### Item 1.01. Entry into a Material Definitive Agreement

On February 18, 2005, the compensation committee of the board of directors approved accelerating the vesting of all remaining unvested common stock options. The vesting of approximately 1,104,000 common stock options with a weighted average exercise price of \$9.16 was accelerated, which will result in the company recognizing additional stock-based compensation expense of \$790,000 in the first quarter of 2005. The primary purpose of the accelerated vesting is to eliminate future compensation expense the company would otherwise recognize in its income statement with respect to these accelerated options subsequent to the July 1, 2005 effective date of FASB Statement No. 123(R) (“FASB 123(R)”). The estimated maximum future expense that is eliminated is approximately \$5.9 million, including \$823,000 in the second half of 2005. Therefore, the total stock-based compensation expense in 2005, including amounts related to the recently announced restricted stock awards, will approximate \$1.0 million and \$2.2 million in the first quarter and full year, respectively.

The following table sets forth additional information with respect to the accelerated options.

<u>Name</u>	<u>Number of shares issuable under accelerated options</u>	<u>Weighted average exercise price</u>
Paul J. Sarvadi Chairman of the Board and Chief Executive Officer	109,000	\$9.80
Richard G. Rawson President	81,000	\$9.75
A. Steve Arizpe Executive Vice President of Client Services and Chief Operating Officer	82,000	\$9.77
Jay E. Mincks Executive Vice President of Sales and Marketing	70,000	\$9.67
John H. Spurgin, II Senior Vice President of Legal, General Counsel and Secretary	56,000	\$9.84
All other employees	706,000	\$8.83
Total	1,104,000	\$9.16

Modification of option vesting terms, under fixed accounting, results in immediate recognition of compensation expense equal to the difference between the common stock market price and the option exercise price, at the date of modification, for those options that would have otherwise cancelled absent the acceleration.
