Explanatory Note

Renhuang Pharmaceuticals, Inc. has restated its Annual Report on Form 10-K. This Annual Report is for the year ended April 30, 2006, and was originally filed with the Commission on Form 10-KSB on August 15, 2006. The purpose of this amendment is to correctly file this Annual Report on Form 10-K rather than on Form 10-KSB, since, under Reg. § 228.10 of Regulation S-B, a reporting company that is not a small business company must meet the definition of a small business issuer at the end of two consecutive fiscal years before it will be considered a small business issuer for purposes of using Form 10-KSB. We have not met the definition of a small business issuer at the end of two consecutive fiscal years because we have not had revenues of less than \$25,000,000 at the end of two consecutive fiscal years. Consequently, we must file this Annual Report on Form 10-K rather than on Form 10-KSB. References throughout this Annual Report are accurate as of the date originally filed. We have not undertaken to update all of the information in this Annual Report, but instead have only (i) updated those areas related to the restatements and (ii) changed the voice throughout this Annual Report from third-person to first-person. Please read all of our filings with the Commission in conjunction with this Annual Report.

This Annual Report includes forward-looking statements within the meaning of the Securities Exchange Act of 1934 (the "Exchange Act"). These statements are based on management's beliefs and assumptions, and on information currently available to management. Forward-looking statements include the information concerning possible or assumed future results of operations of the Company set forth under the heading "Management's Discussion and Analysis of Financial Condition or Plan of Operation." Forward-looking statements also include statements in which words such as "expect," "anticipate," "intend," "plan," "believe," "estimate," "consider" or similar expressions are used.

Forward-looking statements are not guarantees of future performance. They involve risks, uncertainties and assumptions. The Company's future results and shareholder values may differ materially from those expressed in these forward-looking statements. Readers are cautioned not to put undue reliance on any forward-looking statements.

ITEM 1 - BUSINESS

Business Overview

Up until March 3, 2006, we were a holding company that operated primarily through one active subsidiary, American Residential Funding, Inc., a Nevada Corporation (AMRES), which provided home financing through the brokerage of residential home loans.

AMRES

AMRES consistently provided the majority of our consolidated revenue. AMRES is primarily a loan broker that, through its loan agents, locates prospective borrowers from real estate brokers, home developers, and marketing to the general public. After taking a loan application, AMRES processes the loan package, including obtaining credit and appraisal reports. AMRES then presents the loan to one of approximately 400 approved lenders, who then approve the loan, draw loan documents, and fund the loan. AMRES receives a commission for each brokered loan, less what is paid to each agent.

The mortgage loans are generally "one-to-four-family" mortgage loans, which were permanent loans (as opposed to construction or land development loans) secured by mortgages on non-farm properties, including attached or detached single-family or second/vacation homes, one-to-four-family primary residences and condominiums or other attached dwelling units, including individual condominiums, row houses, townhouses and other separate dwelling units even when located in buildings containing five or more such units. Each mortgage loan may be secured by an

owner-occupied primary residence or second/vacation home, or by a non-owner occupied residence.

4

We have marketed and sold our mortgage brokerage services primarily through a direct sales force of loan agents totaling between 20 and 40 persons from our previous office in Costa Mesa, California, as well as over 500 loan agents at branch locations.

We faced intense competition in the origination and brokering of our mortgage loans. Such competition came from banks, savings and loan associations and other entities, including real estate investment trusts. Many of our competitors had significantly more assets and greater financial resources than us.

Environmental Matters

We have not been required to perform any investigation or clean up activities, nor have we been subject to any environmental claims. There can be no assurance, however, that this will remain the case in the future.

Trade Names and Service Marks

We do not currently own any Trade Names, Trade Marks or Service Marks.

Employees

As of March 8, 2006, we do not have any employees.

Historical Changes in Business Strategy and Changes in Control

We were incorporated in the State of Nevada on August 18, 1988 as Solutions, Incorporated. Since that time, we have undergone a series of name changes as follows: Suarro Communications, Inc., e-Net Corporation, e-Net Financial Corp., e-Net.Com Corporation, e-Net Financial.Com Corporation, and on January 2, 2002 to Renhuang Pharmaceuticals, Inc.

On April 11, 2006, we received written consents in lieu of a meeting of stockholders from holders of 9,892,820 shares representing approximately 74% of the 13,355,181 shares of the total issued and outstanding shares of our voting stock (the "Majority Stockholders") approving an amendment to our Articles of Incorporation to change our name to Renhuang Pharmaceutical, Inc.

On July 27, 2006, we effectuated the name change to Renhuang Pharmaceuticals, Inc.

Recapitalization

In November 1999, our outstanding common stock underwent a two-for-one forward split. Effective in April 2003, (a) our preferred stockholders exchanged their Series A and Series C preferred stock for newly created Series E and Series D preferred stock, respectively, (b) our President exchanged cancelled options and converted debt into common stock and newly created Series F preferred stock, and (c) our common stock underwent a one-for-twenty reverse stock split, resulting in a decrease in our outstanding common stock at the time from 99,350,000 shares to 4,967,500 shares.

On or about April 11, 2006, we received written consents in lieu of a meeting of stockholders from the Majority Stockholders approving the 1-for-30 reverse stock split of our Common Stock. On April 11, 2006, our Board of Directors approved the above-mentioned stock split, subject to stockholder approval and on August 11, 2006, the Board of Directors effectuated the reverse stock split.

Discontinued operations

On September 30, 2005, our Board of Directors approved, declared it advisable and in our best interests and directed that there be submitted to the holders of a majority of our voting stock for action by written consent the proposed sale of substantially all of our assets (the "Asset Sale"), including but not limited to, all of our ownership interest in AMRES, to AMRES Holding, LLC, a Nevada limited liability company ("AMRES Holding").

The purpose of the Asset Sale, in conjunction with the Securities Sale described below, was to promote the interests of our stockholders by selling unprofitable assets to prevent further losses and provide them with a reasonable exit from their equity holdings.

Vincent Rinehart ("Rinehart"), a shareholder and at the time, our sole officer and director, is the managing member of AMRES Holding and an officer and director of AMRES, and as such there may have existed a conflict of interest in the related-party transaction, which conflict of interest was waived by our Board of Directors and the majority of our voting stockholders.

Securities Sale

On September 19, 2005, our Board of Directors approved, declared it advisable and in our best interests and directed that there be submitted to the holders of a majority of our voting stock for action by written consent the proposed sale by AMRES Holding and Rinehart to Viking (the "Securities Sale"), of their entire ownership interests in us consisting of an aggregate of approximately 10,379,731 shares of common stock, par value \$0.001 and warrants to purchase a total of 3,450,000 shares of our common stock (collectively, the "Securities") in exchange for an aggregate purchase price of \$375,000 (the "Purchase Price"), of which \$150,000 was paid out as a dividend to approximately 3,026,688 shares and was equal to approximately \$0.0495 per share, and the balance to pay off company debt and liabilities, leaving us without assets and liabilities, as additional consideration in connection with the transactions contemplated by the Asset Sale. Approval of the Securities Sale by a majority of our stockholders was not required; nonetheless, effective on September 30, 2005, the Securities Sale was approved by written consent of a majority of our stockholders. Viking did not bear a related-party relationship to us or our management.

Dividend

We distributed \$150,000 of the Purchase Price as a cash dividend to our shareholders on or about March 15, 2006. The dividend was paid to approximately 3,026,688 shares and was equal to approximately \$0.0495 per share. The balance of the funds was used to resolve all of ours and AMRES' outstanding obligations prior to the consummation of the Securities Sale.

Closing Date

On March 3, 2006, the Closing Date, the transactions referred to above closed and we discontinued our operations.

We are currently devoting our efforts to locating merger or acquisition candidates. Our ability to continue as a going concern is dependent upon our ability to develop additional sources of capital, locate and complete a merger with or acquisition of another company, and ultimately, achieve profitable operations. The accompanying financial statements do not include any adjustments that might result from the outcome of these uncertainties.

ITEM 1A - RISK FACTORS

On at least an annual basis, we are required to provide our shareholders with a statement of risk factors and other considerations for their review. These risk factors and other considerations include:

We are a shell company as defined in Rule 12b-2 of the Act.

We are a shell company (as defined in Rule 12b-2 of the Act) because we have no or nominal assets and no or nominal operations. We currently exist for the specific purpose of acquiring all or substantially all of the ownership of an existing business. These transactions are consummated by issuing or transferring large blocks of our equity shares to the principals of the business that is acquired. Any such issuance will involve significant dilution in the equity interest in us held by our pre-reorganization shareholders with the result that our pre-reorganization shareholders will have a substantially lower aggregate interest in our outstanding shares after giving effect to the reorganization. Prospective investors should be aware that privately-held companies oftentimes merge or reorganize with a public shell as a means of “going-public” without having to incur the time, expense and disclosure obligations normally associated with the going-public process. In the event we merge with a privately held company, investors will not have had the benefit of receiving disclosure of such company’s operations and financial condition prior to making their investment. Prospective investors should also be aware that our management, acting in compliance with our Bylaws and Nevada Corporation Law, may structure any reorganization with an operating business in a manner that will allow our Board of Directors to approve the selection of the operating business and all of the terms of the reorganization, including the appointment of the successor officers and directors, without the need or request for shareholder approval.

We rely on our management to evaluate potential acquisition targets.

We are dependent on our officers and directors’ personal abilities to evaluate business opportunities that may be presented in the future. Since management has not identified a proposed business or industry in which it will search for an acquisition target, it is unlikely that management will have any prior experience in the technical aspects of the industry or the business within that industry which may be acquired.

A single shareholder owns the voting control of our company.

Our majority shareholder, Viking Investments USA, Inc., presently owns approximately 74.07% of our outstanding Common Stock. Therefore, until such time as we acquire an operating business, our majority shareholder will have the power to elect all of our Board of Directors, amend our Certificate of Incorporation, and approve a merger, or consolidation with another company or sale of all or substantially all of our assets.

Because we face intense competition, we may not be able to acquire a quality operating business.

Numerous large, well-financed firms with large cash reserves are engaged in the acquisition of companies and businesses. We expect competition to be intense for available target businesses.

There is a limited public trading market for our common stock.

Our securities do not currently, and have not in the past, traded on any active or liquid public market. Thus, there is currently a limited market for our securities and there can be no assurance that an active trading market will develop or, if one develops, that it will continue. Even if an active trading market should develop, the market may not be sustainable. There are currently no plans, proposals, arrangements or understandings with any person with regard to the development of a trading market in any of our securities.

ITEM 1B - UNRESOLVED STAFF COMMENTS

This Item is not applicable to us as we are not an accelerated filer, a large accelerated filer, or a well-seasoned issuer; however, we have not received written comments from the Commission staff regarding our periodic or current reports under the Securities Exchange Act of 1934 within the last 180 days before the end of our last fiscal year.

ITEM 2 - PROPERTIES

Our principal place of business is in New York City, New York, where we are provided with offices at no cost by our majority shareholder, Viking Investments.

ITEM 3 - LEGAL PROCEEDINGS

We are not a party to, or threatened by, any litigation or procedures.

ITEM 4 - SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There have been no events that are required to be reported under this Item.

The Securities Enforcement and Penny Stock Reform Act of 1990 requires additional disclosure relating to the market for penny stocks in connection with trades in any stock defined as a penny stock. The Commission has adopted regulations that generally define a penny stock to be any equity security that has a market price of less than \$5.00 per share, subject to a few exceptions that we do not meet. Unless an exception is available, the regulations require the delivery, prior to any transaction involving a penny stock, of a disclosure schedule explaining the penny stock market and the risks associated therewith.

Holdings

As of July 15, 2006, there were 13,355,181 shares of our common stock issued and outstanding held by 72 holders of record.

Dividend Policy

We distributed \$150,000, as further described above under Discontinued Operations, as a cash dividend to our shareholders on or about March 15, 2006. The dividend was paid to approximately 3,026,688 shares equal to approximately \$0.0495 per share.

We do not expect to pay any dividend in the foreseeable future. We intend to apply our earnings, if any, in expanding our operations and related activities. The payment of cash dividends on our common stock in the future will be at the discretion of the Board of Directors and will depend upon such factors as earnings levels, capital requirements, our financial condition and other factors deemed relevant by the Board of Directors.

ITEM 7 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

Overview

As of March 3, 2006, we discontinued our previous operations and we have not started any new operations. We are currently devoting our efforts to locating merger candidates. Our ability to continue as a going concern is dependent upon our ability to develop additional sources of capital, locate and complete a merger with another company, and ultimately, achieve profitable operations. The accompanying financial statements do not include any adjustments that might result from the outcome of these uncertainties.

The following discussion contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of many factors, including those set forth under "Risk Factors." The following discussion should be read together with our financial statements and the notes to those financial statements included elsewhere in this annual report.

Except for historical information, the materials contained in this Management's Discussion and Analysis are forward-looking (within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934) and involve a number of risks and uncertainties. These include our historical losses, the need to manage its growth, general economic downturns, intense competition in the financial services and mortgage banking industries, seasonality of quarterly results, and other risks detailed from time to time in our filings with the Securities and Exchange Commission.

Although forward-looking statements in this Annual Report reflect the good faith judgment of management, such statements can only be based on facts and factors currently known by us. Consequently, forward-looking statements are inherently subject to risks and uncertainties, actual results and outcomes may differ materially from the results and outcomes discussed in the forward-looking statements. Readers are urged to carefully review and consider the various disclosures made by us in this Annual Report, as an attempt to advise interested parties of the risks and factors that may affect our business, financial condition, and results of operations and prospects.

Income Taxes

We recognize deferred tax assets and liabilities based on the differences between the financial statement carrying amounts and the tax bases of assets and liabilities. We review our deferred tax assets for recoverability and establish a valuation allowance based upon historical losses, projected future taxable income and the expected timing of the reversals of existing temporary differences. During the years ended April 30, 2006 and 2005, we estimated the allowance on net deferred tax assets to be one hundred percent (100%) of the net deferred tax assets.

Results of Operations for the Twelve Months Ended April 30, 2006 Compared to the Twelve Months Ended April 30, 2005

Introduction

On September 30, 2005, pursuant to the above-mentioned Asset Sale, our Board of Directors approved the proposed sale of substantially all of our assets, including but not limited to, all of our ownership interest in AMRES, to AMRES Holding, LLC, a Nevada limited liability company. The purpose of the Asset Sale, in conjunction with the Securities Sale described below, was to promote the interests of our stockholders by selling unprofitable assets to prevent further losses and provide them with a reasonable exit from their equity holdings. The Asset Sale transaction closed on March 3, 2006, and we discontinued our operations. Accordingly, our operations related to home financing through the brokerage of residential home loans are categorized in our financial statements as discontinued operations.

We are currently devoting our efforts to locating merger or acquisition candidates. Our ability to continue as a going concern is dependent upon our ability to develop additional sources of capital, locate and complete a merger with or acquisition of another company, and ultimately, achieve profitable operations. The accompanying financial statements do not include any adjustments that might result from the outcome of these uncertainties.

Our now discontinued operations involved providing home financing through the brokerage of residential home loans.

As we continued to experience a significant slow down in the refinance business, and to be unsuccessful in the business initiatives described above and to expand our sources of revenue, we took immediate actions and discontinued our operations as further described above.

Our cash balance is zero on hand as of April 30, 2006.

Net cash used in operating activities was \$1,316,840 for the twelve months ended April 30, 2006, compared to \$3,374,672 of cash provided by operating activities for the twelve months ended April 30, 2005.

ITEM 9A - CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We conducted an evaluation, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act, as of January 31, 2006, to ensure that information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities Exchange Commission's rules and forms, including to ensure that information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that as of January 31, 2006, our disclosure controls and procedures were not effective at the reasonable assurance level due to the material weaknesses described below.

In light of the material weaknesses described below, we performed additional analysis and other post-closing procedures to ensure our consolidated financial statements were prepared in accordance with generally accepted accounting principles. Accordingly, we believe that the consolidated financial statements included in this report fairly present, in all material respects, our financial condition, results of operations and cash flows for the periods presented.

A material weakness is a control deficiency (within the meaning of the Public Company Accounting Oversight Board (PCAOB) Auditing Standard No. 2) or combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. Management has identified the following two material weaknesses which have caused management to conclude that, as of January 31, 2006, our disclosure controls and procedures were not effective at the reasonable assurance level:

We were unable to meet our requirements to timely file our Form 10-Q for the quarter ended July 31, 2005. Management evaluated the impact of our inability to timely file periodic reports with the Securities and Exchange Commission on our assessment of our disclosure controls and procedures and has concluded that the control deficiency that resulted in the inability to timely make these filings represented a material weakness.

We did not maintain a sufficient complement of finance and accounting personnel with adequate depth and skill in the application of generally accepted accounting principles. In addition, we did not maintain a sufficient complement of finance and accounting personnel to handle the matters necessary to timely file our Form 10-Q for the quarter ended July 31, 2005. Management evaluated the impact of our lack of sufficient finance and accounting personnel on our assessment of our disclosure controls and procedures and has concluded that the control deficiency that resulted in our lack of sufficient personnel represented a material weakness.

To address these material weaknesses, management performed additional analyses and other procedures to ensure that the financial statements included herein fairly present, in all material respects, our financial position, results of operations and cash flows for the periods presented.

Remediation of Material Weaknesses

To remediate the material weaknesses in our disclosure controls and procedures identified above, subsequent to April 30, 2005, in addition to working with our independent auditors, we retained a third-party consultant to advise us regarding our financial reporting process.

Changes in Internal Control over Financial Reporting

Except as noted above, there were no changes in our internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
