June 30, 2009 (Unaudited)

1. Significant Accounting and Operating Policies

Clough Global Equity Fund is a closed-end management investment company (the Fund) that was organized under the laws of the state of Delaware by an Agreement and Declaration of Trust dated January 25, 2005. The Fund is a non-diversified series with an investment objective to provide a high level of total return. The Declaration of Trust provides that the Trustees may authorize separate classes of shares of beneficial interest.

The following summarizes the significant accounting policies of the Fund.

Security Valuation: The net asset value per share of the Fund is determined no less frequently than daily, on each day that the New York Stock Exchange (the Exchange) is open for trading, as of the close of regular trading on the Exchange (normally 4:00 p.m. New York time). Trading may take place in foreign issues held by the Fund at times when the Fund is not open for business. As a result, the Fund's net asset value may change at times when it is not possible to purchase or sell shares of the Fund. Securities held by the Fund for which exchange quotations are readily available are valued at the last sale price, or if no sale price or if traded on the over-the-counter market, at the mean of the bid and asked prices on such day. Debt securities for which the over-the-counter market is the primary market are normally valued on the basis of prices furnished by one or more pricing services at the mean between the latest available bid and asked prices. As authorized by the Trustees, debt securities (other than short-term obligations) may be valued on the basis of valuations furnished by a pricing service which determines valuations based upon market transactions for normal, institutional-size trading units of securities. Short-term obligations maturing within 60 days are valued at amortized cost, which approximates value, unless the Trustees determine that under particular circumstances such method does not result in fair value. Over-the-counter options are valued at the mean between bid and asked prices provided by dealers. Financial futures contracts listed on commodity exchanges and exchange-traded options are valued at closing settlement prices. Securities for which there is no such quotation or valuation and all other assets are valued at fair value in good faith by or at the direction of the Trustees.

Foreign Securities: The Fund may invest a portion of its assets in foreign securities. In the event that the Fund executes a foreign security transaction, the Fund will generally enter into a forward foreign currency contract to settle the foreign security transaction. Foreign securities may carry more risk than U.S. securities, such as political, market and currency risks.

The accounting records of the Fund are maintained in U.S. dollars. Prices of securities denominated in foreign currencies are translated into U.S. dollars at the closing rates of exchange at period end. Amounts related to the purchase and sale of foreign securities and investment income are translated at the rates of exchange prevailing on the respective dates of such transactions.

A foreign currency contract is a commitment to purchase or sell a foreign currency at a future date, at a negotiated rate. The Fund may enter into foreign currency contracts to settle specific purchases or sales of securities denominated in a foreign currency and for protection from adverse exchange rate fluctuation. Risks to the Fund include the potential inability of the counterparty to meet the terms of the contract.

Edgar Filing: Clough Global Equity Fund - Form N-Q

Fair Valuation: If the price of a security is unavailable in accordance with the Fund's pricing procedures, or the price of a security is suspect, e.g., due to the occurrence of a significant event, the security may be valued at its fair value determined pursuant to procedures adopted by the Board of Trustees. For this purpose, fair value is the price that the Fund reasonably expects to receive on a current sale of the security. Due to the number of variables affecting the price of a security, however; it is possible that the fair value of a security may not accurately reflect the price that the Fund could actually receive on a sale of the security. As of June 30, 2009, securities which have been fair valued represented 1.07% of the Fund's net assets.

The Fund follows Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 157 (FAS 157), Fair Value Measurements . FAS 157 established a three-tier hierarchy to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use

Edgar Filing: Clough Global Equity Fund - Form N-Q

in pricing the asset or liability that are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability that are developed based on the best information available.

Various inputs are used in determining the value of each Fund's investments as of the reporting period end. These inputs are categorized in the following hierarchy under applicable financial accounting standards:

Level 1 Quoted prices in active markets for identical investments

Level 2 Significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The following is a summary of the inputs used as of June 30, 2009 in valuing the Fund's investments carried at value:

| Investments in Securities at Value | Level 1 | Level 2 | Level 3 | Total |
|------------------------------------|-----------------------|----------------------|-----------|-----------------------|

| Other Financial Instruments* | Level 1 | Level 2 | Level 3 | |
|---|------------------------|-----------|-----------|------------------------|
| Written options and securities sold short | \$ (52,933,245) | \$ | \$ | \$ (52,933,245) |
| TOTAL | \$ (52,933,245) | \$ | \$ | \$ (52,933,245) |

* Other financial instruments include written options and securities sold short.

All securities of the Fund were valued using either Level 1 or Level 2 inputs during the quarter ended June 30, 2009. Thus, a reconciliation of assets in which significant unobservable inputs (Level 3) were used is not applicable for this Fund.

Options: The Fund may purchase or write (sell) put and call options. One of the risks associated with purchasing an option among others, is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of premium and change in market

Edgar Filing: Clough Global Equity Fund - Form N-Q

value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of call options is increased by premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current value of the option written. Premiums received from writing options that expire unexercised are treated by the Fund on the expiration date as realized gains from investments. The difference between the premium and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund, as writer

Edgar Filing: Clough Global Equity Fund - Form N-Q

of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option. Written and purchased options are non-income producing securities.

Written option activity for the period ended June 30, 2009 was as follows:

Short Sales: The Fund may sell a security it does not own in anticipation of a decline in the fair value of that security. When the Fund sells a security short, it must borrow the security sold short and deliver it to the broker-dealer through which it made the short sale. A gain, limited to the price at which the Fund sold the security short, or a loss, unlimited in size, will be recognized upon the termination of the short sale.

Securities Transactions and Investment Income: Investment security transactions are accounted for as of trade date. Dividend income is recorded on the ex-dividend date. Certain dividend income from foreign securities will be recorded as soon as the Fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date and may be subject to withholding taxes in these jurisdictions. Interest income, which includes amortization of premium and accretion of discount, is accrued as earned. Realized gains and losses from securities transactions and unrealized appreciation and depreciation of securities are determined using the highest cost basis for both financial reporting and income tax purposes.

Edgar Filing: Clough Global Equity Fund - Form N-Q

2. Recently Issued Accounting Pronouncements: The Fund follows FASB Statement of Financial Accounting Standards No. 161 (SFAS 161) Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133 (SFAS 133), which expands the disclosure requirements in SFAS 133 about entity s derivative instruments and hedging activities. Management has concluded that the adoption of SFAS 161, as adopted by the Fund April 1, 2009, has no impact on the Fund s Quarterly Statement of Investments (filed as part of the Form NQ) for the three months ended June 30, 2009.

Item 2 - Controls and Procedures.

(a) The Registrant's Principal Executive Officer and Principal Financial Officer have evaluated the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) within 90 days of this filing and have concluded that the Registrant's disclosure controls and procedures were effective, as of that date.

(b) There was no change in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) during Registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 3 Exhibits.

Separate certifications for the Registrant's Principal Executive Officer and Principal Financial Officer, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and Rule 30a-2(a) under the Investment Company Act of 1940, are attached as Ex99.CERT.
