NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(amounts in thousands, except per share data)

Note 1. Basis of Presentation

The accompanying consolidated financial statements of HRPT Properties Trust and its subsidiaries have been prepared without audit. Certain information and footnote disclosures required by accounting principles generally accepted in the United States for complete financial statements have been condensed or omitted. We believe the disclosures made are adequate to make the information presented not misleading. However, the accompanying financial statements should be read in conjunction with the financial statements and notes contained in our Annual Report on Form 10-K for the year ended December 31, 2006. In the opinion of management, all adjustments, which include only normal recurring adjustments considered necessary for a fair presentation, have been included. All intercompany transactions and balances between HRPT Properties Trust and its subsidiaries have been eliminated. Operating results for interim periods are not necessarily indicative of the results that may be expected for the full year. Reclassifications have been made to the prior years' financial statements to conform to the current year's presentation.

In June 2006, the Financial Accounting Standards Board issued Interpretation No. 48 Accounting for Uncertainty in Income Taxes, or FIN 48. FIN 48 prescribes how we should recognize, measure and present in our financial statements uncertain tax positions that have been taken or are expected to be taken in a tax return. Pursuant to FIN 48, we can recognize a tax benefit only if it is more likely than not that a particular tax position will be sustained upon examination or audit. To the extent the more likely than not standard has been satisfied, the benefit associated with a tax position is measured as the largest amount that is greater than 50% likely of being realized upon settlement. We are subject to U.S. federal income tax as well as income tax of multiple state and local jurisdictions but, as a REIT, we generally are not subject to income tax on our net income distributed as dividends to our shareholders. As required, we adopted FIN 48 effective January 1, 2007 and have concluded that the effect is not material to our consolidated financial statements. Accordingly, we did not record a cumulative effect adjustment related to the adoption of FIN 48. Tax returns filed for the 2003 through 2006 tax years are subject to examination by taxing authorities.

Note 2. Real Estate Properties

During the nine months ended September 30, 2007, we acquired 11 office properties, including one hotel which is adjacent to owned office properties that are scheduled for redevelopment, for \$108,164, excluding closing costs, 14 industrial properties for \$125,475, excluding closing costs, and we funded \$74,777 of improvements to our owned properties using cash on hand, borrowings under our revolving credit facility and the assumption of \$4,545 of mortgage debt. During the nine months ended September 30, 2007, we sold three land parcels for \$3,925 and recognized gains of \$2,408.

Note 3. Indebtedness

In June 2007, we repaid \$200,000 of our unsecured floating rate senior notes by drawing on our revolving credit facility. We recognized a loss of \$711 from the write off of deferred financing fees in connection with this repayment. We subsequently issued \$250,000 of unsecured senior notes in a public offering in June, raising net proceeds of approximately \$247,400. These notes bear interest at 6.25%, require semi-annual interest payments and mature in June 2017. In September 2007, we issued \$250,000 of unsecured senior notes in a public offering, raising net proceeds of approximately \$245,800. These notes bear interest at 6.65%, require semi-annual interest payments and mature in January 2018. Net proceeds from these offerings were used to reduce amounts outstanding under our revolving credit facility. In September 2007, we prepaid at par, \$15,853 of 7.02% mortgage debt due in 2008, using cash on hand and borrowings under our revolving credit facility.

We have a \$750,000 unsecured revolving credit facility that we use for acquisitions, working capital and general business purposes. The interest rate on this facility averaged 5.9% and 5.6% per annum, for the nine months ended September 30, 2007 and 2006, respectively. As of September 30, 2007, we had \$38,000 outstanding and \$712,000 available under our revolving credit facility. Our public debt indentures and credit facility agreement contain a number of financial and other covenants, including a credit facility covenant which limits the amount of aggregate distributions on common shares to 90% of operating cash flow available for shareholder distributions as defined in the credit facility agreement. We believe that we are in compliance with these financial and other covenants.

Note 4. Shareholders Equity

During the nine months ended September 30, 2007, we sold 2,338 of our common shares for net proceeds of \$28,151 pursuant to a sales agreement with a securities broker dealer, which allows us to sell our common shares from time to time in a controlled equity offering program.

Note 5. Earnings per Common Share

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

Earnings per common share, or EPS, is computed pursuant to the provisions of Statement of Financial Accounting Standards No. 128. The effect of our convertible preferred shares on income from continuing operations and net income available for common shareholders per share is anti-dilutive for the periods presented. The following table provides a reconciliation of both net income and the number of common shares used in the computations of basic and diluted EPS:

Note 6. Segment Information

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

As of September 30, 2007, we owned 367 office properties and 163 industrial properties. We account for our office and industrial properties in geographic operating segments for financial reporting purposes based on our method of internal reporting. We define these individual geographic segments as those which currently, or during either of the last two quarters, represent or generate 5% or more of our total square feet, revenues or property net operating income. Property level information by geographic segment and property type as of and for the three and nine months ended September 30, 2007 and 2006, is as follows:

The table below reconciles our calculation of property net operating income, or NOI, to net income available for common shareholders, the most directly comparable financial measure under generally accepted accounting principles, or GAAP, reported in our consolidated financial statements for the three and nine months ended September 30, 2007 and 2006. We consider NOI to be appropriate supplemental information to net income available for common shareholders because it helps both investors and management to understand the operations of our properties. We use NOI internally as a performance measure and believe NOI provides useful information to investors regarding our results of operations because it reflects only those income and expense items that are incurred at the property level. Our management also uses NOI to evaluate individual, regional and company wide property level performance. NOI excludes certain components from net income available for common shareholders in order to provide results that are more closely related to our properties' results of operations. NOI does not represent cash generated by operating activities in accordance with GAAP and should not be considered an alternative to net income, net income available for common shareholders or cash flow from operating activities as a measure of financial performance. A reconciliation of NOI to net income available for common shareholders for the three and nine months ended September 30, 2007 and 2006, is as follows:

Note 7. Subsequent Events

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

In October 2007, we declared a distribution of \$0.21 per common share, or approximately \$44,700, to be paid on or about November 21, 2007, to shareholders of record on October 23, 2007. We also announced a distribution on our series B preferred shares of \$0.5469 per share, or \$6,563, a distribution on our series C preferred shares of \$0.4453 per share, or \$2,672, and a distribution on our series D preferred shares of \$0.4063, or \$6,167, which will be paid on or about November 15, 2007, to our preferred shareholders of record as of November 1, 2007.

In October 2007, we issued 12,797 common shares in a public offering, raising net proceeds of approximately \$123,000. We subsequently announced the partial redemption of 5,000 of our 12,000 outstanding 8 ³/₄% series B cumulative redeemable preferred shares at the stated liquidation preference price of \$25.00 per share plus accrued and unpaid dividends. This redemption is expected to occur on or about November 26, 2007. Also in October 2007, we sold an additional 177 of our common shares for net proceeds of \$1,736 pursuant to a sales agreement with a securities broker dealer, which allows us to sell our common shares from time to time in a controlled equity offering program. Net proceeds were used to reduce amounts outstanding on our revolving credit facility and for general business purposes, including property acquisitions.

In October 2007, we purchased six properties for \$73,750, excluding closing costs, using cash on hand and borrowings under our revolving credit facility. As of November 7, 2007, we have an executed purchase agreement for two additional properties with an aggregate of approximately 262 square feet of space for a total purchase price of \$23,150, excluding closing costs. This potential purchase transaction is subject to completion of diligence and other customary conditions; because of these contingencies we can provide no assurances that we will purchase these properties.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and tables should be read in conjunction with our consolidated financial statements and notes thereto included in this quarterly report and our Annual Report on Form 10-K for the year ended December 31, 2006.

OVERVIEW

We primarily own office and industrial buildings located throughout the United States. We also own approximately 17 million square feet of leased industrial and commercial lands located in Oahu, Hawaii.

Property Operations

As of September 30, 2007, 92.8% of our total square feet was leased, compared to 93.4% leased as of September 30, 2006. These results primarily reflect the 1.1 percentage point decrease in occupancy at properties we owned continuously since January 1, 2006. Occupancy data for 2007 and 2006 is as follows (square feet in thousands):

	All Properties (1)		Comparable Properties (2)	
	As of the Nine Months Ended September 30,		As of the Nine Months Ended September 30,	
	2007	2006	2007	2006
Total properties	530	487	437	437
Total square feet	63,928	58,070	54,832	54,832
Percent leased (3)	92.8%	93.4%	92.4%	93.5%

(1) Excludes properties sold or under contract for sale.

(2) Based on properties owned continuously since January 1, 2006, and excludes properties under contract for sale.

(3) Percent leased includes (i) space being fitted out for occupancy pursuant to signed leases and (ii) space which is leased, but is not occupied or is being offered for sublease by tenants.

During the three months ended September 30, 2007, we signed new leases for 248,000 square feet and lease renewals for 1,235,000 square feet, at weighted average rental rates that were 9% above rents previously charged for the same space. Average lease terms for leases signed during this period were 7.7 years. Commitments for tenant improvement and leasing costs for leases signed during this period totaled \$17.6 million, or \$11.88 per square foot (approximately \$1.54/sq. ft. per year of the lease term).

During the past twelve months, the leasing market conditions in some of our markets have stabilized. The quoted rental rates in some of the areas where our properties are located seem to have increased modestly. Required landlord funded tenant build outs and leasing commissions payable to tenant brokers for new leases and lease renewals have also generally stabilized over the past twelve months. These build out costs and leasing commissions are generally amortized as a reduction of our income during the terms of the affected leases. However, these modest improvements in rent rates and reduced tenant inducement costs have been offset by a modest decline in space requirements from tenants and increased construction of office properties in certain markets, as reflected in the decline in occupancy we have experienced during this period. We believe that modest increases in effective rents may improve the financial results at some of our currently owned properties. However, there

are too many variables for us to reasonably project what the financial impact of market conditions will be on our results for future periods.

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

Approximately 10.5% of our leased square feet and 12.0% of our rents are included in leases scheduled to expire through December 31, 2008. Lease renewals and rental rates at which available space may be relet in the future will depend on prevailing market conditions at that time. Lease expirations by year, as of September 30, 2007, are as follows (square feet and dollars in thousands):

Year	Square Feet Expiring (1)	% of Square Feet Expiring	Annualized Rental Income Expiring (2)	% of Annualized Rental Income Expiring	Cumulative % of Annualized Rental Income Expiring

(2) Rents are pursuant to signed leases as of September 30, 2007, plus expense reimbursements; includes some triple net lease rents and excludes lease value amortization.

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

Our principal source of funds for our operations is rents from tenants at our properties. Rents are generally received from our non-government tenants monthly in advance, and from our government tenants monthly in arrears. As of September 30, 2007, tenants responsible for 1% or more of our total rent were as follows (square feet in thousands):

Tenant	Square Feet (1)	% of Total Square Feet (1)	% of Rent (2)	Expiration

- (1) Square feet is pursuant to signed leases as of September 30, 2007, and includes (i) space being fitted out for occupancy and (ii) space which is leased, but is not occupied or is being offered for sublease by tenants.
- (2) Rent is pursuant to signed leases as of September 30, 2007, plus estimated expense reimbursements; includes some triple net lease rents and excludes lease value amortization.

Investment Activities

During the nine months ended September 30, 2007, we acquired 11 office properties, including one hotel which is adjacent to owned office properties that are scheduled for redevelopment, with 806,000 square feet for \$108.2 million, and 14 industrial properties with 3,294,000 square feet for \$125.5 million. At the time of acquisition, these properties were over 99% leased and projected to yield approximately 9.0% of the aggregate gross purchase price, based on estimated current annual net operating income, or NOI, which we define as GAAP based property rental income less property operating expenses.

Financing Activities

In June 2007, we repaid \$200 million of our unsecured floating rate senior notes by drawing on our revolving credit facility. We recognized a loss of \$711,000 from the write off of deferred financing fees in connection with this repayment. We subsequently issued \$250 million of unsecured senior notes in a public offering in June, raising net proceeds of approximately \$247.4 million. These notes bear interest at 6.25%, require semi-annual interest payments and mature in June 2017. In September 2007, we issued \$250 million of unsecured senior notes in a public offering, raising net proceeds of approximately \$245.8 million. These notes bear interest at 6.65%, require semi-annual interest payments and mature in January 2018. Net proceeds from these offerings were used to reduce amounts outstanding under our revolving credit facility. In September 2007, we prepaid at par, \$15.9 million of 7.02% mortgage debt due in 2008, using cash on hand and borrowings under our revolving credit facility.

During the nine months ended September 30, 2007, we sold 2.3 million of our common shares for net proceeds of \$28.2 million pursuant to a sales agreement with a securities broker dealer, which allows us to sell our common shares from time to time in a controlled equity offering program.

Rental income. Rental income increased for the three months ended September 30, 2007, compared to the same period in 2006, primarily due to increases in rental income from our Other Markets segment, as described in the segment information footnote to our consolidated financial statements. Rental income for our Other Markets segment increased \$7.1 million, or 7.4%, primarily because of the acquisition of 39 properties since June 2006. Rental income includes non-cash straight line rent adjustments totaling \$6.2 million in 2007 and \$7.8 million in 2006 and amortization of acquired real estate leases and obligations totaling (\$2.3) million in 2007 and (\$2.4) million in 2006. Rental income also includes lease termination fees totaling \$569,000 in 2007 and \$50,000 in 2006.

Total expenses. The increase in total expenses reflects increases in operating expenses and general and administrative expenses primarily related to our acquisition of properties since June 2006. The increase in depreciation and amortization expense reflects acquisitions made since June 2006 and building and tenant improvement costs incurred throughout our portfolio during the same period.

Gain on sale of properties. Net sales proceeds and gains from the sale of three land parcels in 2007 were \$3.9 million and \$2.4 million, respectively. Net sales proceeds and gains from the sale of four office properties in 2006 were \$9.2 million and \$1.2 million, respectively.

Net income and net income available for common shareholders. The decrease in net income available for common shareholders reflects the increase in depreciation and amortization primarily related to properties acquired since June 2006 and building and tenant improvement costs incurred throughout our portfolio during the same period. Net income available for common shareholders is net income reduced by preferred distributions. The increase in preferred distributions reflects the issuance of our series D preferred shares in October 2006, which are convertible into 29.2 million common shares. Proceeds from this issuance were used to reduce amounts outstanding on our revolving credit facility and general business purposes, including property acquisitions.

Rental income. Rental income increased for the nine months ended September 30, 2007, compared to the same period in 2006, primarily due to increases in rental income from our Other Markets segment, as described in the segment information footnote to our consolidated financial statements. Rental income for our Other Markets segment increased \$29.7 million, or 10.8%, primarily because of the acquisition of 86 properties since December 2005. Rental income includes non-cash straight line rent adjustments totaling \$14.8 million in 2007 and \$17.9 million in 2006 and amortization of acquired real estate leases and obligations totaling (\$7.7) million in 2007 and (\$7.9) million in 2006. Rental income also includes lease termination fees totaling \$925,000 in 2007 and \$550,000 in 2006.

Total expenses. The increase in total expenses reflects increases in operating expenses and general and administrative expenses primarily related to our acquisition of properties since December 2005. The increase in depreciation and amortization expense reflects acquisitions made since December 2005 and building and tenant improvement costs incurred throughout our portfolio during the same period.

Loss on early extinguishment of debt. The loss on early extinguishment of debt in 2007 relates to the write off of deferred financing fees associated with the repayment of \$200 million of our floating rate senior notes in June 2007. The loss on early extinguishment of debt in 2006 relates to the write off of deferred financing fees associated with the repayment of our \$350 million term loan in March 2006.

Equity in earnings of equity investments. The decrease in equity in earnings of equity investments in 2007 reflects our sale of all 7.7 million common shares we owned in Senior Housing Properties Trust, or Senior Housing, and all 4.0 million common shares we owned in Hospitality Properties Trust, or Hospitality Properties, in March 2006.

Gain on sale of equity investments. The gain on sale of equity investments reflects the sale in March 2006 of all of the common shares we owned in Senior Housing and Hospitality Properties for aggregate net proceeds of \$308.3 million.

Income from continuing operations. The decrease in income from continuing operations is due primarily to the gain on the sale of the common shares we owned in Senior Housing and Hospitality Properties in 2006.

Gain on sale of properties. Net sales proceeds and gains from the sale of three land parcels in 2007 were \$3.9 million and \$2.4 million, respectively. Net sales proceeds and gains from the sale of four office properties in 2006 were \$9.2 million and \$1.2 million, respectively.

Net income and net income available for common shareholders. The decrease in net income and net income available for common shareholders is due primarily to the sale of Senior Housing and Hospitality Properties common shares in 2006. Net income available for common shareholders is net income reduced by preferred distributions and the excess

of the redemption price paid over the carrying value of our 9.875% series A preferred shares that we redeemed in March 2006. The increase in preferred distributions reflects the issuance of our series D preferred shares in October 2006, which are convertible into 29.2 million common shares. Proceeds from this issuance were used to reduce amounts outstanding on our revolving credit facility and general business purposes, including property acquisitions.

LIQUIDITY AND CAPITAL RESOURCES

Our Operating Liquidity and Resources

Our principal sources of funds for current expenses and distributions to shareholders are rents from our properties. This flow of funds has been historically sufficient for us to pay our operating expenses, debt service and distributions. We believe that our operating cash flow will be sufficient to meet our operating expenses, debt service and distribution payments for the foreseeable future. Our future cash flows from operating activities will depend primarily upon the following factors:

our ability to maintain or improve occupancies and effective rent rates at our properties;

our ability to restrain operating cost increases at our properties; and

our ability to purchase new properties which produce positive cash flows from operations.

As discussed above, we believe that present leasing market conditions in some areas where our properties are located may result in modest increases in effective rents. Recent rises in fuel prices may cause our future operating costs to increase; however, the impact of these increases is expected to be partially offset by pass through operating cost increases to our tenants pursuant to lease terms. We generally do not purchase turn around properties or properties which do not generate positive cash flows. Our future purchases of properties which generate positive cash flows can not be accurately projected because such purchases depend upon available opportunities which come to our attention.

Cash flows provided by (used for) operating, investing and financing activities were \$198.1 million, (\$305.4) million and \$115.2 million, respectively, for the nine months ended September 30, 2007, and \$185.5 million, (\$48.2) million and (\$123.3) million, respectively, for the nine months ended September 30, 2006. Changes in all three categories between 2007 and 2006 are primarily related to property acquisitions, repayments and issuances of debt obligations, issuance and redemption of preferred shares, and our sale of all our Senior Housing and Hospitality Properties common shares in 2006.

Our Investment and Financing Liquidity and Resources

In order to fund acquisitions and to accommodate cash needs that may result from timing differences between our receipt of rents and our desire or need to make distributions or pay operating or capital expenses, we maintain an unsecured revolving credit facility with a group of institutional lenders. At September 30, 2007, there was \$38 million outstanding and \$712 million available on our revolving credit facility, and we had cash and cash equivalents of \$25.6 million. We expect to use cash balances, borrowings under our credit facility and net proceeds of offerings of equity or debt securities to fund future property acquisitions.

When significant amounts are outstanding under our revolving credit facility or the maturity dates of our revolving credit facility and term debts approach, we explore alternatives for the repayment of amounts due. Such alternatives usually include incurring additional term debt and issuing new equity securities. We have an effective shelf registration statement that allows us to issue public securities on an expedited basis, but it does not assure that there will be buyers for such securities. Although there can be no assurance that we will consummate any debt or equity offerings or other financings, we believe we will have access to various types of financing, including debt or equity offerings, to finance future acquisitions and capital expenditures and to pay our debt and other obligations.

The completion and the costs of our future debt transactions will depend primarily upon market conditions and our credit ratings. We have no control over market conditions. Our credit ratings depend upon evaluations by credit rating agencies of our business practices and plans and, in particular, whether we appear to have the ability to maintain our earnings, to separate our debt maturities and to balance our use of debt and equity capital so that our financial performance and leverage ratios afford us flexibility to withstand any reasonably anticipatable adverse changes. We intend to conduct our business activities in a manner which will continue to afford us reasonable access to capital for investment and financing activities.

During the nine months ended September 30, 2007, we purchased 11 office properties, including one hotel which is adjacent to owned office properties that are scheduled for redevelopment, for \$108.2 million, plus closing costs, 14 industrial properties for \$125.5 million, plus closing costs, and funded improvements to our owned properties totaling \$74.8 million. We funded all our 2007 acquisitions and improvements to our owned properties with cash on hand, by borrowing under our revolving credit facility and assuming \$4.5 million of mortgage debt.

In October 2007, we purchased six properties for \$73.8 million, excluding closing costs, using cash on hand and borrowings under our revolving credit facility. As of November 7, 2007, we have an executed purchase agreement for two additional properties with an aggregate of approximately 262,000 square feet of space for a total purchase price of \$23.2 million, excluding closing costs. This potential purchase transaction is subject to completion of diligence and other customary conditions; because of these contingencies we can provide no assurances that we will purchase these properties.

During the three and nine months ended September 30, 2007 and 2006, cash expenditures made and capitalized for tenant improvements, leasing costs, building improvements and development and redevelopment activities were as follows (amounts in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Tenant improvements	\$ 9,651	\$ 13,032	\$ 38,295	\$ 42,841
Leasing costs	6,876	5,339	18,296	20,081
Building improvements (1)	3,048	5,573	7,729	13,446
Development and redevelopment activities (2)	5,568	8,156	28,753	19,659

(1) Building improvements generally include recurring expenditures that we believe are necessary to maintain the value of our properties.

(2) Development, redevelopment and other activities generally include non-recurring expenditures or expenditures that we believe increase the value of our existing properties.

Commitments made for expenditures in connection with leasing space during the three months ended September 30, 2007, are as follows (amounts in thousands, except as noted):

	New Leases	Renewals	Total
Square feet leased during the period	248	1,235	1,483
Total commitments for tenant improvements and leasing costs	\$ 3,420	\$ 14,204	\$ 17,624
Leasing costs per square foot (whole dollars)	\$ 13.79	\$ 11.50	\$ 11.88
Average lease term (years)	5.0	8.3	7.7
Leasing costs per square foot per year (whole dollars)	\$ 2.76	\$ 1.39	\$ 1.54

In June 2007, we repaid \$200 million of our unsecured floating rate senior notes by drawing on our revolving credit facility. We recognized a loss of \$711,000 from the write off of deferred financing fees in connection with this repayment. We subsequently issued \$250 million of unsecured senior notes in a public offering in June, raising net proceeds of approximately \$247.4 million. These notes bear interest at 6.25%, require semi-annual interest payments and mature in June 2017. In September 2007, we issued \$250 million of unsecured senior notes in a public offering, raising net proceeds of approximately \$245.8 million. These notes bear interest at 6.65%, require semi-annual interest payments and mature in January 2018. Net proceeds from these offerings were used to reduce amounts outstanding under our revolving credit facility. In September 2007, we prepaid at par, \$15.9 million of 7.02% mortgage debt due in 2008, using cash on hand and borrowings under our revolving credit facility.

In October 2007, we issued 12.8 million common shares in a public offering, raising net proceeds of approximately \$123 million. We subsequently announced the partial redemption of 5 million of our 12 million outstanding 8 3/4% series B cumulative redeemable preferred shares at the stated liquidation preference price of \$25.00 per share plus accrued and unpaid dividends. This redemption is expected to occur on or about November 26, 2007. Also in October 2007, we sold an additional 177,000 of our common shares for net proceeds of \$1.7 million pursuant to a sales agreement with a securities broker dealer, which allows us to sell our common shares from time to time in a controlled equity offering program. Net proceeds were used to reduce amounts outstanding on our revolving credit facility and for general business purposes, including property acquisitions.

We have no commercial paper, swaps, hedges, joint ventures or off balance sheet arrangements as of September 30, 2007.

Debt Covenants

Our principal debt obligations at September 30, 2007 were our unsecured revolving credit facility and our \$2.25 billion of publicly issued unsecured term debt. Our publicly issued debt is governed by an indenture. Our public debt indenture and related supplements and our revolving credit facility agreement contain a number of financial ratio covenants which generally restrict our ability to incur debts, including debts secured by mortgages on our properties in excess of calculated amounts, require us to maintain a minimum net worth, restrict our ability to make distributions under certain circumstances and require us to maintain other ratios. At September 30, 2007, we believe we were in compliance with all of our covenants under our indenture and related supplements and our revolving credit facility agreement.

In addition to our unsecured debt obligations, we have \$397.4 million, excluding unamortized premiums and discounts, of mortgage notes outstanding at September 30, 2007.

None of our indenture and related supplements, our revolving credit facility or our mortgage notes contain provisions for acceleration or that require us to provide collateral security which could be triggered by our debt ratings. However, our senior debt rating is used to determine the interest rate and the fees payable under our revolving credit facility.

Our public debt indenture and related supplements contain cross default provisions to any other debts of \$20 million or more. Similarly, a default on our public debt indenture would be a default under our revolving credit facility.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to risks associated with market changes in interest rates. Our strategy to manage exposure to changes in interest rates is unchanged since December 31, 2006. Other than as described below, we do not foresee any significant changes in our exposure to fluctuations in interest rates or in how we manage this exposure in the near future.

Our unsecured revolving credit facility and \$200 million of our senior notes bear interest at floating rates and mature in August 2010 and March 2011, respectively. As of September 30, 2007, we had \$38 million outstanding and \$712 million available for drawing under our revolving credit

facility. Repayments under our revolving credit facility may be made at any time without penalty. Repayments under our floating rate senior notes may be made on periodic interest payment dates. We borrow in U.S. dollars and borrowings under our revolving credit facility and our floating rate senior notes require interest at LIBOR plus premiums. Accordingly, we are vulnerable to changes in U.S. dollar based short term rates, specifically LIBOR. Our exposure to fluctuations in floating interest rates will increase or decrease in the future with increases or decreases in the outstanding amount of our floating rate debt.

Item 4. Controls and Procedures

As of the end of the period covered by this report, our management carried out an evaluation, under the supervision and with the participation of our managing trustees, President and Chief Operating Officer and Treasurer and Chief Financial Officer of the effectiveness of our disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, our managing trustees, President and Chief Operating Officer and Treasurer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

There have been no changes in our internal control over financial reporting during the quarter ended September 30, 2007, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

WARNING CONCERNING FORWARD LOOKING STATEMENTS

THIS QUARTERLY REPORT ON FORM 10-Q CONTAINS STATEMENTS AND IMPLICATIONS WHICH CONSTITUTE FORWARD LOOKING STATEMENTS WITHIN THE MEANING OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995 AND OTHER FEDERAL SECURITIES LAWS. ALSO, WHENEVER WE USE WORDS SUCH AS BELIEVE , EXPECT , ANTICIPATE , INTEND , PLAN , ESTIMATE OR SIMILAR EXPRESSIONS, WE ARE MAKING FORWARD LOOKING STATEMENTS. THESE FORWARD LOOKING STATEMENTS ARE BASED UPON OUR PRESENT INTENT, BELIEFS OR EXPECTATIONS, BUT FORWARD LOOKING STATEMENTS ARE NOT GUARANTEED TO OCCUR AND MAY NOT OCCUR. ACTUAL RESULTS MAY DIFFER MATERIALLY FROM THOSE CONTAINED IN OR IMPLIED BY OUR FORWARD LOOKING STATEMENTS AS A RESULT OF VARIOUS FACTORS.

IMPORTANT FACTORS THAT COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE IN OUR FORWARD LOOKING STATEMENTS INCLUDE, WITHOUT LIMITATION:

CHANGES IN THE ECONOMY AND THE CAPITAL MARKETS,

COMPETITION WITHIN THE REAL ESTATE INDUSTRY OR THOSE INDUSTRIES IN WHICH OUR TENANTS OPERATE, AND

CHANGES IN FEDERAL, STATE AND LOCAL LEGISLATION.

FOR EXAMPLE:
