HYDROMER, INC. and CONSOLIDATED SUBSIDIARY**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

In the opinion of management, the accompanying unaudited financial statements include all adjustments (consisting of only normal adjustments) necessary for a fair presentation of the results for the interim periods. Certain reclassifications have been made to the previous year's results to present comparable financial statements.

Long-Term Debt And Credit Facility:

On September 4, 2008, the Company refinanced its mortgages, tapping into its available equity to borrow an additional \$1.1 million in order to provide it with the required funds to repay its maturing Line-of-Credit facility and to provide for additional working capital. The Line-of-Credit facility was repaid and closed out in September 2008.

Significant Events:

A Supply and Support Agreement providing for revenues of \$100,000 per month was cancelled by a customer in January 2009. It was replaced with a similar agreement of \$35,000 per month effective January 1, 2009, with a three-month cancellation provision after the initial first twelve months.

On February 20, 2009, the Company's wholly owned subsidiary, Biosearch Medical Products, Inc. (BMPI) sold the Endoscopic Bipolar Coagulation probe and Biliary Stent business to Merit Medical Systems, Inc (Merit) for \$1,600,000 in cash, two-thirds received at closing with the balance due by June 30, 2009. The sale included inventory and equipment related to that business and also calls for the assignment of existing BMPI / customer supply agreements to Merit and a seven year non-compete provision. A separate supply agreement for Hydromer® hydrophilic coating solution used on those products was also entered between the parties. Until the earlier of when Merit is ready to independently manufacture the products or September 30, 2009, the Company will continue manufacturing the products solely for Merit, at an agreed upon transfer price. The product lines sold were part of the Medical Products segment (see following Segment Reporting section) in which operations and cash flows could not be broken down further. Hence, along with the continued manufacturing for Merit, this transaction does not meet the criteria of discontinued operations in accordance with paragraphs 41-44 of SFAS 144.

Segment Reporting:

The Company operates two primary business segments. The Company evaluates the segments by revenues, total expenses and earnings before taxes. Corporate Overhead is excluded from the business segments as to not distort the contribution of each segment. These segments are the lowest levels for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities.

The results for the nine months ended March 31, by segment are:

	Polymer Research	Medical Products	Corporate Overhead	Total
2009 (excludes the Sale of Product Lines)				
Revenues	\$ 3,404,319	\$ 2,614,058		\$ 6,018,377
Expenses	(2,602,007)	(2,485,763)	\$ (1,289,153)	(6,376,923)
Pre-tax Income (Loss)	\$ 802,312	\$ 128,295	\$ (1,289,153)	\$ (358,546)

Edgar Filing: HYDROMER INC - Form 10-Q

2008

Revenues	\$ 3,196,180	\$ 2,627,296		\$ 5,823,476
Expenses	(2,384,019)	(2,308,429)	\$ (1,164,994)	(5,857,442)
Pre-tax Income (Loss)	\$ 812,161	\$ 318,867	\$ (1,164,994)	\$ (33,966)

Geographic revenues were as follows for the nine months ended March 31,

	2009	2008
Domestic	83%	82%
Foreign	17%	18%

Item 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF THE FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

The Company's revenues for the quarter ended March 31, 2009 were \$1,832,707, 13.0% lower than the \$2,105,737 for the same period the previous year. Revenues for the nine months ended March 31, 2009 were \$6,018,377 or 3.3% higher than the \$5,823,476 in the corresponding period a year ago. Revenues are comprised of the sale of Products and Services and Royalty and Contract payments.

Product sales and services were \$1,648,761 for the quarter ended March 31, 2009 as compared to \$1,712,853 for the same period the year before, a 3.7% decrease or \$64,092. The sales of assets (two medical device product lines to Merit Medical Systems, Inc (Merit)) impacted recurring sales by \$53,589 due to the lower transfer price of products now sold to Merit as opposed to the higher normal price to our former customers). For the nine months ended March 31, 2009, product sales and services were \$5,014,438, 8.2% or \$378,005 higher than the \$4,636,433 the year before. The significant growth were from the Medical Coatings (in part from a customer stock up) and R&D Services for the nine month period this fiscal year over the prior fiscal year-to-date.

Royalty and Contract revenues include royalties received and the periodic recurring payments from license, stand still and other agreements for other than product and services. Included in Royalty and Contract revenues are revenues from support and supply agreements. Some of the royalties and support fees are based on the net sales of the final item (to which the Hydromer technology is applied to) and are subject to the reporting of our customers. For the quarter ended March 31, 2009, Royalty and Contract revenues were \$183,946, compared to the \$392,884 the same period a year ago. The cancellation of a supply and support agreement of \$100,000 per month in January 2009, replaced by a similar agreement at \$35,000 per month, accounted for the change between the quarters. For the nine month periods ended March 31, 2009 and 2008, Royalty and Contract revenues were \$1,003,939 and \$1,187,043, respectively.

As of March 31, 2009, our open sales order book was approximately \$1,126,000. Although some of the sales orders can be cancelled prior to production, the Company is of the opinion that no substantial cancellations will occur.

Total Expenses for the quarter ended March 31, 2009 were \$1,312,904 as compared with \$2,061,615 the year before, a 36.3% decrease. For the nine months ended March 31, 2009, Total Expenses were \$5,419,575 as compared with \$5,816,995 the same period the year before, or better by 6.8%. Reducing the Total Expenses for the 2009 fiscal year periods was \$1,293,348 from the sale of two medical device product lines to Merit.

The Company's Cost of Goods Sold was \$851,318 for the quarter ended March 31, 2009 as compared with \$829,127 the year prior, higher by 2.7%. For the nine month period, Cost of Goods Sold was \$2,497,874 for fiscal 2009 as compared with \$2,339,935 in fiscal 2008, \$157,939 or 6.7% higher. Costs from a higher sterilization volume and a reserve on medical device inventories accounted for the variance in fiscal 2009 year-to-date.

Operating expenses were \$1,295,123 for the quarter ended March 31, 2009 as compared with \$1,191,447 the year before, up \$103,676 or 8.7%. For the nine months ended March 31, 2009, Operating expenses were \$3,639,671 as compared with \$3,400,334 the year before, up \$239,337 or 7.0%. Patent application costs write-offs of \$63,242 (the estimated future cash flows was less than its carrying value), one-time senior management bonuses following a one year salary reduction in 2006 and no increases since that year, increases in utilities costs and property taxes due to a reassessment of the property value, along with increased marketing expenses related to the introduction of the new T-HEXX products and an added trade show, increased Operating expenses during the current fiscal year.

Interest expense, interest income and other income are included in Other Expenses. Interest expense for the nine months ended March 31, 2009 and March 31, 2008 were \$150,383 and \$129,861, respectively, up due to the mortgage refinance in September 2008 which provided the Company an additional \$1 million in cash, used in part to payoff and close the line-of-credit facility. Other expenses also included a \$100,000 impairment reserve for long-lived assets.

Edgar Filing: HYDROMER INC - Form 10-Q

Net income of \$519,803 (\$0.11 per share) is reported for the quarter ended March 31, 2009 as compared to \$44,122 (\$0.01 per share) the year before. For the nine months ended March 31, 2009, net income of \$598,802 (\$0.13 per share) is reported as compared to \$6,481 (\$0.00 per share) the year before.

The sale of two medical device product lines to Merit Medical Systems, Inc. provided a gain of \$1,293,348. This gain allowed the realization of \$93k in tax credits that previously had a 100% valuation allowance applied against it. The cancellation and subsequent entering of a lower valued supply and support agreement impacted the third quarter operating income by \$195,000. The current fiscal year-to-date also included periodic / non-annual expenses (management bonus, inventory reserve, fixed assets reserve, patent write-off, added trade show) aggregating over \$390,000.

Re-investment expenditures of Research and Development and patents expenditures accounted for approximately \$749,600 or 20.6% of the operating expenses.

Financial Condition

Working capital increased \$2,199,907 during the nine months ended March 31, 2009.

Net operating activities provided \$172,291 for the nine month period ended March 31, 2009.

Net income as adjusted for non-cash expenses, provided \$241,207 in cash. Cash used for the accounts payable and accrued liabilities as reduced by the collections of accounts receivables and in-advances (deferred income), reduced the cash provided by operating activities by \$63,565.

Investing activities provided \$235,609 and financing activities provided \$708,825 during the nine months ended March 31, 2009.

Investing activities for the nine months ended March 31, 2009 included the sale of two medical device product lines for \$1,600,000 in cash, in which \$1,066,667 was collected at closing, as reduced by \$139,744 for capital expenditures, \$241,314 towards the Company's patent estate and \$450,000 into short-term investments. Under financing activities, the Company repaid and closed its revolving line of credit facility, balance of \$289,973, and \$1,824,202 to close out its two ten-year mortgages from a \$2,900,000 twenty-five year mortgage refinancing.

The Company has been strategically strengthening its Balance Sheet and Liquidity: refinancing its mortgage and the selling of assets. The Company tapped into its equity in its real estate when it refinanced its ten-year mortgages into a twenty-five mortgage, availing for the necessary funds to payoff the called line-of-credit facility while providing for additional [working capital] liquidity and reducing its annual debt service payments. The sale of assets (product lines, inventory, equipment) for \$1.6 million in cash (a \$458,739 balance payment is due by June 30, 2009), further strengthened the Balance Sheet by converting inventories into cash and reducing future inventory holding costs associated with those product lines. However, the cancellation of the \$100,000 per month Supply and Support Agreement offset by its \$35,000 per month replacement agreement, effective January 2009, forces a gap to be filled. In the Company's pipeline are various developments, agreements and new technologies, including new supply and support agreements, its anti-microbial, anti-thrombogenic and cell mitosis technologies and the new T-HEXX product lines. Each are at varying stages of revenue generation.

Item 3.

Disclosure Controls and Procedures

As of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer and President and the Chief Financial Officer,

of the effectiveness of the design and operation of the disclosure controls and procedures.

Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, our disclosure controls and procedures were effective and that there were no changes to our Company's internal control over financial reporting that have materially affected, or is reasonably likely to materially affect the Company's internal control over financial reporting during the period covered by the Company's quarterly report.

PART II OTHER INFORMATION

The Company operates entirely from its sole location at 35 Industrial Parkway in Branchburg, New Jersey, an owned facility secured by a mortgage through a bank.

The existing facility will be adequate for the Company's operations for the foreseeable future.
