**INFORMATION STATEMENT**

**INTRODUCTION**

This information statement is being mailed or otherwise furnished to stockholders of Speedemissions, Inc., a Florida corporation (the "Company") in connection with the prior receipt by the Board of Directors of the Company and approval by written consent of the holders of a majority of the Company's voting securities of the proposal (the "Proposal") to amend the Company's Articles of Incorporation (the "Amendment") to effectuate a 1-for-10 reverse stock split for the issued and outstanding shares of common stock of the Company. This Information Statement is being first sent to stockholders on or about December 7, 2005. The Company anticipates that the Amendment will become effective on or about January 4, 2006.

***Vote Required***

The vote which is required to approve the above Proposals is the affirmative vote of the holders of a majority of the Company's voting securities. Each holder of common stock is entitled to one (1) vote for each share held, and each holder of Series A Convertible Preferred Stock is entitled to eight thousand three hundred thirty three and one-third (8,333.33) votes for each share held, representing a total of 42,774,982 votes.

The record date for purposes of determining the number of outstanding shares of voting securities of the Company, and for determining stockholders entitled to vote, is the close of business on November 28, 2005 (the "Record Date"). The Board of Directors of the Company adopted the resolution approving and recommending the Proposal on November 18, 2005. As of the Record Date, the Company had outstanding 26,835,808 shares of common stock and 5,133 shares of Series A Convertible Preferred Stock. Holders of the shares have no preemptive rights. All outstanding shares are fully paid and nonassessable. The transfer agent for the common stock is Interwest Transfer Company, 1981 - 4800 South, Suite 100, Salt Lake City, Utah 84117, telephone (801) 272-9294.

***Vote Obtained - Section 607.0704 Florida Revised Statutes***

Section 607.0704 of the Florida Revised Statutes (the "Florida Law") provides that the written consent of the holders of the outstanding voting securities, having not less than the minimum number of votes which would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted, may be substituted for such a meeting. In order to eliminate the costs and management time involved in obtaining proxies and in order to effect the Proposal as early as possible in order to accomplish the purposes of the Company as hereafter described, the Board of Directors of the Company voted to utilize, and did in fact obtain, the written consent of the holders of a majority in interest of the outstanding voting securities of the Company, approving the Proposal.

Pursuant to Section 607.0704 of the Florida Revised Statutes, the Company is required to provide prompt notice of the taking of the corporate action without a meeting to the stockholders of record who have not consented in writing to such action. This Information Statement is intended to provide such notice. No dissenters' or appraisal rights under the Florida Law are afforded to the Company's stockholders as a result of the approval of the Proposal.

**PROPOSAL ONE**  
**AMENDMENT TO THE ARTICLES OF INCORPORATION**  
**TO EFFECTUATE 1 FOR 10 REVERSE STOCK SPLIT**

*General*

On November 18, 2005, the Board of Directors of the Company approved, declared it advisable and in the Company's best interests, and directed that there be submitted to the holders of a majority of the Company's voting securities for action by written consent, the proposed amendment to Article IV of the Company's Articles of Incorporation to authorize a 1-for-10 reverse stock split of the issued and outstanding shares of common stock of the Company.

The Company believes this amendment will be effective on or about January 4, 2006. A copy of the proposed amendment to the Articles of Incorporation is attached to this Information Statement as Exhibit A.

The Company will effectuate the reverse stock split by reducing the number of shares of the Company's issued and outstanding common stock by the stated ratio, but will not increase the par value of the common stock, and will not change the number of authorized shares of the Company's common stock. Fractional shares will be rounded up to the next whole share.

*Purpose of Reverse Stock Split*

The Board of Directors believes that it is advisable and in the Company's best interests to decrease the number of shares outstanding in order to provide adequate authorized but unissued common stock upon the conversion for all of the currently outstanding shares of Series A Convertible Preferred Stock and Series B Convertible Preferred Stock, as well as the exercise of all the currently outstanding options and warrants. Currently, there are 5,133 shares of Series A Convertible Preferred Stock outstanding, convertible into 42,774,982 shares of common stock; 2,500,000 shares of Series B Convertible Preferred Stock outstanding, convertible into 189,000,000 shares of common stock; and options and warrants outstanding to acquire approximately 176,000,000 shares of common stock. Authorized but unissued shares will be available for issuance from time to time by the Company in the discretion of the Board of Directors, normally without further stockholder action (except as may be required for a particular transaction by applicable law, requirements of regulatory agencies or by stock exchange rules), for any proper corporate purpose including, among other things, future acquisitions of property or securities of other corporations, stock dividends, stock splits, stock options, convertible debt and equity financing. This step is necessary, in the judgment of the Board of Directors, in order to meet existing contractual obligations to the holders of preferred stock and warrants, attract potential new equity capital, explore potential acquisitions and carry out the Company's business objectives.

***Potential Risks of Reverse Stock Split***

After the reverse stock split takes effect, there can be no assurance that the bid price of the Company's common stock will continue at a level in proportion to the reduction in the number of outstanding shares resulting from the reverse stock split and that the market price of the post-split common stock can be maintained.

***Effect of the Reverse Stock Split***

After consummation of the reverse stock split, each holder of shares of our common stock, par value \$0.001 per share, as of the effective date, approximately January 4, 2006, will become a holder of approximately 1/10<sup>th</sup> of the number of shares (rounded up to the next whole share) of our common stock, par value \$0.001 per share, that they owned prior to the effective date.

***Accounting Matters***

The reverse stock split will not affect the par value of our common stock. As a result, on the effective date of the reverse stock split, the stated par value capital on our balance sheet attributable to our common stock will be reduced and the additional paid-in capital account shall be credited with the amount by which the stated capital is reduced. The per share net income or loss and net book value per share of our common stock will be increased because there will be fewer shares of our common stock outstanding.

***Effect on Authorized and Outstanding Shares***

We are currently authorized to issue a maximum of 250,000,000 shares of common stock. As of the record date, there were 26,838,808 shares of our common stock issued and outstanding, or held as treasury shares. Although the number of authorized shares of common stock is not to change as a result of the reverse stock split, the number of shares of common stock issued and outstanding, or held as treasury shares, will be reduced to a number that will be approximately 1/10<sup>th</sup> of the number of shares of common stock outstanding or held as treasury shares immediately before the effective date. In addition, the number of shares of common stock that may be acquired upon conversion of the outstanding preferred stock, and upon exercise of outstanding options and warrants, will also be reduced by the same amount. There will be no effect on the number of preferred shares issued, outstanding, or authorized.

With the exception of the number of shares issued and outstanding, or held as treasury shares, the rights and preferences of the shares of our common stock prior and subsequent to the reverse stock split will remain the same. Following the effective date of the reverse stock split, it is not anticipated that our financial condition, the percentage ownership of management, the number of our stockholders, or any aspect of our business would materially change as a result of the reverse stock split.

Our common stock is currently registered under Section 12(g) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and as a result, we are subject to periodic reporting and other requirements. The proposed reverse stock split will not affect the registration of our common stock under the Exchange Act.

***Potential Odd Lots***

The reverse stock split will result in some stockholders owning "odd-lots" of less than 100 shares of our common stock. Brokerage commissions and other costs of transactions in odd-lots are generally somewhat higher than the costs of transactions in "round-lots" of even multiples of 100 shares.

***Increase of Shares of Common Stock Available for Future Issuance***

As a result of the reverse stock split, there will be a reduction in the number of shares of our common stock issued and outstanding, or held as treasury shares, and an associated increase in the number of authorized shares which would be unissued and available for future issuance after the reverse stock split. The increase in available shares could be used for any proper corporate purpose approved by the Board of Directors including, among other purposes, future mergers, acquisitions or financing transactions.

***Effectiveness of the Reverse Stock Split***

The reverse stock split will become effective on or about January 4, 2006.

Commencing upon the effectiveness of the reverse stock split, each certificate of our common stock will be deemed for all corporate purposes to evidence ownership of the reduced number of shares of common stock resulting from the reverse stock split. As soon as practicable after the effective date, stockholders may surrender their certificates representing shares of common stock prior to the reverse stock split in exchange for certificates representing shares of common stock after the reverse stock split. **HOWEVER, SUCH EXCHANGE IS NOT MANDATORY.** If a shareholder desires to exchange their stock certificate, they will be responsible for paying the cost thereof. We intend to use our existing transfer agent as our exchange agent in effecting the exchange of the certificates following the effectiveness of the reverse stock split.

***Fractional Shares***

We will not issue fractional shares in connection with the reverse stock split. Instead, any fractional share that results from the reverse stock split will be rounded up to the next whole share. We are doing this so that we may avoid the expense and inconvenience of issuing and transferring fractional shares of our common stock as a result of the stock split. The shares do not represent separately bargained for consideration.

***Certain Federal Income Tax Consequences***

The following discussion summarizing certain federal income tax consequences is based on the Internal Revenue Code of 1986, as amended, the applicable Treasury Regulations promulgated thereunder, judicial authority and current administrative rulings and practices in effect on the date of this Information Statement. This discussion is for general information only and does not discuss consequences that may apply to special classes of taxpayers (e.g., non-resident aliens, broker-dealers, or insurance companies). Stockholders are urged to consult their own tax advisors to determine the particular consequences to them.

The receipt of the common stock following the effective date of the reverse stock split, including whole shares issued in lieu of fractional shares, solely in exchange for the common stock held prior to the reverse stock split will not generally result in a recognition of gain or loss to the stockholders. The adjusted tax basis of a stockholder in the common stock received after the reverse stock split will be the same as the adjusted tax basis of the common stock held prior to the reverse stock split exchanged therefore, and the holding period of the common stock received after the reverse stock split will include the holding period of the common stock held prior to the reverse stock split exchanged therefore. No gain or loss will be recognized by the Company as a result of the reverse stock split.
