Forward-Looking Statements Disclosure for Earnings Release Presentation Materials are attached to this report as Exhibit 99.5.

Section 8 Other Events

Item 8.01. Other Events

On October 22, 2009, Occidental Petroleum Corporation announced net income of \$927 million (\$1.14 per diluted share) for the third quarter of 2009, compared with \$2.3 billion (\$2.77 per diluted share) for the third quarter of 2008.

QUARTERLY RESULTS

Oil and Gas

Oil and gas segment earnings were \$1.5 billion for the third quarter of 2009, compared with \$3.6 billion for the same period in 2008. The decrease in the third quarter 2009 segment earnings reflected lower crude oil and natural gas prices, partially offset by higher oil and gas sales volumes and lower operating expenses.

For the third quarter of 2009, daily oil and gas sales volumes averaged 628,000 barrels of oil equivalent (BOE), compared with 588,000 BOE per day in the third quarter of 2008. Volumes increased by six percent domestically, mainly from California and the Permian and by 15 percent in the Middle East/North Africa largely in Dolphin and Oman, partially offset by a six-percent decrease in Latin America mostly due to a labor strike in Argentina. Increased California volumes resulted largely from the new exploration discoveries in Kern County.

Oxy's realized price for worldwide crude oil was \$62.79 per barrel for the third quarter of 2009, compared with \$104.15 per barrel for the third quarter of 2008. Domestic realized gas prices decreased from \$9.35 per MCF in the third quarter of 2008 to \$3.04 per MCF for the third quarter of 2009.

Chemicals

Chemical segment earnings for the third quarter of 2009 were \$72 million, compared with \$219 million for the same period in 2008. The third quarter 2009 results reflect the continued weakness in the U.S. housing, automotive and durable goods sectors resulting in lower margins for caustic soda and polyvinyl chloride and lower volumes for chlorine, caustic soda, potassium hydroxide and polyvinyl chloride.

Midstream, Marketing and Other

Midstream segment earnings were \$77 million for the third quarter of 2009, compared with \$66 million for the third quarter of 2008. The third quarter of 2009 reflects better results in marketing operations, partially offset by lower margins in the gas processing business.

NINE MONTH RESULTS

Net income for the nine months of 2009 was \$2.0 billion (\$2.43 per diluted share), compared with \$6.4 billion (\$7.77 per diluted share) for the nine months of 2008.

Oil and Gas

Oil and gas segment earnings were \$3.1 billion for the nine months of 2009, compared with \$10.3 billion for the same period of 2008. The decrease in segment earnings reflected lower crude oil and natural gas prices, partially offset by higher oil and gas sales volumes and lower operating and administrative costs.

Daily oil and gas sales volumes for the first nine months was 643,000 BOE per day for 2009, compared with 594,000 BOE per day for the same 2008 period. Volumes increased by five percent domestically mainly in California and Midcontinent/Rockies, by 14 percent in Latin America, and by 12 percent in the Middle East/North Africa largely due to Dolphin and Oman.

Oxy's realized price for worldwide crude oil was \$51.44 per barrel for the nine months of 2009, compared with \$100.39 per barrel for the nine months of 2008. Domestic realized gas prices decreased from \$9.18 per MCF in the nine months of 2008 to \$3.15 per MCF in the nine months of 2009.

Chemicals

Chemical segment earnings were \$356 million for the nine months of 2009, compared with \$542 million for the nine months of 2008. The 2009 results reflect lower volumes and prices for chlorine, caustic soda and polyvinyl chloride due to the economic slowdown, partially offset by lower feedstock and energy costs.

Midstream, Marketing and Other

Midstream segment earnings were \$154 million for the nine months of 2009, compared with \$350 million for the same period in 2008. The earnings decline in 2009 reflects lower margins in the gas processing business.

Forward-Looking Statements

Statements in this release that contain words such as "will," "should," "expect," or "estimate," or otherwise relate to the future, are forward-looking and involve risks and uncertainties that could significantly affect expected results. Factors that could cause actual results to differ materially include, but are not limited to: global commodity price fluctuations and supply/demand considerations for oil, gas and chemicals; exploration risks, such as drilling of unsuccessful wells; not successfully completing (or any material delay in) any expansions, field development, capital projects, acquisitions, or dispositions; higher-than-expected costs; political risk; operational interruptions and changes in tax rates. You should not place undue reliance on these forward-looking statements which speak only as of the date of this release. SIGNIFICANT TRANSACTIONS AND EVENTS AFFECTING EARNINGS

Occidental's results of operations often include the effects of significant transactions and events affecting earnings that vary widely and unpredictably in nature, timing and amount. Therefore, management uses a measure called core results, which excludes those items. This non-GAAP measure is not meant to disassociate those items from management's performance, but rather is meant to provide useful information to investors interested in comparing Occidental's earnings performance between periods. Reported earnings are considered representative of management's performance over the long term. Core results is not considered to be an alternative to operating income in accordance with generally accepted accounting principles.
