## Report of Independent Registered Public Accounting Firm

The Administrator

PACCAR Inc Savings Investment Plan

We have audited the accompanying statements of net assets available for benefits of the PACCAR Inc Savings Investment Plan as of December 31, 2007 and 2006, and the related statement of changes in net assets available for benefits for the year ended December 31, 2007. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of the Plan's internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2007 and 2006, and the changes in its net assets available for benefits for the year ended December 31, 2007, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2007, and reportable transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

PACCAR Inc

Savings Investment Plan

Notes to Financial Statements

## **1. Description of the Plan**

The PACCAR Inc Savings Investment Plan (the Plan) is a defined contribution plan covering substantially all non-union U.S. employees of PACCAR Inc and its U.S. subsidiaries (the Company). Covered employees are eligible to participate in the Plan after completion of 30 days of service. Participants are eligible to receive employer contributions after one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986 (the Code). This description of the Plan provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

### **Contributions**

Participants may elect to contribute not less than 1% and not more than 35% of their respective annual compensation (as defined in the Plan document) subject to the Code's annual maximum of \$15,500 and \$15,000 for 2007 and 2006, respectively. Participant contributions to the Plan are excluded from the participants' current taxable earnings in accordance with Code Section 401(k). Beginning in 2002, catch-up contributions were made available under the Plan for those participants age 50 and older. The maximum annual catch-up contribution for 2007 and 2006 was \$5,000.

For eligible participants who are actively employed at December 31 of each year, the Company matches participant contributions (excluding age 50 catch-up deferrals) to the lesser of 5% of the participants' respective annual compensation or their annual salary deferrals. In certain cases, as described in the Plan document, employees who terminated during the year will be eligible to receive matching contributions. The Company's matching contributions of \$18,422,744 and \$18,462,196 were unallocated at December 31, 2007 and 2006, respectively. The matching contributions are allocated to participant accounts in January each year based on determination of eligibility as described above. The Company matches contributions in the form of PACCAR Inc common stock. The Company may suspend or reduce its contributions when its Consolidated Net Earnings are less than 8% of the Company's Capital Base, as defined by the Plan.

### **Participant Accounts**

Individual accounts are maintained for all Plan participants that reflect their contributions and related Company contributions to the Plan and any earnings or losses on the Plan's investments.

PACCAR Inc

Savings Investment Plan

Notes to Financial Statements (continued)

## **1. Description of the Plan (continued)**

### **Vesting**

Plan participants are immediately 100% vested in participant and Company matching contributions when made, plus any investment earnings thereon.

### **Investment Options**

Upon enrollment in the Plan, participants may direct their employee contributions in whole percentage increments to any of the Plan's fund options. Participants may subsequently change their investment options for either existing or future participant contributions, subject to trading limitations on certain of the Plan's individual fund options.

Effective April 1, 2005, PACCAR Inc amended and restated the Plan to provide that a portion of the Plan will constitute an employee stock ownership plan within the meaning of IRC Section 4975(e)(7). Effective July 1, 2005, participants can choose to reinvest dividends in PACCAR Inc common stock or they can elect to receive the dividends in cash.

Effective January 1, 2007, all participants with three or more years of service have the ability to make an unlimited number of transfers, at any time, of some or all of their Company matching contribution balances held in the PACCAR Inc common stock fund into any of the other investment fund options within the Plan.

### **Participant Loans**

Actively employed participants may borrow from their individual accounts a minimum of \$1,000, up to the lesser of \$50,000 reduced by the highest outstanding loan balance during the previous 12 months, 50% of the participants' total account balance, or the participants' total account balance excluding Company matching contributions in the PACCAR Inc common stock fund and related earnings. Loan terms range from 1 to 5 years, or up to 15 years for the purchase of a primary residence, and early payoffs can be made without penalty. The loans are secured by the balance in the participant's account and bear interest at a fixed rate equal to the prime rate plus 1%, determined as of the loan date. Interest rates

## Edgar Filing: PACCAR INC - Form 11-K

ranged from 5.0% to 10.5% on loans outstanding as of December 31, 2007. Principal and interest are repaid either through after-tax payroll deductions or by personal check sent directly to Fidelity Management Trust Company (the Trustee). Loans outstanding do not affect the amount of annual matching contributions the

PACCAR Inc

### **1. Description of the Plan (continued)**

Company pays to participants' accounts. The number of loans that a participant can take is limited to two new loans per calendar year.

#### **Benefit Payments**

Participants who leave the Company may choose a single cash payment or whole shares of PACCAR Inc common stock included in the participant's account, plus a cash payment for the remaining balance. Participants who leave the Company whose account balance is less than \$1,000 will automatically receive a single cash payment. Also, active employees who reach age 70½ have the additional options of electing to have their account balances distributed to them or to receive minimum required distributions.

#### **Plan Termination**

It is the intention of the Company that the Plan will continue indefinitely. However, should the Company elect to terminate the Plan subject to the provisions of ERISA, the termination date shall be treated as the valuation date, and the balances in the participants' accounts will be distributed to them.

#### **Expenses**

Third-party management fees are charged to the Plan, and the Company pays all other expenses relating to the Plan's administration.

### **2. Summary of Accounting Policies**

#### **Basis of Accounting**

The financial statements have been prepared on the accrual basis of accounting.

**Investment Valuation and Income Recognition**

The Plan's investments are stated at fair value. Shares of mutual funds are valued based on quoted market prices which represent the net asset value of shares held by the Plan at year-end. The fair value of the participation units in common collective trusts (other than the Fidelity Managed Income Portfolio II (MIP II), as subsequently defined) is based on the net asset value of units on the last business day of the Plan's year-end. Participant loans are valued at their outstanding balances, which approximate fair value.

PACCAR Inc

Savings Investment Plan

Notes to Financial Statements (continued)

## **2. Summary of Accounting Policies (continued)**

As described in Financial Accounting Standards Board Staff Position (FSP) AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust (MIP II Fund). As required by the FSP, the statements of net assets available for benefits present the fair value of the MIP II Fund and the adjustment from fair value to contract value. The fair value of the Plan's interest in the MIP II Fund is based on information reported by the issuer of the common collective trust at year-end. The contract value of the MIP II Fund represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

### **Use of Estimates**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

### **Risks and Uncertainties**

The Plan provides for various investment options. Investment securities, in general, are exposed to various risks, such as interest rate, market volatility, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the value of participants' account balances and the amounts reported in the financial statements.

PACCAR Inc

Savings Investment Plan

Notes to Financial Statements (continued)

## **2. Summary of Accounting Policies (continued)**

### **New Accounting Principle**

In September 2006, the Financial Accounting Standards Board issued Statement on Financial Accounting Standards No. 157, *Fair Value Measurements*. SFAS No. 157 establishes a single authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair value measurement. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. The Plan will adopt the provisions of SFAS No. 157 for its December 31, 2008 financial statements. The Plan is currently evaluating the potential impact of adoption of SFAS No. 157; however, management does not believe adoption will have a material impact on the Plan's financial statements.

## **5. Income Tax Status**

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated October 2, 2002 stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan has been amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax exempt.

To comply with the Pension Protection Act of 2006, the Plan was amended and restated effective January 1, 2006. On January 30, 2007, an application for a new determination letter for the Plan was submitted to the IRS. As of May 31, 2008, the application was still being processed.

## **6. Transactions with Parties in Interest**

The Plan invests in the common stock of the Plan's sponsor, PACCAR Inc, which is purchased by the Trustee on the open market at fair value. The Plan made purchases totaling \$161,494,185 and sales totaling \$366,101,151 of PACCAR Inc common stock during 2007. The Plan received dividends on this stock totaling \$35,426,673 in 2007. Dividends receivable as of December 31, 2007 and 2006 were \$21,523,367 and \$30,350,298, respectively.

## **7. Reconciliation of Financial Statements to Form 5500**

Effective January 1, 2006, the Plan adopted the FSP. The FSP was effective for plan years ending after December 15, 2006 and required fully benefit-responsive investment contracts held by defined contribution plans to be reported at fair value instead of contract value. A fully benefit-responsive investment contract is defined in the FSP to include investment contracts that the Plan invests in through its participation in the MIP II, a commingled trust fund.

As required by the FSP, the statements of net assets available for benefits present the fair value of the investment in the MIP II, as well as the adjustment of the investment in the MIP II from fair value to contract value relating to those investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.
