FORWARD-LOOKING STATEMENTS

Certain of the statements in this quarterly report on Form 10-Q may constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The words "expect," "anticipate," "goal," "objective," "intend," "plan," "believe," "should," "seek," "estimate" and similar expressions are intended to identify such forward-looking statements, but other statements not based on historical information may also be considered forward-looking. All forward-looking statements are subject to risks, uncertainties and other factors that may cause the actual results, performance or achievements of Pinnacle Financial Partners, Inc. ("Pinnacle Financial") to differ materially from any results expressed or implied by such forward-looking statements. Such risks include, without limitation, (i) deterioration in the financial condition of borrowers resulting in significant increases in loan losses and provisions for those losses; (ii) continuation of the historically low short-term interest rate environment; (iii) the inability of Pinnacle Financial to grow its loan portfolio; (iv) changes in loan underwriting, credit review or loss reserve policies associated with economic conditions, examination conclusions, or regulatory developments; (v) effectiveness of Pinnacle Financial's asset management activities in improving, resolving or liquidating lower-quality assets; (vi) increased competition with other financial institutions; (vii) greater than anticipated adverse conditions in the national or local economies including the Nashville-Davidson-Murfreesboro-Franklin MSA and the Knoxville MSA, particularly in commercial and residential real estate markets; (viii) rapid fluctuations or unanticipated changes in interest rates on loans or deposits; (ix) the results of regulatory examinations; (x) the ability to retain large, uninsured deposits; (xi) the development of any new market other than Nashville or Knoxville; (xii) a merger or acquisition; (xiii) any matter that would cause Pinnacle Financial to conclude that there was impairment of any asset, including intangible assets; (xiv) the ability to attract additional financial advisors or to attract customers from other financial institutions; (xv) further deterioration in the valuation of other real estate owned and increased expenses associated therewith; (xvi) inability to comply with regulatory capital requirements, including those resulting from recently adopted changes to capital calculation methodologies and required capital maintenance levels; (xvii) risks associated with litigation, including the applicability of insurance coverage; (xviii) changes in the value of Pinnacle Financial's investment securities and any resulting losses associated therewith resulting from changes in market rates of interest, with Pinnacle Financial's intent to hold these securities to maturity, or the underlying financial condition of the issuer thereof; (xix) a decision by Pinnacle Financial's board of directors to eliminate or reduce the amount of the quarterly cash dividend initiated on Pinnacle Financial's common stock and, (xx) changes in state and federal legislation, regulations or policies applicable to banks and other financial service providers, including regulatory or legislative developments arising out of current unsettled conditions in the economy, including implementation of the Dodd-Frank Wall Street Reform and Consumer Protection Act. A more detailed description of these and other risks is contained in Pinnacle Financial's most recent annual report on Form 10-K filed with the Securities and Exchange Commission on February 22, 2013, Pinnacle Financial's most recent quarterly report on Form 10-Q filed with the Securities and Exchange Commission on July 31, 2013 and Part II, Item 1A "Risk Factors" below. Many of such factors are beyond Pinnacle Financial's ability to control or predict, and readers are cautioned not to put undue reliance on such forward-looking statements. Pinnacle Financial disclaims any obligation to update or revise any forward-looking statements contained in this release, whether as a result of new information, future events or otherwise.

PINNACLE FINANCIAL PARTNERS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Note 1. Summary of Significant Accounting Policies

Nature of Business — Pinnacle Financial Partners, Inc. (Pinnacle Financial) is a bank holding company whose primary business is conducted by its wholly-owned subsidiary, Pinnacle Bank. Pinnacle Bank is a commercial bank headquartered in Nashville, Tennessee. Pinnacle Bank provides a full range of banking services in its primary market areas of the Nashville-Davidson-Murfreesboro-Franklin, Tennessee and Knoxville, Tennessee Metropolitan Statistical Areas.

Basis of Presentation — The accompanying unaudited consolidated financial statements have been prepared in accordance with instructions to Form 10-Q and therefore do not include all information and footnotes necessary for a fair presentation of financial position, results of operations, and cash flows in conformity with U.S. generally accepted accounting principles (U.S. GAAP). All adjustments consisting of normally recurring accruals that, in the opinion of management, are necessary for a fair presentation of the financial position and results of operations for the periods covered by the report have been included. The accompanying unaudited consolidated financial statements should be read in conjunction with the Pinnacle Financial consolidated financial statements and related notes appearing in the 2012 Annual Report previously filed on Form 10-K.

These consolidated financial statements include the accounts of Pinnacle Financial and its wholly-owned subsidiaries. PNFP Statutory Trust I, PNFP Statutory Trust II, PNFP Statutory Trust III and PNFP Statutory Trust IV are affiliates of Pinnacle Financial and are included in these consolidated financial statements pursuant to the equity method of accounting. Significant intercompany transactions and accounts are eliminated in consolidation.

Use of Estimates — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the balance sheet date and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term include the determination of the allowance for loan losses, any potential impairment of intangible assets, including goodwill and the valuation of deferred tax assets, other real estate owned, and our investment portfolio, including other-than-temporary impairment. These financial statements should be read in conjunction with Pinnacle Financial's Annual Report on Form 10-K for the year ended December 31, 2012. There have been no significant changes to Pinnacle Financial's significant accounting policies as disclosed in Pinnacle Financial's Annual Report on Form 10-K for the year ended December 31, 2012.

Recently Adopted Accounting Pronouncements — In February 2013, the FASB issued Accounting Standards Update 2013-02, "Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income" which provides disclosure guidance on amounts reclassified out of AOCI by component. The adoption did not have any impact on our financial position or results of operations but has impacted our financial statement disclosure. As shown on the statement of comprehensive income for the three and nine months ended September 30, 2013, Pinnacle Financial reclassified approximately \$876,000 and \$891,000 of net losses out of other comprehensive income into loss on the sale of investment securities, net of tax, compared to reclassifications of net losses for the three months ended ended September 30, 2012, of approximately \$30,000, net of tax and net gains for the nine months ended September 30, 2012, of \$99,000, net of tax.

Goodwill — ASU No. 2011-8 provides an entity the option to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If an entity

determines that this is the case, it is required to perform the quantitative two-step goodwill impairment test to identify potential goodwill impairment and measure the amount of goodwill impairment loss to be recognized for that reporting unit (if any). Based on the qualitative assessment, if an entity determines that the fair value of a reporting unit is more than its carrying amount, the quantitative two-step goodwill impairment test is not required.Pinnacle Financial performed our annual assessment as of September 30, 2013. The results of our qualitative assessment indicated that the fair value of our reporting units was more than its carrying value, and accordingly, the two-step goodwill impairment test was not performed.

Cash Flow Information — Supplemental cash flow information addressing certain cash and noncash transactions for each of the nine months ended September 30, 2013 and 2012 was as follows:

	For the nine months ended September 30,	
	2013	2012
Cash Transactions:		
Interest paid	\$12,434,753	\$18,317,526
Income taxes paid, net	20,850,009	5,699,106
Noncash Transactions:		
Loans charged-off to the allowance for loan losses	14,088,656	11,265,378
Loans foreclosed upon and transferred to other real estate owned	3,491,421	8,489,792
Available-for-sale securities transferred to held-to-maturity portfolio	39,959,647	-

Income Per Common Share — Basic net income per common share available to common stockholders (EPS) is computed by dividing net income available to common stockholders by the weighted average common shares outstanding for the period. For the three and nine months ended September 30, 2012, weighted average common shares outstanding also include salary stock units issued to the named executive officers. Diluted EPS reflects the dilution that could occur if securities or other contracts to issue common stock were exercised or converted. The difference between basic and diluted weighted average shares outstanding is attributable to common stock options, common stock appreciation rights, warrants and dilutive restricted shares. The dilutive effect of outstanding options, common stock appreciation rights, warrants and restricted shares is reflected in diluted EPS by application of the treasury stock method.

For the three and nine months ended September 30, 2013, there were 323,668 and 267,214 shares, respectively, associated with dilutive stock options, stock appreciation rights and dilutive restricted shares that were included in the net income per share calculation. For the three and nine months ended September 30, 2012, there were 583,828 and 594,709 shares, respectively, associated with dilutive stock options, stock appreciation rights, warrants and restricted shares outstanding to purchase common shares that were included in the net income per share calculation.

The following is a summary of the basic and diluted net income per share calculations for the three and nine months ended September 30, 2013 and 2012:

	For the three September 30		For the nine months ended September 30,		
	2013	2012	2013	2012	
Basic net income per share calculation:

Diluted net income per share available to common					
stockholders	\$0.42	\$0.33	\$1.23	\$0.76	

Note 2. Participation in U.S. Treasury Capital Purchase Program (CPP)

On December 12, 2008, Pinnacle Financial issued 95,000 shares of preferred stock to the U.S. Treasury (the Treasury) for \$95 million pursuant to the CPP. For the time the CPP preferred stock was outstanding, the CPP preferred stock was non-voting, other than having class voting rights on certain matters, and paid cumulative dividends quarterly at a rate of 5% per annum. Pinnacle Financial redeemed the preferred shares issued to the Treasury under the CPP in two transactions. During the fourth quarter of 2011, Pinnacle Financial redeemed 23,750 of the preferred shares in a transaction totaling approximately \$23.9 million, including accrued but unpaid dividends of \$142,000. During the second quarter of 2012, Pinnacle Financial completed the redemption of the remaining 71,250 preferred shares outstanding in a transaction totaling \$71.6 million which included accrued but unpaid dividends of \$346,000. Concurrently, Pinnacle Financial accelerated the accretion of the remaining preferred stock discount of approximately \$1.7 million during the second quarter of 2012.

Additionally, Pinnacle Financial issued warrants to purchase 534,910 shares of common stock to the Treasury as a condition to its participation in the CPP. The warrants had an exercise price of \$26.64 each, were immediately exercisable and expired 10 years from the date of issuance. On June 16, 2009, Pinnacle Financial completed the sale of 8,855,000 shares of its common stock in a public offering, resulting in net proceeds to Pinnacle Financial of approximately \$109 million. As a result, and pursuant to the terms of the warrants, the number of shares issuable upon exercise of the warrants was reduced by 50%, or 267,455 shares. During the third quarter of 2012, Pinnacle Financial repurchased all of the remaining outstanding warrants held by the Treasury for \$755,000.

Note 3. Securities

The amortized cost and fair value of securities available-for-sale and held-to-maturity at September 30, 2013 and December 31, 2012 are summarized as follows (in thousands):

	September			
		Gross	Gross

At September 30, 2013, approximately \$596.0 million of securities within Pinnacle Financial's investment portfolio were either pledged to secure public funds and other deposits or securities sold under agreements to repurchase.

During the first quarter of 2013, approximately \$40.0 million of available-for-sale securities were transferred to the held-to-maturity portfolio. The transfers of debt securities into the held-to-maturity category from the available-for-sale category were made at fair value at the date of transfer. The unrealized holding gain or loss at the date of transfer was retained in other comprehensive income and in the carrying value of the held-to-maturity securities. Such amounts will be amortized to interest income over the remaining life of the securities.

The amortized cost and fair value of debt securities as of September 30, 2013 by contractual maturity are shown below. Actual maturities may differ from contractual maturities of mortgage- and asset-backed securities since the mortgages and assets underlying the securities may be called or prepaid with or without penalty. Therefore, these securities are not included in the maturity categories in the following summary (in thousands):

	September 30, 2013						
	Available-	for-sale	Held-to-maturity				
	Amortized	Fair	AmortizedFair				
	Cost	Value	Cost	Value			
Due in one year or less	\$8,458	\$8,486	\$320	\$320

Asset-backed securities	17,353	9	-		-	17,353	9		
Corporate notes	162	4	-		-	162	4		
Total temporarily-impaired securities	\$142,581	\$ 1,176	\$ -	\$	-	\$142,581	\$ 1,176		

The applicable dates for determining when securities are in an unrealized loss position are September 30, 2013 and December 31, 2012. As such, it is possible that a security had a market value that exceeded its amortized cost on other days during the past twelve-month periods ended September 30, 2013 and December 31, 2012, but is in the "Investments with an Unrealized Loss of less than 12 months" category above.

As shown in the tables above, at September 30, 2013, Pinnacle Financial had approximately \$18.5 million in unrealized losses on \$322.2 million of securities. The unrealized losses associated with these investment securities are driven by changes in interest rates and the unrealized loss is recorded as a component of equity. These securities will continue to be monitored as a part of our ongoing impairment analysis, but are expected to perform even if the rating agencies reduce the credit rating of the bond issuers. Management evaluates the financial performance of the issuers on a quarterly basis to determine if it is probable that the issuers can make all contractual principal and interest payments. If a shortfall in future cash flows is identified, a credit loss will be deemed to have occurred and will be recognized as a charge to earnings and a new cost basis for the security will be established.

Because Pinnacle Financial currently does not intend to sell those securities that have an unrealized loss at September 30, 2013, and it is not more-likely-than-not that Pinnacle Financial will be required to sell the securities before recovery of their amortized cost bases, which may be maturity, Pinnacle Financial does not consider these securities to be other-than-temporarily impaired at September 30, 2013. Subsequent to September 30, 2013, Pinnacle Financial sold available-for-sale securities with a fair market value of \$22.1 million and realized a loss of \$1.4 million. Pinnacle Financial recorded an other-than-temporary-impairment charge in the third quarter of 2013 as a result of management's intention at September 30, 2013 to sell these specific securities at a loss pursuant to our current asset/liability strategy.

Periodically, available-for-sale securities may be sold or the composition of the portfolio realigned to improve yields, quality or marketability, or to implement changes in investment or asset/liability strategy, including maintaining collateral requirements and raising funds for liquidity purposes. Additionally, if an available-for-sale security loses its investment grade, tax-exempt status, the underlying credit support is terminated or collection otherwise becomes uncertain based on factors known to management, Pinnacle Financial will consider selling the security, but will review each security on a case-by-case basis as these factors become known. Consistent with the investment policy, available-for-sale securities of \$1.4 million were sold and a loss of \$25,000 realized during the nine months ended September 30, 2013.

The carrying values of Pinnacle Financial's investment securities could decline in the future if the financial condition of issuers deteriorates and management determines it is probable that Pinnacle Financial will not recover the entire amortized cost bases of the securities. As a result, there is a risk that other-than-temporary impairment charges may occur in the future. There is a risk that other-than-temporary impairment charges may occur in the future if management's intention to hold these securities to maturity and or recovery changes.

Note 4. Loans and Allowance for Loan Losses

For financial reporting purposes, Pinnacle Financial classifies its loan portfolio based on the underlying collateral utilized to secure each loan. This classification is consistent with those utilized in the Quarterly Report of Condition and Income filed with the Federal Deposit Insurance Corporation (FDIC).

Commercial loans receive risk ratings by the assigned financial advisor subject to validation by Pinnacle Financial's independent loan review department. Risk ratings are categorized as pass, special mention, substandard, substandard-nonaccrual or doubtful-nonaccrual. Pinnacle Financial believes that its categories follow those used by Pinnacle Bank's primary regulators. At September 30, 2013, approximately 76% of our loan portfolio was analyzed as a commercial loan type with a specifically assigned risk rating in the allowance for loan loss assessment. Consumer loans and small business loans are generally not assigned an individual risk rating but are evaluated as either accrual or nonaccrual based on the performance of the individual loans. However, certain consumer real estate-mortgage loans and certain consumer and other loans receive a specific risk rating due to the loan proceeds being used for commercial purposes even though the collateral may be of a consumer loan nature.

Risk ratings are subject to continual review by the loan officer. At least annually, our credit policy requires that every risk rated loan of \$500,000 or more be subject to a formal credit risk review process. Each loan grade is also subject to review by our independent loan review department, which reviews the majority of our risk rated portfolio annually. Included in the coverage are independent loan reviews of loans in targeted higher-risk portfolio segments.

The following table presents our loan balances by primary loan classification and the amount within each risk rating category. Pass rated loans include all credits other than those included in special mention, substandard, substandard-nonaccrual and doubtful-nonaccrual which are defined as follows:

Special mention loans have potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the asset or in Pinnacle Financial's credit position at some future date.

Substandard loans are inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged, if any. Assets so classified must have a well-defined weakness or weaknesses that jeopardize collection of the debt. Substandard loans are characterized by the distinct possibility that Pinnacle Financial will sustain some loss if the deficiencies are not corrected.

Substandard-nonaccrual loans are substandard loans that have been placed on nonaccrual status.

Doubtful-nonaccrual loans have all the characteristics of substandard-nonaccrual loans with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable and improbable.

The following table outlines the amount of each loan classification categorized into each risk rating category as of September 30, 2013 and December 31, 2012 (in thousands):

Total loans	\$1,178,196	\$679,926	\$ 313,552	\$1,446,578	\$93,910	\$3,712,162

Potential problem loans represent those loans with a well-defined weakness and where information about possible credit problems of borrowers has caused management to have doubts about the borrower's ability to comply with present repayment terms. This definition is believed to be substantially consistent with the standards established by

(1)Pinnacle Bank's primary regulators for loans classified as substandard, excluding the impact of substandard nonaccrual loans and substandard troubled debt restructurings. Potential problem loans, which are not included in nonaccrual loans, amounted to approximately \$71.1 million at September 30, 2013, compared to \$105.4 million at December 31, 2012.

(2) Troubled debt restructurings are presented as an impaired loan; however, they continue to accrue interest at contractual rates.

At September 30, 2013 and December 31, 2012, all loans classified as nonaccrual were deemed to be impaired. The principal balances of these nonaccrual loans amounted to \$20.0 million and \$22.8 million at September 30, 2013 and December 31, 2012, respectively, and are included in the table above. For the nine months ended September 30, 2013, the average balance of nonaccrual loans was \$21.0 million as compared to \$38.4 million for the twelve months ended December 31, 2012. At the date such loans were placed on nonaccrual status, Pinnacle Financial reversed all previously accrued interest income against current year earnings. Had these nonaccrual loans been on accruing status, interest income would have been higher by \$901,000 for the nine months ended September 30, 2013 and by \$1.5 million for the nine months ended September 30, 2012.

The following table details the recorded investment, unpaid principal balance and related allowance and average recorded investment of our nonaccrual loans at September 30, 2013 and December 31, 2012 by loan classification and the amount of interest income recognized on a cash basis throughout the fiscal year-to-date period then ended, respectively, on these loans that remain on the balance sheets (in thousands):

(1) Collateral dependent loans are typically charged-off to their net realizable value pursuant to requirements of our primary regulators and no specific allowance is carried related to those loans.

Pinnacle Financial's policy is that once a loan is placed on nonaccrual status each subsequent payment is reviewed on a case-by-case basis to determine if the payment should be applied to interest or principal pursuant to regulatory guidelines. Pinnacle Financial recognized no interest income from cash payments received on nonaccrual loans during the three and nine months ended September 30, 2013 or during the year ended December 31, 2012.

Impaired loans also include loans that Pinnacle Bank has elected to formally restructure when, due to the weakening credit status of a borrower, the restructuring may facilitate a repayment plan that seeks to minimize the potential losses that Pinnacle Bank may otherwise incur. If on nonaccrual status as of the date of restructuring, the loans are included in nonaccrual loans. Loans that have been restructured that were performing as of the restructure date and continue to perform in accordance with the restructured terms are reported separately as troubled debt restructurings.

At September 30, 2013 and December 31, 2012, there were \$19.7 million and \$27.5 million, respectively, of troubled debt restructurings that were performing as of their restructure date and which were accruing interest. These troubled debt restructurings are considered impaired loans pursuant to U.S. GAAP. Troubled commercial loans are restructured by specialists within our Special Assets Group, and all restructurings are approved by committees and credit officers separate and apart from the normal loan approval process. These specialists are charged with reducing Pinnacle Financial's overall risk and exposure to loss in the event of a restructuring by obtaining some or all of the following: improved documentation, additional guaranties, increase in curtailments, reduction in collateral release terms, additional collateral or other similar strategies.

The following table outlines the amount of each troubled debt restructuring categorized by loan classification made during the three and nine months ended September 30, 2013 and 2012 (dollars in thousands):

During the three months ended September 30, 2013 and 2012, Pinnacle Financial did not have any troubled debt restructurings that subsequently defaulted during the previous twelve months. During the nine months ended September 30, 2013, one consumer real estate loan totaling \$480,000 which was previously classified as a troubled debt restructuring subsequently defaulted, within twelve months of the restructuring. During the nine months ended September 30, 2012, three consumer and industrial loans totaling \$175,000 and two consumer and other loans totaling \$153,000 which were previously classified as troubled debt restructurings subsequently defaulted, within twelve months of the restructurings subsequently defaulted, within twelve months totaling \$153,000 which were previously classified as troubled debt restructurings subsequently defaulted, within twelve months of the restructuring is defined as an occurrence which violates the terms of the receivable's contract.

Pinnacle Financial analyzes its commercial loan portfolio to determine if a concentration of credit risk exists to any industry. Pinnacle Financial utilizes broadly accepted industry classification systems in order to classify borrowers into various industry classifications. Pinnacle Financial has a credit exposure (loans outstanding plus unfunded lines of credit) exceeding 25 % of Pinnacle Bank's total risk-based capital to borrowers in the following industries at September 30, 2013 with the comparative exposures for December 31, 2012 (in thousands):

The adequacy of the allowance for loan losses is assessed at the end of each calendar quarter. The level of the allowance is based upon evaluation of the loan portfolio, current asset quality trends, known and inherent risks in the portfolio, adverse situations that may affect the borrowers' ability to repay (including the timing of future payment), the estimated value of any underlying collateral, composition of the loan portfolio, economic conditions, historical loss experience, industry and peer bank loan quality indications and other pertinent factors, including regulatory recommendations.

At September 30, 2013, Pinnacle Financial had granted loans and other extensions of credit amounting to approximately \$9.9 million to current directors, executive officers, and their related entities, of which \$7.7 million had been drawn upon. At December 31, 2012, Pinnacle Financial had granted loans and other extensions of credit amounting to approximately \$8.8 million to directors, executive officers, and their related entities, of which approximately \$8.1 million had been drawn upon. These loans and extensions of credit were made on substantially the same terms customary for other persons similarly situated for the type of loan involved. None of these loans to directors, executive officers, and their related entities were impaired at September 30, 2013 or December 31, 2012.

Residential Lending

At September 30, 2013, Pinnacle Financial had approximately \$17.0 million of mortgage loans held-for-sale compared to approximately \$41.2 million at December 31, 2012. Pinnacle Financial generally has an agreement for the subsequent sale of the mortgage loan prior to the loan being closed with the borrower. Pinnacle Financial sells loans to third-party investors on a loan-by-loan basis and has not entered into any forward commitments with investors for future bulk loan sales. All of these loan sales transfer servicing rights to the buyer. During the nine months ended September 30, 2013, Pinnacle Financial recognized \$5.1 million in gains on the sale of these loans, net of commissions paid, compared to \$4.9 million during the nine months ended September 30, 2012.

These mortgage loans held-for-sale are originated internally and are primarily to borrowers in Pinnacle Bank's geographic markets. These sales are typically on a best efforts basis to investors that follow conventional government sponsored entities (GSE) and the Department of Housing and Urban Development/U.S. Department of Veterans Affairs (HUD/VA) guidelines. Generally, loans sold to the HUD/VA are underwritten by Pinnacle Bank while the majority of the loans sold to other investors are underwritten by the purchasers of the loans.

Each purchaser has specific guidelines and criteria for sellers of loans, and the risk of credit loss with regard to the principal amount of the loans sold is generally transferred to the purchasers upon sale. While the loans are sold without recourse, the purchase agreements require Pinnacle Bank to make certain representations and warranties regarding the existence and sufficiency of file documentation and the absence of fraud by borrowers or other third parties such as appraisers in connection with obtaining the loan. If it is determined that the loans sold were in breach of these representations or warranties, Pinnacle Bank has obligations to either repurchase the loan for the unpaid principal balance and related investor fees or make the purchaser whole for the economic benefits of the loan.

From inception of Pinnacle Bank's mortgage department in January 2003 through September 30, 2013, Pinnacle Bank originated and sold approximately 14,600 mortgage loans totaling \$3.1 billion to third-party purchasers. Of the approximately 14,600 mortgage loans, Pinnacle Bank underwrote approximately 3,800 conventional loans at an 80% or less loan-to-value that were sold to other investors and underwrote 3,200 loans that were sold to the HUD/VA. The remaining mortgage loans were underwritten by the purchasers of those loans, but funded by Pinnacle Bank until settlement with the purchaser. To date, repurchase activity pursuant to the terms of these representations and warranties has been insignificant to Pinnacle Bank.

Based on information currently available, management believes that it does not have material exposure to losses that may arise relating to the representations and warranties that it has made in connection with its mortgage loan sales.

Due to the focus on foreclosure practices of financial institutions nationwide, Pinnacle Bank has evaluated its foreclosure process related to home equity and consumer mortgage loans within its loan portfolio. At September 30, 2013, Pinnacle Bank has \$825.4 million of home equity and consumer mortgage loans which are secured by first or second liens on residential properties. Foreclosure activity in this portfolio has been minimal. Any foreclosures on these loans are handled by designated Pinnacle Bank personnel and external legal counsel, as appropriate, following established policies regarding legal and regulatory requirements. Pinnacle Bank has not imposed any freezes on foreclosures. Based on information currently available, management believes that it does not have material exposure to faulty foreclosure practices.

Note 5. Income Taxes

ASC 740, Income Taxes, defines the threshold for recognizing the benefits of tax return positions in the financial statements as "more-likely-than-not" to be sustained by the taxing authority. As of September 30, 2013, Pinnacle Financial had no unrecognized tax benefits related to Federal or State income tax matters and does not currently anticipate any material increase or decrease in unrecognized tax benefits relative to any tax positions taken prior to September 30, 2013. As of September 30, 2013, Pinnacle Financial has accrued no interest and no penalties related to uncertain tax positions.

Pinnacle Financial and its subsidiaries file consolidated U.S. Federal and state of Tennessee income tax returns. The IRS concluded its examination of the 2007, 2008, and 2009 federal tax returns during 2011. Pinnacle Financial remains open to audit under the statute of limitations by the IRS for the years ended December 31, 2010 through 2012 and by the State of Tennessee from December 31, 2009 through 2012.

Pinnacle Financial's effective tax rate for the three and nine months ended September 30, 2013 was 33.3% and 33.0%, respectively, compared to 30.7% and 32.3%, respectively, for the three and nine months ended September 30, 2012. The effective tax rate differs from the Federal income tax statutory rate of 35% and state income tax rate of 6.50% primarily due to our investments in bank qualified municipal securities, our real estate investment trust and bank-owned life insurance offset in part by meals and entertainment expense and executive compensation expense, portions of which are non-deductible.

Note 6. Commitments and Contingent Liabilities

In the normal course of business, Pinnacle Financial has entered into off-balance sheet financial instruments which include commitments to extend credit (i.e., including unfunded lines of credit) and standby letters of credit. Commitments to extend credit are usually the result of lines of credit granted to existing borrowers under agreements that the total outstanding indebtedness will not exceed a specific amount during the term of the indebtedness. Typical borrowers are commercial concerns that use lines of credit to supplement their treasury management functions, thus their total outstanding indebtedness may fluctuate during any time period based on the seasonality of their business and the resultant timing of their cash flows. Other typical lines of credit are related to home equity loans granted to consumers. Commitments to extend credit generally have fixed expiration dates or other termination clauses and may require payment of a fee. At September 30, 2013, these commitments amounted to \$1.2 billion.

Standby letters of credit are generally issued on behalf of an applicant (our customer) to a specifically named beneficiary and are the result of a particular business arrangement that exists between the applicant and the beneficiary. Standby letters of credit have fixed expiration dates and are usually for terms of two years or less unless terminated beforehand due to criteria specified in the standby letter of credit. A typical arrangement involves the applicant routinely being indebted to the beneficiary for such items as inventory purchases, insurance, utilities, lease guarantees or other third party commercial transactions. The standby letter of credit would permit the beneficiary to obtain payment from Pinnacle Financial under certain prescribed circumstances. Subsequently, Pinnacle Financial would then seek reimbursement from the applicant pursuant to the terms of the standby letter of credit. At September 30, 2013, these commitments amounted to \$62.4 million.

Pinnacle Financial follows the same credit policies and underwriting practices when making these commitments as it does for on-balance sheet instruments. Each customer's creditworthiness is evaluated on a case-by-case basis, and the amount of collateral obtained, if any, is based on management's credit evaluation of the customer. Collateral held varies but may include cash, real estate and improvements, marketable securities, accounts receivable, inventory, equipment and personal property.

The contractual amounts of these commitments are not reflected in the consolidated financial statements and only amounts drawn upon would be reflected in the future. Since many of the commitments are expected to expire without being drawn upon, the contractual amounts do not necessarily represent future cash requirements. However, should the commitments be drawn upon and should our customers default on their resulting obligation to us, Pinnacle Financial's maximum exposure to credit loss, without consideration of collateral, is represented by the contractual amount of those commitments. At September 30, 2013, and December 31, 2012, Pinnacle Financial had accrued \$1.4 million and \$1.9 million, respectively, for the inherent risks associated with these off balance sheet commitments.

During the fourth quarter of 2011, a customer of Pinnacle Bank filed a putative class action lawsuit (styled John Higgins, et al, v. Pinnacle Financial Partners, Inc., d/b/a Pinnacle National Bank) in Davidson County, Tennessee Circuit Court against Pinnacle Bank and Pinnacle Financial, on his own behalf, as well as on behalf of a purported class of Pinnacle Bank's customers within the State of Tennessee alleging that Pinnacle Bank's method of ordering debit card transactions had caused customers of Pinnacle Bank to incur higher overdraft charges than had a different method been used. Pinnacle Financial and Pinnacle Bank reached a tentative settlement agreement with the plaintiff during the second quarter of 2013. Although the settlement has not yet been finalized, Pinnacle Financial does not believe that any liability arising from this legal matter will have a material adverse effect on Pinnacle Financial's consolidated financial condition, operating results or cash flows.

Various legal claims also arise from time to time in the normal course of business. In the opinion of management, the resolution of these claims outstanding at September 30, 2013 will not have a material impact on Pinnacle Financial's financial statements.

Note 7. Stock Options, Stock Appreciation Rights and Restricted Shares

As described more fully in the Annual Report on Form 10-K, Pinnacle Financial has two equity incentive plans. Additionally, Pinnacle Financial has assumed equity plans in connection with acquisitions of Cavalry Bancorp, Inc. (Cavalry) and Mid-America Bancshares, Inc. (Mid-America) under which it has granted stock options and stock appreciation rights to its employees to purchase common stock at or above the fair market value on the date of grant and granted restricted share awards to employees and directors. At September 30, 2013, there were approximately 556,000 shares available for future issuances under the assumed plans that have not expired.

Common Stock Options and Stock Appreciation Rights

As of September 30, 2013, there were 1,087,023 stock options and 6,195 stock appreciation rights outstanding to purchase common shares. A summary of the stock option and stock appreciation rights activity within the equity incentive plans during the nine months ended September 30, 2013 and information regarding expected vesting, contractual terms remaining, intrinsic values and other matters is as follows:

		Weighted-	
		Average	
	Weighted-	Contractual	Aggregate
	Average	Remaining	Intrinsic
	Exercise	Term	Value
Number	Price	(in years)	(000's)

Outstanding at December 31, 2012	1,318,701 \$ 23.36	3.14	\$ 2,203 (1)
Granted	-

Outstanding at September 30, 2013	1,093,218 \$ 25.20	2.59	\$ 5,528 ⁽²⁾
Outstanding and expected to vest as of September 30, 2013	1,093,218 \$ 25.20	2.59	\$ 5,528 ⁽²⁾
Options exercisable at September 30, 2013	1,093,218 \$ 25.20	2.59	\$ 5,528 ⁽²⁾

The aggregate intrinsic value is calculated as the difference between the exercise price of the underlying awards and the quoted closing price of Pinnacle Financial common stock of \$18.84 per common share at December 31,

(1) 2012 for the approximately 331,571 options and stock appreciation rights that were in-the-money at December 31, 2012.

The aggregate intrinsic value is calculated as the difference between the exercise price of the underlying awards (2)2013 for the approximately 758,719 options and stock appreciation rights that were in-the-money at September 30,

⁽²⁾2013 for the approximately 758,719 options and stock appreciation rights that were in-the-money at September 30, 2013.

During the nine months ended September 30, 2013, approximately 33,000 option awards vested at an average exercise price of \$21.51 with an intrinsic value of \$263,000 at the time of vesting.

During the three and nine months ended September 30, 2013, Pinnacle Financial recorded stock option compensation expense of \$12,000, based on Black-Scholes valuation at the date of grant compared to \$79,000 and \$329,000 for the three and nine months ended September 30, 2012. For these awards, Pinnacle Financial recognized compensation expense using a straight-line amortization method. As of September 30, 2013, there was no unrecognized compensation cost related to unvested stock options granted under our equity incentive plans.

Restricted Share Awards

Additionally, Pinnacle Financial's 2004 Equity Incentive Plan and certain of the plans assumed in connection with the acquisition of Mid-America provide for the granting of restricted share awards and other performance or market-based awards. There were no market-based awards outstanding as of September 30, 2013 under any of these plans. During the nine months ended September 30, 2013, Pinnacle Financial awarded 160,595 shares of restricted common stock to certain associates and outside directors and 193,189 restricted stock units converted to restricted share awards for certain associates.

A summary of activity for unvested restricted share awards for the nine months ended September 30, 2013 is as follows:

		Grant Date Weighted-Average
	Number	Cost
Unvested at December 31, 2012	739,909	\$ 15.45
Shares awarded	160,595	21.42
Conversion of restricted share units to restricted share awards	193,189	21.51
Restrictions lapsed and shares released to associates/directors	(212,795)	15.94
Shares forfeited ⁽¹⁾	(53,070)	15.27
Unvested at September 30, 2013	827,828	\$ 19.09

(1) Represents 26,152 shares forfeited due to failure to meet performance targets and 26,918 shares forfeited due to employee termination and/or retirement.

Pinnacle Financial grants restricted share awards to associates, executive management and outside directors with a combination of time and, in the case of associates, performance vesting criteria. The following table outlines restricted stock grants that were made, grouped by similar vesting criteria, during the nine months ended September 30, 2013:

Grant Year Group ⁽¹⁾	Vesting Period in years	Shares Restrictions Lapsed and shares awarded released to participants	Shares Forfeited by participants ⁽⁵⁾	Shares Unvested
Time Based				
Awards ⁽²⁾ 2013 Associates	5	146,425 -	3,225	143,200
Performance Based	e	140,423 -	3,223	145,200
Awards ⁽³⁾				
2013 Leadership team	5	193,189 -	-	193,189
Outside Director				
Awards ⁽⁴⁾				
2013 Outside directors	1	14,170 1,129	-	13,041

Groups include our employees (referred to as associates above) and our outside directors. When the restricted shares are awarded, a participant receives voting rights with respect to the shares, but is not able to transfer the

- (1)shares until the restrictions have lapsed. Once the restrictions lapse, the participant is taxed on the value of the award and may elect to sell some shares to pay the applicable income taxes associated with the award.
- (2) These shares vest in equal annual installments on the anniversary date of the grant.
- The forfeiture restrictions on these restricted share awards lapse in separate equal installments should Pinnacle (3) Financial achieve certain earnings and soundness targets over each year of the subsequent vesting period (or

alternatively, the cumulative vesting period).

Restricted share awards are issued to the outside members of the board of directors in accordance with their board

- (4) compensation plan. Restrictions lapse on the one year anniversary date of the award based on each individual board member meeting their attendance goals for the various board and board committee meetings to which each member was scheduled to attend.
- (5) These shares represent forfeitures resulting from associate terminations during the year-to-date period ended September 30, 2013.

Compensation expense associated with performance-based restricted share awards, which are issued from time-to-time, is recognized over the performance period that the restrictions associated with the awards are anticipated to lapse based on a graded vesting schedule such that each performance tranche is amortized separately. Compensation expense associated with the time-based restricted share awards is recognized on a straight-line basis over the time period that the restrictions associated with the awards lapse based on the total cost of the award at the grant date. For the three and nine months ended September 30, 2013, Pinnacle Financial recognized approximately \$1.0 million and \$3.0 million, respectively, in compensation costs attributable to all restricted share awards, compared to \$818,000 and \$2.5 million, respectively, for the three and nine months ended September 30, 2012.

Restricted Share Units

Pinnacle Financial granted 128,018 restricted share units to the senior executive officers and the Leadership Team in the first quarter of 2013. These restricted share units will be converted to restricted shares in 2014 on a tiered scale if earned based on actual 2013 results. The number of units that ultimately convert to unvested restricted shares will be determined after the 2013 earnings are finalized based upon the achievement of certain predetermined profitability goals for 2013 that were established on January 11, 2013 by the Human Resources and Compensation Committee of Pinnacle Financial's board of directors (HRCC). The number of restricted shares issuable in settlement of these restricted share units could range between 0% to 100% based on the level of 2013 profitability. Once these restricted share units are converted to restricted share awards, with a grant date in 2014, the forfeiture restrictions on the number of restricted shares issued in settlement of these restricted share units will lapse in 20% increments over the following five years based on the achievement of soundness thresholds to be set by the HRCC in January of each respective fiscal year. As the specific value of the award that will ultimately be granted to the recipients of these restricted share units and the associated performance targets cannot yet be determined, no grant was deemed to have been made, and therefore, no expense has been recognized related to these awards.

Note 8. Regulatory Matters

Pursuant to Tennessee banking law, Pinnacle Bank may not, without the prior consent of the Commissioner of the TDFI, pay any dividends to Pinnacle Financial in a calendar year in excess of the total of Pinnacle Bank's net income for that year plus the retained net income for the preceding 2 years. During the nine months ended September 30, 2013, Pinnacle Bank paid \$8.9 million in dividends to Pinnacle Financial. As of September 30, 2013, Pinnacle Bank could pay approximately \$95.8 million of additional dividends to Pinnacle Financial without prior approval of the Commissioner of the TDFI.

Pinnacle Financial has not paid any cash dividends on its common stock since inception; however, on October 15, 2013, its board of directors approved the initiation of a quarterly cash dividend. The initial dividend of \$0.08 per share will be paid on December 20, 2013 to shareholders of record at the close of business on November 26, 2013. The amount and timing of all future dividend payments is subject to the discretion of Pinnacle Financial's board of directors and will depend on Pinnacle Financial's earnings, capital position, financial condition and other factors, including new regulatory capital requirements, as they become known to us.

Pinnacle Financial and Pinnacle Bank are subject to various regulatory capital requirements administered by federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary actions, by regulators that, if undertaken, could have a direct material effect on the financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, Pinnacle Financial and Pinnacle Bank must meet specific capital guidelines that involve quantitative measures of the assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices.

Quantitative measures established by regulation to ensure capital adequacy require Pinnacle Financial and Pinnacle Bank to maintain minimum amounts and ratios of Total and Tier I capital to risk-weighted assets and for Pinnacle Bank of Tier I capital to average assets. Management believes, as of September 30, 2013, that Pinnacle Financial and Pinnacle Bank met all capital adequacy requirements to which they are subject. To be categorized as well-capitalized under applicable banking regulations, Pinnacle Financial and Pinnacle Bank must maintain minimum Total risk-based, Tier I risk-based, and Tier I leverage ratios as set forth in the following table and not be subject to a written agreement, order or directive to maintain a higher capital level. Pinnacle Financial's and Pinnacle Bank's actual capital amounts and ratios are presented in the following table (in thousands):

	Actual		Minimum Capital Requireme	ent	Minimum To Be Well-Capita	alized
	Amount	Ratio	Amount	Ratio	Amount	Ratio
At September 30, 2013						
Total capital to risk weighted assets:						
Pinnacle Financial	\$603,484	13.2 %	\$364,570	8.0 %	\$456,867	10.0%
Pinnacle Bank	\$586,156	12.9 %	\$363,804	8.0 %	\$455,921	10.0%
Tier I capital to risk weighted assets:						
Pinnacle Financial	\$546,376	12.0%	\$182,285	4.0 %	\$274,120	6.0 %
Pinnacle Bank	\$529,166	11.6%	\$181,902	4.0 %	\$273,553	6.0 %
Tier I capital to average assets (*):						
Pinnacle Financial	\$546,376	10.8~%	\$202,668	4.0 %	\$N/ A	N/ A
Pinnacle Bank	\$529,166	10.5 %	\$201,975	4.0 %	\$252,468	5.0 %

(*) Average assets for the above calculations were based on the most recent quarter.

Note 9. Derivative Instruments

Financial derivatives are reported at fair value in other assets or other liabilities. The accounting for changes in the fair value of a derivative depends on whether it has been designated and qualifies as part of a hedging relationship. For derivatives not designated as hedges, the gain or loss is recognized in current earnings. Pinnacle Financial enters into interest rate swaps (swaps) to facilitate customer transactions and meet their financing needs. Upon entering into these instruments to meet customer needs, Pinnacle Financial enters into offsetting positions with a large U.S. financial institution in order to minimize the risk to Pinnacle Financial. These swaps are derivatives, but are not designated as hedging instruments.

Interest rate swap contracts involve the risk of dealing with counterparties and their ability to meet contractual terms. When the fair value of a derivative instrument contract is positive, this generally indicates that the counter party or customer owes Pinnacle Financial, and results in credit risk to Pinnacle Financial. When the fair value of a derivative instrument contract is negative, Pinnacle Financial owes the customer or counterparty and therefore, has no credit risk.

A summary of Pinnacle Financial's interest rate swaps related to customers as of September 30, 2013 and December 31, 2012 is included in the following table (in thousands):

DecemberSeptember 30, 201331, 2012EstimatedNotionalFairAmountValueAmount
