net proceeds to the General Fund of approximately \$11.254 billion. In order to relieve cash flow and budgetary shortfalls identified in the 2008-09 Governor's Budget, the state issued approximately \$3.179 billion of additional ERBs on February 14, 2008, generating net proceeds of \$3.313 billion which were transferred to the

General Fund. No further ERBs can be issued under Proposition 57, except for any refunding bonds which may be issued in the future. (The Department of Finance had determined that the full \$15 billion voter authorization could not be issued because of the previous repayment of certain June 30, 2004 obligations eligible for financing pursuant to Proposition 57.)

Three different sources of funds are required to be applied to the early retirement (generally by purchase or redemption) of ERBs: (i) all proceeds from the dedicated quarter cent sales tax in excess of the amounts needed, on a semi-annual basis, to pay debt service and other required costs of the bonds, (ii) all proceeds from the sale of specified surplus state property, and (iii) fifty percent of each annual deposit, up to \$5 billion in the aggregate, of deposits in the BSA. As of June 30, 2009 funds from these sources have been used for early retirement of approximately \$3.5 billion of bonds during fiscal years 2005-06 through 2008-09, including \$1.495 billion which was transferred from the BSA in 2006-07 (\$472 million) and 2007-08 (\$1.023 billion).

The Governor suspended both the 2008-09 and 2009-10 BSA transfers due to the condition of the General Fund.

Because of the sharp reduction in taxable sales as a result of the current economic recession, the one-quarter cent Special Sales Tax Revenues ( SSTRs ) collected from the one-quarter cent tax dedicated to repayment of the ERB debt have decreased to a level which has provided very little coverage above the required debt service amounts. This has twice caused the state to temporarily access the coverage account (reserve fund) for the ERBs (which has an approximate balance of \$302 million) - once in the amount of \$13.3 million on December 24, 2008, to fill up a debt service account for January 1, 2009, and once on June 24, 2009, in the amount of \$64.5 million, as required under the master indenture for the ERBs. In both instances, the coverage account was fully replenished by the end of the actual debt service period.

As reported by the state on June 25, 2009, the estimate of SSTRs for the semi-annual debt service period ending January 1, 2010, will not be sufficient to pay at least 100 percent of the estimated required semi-annual payments for the same period. Finance had estimated that SSTRs for the current period will be approximately \$566,000,000, compared to estimated requirements to pay debt service and other expenses of \$596,796,000, as estimated by the State Treasurer's Office. Actual sales tax receipts from May 2009 through August 2009 have averaged approximately 6% below the 2009-10 May Revision projections. To the extent that actual SSTRs continue to fall short of the state's May Revision revenue estimate, the shortfall will increase. The state is currently pursuing a restructuring of the ERBs to take account of the reduced levels of SSTRs by reducing annual debt service requirements, so as to restore positive coverage levels and reduce the likelihood of future draws on the coverage account. An ERB refunding bond issuance (currently expected to be approximately \$3 billion) is expected to be sold on October 29, 2009 and issued on November 5, 2009.

*Cash Flow Borrowings.* As part of its cash management program, the state has regularly issued short-term obligations to meet cash flow needs. As noted above, the State has issued RANs in 22 of the last 23 fiscal years to partially fund timing differences between receipts and disbursements, as the majority of General Fund revenues are received in the last part of the fiscal year. RANs mature prior to the end of the fiscal year of issuance. If additional external cash flow borrowings are required, the State has issued RAWs, which can mature in a subsequent fiscal year. See *Cash Management General*.

*Obligations of State Agencies.* A number of California State agencies and authorities issue obligations secured or payable from specified revenue streams. These obligations are not payable from California's General Fund and carry different ratings than the State's general obligation bonds. The California Department of Water Resources has been one of the largest issuers of revenue bonds in recent years, with \$9.0 billion of outstanding bonds secured by power and water users as of June 2009. The California Housing Finance Agency has issued approximately \$8.2 billion of bonds secured by mortgage loans made for single family and multi-family housing units as of June 2009. None of these revenue bonds is backed by the State's faith and credit or taxing power.

There are a number of other State agencies, instrumentalities and political subdivisions of the State that issue Municipal Obligations, some of which may be conduit revenue obligations payable from payments from private borrowers. These entities are subject to various economic risks and uncertainties, and the credit quality of the securities issued by them may vary considerably from the credit quality of obligations backed by the full faith and credit of California.

### General Obligation Bond Ratings

In February 2009, S&P downgraded its rating of California's general obligation bonds from an A+ to an A because of California's deteriorating fiscal condition and the protracted delay in enacting a legislative response to the budget deficit. This S&P rating denotes that the obligor has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories. In June 2009, S&P issued a warning of possibly further downgrading the A credit rating because of the State's most recent liquidity shortfall and continued economic and fiscal difficulty.

In March 2009, both Moody's and Fitch also downgraded their respective ratings of the California debt obligations from A1 to an A2 and A+ to an A. In June and July of 2009, Fitch further lowered its rating to A- and then to BBB due to the severity and size of the State's most recent fiscal challenges and persistent economic and revenue weakening. Likewise, in June 2009, Moody's warned of a possible multi-notch downgrade of the A2 credit rating of the State's general obligation bonds because of the State's cash situation and lack of action by the State legislature to correct the liquidity shortfall. In July 2009, Moody's lowered California's general obligation credit rating two steps to Baa1 from A2. Moody's rating of Baa1 denotes that the debt is in the higher end of issues of average creditworthiness relative to other US municipal or tax-exempt issues. Fitch's rating of BBB denotes that the expectations of default risk on the debt are currently low and the capacity for payment of financial commitments is considered adequate but adverse business or economic conditions are more likely to impair this capacity. As of October 2009, these ratings are the lowest credit ratings that S&P, Moody's, and Fitch have assigned to any state in the country.

In light of the State's current financial crisis, the rating agencies continue to monitor the State's economic situation and weigh further downgrades. It is not presently possible to determine whether, or the extent to which, S&P, Moody's, or Fitch will change such ratings in the future. These ratings reflect the State's credit quality only and do not indicate the creditworthiness of other tax-exempt securities in which the Fund may invest. Moreover, the creditworthiness of obligations issued by local California issuers may be unrelated to the creditworthiness of obligations issued by the State, and there is no obligation on the part of the State to make payment on such local obligations in the event of default.

### Issues Affecting Local Governments and Special Districts

The primary units of local government in California are the 58 counties, which range in population from approximately 1,200 in Alpine County to approximately 10 million in Los Angeles County. Counties are responsible for the provision of many basic services, including indigent health care, welfare, jails, and public safety in unincorporated areas. There are also 480 incorporated cities in California and thousands of special districts formed for education, utilities, and other services.

**Limitation on Property Taxes.** Certain California debt obligations may be obligations of issuers which rely in whole or in part, directly or indirectly, on *ad valorem* property taxes as a source of revenue. The taxing powers of California local governments and districts are limited by Article XIII A of the California Constitution, enacted by the voters in 1978 and commonly known as Proposition 13. Briefly, Article XIII A limits the rate of *ad valorem* property taxes to 1% of full cash value of real property and generally restricts the reassessment of property to 2% per year, except upon new construction or change of ownership (subject to a number of exemptions). Taxing entities may, however, raise *ad valorem* taxes above the 1% limit to pay debt service on voter-approved bonded indebtedness.

Under Article XIII A, the basic 1% *ad valorem* tax levy is applied against the assessed value of property as of the owner's date of acquisition (or as of March 1, 1975, if acquired earlier), subject to certain adjustments. This system has resulted in widely varying amounts of tax on similarly situated properties. Several lawsuits were filed challenging the acquisition-based assessment system of Proposition 13, but it was upheld by the U.S. Supreme Court in 1992.

Article XIII A prohibits local governments from raising revenues through *ad valorem* taxes above the 1% limit; it also requires voters of any governmental unit to give two-thirds approval to levy any special tax.

**Limitations on Other Taxes, Fees and Charges.** On November 5, 1996, the voters of the State approved Proposition 218, called the Right to Vote on Taxes Act. Proposition 218 added Articles XIII C and XIII D to the State Constitution, which contain a number of provisions affecting the ability of local agencies to levy and collect both existing and future taxes, assessments, fees and charges.

Article XIII C requires that all new or increased local taxes be submitted to the voters before they become effective. Taxes for general governmental purposes require a majority vote and taxes for specific purposes require a two-thirds vote.

Article XIII D contains several new provisions making it generally more difficult for local agencies to levy and maintain assessments for municipal services and programs. Article XIII D also contains several new provisions affecting fees and charges, defined for purposes of Article XIII D to mean any levy other than an *ad valorem* tax, a special tax, or an assessment, imposed by a local government upon a parcel or upon a person as an incident of property ownership, including a user fee or charge for a property related service. All new and existing property related fees and charges must conform to requirements prohibiting, among other things, fees and charges which generate revenues exceeding the funds required to provide the property related service or are used for unrelated purposes. There are new notice, hearing and protest procedures for levying or increasing property related fees and charges, and, except for fees or charges for sewer, water and refuse collection services (or fees for electrical and gas service, which are not treated as property related for purposes of Article XIII D), no property related fee or charge may be imposed or increased without majority approval by the property owners subject to the fee or charge or, at the option of the local agency, two-thirds voter approval by the electorate residing in the affected area.

In addition to the provisions described above, Article XIII C removes limitations on the initiative power in matters of local taxes, assessments, fees and charges. Consequently, local voters could, by future initiative, repeal, reduce or prohibit the future imposition or increase of any local tax, assessment, fee or charge. It is unclear how this right of local initiative may be used in cases where taxes or charges have been or will be specifically pledged to secure debt issues.

The interpretation and application of Proposition 218 will ultimately be determined by the courts with respect to a number of matters, and it is not possible at this time to predict with certainty the outcome of such cases.

**Appropriations Limits.** The State and its local governments are subject to an annual appropriations limit imposed by Article XIII B of the California Constitution, enacted by the voters in 1979 and significantly amended by Propositions 98 and 111 in 1988 and 1990, respectively. Article XIII B prohibits the State or any covered local government from spending appropriations subject to limitation in excess of the appropriations limit imposed. Appropriations subject to limitation are authorizations to spend proceeds of taxes, which consist of tax revenues and certain other funds, including proceeds from regulatory licenses, user charges or other fees, to the extent that such proceeds exceed the cost of providing the product or service, but proceeds of taxes exclude most State subventions to local governments. No limit is imposed on appropriations of funds which are not proceeds of taxes, such as reasonable user charges or fees, and certain other non-tax funds, including bond proceeds.

Among the expenditures not included in the Article XIII B appropriations limit are (1) the debt service cost of bonds issued or authorized prior to January 1, 1979, or subsequently authorized by the voters, (2) appropriations to comply with mandates of courts or the federal government, (3) appropriations for certain capital outlay projects, (4) appropriations by the State of post-1989 increases in gasoline taxes and vehicle weight fees, and (5) appropriations made in certain cases of emergency.

The appropriations limit for each year is adjusted annually to reflect changes in cost of living and population, and any transfers of service responsibilities between government units. The definitions for such adjustments were liberalized in 1990 to follow more closely growth in the State's economy.

Excess revenues are measured over a two year cycle. Local governments must return any excess to taxpayers by rate reductions. The State must refund 50% of any excess, with the other 50% paid to schools and community colleges. With more liberal annual adjustment factors since 1988, and depressed revenues in the early 1990's because of the recession, few governments have been operating near their spending limits, but this condition may change over time. Local governments may by voter approval exceed their spending limits for up to four years.

Because of the complex nature of Articles XIII A, XIII B, XIII C and XIII D of the California Constitution, the ambiguities and possible inconsistencies in their terms, and the impossibility of predicting future appropriations or changes in population and cost of living, and the probability of continuing legal challenges, it is not currently possible to determine fully the impact of these Articles on California debt obligations or on the ability of the State or local governments to pay debt service on such California debt obligations. It is not possible, at the present time, to predict the outcome of any pending litigation with respect to the ultimate scope, impact or constitutionality of these Articles or the impact of any such determinations upon State agencies or local governments, or upon their ability to pay debt service on their obligations. Further initiatives or legislative changes in laws or the California Constitution may also affect the ability of the State or local issuers to repay their obligations.

### **Litigation**

The State is a party to numerous legal proceedings where adverse decisions could have a material impact on state finances. Included in this litigation are the following matters, although not exhaustive of all pending matters:

### **Budget-Related Litigation**

**Actions Challenging Governor's Line-Item Vetoes.** Two cases challenge the \$489 million in line-item vetoes the Governor made to the Amended 2009-10 Budget Act: *Steinberg v. Schwarzenegger, et al.* (San Francisco County Superior Court, Case No. CPF-09-509721), and *St. John's Well Child and Family Center, et al. v. Schwarzenegger, et al.* (Court of Appeal, First Appellate District, Case No. A125750.) Both actions maintain that because the Legislature only reduced existing appropriations in the budget revision bill without making any new appropriations, the Governor was not entitled to use his line-item veto power. Both cases seek writ relief directing the State Controller to enforce the existing appropriations as reduced by the Legislature and to declare the line-item vetoes void. Briefing in the St. John's case should be complete by the end of October. The Court of Appeal gave permission to the Steinberg petitioners to intervene in the St. John's action, making it likely that the legitimacy of the vetoes will be decided in the appellate court.

**Action Regarding Proposition 98 School Funding.** In *Dart, et al. v. Schwarzenegger, et al.* (San Francisco County Superior Court, Case No. CGC-09-488173), plaintiffs contend that due to reductions in education funding in the state budget, the state is required by Proposition 98 to create a \$10 billion maintenance factor for fiscal year 2008-09, representing an amount that must be restored in future budgets for K-14

## Edgar Filing: SMALLEY GARY G. - Form 4

education funding, and asserting a declaration regarding the state's Proposition 98 obligations in future fiscal years under certain circumstances. The state is seeking dismissal of the case based in part on recently enacted legislation creating a maintenance factor for fiscal year 2008-09. Plaintiffs have requested dismissal of the action.

A-13

**Action Challenging Proposed Sale of State Compensation Insurance Fund Assets.** In *Poizner v. Genest, et al.* (Sacramento County Superior Court, Case No. 34-2009-80000310- CU-WM-GDS), the State Insurance Commissioner challenges the proposed sale of a portion of SCIF, a public enterprise providing workers' compensation insurance to California employers, asserting that the proposed sale would violate the California Constitution.

**Action Challenging Budget Bill.** In *Lord, et al. v. Schwarzenegger, et al.* (San Francisco County Superior Court, Case No. CPF-09-509770), petitioners are a correctional officer and the employee organization designated as the exclusive bargaining representative of the officer and other correctional law employees. Petitioners allege that a state budget implementation bill enacted in July 2009, A.B.X4 12, violates the California Constitution provision which requires that a statute embrace one subject expressed in its title. The bill includes budget-related changes to statutes intended to reduce state expenses and increase state revenues, including deferral of payment of state employee compensation for the month of June 2010 from June 30 to July 1, authorization to sell a portion of SCIF's assets and liabilities, and elimination of a rural health care subsidy paid to the petitioner and other state employees. Petitioners seek a declaration that the bill is unconstitutional. If petitioners are successful, this case could invalidate the entire bill.

**Action Challenging Use of Vehicle Fuel Tax Revenue.** In *Shaw, et al. v. People ex rel. Chiang, et al.* (Sacramento County Superior Court, Case No. 07CS01179), the plaintiffs challenge certain provisions of the 2007 Budget Act and related legislation. Plaintiffs assert that approximately \$1.2 billion in sales and use taxes collected on vehicle fuel were improperly appropriated to: (1) reimburse past debt service payments and to make current debt service payments on various transportation bonds; and (2) to fund various other transportation programs. The trial court concluded: (1) the \$409 million reimbursement to the General Fund from the Public Transportation Account for past debt service payments was illegal; and (2) the remaining \$779 million in challenged appropriations are lawful. On appeal, the Court of Appeal held that the entire \$1.2 billion at issue had been improperly appropriated (Court of Appeal, Third Appellate District, Case No. C058479). The California Supreme Court denied the state's petition for review (California Supreme Court, Case No. S175357). The matter has been remanded to the trial court for further proceedings consistent with the Court of Appeal's decision.

**Action Challenging Required Contribution by Redevelopment Agencies.** Petitioners in *California Redevelopment Association, et al., v. Genest, et al.* (Sacramento County Superior Court, Case No. 34-2009-80000359), challenge the constitutionality of legislation that required that local redevelopment agencies remit a total of \$1.7 billion in fiscal year 2009-10 and \$350 million in fiscal year 2010-11 to county education funds. Petitioners are asking the trial court to enjoin implementation of the legislation.

**Actions Regarding Furlough of State Employees.** In several cases, petitioners challenge the Governor's executive orders directing the furlough without pay of state employees. The first order, issued on December 19, 2008, directed furloughs for two days per month, effective February 1, 2009 through June 30, 2010. The second, issued on July 1, 2009, required a third furlough day per month, effective through June 30, 2010.

In four cases, the trial court upheld the Governor's authority to order furloughs. *Professional Engineers in California Government (PECG), et al., v. Schwarzenegger, et al.* (Sacramento County Superior Court, Case No. 34-2008-80000126-CU-WM-GDS); *California Attorneys, Administrative Law Judges and Hearing Officers in State Employment (CASE) v. Schwarzenegger, et al.* (Sacramento County Superior Court, Case No. 34-2009-80000134-CU-WM-GDS); *Service Employees International Union, Local 1000 (SEIU) v. Schwarzenegger, et al.* (Sacramento County Superior Court, Case No. 34-2009-80000135-CU-WM-GDS); and *California Correctional Peace Officers Association (CCPOA) v. Schwarzenegger, et al.* (Sacramento County Superior Court, Case No. 34-2009-80000137-CU-WM-GDS). Three of the petitioners, PECC, CASE, and SEIU, have appealed. (Court of Appeal, Third Appellate District, Case Nos. C061011, C061009, and C061020, respectively). Two pending cases involve the application of the furlough order to employees of SCIF. In *CASE v. Schwarzenegger, et al.* (San Francisco County Superior Court, Case No. CPF-09-509205), the trial court ruled that the furlough order did not apply to attorneys employed by SCIF. The state appealed (Court of Appeal, First

## Edgar Filing: SMALLEY GARY G. - Form 4

---

Appellate District, Case No. A125292). In *SEIU v. Schwarzenegger, et al.* (San Francisco County Superior Court, Case No. CPF-09-509580), plaintiff challenged the order as applied to other SCIF employees based on SCIF's governing statutes which prohibit the state from adjusting its staffing levels. The trial court ruled that the furlough order did not apply to the SCIF employees. The state is appealing this decision.

The remaining cases are pending in the trial court.

In *California Association of Psychiatric Technicians (CAPT) v. Schwarzenegger, et al.* (Sacramento County Superior Court, Case No. 34-2009-80000148-CU-WM-GDS); *CDF Firefighters v. Schwarzenegger, et al.* (Sacramento County Superior Court, Case No. 34-2009-00032732); -CU-WMGDS), and *International Union of Operating Engineers v. Schwarzenegger, et al.* (San Francisco County Superior Court, Case No. CGC-09-492675), petitioners challenge the furlough order as applied to their respective members. In *CCPOA v. Schwarzenegger, et al.* (Alameda County Superior Court, Case No. RG-09-441544), petitioner alleges that the furloughs are a de facto salary cut in violation of Government Code 19826 because their members (correctional officers) cannot take their furlough days off due to operational needs. *CASE v. Schwarzenegger, et al.* (San Francisco County Superior Court, Case No. CPF-09-509629) challenges the July 1, 2009 executive order implementing the third furlough day.

In *California Professional Public Employees Association, et al. v. Schwarzenegger, et al.* (Sacramento County Superior Court, Case No. 34-2009-80000308), petitioners allege the state is violating Labor Code Section 212 by permitting some employees to accrue furlough days.

*Walker, et al. v. Schwarzenegger, et al.* (Sacramento County Superior Court, Case No. 34-2009-80000150 CU-WM-GDS) alleges that the furlough order is invalid because it does not comply with state law requirements for promulgating regulations.

In *CASE v. Schwarzenegger, et al.* (Alameda County Superior Court, Case No. RG-09-453982); *Union of American Physicians and Dentists (UAPD) v. Schwarzenegger, et al.* (Alameda County Superior Court, Case No. RG-09-456684); *SEIU v. Schwarzenegger, et al.* (Alameda County Superior Court, Case No. RG-09-456750); *California Association of Professional Scientists (CAPS), et al. v. Schwarzenegger, et al.* (San Francisco County Superior Court, Case No. CPF-09-509695); and *International Union of Operating Engineers v. Schwarzenegger, et al.* (Los Angeles County Superior Court, Case No. BC423409), the employee organizations allege that the Governor illegally furloughed employees who are paid from special funds because the deficit stems from general fund deficiencies and therefore furloughing employees who are paid with special funds will not result in any benefit or cost. In *Board of Administration of the California Public Employees Retirement System v. Schwarzenegger* (San Francisco County Superior Court, Case No. CPF-09-509754), plaintiff alleges that the furloughs unlawfully interfere with its ability to carry out its constitutional obligation to its participants and beneficiaries.

In *California Medical Association v. Schwarzenegger, et al.* (San Francisco County Superior Court, Case No. CPF-09-509896), the plaintiff challenges the Governor's furlough orders, and asserts that the furloughs interfere with the California Medical Board's timely performance of its regulatory functions.

In a separate action, *Schwarzenegger, et al. v. Chiang, et al.* (Sacramento County Superior Court, Case No. 34-2009-80000158-CU-WM-GDS), the Governor is seeking an order to compel the State Controller to implement the reduction in wages as a result of the reduced work time (furlough) with respect to employees of other statewide elected executive branch officers, including the Lieutenant Governor, State Controller, Secretary of State, State Treasurer, Superintendent of Public Instruction, Insurance Commissioner, and Attorney General. The trial court ruled in favor of the Governor, and the State Controller, Lieutenant Governor, Secretary of State, Attorney General, State Treasurer, Superintendent of Public Instruction and State Board of Equalization have appealed (Court of Appeal, Third Appellate District, Case No. C061648).

---

**Action Challenging Issuance of Registered Warrants.** In *Baird v. Chiang, et al.* (U.S. District Court, Northern District, Case No. CV 09 3482 CW), filed as a class action on behalf of persons or entities issued registered warrants as payment upon state contracts, plaintiff asserts that the issuance of registered warrants violates the U.S. Constitution and state law. Plaintiff seeks an injunction against further issuance of registered warrants and immediate payment of outstanding warrants.

### **Prison Healthcare Reform and Reduction of Prison Population**

The adult prison health care delivery system includes medical health care, mental health care and dental health care. The annual budget for this system, which is operated by the CDCR and affects approximately 33 prisons throughout the state, exceeds \$2 billion. There are three significant cases pending in federal district courts challenging the constitutionality of prison health care. *Plata v. Schwarzenegger* (U.S. District Court, Northern District, Case No. C-01-1351 TEH) is a class action regarding the adequacy of medical health care; *Coleman v. Schwarzenegger* (U.S. District Court, Eastern District, Case No. CIV-S-90-0520 LKK JFM P) is a class action regarding mental health care; and *Perez v. Tilton* (U.S. District Court, Northern District, Case No. C 05-05241 JSW) is a class action regarding dental health care. A fourth case, *Armstrong v. Schwarzenegger* (U.S. District Court, Northern District, Case No. C 94-02307 CW) is a class action on behalf of inmates with disabilities alleging violations of the Americans with Disabilities Act and Section 504 of the Rehabilitation Act. In *Plata* the district court appointed a Receiver, who took office in April, 2006, to run and operate the medical health care portion of the health care delivery system. The *Plata* Receiver and the Special Master appointed by the *Coleman* court, joined by the court representatives appointed by the *Perez* and *Armstrong* courts, meet routinely to coordinate efforts in these cases. To date, ongoing costs of remedial activities have been incorporated into the state's budget process. However, at this time, it is unknown what financial impact this litigation would have on the state's General Fund, particularly in light of the unprecedented step of appointing a Receiver of medical health care. The Receiver has filed a motion in the *Plata* case, asking the court to hold the Governor and State Controller in contempt of court for failing to fund prison healthcare capital projects the Receiver wishes to construct and to order the state to pay \$8 billion to fund such projects. On October 27, 2008, the district court ordered the state to transfer \$250 million to the Receiver. The court indicated it would proceed later with the additional amounts requested by the Receiver. The state appealed that order and the Ninth Circuit Court of Appeals dismissed the state's appeal for lack of jurisdiction, stating that the order to pay \$250 million was an interim order in the contempt proceedings. The district court has also denied the state's motion to terminate the Receiver, and the state has appealed that order.

In *Plata* and *Coleman*, discussed above, a three-judge panel was convened to consider plaintiffs' motion for a prisoner-release order. The motions alleged that prison overcrowding was the primary cause of unconstitutional medical and mental health care. After a trial, the panel ordered the state to prepare a plan for the release of approximately 46,000 prisoners over two years. The state has filed a prisoner release plan with the three-judge panel and filed an appeal in the U.S. Supreme Court.

The specific litigation matters described above are provided as an example only and do not comprise a complete listing of material ongoing or pending litigation involving the state, its agencies, subdivisions and instrumentalities.

### **Other Considerations**

*Federal Stimulus Bill.* Congress enacted the American Recovery and Reinvestment Act in February 2009 (the ARRA), which provides approximately \$787 billion of economic stimulus actions in the form of direct payments from the federal government and tax relief to individuals and businesses nationwide. The stimulus bill provides about \$330 billion in aid to states, about \$170 billion for federal projects and non-state aid, and about \$287 billion of tax relief.

The California Recovery Task Force estimates ARRA will have an \$85.4 billion effect in California, including \$55.2 billion in state aid and an additional \$30.2 billion in tax relief. The Recovery Task Force believes

that over the 18 month course of ARRA, Californians can expect to see a \$19.5 billion investment in health and human services, \$11.8 billion investment in education, \$5.2 billion investment in labor and workforce development, and \$4.7 billion investment in transportation infrastructure. The Amended 2009 Budget Act includes an estimated \$4.9 billion of federal stimulus revenues being available to offset General Fund expenditures in the 2009-10 fiscal year.

*Major Seismic Activity.* Most of California is within an active geologic region subject to major seismic activity. In 1989 and 1994, northern California and southern California, respectively, experienced major earthquakes causing billions of dollars in damages. Any obligation in the Fund could be affected by an interruption of revenues because of damaged facilities, or, consequently, income tax deductions for casualty losses or property assessment reductions. Compensatory financial assistance could be constrained by the inability of (i) an issuer to have obtained earthquake insurance coverage rates; (ii) an insurer to perform on its contracts of insurance in the event of widespread losses; or (iii) the federal or California state government to appropriate sufficient funds within their respective budget limitations.

### **Conclusions**

It is not possible to predict how these or other economic considerations, State budgetary and fiscal conditions, legislative and voter initiatives, state constitutional amendments, and other relevant factors may affect the long-term ability of the State of California or California municipal issuers to pay interest or repay principal on their obligations. There is no assurance that any California issuer will make full or timely payments of principal or interest or remain solvent. For example, in December 1994, Orange County, California, together with its pooled investment funds, which included investment funds from other local governments, filed for bankruptcy. More recently, in May 2008, the City of Vallejo, California, filed Chapter 9 bankruptcy because its tax revenues, which dropped precipitously with housing values, could no longer cover basic city services. Los Angeles County, the nation's largest county, in the recent past has also experienced financial difficulty and its financial condition will continue to be affected by the large number of County residents who are dependent on government services and by a structural deficit in its health department. Furthermore, certain tax-exempt securities in which a Fund may invest may be obligations payable solely from the revenues of specific institutions, or may be secured by specific properties, which are subject to provisions of California law that could adversely affect the holders of such obligations. For example, the revenues of California health care institutions may be subject to State laws, and California law limits the remedies of a creditor secured by a mortgage or deed of trust on real property.

**SUBJECT TO COMPLETION DATED \_\_\_\_\_, 2010**

The information in this Statement of Additional Information is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This Statement of Additional Information is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer and sale is not permitted.

**NUVEEN CALIFORNIA DIVIDEND ADVANTAGE MUNICIPAL FUND 2**

**STATEMENT OF ADDITIONAL INFORMATION**

Nuveen California Dividend Advantage Municipal Fund 2 (the Fund ) is a diversified, closed-end management investment company.

This Statement of Additional Information relating to MuniFund Term Preferred Shares, % Series 2015 ( Series 2015 MTP Shares ) of the Fund ( MTP Shares ) does not constitute a prospectus, but should be read in conjunction with the Fund s prospectus relating thereto dated \_\_\_\_\_, 2010 (the Prospectus ). This Statement of Additional Information does not include all information that a prospective investor should consider before purchasing MTP Shares. Investors should obtain and read the Fund s Prospectus prior to purchasing such shares. A copy of the Fund s Prospectus, annual and semi-annual reports to shareholders when available, and other information about the Fund may be obtained without charge by calling (800) 257-8787, by writing to the Fund or from the Fund s website (<http://www.nuveen.com>). The information contained in, or that can be accessed through, the Fund s website is not part of the Fund s Prospectus or this Statement of Additional Information. You may also obtain a copy of the Fund s Prospectus on the Securities and Exchange Commission s website (<http://www.sec.gov>). Capitalized terms used but not defined in this Statement of Additional Information have the meanings ascribed to them in the Prospectus.

This Statement of Additional Information is dated \_\_\_\_\_, 2010.

### INVESTMENT OBJECTIVES AND POLICIES

The Fund's investment objectives are to provide current income exempt from regular federal and California income tax and to enhance portfolio value relative to the municipal bond market by investing in tax-exempt municipal bonds that the Fund's investment adviser believes are underrated or undervalued or that represent municipal market sectors that are undervalued. The Fund's investment objectives are fundamental policies of the Fund. The Fund has not established any limit on the percentage of its portfolio that may be invested in municipal securities subject to the alternative minimum tax provisions of federal tax law, and the Fund expects that a substantial portion of the income it produces will be includable in alternative minimum taxable income.

Under normal market conditions, the Fund invests its net assets in a portfolio of municipal securities that are exempt from regular federal and California income taxes. Under normal market conditions, the Fund expects to be fully invested (at least 95% of its assets) in such tax-exempt municipal securities. The Fund invests at least 80% of its net assets in municipal securities that at the time of investment are investment grade quality. Investment grade quality securities are securities rated within the four highest grades (Baa or BBB or better by Moody's, S&P or Fitch, or securities that are unrated but judged to be of comparable quality by NAM, at the time of purchase. The Fund may invest up to 20% of its net assets in municipal securities that, at the time of investment, are rated Ba/BB or B by Moody's, S&P or Fitch or that are unrated but judged to be of comparable quality by NAM. Securities of below investment grade quality are regarded as having predominately speculative characteristics with respect to capacity to pay interest and repay principal, and are commonly referred to as junk bonds. The foregoing credit quality policies apply only at the time a security is purchased, and the Fund is not required to dispose of a security in the event that a rating agency downgrades its assessment of the credit characteristics of a particular issue. In determining whether to retain or sell such a security, NAM may consider such factors as NAM's assessment of the credit quality of the issuer of such security, the price at which such security could be sold and the rating, if any, assigned to such security by other rating agencies. A general description of NRSRO (i.e., Moody's, S&P and Fitch) ratings of municipal securities is set forth in Appendix B to this Statement of Additional Information. The Fund may also invest in securities of other open- or closed-end investment companies that invest primarily in municipal bonds of the types in which the Fund may invest directly. A portion of the dividends from MTP Shares may be subject to the federal alternative minimum tax.

Underrated municipal securities are those municipal securities whose ratings do not, in NAM's opinion, reflect their true value. They may be underrated because of the time that has elapsed since their last ratings, or because rating agencies have not fully taken into account positive factors, or for other reasons. Undervalued municipal securities are those securities that, in NAM's opinion, are worth more than their market value. They may be undervalued because there is a temporary excess of supply in that particular sector (such as hospital bonds, or bonds of a particular municipal issuer). NAM may buy such a security even if the value of that security is consistent with the value of other securities in that sector. Municipal securities also may be undervalued because there has been a general decline in the market price of municipal securities for reasons that do not apply to the particular municipal securities that NAM considers undervalued. NAM believes that the prices of these municipal securities should ultimately reflect their true value.

The Fund also may invest up to 15% of its net assets in inverse floating rate securities. The economic effect of leverage through the Fund's purchase of inverse floating rate securities creates an opportunity for increased net income and returns, but also creates the possibility that the Fund's long-term returns will be diminished if the cost of leverage exceeds the return on the inverse floating rate securities purchased by the Fund.

During temporary defensive periods and in order to keep the Fund's cash fully invested, the Fund may invest up to 100% of its net assets in short-term investments including high quality, short-term securities that may be either tax exempt or taxable. The Fund intends to invest in taxable short-term investments only in the event that suitable tax-exempt short-term investments are not available at reasonable prices and yields. Investment in taxable short-term investments would result in a portion of your dividends being subject to regular federal income taxes.

The Fund cannot change its investment objectives without the approval of the holders of a majority of the outstanding shares of common shares and Preferred Stock, voting together, and of the holders of a majority of the outstanding Preferred Stock, voting separately. For this purpose, a majority of the outstanding shares means the vote of (1) 67% or more of the shares present at a meeting, if the holders of more than 50% of the shares are present or represented by proxy; or (2) more than 50% of the shares, whichever is less.

A general description of the ratings of S&P, Moody's and Fitch of municipal securities is set forth in Appendix B to this Statement of Additional Information.

A more complete description of the Fund's investment objectives and policies is set forth in the Fund's Prospectus.

### INVESTMENT RESTRICTIONS

Except as described below, the Fund, as a fundamental policy, may not, without the approval of the holders of a majority of the outstanding shares of common shares and Preferred Stock, voting together, and of the holders of a majority of the outstanding Preferred Stock, voting separately:

1. Under normal circumstances, invest less than 80% of the Fund's net assets, including assets attributable to any principal amount of borrowings (including the issuance of commercial paper or notes) or any preferred shares outstanding ( Managed Asset ) in municipal securities and other related investments, in investments the income from which is exempt from both regular federal and California income tax.
2. Issue senior securities, as defined in the Investment Company Act of 1940, other than MuniPreferred shares, except to the extent permitted under the Investment Company Act of 1940 and except as otherwise described in the prospectus;
3. Borrow money, except from banks for temporary or emergency purposes or for repurchase of its shares, and then only in an amount not exceeding one-third of the value of the Fund's total assets (including the amount borrowed) less the Fund's liabilities (other than borrowings);
4. Act as underwriter of another issuer's securities, except to the extent that the Fund may be deemed to be an underwriter within the meaning of the Securities Act of 1933 in connection with the purchase and sale of portfolio securities;
5. Invest more than 25% of its total assets in securities of issuers in any one industry; provided, however, that such limitation shall not apply to municipal bonds other than those municipal bonds backed only by the assets and revenues of non-governmental users;
6. Purchase or sell real estate, but this shall not prevent the Fund from investing in municipal bonds secured by real estate or interests therein or foreclosing upon and selling such security;
7. Purchase or sell physical commodities unless acquired as a result of ownership of securities or other instruments (but this shall not prevent the Fund from purchasing or selling options, futures contracts, derivative instruments or from investing in securities or other instruments backed by physical commodities);
8. Make loans, other than by entering into repurchase agreements and through the purchase of municipal bonds or short-term investments in accordance with its investment objectives, policies and limitations; or
9. Purchase any securities (other than obligations issued or guaranteed by the United States Government or by its agencies or instrumentalities), if as a result more than 5% of the Fund's total assets would then be invested in securities of a single issuer or if as a result the Fund would hold more than 10% of the outstanding voting securities of any single issuer; provided that, with respect to 50% of the Fund's assets, the Fund may invest up to 25% of its assets in the securities of any one issuer.

For the purpose of applying the limitation set forth in subparagraph (9) above, a governmental issuer shall be deemed the single issuer of a security when its assets and revenues are separate from other governmental entities and its securities are backed only by its assets and revenues. Similarly, in the case of a non-governmental issuer, if

the security is backed only by the assets and revenues of the non-governmental issuer, then such non-governmental issuer would be deemed to be the single issuer. Where a security is also backed by the enforceable obligation of a superior or unrelated governmental or other entity (other than a bond insurer), it shall also be included in the computation of securities owned that are issued by such governmental or other entity. Where a security is guaranteed by a governmental entity or some other facility, such as a bank guarantee or letter of credit, such a guarantee or letter of credit would be considered a separate security and would be treated as an issue of such government, other entity or bank. When a municipal security is insured by bond insurance, it shall not be considered a security that is issued or guaranteed by the insurer; instead, the issuer of such municipal security will be determined in accordance with the principles set forth above. The foregoing restrictions do not limit the percentage of the Fund's assets that may be invested in municipal securities insured by any given insurer.

Subject to certain exemptions, under the 1940 Act, the Fund may invest only up to 10% of its total assets in the aggregate in shares of other investment companies and only up to 5% of its total assets in any one investment company, provided the investment does not represent more than 3% of the voting stock of the acquired investment company at the time such shares are purchased. As a stockholder in any investment company, the Fund will bear its ratable share of that investment company's expenses, and will remain subject to payment of the Fund's management, advisory and administrative fees with respect to assets so invested. Holders of common shares of the Fund would therefore be subject to duplicative expenses to the extent the Fund invests in other investment companies. In addition, the securities of other investment companies may be leveraged and therefore will be subject to the same leverage risks described herein.

In addition to the foregoing fundamental investment policies, the Fund is also subject to the following non-fundamental restrictions and policies, which may be changed by the Board of Trustees. The Fund may not:

1. Sell securities short, unless the Fund owns or has the right to obtain securities equivalent in kind and amount to the securities sold at no added cost, and provided that transactions in options, futures contracts, options on futures contracts, or other derivative instruments are not deemed to constitute selling securities short.
2. Purchase securities of open-end or closed-end investment companies except in compliance with the Investment Company Act of 1940 or any exemptive relief obtained thereunder.
3. Enter into futures contracts or related options or forward contracts, if more than 30% of the Fund's net assets would be represented by futures contracts or more than 5% of the Fund's net assets would be committed to initial margin deposits and premiums on futures contracts and related options.
4. Purchase securities when borrowings exceed 5% of its total assets if and so long as preferred shares are outstanding.
5. Purchase securities of companies for the purpose of exercising control, except that the Fund may invest up to 5% of its net assets in tax-exempt or taxable fixed-income securities or equity securities for the purpose of acquiring control of an issuer whose municipal bonds (a) the Fund already owns and (b) have deteriorated or are expected shortly to deteriorate significantly in credit quality, provided NAM determines that such investment should enable the Fund to better maximize the value of its existing investment in such issuer.

The restrictions and other limitations set forth above will apply only at the time of purchase of securities and will not be considered violated unless an excess or deficiency occurs or exists immediately after and as a result of an acquisition of securities.

The Fund may be subject to certain restrictions imposed by either guidelines of one or more NRSROs that may issue ratings for Preferred Stock, including MTP Shares or, if issued, commercial paper or notes, or, if the Fund borrows from a lender, by the lender. These guidelines may impose asset coverage or portfolio composition requirements that are more stringent than those imposed on the Fund by the 1940 Act. If these restrictions were to apply, it is not anticipated that these covenants or guidelines would impede NAM from managing the Fund's portfolio in accordance with the Fund's investment objectives and policies. A copy of the current Rating Agency Guidelines will be provided to any holder of MTP Shares promptly upon request therefor made by such holder to the Fund by writing the Fund at 333 West Wacker Dr., Chicago, Illinois 60606.

---

## PORTFOLIO COMPOSITION

In addition to and supplementing the Prospectus, the Fund's portfolio will be composed principally of the investments described below.

The term "municipal securities" includes municipal securities with relatively short-term maturities. Some of these short-term securities may be variable or floating rate securities. The Fund, however, emphasizes investments in municipal securities with long- or intermediate-term maturities. The Fund buys municipal securities with different maturities and intends to maintain an average portfolio maturity of 15 to 30 years, although this may be shortened depending on market conditions. As a result, the Fund's portfolio may include long-term and intermediate-term municipal securities. If the long-term municipal bond market is unstable, the Fund may temporarily invest up to 100% of its assets in temporary investments. Temporary investments are high quality, generally uninsured, short-term municipal securities that may either be tax-exempt or taxable. The Fund will buy taxable temporary investments only if suitable tax-exempt temporary investments are not available at reasonable prices and yields. The Fund will invest only in taxable temporary securities that are U.S. Government securities or corporate debt securities rated within the highest grade by Moody's or S&P, and that mature within one year from the date of purchase or carry a variable or floating rate of interest. The Fund's policies on securities ratings only apply when the Fund buys a security, and the Fund is not required to sell securities that have been downgraded. See Appendix B to this Statement of Additional Information for a description of securities ratings. The Fund also may invest in taxable temporary investments that are certificates of deposit from U.S. banks with assets of at least \$1 billion, or repurchase agreements. The Fund intends to allocate taxable income on temporary investments, if any, proportionately between common shares and Preferred Stock, based on the percentage of total dividends distributed to each class for that year.

### MUNICIPAL SECURITIES

Included within the general category of municipal securities described in the Prospectus are participations in lease obligations or installment purchase contract obligations (hereinafter collectively called "Municipal Lease Obligations") of municipal authorities or entities. Although Municipal Lease Obligations do not constitute general obligations of the municipality for which the municipality's taxing power is pledged, a Municipal Lease Obligation is ordinarily backed by the municipality's covenant to budget for, appropriate and make the payments due under the Municipal Lease Obligation. However, certain Municipal Lease Obligations contain "non-appropriation" clauses which provide that the municipality has no obligation to make lease or installment purchase payments in future years unless money is appropriated for such purpose on a yearly basis. In the case of a "non-appropriation" lease, the Fund's ability to recover under the lease in the event of non-appropriation or default will be limited solely to the repossession of the leased property, without recourse to the general credit of the lessee, and disposition or releasing of the property might prove difficult. The Fund seeks to minimize these risks by only investing in those "non-appropriation" Municipal Lease Obligations where (a) the nature of the leased equipment or property is such that its ownership or use is essential to a governmental function of the municipality, (b) the lease payments will commence amortization of principal at an early date that results in an average life of seven years or less for the Municipal Lease Obligation, (c) appropriate covenants will be obtained from the municipal obligor prohibiting the substitution or purchase of similar equipment if lease payments are not appropriated, (d) the lease obligor has maintained good market acceptability in the past, (e) the investment is of a size that will be attractive to institutional investors and (f) the underlying leased equipment has elements of portability or use, or both, that enhance its marketability in the event foreclosure on the underlying equipment were ever required.

Certain municipal securities may carry variable or floating rates of interest whereby the rate of interest is not fixed but varies with changes in specified market rates or indexes, such as a bank prime rate or a tax-exempt money market index. As used in the Prospectus and in this Statement of Additional Information, the term "municipal securities" also includes obligations, such as tax-exempt notes, municipal commercial paper and Municipal Lease Obligations, having relatively short-term maturities, although the Fund emphasizes investments in municipal securities with long-term maturities.

Obligations of issuers of municipal securities are subject to the provisions of bankruptcy, insolvency and other laws affecting the rights and remedies of creditors, such as the Bankruptcy Reform Act of 1978, as amended. In addition, Congress, state legislatures or referenda may in the future enact laws affecting the obligations of these issuers by extending the time for payment of principal or interest, or both, or imposing other constraints upon enforcement of such obligations or upon municipalities to levy taxes. There is also the possibility that, as a result of legislation or other conditions, the power or ability of any issuer to pay, when due, the principal of and interest on its Municipal Obligations may be materially affected.

The Fund has no intention to file a voluntary application for relief under Federal bankruptcy law or any similar application under state law for so long as the Fund is solvent and does not foresee becoming insolvent.

#### **FINANCIAL FUTURES AND OPTIONS TRANSACTIONS**

The Fund may invest in derivative instruments in pursuit of its investment objectives. Such instruments include financial futures contracts, swap contracts (including interest rate and credit default swaps), options on financial futures, options on swap contracts, or other derivative instruments. NAM uses derivatives to seek to enhance return, to hedge some of the risks of its investments in fixed income securities or as a substitute for a position in the underlying asset. The Fund may attempt to hedge all or a portion of its investment portfolio against market risk by engaging in transactions in financial futures contracts, options on financial futures or options that either are based on an index of long-term municipal securities (i.e., those with remaining maturities averaging 20-30 years) or relate to debt securities whose prices NAM anticipates to correlate with the prices of the municipal securities the Fund owns. To accomplish such hedging, the Fund may take an investment position in a futures contract or in an option which is expected to move in the opposite direction from the position being hedged. Hedging may be utilized to reduce the risk that the value of securities the Fund owns may decline on account of an increase in interest rates and to hedge against increases in the cost of the securities the Fund intends to purchase as a result of a decline in interest rates. The use of futures and options for hedging purposes can be expected to result in taxable income or gain. The Fund currently intends to allocate any taxable income or gain proportionately between its Common Shares and its Preferred Stock. See Tax Matters.

The sale of financial futures or the purchase of put options on financial futures or on debt securities or indexes is a means of hedging against the risk of rising interest rates, whereas the purchase of financial futures or of call options on financial futures or on debt securities or indexes is a means of hedging the Fund's portfolio against an increase in the price of securities such Fund intends to purchase. Writing a call option on a futures contract or on debt securities or indexes may serve as a hedge against a modest decline in prices of municipal securities held in the Fund's portfolio, and writing a put option on a futures contract or on debt securities or indexes may serve as a partial hedge against an increase in the value of municipal securities the Fund intends to acquire. The writing of these options provides a hedge to the extent of the premium received in the writing transaction.

The Fund will not purchase futures unless it has segregated or earmarked cash, government securities or high grade liquid debt equal to the contract price of the futures less any margin on deposit, or unless the purchase of a put option covers the long futures position. The Fund will not sell futures unless the Fund owns the instruments underlying the futures or owns options on such instruments or owns a portfolio whose market price may be expected to move in tandem with the market price of the instruments or index underlying the futures. If the Fund engages in transactions involving the purchase or writing of put and call options on debt securities or indexes, the Fund will not purchase these options if more than 5% of its assets would be invested in the premiums for these options and it will only write covered or secured options, where the Fund holds the securities or cash required to be delivered upon exercise, with such cash being maintained in a segregated account. These requirements and limitations may limit the Fund's ability to engage in hedging transactions. So long as any Rating Agency is rating the Fund's Preferred Stock, the Fund will only engage in futures or options transactions in accordance with the then-current guidelines of such rating agencies, and only after it has received

written confirmation from Moody's and S&P, as appropriate, that these transactions would not impair the ratings then assigned by Moody's and S&P to such shares.

*Description of Financial Futures and Options.* A futures contract is a contract between a seller and a buyer for the sale and purchase of specified property at a specified future date for a specified price. An option is a contract that gives the holder of the option the right, but not the obligation, to buy (in the case of a call option) specified property from, or to sell (in the case of a put option) specified property to, the writer of the option for a specified price during a specified period prior to the option's expiration. Financial futures contracts and options cover specified debt securities (such as U.S. Treasury securities) or indexes designed to correlate with price movements in certain categories of debt securities. At least one exchange trades futures contracts on an index designed to correlate with the long-term municipal bond market. Financial futures contracts and options on financial futures contracts are traded on exchanges regulated by the CFTC. Options on certain financial instruments and financial indexes are traded on securities markets regulated by the SEC. Although futures contracts and options on specified financial instruments call for settlement by delivery of the financial instruments covered by the contracts, in most cases positions in these contracts are closed out in cash by entering into offsetting liquidating or closing transactions. Index futures and options are designed for cash settlement only.

*Risks of Futures and Options Transactions.* There are certain risks associated with the use of financial futures and options to hedge investment portfolios. There may be an imperfect correlation between price movements of the futures and options and price movements of the portfolio securities being hedged. Losses may be incurred in hedging transactions, which could reduce the portfolio gains that might have been realized if the hedging transactions had not been entered into. The ability to close out positions in futures and options depends upon the existence of a liquid secondary market, which may not exist for all futures and options at all times. If the Fund engages in futures transactions or in the writing of options on futures, it will be required to maintain initial margin and maintenance margin and may be required to make daily variation margin payments in accordance with applicable rules of the exchanges and the CFTC. If the Fund purchases a financial futures contract or a call option or writes a put option in order to hedge the anticipated purchase of municipal securities, and if the Fund fails to complete the anticipated purchase transaction, the Fund may have a loss or a gain on the futures or options transaction that will not be offset by price movements in the municipal securities that were the subject of the anticipatory hedge. The cost of put options on debt securities or indexes effectively increases the cost of the securities subject to them, thereby reducing the yield otherwise available from these securities. If the Fund decides to use futures contracts or options on futures contracts for hedging purposes, the Fund will be required to establish an account for such purposes with one or more CFTC-registered futures commission merchants. A futures commission merchant could establish initial and maintenance margin requirements for the Fund that are greater than those which would otherwise apply to the Fund under applicable rules of the exchanges and the CFTC.

*Repurchase Agreements.* The Fund may buy repurchase agreements as temporary investments. A repurchase agreement is a contract in which the seller of securities (U.S. government securities or municipal bonds) agrees to repurchase the same securities from the buyer at a specified price on a future date. The repurchase price determines the yield during the Fund's holding period. Repurchase agreements are considered to be loans whose collateral is the underlying security that is the subject of the repurchase agreement. Income from repurchase agreements is taxable and required to be allocated between common shares and Preferred Stock. See Tax Matters. The Fund will enter into repurchase agreements only with registered securities dealers or domestic banks that, in NAM's opinion, present minimal credit risks. The risk to the Fund is limited to the ability of the other party to pay the agreed-upon repurchase price on the delivery date; however, although the value of the underlying collateral at the time of the transaction always equals or exceeds the repurchase price, if the value of the collateral declines there is a risk of loss of principal and interest. If the other party defaults, the collateral may be sold, but the Fund may lose money if the value of the collateral declines and may have to pay the costs of the sale or experience delays in selling the collateral. If the seller files for bankruptcy, the Fund may not be able to sell the collateral quickly or at all. NAM will monitor the value of the collateral at the time the Fund enters into a

repurchase agreement and during the term of the repurchase agreement to determine that at all times that value of the collateral equals or exceeds the repurchase price. If the value of the collateral is less than the repurchase price, NAM will demand additional collateral from the other party to increase the value of the collateral to at least the redemption price plus interest.

## SEGREGATION OF ASSETS

As a closed-end investment company registered with the Securities and Exchange Commission, the Fund is subject to the federal securities laws, including the 1940 Act, the rules thereunder, and various interpretive provisions of the Securities and Exchange Commission and its staff. In accordance with these laws, rules and positions, the Fund must set aside (often referred to as asset segregation) liquid assets, or engage in other Securities and Exchange Commission or staff-approved measures, to cover open positions with respect to certain kinds of derivatives instruments. In the case of forward currency contracts that are not contractually required to cash settle, for example, the Fund must set aside liquid assets equal to such contracts' full notional value while the positions are open. With respect to forward currency contracts that are contractually required to cash settle, however, the Fund is permitted to set aside liquid assets in an amount equal to the Fund's daily marked-to-market net obligations (*i.e.*, the Fund's daily net liability) under the contracts, if any, rather than such contracts' full notional value. The Fund reserves the right to modify its asset segregation policies in the future to comply with any changes in the positions from time to time articulated by the Securities and Exchange Commission or its staff regarding asset segregation.

The Fund generally will use its assets to cover its obligations as required by the 1940 Act, the rules thereunder, and applicable positions of the Securities and Exchange Commission and its staff. As a result of their segregation, such assets may not be used for other operational purposes. NAM will monitor the Fund's use of derivatives and will take action as necessary for the purpose of complying with the asset segregation policy stated above. Such actions may include the sale of the Fund's portfolio investments.

The Fund may invest in inverse floating rate securities issued by special purpose trusts. With respect to such investments, the Fund will segregate or earmark assets in an amount equal to at least 100% of the face amount of the floating rate securities issued by such trust.

## SHORT-TERM INVESTMENTS

*Short-Term Taxable Fixed Income Securities.* For temporary defensive purposes or to keep cash on hand fully invested, the Fund may invest up to 100% of its net assets in cash equivalents and short-term taxable fixed-income securities, although the Fund intends to invest in taxable short-term investments only in the event that suitable tax-exempt short-term investments are not available at reasonable prices and yields. Short-term taxable fixed income investments are defined to include, without limitation, the following:

(1) U.S. government securities, including bills, notes and bonds differing as to maturity and rates of interest that are either issued or guaranteed by the U.S. Treasury or by U.S. government agencies or instrumentalities. U.S. government agency securities include securities issued by (a) the Federal Housing Administration, Farmers Home Administration, Export-Import Bank of the United States, Small Business Administration, and the Government National Mortgage Association, whose securities are supported by the full faith and credit of the United States; (b) the Federal Home Loan Banks, Federal Intermediate Credit Banks, and the Tennessee Valley Authority, whose securities are supported by the right of the agency to borrow from the U.S. Treasury; (c) the Federal National Mortgage Association, whose securities are supported by the discretionary authority of the U.S. government to purchase certain obligations of the agency or instrumentality; and (d) the Student Loan Marketing Association, whose securities are supported only by its credit. While the U.S. government provides financial support to such U.S. government-sponsored agencies or instrumentalities, no assurance can be given that it always will do so since it is not so obligated by law. The U.S. government, its agencies, and instrumentalities do not guarantee the market value of their securities. Consequently, the value of such securities may fluctuate.

(2) Certificates of Deposit issued against funds deposited in a bank or a savings and loan association. Such certificates are for a definite period of time, earn a specified rate of return, and are normally negotiable. The issuer of a certificate of deposit agrees to pay the amount deposited plus interest to the bearer of the certificate on the date specified thereon. Under current Federal Deposit Insurance Company regulations, the maximum insurance payable as to any one certificate of deposit is \$250,000; therefore, certificates of deposit purchased by the Fund may not be fully insured.

(3) Repurchase agreements, which involve purchases of debt securities. At the time the Fund purchases securities pursuant to a repurchase agreement, it simultaneously agrees to resell and redeliver such securities to the seller, who also simultaneously agrees to buy back the securities at a fixed price and time. This assures a predetermined yield for the Fund during its holding period, since the resale price is always greater than the purchase price and reflects an agreed-upon market rate. Such actions afford an opportunity for the Fund to invest temporarily available cash. The Fund may enter into repurchase agreements only with respect to obligations of the U.S. government, its agencies or instrumentalities; certificates of deposit; or bankers' acceptances in which the Fund may invest. Repurchase agreements may be considered loans to the seller, collateralized by the underlying securities. The risk to the Fund is limited to the ability of the seller to pay the agreed-upon sum on the repurchase date; in the event of default, the repurchase agreement provides that the Fund is entitled to sell the underlying collateral. If the value of the collateral declines after the agreement is entered into, and if the seller defaults under a repurchase agreement when the value of the underlying collateral is less than the repurchase price, the Fund could incur a loss of both principal and interest. NAM monitors the value of the collateral at the time the action is entered into and at all times during the term of the repurchase agreement. NAM does so in an effort to determine that the value of the collateral always equals or exceeds the agreed-upon repurchase price to be paid to the Fund. If the seller were to be subject to a federal bankruptcy proceeding, the ability of the Fund to liquidate the collateral could be delayed or impaired because of certain provisions of the bankruptcy laws.

(4) Commercial paper, which consists of short-term unsecured promissory notes, including variable rate master demand notes issued by corporations to finance their current operations. Master demand notes are direct lending arrangements between the Fund and a corporation. There is no secondary market for such notes. However, they are redeemable by the Fund at any time. NAM will consider the financial condition of the corporation (e.g., earning power, cash flow, and other liquidity measures) and will continuously monitor the corporation's ability to meet all of its financial obligations, because the Fund's liquidity might be impaired if the corporation were unable to pay principal and interest on demand. Investments in commercial paper will be limited to commercial paper rated in the highest categories by a major rating agency and which mature within one year of the date of purchase or carry a variable or floating rate of interest.

*Short-Term Tax-Exempt Municipal Securities.* Short-term tax-exempt municipal securities are securities that are exempt from regular federal income tax and mature within three years or less from the date of issuance. Short-term tax-exempt municipal income securities are defined to include, without limitation, the following:

Bond Anticipation Notes ( BANs ) are usually general obligations of state and local governmental issuers which are sold to obtain interim financing for projects that will eventually be funded through the sale of long-term debt obligations or bonds. The ability of an issuer to meet its obligations on its BANs is primarily dependent on the issuer's access to the long-term municipal bond market and the likelihood that the proceeds of such bond sales will be used to pay the principal and interest on the BANs.

Tax Anticipation Notes ( TANs ) are issued by state and local governments to finance the current operations of such governments. Repayment is generally to be derived from specific future tax revenues. TANs are usually general obligations of the issuer. A weakness in an issuer's capacity to raise taxes due to, among other things, a decline in its tax base or a rise in delinquencies, could adversely affect the issuer's ability to meet its obligations on outstanding TANs.

Revenue Anticipation Notes ( RANs ) are issued by governments or governmental bodies with the expectation that future revenues from a designated source will be used to repay the notes. In general, they also

constitute general obligations of the issuer. A decline in the receipt of projected revenues, such as anticipated revenues from another level of government, could adversely affect an issuer's ability to meet its obligations on outstanding RANs. In addition, the possibility that the revenues would, when received, be used to meet other obligations could affect the ability of the issuer to pay the principal and interest on RANs.

Construction Loan Notes are issued to provide construction financing for specific projects. Frequently, these notes are redeemed with funds obtained from the Federal Housing Administration.

Bank Notes are notes issued by local government bodies and agencies, such as those described above to commercial banks as evidence of borrowings. The purposes for which the notes are issued are varied but they are frequently issued to meet short-term working capital or capital-project needs. These notes may have risks similar to the risks associated with TANs and RANs.

Tax-Exempt Commercial Paper ( Municipal Paper ) represent very short-term unsecured, negotiable promissory notes issued by states, municipalities and their agencies. Payment of principal and interest on issues of municipal paper may be made from various sources, to the extent the funds are available therefrom. Maturities of municipal paper generally will be shorter than the maturities of TANs, BANs or RANs. There is a limited secondary market for issues of Municipal Paper.

Certain municipal securities may carry variable or floating rates of interest whereby the rate of interest is not fixed but varies with changes in specified market rates or indices, such as a bank prime rate or a tax-exempt money market index.

While the various types of notes described above as a group represent the major portion of the short-term tax-exempt note market, other types of notes are available in the marketplace and the Fund may invest in such other types of notes to the extent permitted under its investment objectives, policies and limitations. Such notes may be issued for different purposes and may be secured differently from those mentioned above.

## **ILLIQUID SECURITIES**

The Fund may invest in municipal securities and other instruments that, at the time of investment, are illiquid (*i.e.*, securities that are not readily marketable). For this purpose, illiquid securities may include, but are not limited to, restricted securities (securities the disposition of which is restricted under the federal securities laws), securities that may only be resold pursuant to Rule 144A under the Securities Act that are deemed to be illiquid, and certain repurchase agreements. The Board of Trustees or its delegate has the ultimate authority to determine which securities are liquid or illiquid. The Board of Trustees has delegated to NAM the day-to-day determination of the illiquidity of any security held by the Fund, although it has retained oversight and ultimate responsibility for such determinations. No definitive liquidity criteria are used. The Board of Trustees has directed NAM when making liquidity determinations to look for such factors as (i) the nature of the market for a security (including the institutional private resale market; the frequency of trades and quotes for the security; the number of dealers willing to purchase or sell the security; the amount of time normally needed to dispose of the security; and the method of soliciting offers and the mechanics of transfer), (ii) the terms of certain securities or other instruments allowing for the disposition to a third party or the issuer thereof (e.g., certain repurchase obligations and demand instruments), and (iii) other relevant factors. The assets used to cover OTC derivatives used by the Fund will be considered illiquid until the OTC derivatives are sold to qualified dealers who agree that the Fund may repurchase them at a maximum price to be calculated by a formula set forth in an agreement. The cover for an OTC derivative subject to this procedure would be considered illiquid only to the extent that the maximum repurchase price under the formula exceeds the intrinsic value of the derivative.

Restricted securities may be sold only in privately negotiated transactions or in a public offering with respect to which a registration statement is in effect under the Securities Act. Where registration is required, the Fund may be obligated to pay all or part of the registration expenses and a considerable period may elapse between the time of the

decision to sell and the time the Fund may be permitted to sell a security under an effective registration statement. If, during such a period, adverse market conditions were to develop, the Fund might obtain a less favorable price than that which prevailed when it decided to sell. Illiquid securities will be priced at fair value as determined in good faith by the Board of Trustees or its delegatee. If, through the appreciation of illiquid securities or the depreciation of liquid securities, the Fund should be in a position where more than 15% of the value of its net assets is invested in illiquid securities, including restricted securities that are not readily marketable, the Fund will take such steps as are deemed advisable by NAM, if any, to protect liquidity.

#### **INVERSE FLOATING RATE SECURITIES AND FLOATING RATE SECURITIES**

*Inverse Floating Rate Securities.* Inverse floating rate securities (sometimes referred to as inverse floaters) are securities whose interest rates bear an inverse relationship to the interest rate on another security or the value of an index. Generally, inverse floating rate securities represent beneficial interests in a special purpose trust formed by a third party sponsor for the purpose of holding municipal bonds. The special purpose trust typically sells two classes of beneficial interests or securities: floating rate securities (sometimes referred to as short-term floaters or tender option bonds) and inverse floating rate securities (sometimes referred to as inverse floaters or residual interest securities). Both classes of beneficial interests are represented by certificates. The short-term floating rate securities have first priority on the cash flow from the municipal bonds held by the special purpose trust. Typically, a third party, such as a bank, broker-dealer or other financial institution, grants the floating rate security holders the option, at periodic intervals, to tender their securities to the institution and receive the face value thereof. As consideration for providing the option, the financial institution receives periodic fees. The holder of the short-term floater effectively holds a demand obligation that bears interest at the prevailing short-term, tax-exempt rate. However, the institution granting the tender option will not be obligated to accept tendered short-term floaters in the event of certain defaults or a significant downgrade in the credit rating assigned to the bond issuer. For its inverse floating rate investment, the Fund receives the residual cash flow from the special purpose trust. Because the holder of the short-term floater is generally assured liquidity at the face value of the security, the Fund as the holder of the inverse floater assumes the interest rate cash flow risk and the market value risk associated with the municipal bond deposited into the special purpose trust. The volatility of the interest cash flow and the residual market value will vary with the degree to which the trust is leveraged. This is expressed in the ratio of the face value of the short-term floaters in relation to the inverse floaters that are issued by the special purpose trust. The Fund expects to make limited investments in inverse floaters, with leverage ratios that may vary between one and three times. However, the Fund is permitted to invest in highly leveraged inverse floating rate securities. In addition, all voting rights and decisions to be made with respect to any other rights relating to the municipal bonds held in the special purpose trust are passed through to the Fund, as the holder of the residual inverse floating rate securities.

Because increases in either the interest rate on the securities or the value of indexes (with which inverse floaters maintain their inverse relationship) reduce the residual interest paid on inverse floaters, inverse floaters' value is generally more volatile than that of fixed rate bonds. The market price of inverse floating rate securities is more volatile than the underlying securities due to leverage. These securities generally will underperform the market of fixed rate bonds in a rising interest rate environment, but tend to outperform the market of fixed rate bonds when interest rates decline or remain relatively stable. Although volatile, inverse floaters typically offer the potential for yields exceeding the yields available on fixed rate bonds with comparable credit quality, coupon, call provisions and maturity.

Inverse floaters have varying degrees of liquidity based upon, among other things, the liquidity of the underlying securities deposited in a special purpose trust. The Fund may invest in inverse floating rate securities issued by special purpose trusts that have recourse to the Fund. In NAM's discretion, the Fund may enter into a separate shortfall and forbearance agreement with the third party sponsor of a special purpose trust. The Fund may enter into such recourse agreements (i) when the liquidity provider to the special purpose trust requires such an agreement because the level of leverage in the trust exceeds the level that the liquidity provider is willing to support absent such an agreement; and/or (ii) to seek to prevent the liquidity provider from collapsing the trust in the event that the municipal obligation held in the trust has declined in value. Such an agreement would require

the Fund to reimburse the third party sponsor of such inverse floater, upon termination of the trust issuing the inverse floater, the difference between the liquidation value of the bonds held in the trust and the principal amount due to the holders of floating rate interests. Such agreements may expose the Fund to a risk of loss that exceeds its investment in the inverse floating rate securities. Absent a shortfall and forbearance agreement, the Fund would not be required to make such a reimbursement. If the Fund chooses not to enter into such an agreement, the special purpose trust could be liquidated and the Fund could incur a loss.

The Fund will segregate or earmark liquid assets with its custodian in accordance with the 1940 Act to cover its obligations with respect to its investments in special purpose trusts. See also *Segregation of Assets* in the Statement of Additional Information.

*Floating Rate Securities.* The Fund may also invest in floating rate securities, as described above, issued by special purpose trusts. Floating rate securities may take the form of short-term floating rate securities or the option period may be substantially longer. Generally, the interest rate earned will be based upon the market rates for municipal securities with maturities or remarketing provisions that are comparable in duration to the periodic interval of the tender option, which may vary from weekly, to monthly, to extended periods of one year or multiple years. Since the option feature has a shorter term than the final maturity or first call date of the underlying bond deposited in the trust, the Fund as the holder of the floating rate security relies upon the terms of the agreement with the financial institution furnishing the option as well as the credit strength of that institution. As further assurance of liquidity, the terms of the trust provide for a liquidation of the municipal security deposited in the trust and the application of the proceeds to pay off the floating rate security. The trusts that are organized to issue both short-term floating rate securities and inverse floaters generally include liquidation triggers to protect the investor in the floating rate security.

#### **AUCTION RATE SECURITIES**

Municipal securities also include auction rate municipal securities and auction rate preferred securities issued by closed-end investment companies that invest primarily in municipal securities (collectively, *auction rate securities* ). In recent market environments, auction failures have been widespread, which has adversely affected the liquidity and price of auction rate securities. Provided that the auction mechanism is successful, auction rate securities usually permit the holder to sell the securities in an auction at par value at specified intervals. The dividend is reset by *Dutch* auction in which bids are made by broker-dealers and other institutions for a certain amount of securities at a specified minimum yield. The dividend rate set by the auction is the lowest interest or dividend rate that covers all securities offered for sale. While this process is designed to permit auction rate securities to be traded at par value, there is a risk that an auction will fail due to insufficient demand for the securities. Moreover, between auctions, there may be no secondary market for these securities, and sales conducted on a secondary market may not be on terms favorable to the seller. Thus, with respect to liquidity and price stability, auction rate securities may differ substantially from cash equivalents, notwithstanding the frequency of auctions and the credit quality of the security. The Fund's investments in auction rate securities of closed-end funds are subject to the limitations prescribed by the 1940 Act. The Fund will indirectly bear its proportionate share of any management and other fees paid by such closed-end funds in addition to the advisory fees payable directly by the Fund.

#### **WHEN-ISSUED AND DELAYED DELIVERY TRANSACTIONS**

The Fund may buy and sell municipal securities on a when-issued or delayed delivery basis, making payment or taking delivery at a later date, normally within 15 to 45 days of the trade date. On such transactions, the payment obligation and the interest rate are fixed at the time the purchaser enters into the commitment. Beginning on the date the Fund enters into a commitment to purchase securities on a when-issued or delayed delivery basis, the Fund is required under the rules of the Securities and Exchange Commission to maintain in a separate account liquid assets, consisting of cash, cash equivalents or liquid securities having a market value at all times of at least equal to the amount of any delayed payment commitment. Income generated by any such

assets which provide taxable income for federal income tax purposes is includable in the taxable income of the Fund and, to the extent distributed, will be taxable distributions to shareholders. The Fund may enter into contracts to purchase securities on a forward basis (*i.e.*, where settlement will occur more than 60 days from the date of the transaction) only to the extent that the Fund specifically collateralizes such obligations with a security that is expected to be called or mature within 60 days before or after the settlement date of the forward transaction. The commitment to purchase securities on a when-issued, delayed delivery or forward basis may involve an element of risk because no interest accrues on the bonds prior to settlement and at the time of delivery the market value may be less than their cost.

## **OTHER INVESTMENTS**

*Zero Coupon Securities.* The Fund's investments in debt securities may be in the form of a zero coupon bond. Zero coupon bonds are debt obligations that do not entitle the holder to any periodic payments of interest for the entire life of the obligation. When held to its maturity, its return comes from the difference between the purchase price and its maturity value. These instruments are typically issued and traded at a deep discount from their face amounts. The amount of the discount varies depending on such factors as the time remaining until maturity of the securities, prevailing interest rates, the liquidity of the security and the perceived credit quality of the issuer. The market prices of zero coupon bonds generally are more volatile than the market prices of debt instruments that pay interest currently and in cash and are likely to respond to changes in interest rates to a greater degree than do other types of securities having similar maturities and credit quality. In order to satisfy a requirement for qualification to be taxed as a regulated investment company under the Code (as defined under Tax Matters ), an investment company, such as the Fund, must distribute each year at least 90% of its investment company taxable income (as described under Tax Matters ), including the original issue discount accrued on zero coupon bonds. Because the Fund will not on a current basis receive cash payments from the issuer of these securities in respect of any accrued original issue discount, in some years the Fund may have to distribute cash obtained from selling other portfolio holdings of the Fund in order to avoid unfavorable tax consequences. In some circumstances, such sales might be necessary in order to satisfy cash distribution requirements to the Fund's shareholders even though investment considerations might otherwise make it undesirable for the Fund to sell securities at such time. Under many market conditions, investments in zero coupon bonds may be illiquid, making it difficult for the Fund to dispose of them or determine their current value.

*Structured Notes.* The Fund may utilize structured notes and similar instruments for investment purposes and also for hedging purposes. Structured notes are privately negotiated debt obligations where the principal and/or interest is determined by reference to the performance of a benchmark asset, market or interest rate (an embedded index ), such as selected securities, an index of securities or specified interest rates, or the differential performance of two assets or markets. The terms of such structured instruments normally provide that their principal and/or interest payments are to be adjusted upwards or downwards (but not ordinarily below zero) to reflect changes in the embedded index while the structured instruments are outstanding. As a result, the interest and/or principal payments that may be made on a structured product may vary widely, depending upon a variety of factors, including the volatility of the embedded index and the effect of changes in the embedded index on principal and/or interest payments. The rate of return on structured notes may be determined by applying a multiplier to the performance or differential performance of the referenced index or indices or other assets. Application of a multiplier involves leverage that will serve to magnify the potential for gain and the risk of loss. These types of investments may generate taxable income.

## **OTHER INVESTMENT COMPANIES**

The Fund may invest in securities of other open- or closed-end investment companies (including ETFs) that invest primarily in municipal securities of the types in which the Fund may invest directly. The Fund generally expects that it may invest in other investment companies either during periods when it has large amounts of uninvested cash, or during periods when there is a shortage of attractive municipal securities available in the

market. The Fund may invest in investment companies that are advised by NAM or its affiliates to the extent permitted by applicable law and/or pursuant to exemptive relief from the Securities and Exchange Commission. As a shareholder in an investment company, the Fund will bear its ratable share of that investment company's expenses, and would remain subject to payment of the Fund's advisory and administrative fees with respect to assets so invested. Fund common shareholders would therefore be subject to duplicative expenses to the extent the Fund invested in other investment companies.

NAM will take expenses into account when evaluating the investment merits of an investment in the investment company relative to available municipal security instruments. In addition, because the securities of other investment companies may be leveraged and subject to the same leverage risk, the Fund may indirectly be subject to those risks described in the Fund's Prospectus. Market value will tend to fluctuate more than the yield generated by unleveraged shares.

#### **PORTFOLIO TURNOVER**

The Fund may buy and sell municipal securities to accomplish its investment objective(s) in relation to actual and anticipated changes in interest rates. The Fund also may sell one municipal bond and buy another of comparable quality at about the same time to take advantage of what NAM believes to be a temporary price disparity between the two bonds that may result from imbalanced supply and demand. The Fund also may engage in a limited amount of short-term trading, consistent with its investment objectives. The Fund may sell securities in anticipation of a market decline (a rise in interest rates) or buy securities in anticipation of a market rise (a decline in interest rates) and later sell them, but the Fund will not engage in trading solely to recognize a gain. The Fund will attempt to achieve its investment objectives by prudently selecting municipal securities with a view to holding them for investment. Although the Fund cannot accurately predict its annual portfolio turnover rate, the Fund expects, though it cannot guarantee, that its annual portfolio turnover rate generally will not exceed 100% under normal circumstances. For the fiscal period ended February 28, 2009, the Fund's portfolio turnover rate was 7%. There are no limits on the rate of portfolio turnover, and investments may be sold without regard to length of time held when investment considerations warrant such action. A higher portfolio turnover rate results in correspondingly greater brokerage commissions and other transactional expenses that are borne by the Fund. In addition, high portfolio turnover may result in the realization of net short-term capital gains by the Fund which, when distributed to shareholders, will be taxable as ordinary income.

**MANAGEMENT OF THE FUND**

**TRUSTEES AND OFFICERS**

The management of the Fund, including general supervision of the duties performed for the Fund under the investment management agreement with NAM ( the management agreement ), is the responsibility of the Board of Trustees of the Fund. The number of trustees of the Fund is nine, one of whom is an interested person (as the term interested person is defined in the 1940 Act) and eight of whom are not interested persons (referred to herein as independent trustees ). None of the independent trustees has ever been a director, trustee or employee of, or consultant to, Nuveen Investments, NAM or their affiliates. The Board of Trustees is divided into three classes, Class I, Class II and Class III, the Class I trustees serving until the 2010 annual meeting, the Class II trustees serving until the 2011 annual meeting and the Class III trustees serving until the 2012 annual meeting, in each case until their respective successors are elected and qualified, as described below. Currently, Judith M. Stockdale and Carole E. Stone are slated in Class I, John P. Amboian, David J. Kundert and Terence J. Toth are slated in Class II and Robert P. Bremner and Jack B. Evans are slated in Class III. Messrs. Hunter and Schneider are elected by holders of Preferred Shares for a term of one year. The officers of the Fund serve annual terms and are elected on an annual basis. The names, business addresses and birthdates of the trustees and officers of the Fund, their principal occupations and other affiliations during the past five years, the number of portfolios each oversees and other directorships they hold are set forth below. The trustees of the Fund are directors or trustees, as the case may be, of 76 Nuveen-sponsored open-end funds (the Nuveen Mutual Funds ) and 123 Nuveen-sponsored closed-end funds (collectively with the Nuveen Mutual Funds, the Nuveen Funds ).

**BOARD COMMITTEES**

The Board of Trustees has five standing committees: the Executive Committee, the Audit Committee, the Nominating and Governance Committee, the Dividend Committee and the Compliance, Risk Management and Regulatory Oversight Committee.

Robert P. Bremner, Chair, Judith M. Stockdale and John P. Amboian, serve as members of the Executive Committee of the Board of Trustees of the Fund. The Executive Committee, which meets between regular meetings of the Board of Trustees, is authorized to exercise all of the powers of the Board of Trustees. During the fiscal year ended February 28, 2009, the Executive Committee did not meet.

The Audit Committee monitors the accounting and reporting policies and practices of the Fund, the quality and integrity of the financial statements of the Fund, compliance by the Fund with legal and regulatory requirements and the independence and performance of the external and internal auditors. The members of the

Audit Committee are Robert P. Bremner, Jack B. Evans, David J. Kundert, Chair, William J. Schneider and Terence J. Toth. During the fiscal year ended February 28, 2009, the Audit Committee met two times.

The Nominating and Governance Committee is composed of the independent trustees of the Fund. The Nominating and Governance Committee operates under a written charter adopted and approved by the Board of Trustees. The Nominating and Governance Committee is responsible for trustee selection and tenure; selection and review of committees; and Board education and operations. In addition, the Nominating and Governance Committee monitors performance of legal counsel and other service providers; periodically reviews and makes recommendations about any appropriate changes to trustee compensation; and has the resources and authority to discharge its responsibilities, including retaining special counsel and other experts or consultants at the expense of the Fund. In the event of a vacancy on the Board, the Nominating and Governance Committee receives suggestions from various sources as to suitable candidates. Suggestions should be sent in writing to Lorna Ferguson, Manager of Board Relations, Nuveen Investments, 333 West Wacker Drive, Chicago, IL 60606. The Nominating and Governance Committee sets appropriate standards and requirements for nominations for new trustees and reserves the right to interview all candidates and to make the final selection of any new trustees. The members of the Nominating and Governance Committee are Robert P. Bremner, Chair, Jack B. Evans, William C. Hunter, David J. Kundert, William J. Schneider, Judith M. Stockdale, Carole E. Stone and Terence J. Toth. During the fiscal year ended February 28, 2009, the Nominating and Governance Committee met two times.

The Dividend Committee is authorized to declare distributions on the Fund's shares including, but not limited to, regular and special dividends, capital gains and ordinary income distributions. The members of the Dividend Committee are Jack B. Evans, Chair, Judith M. Stockdale and Terence J. Toth. During the fiscal year ended February 28, 2009, the Dividend Committee met five times.

The Compliance, Risk Management and Regulatory Oversight Committee is responsible for the oversight of compliance issues, risk management, and other regulatory matters affecting the Fund that are not otherwise the jurisdiction of the other committees. As part of its duties regarding compliance matters, the Committee is responsible for the oversight of the Pricing Procedures of the Fund and the Valuation Group. The members of the Compliance, Risk Management and Regulatory Oversight Committee are William J. Schneider, Chair, William C. Hunter, Judith M. Stockdale and Carole E. Stone. The Committee has adopted a written charter. During the fiscal year ended February 28, 2009, the Compliance, Risk Management and Regulatory Oversight Committee met two times.

#### **INDEPENDENT CHAIRMAN**

The trustees have elected Robert P. Bremner as the independent Chairman of the Board of Trustees. Specific responsibilities of the Chairman include (a) presiding at all meetings of the Board of Trustees and of the shareholders; (b) seeing that all orders and resolutions of the trustees are carried into effect; and (c) maintaining records of and, whenever necessary, certifying all proceedings of the trustees and the shareholders.

Class I trustees will serve until the annual meeting of shareholders in 2010; Class II trustees will serve until the annual meeting of shareholders in 2011; and Class III trustees will serve until the annual meeting of shareholders in 2012. As each trustee's term expires, common shareholders will be asked to elect trustees unless any Preferred Stock is outstanding at that time, in which event holders of Preferred Stock (including holders of MTP Shares), voting as a separate class, will elect two trustees and the remaining trustees shall be elected by holders of the Fund's common stock and holders of Preferred Stock, voting together as a single class. Messrs. Hunter and Schneider are elected by holders of Preferred Stock for a term of one year. Holders of Preferred Stock will be entitled to elect a majority of the Fund's trustees under certain circumstances. Trustees shall be elected for a term expiring at the time of the third succeeding annual meeting subsequent to their election or thereafter in each case when their respective successors are duly elected and qualified. These provisions could delay for up to two years the replacement of a majority of the Board of Trustees. See the Fund's Prospectus under Certain Provisions in the Declaration of Trust and By-Laws.

**SHARE OWNERSHIP**

The following table sets forth the dollar range of equity securities beneficially owned by each trustee as of December 31, 2009:

Name of Trustee	Dollar Range of Equity Securities in the Fund	Aggregate Dollar Range of Equity Securities in All Registered Investment Companies Overseen by Trustees in Family of Investment Companies
John M. Amboian	None	Over \$100,000
Robert P. Bremner	None	Over \$100,000
Jack B. Evans	None	Over \$100,000
William C. Hunter	None	Over \$100,000
David J. Kundert	None	Over \$100,000
William S. Schneider	None	Over \$100,000
Judith M. Stockdale	None	Over \$100,000
Carole E. Stone	None	\$50,001-\$100,000
Terence J. Toth	None	Over \$100,000

No trustee who is not an interested person of the Fund or his immediate family member owns beneficially or of record, any security of NAM, Nuveen or any person (other than a registered investment company) directly or indirectly controlling, controlled by or under common control with NAM or Nuveen.

[As of \_\_\_\_\_, 2010, the officers and trustees of the Fund, in the aggregate, own less than 1% of the Fund's equity securities.]

[The following table sets forth the percentage ownership of each person who, as of January 20, 2010, owned of record, or is known by the Fund to own of record or beneficially, 5% or more of any class of the Fund's equity securities\*:]

Name of Equity Security	Name and Address of Owner	% of Record Ownership

(a) Citigroup Global Markets Inc., Citigroup Financial Products Inc., Citigroup Global Markets Holdings Inc. and Citigroup Inc. filed their Schedule 13G jointly and did not differentiate holdings as to each entity.

#### COMPENSATION

The following table shows, for each independent trustee, (1) the aggregate compensation paid by the Fund for its fiscal year ended February 28, 2009, (2) the amount of total compensation paid by the Fund that has been deferred and (3) the total compensation paid to each trustee by the Nuveen Funds during the calendar year ended December 31, 2009. The Fund does not have a retirement or pension plan. The officers and trustees affiliated with Nuveen serve without any compensation from the Fund. The Fund has a deferred compensation plan (the Plan) that permits any trustee who is not an interested person of the Fund to elect to defer receipt of all or a portion of his or her compensation as a trustee. The deferred compensation of a participating trustee is credited to a book reserve account of the Fund when the compensation would otherwise have been paid to the trustee. The value of the trustee's deferral account at any time is equal to the value that the account would have had if contributions to the account had been invested and reinvested in shares of one or more of the eligible Nuveen Funds. At the time for commencing distributions from a trustee's deferral account, the trustee may elect to receive distributions in a lump sum or over a period of five years. The Fund will not be liable for any other fund's obligations to make distributions under the Plan.

	Aggregate Compensation from Fund(1)	Amount of Total Compensation From the Fund That Has Been Deferred(2)	Total Compensation from Fund and Fund Complex(3)
Robert P. Bremner	\$ 1,126	\$ 121	\$ 265,996
Jack B. Evans	948	165	239,830
William C. Hunter	565	565	194,333
David J. Kundert	600	600	252,913
William J. Schneider	667	667	258,133
Judith M. Stockdale	819	178	219,480
Carole E. Stone	873		186,750
Terence J. Toth <sup>(4)</sup>	382	382	247,289

(1) The compensation paid, including deferred amounts, to the independent trustees for the fiscal year ended February 28, 2009 for services to the Fund.

## Edgar Filing: SMALLEY GARY G. - Form 4

- (2) Pursuant to a deferred compensation agreement with certain of the Nuveen Funds, deferred amounts are treated as though an equivalent dollar amount has been invested in shares of one or more eligible Nuveen funds. Total deferred fees for the Fund (including the return from the assumed investment in the eligible Nuveen Funds) payable are stated above.

(3) Based on the compensation paid (including any amounts deferred) for the 2009 calendar year ended December 31, 2009 for services to the Nuveen open-end and closed-end funds. Because the funds in the Fund Complex have different fiscal year ends, the amounts shown in this column are presented on a calendar year basis.

(4) Mr. Toth was appointed to the Board of Directors/Trustees of the Nuveen Funds, effective July 1, 2008.

Independent trustees receive a \$100,000 annual retainer plus (a) a fee of \$3,250 per day for attendance in person or by telephone at a regularly scheduled meeting of the Board of Trustees; (b) a fee of \$2,500 per meeting for attendance in person where such in-person attendance is required and \$1,500 per meeting for attendance by telephone or in person where in-person attendance is not required at a special, non-regularly scheduled board meeting; (c) a fee of \$2,000 per meeting for attendance in person or by telephone at an Audit Committee meeting; (d) a fee of \$2,000 per meeting for attendance in person at a Compliance, Risk Management and Regulatory Oversight Committee meeting where in-person attendance is required and \$1,000 per meeting for attendance by telephone where in-person attendance is not required; (e) a fee of \$1,000 per meeting for attendance in person or by telephone for a meeting of the Dividend Committee; and (f) a fee of \$500 per meeting for attendance in person at all other committee meetings (\$1,000 for shareholder meetings) on a day on which no regularly scheduled board meeting is held in which in-person attendance is required and \$250 per meeting for attendance by telephone or in person at such committee meetings (excluding shareholder meetings) where in-person attendance is not required and \$100 per meeting when the Executive Committee acts as pricing committee for IPOs, plus, in each case, expenses incurred in attending such meetings. In addition to the payments described above, the independent Chairman of the Board of Trustees receives \$50,000, the chairpersons of the Audit Committee, the Dividend Committee and the Compliance, Risk Management and Regulatory Oversight Committee receive \$7,500 and the chairperson of the Nominating and Governance Committee receives \$5,000 as additional retainers. Independent trustees also receive a fee of \$2,500 per day for site visits to entities that provide services to the Nuveen Funds on days on which no regularly scheduled board meeting is held. When ad hoc committees are organized, the Nominating and Governance Committee will at the time of formation determine compensation to be paid to the members of such committee; however, in general, such fees will be \$1,000 per meeting for attendance in person at any ad hoc committee meeting where in-person attendance is required and \$500 per meeting for attendance by telephone or in person at such meetings where in-person attendance is not required. The annual retainer, fees and expenses are allocated among the Nuveen Funds on the basis of relative net asset sizes, although fund management may, in its discretion, establish a minimum amount to be allocated to each fund.

The Fund has no employees. Its officers are compensated by Nuveen Investments or its affiliates.

#### INVESTMENT ADVISER

NAM, the Fund's investment adviser, is responsible for determining the Fund's overall investment strategy and its implementation. NAM also is responsible for managing operations and the Fund's business affairs and providing certain clerical, bookkeeping and other administrative services to the Fund. For additional information regarding the management services performed by NAM, including the biography of the Fund's portfolio manager and further information about the investment management agreement between the Fund and NAM, see Management of the Fund in the Fund's Prospectus.

NAM, 333 West Wacker Drive, Chicago, Illinois 60606, a registered investment adviser, is a wholly-owned subsidiary of Nuveen Investments. Founded in 1898, Nuveen Investments and its affiliates had approximately \$141 billion of assets under management as of September 30, 2009, of which approximately \$68.8 billion was in municipal securities. Regarding this approximately \$68.8 billion of tax-exempt municipal securities, approximately \$35.5 billion, \$16.1 billion, \$15.3 billion and \$1.9 billion represent assets relating to closed-end bond municipal funds, open-end municipal bond funds, retail municipal managed accounts and institutional municipal managed accounts, respectively. According to data from Thomson Wealth Management, Nuveen Investments is the leading sponsor of closed-end exchange-traded funds as measured by number of funds (126) and the amount of fund assets under management (approximately \$46 billion) as of September 30, 2009.

Nuveen Investments provides high-quality investment services designed to help secure the long-term goals of institutions and high-net worth investors as well as the consultants and financial advisors who serve them. Nuveen Investments markets its growing range of specialized investment solutions under the high-quality brands of HydePark, NWQ, Nuveen, Santa Barbara, Symphony, Tradewinds and Winslow Capital.

The following table sets forth the management fee paid by the Fund for the last three fiscal periods:

	<b>Management Fee Net of Expense Reimbursement Paid to NAM for the Fiscal Period Ended</b>	<b>Expense Reimbursement from NAM for the Fiscal Period Ended</b>
Twelve Months ended August 31, 2007	\$1,319,537	\$768,320
Twelve Months ended August 31, 2008	\$1,459,095	\$587,369
Six months ended February 28, 2009	\$723,080	\$222,098

#### PORTFOLIO MANAGER

Unless otherwise indicated, the information below is provided as of the date of this Statement of Additional Information.

*Portfolio Management.* Scott Romans is the Fund's portfolio manager at NAM and has primary responsibility for the day-to-day implementation of the Fund's investment strategy.

In addition to managing the Fund, Mr. Romans is also primarily responsible for the day-to-day portfolio management of the following accounts. Information is provided as of August 31, 2009 unless otherwise indicated:

Type of Account Managed	Number of Accounts	Assets*
Registered Investment Company	28	\$ 6.089 billion
Other Pooled Investment Vehicles	0	\$ 0
Other Accounts	3	\$ .256 million

\* None of the assets in these accounts are subject to an advisory fee based on performance.

*Compensation.* The Fund's portfolio manager's compensation consists of three basic elements: base salary, cash bonus and long-term incentive compensation. The compensation strategy is to annually compare overall compensation to the market in order to create a compensation structure that is competitive and consistent with similar financial services companies. As discussed below, several factors are considered in determining each portfolio manager's total compensation. In any year these factors may include, among others, the effectiveness of the investment strategies recommended by the portfolio manager's investment team, the investment performance of the accounts managed by the portfolio manager, and the overall performance of Nuveen Investments (the parent company of NAM). Although investment performance is a factor in determining the portfolio manager's compensation, it is not necessarily a decisive factor. The portfolio manager's performance is evaluated in part by comparing manager's performance against a specified investment benchmark. This fund-specific benchmark is a customized subset (limited to bonds in each fund's specific state and with certain maturity parameters) of the S&P/InvestorTools Municipal Bond Index, an index comprised of bonds held by managed municipal bond fund customers of Standard & Poor's Securities Pricing, Inc. that are priced daily and whose fund holdings aggregate at least \$2 million. As of September 30, 2009, the S&P/InvestorTools Municipal Bond Index was comprised of 54,220 securities with an aggregate current market value of \$1,130 billion.

*Base salary.* The Fund's portfolio manager is paid a base salary that is set at a level determined by NAM in accordance with its overall compensation strategy discussed above. NAM is not under any current contractual obligation to increase a portfolio manager's base salary.

*Cash bonus.* The Fund's portfolio manager is also eligible to receive an annual cash bonus. The level of this bonus is based upon evaluations and determinations made by each portfolio manager's supervisors, along with reviews submitted by his or her peers. These reviews and evaluations often take into account a number of factors, including the effectiveness of the investment strategies recommended to NAM's investment team, the performance of the accounts for which he or she serves as portfolio manager relative to any benchmarks established for those accounts, his or her effectiveness in communicating investment performance to stockholders and their representatives, and his or her contribution to NAM's investment process and to the execution of investment strategies. The cash bonus component is also impacted by the overall performance of Nuveen Investments in achieving its business objectives.

*Long-Term Incentive Compensation.* In connection with the acquisition of Nuveen Investments, by a group of investors lead by Madison Dearborn Partners, LLC in November 2007, certain employees, including portfolio managers, received profit interests in Nuveen Investments. These profit interests entitle the holders to participate in the appreciation in the value of Nuveen Investments beyond the issue date and vest over five to seven years, or earlier in the case of a liquidity event. In addition, in July 2009, Nuveen Investments created and funded a trust, as part of a newly-established incentive program, which purchased shares of certain Nuveen Mutual Funds and awarded such shares, subject to vesting, to certain employees, including portfolio managers.

*Material Conflicts of Interest.* Each portfolio manager's simultaneous management of the Fund and the other accounts noted above may present actual or apparent conflicts of interest with respect to the allocation and aggregation of securities orders placed on behalf of the Fund and the other account. NAM, however, believes that such potential conflicts are mitigated by the fact that NAM has adopted several policies that address potential conflicts of interest, including best execution and trade allocation policies that are designed to ensure (1) that portfolio management is seeking the best price for portfolio securities under the circumstances, (2) fair and equitable allocation of investment opportunities among accounts over time and (3) compliance with applicable regulatory requirements. All accounts are to be treated in a non-preferential manner, such that allocations are not based upon account performance, fee structure or preference of the portfolio manager. In addition, NAM has adopted a Code of Conduct that sets forth policies regarding conflicts of interest.

*[Beneficial Ownership of Securities.* As of the date of this Statement of Additional Information, Mr. Romans does not beneficially own any stock issued by the Fund.]

Unless earlier terminated as described below, the Fund's management agreement with NAM will remain in effect until August 1, 2010. The management agreement continues in effect from year to year so long as such continuation is approved at least annually by (1) the Board of Trustees or the vote of a majority of the outstanding voting securities of the Fund and (2) a majority of the trustees who are not interested persons of any party to the management agreement, cast in person at a meeting called for the purpose of voting on such approval. The management agreement may be terminated at any time, without penalty, by either the Fund or NAM upon 60 days' written notice, and is automatically terminated in the event of its assignment as defined in the 1940 Act.

The Fund, NAM, Nuveen and other related entities have adopted codes of ethics under Rule 17j-1 under the 1940 Act, that essentially prohibit certain of their personnel, including the Fund's portfolio managers, from engaging in personal investments that compete or interfere with, or attempt to take advantage of a client's, including the Fund's, anticipated or actual portfolio transactions, and are designed to assure that the interests of clients, including Fund shareholders, are placed before the interests of personnel in connection with personal investment transactions. Text-only versions of the codes of ethics of the Fund, NAM and Nuveen can be viewed online or downloaded from the EDGAR Database on the Securities and Exchange Commission's internet web site at [www.sec.gov](http://www.sec.gov). You may also review and copy those documents by visiting the Securities and Exchange Commission's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling the Securities and Exchange Commission at 202-942-8090. In addition, copies of those codes of ethics may be obtained, after mailing the appropriate duplicating fee, by writing to the

---

Securities and Exchange Commission's Public Reference Section, 100 F Street, N.E., Washington, DC 20549 or by e-mail request at [publicinfo@sec.gov](mailto:publicinfo@sec.gov).

The Fund invests its assets generally in municipal securities. On rare occasions the Fund may acquire, directly or through a special purpose vehicle, equity securities of certain issuers whose securities the Fund already owns when such securities have deteriorated or are expected shortly to deteriorate significantly in credit quality. The purpose of acquiring equity securities generally will be to acquire control of the issuer and to seek to prevent the credit deterioration or facilitate the liquidation or other workout of the distressed issuer's credit problem. In the course of exercising control of a distressed issuer, NAM may pursue the Fund's interests in a variety of ways, which may entail negotiating and executing consents, agreements and other arrangements, and otherwise influencing the management of the issuer. NAM does not consider such activities proxy voting for purposes of Rule 206(4)-6 under the Investment Advisers Act of 1940, as amended (the Advisers Act), but nevertheless provides reports to the Fund's Board of Trustees on its control activities on a quarterly basis.

In the rare event that an issuer were to issue a proxy or that the Fund were to receive a proxy issued by a cash management security, NAM would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the instructions, of the Fund's Board of Trustees or its representative. A member of NAM's legal department would oversee the administration of the voting and ensure that records maintained in accordance with Rule 206(4)-6 of the Advisers Act were filed with the Securities and Exchange Commission on Form N-PX, provided to the Fund's Board of Trustees and made available to shareholders as required by applicable rules.

In the event of a conflict of interest that might arise when voting proxies for the Fund, NAM will defer to the recommendation of an independent third party engaged to determine how the proxy should be voted, or, alternatively, members of NAM's legal and compliance departments, in consultation with the Board of Trustees, will examine the conflict of interest and seek to resolve such conflict in the best interest of the Fund. If a member of NAM's legal or compliance department or the Board of Trustees has a personal conflict of interest, that member will refrain from participating in the consultation.

Information regarding how the Fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 will be available without charge by calling (800) 257-8787 or by accessing the Securities and Exchange Commission's website at <http://www.sec.gov>.

#### **PORTFOLIO TRANSACTIONS AND BROKERAGE**

Subject to the supervision of the Board of Trustees, NAM is responsible for decisions to purchase and sell securities for the Fund, the negotiation of the prices to be paid and the allocation of transactions among various dealer firms. Transactions on stock exchanges involve the payment by the Fund of brokerage commissions. There generally is no stated commission in the case of securities traded in the OTC market but the price paid by the Fund usually includes an undisclosed dealer commission or mark-up. Transactions in the OTC market can also be placed with broker-dealers who act as agents and charge brokerage commissions for effecting OTC transactions. The Fund may place its OTC transactions either directly with principal market makers, or with broker-dealers if that is consistent with NAM's obligation to obtain best qualitative execution. In certain instances, the Fund may make purchases of underwritten issues at prices that include underwriting fees.

Portfolio securities may be purchased directly from an underwriter or in the OTC market from the principal dealers in such securities, unless it appears that a better price or execution may be obtained through other means. Portfolio securities will not be purchased from Nuveen or its affiliates or affiliates of NAM except in compliance with the 1940 Act.

It is NAM's policy to seek the best execution under the circumstances of each trade. NAM will evaluate price as the primary consideration, with the financial condition, reputation and responsiveness of the dealer

considered secondary in determining best execution. Given the best execution obtainable, it will be NAM's practice to select dealers that, in addition, furnish research information (primarily credit analyses of issuers and general economic reports) and statistical and other services to NAM. It is not possible to place a dollar value on information and statistical and other services received from dealers. Since it is only supplementary to NAM's own research efforts, the receipt of research information is not expected to reduce significantly NAM's expenses. While NAM will be primarily responsible for the placement of the business of the Fund, NAM's policies and practices in this regard must be consistent with the foregoing and will, at all times, be subject to review by the Board of Trustees of the Fund.

NAM may manage other investment accounts and investment companies for other clients that may invest in the same types of securities as the Fund and that may have investment objectives similar to those of the Fund. NAM seeks to allocate portfolio transactions equitably whenever concurrent decisions are made to purchase or sell assets or securities by the Fund and another advisory account. If an aggregated order cannot be filled completely, allocations will generally be made on a pro rata basis. An order may not be allocated on a pro rata basis where, for example (i) consideration is given to portfolio managers who have been instrumental in developing or negotiating a particular investment; (ii) consideration is given to an account with specialized investment policies that coincide with the particulars of a specific investment; (iii) pro rata allocation would result in odd-lot or de minimis amounts being allocated to a portfolio or other client; or (iv) where NAM reasonably determines that departure from a pro rata allocation is advisable. There may also be instances where the Fund will not participate at all in a transaction that is allocated among other accounts. While these allocation procedures could have a detrimental effect on the price or amount of the securities available to the Fund from time to time, it is the opinion of the Board of Trustees that the benefits available from NAM's management outweigh any disadvantage that may arise from NAM's larger management activities and its need to allocate securities.

The following table sets forth the aggregate amount of brokerage commissions paid by the Fund for the last three fiscal periods:

Twelve months ended August 31, 2007	\$
Twelve months ended August 31, 2008	\$
Six months ended February 28, 2009	\$

Substantially all of the Fund's trades are effected on a principal basis.

**DESCRIPTION OF SHARES**

**COMMON SHARES**

For a description of the Fund's Common Shares, see "Description of Outstanding Shares - Common Shares" in the Fund's Prospectus.

**MUNIPREFERRED SHARES**

For a description of the Fund's MuniPreferred Shares, see "Description of Outstanding Shares - MuniPreferred Shares" in the Fund's Prospectus.

**MTP SHARES**

For a description of the Fund's MTP Shares, see "Description of MTP Shares" in the Fund's Prospectus.

**REPURCHASE OF FUND SHARES; CONVERSION TO OPEN-END FUND**

The Fund is a closed-end investment company and as such its shareholders will not have the right to cause the Fund to redeem their shares. Instead, the Fund's shares will trade in the open market at a price that will be a function of several factors, including dividend levels (which are in turn affected by expenses), net asset value, dividend stability, relative demand for and supply of such shares in the market, general market and economic conditions and other factors. Because shares of a closed-end investment company may frequently trade at prices lower than net asset value, the Fund's Board of Trustees has currently determined that, at least annually, it will consider action that might be taken to reduce or eliminate any material discount from net asset value in respect of the Fund's shares, which may include the repurchase of such shares in the open market or in private transactions, the making of a tender offer for such shares at net asset value, or submitting the conversion of the Fund to an open-end investment company for a vote by shareholders. There can be no assurance, however, that the Board of Trustees will decide to take any of these actions, or that share repurchases or tender offers, if undertaken, will reduce market discount.

The staff of the Securities and Exchange Commission currently requires that any tender offer made by a closed-end investment company for its shares must be at a price equal to the net asset value of such shares on the close of business on the last day of the tender offer. Any service fees incurred in connection with any tender offer made by the Fund will be borne by the Fund and will not reduce the stated consideration to be paid to tendering shareholders.

Subject to its investment limitations, the Fund may borrow to finance the repurchase of shares or to make a tender offer. Interest on any borrowings to finance share repurchase transactions or the accumulation of cash by the Fund in anticipation of share repurchases or tenders will reduce the Fund's net income. Any share repurchase, tender offer or borrowing that might be approved by the Board of Trustees would have to comply with the Securities Exchange Act of 1934, as amended, and the 1940 Act and the rules and regulations thereunder.

Although the decision to take action in response to a discount from net asset value will be made by the Board of Trustees at the time it considers such issue, it is the Board's present policy, which may be changed by the Board, not to authorize repurchases of Fund shares or a tender offer for such shares if (1) such transactions, if consummated, would (a) result in the delisting of the common shares and MTP Shares from the NYSE Amex, the New York Stock Exchange or elsewhere, as applicable, or (b) impair the Fund's status as a regulated investment company under the Code (which would make the Fund a taxable entity, causing the Fund's income to be taxed at the corporate level in addition to the taxation of shareholders who receive dividends from the Fund) or as a registered closed-end investment company under the 1940 Act; (2) the Fund would not be able to liquidate portfolio securities in an orderly manner and consistent with the Fund's investment objectives and policies in

order to repurchase shares; or (3) there is, in the Board's judgment, any (a) material legal action or proceeding instituted or threatened challenging such transactions or otherwise materially adversely affecting the Fund, (b) general suspension of or limitation on prices for trading securities on the New York Stock Exchange, the NYSE Amex or elsewhere, (c) declaration of a banking moratorium by Federal or state authorities or any suspension of payment by United States or state banks in which the Fund invests, (d) material limitation affecting the Fund or the issuers of its portfolio securities by Federal or state authorities on the extension of credit by lending institutions or on the exchange of non-U.S. currency, (e) commencement of war, armed hostilities or other international or national calamity directly or indirectly involving the United States, or (f) other event or condition that would have a material adverse effect (including any adverse tax effect) on the Fund or its shareholders if shares were repurchased. The Board of Trustees of the Fund may in the future modify these conditions in light of experience.

The repurchase by the Fund of its shares at prices below net asset value will result in an increase in the net asset value of those shares that remain outstanding. However, there can be no assurance that share repurchases or tenders at or below net asset value will result in the Fund's shares trading at a price equal to their net asset value. Nevertheless, the fact that the Fund's shares may be the subject of repurchase or tender offers at net asset value from time to time, or that the Fund may be converted to an open-end investment company, may reduce any spread between market price and net asset value that might otherwise exist.

In addition, a purchase by the Fund of its shares will decrease the Fund's total assets, which would likely have the effect of increasing the Fund's expense ratio.

Conversion to an open-end company would require the approval of the holders of at least two-thirds of the Fund's common and Preferred Stock, voting as a single class and approval of the holders of at least two-thirds of the Fund's Preferred Stock, voting together as a single class unless the conversion has been approved by the requisite vote of the trustees, in which case a majority vote of the requisite holders would be required. See the Fund's Prospectus under "Certain Provisions in the Declaration of Trust and By-Laws" for a discussion of voting requirements applicable to conversion of the Fund to an open-end investment company. If the Fund converted to an open-end investment company, the Fund's common shares would no longer be listed on the NYSE Amex or elsewhere and the Fund's Preferred Stock, including MTP Shares, would no longer be outstanding. In contrast to a closed-end investment company, shareholders of an open-end investment company may require the company to redeem their shares on any business day (except in certain circumstances as authorized by or under the 1940 Act or rules thereunder) at their net asset value, less such redemption charge, if any, as might be in effect at the time of redemption. In order to avoid maintaining large cash positions or liquidating favorable investments to meet redemptions, open-end investment companies typically engage in a continuous offering of their shares. Open-end investment companies are thus subject to periodic asset in-flows and out-flows that can complicate portfolio management. The Board of Trustees of the Fund may at any time propose conversion of the Fund to an open-end investment company depending upon their judgment as to the advisability of such action in light of circumstances then prevailing.

Before deciding whether to take any action if the Fund's shares trade below net asset value, the Board of Trustees would consider all relevant factors, including the extent and duration of the discount, the liquidity of the Fund's portfolio, the impact of any action that might be taken on the Fund or its shareholders, and market considerations. Based on these considerations, even if the Fund's shares should trade at a discount, the Board of Trustees may determine that, in the interest of the Fund and its shareholders, no action should be taken.

#### TAX MATTERS

The following discussion of U.S. federal income tax matters is based on the opinion of K&L Gates LLP, special counsel to the Fund ( "Tax Counsel" ). Tax Counsel's opinions are based on the current provisions and interpretations of the Internal Revenue Code of 1986, as amended (the "Code" ) and the accompanying Treasury regulations and on current judicial and administrative rulings. All of these authorities are subject to change and any change can apply retroactively.

The following is intended to be a general summary of the material U.S. federal income tax consequences of investing in MTP Shares. The discussion generally applies only to holders of MTP Shares who are U.S. holders. You will be a U.S. holder if you are an individual who is a citizen or resident of the United States, a U.S. domestic corporation, or any other person that is subject to U.S. federal income tax on a net income basis in respect of an investment in MTP Shares. This summary deals only with U.S. holders that hold MTP Shares as capital assets. It does not address considerations that may be relevant to you if you are an investor that is subject to special tax rules, such as a financial institution, insurance company, regulated investment company, real estate investment trust, investor in pass-through entities, U.S. holder of MTP Shares whose functional currency is not the United States dollar, tax-exempt organization, dealer in securities or currencies, trader in securities or commodities that elects mark to market treatment, person who holds MTP Shares in a qualified tax-deferred account such as an IRA, or person that will hold MTP Shares as a position in a straddle, hedge or as part of a constructive sale for federal income tax purposes. It is not intended to be a complete discussion of all such federal income tax consequences, nor does it purport to deal with all categories of investors. This discussion reflects applicable tax laws of the United States as of the date of this Statement of Additional Information, which tax laws may change or be subject to new interpretation by the courts or the Internal Revenue Service, possibly with retroactive effect. **INVESTORS ARE THEREFORE ADVISED TO CONSULT WITH THEIR OWN TAX ADVISORS BEFORE MAKING AN INVESTMENT IN THE FUND.**

The Fund intends to elect to be treated, and to qualify each year, as a regulated investment company, under Subchapter M of the Code, and to satisfy conditions which enable dividends on Common Shares and MTP Shares which are attributable to interest on municipal securities to be exempt from federal income tax in the hands of owners of such stock, subject to the possible application of the federal alternative minimum tax.

In order for any distributions to holders of MTP Shares to be eligible to be treated as exempt-interest dividends, MTP Shares must be treated as stock for federal income tax purposes. Under present law, Tax Counsel is of the opinion that MTP Shares of the Fund will constitute equity of the Fund, and thus distributions with respect to MTP Shares (other than distributions in redemption of MTP Shares subject to Section 302(b) of the Code) will generally constitute dividends to the extent of the Fund's current or accumulated earnings and profits, as calculated for federal income tax purposes. Because the treatment of a corporate security as debt or equity is determined on the basis of the facts and circumstances of each case, and no controlling precedent exists for the MTP Shares, there can be no assurance that the IRS will not question the Fund's treatment of MTP Shares as equity. If the IRS were to succeed in such a challenge, holders of MTP Shares could be characterized as receiving taxable interest income rather than exempt-interest or other dividends, possibly requiring them to file amended income tax returns and retroactively to recognize additional amounts of ordinary income or to pay additional tax, interest, and penalties.

To qualify for the favorable federal income tax treatment generally accorded to regulated investment companies, the Fund must, among other things, (a) derive in each taxable year at least 90% of its gross income from dividends, interest, payments with respect to securities loans and gains from the sale or other disposition of stock, securities or non-U.S. currencies, or other income derived with respect to its business of investing in such stock, securities or currencies, or net income derived from interests in qualified publicly traded partnerships, as defined in the Code; (b) diversify its holdings so that, at the end of each quarter of each taxable year, (i) at least 50% of the value of the Fund's assets is represented by cash and cash items (including receivables), U.S. government securities, the securities of other regulated investment companies and other securities, with such other securities of any one issuer limited for the purposes of this calculation to an amount not greater than 5% of the value of the Fund's total assets and not greater than 10% of the outstanding voting securities of such issuer, and (ii) not more than 25% of the value of its total assets is invested in the securities (other than U.S. government securities or the securities of other regulated investment companies) of a single issuer, or two or more issuers that the Fund controls and are engaged in the same, similar or related trades or businesses, or the securities of one or more qualified publicly traded partnerships; and (c) distribute each year an amount equal to or greater than the sum of 90% of its investment company taxable income (as that term is defined in the Code, but without regard to the deduction for dividends paid) and 90% of its net tax-exempt interest.

As a regulated investment company, the Fund generally will not be subject to federal income tax on its investment company taxable income and net capital gain (the excess of net long-term capital gain over net short-term capital loss), if any, that it distributes to shareholders. The Fund may retain for investment its net capital gain. However, if the Fund retains any net capital gain or any investment company taxable income, it will be subject to tax at regular corporate rates on the amount retained. If the Fund retains any net capital gain, it may designate the retained amount as undistributed capital gains in a notice to its shareholders who, if subject to federal income tax on long-term capital gains, (i) will be required to include in income for federal income tax purposes, as long-term capital gain, their share of such undistributed amount, and (ii) will be entitled to credit their proportionate shares of the tax paid by the Fund on such undistributed amount against their federal income tax liabilities, if any, and to claim refunds to the extent the credit exceeds such liabilities. For federal income tax purposes, the tax basis of shares owned by a shareholder of the Fund will be increased by an amount equal to the difference between the amount of undistributed capital gains included in the shareholder's gross income and the tax deemed paid by the shareholder under clause (ii) of the preceding sentence. The Fund intends to distribute to its shareholders, at least annually, substantially all of its investment company taxable income and the net capital gain not otherwise retained by the Fund.

Amounts not distributed on a timely basis in accordance with a calendar year distribution requirement are subject to a nondeductible 4% excise tax. To prevent imposition of the excise tax, the Fund must distribute during each calendar year an amount at least equal to the sum of (1) 98% of its ordinary taxable income (not taking into account any capital gains or losses) for the calendar year, (2) 98% of its capital gains in excess of its capital losses (adjusted for certain ordinary losses) for the one-year period ending November 30 of the calendar year, and (3) any ordinary taxable income and capital gains for previous years that were not distributed during those years and on which the Fund paid no federal income tax. To prevent application of the excise tax, the Fund intends to make its distributions in accordance with the calendar year distribution requirement.

If at any time when the Fund's MTP Shares are outstanding the Fund fails to meet the Asset Coverage, the Fund will be required to suspend distributions to holders of its Common Shares until such asset coverage is restored. See "Description of MTP Shares - Restrictions on Dividend, Redemption and Other Payments" in the Prospectus. This may prevent the Fund from distributing at least 90% of its investment company taxable income (as that term is defined in the Code determined without regard to the deduction for dividends paid) and net tax-exempt income, and may therefore jeopardize the Fund's qualification for taxation as a regulated investment company or cause the Fund to incur a tax liability or a non-deductible 4% excise tax on the undistributed taxable income (including gain), or both. Upon failure to meet the MTP Asset Coverage, the Fund will be required to redeem MTP Shares in order to maintain or restore such asset coverage and avoid the adverse consequences to the Fund and its shareholders of failing to qualify as a regulated investment company. There can be no assurance, however, that any such redemption would achieve such objectives.

If the Fund failed to qualify as a regulated investment company or failed to satisfy the 90% distribution requirement in any taxable year, the Fund would be taxed in the same manner as an ordinary corporation on its taxable income (even if such income were distributed to its shareholders) and distributions to shareholders would not be deductible by the Fund in computing its taxable income. Additionally, all distributions out of earnings and profits would be taxed to shareholders as ordinary dividend income. Such distributions generally would be eligible (i) to be treated as qualified dividend income, as discussed below in the case of noncorporate shareholders and (ii) for the dividends received deduction under Section 243 of the Code (the Dividends Received Deduction) in the case of corporate shareholders.

The Fund intends to qualify to pay exempt-interest dividends, as defined in the Code, on its Common Shares and MTP Shares by satisfying the requirement that, at the close of each quarter of its taxable year, at least 50% of the value of its total assets consist of tax-exempt municipal bonds. Exempt-interest dividends are dividends or any part thereof (other than a capital gain dividend) paid by the Fund which are attributable to interest on municipal bonds and are so designated by the Fund. Exempt-interest dividends will be exempt from federal income tax, subject to the possible application of the federal alternative minimum tax.

---

A holder of MTP Shares will be required to report the dividends declared by the Fund for each day on which such holder is the shareholder of record. The Fund intends to notify holders of MTP Shares in advance if it will allocate to them income that is not exempt from regular federal income tax. In certain circumstances, the Fund will make payments to holders of MTP Shares to offset the tax effects of the taxable distribution.

A portion of the Fund's expenditures that would otherwise be deductible may not be allowed as deductions by reason of the Fund's investment in municipal securities (with such disallowed portion, in general, being the same percentage of the Fund's aggregate expenses as the percentage of the Fund's aggregate income (other than capital gain income) that constitutes exempt-interest income from municipal securities). A similar disallowance rule also applies to interest expense paid or incurred by the Fund, if any. Such disallowed deductions, if any, will reduce the amount that the Fund can designate as exempt-interest dividends by the disallowed amount. As a result, income distributions by the Fund in excess of the amount of the Fund's exempt-interest dividends may be taxable as ordinary income.

The Fund's investment in zero coupon bonds will cause it to realize income prior to the receipt of cash payments with respect to these bonds. Such income will be accrued daily by the Fund and, in order to avoid a tax payable by the Fund, the Fund may be required to liquidate securities that it might otherwise continue to hold in order to generate cash so that the Fund may make required distributions to its shareholders.

Distributions to shareholders of ordinary income other than tax-exempt interest (including net investment income received by the Fund from taxable temporary investments, if any, certain income from financial futures and options transactions and market discount realized by the Fund on the sale of municipal securities) and of net short-term capital gains realized by the Fund, if any, will be taxable to its shareholders as ordinary income. Distributions by the Fund of net capital gain (*i.e.*, the excess of net long-term capital gain over net short-term capital loss), if any, are taxable as long-term capital gain, regardless of the length of time the shareholder has owned the shares with respect to which such distributions are made. The amount of taxable income allocable to the Fund's shares will depend upon the amount of such income realized by the Fund, but is not generally expected to be significant. Distributions, if any, in excess of the Fund's earnings and profits will first reduce the adjusted tax basis of a shareholder's shares and, after that basis has been reduced to zero, will constitute capital gain to the shareholder (assuming the shares are held as a capital asset). For taxable years beginning before January 1, 2011, qualified dividend income received by noncorporate shareholders is taxed at rates equivalent to long-term capital gain tax rates, which reach a maximum of 15%. Qualified dividend income generally includes dividends from domestic corporations and dividends from non-U.S. corporations that meet certain specified criteria. For taxable years beginning on or after January 1, 2011, qualified dividend income will no longer be taxed at the rates applicable to long-term capital gains, and the maximum individual tax rate on long-term capital gains will increase to 20%, unless Congress enacts legislation providing otherwise. As long as the Fund qualifies as a regulated investment company under the Code, it is not expected that any part of its distributions to shareholders from its investments will qualify for the Dividends Received Deduction available to corporate shareholders or as qualified dividend income in the case of noncorporate shareholders.

The Internal Revenue Service (the "IRS") indicates that the Fund is required to designate distributions paid with respect to its Common Shares and its MTP Shares as consisting of a portion of each type of income distributed by the Fund. The portion of each type of income deemed received by the holders of each class of shares will be equal to the portion of total Fund dividends received by such class. Thus, the Fund will designate dividends paid as exempt-interest dividends in a manner that allocates such dividends between the holders of the Common Shares and the MTP Shares in proportion to the total dividends paid to each such class during or with respect to the taxable year, or otherwise as required by applicable law. Capital gain dividends and ordinary income dividends will similarly be allocated between the two classes. In certain circumstances, the Fund will make payments to holders of MTP Shares to offset the tax effects of a taxable distribution.

The Code provides that interest on indebtedness incurred or continued to purchase or carry the Fund's shares to which exempt-interest dividends are allocated is not deductible. Under rules used by the IRS for

---

determining when borrowed funds are considered used for the purpose of purchasing or carrying particular assets, the purchase or ownership of shares may be considered to have been made with borrowed funds even though such funds are not directly used for the purchase or ownership of such shares.

The interest on private activity bonds in most instances is not federally tax-exempt to a person who is a substantial user of a facility financed by such bonds or a related person of such substantial user. As a result, the Fund may not be an appropriate investment for a shareholder who is considered either a substantial user or a related person within the meaning of the Code. In general, a substantial user of a facility includes a nonexempt person who regularly uses a part of such facility in his trade or business. Related persons are in general defined to include persons among whom there exists a relationship, either by family or business, which would result in a disallowance of losses in transactions among them under various provisions of the Code (or if they are members of the same controlled group of corporations under the Code), including a partnership and each of its partners (and certain members of their families), an S corporation and each of its shareholders (and certain members of their families) and various combinations of these and other relationships. The foregoing is not a complete description of all of the provisions of the Code covering the definitions of substantial user and related person.

Although dividends generally will be treated as distributed when paid, dividends declared in October, November or December, payable to shareholders of record on a specified date in one of those months and paid during the following January, will be treated as having been distributed by the Fund (and received by the shareholders) on December 31 of the year declared.

Certain of the Fund's investment practices are subject to special provisions of the Code that, among other things, may disallow, limit or defer the use of certain deductions or losses of the Fund, affect the holding period of securities held by the Fund and alter the character of the gains or losses realized by the Fund. These provisions may also require the Fund to recognize income or gain without receiving cash with which to make distributions in the amounts necessary to satisfy the requirements for maintaining regulated investment company status and for avoiding income and excise taxes. The Fund will monitor its transactions and may make certain tax elections in order to mitigate the effect of these rules and prevent disqualification of the Fund as a regulated investment company.

Gain or loss on the sale or other disposition of MTP Shares, if any (other than redemptions, the rules for which are described below) will generally be treated as capital gain or loss, except that a portion of the amount received on the disposition of MTP Shares may be characterized as an accumulated but unpaid dividend subject to the rules described above. Gain or loss will generally be treated as long-term if the MPT Shares have been held for more than one year and otherwise will be treated as short-term. Present law taxes both long-term and short-term capital gains of corporations at the rates applicable to ordinary income. For non-corporate taxpayers, however, under current law short-term capital gains and ordinary income will be taxed at a maximum rate of 35% while long-term capital gains generally will be taxed at a maximum rate of 15%, subject to the legislation phase-out discussed above. However, because of the limitations on itemized deductions and the deduction for personal exemptions applicable to higher income taxpayers, the effective rate of tax may be higher in certain circumstances. Losses realized by a shareholder on the sale or exchange of shares of the Fund held for six months or less are disallowed to the extent of any distribution of exempt-interest dividends received with respect to such shares, and, if not disallowed, such losses are treated as long-term capital losses to the extent of any distribution of long-term capital gain received (or amounts designated as undistributed capital gains) with respect to such shares. Any loss realized on a sale or exchange of shares of the Fund will be disallowed to the extent those shares of the Fund are replaced by other substantially identical shares within a period of 61 days beginning 30 days before and ending 30 days after the date of disposition of the original shares. In that event, the basis of the replacement shares of the Fund will be adjusted to reflect the disallowed loss.

The Fund may, at its option, redeem MTP Shares in whole or in part, and is required to redeem MTP Shares to the extent required to maintain the Effective Leverage Ratio and the MTP Asset Coverage. Gain or loss, if any,

resulting from a redemption will generally be taxed as gain or loss from the sale or exchange under Section 302 of the Code rather than as a dividend, but only if the redemption distribution (a) is deemed not to be essentially equivalent to a dividend, (b) is in complete redemption of a holder's interest in the Fund, (c) is substantially disproportionate with respect to the owner, or (d) with respect to non-corporate holders, is in partial liquidation of the Fund. For purposes of (a), (b) and (c) above, a holder's ownership of the Common Shares will be taken into account. As in the case of a sale or exchange, a portion of the amount received on the redemption of MTP Shares may be characterized as an accumulated but unpaid dividend subject to the rules discussed above.

Federal income tax law imposes an alternative minimum tax with respect to corporations, individuals, trusts and estates. Interest on certain municipal bonds is included as an item of tax preference in determining the amount of a taxpayer's alternative minimum taxable income. To the extent that the Fund received income from municipal securities subject to the federal alternative minimum tax, a portion of the dividends paid by the Fund, although otherwise exempt from federal income tax, would be taxable to its shareholders to the extent that their tax liability is determined under the federal alternative minimum tax. The Fund will annually provide a report indicating the percentage of the Fund's income attributable to municipal securities subject to the federal alternative minimum tax. In addition, for certain corporations, federal alternative minimum taxable income is increased by 75% of the difference between an alternative measure of income (adjusted current earnings) and the amount otherwise determined to be the alternative minimum taxable income. Interest on all municipal securities, and therefore a distribution by the Fund that would otherwise be tax-exempt, is included in calculating a corporation's adjusted current earnings. Certain small corporations are not subject to the federal alternative minimum tax. The American Recovery and Reinvestment Act of 2009 provides an exemption from the federal alternative minimum tax applicable to individuals for interest on private activity bonds and, for purposes of calculating a corporate taxpayer's adjusted current earnings, an exemption for interest on all tax-exempt bonds, with both exemptions limited to bonds that are issued after December 31, 2008 and before January 1, 2011, including refunding bonds issued during that period to refund bonds originally issued after December 31, 2003 and before January 1, 2009.

Tax-exempt income, including exempt-interest dividends paid by the Fund, is taken into account in calculating the amount of social security and railroad retirement benefits that may be subject to federal income tax.

The Fund may be required to withhold federal income tax from all taxable distributions and redemption proceeds payable to shareholders who fail to provide the Fund with their correct taxpayer identification number or to make required certifications, or who have been notified by the IRS that they are subject to backup withholding. The backup withholding percentage is 28% for amounts paid through 2010, after which time the rate will increase to 31% absent legislative change. Corporate shareholders and certain other shareholders specified in the Code generally are exempt from such backup withholding. This withholding is not an additional tax. Any amounts withheld may be credited against the shareholder's federal income tax liability, provided the required information is furnished to the IRS.

#### **California Tax Matters**

The following is based upon the advice of K&L Gates LLP, special counsel to the Fund.

The following is a general, abbreviated summary of certain provisions of the applicable California tax law as presently in effect as it directly governs the taxation of resident individual and corporate Common Shareholders of the Fund. This summary does not address the taxation of other shareholders nor does it discuss any local taxes that may be applicable. These provisions are subject to change by legislative or administrative action, and any such change may be retroactive with respect to transactions of the Fund.

The following is based on the assumptions that the Fund will qualify under Subchapter M of the Code as a regulated investment company, that it will satisfy the conditions which will cause distributions of the Fund to

qualify as exempt-interest dividends to shareholders for federal and California purposes, and that it will make such distributions of income and gains as are necessary to qualify to be taxed as a regulated investment company for federal income tax purposes.

The Fund will be subject to the California corporate franchise or corporation income tax only if it has a sufficient nexus with California. If it is subject to the California franchise or corporation income tax, the Fund does not expect to pay a material amount of such tax.

If at the close of each quarter of the Fund's taxable year at least 50% of the value of its total assets consists of obligations that, when held by individuals, pay interest that is exempt from tax by California under California or federal law, then distributions by the Fund that are attributable to interest on any such obligation will not be subject to the California personal income tax. All other distributions, including distributions attributable to capital gains, will be includable in gross income for purposes of the California personal income tax.

Interest on indebtedness incurred or continued for the purpose of acquiring or maintaining an investment in MTP Shares will not be deductible for purposes of the California personal income tax.

All distributions of the Fund, regardless of source, to corporate holders of MTP Shares that are subject to the California corporate franchise tax will be included in gross income for purposes of such tax.

Gain on the sale, exchange, or other disposition of holders of MTP Shares will be subject to the California personal income and corporate franchise tax. Present California law taxes both long-term and short-term capital gains at the rates applicable to ordinary income. In addition, any loss realized by a holder of MTP Shares upon the sale of shares held for six months or less may be disallowed to the extent of any exempt interest dividends received with respect to such shares. Moreover, any loss realized upon the sale of MTP Shares within thirty days before or after the acquisition of other MTP Shares may be disallowed under the wash sale rules.

MTP Shares may be subject to the California estate tax if held by a California decedent at the time of death.

Holders of MTP Shares are advised to consult with their own tax advisors for more detailed information concerning California tax matters.

#### **EXPERTS**

The audited financial statements of the Fund appearing in the Fund's Annual Report dated February 28, 2009 and the Fund's unaudited financial statements for the six months ended August 31, 2009 are incorporated by reference into this Statement of Additional Information. The audited financial statements have been audited by Ernst & Young LLP, an independent registered public accounting firm, as set forth in their report thereon appearing elsewhere herein, and are included in reliance upon such report given upon the authority of such firm as experts in accounting and auditing. Ernst & Young LLP provides auditing services to the Fund. The principal business address of Ernst & Young LLP is 233 South Wacker Drive, Suite 1700, Chicago, Illinois 60606.

#### **CUSTODIAN, TRANSFER AGENT, DIVIDEND DISBURSING AGENT AND REDEMPTION AND PAYING AGENT**

The custodian of the assets of the Fund is State Street Bank and Trust Company, One Federal Street, Boston, Massachusetts 02110. The custodian performs custodial, fund accounting and portfolio accounting services. The redemption and dividend paying agent for MTP Shares is State Street Bank and Trust Company, 250 Royall Street, Canton, Massachusetts 02021. The Fund's transfer, shareholder services and dividend paying agent is also State Street Bank and Trust Company, 250 Royall Street, Canton, Massachusetts 02021.

**ADDITIONAL INFORMATION**

A Registration Statement on Form N-2, including amendments thereto, relating to the shares of the Fund offered hereby, has been filed by the Fund with the Securities and Exchange Commission, Washington, D.C. The Fund's Prospectus and this Statement of Additional Information do not contain all of the information set forth in the Registration Statement, including any exhibits and schedules thereto. For further information with respect to the Fund and the shares offered hereby, reference is made to the Fund's Registration Statement. Statements contained in the Fund's Prospectus and this Statement of Additional Information as to the contents of any contract or other document referred to are not necessarily complete and in each instance reference is made to the copy of such contract or other document filed as an exhibit to the Registration Statement, each such statement being qualified in all respects by such reference. Copies of the Registration Statement may be inspected without charge at the Securities and Exchange Commission's principal office in Washington, D.C., and copies of all or any part thereof may be obtained from the Securities and Exchange Commission upon the payment of certain fees prescribed by the Securities and Exchange Commission.

**FINANCIAL STATEMENTS**

The audited financial statements for the Fund's most recent fiscal year appear in the Fund's Annual Report, dated February 28, 2009. Such audited financial statements and the unaudited financial statements for the six months ended August 31, 2009, which appear in the Fund's Semi-Annual Report dated August 31, 2009 are incorporated herein by reference into this Statement of Additional Information. The Annual Report and Semi-Annual Report are available without charge by calling 800-257-8787.

NUVEEN CALIFORNIA DIVIDEND ADVANTAGE MUNICIPAL FUND 2

STATEMENT ESTABLISHING AND FIXING THE RIGHTS AND PREFERENCES OF MUNIFUND TERM PREFERRED SHARES

Nuveen California Dividend Advantage Municipal Fund 2 (the Fund ), a Massachusetts business trust, certifies that:

RECITALS

FIRST: The Fund is authorized under Article IV of the Fund's Declaration of Trust, as amended (which, as hereafter restated or amended from time to time, is herein called the Declaration ), to issue an unlimited number of preferred shares, par value \$.01 per share.

SECOND: Pursuant to the authority expressly vested in the Board of Trustees of the Fund by Article IV of the Declaration, the Board of Trustees has, by resolution, authorized the issuance of [a class of] preferred shares, \$.01 par value per share, such shares to be classified as MuniFund Term Preferred Shares ( MuniFund Term Preferred ), and such shares of MuniFund Term Preferred to be issued in one or more series (each such series, a Series ).

THIRD: The preferences, voting powers, restrictions, limitations as to dividends, qualifications, and terms and conditions of redemption, of each Series of MuniFund Term Preferred Shares are set forth in this Statement, as modified, amended or supplemented in the Appendix (each an Appendix and collectively the Appendices ) to this Statement specifically relating to such Series (each such Series being referred to herein as a MuniFund Term Preferred Share and collectively as the MuniFund Term Preferred Shares ).

DEFINITIONS

1.1 Definitions. Unless the context or use indicates another or different meaning or intent and except with respect to any Series as specifically provided in the Appendix applicable to such Series, each of the following terms when used in this Statement shall have the meaning ascribed to it below, whether such term is used in the singular or plural and regardless of tense:

1940 Act means the Investment Company Act of 1940, as amended, or any successor statute.

1940 Act Asset Coverage means asset coverage, as defined for purposes of Section 18(h) of the 1940 Act, of at least 200% with respect to all outstanding senior securities of the Fund which are shares of stock for purposes of the 1940 Act, including all outstanding MuniFund Term Preferred Shares (or such other asset coverage as may in the future be specified in or under the 1940 Act or by rule, regulation or order of United States Securities and Exchange Commission as the minimum asset coverage for senior securities which are shares of stock of a closed-end investment company).

Additional Amount Payment means a payment to a Holder of MuniFund Term Preferred Shares of an amount which, when taken together with the aggregate amount of Taxable Allocations made to such Holder to which such Additional Amount Payment relates, would cause such Holder's dividends in dollars (after federal income tax consequences) from the aggregate of such Taxable Allocations and the related Additional Amount Payment to be equal to the dollar amount of the dividends that would have been received by such Holder if the amount of such aggregate Taxable Allocations would have been excludable (for federal income tax purposes) from the gross income of such Holder. Such Additional Amount Payment shall be calculated (i) without

consideration being given to the time value of money; (ii) assuming that no Holder of MuniFund Term Preferred Shares is subject to the federal alternative minimum tax with respect to dividends received from the Fund; and (iii) assuming that each Taxable Allocation and each Additional Amount Payment (except to the extent such Additional Amount Payment is designated as an exempt-interest dividend under Section 852(b)(5) of the Code) would be taxable in the hands of each Holder of MuniFund Term Preferred Shares at the maximum marginal regular federal individual income tax rate applicable to ordinary income or net capital gains, as applicable, or the maximum marginal regular federal corporate income tax rate applicable to ordinary income or net capital gains, as applicable, whichever is greater, in effect at the time such Additional Amount Payment is paid.

Adviser means Nuveen Asset Management, a Delaware corporation, or such other entity as shall be then serving as the investment adviser of the Fund, and shall include, as appropriate, any sub-adviser duly appointed by the Adviser.

Appendices and Appendix shall have the respective meanings as set forth in the Recitals of this Statement.

Asset Coverage means asset coverage of a class of senior security which is a stock, as defined for purposes of Section 18(h) of the 1940 Act as in effect on the date hereof, determined on the basis of values calculated as of a time within 48 hours (only including Business Days) next preceding the time of such determination.

Asset Coverage Cure Date means, with respect to the failure by the Fund to maintain Asset Coverage as of the close of business on a Business Day (as required by Section 2.4(a)), the date that is thirty (30) calendar days following such Business Day.

Board of Trustees means the Board of Trustees of the Fund or any duly authorized committee thereof as permitted by applicable law.

Business Day means any calendar day on which the New York Stock Exchange is open for trading.

By-Laws means the By-Laws of the Fund as amended from time to time.

Code means the Internal Revenue Code of 1986, as amended.

Common Shares means the common shares of beneficial interest, par value \$.01 per share, of the Fund.

Custodian means a bank, as defined in Section 2(a)(5) of the 1940 Act, that has the qualifications prescribed in paragraph 1 of Section 26(a) of the 1940 Act, or such other entity as shall be providing custodian services to the Fund as permitted by the 1940 Act or any rule, regulation, or order thereunder, and shall include, as appropriate, any similarly qualified sub-custodian duly appointed by the Custodian.

Custodian Agreement means, with respect to any Series, the Custodian Agreement by and among the Custodian and the Fund with respect to such Series.

Date of Original Issue means, with respect to any Series, the date specified as the Date of Original Issue for such Series in the Appendix for such Series.

Declaration shall have the meaning as set forth in the Recitals of this Statement.

Default shall have the meaning as set forth in Section 2.2(h)(i).

Default Period shall have the meaning as set forth in Section 2.2(h)(i).

---

Default Rate shall have the meaning as set forth in Section 2.2(h)(i).

Deposit Securities means, as of any date, any United States dollar-denominated security or other investment of a type described below that either (i) is a demand obligation payable to the holder thereof on any Business Day or (ii) has a maturity date, mandatory redemption date or mandatory payment date, on its face or at the option of the holder, preceding the relevant Redemption Date, Dividend Payment Date or other payment date in respect of which such security or other investment has been deposited or set aside as a Deposit Security:

(1) cash or any cash equivalent;

(2) any U.S. Government Obligation;

(3) any Municipal Obligation that has a credit rating from at least one NRSRO that is the highest applicable rating generally ascribed by such NRSRO to Municipal Obligations with substantially similar terms as of the date of this Statement (or such rating's future equivalent), including (A) any such Municipal Obligation that has been pre-refunded by the issuer thereof with the proceeds of such refunding having been irrevocably deposited in trust or escrow for the repayment thereof and (B) any such fixed or variable rate Municipal Obligation that qualifies as an eligible security under Rule 2a-7 under the 1940 Act;

(4) any investment in any money market fund registered under the 1940 Act that qualifies under Rule 2a-7 under the 1940 Act, or similar investment vehicle described in Rule 12d1-1(b)(2) under the 1940 Act, that invests principally in Municipal Obligations or U.S. Government Obligations or any combination thereof; or

(5) any letter of credit from a bank or other financial institution that has a credit rating from at least one NRSRO that is the highest applicable rating generally ascribed by such NRSRO to bank deposits or short-term debt of similar banks or other financial institutions as of the date of this Statement (or such rating's future equivalent).

Dividend Default shall have the meaning as set forth in Section 2.2(h)(i).

Dividend Payment Date means, with respect to any Series, each of the Dividend Payment Dates for such Series set forth in the Appendix for such Series.

Dividend Period means, with respect to any Series, the Dividend Period for such Series set forth in the Appendix for such Series.

Dividend Rate means, with respect to any Series and as of any date, the Fixed Dividend Rate for that Series as adjusted (if applicable) on such date in accordance with the provisions of Section 2.2(c) and Section 2.2(h).

Effective Leverage Ratio shall have the meaning as set forth in Section 2.4(d).

Effective Leverage Ratio Cure Date shall have the meaning as set forth in Section 2.5(b)(ii)(A).

Electronic Means means email transmission, facsimile transmission or other similar electronic means of communication providing evidence of transmission (but excluding online communications systems covered by a separate agreement) acceptable to the sending party and the receiving party, in any case if operative as between any two parties, or, if not operative, by telephone (promptly confirmed by any other method set forth in this definition), which, in the case of notices to the Redemption and Paying Agent and the Custodian, shall be sent by such means to each of its representatives set forth in the Redemption and Paying Agent Agreement and the Custodian Agreement, respectively.

Exchange Act means the U.S. Securities Exchange Act of 1934, as amended.

Fitch means Fitch Ratings, Inc. and any successor or successors thereto.

Fixed Dividend Rate means, with respect to any Series, the rate per annum specified as the Fixed Dividend Rate for such Series in the Appendix for such Series.

Fund shall have the meaning as set forth in the Preamble to this Statement.

Holder means, with respect to the MuniFund Term Preferred Shares of any Series or any other security issued by the Fund, a Person in whose name such security is registered in the registration books of the Fund maintained by the Redemption and Paying Agent or otherwise.

Liquidation Preference means, with respect to any Series, the amount specified as the liquidation preference per share for that Series in the Appendix for such Series.

Liquidity Account Initial Date means, with respect to any Series, the date designated as the Liquidity Account Initial Date in the Appendix for such Series.

Liquidity Account Investments means Deposit Securities or any other security or investment owned by the Fund that is rated not less than A3 by Moody's, A- by Standard & Poor's, A- by Fitch or an equivalent rating by any other NRSRO (or any such rating's future equivalent).

Liquidity Requirement shall have the meaning as set forth in Section 2.11(b).

Mandatory Redemption Price shall have the meaning as set forth in Section 2.5(b)(i)(A).

Market Value of any asset of the Fund means, for securities for which market quotations are readily available, the market value thereof determined by an independent third-party pricing service designated from time to time by the Board of Trustees. Market Value of any asset shall include any interest accrued thereon. The pricing service values portfolio securities at the mean between the quoted bid and asked price or the yield equivalent when quotations are readily available. Securities for which quotations are not readily available are valued at fair value as determined by the pricing service using methods that include consideration of: yields or prices of Municipal Obligations of comparable quality, type of issue, coupon, maturity and rating; indications as to value from dealers; and general market conditions. The pricing service may employ electronic data processing techniques or a matrix system, or both, to determine recommended valuations.

Moody's means Moody's Investors Service, Inc. and any successor or successors thereto.

Municipal Obligation means municipal securities as described in the prospectus or other offering document for a Series.

MuniFund Term Preferred shall have the meaning as set forth in the Recitals of this Statement.

MuniFund Term Preferred Shares shall have the meaning as set forth in the Recitals of this Statement.

Non-Call Period means, with respect to any Series, the period (if any) during which such Series shall not be subject to redemption at the option of the Fund, as set forth in the Appendix for such Series.

Notice of Redemption shall have the meaning as set forth in Section 2.5(d).

Notice of Taxable Allocation shall have the meaning as set forth in Section 2.10(a).

NRSRO means any nationally recognized statistical rating organization within the meaning of Section 3(a)(62) of the Exchange Act.

---

Optional Redemption Date shall have the meaning as set forth in Section 2.5(c)(i).

Optional Redemption Premium means, with respect to any Series, the premium (expressed as a percentage of the Liquidation Preference of the shares of such Series) payable by the Fund upon the redemption of MuniFund Term Preferred Shares of such Series at the option of the Fund, as set forth in the Appendix for such Series.

Optional Redemption Price shall have the meaning as set forth in Section 2.5(c)(i).

Outstanding means, as of any date with respect to MuniFund Term Preferred Shares of any Series, the number of MuniFund Term Preferred Shares of such Series theretofore issued by the Fund except (without duplication):

- (a) any shares of such Series theretofore cancelled or redeemed or delivered to the Redemption and Paying Agent for cancellation or redemption in accordance with the terms hereof;
- (b) any shares of such Series as to which the Fund shall have given a Notice of Redemption and irrevocably deposited with the Redemption and Paying Agent sufficient Deposit Securities to redeem such shares in accordance with Section 2.5 hereof;
- (c) any shares of such Series as to which the Fund shall be the Holder or the beneficial owner; and
- (d) any shares of such Series represented by any certificate in lieu of which any new certificate has been executed and delivered by the Fund.

Person means and includes an individual, a partnership, the Fund, a trust, a corporation, a limited liability company, an unincorporated association, a joint venture or other entity or a government or any agency or political subdivision thereof.

Preferred Shares means the authorized preferred shares of beneficial interest, par value \$.01 per share, of the Fund, including shares of each Series of MuniFund Term Preferred Shares, shares of any other series of such preferred shares now or hereafter issued by the Fund, and any other shares of beneficial interest hereafter authorized and issued by the Fund of a class having priority over any other class as to distribution of assets or payments of dividends.

Rating Agencies means any of Moody's, Standard & Poor's or Fitch, as designated by the Board of Trustees from time to time as contemplated by Section 2.7 to be a Rating Agency for purposes of this Statement. The Board of Trustees has initially designated Moody's, Standard & Poor's and Fitch to be Rating Agencies hereunder. In the event that at any time any Rating Agency (i) ceases to be a Rating Agency for purposes of any Series of MuniFund Term Preferred Shares, any references to any credit rating of such Rating Agency in this Statement or any Appendix shall be deemed instead to be references to the equivalent credit rating of the Rating Agency designated by the Board of Trustees to replace such Rating Agency (if any such replacement is made) as of the most recent date on which such other Rating Agency published credit ratings for such Series of MuniFund Term Preferred Shares or (ii) replaces any credit rating of such Rating Agency with a replacement credit rating, any references to such replaced credit rating of such Rating Agency contained in this Statement or any Appendix shall instead be deemed to be references to such replacement credit rating. In the event that at any time the designation of any Rating Agency as a Rating Agency for purposes of any Series of MuniFund Term Preferred Shares is terminated by the Board of Trustees, any rating of such terminated Rating Agency, to the extent it would have been taken into account in any of the provisions of this Statement or the Appendix for such Series, shall be disregarded, and only the ratings of the then-designated Rating Agencies for such Series shall be taken into account for purposes of this Statement and such Appendix.

---

Rating Agency Guidelines means the guidelines of any Rating Agency, as they may be amended or modified from time to time, compliance with which is required to cause such Rating Agency to continue to issue a rating with respect to a Series of MuniFund Term Preferred Shares for so long as such Series is Outstanding (which credit rating may consist of a credit rating on the MuniFund Term Preferred Shares generally or the Preferred Shares generally).

Rating Downgrade Period means, with respect to any Series, any period during which the MuniFund Term Preferred Shares of such Series are rated A+ or lower by Standard & Poor's, A1 or lower by Moody's and A+ or lower by Fitch (or an equivalent of such ratings, as permitted or contemplated by the definition of Rating Agency).

Redemption and Paying Agent means, with respect to any Series, State Street Bank and Trust Company and its successors or any other redemption and paying agent appointed by the Fund with respect to such Series.

Redemption and Paying Agent Agreement means, with respect to any Series, the Redemption and Paying Agent Agreement or other similarly titled agreement by and among the Redemption and Paying Agent for such Series and the Fund with respect to such Series.

Redemption Date shall have the meaning as set forth in Section 2.5(d).

Redemption Default shall have the meaning as set forth in Section 2.2(h)(i).

Redemption Price shall mean the Term Redemption Price, the Mandatory Redemption Price or the Optional Redemption Price, as applicable.

Securities Depository shall mean The Depository Trust Company and its successors and assigns or any other securities depository selected by the Fund that agrees to follow the procedures required to be followed by such securities depository as set forth in this Statement with respect to the MuniFund Term Preferred Shares.

Series shall have the meaning as set forth in the Recitals of this Statement.

Standard and Poor's means Standard and Poor's Financial Services LLC, a subsidiary of The McGraw-Hill Companies, Inc., and any successor or successors thereto.

Statement means this Statement Establishing and Fixing the Rights and Preferences of MuniFund Term Preferred Shares, as it may be amended from time to time in accordance with its terms.

Taxable Allocation means, with respect to any Series, the allocation of any net capital gains or other income taxable for federal income tax purposes to a dividend paid in respect of such Series.

Term Redemption Amount shall have the meaning as set forth in Section 2.11(a).

Term Redemption Date means, with respect to any Series, the date specified as the Term Redemption Date in the Appendix for such Series.

Term Redemption Liquidity Account shall have the meaning as set forth in Section 2.11(a).

Term Redemption Price shall have the meaning as set forth in Section 2.5(a).

U.S. Government Obligations means direct obligations of the United States or of its agencies or instrumentalities that are entitled to the full faith and credit of the United States and that, other than United States Treasury Bills, provide for the periodic payment of interest and the full payment of principal at maturity or call for redemption.

---

Voting Period shall have the meaning as set forth in Section 2.6(b)(i).

With respect to any Series, any additional definitions specifically set forth in the Appendix relating to such Series and any amendments to any definitions specifically set forth in the Appendix relating to such Series, as such Appendix may be amended from time to time, shall be incorporated herein and made part hereof by reference thereto, but only with respect to such Series.

1.2 Interpretation. The headings preceding the text of Articles and Sections included in this Statement are for convenience only and shall not be deemed part of this Statement or be given any effect in interpreting this Statement. The use of the masculine, feminine or neuter gender or the singular or plural form of words herein shall not limit any provision of this Statement. The use of the terms including or include shall in all cases herein mean including, without limitation or include, without limitation, respectively. Reference to any Person includes such Person's successors and assigns to the extent such successors and assigns are permitted by the terms of any applicable agreement, and reference to a Person in a particular capacity excludes such Person in any other capacity or individually. Reference to any agreement (including this Statement), document or instrument means such agreement, document or instrument as amended or modified and in effect from time to time in accordance with the terms thereof and, if applicable, the terms hereof. Except as otherwise expressly set forth herein, reference to any law means such law as amended, modified, codified, replaced or re-enacted, in whole or in part, including rules, regulations, enforcement procedures and any interpretations promulgated thereunder. Underscored references to Articles or Sections shall refer to those portions of this Statement. The use of the terms hereunder, hereof, hereto and words of similar import shall refer to this Statement as a whole and not to any particular Article, Section or clause of this Statement.

#### **TERMS APPLICABLE TO ALL SERIES OF**

#### **MUNIFUND TERM PREFERRED SHARES**

Except for such changes and amendments hereto with respect to a Series of MuniFund Term Preferred Shares that are specifically contemplated by the Appendix relating to such Series, each Series of MuniFund Term Preferred Shares shall have the following terms:

##### 2.1 Number of Shares; Ranking.

(a) The number of authorized shares constituting any Series of MuniFund Term Preferred Shares shall be as set forth with respect to such Series in the Appendix hereto relating to such Series. No fractional MuniFund Term Preferred Shares shall be issued.

(b) The MuniFund Term Preferred Shares of each Series shall rank on a parity with shares of each other Series of MuniFund Term Preferred Shares and with shares of any other series of Preferred Shares as to the payment of dividends and the distribution of assets upon dissolutions, liquidation or winding up of the affairs of the Fund. The MuniFund Term Preferred Shares of each Series shall have preference with respect to the payment of dividends and as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund over the Common Shares as set forth herein.

(c) No Holder of MuniFund Term Preferred Shares shall have, solely by reason of being such a Holder, any preemptive or other right to acquire, purchase or subscribe for any MuniFund Term Preferred Shares or Common Shares or other securities of the Fund which it may hereafter issue or sell.

##### 2.2 Dividends and Distributions.

(a) The Holders of any MuniFund Term Preferred Shares of any Series shall be entitled to receive, when, as and if declared by, or under authority granted by, the Board of Trustees, out of funds legally available therefor and in preference to dividends and distributions on Common Shares, cumulative cash dividends and distributions on each share of such Series, calculated separately for each Dividend Period for

such Series at the Dividend Rate in effect from time to time for such Series during such Dividend Period, computed on the basis of a 360-day year consisting of twelve 30-day months, on an amount equal to the Liquidation Preference for a share of such Series, and no more. Dividends and distributions on the MuniFund Term Preferred Shares of any Series shall accumulate from the Date of Original Issue with respect to such Series. Dividends payable on any MuniFund Term Preferred Shares of any Series for any period of less than a full monthly Dividend Period, including in connection with the first Dividend Period for such shares or upon any redemption of such shares on any Redemption Date other than on a Dividend Payment Date, shall be computed on the basis of a 360-day year consisting of twelve 30-day months and the actual number of days elapsed for any period of less than one month.

(b) Dividends on shares of each Series of MuniFund Term Preferred Shares with respect to any Dividend Period shall be declared to the Holders of record of such shares as their names shall appear on the registration books of the Fund at the close of business on the fifteenth (15th) day of the Dividend Period (or if such day is not a Business Day, the next preceding Business Day) and shall be paid as provided in [Section 2.2\(g\)](#) hereof.

(c) So long as Municipal Term Shares of a Series are rated on any date AAA by Standard & Poor's, Aaa by Moody's or AAA by Fitch (or an equivalent of such ratings, as permitted or contemplated by the definition of "Rating Agency"), the Dividend Rate applicable to MuniFund Term Preferred Shares of such Series for such date shall be equal to the Fixed Dividend Rate for such Series. If the highest credit rating assigned on any date to an Outstanding Series of MuniFund Term Preferred Shares by any Rating Agency is equal to one of the ratings set forth in the table below (or its equivalent, as permitted or contemplated by the definition of "Rating Agency"), the Dividend Rate applicable to the MuniFund Term Preferred Shares of such Series for such date shall be adjusted by multiplying the Fixed Dividend Rate for such Series by the applicable percentage (expressed as a decimal) set forth opposite the applicable highest credit rating so assigned on such date to such Series by such Rating Agency in the table below.

CREDIT RATINGS

Standard & Poor's	Moody's	Fitch	Applicable Percentage
AA+ to AA-	Aa1 to Aa3	AA+ to AA-	110%
A+ to A-	A1 to A3	A+ to A-	125%
BBB+ to BBB-	Baa1 to Baa3	BBB+ to BBB-	150%
BB+ and lower	Ba1 and lower	BB+ and lower	200%

If no Rating Agency is rating an Outstanding Series of MuniFund Term Preferred Shares, the Dividend Rate applicable to the MuniFund Term Preferred Shares of such Series for such date shall be adjusted by multiplying the Fixed Dividend Rate for such Series by 200%.

(d)(i) No full dividends and distributions shall be declared or paid on shares of a Series of MuniFund Term Preferred Shares for any Dividend Period or part thereof unless full cumulative dividends and distributions due through the most recent dividend payment dates therefor for all outstanding Preferred Shares (including shares of other Series of MuniFund Term Preferred Shares) have been or contemporaneously are declared and paid through the most recent dividend payment dates therefor. If full cumulative dividends and distributions due have not been declared and paid on all outstanding Preferred Shares of any series, any dividends and distributions being declared and paid on a Series of MuniFund Term Preferred Shares will be declared and paid as nearly pro rata as possible in proportion to the respective amounts of dividends and distributions accumulated but unpaid on each such series of Preferred Shares on the relevant dividend payment date for such series. No Holders of MuniFund Term Preferred Shares shall be entitled to any dividends and distributions, whether payable in cash, property or shares, in excess of full cumulative dividends and distributions as provided in this [Section 2.2\(d\)\(i\)](#) on such MuniFund Term Preferred Shares.

(ii) For so long as any MuniFund Term Preferred Shares are Outstanding, the Fund shall not: (x) declare any dividend or other distribution (other than a dividend or distribution paid in Common Shares) in respect of the Common Shares, (y) call for redemption, redeem, purchase or otherwise acquire for consideration any Common Shares, or (z) pay any proceeds of the liquidation of the Fund in respect of the Common Shares, unless, in each case, (A) immediately thereafter, the Fund shall have 1940 Act Asset Coverage after deducting the amount of such dividend or distribution or redemption or purchase price or liquidation proceeds, (B) all cumulative dividends and distributions on all MuniFund Term Preferred Shares and all other Preferred Shares ranking on a parity with the MuniFund Term Preferred Shares due on or prior to the date of the applicable dividend, distribution, redemption, purchase or acquisition shall have been declared and paid (or shall have been declared and Deposit Securities or sufficient funds (in accordance with the terms of such Preferred Shares) for the payment thereof shall have been deposited irrevocably with the paying agent for such Preferred Shares) and (C) the Fund shall have deposited Deposit Securities pursuant to and in accordance with the requirements of Section 2.5(d)(ii) hereof with respect to Outstanding MuniFund Term Preferred Shares of any Series to be redeemed pursuant to Section 2.5(a) or Section 2.5(b) hereof for which a Notice of Redemption shall have been given or shall have been required to be given in accordance with the terms hereof on or prior to the date of the applicable dividend, distribution, redemption, purchase or acquisition.

(iii) Any dividend payment made on shares of a Series of MuniFund Term Preferred Shares shall first be credited against the dividends and distributions accumulated with respect to the earliest Dividend Period for such Series for which dividends and distributions have not been paid.

(e) Not later than 12:00 noon, New York City time, on the Dividend Payment Date for a Series of MuniFund Term Preferred Shares, the Fund shall deposit with the Redemption and Paying Agent Deposit Securities having an aggregate Market Value on such date sufficient to pay the dividends and distributions that are payable on such Dividend Payment Date in respect of such Series. The Fund may direct the Redemption and Paying Agent with respect to the investment or reinvestment of any such Deposit Securities prior to the Dividend Payment Date, provided that such investment consists exclusively of Deposit Securities and provided further that the proceeds of any such investment will be available as same day funds at the opening of business on such Dividend Payment Date.

(f) All Deposit Securities paid to the Redemption and Paying Agent for the payment of dividends payable on a Series of MuniFund Term Preferred Shares shall be held in trust for the payment of such dividends by the Redemption and Paying Agent for the benefit of the Holders of such Series entitled to the payment of such dividends pursuant to Section 2.2(g). Any moneys paid to the Redemption and Paying Agent in accordance with the foregoing but not applied by the Redemption and Paying Agent to the payment of dividends, including interest earned on such moneys while so held, will, to the extent permitted by law, be repaid to the Fund as soon as possible after the date on which such moneys were to have been so applied, upon request of the Fund.

(g) Dividends on shares of a Series of MuniFund Term Preferred Shares shall be paid on each Dividend Payment Date for such Series to the Holders of shares of such Series as their names appear on the registration books of the Fund at the close of business on the fifteenth (15<sup>th</sup>) day of the Dividend Period to which such Dividend Payment Date relates (or if such day is not a Business Day, the next preceding Business Day). Dividends in arrears on shares of a Series of MuniFund Term Preferred Shares for any past Dividend Period may be declared and paid at any time, without reference to any regular Dividend Payment Date, to the Holders of shares of such Series as their names appear on the registration books of the Fund on such date, not exceeding fifteen (15) calendar days preceding the payment date thereof, as may be fixed by the Board of Trustees. No interest or sum of money in lieu of interest will be payable in respect of any dividend payment or payments on shares of any Series of MuniFund Term Preferred Shares which may be in arrears.

(h)(i) The Dividend Rate on a Series of MuniFund Term Preferred Shares shall be adjusted to the Default Rate (as defined below) in the following circumstances. Subject to the cure provisions below, a Default Period with respect to a Series of MuniFund Term Preferred Shares shall commence on any date the Fund fails to deposit with the Redemption and Paying Agent by 12:00 noon, New York City time, on (A) a Dividend Payment Date for such Series, Deposit Securities that will provide funds available to the Redemption and Paying Agent on such Dividend Payment Date sufficient to pay the full amount of any dividend on such Series payable on such Dividend Payment Date (a Dividend Default ) or (B) an applicable Redemption Date for such Series, Deposit Securities that will provide funds available to the Redemption and Paying Agent on such Redemption Date sufficient to pay the full amount of the Redemption Price payable in respect of such Series on such Redemption Date (a Redemption Default and together with a Dividend Default, hereinafter referred to as Default ). Subject to the cure provisions of Section 2.2(h)(ii) below, a Default Period with respect to a Dividend Default or a Redemption Default on a Series of MuniFund Term Preferred Shares shall end on the Business Day on which, by 12:00 noon, New York City time, an amount equal to all unpaid dividends on such Series and any unpaid Redemption Price on such Series shall have been deposited irrevocably in trust in same-day funds with the Redemption and Paying Agent. In the case of any Default on a Series of MuniFund Term Preferred Shares, the Dividend Rate for such Series for each calendar day during the Default Period will be equal to the Default Rate. The Default Rate on a Series of MuniFund Term Preferred Shares for any calendar day shall be equal to the Dividend Rate in effect on such day for such Series plus five percent (5%) per annum.

(ii) No Default Period for a Series of MuniFund Term Preferred Shares with respect to any Default on such Series shall be deemed to commence if the amount of any dividend or any Redemption Price due in respect of such Series (if such Default is not solely due to the willful failure of the Fund) is deposited irrevocably in trust, in same-day funds, with the Redemption and Paying Agent by 12:00 noon, New York City time, on a Business Day that is not later than three (3) Business Days after the applicable Dividend Payment Date or Redemption Date for such Series with respect to which such Default occurred, together with an amount equal to the Default Rate on such Series applied to the amount and period of such non-payment on such Series, based on the actual number of calendar days comprising such period divided by 360.

### 2.3 Liquidation Rights.

(a) In the event of any liquidation, dissolution or winding up of the affairs of the Fund, whether voluntary or involuntary, the Holders of MuniFund Term Preferred Shares shall be entitled to receive out of the assets of the Fund available for distribution to shareholders, after satisfying claims of creditors but before any distribution or payment shall be made in respect of the Common Shares, a liquidation distribution equal to the Liquidation Preference for such shares, plus an amount equal to all unpaid dividends and distributions on such shares accumulated to (but excluding) the date fixed for such distribution or payment on such shares (whether or not earned or declared by the Fund, but excluding interest thereon), and such Holders shall be entitled to no further participation in any distribution or payment in connection with any such liquidation, dissolution or winding up.

(b) If, upon any liquidation, dissolution or winding up of the affairs of the Fund, whether voluntary or involuntary, the assets of the Fund available for distribution among the Holders of all Outstanding MuniFund Term Preferred Shares and any other outstanding Preferred Shares shall be insufficient to permit the payment in full to such Holders of the Liquidation Preference of such MuniFund Term Preferred Shares plus accumulated and unpaid dividends and distributions on such shares as provided in Section 2.3(a) above and the amounts due upon liquidation with respect to such other Preferred Shares, then such available assets shall be distributed among the Holders of such MuniFund Term Preferred Shares and such other Preferred Shares ratably in proportion to the respective preferential liquidation amounts to which they are entitled. In connection with any liquidation, dissolution or winding up of the affairs of the Fund, whether voluntary or involuntary, unless and until the Liquidation Preference on each Outstanding MuniFund Term Preferred Share plus accumulated and unpaid dividends and distributions on such shares as provided in Section 2.3(a)

above have been paid in full to the Holders of such shares, no dividends, distributions or other payments will be made on, and no redemption, purchase or other acquisition by the Fund will be made by the Fund in respect of, the Common Shares.

(c) Neither the sale of all or substantially all of the property or business of the Fund, nor the merger, consolidation or reorganization of the Fund into or with any other business or statutory trust, corporation or other entity, nor the merger, consolidation or reorganization of any other business or statutory trust, corporation or other entity into or with the Fund shall be a dissolution, liquidation or winding up, whether voluntary or involuntary, for the purpose of this Section 2.3.

#### 2.4 Coverage & Leverage Tests.

(a) Asset Coverage Requirement. For so long as any shares of a Series of MuniFund Term Preferred Shares are Outstanding, the Fund shall have Asset Coverage of at least 225% as of the close of business on each Business Day. If the Fund shall fail to maintain such Asset Coverage as of any time as of which such compliance is required to be determined as aforesaid, the provisions of Section 2.5(b)(i) shall be applicable, which provisions shall constitute the sole remedy for the Fund's failure to comply with the provisions of this Section 2.4(a).

(b) Calculation of Asset Coverage. For purposes of determining whether the requirements of Section 2.4(a) are satisfied, (i) no MuniFund Term Preferred Shares of any Series or other Preferred Shares shall be deemed to be Outstanding for purposes of any computation required by Section 2.4(a) if, prior to or concurrently with such determination, either (x) sufficient Deposit Securities or other sufficient funds (in accordance with the terms of such Series or other Preferred Shares) to pay the full redemption price for such Series or other Preferred Shares (or the portion thereof to be redeemed) shall have been deposited in trust with the paying agent for such Series or other Preferred Shares and the requisite notice of redemption for such Series or other Preferred Shares (or the portion thereof to be redeemed) shall have been given or (y) sufficient Deposit Securities or other sufficient funds (in accordance with the terms of such Series or other Preferred Shares) to pay the full redemption price for such Series or other Preferred Shares (or the portion thereof to be redeemed) shall have been segregated by the Custodian and the Fund from the assets of the Fund in the same manner and to the same extent as is contemplated by Section 2.11 with respect to the Liquidity Requirement, and (ii) the Deposit Securities or other sufficient funds that shall have been deposited with the applicable paying agent and/or segregated by the Custodian, as applicable, as provided in clause (i) of this sentence shall not be included as assets of the Fund for purposes of such computation.

(c) Effective Leverage Ratio Requirement. For so long as any MuniFund Term Preferred Shares of a Series are Outstanding, the Effective Leverage Ratio shall not exceed 50% as of the close of business on any Business Day. If the Effective Leverage Ratio shall exceed such percentage as of any time as of which such compliance is required to be determined as aforesaid, the provisions of Section 2.5(b)(ii) shall be applicable, which provisions shall constitute the sole remedy for the Fund's failure to comply with the provisions of this Section 2.4(c).

(d) Calculation of Effective Leverage Ratio. For purposes of determining whether the requirements of Section 2.4(c) are satisfied, the Effective Leverage Ratio on any date shall mean the quotient of:

(i) The sum of (A) the aggregate liquidation preference of the Fund's senior securities (as that term is defined in the 1940 Act) that are stock for purposes of the 1940 Act, excluding, without duplication, (1) any such senior securities for which the Fund has issued a notice of redemption and either has delivered Deposit Securities or sufficient funds (in accordance with the terms of such senior securities) to the paying agent for such senior securities or otherwise has adequate Deposit Securities or sufficient funds on hand for the purpose of such redemption and (2) any such senior securities that are to be redeemed with net proceeds from the sale of the MuniFund Term Preferred Shares, for which the Fund has delivered Deposit Securities or sufficient funds (in accordance with the terms of such senior securities) to the paying agent for such senior securities or otherwise has adequate Deposit Securities or sufficient funds on hand for the purpose of such redemption; (B) the aggregate principal amount of the

---

Fund's senior securities representing indebtedness (as that term is defined in the 1940 Act); and (C) the aggregate principal amount of floating rate securities not owned by the Fund that correspond to the associated inverse floating rate securities owned by the Fund; divided by

(ii) The sum of (A) the market value (determined in accordance with the Fund's valuation procedures) of the Fund's total assets (including amounts attributable to senior securities), less the amount of the Fund's accrued liabilities (other than liabilities for the aggregate principal amount of senior securities representing indebtedness, including floating rate securities), and (B) the aggregate principal amount of floating rate securities not owned by the Fund that correspond to the associated inverse floating rate securities owned by the Fund.

2.5 Redemption. Each Series of MuniFund Term Preferred Shares shall be subject to redemption by the Fund as provided below:

(a) Term Redemption. The Fund shall redeem all shares of a Series of MuniFund Term Preferred Shares on the Term Redemption Date for such Series, at a price per share equal to the Liquidation Preference per share of such Series plus an amount equal to all unpaid dividends and distributions on such share of such Series accumulated to (but excluding) the Term Redemption Date for such Series (whether or not earned or declared by the Fund, but excluding interest thereon) (the Term Redemption Price).

(b) Asset Coverage and Effective Leverage Ratio Mandatory Redemption.

(i) Asset Coverage Mandatory Redemption. (A) If the Fund fails to comply with the Asset Coverage requirement as provided in Section 2.4(a) as of any time as of which such compliance is required to be determined in accordance with Section 2.4(a) and such failure is not cured as of the Asset Coverage Cure Date, the Fund shall, to the extent permitted by the 1940 Act and Massachusetts law, by the close of business on such Asset Coverage Cure Date, fix a redemption date and proceed to redeem in accordance with the terms of such Preferred Shares, a sufficient number of Preferred Shares, which at the Fund's sole option (to the extent permitted by the 1940 Act and Massachusetts law) may include any number or proportion of MuniFund Term Preferred Shares of any Series, to enable it to meet the requirements of Section 2.5(b)(i)(B). In the event that any shares of a Series of MuniFund Term Preferred Shares then Outstanding are to be redeemed pursuant to this Section 2.5(b)(i), the Fund shall redeem such shares at a price per share equal to the Liquidation Preference per share of such Series plus an amount equal to all unpaid dividends and distributions on such share of such Series accumulated to (but excluding) the date fixed for such redemption by the Board of Trustees (whether or not earned or declared by the Fund, but excluding interest thereon) (the Mandatory Redemption Price).

(B) On the Redemption Date for a redemption contemplated by Section 2.5(b)(i)(A), the Fund shall redeem, out of funds legally available therefor, such number of Preferred Shares (which may include at the sole option of the Fund any number or proportion of MuniFund Term Preferred Shares of any Series) as shall be equal to the lesser of (x) the minimum number of Preferred Shares, the redemption of which, if deemed to have occurred immediately prior to the opening of business on the Asset Coverage Cure Date, would result in the Fund having Asset Coverage on such Asset Coverage Cure Date of at least 230% (provided, however, that if there is no such minimum number of MuniFund Term Preferred Shares and other Preferred Shares the redemption or retirement of which would have such result, all MuniFund Term Preferred Shares and other Preferred Shares then outstanding shall be redeemed), and (y) the maximum number of Preferred Shares that can be redeemed out of funds expected to be legally available therefor in accordance with the Declaration and applicable law. Notwithstanding the foregoing, in the event that Preferred Shares are redeemed pursuant to this Section 2.5(b)(i), the Fund may at its sole option, but is not required to, redeem a sufficient number of shares of any Series of MuniFund Term Preferred Shares pursuant to this Section 2.5(b)(i) that, when aggregated with other Preferred Shares redeemed by the Fund, would result, if deemed to have occurred immediately

prior to the opening of business on the Asset Coverage Cure Date, in the Fund having Asset Coverage on such Asset Coverage Cure Date of up to and including 285%. The Fund shall effect such redemption on the date fixed by the Fund therefor, which date shall not be later than thirty (30) calendar days after such Asset Coverage Cure Date, except that if the Fund does not have funds legally available for the redemption of all of the required number of MuniFund Term Preferred Shares and other Preferred Shares which have been designated to be redeemed or the Fund otherwise is unable to effect such redemption on or prior to thirty (30) calendar days after such Asset Coverage Cure Date, the Fund shall redeem those MuniFund Term Preferred Shares and other Preferred Shares which it was unable to redeem on the earliest practicable date on which it is able to effect such redemption. If fewer than all of the Outstanding MuniFund Term Preferred Shares of a Series are to be redeemed pursuant to this Section 2.5(b)(i), the number of MuniFund Term Preferred Shares of such Series to be redeemed shall be redeemed (A) pro rata among the Outstanding shares of such Series, (B) by lot or (C) in such other manner as the Board of Trustees may determine to be fair and equitable.

(ii) Effective Leverage Ratio Mandatory Redemption. (A) If the Fund fails to comply with the Effective Leverage Ratio requirement as provided in Section 2.4(c) as of any time as of which such compliance is required to be determined in accordance with Section 2.4(c) and such failure is not cured as of the close of business on the date that is thirty (30) calendar days following such Business Day (the Effective Leverage Ratio Cure Date), the Fund shall within thirty (30) calendar days following the Effective Leverage Ratio Cure Date cause the Effective Leverage Ratio to not exceed 50% by (x) engaging in transactions involving or relating to the floating rate securities not owned by the Fund and/or the inverse floating rate securities owned by the Fund, including the purchase, sale or retirement thereof, (y) to the extent permitted by the 1940 Act and Massachusetts law, redeeming in accordance with the Declaration a sufficient number of Preferred Shares, which at the Fund's sole option (to the extent permitted by the 1940 Act and Massachusetts law) may include any number or proportion of MuniFund Term Preferred Shares of any Series, or (z) engaging in any combination of the actions contemplated by clauses (x) and (y) of this Section 2.5(b)(ii)(A). In the event that any MuniFund Term Preferred Shares of a Series are to be redeemed pursuant to clause (y) of this Section 2.5(b)(ii)(A), the Fund shall redeem such MuniFund Term Preferred Shares at a price per MuniFund Term Preferred Share equal to the Mandatory Redemption Price.

(B) On the Redemption Date for a redemption contemplated by clause (y) of Section 2.5(b)(ii)(A), the Fund shall not redeem more than the maximum number of Preferred Shares that can be redeemed out of funds expected to be legally available therefor in accordance with the Declaration and applicable law. If the Fund is unable to redeem the required number of MuniFund Term Preferred Shares and other Preferred Shares which have been designated to be redeemed in accordance with clause (y) of Section 2.5(b)(ii)(A) due to the unavailability of legally available funds, the Fund shall redeem those MuniFund Term Preferred Shares and other Preferred Shares which it was unable to redeem on the earliest practicable date on which it is able to effect such redemption. If fewer than all of the Outstanding MuniFund Term Preferred Shares of a Series are to be redeemed pursuant to clause (y) of Section 2.5(b)(ii)(A), the number of MuniFund Term Preferred Shares of such Series to be redeemed shall be redeemed (A) pro rata among the Outstanding shares of such Series, (B) by lot or (C) in such other manner as the Board of Trustees may determine to be fair and equitable.

(c) Optional Redemption.

(i) Subject to the provisions of Section 2.5(c)(ii), (A) on any Business Day following the expiration of the Non-Call Period for a Series of MuniFund Term Preferred Shares or (B) on any Business Day during a Rating Downgrade Period for a Series of MuniFund Term Preferred Shares, including a Business Day during the Non-Call Period for such Series (any Business Day referred to in clause (A) or (B) of this sentence, an Optional Redemption Date), the Fund may redeem in whole or from time to time in part the Outstanding MuniFund Term Preferred Shares of such Series, at a

---

redemption price per MuniFund Term Preferred Share (the Optional Redemption Price ) equal to (x) the Liquidation Preference per MuniFund Term Preferred Share of such Series plus (y) an amount equal to all unpaid dividends and distributions on such MuniFund Term Preferred Share of such Series accumulated to (but excluding) the Optional Redemption Date (whether or not earned or declared by the Fund, but excluding interest thereon) plus (z) the Optional Redemption Premium per share (if any) with respect to an optional redemption of MuniFund Term Preferred Shares of such Series that is effected on such Optional Redemption Date.

(ii) If fewer than all of the outstanding shares of a Series of MuniFund Term Preferred Shares are to be redeemed pursuant to Section 2.5(c)(i), the shares of such Series to be redeemed shall be selected either (A) pro rata among such Series, (B) by lot or (C) in such other manner as the Board of Trustees may determine to be fair and equitable. Subject to the provisions of this Statement and applicable law, the Board of Trustees will have the full power and authority to prescribe the terms and conditions upon which MuniFund Term Preferred Shares will be redeemed pursuant to this Section 2.5(c) from time to time.

(iii) The Fund may not on any date deliver a Notice of Redemption pursuant to Section 2.5(d) in respect of a redemption contemplated to be effected pursuant to this Section 2.5(c) unless on such date the Fund has available Deposit Securities for the Optional Redemption Date contemplated by such Notice of Redemption having a Market Value not less than the amount (including any applicable premium) due to Holders of MuniFund Term Preferred Shares by reason of the redemption of such MuniFund Term Preferred Shares on such Optional Redemption Date.

(d) Procedures for Redemption.

(i) If the Fund shall determine or be required to redeem, in whole or in part, MuniFund Term Preferred Shares of a Series pursuant to Section 2.5(a), (b) or (c), the Fund shall deliver a notice of redemption (the Notice of Redemption ), by overnight delivery, by first class mail, postage prepaid or by Electronic Means to Holders thereof, or request the Redemption and Paying Agent, on behalf of the Fund, to promptly do so by overnight delivery, by first class mail, postage prepaid or by Electronic Means. A Notice of Redemption shall be provided not more than forty-five (45) calendar days prior to the date fixed for redemption in such Notice of Redemption (the Redemption Date ). Each such Notice of Redemption shall state: (A) the Redemption Date; (B) the Series and number of MuniFund Term Preferred Shares to be redeemed; (C) the CUSIP number for MuniFund Term Preferred Shares of such Series; (D) the applicable Redemption Price on a per share basis; (E) if applicable, the place or places where the certificate(s) for such shares (properly endorsed or assigned for transfer, if the Board of Trustees requires and the Notice of Redemption states) are to be surrendered for payment of the Redemption Price; (F) that dividends on the MuniFund Term Preferred Shares to be redeemed will cease to accumulate from and after such Redemption Date; and (G) the provisions of this Statement under which such redemption is made. If fewer than all MuniFund Term Preferred Shares held by any Holder are to be redeemed, the Notice of Redemption delivered to such Holder shall also specify the number of MuniFund Term Preferred Shares to be redeemed from such Holder or the method of determining such number. The Fund may provide in any Notice of Redemption relating to a redemption contemplated to be effected pursuant to this Statement that such redemption is subject to one or more conditions precedent and that the Fund shall not be required to effect such redemption unless each such condition has been satisfied at the time or times and in the manner specified in such Notice of Redemption. No defect in the Notice of Redemption or delivery thereof shall affect the validity of redemption proceedings, except as required by applicable law.

(ii) If the Fund shall give a Notice of Redemption, then at any time from and after the giving of such Notice of Redemption and prior to 12:00 noon, New York City time, on the Redemption Date (so long as any conditions precedent to such redemption have been met or waived by the Fund), the Fund shall (A) deposit with the Redemption and Paying Agent Deposit Securities having an aggregate Market Value on the date thereof no less than the Redemption Price of the MuniFund Term Preferred

Shares to be redeemed on the Redemption Date and (B) give the Redemption and Paying Agent irrevocable instructions and authority to pay the applicable Redemption Price to the Holders of the MuniFund Term Preferred Shares called for redemption on the Redemption Date. The Fund may direct the Redemption and Paying Agent with respect to the investment of any Deposit Securities consisting of cash so deposited prior to the Redemption Date, provided that the proceeds of any such investment shall be available at the opening of business on the Redemption Date as same day funds. Notwithstanding the provisions of clause (A) of the preceding sentence, if the Redemption Date is the Term Redemption Date, then such deposit of Deposit Securities (which may come in whole or in part from the Term Redemption Liquidity Account) shall be made no later than fifteen (15) calendar days prior to the Term Redemption Date.

(iii) Upon the date of the deposit of such Deposit Securities, all rights of the Holders of the MuniFund Term Preferred Shares so called for redemption shall cease and terminate except the right of the Holders thereof to receive the Redemption Price thereof and such MuniFund Term Preferred Shares shall no longer be deemed Outstanding for any purpose whatsoever (other than (A) the transfer thereof prior to the applicable Redemption Date and (B) the accumulation of dividends thereon in accordance with the terms hereof up to (but excluding) the applicable Redemption Date, which accumulated dividends, unless previously declared and paid as contemplated by the last sentence of Section 2.5(d)(vi) below, shall be payable only as part of the applicable Redemption Price on the Redemption Date). The Fund shall be entitled to receive, promptly after the Redemption Date, any Deposit Securities in excess of the aggregate Redemption Price of the MuniFund Term Preferred Shares called for redemption on the Redemption Date. Any Deposit Securities so deposited that are unclaimed at the end of ninety (90) calendar days from the Redemption Date shall, to the extent permitted by law, be repaid to the Fund, after which the Holders of the MuniFund Term Preferred Shares so called for redemption shall look only to the Fund for payment of the Redemption Price thereof. The Fund shall be entitled to receive, from time to time after the Redemption Date, any interest on the Deposit Securities so deposited.

(iv) On or after the Redemption Date, each Holder of MuniFund Term Preferred Shares in certificated form (if any) that are subject to redemption shall surrender the certificate(s) evidencing such MuniFund Term Preferred Shares to the Fund at the place designated in the Notice of Redemption and shall then be entitled to receive the Redemption Price for such MuniFund Term Preferred Shares, without interest, and in the case of a redemption of fewer than all the MuniFund Term Preferred Shares represented by such certificate(s), a new certificate representing the MuniFund Term Preferred Shares that were not redeemed.

(v) Notwithstanding the other provisions of this Section 2.5, except as otherwise required by law, the Fund shall not redeem any MuniFund Term Preferred Shares unless all accumulated and unpaid dividends and distributions on all Outstanding MuniFund Term Preferred Shares and other series of Preferred Shares ranking on a parity with the MuniFund Term Preferred Shares with respect to dividends and distributions for all applicable past dividend periods (whether or not earned or declared by the Fund) (x) shall have been or are contemporaneously paid or (y) shall have been or are contemporaneously declared and Deposit Securities or sufficient funds (in accordance with the terms of such Preferred Shares) for the payment of such dividends and distributions shall have been or are contemporaneously deposited with the Redemption and Paying Agent or other applicable paying agent for such Preferred Shares in accordance with the terms of such Preferred Shares, provided, however, that the foregoing shall not prevent the purchase or acquisition of Outstanding MuniFund Term Preferred Shares pursuant to an otherwise lawful purchase or exchange offer made on the same terms to Holders of all Outstanding MuniFund Term Preferred Shares and any other series of Preferred Shares for which all accumulated and unpaid dividends and distributions have not been paid.

(vi) To the extent that any redemption for which Notice of Redemption has been provided is not made by reason of the absence of legally available funds therefor in accordance with the Declaration and applicable law, such redemption shall be made as soon as practicable to the extent such funds

become available. No Redemption Default shall be deemed to have occurred if the Fund shall fail to deposit in trust with the Redemption and Paying Agent the Redemption Price with respect to any shares where (1) the Notice of Redemption relating to such redemption provided that such redemption was subject to one or more conditions precedent and (2) any such condition precedent shall not have been satisfied at the time or times and in the manner specified in such Notice of Redemption. Notwithstanding the fact that a Notice of Redemption has been provided with respect to any MuniFund Term Preferred Shares, dividends may be declared and paid on such MuniFund Term Preferred Shares in accordance with their terms if Deposit Securities for the payment of the Redemption Price of such MuniFund Term Preferred Shares shall not have been deposited in trust with the Redemption and Paying Agent for that purpose.

(e) Redemption and Paying Agent as Trustee of Redemption Payments by Fund. All Deposit Securities transferred to the Redemption and Paying Agent for payment of the Redemption Price of MuniFund Term Preferred Shares called for redemption shall be held in trust by the Redemption and Paying Agent for the benefit of Holders of MuniFund Term Preferred Shares so to be redeemed until paid to such Holders in accordance with the terms hereof or returned to the Fund in accordance with the provisions of Section 2.5(d)(iii) above.

(f) Compliance With Applicable Law. In effecting any redemption pursuant to this Section 2.5, the Fund shall use its best efforts to comply with all applicable conditions precedent to effecting such redemption under the 1940 Act and any applicable Massachusetts law, but shall effect no redemption except in accordance with the 1940 Act and any applicable Massachusetts law.

(g) Modification of Redemption Procedures. Notwithstanding the foregoing provisions of this Section 2.5, the Fund may, in its sole discretion and without a shareholder vote, modify the procedures set forth above with respect to notification of redemption for the MuniFund Term Preferred Shares, provided that such modification does not materially and adversely affect the Holders of the MuniFund Term Preferred Shares or cause the Fund to violate any applicable law, rule or regulation; and provided further that no such modification shall in any way alter the rights or obligations of the Redemption and Paying Agent without its prior consent.

## 2.6 Voting Rights.

(a) One Vote Per MuniFund Term Preferred Share. Except as otherwise provided in the Declaration or as otherwise required by law, (i) each Holder of MuniFund Term Preferred Shares shall be entitled to one vote for each MuniFund Term Preferred Share held by such Holder on each matter submitted to a vote of shareholders of the Fund, and (ii) the holders of outstanding Preferred Shares, including Outstanding MuniFund Term Preferred Shares, and of Common Shares shall vote together as a single class; provided, however, that the holders of outstanding Preferred Shares, including Outstanding MuniFund Term Preferred Shares, shall be entitled, as a class, to the exclusion of the Holders of all other securities and Common Shares of the Fund, to elect two trustees of the Fund at all times. Subject to Section 2.6(b), the Holders of outstanding Common Shares and Preferred Shares, including MuniFund Term Preferred Shares, voting together as a single class, shall elect the balance of the trustees.

(b) Voting For Additional Trustees.

(i) Voting Period. During any period in which any one or more of the conditions described in clauses (A) or (B) of this Section 2.6(b)(i) shall exist (such period being referred to herein as a Voting Period ), the number of trustees constituting the Board of Trustees shall be automatically increased by the smallest number that, when added to the two trustees elected exclusively by the Holders of Preferred Shares, including MuniFund Term Preferred Shares, would constitute a majority of the Board of Trustees as so increased by such smallest number; and the Holders of Preferred Shares, including MuniFund Term Preferred Shares, shall be entitled, voting as a class on a one-vote-per-share basis (to the exclusion of the Holders of all other securities and classes of capital stock of the Fund), to elect

such smallest number of additional trustees, together with the two trustees that such Holders are in any event entitled to elect. A Voting Period shall commence:

(A) if, at the close of business on any dividend payment date for any outstanding Preferred Share including any Outstanding MuniFund Term Preferred Share, accumulated dividends (whether or not earned or declared) on such outstanding share of Preferred Shares equal to at least two (2) full years' dividends shall be due and unpaid and sufficient cash or specified securities shall not have been deposited with the Redemption and Paying Agent or other applicable paying agent for the payment of such accumulated dividends; or

(B) if at any time Holders of Preferred Shares are otherwise entitled under the 1940 Act to elect a majority of the Board of Trustees.

Upon the termination of a Voting Period, the voting rights described in this Section 2.6(b)(i) shall cease, subject always, however, to the reversion of such voting rights in the Holders of Preferred Shares upon the further occurrence of any of the events described in this Section 2.6(b)(i).

(ii) Notice of Special Meeting. As soon as practicable after the accrual of any right of the Holders of Preferred Shares to elect additional trustees as described in Section 2.6(b)(i), the Fund shall call a special meeting of such Holders and notify the Redemption and Paying Agent and/or such other Person as is specified in the terms of such Preferred Shares to receive notice (i) by mailing or delivery by Electronic Means or (ii) in such other manner and by such other means as are specified in the terms of such Preferred Shares, a notice of such special meeting to such Holders, such meeting to be held not less than ten (10) nor more than thirty (30) calendar days after the date of the delivery by Electronic Means or mailing of such notice. If the Fund fails to call such a special meeting, it may be called at the expense of the Fund by any such Holder on like notice. The record date for determining the Holders of Preferred Shares entitled to notice of and to vote at such special meeting shall be the close of business on the fifth (5<sup>th</sup>) Business Day preceding the calendar day on which such notice is mailed. At any such special meeting and at each meeting of Holders of Preferred Shares held during a Voting Period at which trustees are to be elected, such Holders, voting together as a class (to the exclusion of the Holders of all other securities and classes of capital stock of the Fund), shall be entitled to elect the number of trustees prescribed in Section 2.6(b)(i) on a one-vote-per-share basis.

(iii) Terms of Office of Existing Trustees. The terms of office of the incumbent trustees of the Fund at the time of a special meeting of Holders of the Preferred Shares to elect additional trustees in accordance with Section 2.6(b)(i) shall not be affected by the election at such meeting by the Holders of MuniFund Term Preferred Shares and such other Holders of Preferred Shares of the number of trustees that they are entitled to elect, and the trustees so elected by the Holders of MuniFund Term Preferred Shares and such other Holders of Preferred Shares, together with the two (2) trustees elected by the Holders of Preferred Shares in accordance with Section 2.6(a) hereof and the remaining trustees elected by the holders of the Common Shares and Preferred Shares, shall constitute the duly elected trustees of the Fund.

(iv) Terms of Office of Certain Trustees to Terminate Upon Termination of Voting Period. Simultaneously with the termination of a Voting Period, the terms of office of the additional trustees elected by the Holders of the Preferred Shares pursuant to Section 2.6(b)(i) shall terminate, the remaining trustees shall constitute the trustees of the Fund and the voting rights of the Holders of Preferred Shares to elect additional trustees pursuant to Section 2.6(b)(i) shall cease, subject to the provisions of the last sentence of Section 2.6(b)(i).

(c) Holders of MuniFund Term Preferred Shares to Vote on Certain Matters.

(i) Certain Amendments Requiring Approval of Municipal Term Shares. Except as otherwise permitted by the terms of this Statement, so long as any MuniFund Term Preferred Shares are Outstanding, the Fund shall not, without the affirmative vote or consent of the Holders of at least a

---

majority of the MuniFund Term Preferred Shares of all Series Outstanding at the time, voting together as a separate class, amend, alter or repeal the provisions of the Declaration, or this Statement, whether by merger, consolidation or otherwise, so as to materially and adversely affect any preference, right or power of such MuniFund Term Preferred Shares or the Holders thereof; provided, however, that (i) an change in the capitalization of the Fund in accordance with Section 2.8 hereof shall not be considered to materially and adversely affect the rights and preferences of the MuniFund Term Preferred Shares, and (ii) a division of a MuniFund Term Preferred Share shall be deemed to affect such preferences, rights or powers only if the terms of such division materially and adversely affect the Holders of the MuniFund Term Preferred Shares. For purposes of the foregoing, no matter shall be deemed to adversely affect any preference, right or power of a MuniFund Term Preferred Share of such Series or the Holder thereof unless such matter (i) alters or abolishes any preferential right of such MuniFund Term Preferred Share, or (ii) creates, alters or abolishes any right in respect of redemption of such MuniFund Term Preferred Share (other than as a result of a division of a MuniFund Term Preferred Share). So long as any MuniFund Term Preferred Shares are Outstanding, the Fund shall not, without the affirmative vote or consent of at least 66<sup>2</sup>/<sub>3</sub>% of the Holders of the MuniFund Term Preferred Shares Outstanding at the time, voting as a separate class, file a voluntary application for relief under Federal bankruptcy law or any similar application under state law for so long as the Fund is solvent and does not foresee becoming insolvent.

(ii) 1940 Act Matters. Unless a higher percentage is provided for in the Declaration, the affirmative vote of the Holders of at least a majority of the outstanding shares of Preferred Stock, including MuniFund Term Preferred Shares Outstanding at the time, voting as a separate class, shall be required (A) to approve any conversion of the Fund from a closed-end to an open-end investment company, (B) to approve any plan of reorganization (as such term is used in the 1940 Act) adversely affecting such shares, or (C) to approve any other action requiring a vote of security holders of the Fund under Section 13(a) of the 1940 Act. For purposes of the foregoing, the vote of a majority of the outstanding shares of Preferred Stock means the vote at an annual or special meeting duly called of (i) sixty-seven (67%) or more of such shares present at a meeting, if the Holders of more than fifty percent (50%) of such shares are present or represented by proxy at such meeting, or (ii) more than fifty percent (50%) of such shares, whichever is less.

(iii) Certain Amendments Requiring Approval of Specific Series of MuniFund Term Preferred Shares. Except as otherwise permitted by the terms of this Statement, so long as any MuniFund Term Preferred Shares of a Series are Outstanding, the Fund shall not, without the affirmative vote or consent of the Holders of at least a majority of the MuniFund Term Preferred Shares of such Series, Outstanding at the time, voting as a separate class, amend, alter or repeal the provisions of the Appendix relating to such Series, whether by merger, consolidation or otherwise, so as to materially and adversely affect any preference, right or power set forth in such Appendix of the MuniFund Term Preferred Shares of such Series or the Holders thereof; provided, however, that (i) an change in the capitalization of the Fund in accordance with Section 2.8 hereof shall not be considered to materially and adversely affect the rights and preferences of the MuniFund Term Preferred Shares of such Series, and (ii) a division of a MuniFund Term Preferred Share shall be deemed to affect such preferences, rights or powers only if the terms of such division materially and adversely affect the Holders of the MuniFund Term Preferred Shares of such Series; and provided, further, that no amendment, alteration or repeal of the obligation of the Fund to (x) pay the Term Redemption Price on the Term Redemption Date for a Series, or (y) accumulate dividends at the Dividend Rate (as set forth in this Statement and the applicable Appendix hereto) for a Series shall be effected without, in each case, the prior unanimous vote or consent of the Holders of such Series of MuniFund Term Preferred Shares. For purposes of the foregoing, no matter shall be deemed to adversely affect any preference, right or power of a MuniFund Term Preferred Share of a Series or the Holder thereof unless such matter (i) alters or abolishes any preferential right of such MuniFund Term Preferred Share, or (ii) creates, alters or abolishes any right in respect of redemption of such MuniFund Term Preferred Share.

(d) Voting Rights Set Forth Herein Are Sole Voting Rights. Unless otherwise required by law or the Declaration, the Holders of MuniFund Term Preferred Shares shall not have any relative rights or preferences or other special rights with respect to voting other than those specifically set forth in this Section 2.6.

(e) No Cumulative Voting. The Holders of MuniFund Term Preferred Shares shall have no rights to cumulative voting.

(f) Voting for Trustees Sole Remedy for Fund's Failure to Declare or Pay Dividends. In the event that the Fund fails to declare or pay any dividends on any Series of MuniFund Term Preferred Shares on the Dividend Payment Date therefor, the exclusive remedy of the Holders of the MuniFund Term Preferred Shares shall be the right to vote for trustees pursuant to the provisions of this Section 2.6. Nothing in this Section 2.6(f) shall be deemed to affect the obligation of the Fund to accumulate and, if permitted by applicable law, the Declaration and this Statement, pay dividends at the Default Rate in the circumstances contemplated by Section 2.2(h) hereof.

(g) Holders Entitled to Vote. For purposes of determining any rights of the Holders of MuniFund Term Preferred Shares to vote on any matter, whether such right is created by this Statement, by the Declaration, by statute or otherwise, no Holder of MuniFund Term Preferred Shares shall be entitled to vote any MuniFund Term Preferred Share and no MuniFund Term Preferred Share shall be deemed to be Outstanding for the purpose of voting or determining the number of shares required to constitute a quorum if, prior to or concurrently with the time of determination of shares entitled to vote or the time of the actual vote on the matter, as the case may be, the requisite Notice of Redemption with respect to such MuniFund Term Preferred Share shall have been given in accordance with this Statement and Deposit Securities for the payment of the Redemption Price of such MuniFund Term Preferred Share shall have been deposited in trust with the Redemption and Paying Agent for that purpose. No MuniFund Term Preferred Share held by the Fund shall have any voting rights or be deemed to be outstanding for voting or for calculating the voting percentage required on any other matter or other purposes.

#### 2.7 Rating Agency.

The Fund shall use commercially reasonable efforts to cause at least one Rating Agency to issue a credit rating with respect to each Series of MuniFund Term Preferred Shares for so long as such Series is Outstanding (which credit rating may consist of a credit rating on the MuniFund Term Preferred Shares generally or the Preferred Shares generally). The Fund shall use commercially reasonable efforts to comply with any applicable Rating Agency Guidelines. The Board of Trustees may elect to terminate the designation as a Rating Agency of any Rating Agency previously designated by the Board of Trustees to act as a Rating Agency for purposes hereof (provided that at least one Rating Agency continues to maintain a rating with respect to the MuniFund Term Preferred Shares), and may elect to replace any Rating Agency previously designated as a Rating Agency by the Board of Trustees with any other NRSRO permitted to act as Rating Agency as contemplated by the definition of Rating Agency and not so designated as a Rating Agency at such time, provided that such replacement shall not occur unless such replacement Rating Agency shall have at the time of such replacement (i) published a rating for the MuniFund Term Preferred Shares of such Series and (ii) entered into an agreement with the Fund to continue to publish such rating subject to the Rating Agency's customary conditions. The Rating Agency Guidelines of any Rating Agency may be amended by such Rating Agency without the vote, consent or approval of the Fund, the Board of Trustees or any Holder of Preferred Shares, including any MuniFund Term Preferred Shares, or Common Shares.

#### 2.8 Issuance of Additional Preferred Shares.

So long as any MuniFund Term Preferred Shares are Outstanding, the Fund may, without the vote or consent of the Holders thereof, authorize, establish and create and issue and sell shares of one or more series of a class of senior securities of the Fund representing stock under Section 18 of the 1940 Act, ranking on a parity

with MuniFund Term Preferred Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or the winding up of the affairs of the Fund, in addition to then Outstanding Series of MuniFund Term Preferred Shares, including additional Series of MuniFund Term Preferred Shares, and authorize, issue and sell additional shares of any such series of Preferred Shares then outstanding or so established and created, including additional MuniFund Term Preferred Shares of any Series, in each case in accordance with applicable law, provided that the Fund shall, immediately after giving effect to the issuance of such additional Preferred Shares and to its receipt and application of the proceeds thereof, including to the redemption of Preferred Shares with such proceeds, have Asset Coverage (calculated in the same manner as is contemplated by Section 2.4(b) hereof) of at least 225%.

2.9 Status of Redeemed or Repurchased MuniFund Term Preferred Shares.

MuniFund Term Preferred Shares that at any time have been redeemed or purchased by the Fund shall, after such redemption or purchase, have the status of authorized but unissued Preferred Shares.

2.10 Distributions with respect to Taxable Allocations.

Holders of shares of each Series of MuniFund Term Preferred Shares shall be entitled to receive, when, as and if declared by the Board of Trustees, out of funds legally available therefor, additional distributions payable with respect to Taxable Allocations that are paid with respect to shares of such Series in accordance with one of the procedures set forth in clauses (a) through (c) of this Section 2.10:

(a) The Fund may provide notice to the Redemption and Paying Agent prior to the commencement of any Dividend Period for a Series of MuniFund Term Preferred Shares of the amount of a Taxable Allocation that will be made in respect of shares of such Series for such Dividend Period (a Notice of Taxable Allocation ). Such Notice of Taxable Allocation will state the amount of the dividends payable in respect of each share of the applicable Series for such Dividend Period that will be treated as a Taxable Allocation and the amount of any Additional Amount Payments to be paid in respect of such Taxable Allocation. If the Fund provides a Notice of Taxable Allocation with respect to dividends payable on shares of a Series of MuniFund Term Preferred Shares for a Dividend Period, the Fund shall, in addition to and in conjunction with the payment of such dividends, make a supplemental distribution in respect of each share of such Series for such Dividend Period of an additional amount equal to the Additional Amount Payment payable in respect of the Taxable Allocation paid on such share for such Dividend Period.

(b) If the Fund does not provide a Notice of Taxable Allocation as provided in Section 2.10(a) with respect to a Taxable Allocation that is made in respect of shares of a Series of MuniFund Term Preferred Shares, the Fund may make one or more supplemental distributions on shares of such Series equal to the amount of such Taxable Allocation. Any such supplemental distribution in respect of shares of a Series may be declared and paid on any date, without reference to any regular Dividend Payment Date, to the Holders of shares of such Series as their names appear on the registration books of the Fund on such date, not exceeding fifteen (15) calendar days preceding the payment date of such supplemental distribution, as may be fixed by the Board of Trustees.

(c) If in connection with a redemption of MTP Shares, the Fund makes a Taxable Allocation without having either given advance notice thereof pursuant to Section 2.10(a) or made one or more supplemental distributions pursuant to Section 2.10(b), the Fund shall direct the Redemption and Paying Agent to send an Additional Amount Payment in respect of such Taxable Allocation to each Holder of such shares at such Holder's address as the same appears or last appeared on the record books of the Fund.

(d) The Fund shall not be required to pay Additional Amount Payments with respect to shares of any Series of MuniFund Term Preferred Shares with respect to any net capital gains or other taxable income determined by the Internal Revenue Service to be allocable in a manner different from the manner used by the Fund.

2.11 Term Redemption Liquidity Account and Liquidity Requirement.

(a) On or prior to the Liquidity Account Initial Date with respect to any Series of MuniFund Term Preferred Shares, the Fund shall cause the Custodian to segregate, by means of appropriate identification on its books and records or otherwise in accordance with the Custodian's normal procedures, from the other assets of the Fund (the Term Redemption Liquidity Account ) Liquidity Account Investments with a Market Value equal to at least One Hundred and Ten Percent (110%) of the Term Redemption Amount with respect to such Series. The Term Redemption Amount for any Series of MuniFund Term Preferred Shares shall be equal to the Redemption Price to be paid on the Term Redemption Date for such Series, based on the number of shares of such Series then Outstanding, assuming for this purpose that the Dividend Rate for such Series in effect at the time of the creation of the Term Redemption Liquidity Account for such Series will be the Dividend Rate in effect for such Series until the Term Redemption Date for such Series. If, on any date after the Liquidity Account Initial Date, the aggregate Market Value of the Liquidity Account Investments included in the Term Redemption Liquidity Account for a Series of MuniFund Term Preferred Shares as of the close of business on any Business Day is less than One Hundred and Ten Percent (110%) of the Term Redemption Amount with respect to such Series, then the Fund shall cause the Custodian and the Adviser to take all such necessary actions, including segregating additional assets of the Fund as Liquidity Account Investments, so that the aggregate Market Value of the Liquidity Account Investments included in the Term Redemption Liquidity Account for such Series is at least equal to One Hundred and Ten Percent (110%) of the Term Redemption Amount with respect to such Series not later than the close of business on the next succeeding Business Day. With respect to assets of the Fund segregated as Liquidity Account Investments with respect to a Series of MuniFund Term Preferred Shares, the Adviser, on behalf of the Fund, shall be entitled to instruct the Custodian on any date to release any Liquidity Account Investments from such segregation and to substitute therefor other Liquidity Account Investments, so long as (i) the assets of the Fund segregated as Liquidity Account Investments at the close of business on such date have a Market Value equal to One Hundred and Ten Percent (110%) of the Term Redemption Amount with respect to such Series and (ii) the assets of the Fund designated and segregated as Deposit Securities at the close of business on such date have a Market Value equal to the Liquidity Requirement (if any) determined in accordance with Section 2.11(b) below with respect to such Series for such date. The Fund shall cause the Custodian not to permit any lien, security interest or encumbrance to be created or permitted to exist on or in respect of any Liquidity Account Investments included in the Term Redemption Liquidity Account for any Series of MuniFund Term Preferred Shares, other than liens, security interests or encumbrances arising by operation of law and any lien of the Custodian with respect to the payment of its fees or repayment for its advances.

(b) The Market Value of the Deposit Securities held in the Term Redemption Liquidity Account for a Series of MuniFund Term Preferred Shares, from and after the 15th day of the calendar month that is the number of months preceding the month of the Term Redemption Date for such Series specified in the table set forth below, shall not be less than the percentage of the Term Redemption Amount for such Series set forth below opposite such number of months (the Liquidity Requirement ), but in all cases subject to the cure provisions of Section 2.11(c) below:

Number of Months Preceding:	Value of Deposit Securities as Percentage of Term Redemption Amount
5	20%
4	40%
3	60%
2	80%
1	100%

(c) If the aggregate Market Value of the Deposit Securities included in the Term Redemption Liquidity Account for a Series of MuniFund Term Preferred Shares as of the close of business on any Business Day is

less than the Liquidity Requirement in respect of such Series for such Business Day, then the Fund shall cause the segregation of additional or substitute Deposit Securities in respect of the Term Redemption Liquidity Account for such Series, so that the aggregate Market Value of the Deposit Securities included in the Term Redemption Liquidity Account for such Series is at least equal to the Liquidity Requirement for such Series not later than the close of business on the next succeeding Business Day.

(d) The Deposit Securities included in the Term Redemption Liquidity Account for a Series of MuniFund Term Preferred Shares may be applied by the Fund, in its discretion, towards payment of the Term Redemption Price for such Series as contemplated by Section 2.5(d). Upon the deposit by the Fund with the Redemption and Paying Agent of Deposit Securities having an initial combined Market Value sufficient to effect the redemption of the MuniFund Term Preferred Shares of a Series on the Term Redemption Date for such Series in accordance with Section 2.5(d)(ii), the requirement of the Fund to maintain the Term Redemption Liquidity Account as contemplated by this Section 2.11 shall lapse and be of no further force and effect.

#### 2.12 Global Certificate.

Prior to the commencement of a Voting Period, (i) all shares of any Series of MuniFund Term Preferred Shares Outstanding from time to time shall be represented by one global certificate for such Series registered in the name of the Securities Depository or its nominee and (ii) no registration of transfer of shares of such Series of MuniFund Term Preferred Shares shall be made on the books of the Fund to any Person other than the Securities Depository or its nominee. The foregoing restriction on registration of transfer shall be conspicuously noted on the face or back of the global certificates.

#### 2.13 Notice.

All notices or communications hereunder, unless otherwise specified in this Statement, shall be sufficiently given if in writing and delivered in person, by telecopier, by Electronic Means or by overnight mail or delivery or mailed by first-class mail, postage prepaid. Notices delivered pursuant to this Section 2.13 shall be deemed given on the date received or, if mailed by first class mail, the date five (5) calendar days after which such notice is mailed.

#### 2.14 Termination.

In the event that no shares of a Series of MuniFund Term Preferred Shares are Outstanding, all rights and preferences of the shares of such Series established and designated hereunder shall cease and terminate, and all obligations of the Fund under this Statement with respect to such Series shall terminate.

#### 2.15 Appendices.

The designation of each Series of MuniFund Term Preferred Shares shall be set forth in an Appendix to this Statement. The Board of Trustees may, by resolution duly adopted, without shareholder approval (except as otherwise provided by this Statement or required by applicable law) (1) amend the Appendix to this Statement relating to a Series so as to reflect any amendments to the terms applicable to such Series including an increase in the number of authorized shares of such Series and (2) add additional Series of MuniFund Term Preferred Shares by including a new Appendix to this Statement relating to such Series.

#### 2.16 Actions on Other than Business Days.

Unless otherwise provided herein, if the date for making any payment, performing any act or exercising any right, in each case as provided for in this Statement, is not a Business Day, such payment shall be made, act performed or right exercised on the next succeeding Business Day, with the same force and effect as if made or

done on the nominal date provided therefor, and, with respect to any payment so made, no dividends, interest or other amount shall accrue for the period between such nominal date and the date of payment.

2.17 Modification.

The Board of Trustees, without the vote of the Holders of MuniFund Term Preferred Shares, may interpret, supplement or amend the provisions of this Statement or any Appendix hereto to supply any omission, resolve any inconsistency or ambiguity or to cure, correct or supplement any defective or inconsistent provision, including any provision that becomes defective after the date hereof because of impossibility of performance or any provision that is inconsistent with any provision of any other Preferred Shares of the Fund.

2.18 No Additional Rights.

Unless otherwise required by law or the Declaration, the Holders of MuniFund Term Preferred Shares shall not have any relative rights or preferences or other special rights other than those specifically set forth in this Statement.

**NUVEEN CALIFORNIA DIVIDEND ADVANTAGE MUNICIPAL FUND 2**

**MUNIFUND TERM PREFERRED SHARES, [ ]% SERIES 2015**

Preliminary Statement and Incorporation By Reference

This Appendix establishes a Series of MuniFund Term Preferred Shares of Nuveen California Dividend Advantage Municipal Fund 2. Except as set forth below, this Appendix incorporates by reference the terms set forth with respect to all Series of such MuniFund Term Preferred Shares in that Statement Establishing and Fixing the Rights and Preferences of MuniFund Term Preferred Shares dated [ ], 2010 (the MTP Statement ). This Appendix has been adopted by resolution of the Board of Trustees of Nuveen California Dividend Advantage Municipal Fund 2. Capitalized terms used herein but not defined herein have the respective meanings therefor set forth in the MTP Statement.

Section 1. Designation as to Series.

MuniFund Term Preferred Shares, [ ]% Series 2015: A series of [ ] Preferred Shares classified as MuniFund Term Preferred Shares is hereby designated as the MuniFund Term Preferred Shares, [ ]% Series 2015 (the Series 2015 MTP Shares ). Each share of such Series shall have such preferences, voting powers, restrictions, limitations as to dividends and distributions, qualifications and terms and conditions of redemption, in addition to those required by applicable law and those that are expressly set forth in the Declaration and the MTP Statement (except as the MTP Statement may be expressly modified by this Appendix), as are set forth in this Appendix A. The Series 2015 MTP Shares shall constitute a separate series of Preferred Shares and of the MuniFund Term Preferred Shares and each Series 2015 MTP Share shall be identical. The following terms and conditions shall apply solely to the Series 2015 MTP Shares:

Section 2. Number of Authorized Shares of Series.

The number of authorized shares is [ ].

Section 3. Date of Original Issue with respect to Series.

The Date of Original Issue is [ ], 2010.

Section 4. Fixed Dividend Rate Applicable to Series.

The Fixed Dividend Rate is [ ] %.

Section 5. Liquidation Preference Applicable to Series.

The Liquidation Preference is \$10.00 per share.

Section 6. Term Redemption Date Applicable to Series.

The Term Redemption Date is [ ] 1, 2015.

Section 7. Dividend Payment Dates Applicable to Series.

The Dividend Payment Dates are the first Business Day of the month next following each Dividend Period except that any dividend paid with respect to any Dividend Period consisting of the month of December in any year shall be paid on the last Business Day of such December.

Section 8. Non-Call Period Applicable to Series.

The Non-Call Period is the period beginning on the Date of Original of Issue and ending at the close of business on [ ], 201[ ].

Section 9. Liquidity Account Initial Date Applicable to Series.

The Liquidity Account Initial Date is [ ], 2014.

Section 10. Exceptions to Certain Definitions Applicable to the Series.

The following definitions contained under the heading Definitions in the MTP Statement are hereby amended as follows:

Not applicable.

Section 11. Additional Definitions Applicable to the Series.

The following terms shall have the following meanings (with terms defined in the singular having comparable meanings when used in the plural and vice versa), unless the context otherwise requires:

Dividend Period means, with respect to each Series 2015 MTP Share, in the case of the first Dividend Period, the period beginning on the Date of Original Issue for such Series and ending on and including [ ], 2010 and for each subsequent Dividend Period, the period beginning on and including the first calendar day of the month following the month of which the previous Dividend Period ended and ending on and including the last calendar day of such month.

Optional Redemption Premium means with respect to each Series 2015 MTP Share an amount equal to:

(A) if the Optional Redemption Date for the Series 2015 MTP Share does not occur during a Rating Downgrade Period but occurs on or after [ ], 2011 and prior to [ ], 2011, 1.00% of the Liquidation Preference for such Series 2015 MTP Share;

(B) if the Optional Redemption Date for the Series 2015 MTP Share does not occur during a Rating Downgrade Period but occurs on a date that is on or after [ ], 2011, and prior to [ ], 2012, 0.5% of the Liquidation Preference for such Series 2015 MTP Share; or

(C) if the Optional Redemption Date for the Series 2015 MTP Share either occurs during a Rating Downgrade Period or occurs on a date that is on or after [ ], 2012, 0.00% of the Liquidation Preference for such Series 2015 MTP Share.

Section 12. Amendments to Terms of MuniFund Term Preferred Shares Applicable to the Series.

The following provisions contained under the heading Terms of the MuniFund Term Preferred Shares in the MTP Statement are hereby amended as follows:

Not applicable.

Section 13. Additional Terms and Provisions Applicable to the Series.

The following provisions shall be incorporated into and be deemed part of the MTP Statement:

Notwithstanding anything in Section 2.2(b) or 2.2(g) of the MTP Statement to the contrary, dividends on the Series 2015 MTP Shares for the first Dividend Period for such Series shall be paid to Holders of shares of such Series as their names appear on the registration books of the Fund at the close of business on [ ], 2010.

IN WITNESS WHEREOF, Nuveen California Dividend Advantage Municipal Fund 2 has caused this Appendix to be signed on [            ], 2010 in its name and on its behalf by a duly authorized officer. The Declaration and the MTP Statement are on file with the Secretary of State of the Commonwealth of Massachusetts, and the said officer of the Fund has executed this Appendix as an officer and not individually, and the obligations and rights set forth in this Appendix are not binding upon any such officer, or the trustees of the Fund or shareholders of the Fund, individually, but are binding only upon the assets and property of the Fund.

NUVEEN CALIFORNIA DIVIDEND ADVANTAGE  
MUNICIPAL FUND 2

**APPENDIX B**

**Ratings of Investments**

Standard & Poor's Corporation A brief description of the applicable Standard & Poor's Financial Services LLC, a subsidiary of The McGraw-Hill Companies ( Standard & Poor's or S&P ), rating symbols and their meanings (as published by S&P) follows:

A Standard & Poor's issue credit rating is a current opinion of the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program (including ratings on medium term note programs and commercial paper programs). It takes into consideration the creditworthiness of guarantors, insurers, or other forms of credit enhancement on the obligation and takes into account the currency in which the obligation is denominated. The issue credit rating is not a recommendation to purchase, sell, or hold a financial obligation, inasmuch as it does not comment as to market price or suitability for a particular investor.

Issue credit ratings are based on current information furnished by the obligors or obtained by Standard & Poor's from other sources it considers reliable. Standard & Poor's does not perform an audit in connection with any credit rating and may, on occasion, rely on unaudited financial information. Credit ratings may be changed, suspended, or withdrawn as a result of changes in, or unavailability of, such information, or based on other circumstances.

Issue credit ratings can be either long-term or short-term. Short-term ratings are generally assigned to those obligations considered short-term in the relevant market. In the U.S., for example, that means obligations with an original maturity of no more than 365 days including commercial paper.

Short-term ratings are also used to indicate the creditworthiness of an obligor with respect to put features on long-term obligations. The result is a dual rating, in which the short-term rating addresses the put feature, in addition to the usual long-term rating. Medium-term notes are assigned long-term ratings.

**LONG-TERM ISSUE CREDIT RATINGS**

Issue credit ratings are based in varying degrees, on the following considerations:

1. Likelihood of payment capacity and willingness of the obligor to meet its financial commitment on an obligation in accordance with the terms of the obligation;
2. Nature of and provisions of the obligation; and
3. Protection afforded by, and relative position of, the obligation in the event of bankruptcy, reorganization, or other arrangement under the laws of bankruptcy and other laws affecting creditors' rights.

The issue ratings definitions are expressed in terms of default risk. As such, they pertain to senior obligations of an entity. Junior obligations are typically rated lower than senior obligations, to reflect the lower priority in bankruptcy, as noted above. (Such differentiation applies when an entity has both senior and subordinated obligations, secured and unsecured obligations, or operating company and holding company obligations.) Accordingly, in the case of junior debt, the rating may not conform exactly with the category definition.

**AAA**

An obligation rated AAA has the highest rating assigned by Standard & Poor's. The obligor's capacity to meet its financial commitment on the obligation is extremely strong.

AA

An obligation rated AA differs from the highest-rated obligations only in small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong.

A

An obligation rated A is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong.

BBB

An obligation rated BBB exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

BB, B, CCC, CC, and C

Obligations rated BB, B, CCC, CC, and C are regarded as having significant speculative characteristics. BB indicates the least degree of speculation and C the highest. While such obligations will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposures to adverse conditions.

BB

An obligation rated BB is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions, which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation.

B

An obligation rated B is more vulnerable to nonpayment than obligations rated BB, but the obligor currently has the capacity to meet its financial commitment on the obligation. Adverse business, financial, or economic conditions will likely impair the obligor's capacity or willingness to meet its financial commitment on the obligation.

CCC

An obligation rated CCC is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation. In the event of adverse business, financial, or economic conditions, the obligor is not likely to have the capacity to meet its financial commitment on the obligation.

CC

An obligation rated CC is currently highly vulnerable to nonpayment.

C

A Subordinated debt or preferred stock obligation rated C is CURRENTLY HIGHLY VULNERABLE to nonpayment. The C rating may be used to cover a situation where a bankruptcy petition has been filed or similar action has been taken, but payments on this obligation are being continued. A C also will be assigned to a preferred stock issue in arrears on dividends or sinking fund payments, but that is currently paying.

D

An obligation rated D is in payment default. The D rating category is used when payments on an obligation are not made on the date due even if the applicable grace period has not expired, unless Standard & Poor's believes that such payments will be made during such grace period. The D rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action if payments on an obligation are jeopardized.

Plus (+) or minus (-). The ratings from AA to CCC may be modified by the addition of a plus or minus sign to show relative standing within the major rating categories.

r

This symbol is attached to the ratings of instruments with significant noncredit risks. It highlights risks to principal or volatility of expected returns which are not addressed in the credit rating.

N.R.

This indicates that no rating has been requested, that there is insufficient information on which to base a rating, or that Standard & Poor's does not rate a particular obligation as a matter of policy.

Short-Term Issue Credit Ratings

A-1

A short-term obligation rated A-1 is rated in the highest category by Standard & Poor's. The obligor's capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong.

A-2

A short-term obligation rated A-2 is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor's capacity to meet its financial commitment on the obligation is satisfactory.

A-3

A short-term obligation rated A-3 exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

B

A short-term obligation rated B is regarded as having significant speculative characteristics. The obligor currently has the capacity to meet its financial commitment on the obligation; however, it faces major ongoing uncertainties which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation.

C

A short-term obligation rated C is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation.

D

A short-term obligation rated D is in payment default. The D rating category is used when payments on an obligation are not made on the date due even if the applicable grace period has not expired, unless Standard & Poor's believes that such payments will be made during such grace period. The D rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action if payments on an obligation are jeopardized.

Moody's Investors Service, Inc. A brief description of the applicable Moody's Investors Service, Inc. (Moody's) rating symbols and their meanings (as published by Moody's) follows:

#### Municipal Bonds

##### Aaa

Bonds that are rated Aaa are judged to be of the best quality. They carry the smallest degree of investment risk and are generally referred to as gilt edged. Interest payments are protected by a large or by an exceptionally stable margin and principal is secure. While the various protective elements are likely to change, such changes as can be visualized are most unlikely to impair the fundamentally strong position of such issues.

##### Aa

Bonds that are rated Aa are judged to be of high quality by all standards. Together with the Aaa group they comprise what are generally known as high grade bonds. They are rated lower than the best bonds because margins of protection may not be as large as in Aaa securities or fluctuation of protective elements may be of greater amplitude or there may be other elements present that make the long-term risks appear somewhat larger than in Aaa securities.

##### A

Bonds that are rated A possess many favorable investment attributes and are to be considered as upper medium grade obligations. Factors giving security to principal and interest are considered adequate, but elements may be present that suggest a susceptibility to impairment sometime in the future.

##### Baa

Bonds that are rated Baa are considered as medium grade obligations, *i.e.*, they are neither highly protected nor poorly secured. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.

##### Ba

Bonds that are rated Ba are judged to have speculative elements; their future cannot be considered as well assured. Often the protection of interest and principal payments may be very moderate and thereby not well safeguarded during both good and bad times over the future. Uncertainty of position characterizes bonds in this class.

##### B

Bonds that are rated B generally lack characteristics of the desirable investment. Assurance of interest and principal payments or of maintenance of other terms of the contract over any long period of time may be small.

##### Caa

Bonds that are rated Caa are of poor standing. Such issues may be in default or there may be present elements of danger with respect to principal or interest.

##### Ca

Bonds that are rated Ca represent obligations that are speculative in a high degree. Such issues are often in default or have other marked shortcomings.

C

Bonds that are rated C are the lowest rated class of bonds, and issues so rated can be regarded as having extremely poor prospects of ever attaining any real investment standing.

#(hatchmark): Represents issues that are secured by escrowed funds held in cash, held in trust, invested and reinvested in direct, non-callable, non-prepayable United States government obligations or non-callable, non-prepayable obligations unconditionally guaranteed by the U.S. Government, Resolution Funding Corporation debt obligations.

Con. (...): Bonds for which the security depends upon the completion of some act or the fulfillment of some condition are rated conditionally. These are bonds secured by (a) earnings of projects under construction, (b) earnings of projects unseasoned in operation experience, (c) rentals that begin when facilities are completed, or (d) payments to which some other limiting condition attaches. The parenthetical rating denotes probable credit stature upon completion of construction or elimination of the basis of the condition.

(P) : When applied to forward delivery bonds, indicates the rating is provisional pending delivery of the bonds. The rating may be revised prior to delivery if changes occur in the legal documents or the underlying credit quality of the bonds.

Note: Moody's applies numerical modifiers 1, 2 and 3 in each generic rating classification from Aa through Caa. The modifier 1 indicates that the issue ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates that the issue ranks in the lower end of its generic rating category.

Short-Term Loans

MIG 1/VMIG 1

This designation denotes superior credit quality. Excellent protection is afforded by established cash flows, highly reliable liquidity support, or demonstrated broad-based access to the market for refinancing.

MIG 2/VMIG 2

This designation denotes strong credit quality. Margins of protection are ample, although not as large as in the preceding group.

MIG 3/VMIG 3

This designation denotes acceptable credit quality. Liquidity and cash-flow protection may be narrow, and market access for refinancing is likely to be less well-established.

SG

This designation denotes speculative-grade credit quality. Debt instruments in this category may lack sufficient margins of protection.

Commercial Paper

Issuers (or supporting institutions) rated Prime-1 have a superior ability for repayment of senior short-term debt obligations. Prime-1 repayment ability will normally be evidenced by the following characteristics:

Leading market positions in well-established industries.

High rates of return on funds employed.

Conservative capitalization structures with moderate reliance on debt and ample asset protection.

Broad margins in earnings coverage of fixed financial charges and high internal cash generation.

Well-established access to a range of financial markets and assured sources of alternate liquidity.

Issuers (or supporting institutions) rated Prime-2 have a strong ability for repayment of senior short-term debt obligations. This will normally be evidenced by many of the characteristics cited above but to a lesser degree. Earnings trends and coverage ratios, while sound, may be more subject to variation than is the case for Prime-2 securities. Capitalization characteristics, while still appropriate, may be more affected by external conditions. Ample alternate liquidity is maintained.

Issuers (or supporting institutions) rated Prime-3 have an acceptable ability for repayment of senior short-term debt obligations. The effect of industry characteristics and market composition may be more pronounced. Variability in earnings and profitability may result in changes in the level of debt protection measurements and the requirement for relatively high financial leverage. Adequate alternate liquidity is maintained.

Issuers rated Not Prime do not fall within any of the Prime rating categories.

Fitch Ratings, Inc. A brief description of the applicable Fitch Ratings, Inc. ( Fitch ) ratings symbols and meanings (as published by Fitch) follows:

#### Long-Term Credit Ratings

##### Investment Grade

###### AAA

Highest credit quality. AAA ratings denote the lowest expectation of credit risk. They are assigned only in case of exceptionally strong capacity for timely payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.

###### AA

Very high credit quality. AA ratings denote a very low expectation of credit risk. They indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

###### A

High credit quality. A ratings denote a low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to changes in circumstances or in economic conditions than is the case for higher ratings.

###### BBB

Good credit quality. BBB ratings indicate that there is currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity. This is the lowest investment-grade category.

##### Speculative Grade

###### BB

Speculative. BB ratings indicate that there is a possibility of credit risk developing, particularly as the result of adverse economic change over time; however, business or financial alternatives may be available to allow financial commitments to be met. Securities rated in this category are not investment grade.

B

Highly speculative. B ratings indicate that significant credit risk is present, but a limited margin of safety remains. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.

CCC, CC, C

High default risk. Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. A CC rating indicates that default of some kind appears probable. C ratings signal imminent default.

DDD, DD, and D Default

The ratings of obligations in this category are based on their prospects for achieving partial or full recovery in a reorganization or liquidation of the obligor. While expected recovery values are highly speculative and cannot be estimated with any precision, the following serve as general guidelines. DDD obligations have the highest potential for recovery, around 90%-100% of outstanding amounts and accrued interest. DD indicates potential recoveries in the range of 50%-90%, and D the lowest recovery potential, *i.e.*, below 50%. Entities rated in this category have defaulted on some or all of their obligations. Entities rated DDD have the highest prospect for resumption of performance or continued operation with or without a formal reorganization process. Entities rated DD and D are generally undergoing a formal reorganization or liquidation process; those rated DD are likely to satisfy a higher portion of their outstanding obligations, while entities rated D have a poor prospect for repaying all obligations.

Short-Term Credit Ratings

A short-term rating has a time horizon of less than 12 months for most obligations, or up to three years for U.S. public finance securities, and thus places greater emphasis on the liquidity necessary to meet financial commitments in a timely manner.

F1

Highest credit quality. Indicates the strongest capacity for timely payment of financial commitments; may have an added + to denote any exceptionally strong credit feature.

F2

Good credit quality. A satisfactory capacity for timely payment of financial commitments, but the margin of safety is not as great as in the case of the higher ratings.

F3

Fair credit quality. The capacity for timely payment of financial commitments is adequate; however, near-term adverse changes could result in a reduction to non-investment grade. B Speculative. Minimal capacity for timely payment of financial commitments, plus vulnerability to near-term adverse changes in financial and economic conditions.

B

Speculative Minimal capacity for timely payment of financial commitments, plus vulnerability to near-term adverse changes in financial and economic conditions.

C

High default risk. Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon a sustained, favorable business and economic environment.

D

Default. Denotes actual or imminent payment default.

Notes to Long-term and Short-term ratings:

+ or - may be appended to a rating to denote relative status within major rating categories. Such suffixes are not added to the AAA Long-term rating category, to categories below CCC, or to Short-term ratings other than F1.

NR indicates that Fitch Ratings does not rate the issuer or issue in question.

Withdrawn : A rating is withdrawn when Fitch Ratings deems the amount of information available to be inadequate for rating purposes, or when an obligation matures, is called, or refinanced.

Rating Watch: Ratings are placed on Rating Watch to notify investors that there is a reasonable probability of a rating change and the likely direction of such change. These are designated as Positive, indicating a potential upgrade, Negative, for a potential downgrade, or Evolving, if ratings may be raised, lowered or maintained. Rating Watch is typically resolved over a relatively short period.

A Rating Outlook indicates the direction a rating is likely to move over a one to two year period. Outlooks may be positive, stable, or negative. A positive or negative Rating Outlook does not imply a rating change is inevitable. Similarly, ratings for which outlooks are stable could be downgraded before an outlook moves to positive or negative if circumstances warrant such an action. Occasionally, Fitch Ratings may be unable to identify the fundamental trend. In these cases, the Rating Outlook may be described as evolving.

B-8

APPENDIX C

FORM OF TAX OPINION

, 2010  
Nuveen California Dividend Advantage Municipal Fund 2

333 West Wacker Drive

Chicago, IL 60606

Ladies and Gentlemen:

We have acted as special counsel to Nuveen California Dividend Advantage Municipal Fund 2, a Massachusetts business trust (the Fund), in connection with the offer and sale (the Offering) by the Fund of up to shares of preferred stock, par \$0.01 per share (MuniFund Term Preferred Shares). The MuniFund Term Preferred Shares were issued under the Statement Establishing and Fixing the Rights and Preferences of MuniFund Term Preferred Shares dated as of , 2010 (the Statement), and they are being offered pursuant to a prospectus (the Prospectus) contained in a registration statement on Form N-2 (File No. 333- ) filed with the Securities and Exchange Commission pursuant to the Securities Act of 1933 (the Registration Statement).

As special counsel to the Fund, we have examined and relied, as to factual matters (but not as to any conclusions of law), upon originals, or copies certified to our satisfaction, of such records, documents, certificates of the Fund and of public officials and other instruments, and made such other inquiries, as in our judgment are necessary or appropriate to enable us to render the opinions expressed below. We have relied on the representations and warranties set forth therein as to factual matters (but not as to any conclusions of law).

The opinions herein are subject to and conditioned upon the representations made by the Fund concerning factual matters (but not conclusions of law). The initial and continuing truth and accuracy of such representations at all relevant times constitutes an integral basis for the opinions expressed herein and these opinions are conditioned upon the initial and continuing truth and accuracy of such representations at all relevant times.

We have reviewed the descriptions set forth in the Prospectus and the Registration Statement of the Fund's investments, activities, operations, and governance, and the provisions of the Statement. We have relied upon the facts set forth in the Prospectus and upon the factual representations of officers of the Fund and Nuveen Asset Management. In addition, we have relied on certain additional facts and assumptions described below. In connection with rendering this opinion, we have assumed to be true and are relying upon (without any independent investigation or review thereof):

- A. The authenticity of all documents submitted to us as originals, the conformity to original documents of all documents submitted to us as copies, and authenticity of the originals of such documents, and the conformity of final documents to all documents submitted to us as drafts, and the authenticity of such final documents;
- B. The genuineness of all signatures and the authority and capacity of the individual or individuals who executed any such document on behalf of any person;
- C. The accuracy of all factual representations, warranties, and other statements made by all parties or as set forth in such documents;
- D. The performance and satisfaction of all obligations imposed by any such documents on the parties thereto in accordance with their terms; and

Edgar Filing: SMALLEY GARY G. - Form 4

E. The completeness and accuracy of all records made available to us.

C-1

We have further assumed the accuracy of the statements and descriptions of the Fund's intended activities as described in the Prospectus and that the Fund will operate in accordance with the method of operation described in the Prospectus. In particular, we have assumed that the Fund has qualified as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code), for all relevant periods and will continue to do so. We have also assumed, without investigation, that all documents, certificates, representations, warranties, and covenants upon which we have relied in rendering the opinions set forth below and that were given or dated earlier than the date of this letter continue to remain accurate, insofar as relevant to the opinions set forth herein, from such earlier date through and including the date of this letter.

Based solely on the foregoing, and subject to the qualifications, exceptions, assumptions, and limitations expressed herein, we are of the opinion that:

(A) For U.S. federal income tax purposes, (i) the MuniFund Term Preferred Shares will qualify as stock in the Fund, and (ii) the distributions made with respect to the MuniFund Term Preferred Shares will qualify as exempt-interest dividends to the extent designated by the Fund and permitted by Section 852(b)(5)(A) of the Code; and

(B) The statements set forth in the Prospectus under the caption Tax Matters, insofar as they purport to constitute matters of United States federal tax law or legal conclusions with respect thereto, are a fair and accurate summary of the matters addressed therein in all material respects, subject to the assumptions and limitations stated therein.

This opinion is furnished to the Fund solely for its benefit in connection with the Offering and except as follows is not to be relied upon, quoted, circulated, published, or otherwise referred to for any other purpose, in whole or in part, without our express prior written consent. This opinion may be disclosed to any holders of MuniFund Term Preferred Shares (and beneficial owners of MuniFund Term Preferred Shares) and they may rely on it as if they were addressees of this opinion, it being understood that we are not establishing any lawyer-client relationship with holders of MuniFund Term Preferred Shares (and beneficial owners of MuniFund Term Preferred Shares). This letter is not to be relied upon for the benefit of any other person.

In addition to the assumptions set forth above, this opinion is subject to the following exceptions, limitations, and qualifications:

1. Our opinions are based upon our interpretation of the current provisions of the Code and current judicial decisions, administrative regulations, and published notices, rulings, and procedures. We note that there is no authority directly on point dealing with securities like the MuniFund Term Preferred Shares. Our opinions only represent our best judgment and are not binding on the Internal Revenue Service or courts and there is no assurance that the Internal Revenue Service will not successfully challenge the conclusions set forth herein. Consequently, no assurance can be given that future legislative, judicial, or administrative changes, on either a prospective or retroactive basis, would not adversely affect the accuracy of the conclusions stated herein. We undertake no obligation to advise you of changes in law which may occur after the date hereof.
2. Our opinions are limited to the federal income tax matters addressed herein, and no other opinions are rendered with respect to any other matter not specifically set forth in the foregoing opinion.
3. Our opinions are limited in all respects to the federal tax law of the United States and we express no opinion on various state, local, or foreign tax consequences.
4. The Fund's qualification and taxation as a regulated investment company under the Code depend upon the Fund's ability to satisfy through actual operations the applicable asset composition, source of income, distribution, and other requirements of the Code necessary to qualify and be taxed as a regulated investment company, which operations will not be reviewed by special counsel.

5. The foregoing opinions are based upon the proposed method of operation of the Fund as described in the Prospectus and the representations and covenants set forth in the documents described herein. We undertake no obligation to review at any time in the future either the Fund's operations or its compliance with such representations and covenants and, consequently, no assurance can be given that the Fund will satisfy the requirements of the Code necessary to qualify or be taxed as a regulated investment company for any particular taxable year. Further, we assume no obligation to advise you of any changes in our opinion subsequent to the delivery of this opinion letter.

6. In the event any one of the statements, representations, warranties, covenants, or assumptions we have relied upon to issue these opinions is incorrect in a material respect, our opinions might be adversely affected and if so may not be relied on.

We consent to the filing of this opinion with the Securities and Exchange Commission as an exhibit to the Registration Statement and the references to us under the headings "Tax Matters" and "Legal Opinions" in the Prospectus.

Very truly yours,

K&L GATES LLP

**Item 29: Number of Holders of Securities**

At December 31, 2009:

Title of Class	Number of Record Holders
Common Shares, \$0.01 par value	4,711
Preferred Stock, \$0.01 par value	206

**Item 30: Indemnification**

Section 4 of Article XII of the Registrant's Declaration of Trust provides as follows:

Subject to the exceptions and limitations contained in this Section 4, every person who is, or has been, a Trustee, officer, employee or agent of the Trust, including persons who serve at the request of the Trust as directors, trustees, officers, employees or agents of another organization in which the Trust has an interest as a shareholder, creditor or otherwise (hereinafter referred to as a Covered Person), shall be indemnified by the Trust to the fullest extent permitted by law against liability and against all expenses reasonably incurred or paid by him in connection with any claim, action, suit or proceeding in which he becomes involved as a party or otherwise by virtue of his being or having been such a Trustee, director, officer, employee or agent and against amounts paid or incurred by him in settlement thereof.

No indemnification shall be provided hereunder to a Covered Person:

- (a) against any liability to the Trust or its Shareholders by reason of a final adjudication by the court or other body before which the proceeding was brought that he engaged in willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his office;
- (b) with respect to any matter as to which he shall have been finally adjudicated not to have acted in good faith in the reasonable belief that his action was in the best interests of the Trust; or
- (c) in the event of a settlement or other disposition not involving a final adjudication (as provided in paragraph (a) or (b)) and resulting in a payment by a Covered Person, unless there has been either a determination that such Covered Person did not engage in willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his office by the court or other body approving the settlement or other disposition or a reasonable determination, based on a review of readily available facts (as opposed to a full trial-type inquiry), that he did not engage in such conduct:
  - (i) by a vote of a majority of the Disinterested Trustees acting on the matter (provided that a majority of the Disinterested Trustees then in office act on the matter); or
  - (ii) by written opinion of independent legal counsel.

The rights of indemnification herein provided may be insured against by policies maintained by the Trust, shall be severable, shall not affect any other rights to which any Covered Person may now or hereafter be entitled, shall continue as to a person who has ceased to be such a Covered Person and shall inure to the benefit of the heirs, executors and administrators of such a person. Nothing contained herein shall affect any rights to indemnification to which Trust personnel other than Covered Persons may be entitled by contract or otherwise under law.

Expenses of preparation and presentation of a defense to any claim, action, suit or proceeding subject to a claim for indemnification under this Section 4 shall be advanced by the Trust prior to final disposition thereof

upon receipt of an undertaking by or on behalf of the recipient to repay such amount if it is ultimately determined that he is not entitled to indemnification under this Section 4, provided that either:

(a) such undertaking is secured by a surety bond or some other appropriate security or the Trust shall be insured against losses arising out of any such advances; or

(b) a majority of the Disinterested Trustees acting on the matter (provided that a majority of the Disinterested Trustees then in office act on the matter) or independent legal counsel in a written opinion shall determine, based upon a review of the readily available facts (as opposed to a full trial-type inquiry), that there is reason to believe that the recipient ultimately will be found entitled to indemnification.

As used in this Section 4, a Disinterested Trustee is one (x) who is not an Interested Person of the Trust (including anyone, as such Disinterested Trustee, who has been exempted from being an Interested Person by any rule, regulation or order of the Commission), and (y) against whom none of such actions, suits or other proceedings or another action, suit or other proceeding on the same or similar grounds is then or has been pending.

As used in this Section 4, the words claim, action, suit or proceeding shall apply to all claims, actions, suits, proceedings (civil, criminal, administrative or other, including appeals), actual or threatened; and the words liability and expenses shall include without limitation, attorneys fees, costs, judgments, amounts paid in settlement, fines penalties and other liabilities.

The trustees and officers of the Registrant are covered by Investment Adviser and Mutual Fund Professional and Directors and Officers Liability policies in the aggregate amount of \$50,000,000 against liability and expenses of claims of wrongful acts arising out of their position with the Registrant and other Nuveen funds, except for matters that involve willful acts, bad faith, gross negligence and willful disregard of duty (*i.e.*, where the insured did not act in good faith for a purpose he or she reasonably believed to be in the best interest of the Registrant or where he or she had reasonable cause to believe this conduct was unlawful). The policy has a \$2,500,000 deductible for operational failures (after the deductible is satisfied, the insurer would cover 80% of any operational failure claims and the Fund would be liable for 20% of any such claims) and \$2,500,000 deductible for all other claims, with \$0 deductible for individual insureds.

Section of the Form of Underwriting Agreement filed as Exhibit h.1 to this Registration Statement provides for each of the parties thereto, including the Registrant and the underwriters, to indemnify the others, their trustees, directors, certain of their officers, trustees, directors and persons who control them against certain liabilities in connection with the offering described herein, including liabilities under the federal securities laws.

Insofar as indemnification for liability arising under the Securities Act of 1933, as amended (the Securities Act), may be permitted to trustees, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that, in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a trustee, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such trustee, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

**Item 31: Business and Other Connections of Investment Adviser**

Nuveen Asset Management ( NAM ) serves as investment adviser to separately managed accounts, closed-end management investment companies and to the following open-end management type investment

companies: Nuveen Multistate Trust I, Nuveen Multistate Trust II, Nuveen Multistate Trust III, Nuveen Multistate Trust IV, Nuveen Municipal Trust, Nuveen Investment Trust, Nuveen Investment Trust II, Nuveen Investment Trust III, Nuveen Investment Trust V and Nuveen Managed Accounts Portfolios Trust.

**Item 33: Management Services**

Not applicable.

**Item 34: Undertakings**

1. Registrant undertakes to suspend the offering of its shares until it amends its prospectus if: (1) subsequent to the effective date of its Registration Statement, the net asset value declines more than 10 percent from its net asset value as of the effective date of the Registration Statement; or (2) the net asset value increases to an amount greater than its net proceeds as stated in the prospectus.

2. Not applicable.

3. Not applicable.

4. Not applicable.

5. The Registrant undertakes that:

a. For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this Registration Statement in reliance upon Rule 430A and contained in the form of prospectus filed by the Registrant under Rule 497(h) under the Securities Act shall be deemed to be part of this Registration Statement as of the time it was declared effective.

b. For the purpose of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of the securities at that time shall be deemed to be the initial bona fide offering thereof.

6. The Registrant undertakes to send by first class mail or other means designed to ensure equally prompt delivery, within two business days of receipt of a written or oral request, any Statement of Additional Information.

**SIGNATURES**
