NOTE ABOUT FORWARD-LOOKING STATEMENTS

Statements in this quarterly report on Form 10-Q that are not historical facts may constitute forward-looking statements, including any statements about our expectations, beliefs, plans, predictions, forecasts, objectives, assumptions or future events or performance. These statements are often, but not always, made through the use of words or phrases such as anticipate, believes, can, could, may, predicts, p should, will, estimate, plans, projects, continuing, ongoing, expects, intends and similar words or phrases. These statements are and involve estimates, known and unknown risks, assumptions and uncertainties that could cause actual results to differ materially from those expressed in such statements, including as a result of the following factors, among others:

- our inability to make acquisitions of, or lease, aircraft on favorable terms;
- our inability to sell aircraft on favorable terms;
- our inability to obtain additional financing on favorable terms, if required, to complete the acquisition of sufficient aircraft as currently contemplated or to fund the operations and growth of our business;
- our inability to obtain refinancing prior to the time our debt matures;
- impaired financial condition and liquidity of our lessees;
- deterioration of economic conditions in the commercial aviation industry generally;
- increased maintenance, operating or other expenses or changes in the timing thereof;
- changes in the regulatory environment;
- potential natural disasters and terrorist attacks and the amount of our insurance coverage, if any, relating thereto; and

Edgar Filing: AIR LEASE CORP - Form 10-Q

- the factors discussed under Part I Item 1A. Risk Factors, in our Annual Report on Form 10-K for the year ended December 31, 2014 and other SEC filings.

All forward-looking statements are necessarily only estimates of future results, and there can be no assurance that actual results will not differ materially from expectations. You are therefore cautioned not to place undue reliance on such statements. Any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events.

Air Lease Corporation and Subsidiaries

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Company Background and Overview

Air Lease Corporation, together with its subsidiaries (the Company, ALC, we, our or us), is a leading aircraft leasing company that was founded by aircraft leasing industry pioneer, Steven F. Udvar-Házy. We are principally engaged in purchasing new commercial jet transport aircraft directly from the manufacturers, such as The Boeing Company (Boeing) and Airbus S.A.S. (Airbus). We lease these aircraft to airlines throughout the world to generate attractive returns on equity. In addition to our leasing activities, we sell aircraft from our fleet to leasing companies, financial services companies and airlines. We also provide fleet management services to investors and owners of aircraft portfolios for a management fee.

Note 2. Basis of Preparation

The Company consolidates financial statements of all entities in which we have a controlling financial interest, including the accounts of any Variable Interest Entity in which we have a controlling financial interest and for which we are determined to be the primary beneficiary. All material intercompany balances are eliminated in consolidation. The accompanying Consolidated Financial Statements have been prepared in accordance with Generally Accepted Accounting Principles in the United States of America (GAAP) for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements.

The accompanying unaudited consolidated financial statements include all adjustments, including only normal, recurring adjustments, necessary to present fairly the Company's financial position, results of operations and cash flows at March 31, 2015, and for all periods presented. The results of operations for the three months ended March 31, 2015 are not necessarily indicative of the operating results expected for the year ending December 31, 2015. These financial statements should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2014.

Note 3. Recently Issued Accounting Standards

In April 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-03 (ASU 2015-03), Interest-Imputation of Interest (Subtopic 835-30). The amendments in ASU 2015-03 requires the debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of the related debt liability. ASU 2015-03 is effective for annual reporting periods beginning after December 15, 2015, including interim periods within that reporting period and is applied retrospectively. Early adoption is permitted for financial statements that have not been previously issued.

The Company early adopted ASU 2015-03 as of March 31, 2015. Prior to ASU 2015-03, deferred debt issuance costs were reported on the balance sheet as assets and amortized as interest expense. The amendments in ASU 2015-03 require debt issuance costs be presented on the balance sheet as a direct deduction from the carrying amount of the related debt liability, in the same manner as debt discounts or premiums. The Consolidated Balance Sheet as of December 31, 2014 has been adjusted to apply the change in accounting principle retrospectively. There is no effect on the income statement as a result of the change in accounting principle. Debt issuance costs of \$83.6 million previously reported as assets on the Consolidated Balance Sheet as of December 31, 2014 have been reclassified as a direct deduction from the carrying amount of the related debt liability.

Senior unsecured notes

On January 14, 2015, the Company issued \$600.0 million in aggregate principal amount of senior unsecured notes due 2022 that bear interest at a rate of 3.75%.

As of March 31, 2015, the Company had \$5.2 billion in senior unsecured notes outstanding. As of December 31, 2014, the Company had \$4.6 billion in senior unsecured notes outstanding.

Unsecured revolving credit facilities

In March 2015, the Company increased the aggregate capacity of its Syndicated Unsecured Revolving Credit Facility by \$210.0 million to \$2.3 billion. The facility continues to accrue interest at a rate of LIBOR plus 1.25% on drawn balances and includes a 0.25% facility fee.

The total amount outstanding under our unsecured revolving credit facilities was \$338.0 million and \$569.0 million as of March 31, 2015 and December 31, 2014, respectively.

Table of Contents

Unsecured term financings

During the three months ended March 31, 2015, the Company entered into a \$100.0 million one year unsecured term facility bearing interest at a rate of LIBOR plus 1.00%.

The outstanding balance on our unsecured term facilities as of March 31, 2015 and December 31, 2014 was \$283.0 million and \$196.1 million, respectively.

Warehouse facility

As of March 31, 2015, the Company had borrowed \$403.5 million under the 2010 Warehouse Facility and pledged 15 aircraft as collateral with a net book value of \$630.0 million. As of December 31, 2014, the Company had borrowed \$484.5 million under the 2010 Warehouse Facility and pledged 18 aircraft as collateral with a net book value of \$729.5 million.

Maturities

Maturities of debt outstanding as of March 31, 2015 are as follows (in thousands):

Years ending December 31,		
2015	\$	171,577
2016		954,872

Note 5. Commitments and Contingencies

As of March 31, 2015, the Company had commitments to acquire a total of 411 new aircraft scheduled to deliver through 2024.

In March 2015, the Company entered into definitive agreements with Airbus S.A.S. (Airbus) to purchase 57 aircraft which were previously subject to memorandums of understanding. We agreed to purchase 25 A330neo aircraft, 30 A321neo LR aircraft, an incremental A350 aircraft

and an additional A321-200 aircraft. Deliveries of the aircraft are scheduled to commence in 2016 and continue through 2023.

Edgar Filing: AIR LEASE CORP - Form 10-Q

Table of Contents

Scheduled deliveries of the 411 new aircraft the Company has committed to purchase are as follows:

Aircraft Type	2015	2016	2017	2018	2019	Thereafter	Total

Total	30	33	27	39	59	223	411

(1) All of our Airbus A321-200 aircraft will be equipped with sharklets.

(2) Our Airbus A320/321neo aircraft orders include 30 long-range variants.

Commitments for the acquisition of these aircraft and other equipment at an estimated aggregate purchase price (including adjustments for inflation) of approximately \$32.9 billion at March 31, 2015 are as follows (in thousands):

Years ending December 31,	
2015	\$ 1,794,679
2016	2,371,933
2017	1,976,016
2018	3,623,102
2019	4,737,097
Thereafter	18,420,914
Total	\$ 32,923,741

We have made non-refundable deposits on the aircraft for which we have commitments to purchase of \$1.15 billion and \$1.14 billion as of March 31, 2015 and December 31, 2014, respectively, which are subject to manufacturer performance commitments. If we are unable to satisfy our purchase commitments, we may forfeit our deposits. Further, we would be subject to breach of contract claims by our lessees and manufacturers.

As of March 31, 2015, the Company had a non-binding commitment to acquire up to five A350-1000 aircraft. Deliveries of these aircraft are scheduled to commence in 2022 and continue through 2023.

Note 6. Net Earnings Per Share

Edgar Filing: AIR LEASE CORP - Form 10-Q

Basic net earnings per share is computed by dividing net income by the weighted-average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that would occur if securities or other contracts to issue common stock were exercised or converted into common stock; however, potential common equivalent shares are excluded if the effect of including these shares would be anti-dilutive. The Company's two classes of common stock, Class A and Class B Non-Voting, have equal rights to dividends and income, and therefore, basic and diluted earnings per share are the same for each class of common stock. As of March 31, 2015, we did not have any Class B Non-Voting common stock outstanding.

Diluted net earnings per share takes into account the potential conversion of stock options, restricted stock units, and warrants using the treasury stock method and convertible notes using the if-converted method. The Company excluded 936,968 and 1,789,586 shares related to restricted stock units for which the performance metric had yet to be achieved as of March 31, 2015 and 2014, respectively.

Table of Contents

The following table sets forth the reconciliation of basic and diluted net income per share (in thousands, except share amounts):

Note 7. Fair Value Measurements*Assets and Liabilities Measured at Fair Value on a Recurring and Non-recurring Basis*

The Company had no assets or liabilities which are measured at fair value on a recurring or non-recurring basis as of March 31, 2015 or December 31, 2014.

Financial Instruments Not Measured at Fair Value

The fair value of debt financing is estimated based on the quoted market prices for the same or similar issues, or on the current rates offered to the Company for debt of the same remaining maturities, which would be categorized as a Level 2 measurement in the fair value hierarchy. The estimated fair value of debt financing as of March 31, 2015 was \$7.3 billion compared to a book value of \$7.1 billion. The estimated fair value of debt financing as of December 31, 2014 was \$7.0 billion compared to a book value of \$6.7 billion.

The following financial instruments are not measured at fair value on the Company's consolidated balance sheet at March 31, 2015, but require disclosure of their fair values: cash and cash equivalents and restricted cash. The estimated fair value of such instruments at March 31, 2015 approximates their carrying value as reported on the consolidated balance sheet. The fair value of all these instruments would be categorized as Level 1 of the fair value hierarchy.

Note 8. Stock-based Compensation

On May 7, 2014, the stockholders of the Company approved the Air Lease Corporation 2014 Equity Incentive Plan (the 2014 Plan). Upon approval of the 2014 Plan, no new awards may be granted under the Amended and Restated 2010 Equity Incentive Plan (the 2010 Plan). As of March 31, 2015, the number of stock options (Stock Options) and restricted stock units (RSUs) authorized under the 2014 Plan is approximately 6,648,524, which includes 1,648,524 shares which were previously reserved for issuance under the 2010 Plan. Options are generally granted for a term of 10 years and generally vest over a three year period. The

Table of Contents

Company has issued RSUs with three different vesting criteria: those RSUs that vest based on the attainment of book value goals, those RSUs that vest based on the attainment of Total Shareholder Return (TSR) goals and time based RSUs that vest ratably over a time period of three years. The book value RSUs generally vest ratably over three years, if the performance condition has been met. Book value RSUs for which the performance metric has not been met are forfeited. The TSR RSUs vest at the end of a three year period. The number of TSR RSUs that will ultimately vest is based upon the percentile ranking of the Company's TSR among a peer group. The number of shares that will ultimately vest will range from 0% to 200% of the RSUs initially granted depending on the extent to which the TSR metric is achieved.

The Company recorded \$3.1 million and \$3.4 million of stock-based compensation expense for the three months ended March 31, 2015 and 2014, respectively.

Stock Options

A summary of stock option activity for the three month period ended March 31, 2015 follows:

	Shares	Exercise Price	Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in thousands)(1)
Balance at December 31, 2014	3,312,158	\$ 20.40	5.49	\$ 46,077
Granted		\$		\$
Exercised		\$		\$
Forfeited/canceled		\$		\$
Balance at March 31, 2015	3,312,158	\$ 20.40	5.24	\$ 57,438
Vested and exercisable as of March 31, 2015	3,312,158	\$ 20.40	5.24	\$ 57,438

(1) The aggregate intrinsic value is calculated as the difference between the exercise price of the underlying awards and the closing stock price of our Class A common stock as of the respective date.

The Company's outstanding stock options fully vested on June 30, 2013 and there were no unrecognized compensation costs related to outstanding stock options as of March 31, 2015. As a result, there was no stock-based compensation expense related to stock options for the three months ended March 31, 2015 and the three months ended March 31, 2014.

The following table summarizes additional information regarding exercisable and vested stock options at March 31, 2015:

Range of exercise prices	Stock options exercisable and vested	
	Number of Shares	Weighted-Average Remaining Life (in years)

Edgar Filing: AIR LEASE CORP - Form 10-Q

\$20.00	3,162,158	5.21
\$28.80	150,000	6.07
\$20.00 - \$28.80	3,312,158	5.24

Restricted Stock Units

Compensation cost for stock awards is measured at the grant date based on fair value and recognized over the vesting period. The fair value of book value and time based RSUs is determined based on the closing market price of the Company's Class A common stock on the date of grant, while the fair value of TSR RSUs is determined at the grant date using a Monte Carlo simulation model. Included in the Monte Carlo simulation model were certain assumptions regarding a number of highly complex and subjective variables, such as expected volatility, risk-free interest rate and expected dividends. To appropriately value the award, the risk-free interest rate is estimated for the time period from the valuation date until the vesting date and the historical volatilities were estimated based on a historical timeframe equal to the time from the valuation date until the end date of the performance period.

Table of Contents

During the three months ended March 31, 2015, the Company granted 395,584 RSUs of which 174,784 are TSR RSUs. The following table summarizes the activities for our unvested RSUs for the three months ended March 31, 2015:

	Unvested Restricted Stock Units	
	Number of Shares	Weighted-Average Grant-Date Fair Value
Unvested at December 31, 2014	969,225	\$ 33.51
Granted	395,584	45.26
Vested	(296,073)	27.36
Forfeited/canceled	(85,768)	25.13
Unvested at March 31, 2015	982,968	\$ 40.82
Expected to vest after March 31, 2015(1)	970,840	41.55

(1) RSUs expected to vest reflect an estimated forfeiture rate.

The Company recorded \$3.1 million and \$3.4 million of stock-based compensation expense related to RSUs for the three months ended March 31, 2015 and 2014, respectively.

As of March 31, 2015, there was \$26.9 million of unrecognized compensation cost, adjusted for estimated forfeitures, related to unvested RSUs granted to employees. Total unrecognized compensation cost will be adjusted for future changes in estimated forfeitures and is expected to be recognized over a weighted-average remaining period of 2.3 years.

Note 9. Investments

On November 4, 2014, a wholly owned subsidiary of the Company entered into an agreement with a co-investment vehicle arranged by Napier Park to participate in a joint venture formed as a Delaware limited liability company Blackbird Capital I, LLC (Blackbird) for the purpose of investing in commercial aircraft and leasing them to airlines around the globe. We provide management services to the joint venture for a fee based upon aircraft assets under management. The Company s non-controlling interest in Blackbird is 9.5% and it is accounted for as an investment under the equity method of accounting. During the three months ended March 31, 2015, we recognized \$1.7 million of gains on the sale of aircraft to Blackbird. During the year ended December 31, 2014, the Company recognized \$9.0 million of gains on the sale of aircraft to Blackbird. As of March 31, 2015 and December 31, 2014, the amount due from Blackbird to the Company are \$527,000 and \$454,000, respectively. The Company s investment in Blackbird was \$11.7 million and \$10.1 million as of March 31, 2015 and December 31, 2014, respectively.

Note 10. Litigation

Edgar Filing: AIR LEASE CORP - Form 10-Q

On April 24, 2012, the Company was named as a defendant in a complaint filed in Superior Court of the State of California for the County of Los Angeles by American International Group, Inc. (AIG) and International Lease Finance Corporation (ILFC) (the AIG/ILFC Complaint). The complaint also named as defendants certain executive officers and employees of the Company. AIG withdrew as a plaintiff on all but one cause of action that was not asserted against the Company. Among other things, the complaint, as amended, alleged breach of fiduciary duty, misappropriation of trade secrets, the wrongful recruitment of ILFC employees, and the wrongful diversion of potential ILFC leasing opportunities. The complaint sought an unspecified amount of damages and injunctive relief.

On August 15, 2013, the Company filed a cross-complaint against ILFC and AIG (the Cross-Complaint). The Cross-Complaint, as amended, alleged breach of contract for the sale of goods in connection with an agreement entered into by AIG, acting on behalf of ILFC, in January 2010 to sell 25 aircraft to the entity that became Air Lease Corporation. The Cross-Complaint sought compensatory damages in excess of \$500 million.

The matters set forth in the AIG/ILFC Complaint and the Cross-Complaint are collectively referred to as the litigation .

On April 22, 2015, the Company and certain executive officers and employees of the Company entered into a settlement agreement and release (the Settlement Agreement) with AIG, ILFC, and ILFC 's parent, AerCap Holdings N.V., to settle all

Table of Contents

ongoing litigation. Pursuant to the terms of the Settlement Agreement, (i) all claims and counterclaims asserted in the litigation will be dismissed with prejudice, (ii) each of the parties to the litigation will receive full releases of all claims and counterclaims asserted in the litigation, and (iii) the Company will pay AIG the sum of \$36.0 million no later than June 30, 2015, and an additional sum of \$36.0 million no later than September 30, 2015. The Company has accrued for these payments in accrued interest and other payables on the Consolidated Balance Sheet as of March 31, 2015 and recorded settlement expense of \$72.0 million on the Consolidated Statement of Income for the three months ended March 31, 2015. The parties to the Settlement Agreement agreed that the settlement was intended solely as a compromise of disputed claims, and that no party admits any wrongdoing or liability with respect to any matter alleged in the litigation. On April 24, 2015, the parties filed a request for dismissal which was entered on April 29, 2015.

Note 11. Related Party Transactions

The Company has a Master Servicing Agreement dated October 25, 2013 (Master Servicing Agreement) with Commonwealth Bank of Australia and/or its subsidiaries (collectively Commonwealth Bank). Under the Master Servicing Agreement we consolidated all of our prior aircraft servicing agreements for the aircraft we manage for Commonwealth Bank. Commonwealth Bank beneficially owns more than 5% of our Class A common stock.

Under the Master Servicing Agreement, we manage on behalf of Commonwealth Bank or its subsidiaries the leasing and remarketing of aircraft for subsequent leases or for sale. For these services, Commonwealth Bank pays us a percentage of the rent for the aircraft and will pay us a percentage of the proceeds if the aircraft is sold. As of March 31, 2015, all of the aircraft we manage for Commonwealth Bank are pursuant to the Master Servicing Agreement. During the quarter ended March 31, 2015, we agreed to manage the lease of an additional aircraft to a third-party pursuant to the Master Servicing Agreement. We may earn an aggregate of approximately \$0.1 million in fees under the Master Servicing Agreement in connection with the management of the additional lease. As of March 31, 2015, the Company managed a total of 12 aircraft for Commonwealth Bank.

In addition, Commonwealth Bank is a participant lender in the Syndicated Unsecured Revolving Credit Facility and the 2010 Warehouse Facility. See note 4 of Notes to Consolidated Financial Statements for further details regarding the terms of the financings.

Note 12. Subsequent Events

On May 6, 2015, our board of directors approved a quarterly cash dividend of \$0.04 per share on our outstanding common stock. The dividend will be paid on July 6, 2015 to holders of record of our common stock as of June 15, 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read together with our consolidated financial statements and related notes included in Part I, Item 1 of this Quarterly Report on Form 10-Q.

Overview

Air Lease Corporation is a leading aircraft leasing company that was founded by aircraft leasing industry pioneer, Steven F. Udvar-Házy. We are principally engaged in purchasing new commercial jet transport aircraft directly from the manufacturers, such as Boeing and Airbus, and leasing those aircraft to airlines throughout the world to generate attractive returns on equity. In addition to our leasing activities, we sell aircraft from our operating lease portfolio to third-parties, including other leasing companies, financial services companies and airlines. We also provide fleet management services to investors and owners of aircraft portfolios for a management fee. Our operating performance is driven by the growth of our fleet, the terms of our leases, the interest rates on our indebtedness and the terms of our aircraft sales and trading activities.

During the quarter ended March 31, 2015, we took delivery of 10 aircraft from our new order pipeline and two used aircraft acquired in the secondary market and sold two aircraft, ending the year with a total of 223 aircraft. We leased and managed aircraft to a globally diversified customer base comprised of 82 airlines in 47 countries. The weighted average lease term remaining on our operating lease portfolio was 7.1 years and the weighted average age of our fleet was 3.5 years as of March 31, 2015. Our fleet grew by 5.8% based on net book value to \$9.5 billion as of March 31, 2015 compared to \$9.0 billion as of December 31, 2014. All of the aircraft in our fleet were leased as of March 31, 2015 and December 31, 2014. In addition, we increased our managed fleet from 17 aircraft as of December 31, 2014 to 19 aircraft as of March 31, 2015.

The acquisition and lease of additional aircraft led to an increase of \$38.9 million, or 16.9%, in our rental revenue to \$269.3 million for the quarter ended March 31, 2015, compared to \$230.4 million for the quarter ended March 31, 2014. Due to the timing of aircraft deliveries the full impact on rental revenue for aircraft acquired during a given period will be reflected in subsequent periods.

In March 2015, we entered into a definitive agreement and amendments to existing agreements with Airbus to purchase 57 aircraft which were previously subject to memorandums of understanding. We agreed to purchase 25 A330neo aircraft, 30 A321neo LR aircraft, an incremental A350 aircraft and an additional A321-200 aircraft. Deliveries of the aircraft are scheduled to commence in 2016 and continue through 2023.

In January 2015, the Company issued \$600.0 million in aggregate principal amount of senior unsecured notes due 2022 that bear interest at a rate of 3.75%. In March 2015, the Company amended its Syndicated Unsecured Revolving Credit Facility increasing the capacity by \$210.0 million to \$2.3 billion. We ended the first quarter of 2015 with total debt outstanding of \$7.0 billion, of which 80.0% was at a fixed-rate and 85.0% was unsecured, with a composite cost of funds of 3.71%.

On April 22, 2015, the Company and certain executive officers and employees of the Company entered into the Settlement Agreement with AIG, ILFC, and ILFC's parent, AerCap Holdings N.V., to settle all ongoing litigation as set forth in Note 10: Litigation, in the Notes to

Edgar Filing: AIR LEASE CORP - Form 10-Q

Consolidated Financial Statements of this Quarterly Report on Form 10-Q. In connection with the settlement, we recorded an expense of \$72.0 million before taxes for the three months ended March 31, 2015.

We recorded income before taxes of \$30.0 million for the quarter ended March 31, 2015 compared to \$94.7 million for the quarter ended March 31, 2014. Our net income for the quarter ended March 31, 2015 was \$19.3 million compared to \$61.4 million for the quarter ended March 31, 2014. Our diluted earnings per share for the quarter ended March 31, 2015 was \$0.19 compared to \$0.57 for the quarter ended March 31, 2014. Reported income before income taxes, net income and diluted earnings per share were negatively impacted by \$72.0 million, \$46.4 million and \$0.42 per share, respectively, for the litigation settlement discussed above.

Excluding the litigation settlement expense, our adjusted income before taxes was \$102.0 million for the quarter ended March 31, 2015 compared to \$94.7 million for the quarter ended March 31, 2014, an increase of \$7.3 million or 7.7%. Our adjusted pretax profit margin for the quarter ended March 31, 2015 was 36.6%, compared to 38.5% for the quarter ended March 31, 2014. Adjusted diluted earnings per share increased to \$0.61 for the quarter ended March 31, 2015, compared to \$0.57 for the quarter ended March 31, 2014. Adjusted income before taxes and adjusted earnings per share are measures of financial and operational performance that are not defined by GAAP. See note 1 under the Results of Operations table below for a discussion of adjusted income before taxes and adjusted diluted earnings per share as non-GAAP measures and reconciliation of these measures to net income.

-
- (1) All of our Airbus A321-200 aircraft will be equipped with sharklets.
- (2) Our Airbus A320/321neo aircraft orders include 30 long-range variants.

Our lease placements are progressing in line with expectations. As of March 31, 2015 and through May 7, 2015, we have entered into contracts for the lease of new aircraft scheduled to be delivered as follows:

Delivery year	Number of Aircraft	Number Leased	% Leased
2015	30	30	100.0%
2016	33	29	87.9%
2017	27	15	55.6%
2018	39	18	46.2%
2019	59	6	10.2%
Thereafter	223	3	1.3%
Total	411	101	

As of March 31, 2015, the Company had a non-binding commitment to acquire up to five A350-1000 aircraft. Deliveries of these aircraft are scheduled to commence in 2022 and continue through 2023.

Aircraft industry and sources of revenues

Our revenues are principally derived from operating leases with scheduled and charter airlines. In the last three years, we derived more than 95% of our revenues from airlines domiciled outside of the U.S., and we anticipate that most of our revenues in the future will be generated from foreign customers.

Edgar Filing: AIR LEASE CORP - Form 10-Q

Demand for air travel has consistently grown in terms of both passenger traffic and number of aircraft in service. According to the International Air Transport Association (IATA), global passenger traffic demand grew 5.9% in 2014 over the prior year. In 2013, global passenger traffic demand grew 5.2% compared to 2012, which was aligned with the annual growth rate over the past 30 years. The number of aircraft in service also has grown steadily. Additionally, the number of leased aircraft in the global fleet has increased. The long-term outlook for aircraft demand remains robust due to increased passenger traffic and the need to replace aging aircraft.

The success of the commercial airline industry is linked to the strength of global economic development, which may be negatively impacted by macroeconomic conditions, geopolitical and policy risks. While the airline industry is cyclical, the leasing industry has remained resilient over time.

Table of Contents

From time to time, our airlines customers face financial difficulties. In January 2015, Skymark Airlines filed for civil rehabilitation proceedings in Japan (similar to U.S. Bankruptcy reorganization). Skymark Airlines operates two of our Boeing 737-800 aircraft and we expect the airline to continue to make payments to us during these proceedings.

Despite industry cyclicality and economic stresses, we remain optimistic about the long-term growth prospects for air transportation. We see a growing demand for aircraft leasing in the broader industry and a role for us in helping airlines modernize their fleets to support the growth of the airline industry.

Liquidity and Capital Resources

Overview

We finance the purchase of aircraft and our business with available cash balances, internally generated funds, including aircraft sales and trading activity, and debt financings. We have structured the Company to have an investment grade credit profile and our debt financing strategy has focused on funding our business on an unsecured basis. Unsecured financing provides us with operational flexibility when selling or transitioning aircraft from one airline to another. We may, to a limited extent, utilize export credit financing in support of our new aircraft deliveries.

In January 2015, we completed a senior unsecured notes offering of \$600.0 million due 2022 at 3.75%. This transaction increased our liquidity, the duration of our debt and our percentage of unsecured and fixed rate debt. Accordingly, the Company's unsecured debt increased to \$6.0 billion as of March 31, 2015 from \$5.5 billion as of December 31, 2014. The Company's unsecured debt as a percentage of total debt increased to 85.0% as of March 31, 2015 from 82.4% as of December 31, 2014. The Company's fixed rate debt as a percentage of total debt increased to 80.0% as of March 31, 2015 from 75.3% as of December 31, 2014.

We increased our cash flows from operations by 16.2% or \$29.3 million, to \$209.5 million for the three months ended March 31, 2015 as compared to \$180.2 million for the three months ended March 31, 2014. Our cash flows from operations increased primarily because of the lease of additional aircraft. Our cash used in investing activities increased by 103.6% or \$312.2 million to \$613.6 million for the three months ended March 31, 2015 as compared to \$301.3 million for the three months ended March 31, 2014. Our cash used in investing activities increased primarily as a result of an increase in aircraft purchases during the three months ended March 31, 2015 compared to the three months ended March 31, 2014. Our cash flows from financing activities increased by 209.7% or \$224.4 million to \$331.4 million for the three months ended March 31, 2015 as compared to \$107.0 million for the three months ended March 31, 2014. Our cash flows from financing activities increased primarily as a result of an increase in proceeds from debt financings during the three months ended March 31, 2015 compared to the three months ended March 31, 2014.

We ended the first quarter of 2015 with available liquidity of \$2.5 billion which is comprised of unrestricted cash of \$210.2 million and undrawn balances under our 2010 Warehouse Facility, and our unsecured revolving credit facilities of \$2.3 billion. We believe that we have sufficient liquidity to satisfy the operating requirements of our business through the next twelve months.

Edgar Filing: AIR LEASE CORP - Form 10-Q

Our financing plan for 2015 is focused on funding the purchase of aircraft and our business with available cash balances, internally generated funds, including aircraft sales and trading activity, and debt financings. Our debt financing plan is focused on continuing to raise unsecured debt in the global bank and capital markets. In addition, we may utilize, to a limited extent, export credit financing in support of our new aircraft deliveries.

We are in compliance in all material respects with all covenants or other requirements in our debt agreements. While a ratings downgrade would not result in a default under any of our debt agreements, it could adversely affect our ability to issue debt and obtain new financings, or renew existing financings, and it would increase the cost of such financings. Our liquidity plans are subject to a number of risks and uncertainties, including those described in our Annual Report on Form 10-K for the year ended December 31, 2014.

Senior unsecured notes

On January 14, 2015, the Company issued \$600.0 million in aggregate principal amount of senior unsecured notes due 2022 that bear interest at a rate of 3.75%.

As of March 31, 2015, the Company had \$5.2 billion in senior unsecured notes outstanding. As of December 31, 2014, the Company had \$4.6 billion in senior unsecured notes outstanding.

Unsecured revolving credit facilities

Edgar Filing: AIR LEASE CORP - Form 10-Q

In March 2015, the Company completed amendments to its Syndicated Unsecured Revolving Credit Facility. Pursuant to the amendments, we have increased the aggregate capacity by a total of \$210.0 million to \$2.3 billion. The facility continues to accrue interest at a rate of LIBOR plus 1.25% on drawn balances and include a 0.25% facility fee.

The total amount outstanding under our unsecured revolving credit facilities was \$338.0 million and \$569.0 million as of March 31, 2015 and December 31, 2014, respectively.

Unsecured term financings

During the three months ended March 31, 2015, the Company entered into a \$100.0 million one year unsecured term facility bearing interest at a rate of LIBOR plus 1.00%.

Table of Contents

The outstanding balance on our unsecured term facilities as of March 31, 2015 and December 31, 2014 was \$283.0 million and \$196.1 million, respectively.

Warehouse facility

As of March 31, 2015, the Company had borrowed \$403.5 million under the 2010 Warehouse Facility and pledged 15 aircraft as collateral with a net book value of \$630.0 million. As of December 31, 2014, the Company had borrowed \$484.5 million under the 2010 Warehouse Facility and pledged 18 aircraft as collateral with a net book value of \$729.5 million.

Credit ratings

The following table summarizes our current credit ratings:

Rating Agency	Long-term Debt	Corporate Rating	Outlook	Date of Last Ratings Action
Standard and Poor's	BBB-	BBB-	Stable Outlook	August 26, 2013
Kroll Bond Rating Agency	A-	A-	Stable Outlook	October 16, 2014

While a ratings downgrade would not result in a default under any of our debt agreements, it could adversely affect our ability to issue debt and obtain new financings, or renew existing financings, and it would increase the cost of our financings.

(1) Adjusted income before taxes (defined as income before taxes before settlement expense), adjusted diluted earnings per share (defined as net income before settlement expense and tax effect divided by the weighted average diluted common shares outstanding), adjusted net income (defined as income before settlement expense and tax effect) and adjusted net income plus assumed conversions (defined as net income before settlement expense and tax effect after assumed conversion of convertible senior notes) are measures of operating performance that are not defined by GAAP and should not be considered as an alternative to income before taxes, earnings per share, diluted earnings per share, or any other performance measures derived in accordance with GAAP. Adjusted income before taxes, adjusted diluted earnings per share, adjusted net income and adjusted net income plus assumed conversions are presented as supplemental disclosure because management believes they provide useful information on our earnings from ongoing operations.

Management and our board of directors use adjusted income before taxes, adjusted diluted earnings per share, adjusted net income and adjusted net income plus assumed conversions to assess our consolidated financial and operating performance. Management believes these measures are helpful in evaluating the operating performance of our ongoing operations and identifying trends in our performance, because they remove the one-time impact of settlement expense in the first quarter of 2015 from our operating results. Adjusted income before taxes, adjusted diluted earnings per share, adjusted net income and adjusted net income plus assumed conversions, however, should not be considered in isolation or as a substitute for analysis of our operating results or cash flows as reported under GAAP. Adjusted income before taxes, adjusted diluted earnings per share, adjusted net income and adjusted net income plus assumed conversions do not reflect our cash expenditures or changes in or cash requirements for our working capital needs. In addition, our calculation of adjusted income before taxes, adjusted diluted earnings per share, adjusted net income and adjusted net income plus assumed conversions may differ from the adjusted income before taxes, adjusted diluted earnings per share, adjusted net income and adjusted net income plus assumed conversions or analogous calculations of other companies in our industry, limiting their usefulness as a comparative measure.

Table of Contents

Three months ended March 31, 2015, compared to the three months ended March 31, 2014

Rental revenue

As of March 31, 2015, we owned 223 aircraft at a total cost of \$9.5 billion and recorded \$269.3 million in rental revenue for the quarter then ended, which included overhaul revenue of \$6.8 million. In the prior year, as of March 31, 2014, we owned 196 aircraft at a total cost of \$9.8 billion and recorded \$230.4 million in rental revenue for the year quarter ended March 31, 2014, which included overhaul revenue of \$6.1 million. The increase in rental revenue was attributable to the delivery of 12 additional aircraft, all of which were leased at the time of delivery, partially offset by the sale of two aircraft from our operating lease portfolio. Due to the timing of aircraft deliveries and sales, the full impact on rental revenue will be reflected in subsequent periods.

All of the aircraft in our fleet were leased as of March 31, 2015 and March 31, 2014.

Aircraft sales, trading and other

Aircraft sales, trading and other revenue totaled \$9.1 million for the three months ended March 31, 2015 compared to \$15.9 million for the three months ended March 31, 2014. During the quarter ended March 31, 2015, we recorded \$7.5 million in gains from the sale of two aircraft from our operating lease portfolio. During the quarter ended March 31, 2014, we recorded \$14.2 million in gains from (i) the sale of two aircraft from our operating lease portfolio, (ii) trading of two Boeing 737-300 aircraft and (iii) insurance proceeds received in excess of the book value relating to the loss of an aircraft in 2013.

Interest expense

Interest expense totaled \$63.1 million for the three months ended March 31, 2015 compared to \$50.8 million for the three months ended March 31, 2014. The change was primarily due to an increase in our average outstanding debt balances resulting in an \$11.0 million increase in interest expense and an increase of \$1.2 million in amortization of discounts and debt issuance costs. We expect that our interest expense will increase as our average debt balance outstanding continues to increase. Interest expense will also be impacted by changes in our composite cost of funds.

Depreciation expense

We recorded \$91.0 million in depreciation expense of flight equipment for the three months ended March 31, 2015 compared to \$78.1 million for the three months ended March 31, 2014. The increase in depreciation expense for the three months ended March 31, 2015, compared to the three months ended March 31, 2014, is attributable to the acquisition of additional aircraft. The full impact on depreciation expense for aircraft

acquired during the period will be reflected in subsequent periods.

Selling, general and administrative expenses

We recorded selling, general and administrative expenses of \$19.1 million for the three months ended March 31, 2015 compared to \$19.2 million for the three months ended March 31, 2014. Selling, general and administrative expense as a percentage of revenue decreased to 6.9% for the three months ended March 31, 2015 compared to 7.8% for the three months ended March 31, 2014. As we continue to add new aircraft to our portfolio, we expect over the long-term, selling, general and administrative expense to decrease as a percentage of our revenue.

Settlement expense

We recorded settlement expense of \$72.0 million for the three months ended March 31, 2015 as a result of the Settlement Agreement entered into by and between the Company, certain executive officers and employees of the Company, AIG, ILFC, and AerCap Holdings N.V., to settle all ongoing litigation as set forth in Note 10: Litigation, in the Notes to Consolidated Financial Statements of this Quarterly Report on Form 10-Q.

Taxes

The effective tax rate was 35.5% and 35.2% for the three months ended March 31, 2015 and 2014, respectively. The change in effective tax rate for the respective periods is due to the effect of changes in permanent differences.

Table of Contents*Net income*

For the three months ended March 31, 2015, we reported consolidated net income of \$19.3 million, or \$0.19 per diluted share, compared to consolidated net income of \$61.4 million, or \$0.57 per diluted share, for the three months ended March 31, 2014. The decrease in net income for the three months ended March 31, 2015, compared to the same period in 2014, was primarily attributable to an increase in interest expense and settlement expense recorded in the quarter.

Contractual Obligations

Our contractual obligations as of March 31, 2015, are as follows (in thousands):

	2015	2016	2017	2018	2019	Thereafter	Total
Long-term debt obligations	\$ 171,577	\$ 954,872	\$ 1,393,510	\$ 1,289,776	\$ 1,104,898	\$ 2,140,722	\$ 7,055,355

(1) Future interest payments on floating rate debt are estimated using floating rates in effect at March 31, 2015.

(2) The table above does not include our upcoming cash payments of (i) \$36.0 million, which will be paid no later than June 30, 2015, and (ii) an additional sum of \$36.0 million, which will be paid no later than September 30, 2015, pursuant to the terms of the Settlement Agreement discussed above in Note 10: Litigation of the Notes to Consolidated Financial Statements of this Quarterly Report on Form 10-Q.

Off-Balance Sheet Arrangements

We have not established any unconsolidated entities for the purpose of facilitating off-balance sheet arrangements or for other contractually narrow or limited purposes. We have, however, from time to time established subsidiaries and created partnership arrangements or trusts for the purpose of leasing aircraft or facilitating borrowing arrangements, all of which are consolidated.

Critical Accounting Policies

The Company's critical accounting policies reflecting management's estimates and judgments are described in our Annual Report on Form 10-K for the year ended December 31, 2014. The Company has reviewed recently adopted accounting pronouncements and determined that the

Edgar Filing: AIR LEASE CORP - Form 10-Q

adoption of such pronouncements is not expected to have a material impact, if any, on its consolidated financial statements. Accordingly, there have been no changes to critical accounting policies in the three months ended March 31, 2015.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk represents the risk of changes in value of a financial instrument, caused by fluctuations in interest rates and foreign exchange rates. Changes in these factors could cause fluctuations in our results of operations and cash flows. We are exposed to the market risks described below.

Interest Rate Risk

The nature of our business exposes us to market risk arising from changes in interest rates. Changes, both increases and decreases, in our cost of borrowing, as reflected in our composite interest rate, directly impact our net income. Our lease rental stream is generally fixed over the life of our leases, whereas we have used floating-rate debt to finance a significant portion of our aircraft acquisitions. As of March 31, 2015 and December 31, 2014, we had \$1.4 billion and \$1.7 billion in floating-rate debt, respectively. If interest rates increase, we would be obligated to make higher interest payments to our lenders. If we incur significant fixed-rate debt in the future, increased interest rates prevailing in the market at the time of the incurrence of such debt would also increase our interest expense. If the composite rate on our floating-rate debt were to increase by 1.0%, we would expect to incur additional interest expense on our existing indebtedness of approximately \$14.1 million and \$16.7 million as of March 31, 2015 and December 31, 2014, respectively, each on an annualized basis, which would put downward pressure on our operating margins. The change in interest expense the Company would incur is primarily due to a change in total floating-rate debt outstanding as of March 31, 2015 compared to December 31, 2014.

We also have interest rate risk on our forward lease placements. This is caused by us setting a fixed lease rate in advance of the delivery date of an aircraft. The delivery date is when a majority of the financing for an aircraft is arranged. We partially mitigate the risk of an increasing interest rate environment between the lease signing date and the delivery date of the aircraft by having interest rate adjusters in a majority of our forward lease contracts which would adjust the final lease rate upward if certain benchmark interest rates are higher at the time of delivery of the aircraft than at the lease signing date.

Foreign Exchange Rate Risk

The Company attempts to minimize currency and exchange risks by entering into aircraft purchase agreements and a majority of lease agreements and debt agreements with U.S. dollars as the designated payment currency. Thus, most of our revenue and expenses are denominated in U.S. dollars. As of March 31, 2015 and December 31, 2014, 0.7% and 0.8%, respectively, of our lease revenues were denominated in Euros. The decrease in lease revenues denominated in Euros is primarily due to the growth of our operating lease portfolio. As our principal currency is the U.S. dollar, weakness in the U.S. dollar as compared to other major currencies should not have a significant impact on our future operating results.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our filings under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission (SEC), and such information is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer (collectively, the Certifying Officers), as appropriate, to allow timely decisions regarding required disclosure. Our management, including the Certifying Officers, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Table of Contents

We have evaluated, under the supervision and with the participation of management, including the Certifying Officers, the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended, as of March 31, 2015. Based on that evaluation, our Certifying Officers have concluded that our disclosure controls and procedures were effective at March 31, 2015.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the quarter ended March 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On April 24, 2012, the Company was named as a defendant in a complaint filed in Superior Court of the State of California for the County of Los Angeles by American International Group, Inc. (AIG) and International Lease Finance Corporation (ILFC) (the AIG/ILFC Complaint). The complaint also named as defendants certain executive officers and employees of the Company. AIG withdrew as a plaintiff on all but one cause of action that was not asserted against the Company. Among other things, the complaint, as amended, alleged breach of fiduciary duty, misappropriation of trade secrets, the wrongful recruitment of ILFC employees, and the wrongful diversion of potential ILFC leasing opportunities. The complaint sought an unspecified amount of damages and injunctive relief.

On August 15, 2013, the Company filed a cross-complaint against ILFC and AIG (the Cross-Complaint). The Cross-Complaint, as amended, alleged breach of contract for the sale of goods in connection with an agreement entered into by AIG, acting on behalf of ILFC, in January 2010 to sell 25 aircraft to the entity that became Air Lease Corporation. The Cross-Complaint sought compensatory damages in excess of \$500 million.

The matters set forth in the AIG/ILFC Complaint and the Cross-Complaint are collectively referred to as the litigation .

On April 22, 2015, the Company and certain executive officers and employees of the Company entered into a settlement agreement and release (the Settlement Agreement) with AIG, ILFC, and ILFC's parent, AerCap Holdings N.V., to settle all ongoing litigation. Pursuant to the terms of the Settlement Agreement, (i) all claims and counterclaims asserted in the litigation will be dismissed with prejudice, (ii) each of the parties to the litigation will receive full releases of all claims and counterclaims asserted in the litigation, and (iii) the Company will pay AIG the sum of \$36.0 million no later than June 30, 2015, and an additional sum of \$36.0 million no later than September 30, 2015. The Company has accrued for these payments in accrued interest and other payables on the Consolidated Balance Sheet as of March 31, 2015 and recorded settlement expense of \$72.0 million on the Consolidated Statement of Income for the three months ended March 31, 2015. The parties to the Settlement Agreement agreed that the settlement was intended solely as a compromise of disputed claims, and that no party admits any wrongdoing or liability with respect to any matter alleged in the litigation. On April 24, 2015, the parties filed a request for dismissal which was entered on

April 29, 2015.
