In order to reduce the risk associated with such economic developments, at December 31, 2007, 86.0% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 4.0% to 48.4% of total investments.

At December 31, 2007, the aggregate value of the securities is \$1,784,044 or 4.8% of the Fund s net assets applicable to common shares.
- (3) Security has been issued as a leveraged inverse floater bond. The stated interest rate represents the rate in effect at December 31, 2007.

- (5) Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.
