Merger of Celmar into CVRD

Rio de Janeiro, August 29, 2003 □ Companhia Vale do Rio Doce (CVRD) informs that the Extraordinary Shareholders Meeting held today, approved the merger of its wholly owned subsidiary Celmar S.A. □ Indústria de Celulose e Papel (Celmar) into CVRD.

Celmar holds 30,000 hectares of renewable eucalyptus forest, assets which will be used by Ferro Gusa Carajás S.A (Ferro Gusa), joint venture formed between CVRD and Nucor Corporation, a North American steel producer. This joint venture will invest in the construction of a pig iron plant in the north of Brazil.

The eucalyptus will be utilized by Ferro Gusa for the production of charcoal, only iron ore reductant that allows the production of pig iron in an environmentally friendly way. As announced on April 24, 2003, the plant to be built will have an annual production capacity of 380,000 metric tons of pig iron, utilizing iron ore produced in the Carajás mines.

This press release may contain statements that express management's expectations about future events or results rather than historical facts. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected in forward-looking statements, and CVRD cannot give assurance that such statements will prove correct. These risks and uncertainties include factors: relating to the Brazilian economy and securities markets, which exhibit volatility and can be adversely affected by developments in other countries; relating to the iron ore business and its dependence on the global steel industry, which is cyclical in nature; and relating to the highly competitive industries in which CVRD operates. For additional information on factors that could cause CVRD's actual results to differ from expectations reflected in forward-looking statements, please see CVRD's reports filed with the Brazilian Comissão de Valores Mobiliários and the U.S. Securities and Exchange Commission.
