Each of the Asset Sales required the approval of the Company's stockholders. The required approvals were obtained at a special meeting of the Company's stockholders held on January 26, 2009 (the *Special Meeting*). The closing of each of the Asset Sales (the *Closing*) was completed on January 27, 2009 (the *Closing Date*).

The Closing was the initial step in a planned liquidation and dissolution of the Company (the *Liquidation*), which was also approved and adopted by the Company's stockholders at the Special Meeting. In connection with the Liquidation, the Company intends to file a certificate of dissolution with the Delaware Secretary of State on or about March 2, 2009. The Company will close its stock transfer books and discontinue recording transfers of shares of its common stock at the close of business on the date the certificate of dissolution is filed. Thereafter, certificates representing shares of the Company's common stock will not be assignable or transferable on the Company's books. In order to curtail expenses, after filing the certificate of dissolution, the Company intends to terminate the registration of its common stock and suspend its reporting obligations under the Securities Exchange Act of 1934.

In connection with the Closing and on the Closing Date, the Company and BGX entered into a License Agreement (the *License Agreement*). Under the terms of the License Agreement, the Company licensed to BGX a portion of the intellectual property to be acquired by Novo in connection with the Novo Asset Sale. At the closing of the Novo Asset Sale, the Company assigned its interest in the License Agreement to Novo.

In addition, in connection with the Closing and on the Closing Date, the Company and BGX entered into a Sublicense Agreement (the *Sublicense Agreement*). Under the terms of the Sublicense Agreement, the Company sublicensed to BGX certain third party intellectual property license agreements to be assigned to Novo in connection with the Novo Asset Sale. At the closing of the Novo Asset Sale, the Company assigned its interest in the Sublicense Agreement to Novo.

Prior to the Closing, the Company and BGX were a party to a number of agreements (the *BGX Collaboration Agreements*) entered into in connection with the Company's collaboration with BGX to co-develop GlycoPEG-GCSF, a long-acting version of granulocyte stimulating factor (*G-CSF*) (collectively, the *BGX Collaboration*).

Additionally, prior to the Closing, the Company and Novo were a party to a number of agreements (the *Novo Collaboration Agreements*) entered into in connection with the Company's collaboration with Novo to research, develop and commercialize products by applying the Company's technology to long-acting recombinant human Factors VIIa, VIII and IX (the *Novo Collaboration*).
