THE CHINA FUND, INC.
CHAIRMAN'S STATEMENT (UNAUDITED)

THE CHINA FUND INC.
CHAIRMAN'S STATEMENT
TWELVE MONTHS TO OCTOBER 31, 2010

I am pleased to report a strong year for Chinese markets -- and a stronger period still for your fund. With a return of over 30%, the fund outstripped the 16% return on the MSCI Golden Dragon index by a considerable margin. Gratifyingly, your fund's outperformance stemmed from the long-term themes on which your manager has placed heavy emphasis: China's burgeoning domestic consumption, its far-reaching healthcare reforms and its increasingly amicable relationship with Taiwan.

In the direct-investment portfolio, your manager completed two new investments in the autumn. These were in China Bright Group, a medical-device-maker and distributor spun out of Hong Kong-listed Golden Meditech, and Zong Su Foods, which produces both traditional Chinese and Western-style hams. During the past year, Chinese markets were distinctly out of favor for several months (although your fund performed very well over that period). Investors worried first that China's growth was too fast and then that it was slowing too much. In fact, after the astonishing rates achieved by dint of Beijing's vast stimulus packages, all the signs are that growth has now reached an appropriate -- and sustainable -- level.

As the panic has abated, foreign capital has started to return to Greater China, with huge inflows during the autumn. For investors with the foresight to have remained invested in the region's best companies, this is a heartening development. I therefore look forward with confidence to reporting another period of strong performance in my next statement.

In conclusion, I draw your attention to Note I on page 29 of these accounts. Under the Indemnity Agreement referred to in the Note and additional agreements between the Fund and the Direct Investment Manager, The China Fund will be compensated for any loss or expense associated with its investment in Ugent Holdings, Ltd. The Board considers this a satisfactory resolution of the issues described on page 29. The Board and the Direct Investment Manager are working together to improve policies and procedures for direct investments made by the Fund in the future.

Yours sincerely,

James Lightburn
Chairman

THE CHINA FUND, INC.
INVESTMENT MANAGER'S STATEMENT (UNAUDITED)

REVIEW OF LISTED AND DIRECT INVESTMENTS

REVIEW

Despite weakness in the first half of 2010, Chinese markets were strong over the 12 months to 31 October. The MSCI Golden Dragon index returned 16.1%. With a gain of 31.5%, the fund did significantly better.

Although Chinese indices ended 2009 strongly, they were notably weak in the first half of 2010, as investors fretted about government measures to cool the property market. Later, concerns shifted to slowing growth and the possibility of a 'hard landing'. But after the summer, it became increasingly clear that China's growth was simply moderating from its stimulus-induced highs to a more sustainable level. Huge inflows of foreign institutional capital helped to buoy the market in the autumn.

In Taiwan, the key development was July's signing of the Economic Cooperation Framework Agreement between the island and mainland China. The free-trade agreement was approved by the Taiwan's Legislative Yuan in August. Although tariff reductions do not come into effect until January, the increasing amount of cross-strait M&A rumours show that companies are not waiting for the starting gun. Another benefit that should not be overlooked is that it will allow President Ma to sign free-trade agreements with other trading partners; this was previously obstructed by Beijing. Also, we expect negotiations on round two, which will broaden the agreement, to start within six months of the first stage being implemented. In the meantime, Chinese tourists are arriving in ever-greater numbers, boosting the island's already surging economy.

The fund's substantial outperformance owed a great deal to its heavy emphasis on domestic consumption. Food-related holdings delivered some of the leading performances, with confectioner Hsu Fu Chi, China Fishery and Zhangzidao Fishery all to the fore. Liquor distillers Zhejiang Guyuelongshan and Wuliangye Yibin also delivered good returns. And as retail sales continued to grow robustly, we enjoyed strong showings from Intime Department Store, Wumart and cosmetics chain Natural Beauty on the mainland, and from Familymart and Far Eastern Department Store in Taiwan. Our cornerstone investment in childrenswear Boshiwa was also a success.

The portfolio's overweight position in healthcare produced some standouts too. The pick of these was China Shineway Pharmaceutical, with Shandong Weigao, Sinopharm and WuXi PharmaTech also performing well. A number of healthcare stocks were among the largest detractors from returns, however, after the authorities tightened regulations on drug pricing. But as the government presses ahead with its far-reaching healthcare reforms, the prospects for the sector over the next few years remain bright.

OUTLOOK

There were no surprises from the central committee's October deliberations on the next five-year plan -- which itself was not a surprise. The succession of Xi Jinping to the top job from 2012 was confirmed. The Shanghai World Expo closed after breaking all records (72 million attendees). The Asian Games, staged with a budget larger than that for the London Olympics, took place in Guangzhou in November. But amid all the triumphalism, a rather sour, defensive tone

is developing in Chinese foreign policy (as reflected in the reaction to Liu Xiaobo winning a Nobel prize). This is one potential threat to markets.

Another slightly worrying sign is the extremely busy IPO market, with untested companies rapturously received. But there is probably still enough pessimism/scepticism towards China investment to limit risks in the near term. We are relatively sanguine about Taiwan's mayoral elections on 27 November; once they are out of the way, we expect further progress in the cross-strait rapprochement.

THE CHINA FUND, INC.
NOTES TO FINANCIAL STATEMENTS
OCTOBER 31, 2010

NOTE A -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The China Fund, Inc. (the "Fund") was incorporated under the laws of the State of Maryland on April 28, 1992, and is a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund's investment objective is long-term capital appreciation which it seeks to achieve by investing primarily in equity securities (i) of companies for which the principal securities trading market is the People's Republic of China ("China"), (ii) of companies for which the principal securities trading market is outside of China, or constituting direct equity investments in companies organized outside of China, that in both cases derive at least 50% of their revenues from goods and services sold or produced, or have at least 50% of their assets, in China and (iii) constituting direct equity investments in companies organized in China. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

USE OF ESTIMATES: The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the period. Actual results could differ from these estimates. The significant estimates made as of, and for the year ended, October 31, 2010 relate to Direct Investments and to the contingent liability resulting from the sale of Captive Finance in March 2007. A reserve of 10% of the net sale proceeds was established to cover any potential liabilities from the representation and warranties provided by the Fund in the transaction.

SECURITY VALUATION: Portfolio securities listed on recognized United States or foreign securities exchanges are valued at the last quoted sales price in the principal market where they are traded. Listed securities with no such sales price and unlisted securities are valued at the mean between the current bid and asked prices, if any, from brokers. Short-term investments having maturities of sixty days or less are valued at amortized cost (original purchase cost as adjusted for amortization of premium or accretion of discount) which when combined with accrued interest approximates market value. Securities for which market quotations are not readily available are valued at fair value in good faith by or at the direction of the Board of Directors and considering relevant factors, data and information including, if relevant, the market value of freely tradable securities of the same class in the principal market on which such securities are normally traded. Direct Investments are valued at fair value as determined by or at the direction of the Board of Directors based on financial and other information supplied by the Direct Investment Manager regarding each Direct Investment. Forward currency contracts are valued at the current cost of offsetting the contract. Equity linked securities are valued at fair value primarily based on the value(s) of the security (or securities) underlying, which normally follows the same methodology as the valuation of securities listed on recognized exchanges.

Factors used in determining value may include, but are not limited to, the type of security, the size of the holding, the initial cost of the security, the existence of any contractual restrictions on the security's disposition, the price and extent of public trading in similar securities of the issuer or of comparable companies, the availability of quotations from broker-dealers, the availability of values of third parties other than the Investment Manager or Direct Investment Manager, information obtained from the issuer, analysts, and/or the appropriate stock exchange (if available), an analysis of the company's financial statements, an evaluation of the forces that influence the

Edgar Filing: CHINA FUND INC - Form N-CSR

issuer and the market(s) in which the security is purchased and sold and with respect to debt securities, the maturity, coupon, creditworthiness, currency denomination, and the movement of the market in which they trade.

Edgar Filing: CHINA FUND INC - Form N-CSR

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

REPURCHASE AGREEMENTS: In connection with transactions in repurchase agreements, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral by the Fund may be delayed or limited.

SECURITIES LENDING: The Fund may lend up to 33 1/3% of the Fund's total assets held by State Street Bank and Trust Company ("State Street") as custodian to certain qualified brokers, except those securities which the Fund or the Investment Manager specifically identifies as not being available. By lending its investment securities, the Fund attempts to increase its net investment income through the receipt of interest on the loan. Any gain or loss in the market price of the securities loaned that might occur and any interest or dividends declared during the term of the loan would accrue to the account of the Fund. Risks of delay in recovery of the securities or even loss of rights in the collateral may occur should the borrower of the securities fail financially. Risks may also arise to the extent that the value of the collateral decreases below the value of the securities loaned. Upon entering into a securities lending transaction, the Fund receives cash or other securities as collateral in an amount equal to or exceeding 100% of the current market value of the loaned securities with respect to securities of the U.S. government or its agencies, 102% of the current market value of the loaned securities with respect to U.S. securities and 105% of the current market value of the loaned securities with respect to foreign securities. Any cash received as collateral is generally invested by State Street, acting in its capacity as securities lending agent (the "Agent"), in the State Street Navigator Securities Lending Prime Portfolio. A portion of the dividends received on the collateral is rebated to the borrower of the securities and the remainder is split between the Agent and the Fund.

As of October 31, 2010, the Fund had loaned securities which were collateralized by cash and short term investments. The value of the securities on loan and the value of the related collateral were as follows:

VALUE OF SECURITIES	VALUE OF CASH COLLATERAL	TOTAL COLLATERAL
-----	-----	-----
\$64,499,371	\$64,819,389	\$67,103,921

FOREIGN CURRENCY TRANSLATIONS: The records of the Fund are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities are translated into U.S. dollars at the current exchange rates. Purchases and sales of investment securities and income and expenses are translated on the respective dates of such transactions. Net realized gains and losses on foreign currency transactions represent net gains and losses from the disposition of foreign currencies, currency gains and losses realized between the trade dates and settlement dates of security transactions, and the difference between the amount of net investment income accrued and the U.S. dollar amount actually received. The effects of changes in foreign currency exchange rates on investments in securities are not segregated in the Statement of Operations from the effects of changes in market prices of those securities, but are included in realized and unrealized gain or loss on investments. Net unrealized foreign currency gains and losses arise from changes in the value of assets and liabilities, other than investments in securities, as a result of changes in exchange rates.

FORWARD FOREIGN CURRENCY CONTRACTS: The Fund may enter into forward foreign

Edgar Filing: CHINA FUND INC - Form N-CSR

currency contracts to hedge against foreign currency exchange rate risks. A forward currency contract is an agreement between two parties to buy

Edgar Filing: CHINA FUND INC - Form N-CSR

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

or sell currency at a set price on a future date. Upon entering into these contracts, risks may arise from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of the foreign currency relative to the U.S. dollar. The U.S. dollar value of forward currency contracts is determined using forward exchange rates provided by quotation services. Daily fluctuations in the value of such contracts are recorded as unrealized gain or loss on the Statement of Assets and Liabilities. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. Such gain or loss is disclosed in the realized and unrealized gain or loss on foreign currency in the Fund's accompanying Statement of Operations. At October 31, 2010, The Fund did not hold open forward foreign currency contracts.

OPTION CONTRACTS: The Fund may purchase and write (sell) call options and put options provided the transactions are for hedging purposes and the initial margin and premiums do not exceed 5% of total assets. Option contracts are valued daily and unrealized gains or losses are recorded on the Statement of Assets and Liabilities based upon the last sales price on the principal exchange on which the options are traded. The Fund will realize a gain or loss upon the expiration or closing of the option contract. Such gain or loss is disclosed in the realized and unrealized gain or loss on options in the Fund's accompanying Statement of Operations. When an option is exercised, the proceeds on sales of the underlying security for a written call option, the purchase cost of the security for a written put option, or the cost of the security for a purchased put or call option is adjusted by the amount of premium received or paid.

The risk in writing a call option is that the Fund gives up the opportunity for profit if the market price of the security increases and the option is exercised. The risk in writing a put option is that the Fund may incur a loss if the market price of the security decreases and the option is exercised. The risk in buying an option is that the Fund pays a premium whether or not the option is exercised. Risks may also arise from an illiquid secondary market or from the inability of counter parties to meet the terms of the contract.

EQUITY LINKED SECURITIES: The Fund may invest in equity-linked securities such as linked participation notes, equity swaps and zero-strike options and securities warrants. Equity-linked securities currently held by the Fund are privately issued securities whose investment results are designed to correspond generally to the performance of a specified stock index or "basket" of stocks, or a single stock. Access Products may be used by the Fund to gain exposure to countries that place restrictions on investments by foreigners. To the extent that the Fund invests in Access Products whose return corresponds to the performance of a foreign securities index or one or more foreign stocks, investing in Access Products will involve risks similar to the risks of investing in foreign securities. In addition, the Fund bears the risk that the issuer of an Access Product may default on its obligation under the terms of the arrangement with the counterparty. Access Products are often used for many of the same purposes as, and share many of the same risks with, derivative instruments. In addition, Access Products may be considered illiquid.

At October 31, 2010, the Fund held equity-linked Access Product warrants through Credit Lyonnais and Citigroup Global Markets Holdings, the issuers. Under the terms of the agreements, each warrant entitles the Fund to receive from the issuers an amount in U.S. dollars linked to the performance of specific equity shares.

Edgar Filing: CHINA FUND INC - Form N-CSR

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

DIRECT INVESTMENTS: The Fund may invest up to 25% of the net proceeds from its offering of its outstanding common stock in direct investments. Direct investments are generally restricted and do not have a readily available resale market. Because of the absence of any public trading market for these investments, the Fund may take longer to liquidate these positions than would be the case for publicly traded securities. Although these securities may be resold in privately negotiated transactions, the prices on these sales could be less than those originally paid by the Fund. Issuers whose securities are not publicly traded may not be subject to public disclosure and other investor protection requirements applicable to publicly traded securities. The value of these securities at October 31, 2010 was \$53,507,499 or 6.8% of the Fund's net asset value. The table below details the acquisition date, cost, and value of the Fund's direct investments as determined by the Board of Directors of the Fund. The Fund does not have the right to demand that such securities be registered.

* The purchase of China Silicon Corp., Series A Preferred resulted in the Fund receiving 685,450 shares of China Silicon Corp. common stock warrants. Each warrant entitles the Fund to purchase shares of common stock at an exercise price of USD\$2.98 per share, subject to adjustment.

INDEMNIFICATION OBLIGATIONS: Under the Fund's organizational documents, its Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

SECURITY TRANSACTIONS AND INVESTMENT INCOME: Security transactions are recorded as of the trade date. Realized gains and losses from securities sold are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date, or, in the case of dividend income on foreign securities, on the ex-dividend date or when the Fund becomes aware of its declaration. Interest income is recorded on the accrual basis. All premiums and discounts are amortized/accreted for both financial reporting and federal income tax purposes.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Dividend and interest income generated in Taiwan is subject to a 20% withholding tax. Stock dividends received (except those which have resulted from Capitalization of capital surplus) are taxable at 20% of the par value of the stock dividends received. The Fund records the taxes paid on stock dividends as an operating expense.

DIVIDENDS AND DISTRIBUTIONS: The Fund intends to distribute to its shareholders, at least annually, substantially all of its net investment income and any net realized capital gains. Distributions to shareholders are recorded on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. generally accepted accounting principles. Certain capital accounts in the financial statements are periodically adjusted for permanent differences in order to reflect their tax character. These adjustments have no impact on net assets or net asset value per share. Temporary differences which arise from recognizing certain items of income, expense, gain or loss in different periods for financial statement and tax purposes will reverse at some time in the future.

The Fund made distributions of \$5,825,297 from Ordinary Income during the year ended October 31, 2010. For the year ended October 31, 2009 the Fund made distributions of \$8,738,986 from Ordinary Income and \$96,868,587 from Long-Term Capital Gains. During the year ended October 31, 2010, the Fund utilized \$9,991,827 of capital loss carryforwards.

As of October 31, 2010, the components of distributable earnings on a tax basis were \$5,453,067 of undistributed ordinary income, \$43,274,761 of undistributed capital gains and \$282,173,754 of unrealized appreciation, resulting in a total of \$330,901,582. Permanent book/tax differences relate to foreign currency gains and losses and a 2009 excise tax paid.

FEDERAL TAXES: It is the Fund's policy to comply with the Subchapter M provision of the Internal Revenue Code ("Code") and to distribute to shareholders each year substantially all of its income. Accordingly, no provision for federal income tax is necessary. As of and during the year ended October 31, 2010, the Fund did not have a liability for any uncertain tax positions. The Fund recognizes interest and penalties, if any, related to tax liabilities as income tax expense in the Statement of Operations. As of October 31, 2010, tax years 2007 through 2010 remain subject to examination by the Fund's major tax jurisdictions, which include the United States of America and the state of Maryland. The Fund may be subject to taxes imposed by governments of countries in which it invests. Such taxes are generally based on either income or gains earned or repatriated. The Fund accrues and applies such taxes to net investment income, net realized gains and net unrealized gains as income and/or gains are earned.

NOTE I -- SUBSEQUENT EVENT

On November 19, 2010, the Fund determined, in conjunction with the Direct Investment Manager that the valuation of the Ugent Holdings, Ltd., 12% bonds purchased April 6, 2009, due April 6, 2012 (the "Bonds") held by the Fund, should be adjusted to US\$0.00. This zero valuation has been reflected in the accompanying financial statements as of October 31, 2010. Additionally, the Fund has asserted that the Direct Investment Manager breached certain duties and obligations in causing the Fund to purchase the Bonds by participating in a transaction in which another party advised by the Direct Investment Manager was also involved. In order to resolve any potential claims or disputes regarding the purchase of the Bonds, the Fund, the Direct Investment Manager and a syndicate of insurance companies (acting on behalf of the Direct Investment Manager) have entered into an agreement on December 30, 2010 for the insurance companies, severally, to indemnify the Fund against any loss arising from the sale or other disposition of the Bonds or, if no sale or disposition of the Bonds takes place prior to April 6, 2012, to reimburse the Fund for the cost of its investment, less any interest or other income received. The Direct Investment Manager has agreed to reimburse the Fund for associated legal, audit, management fees related to the Ugent investment previously paid by the Fund and other costs. Because the agreement supporting this arrangement constitutes a binding and legally enforceable commitment to the Fund, its value (US\$20,120,858) has been reflected in the net asset value of the Fund as of December 30, 2010. The Board has suspended further direct investments until improvements are made in the policies and procedures pursuant to which direct investments are made.

We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2010, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of The China Fund, Inc. at October 31, 2010, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the two years in the period then ended, in conformity with U.S. generally accepted accounting principles.

BOARD DELIBERATIONS REGARDING APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

GENERAL BACKGROUND

Martin Currie Inc. ("Martin Currie") acts as the Fund's investment manager, with exclusive investment discretion over the Fund's assets pursuant to two investment management and advisory agreements with the Fund: a "Listed Management Agreement" and a "Direct Management Agreement". Martin Currie is a registered investment adviser under the U.S. Investment Advisers Act of 1940, as amended (the "Advisers Act").

The Fund may invest up to 100% of the portion of the Fund's assets allocated for investment in listed securities (the "Listed Investments") pursuant to the Listed Management Agreement. The Fund pays Martin Currie a fee for its investment management of the Fund's Listed Investments that is computed weekly and payable monthly, at an annual rate of 0.70% of the Fund's average weekly net assets consisting of Listed Investments up to US\$315 million and 0.50% of the Fund's average weekly net assets consisting of Listed Investments in excess of US\$315 million (the "Listed Investment Management Fee").

The Fund may invest up to 25% of the net proceeds of its offerings of its outstanding common stock in direct equity investments (the "Direct Investments") pursuant to the Direct Management Agreement. The Fund pays Martin Currie a fee for its investment management of the Fund's Direct Investments that is computed weekly and payable monthly at an annual rate of 2.00% of the Fund's average weekly value of the Fund's assets consisting of Direct Investments (the "Direct Investment Management Fee").

ANNUAL APPROVAL PROCESS

The Fund's Board of Directors (the "Board") is legally required to review and re-approve the Listed Management Agreement and the Direct Management Agreement (together, the "Advisory Agreements") once a year. Throughout the year, the Board considers a wide variety of materials and information about the Fund, including, for example, the Fund's investment performance, adherence to stated investment objectives and strategies, assets under management, expenses, regulatory compliance and management. The Board periodically meets with senior management and portfolio managers of Martin Currie and reviews and evaluates Martin Currie's professional experience, credentials and qualifications. This information supplements the materials the Board received in preparation for the Meeting described below.

In determining whether it was appropriate to approve the Advisory Agreements during fiscal 2010, the Board requested from Martin Currie information that the Board believed to be reasonably necessary to reach its conclusion. This information together with the information provided to the Directors throughout the course of year formed the primary basis for the Directors' determinations.

The Board met in executive session for the purpose of considering the approval of the Advisory Agreements. During the executive session, the Directors reviewed a memorandum which detailed the duties and responsibilities of the Directors with respect to their consideration of the Advisory Agreements. The Directors reviewed the contract renewal materials provided by Martin Currie, including, but not limited to (1) an organizational overview of Martin Currie and biographies of those personnel providing services to the Fund, (2) copies of the Listed Management Agreement, as amended, and the Direct Management Agreement, (3) a profitability analysis of Martin Currie, (4) financial statements

INVESTMENT MANAGEMENT AGREEMENTS (CONTINUED)

of Martin Currie, (5) Form ADV of Martin Currie, and (6) performance and fee comparison data provided by Fundamental Data, an independent third party vendor of such information on global closed-end funds.

The Board, consisting entirely of "independent directors" within the meaning of the Investment Company Act of 1940, unanimously approved the Advisory Agreements at an "in person" meeting held on June 17, 2010 (the "Meeting"). In evaluating the Advisory Agreements, the Directors drew on materials provided to them by Martin Currie. In deciding whether to renew the Advisory Agreements, the Directors considered various factors, including (1) the nature, extent and quality of the services provided by Martin Currie under the Advisory Agreements, (2) the investment performance of the Fund's Listed Investments and Direct Investments (together, the "Fund's Investments"), (3) the costs to Martin Currie of its services and the profits realized by Martin Currie from its relationship with the Fund, and (4) the extent to which economies of scale might be realized if and as the Fund grows and whether the fee levels in the Advisory Agreements reflect these economies of scale.

1. Nature, Extent and Quality of the Services provided by Martin Currie

In considering the nature, extent and quality of the services provided by Martin Currie, the Directors relied on their prior experience as Directors of the Fund as well as on the materials provided at the Meeting. They noted that under the Advisory Agreements Martin Currie is responsible for managing the Fund's Investments in accordance with the Fund's investment objective and policies, applicable legal and regulatory requirements, and the instructions of the Directors, for providing necessary and appropriate reports and information to the Directors, for maintaining all necessary books and records pertaining to the Fund's transactions in the Fund's Investments, and for furnishing the Fund with the assistance, cooperation, and information necessary for the Fund to meet various legal requirements regarding registration and reporting. They noted the distinctive nature of the Fund as investing primarily in equity securities (i) of companies for which the principal securities trading market is in China, (ii) of companies for which the principal securities trading market is outside of China, or constituting direct equity investments in companies organized outside of China, that in both cases derive at least 50% of their revenues from goods or services sold or produced, or have at least 50% of their assets, in China or (iii) constituting direct equity investments in companies organized in China. They also noted the experience and expertise of Martin Currie as appropriate as an adviser to the Fund.

The Directors reviewed the background and experience of Martin Currie's senior management, including those individuals responsible for the investment and compliance operations with respect to the Fund's Investments, and the responsibilities of the investment and compliance personnel with respect to the Fund. They also considered the resources, operational structures and practices of Martin Currie in managing the Fund's portfolio, in monitoring and securing the Fund's compliance with its investment objective and policies and with applicable laws and regulations, and in seeking best execution of portfolio transactions. Drawing upon the materials provided and their general knowledge of the business of Martin Currie, the Directors took into account the fact that Martin Currie's experience, resources and strength in these areas are deep, extensive and of high quality. On the basis of this review, the Directors determined that the nature and extent of the services provided by Martin Currie to the Fund were appropriate, had been of high quality, and could be expected to remain so.

BOARD DELIBERATIONS REGARDING APPROVAL OF
INVESTMENT MANAGEMENT AGREEMENTS (CONTINUED)

2. Performance of the Fund's Investments

The Directors noted that, in view of the distinctive investment objective of the Fund, the Fund's investment performance was better than satisfactory. Of importance to the Directors was the extent to which the Fund achieved its objective. Drawing upon information provided at the Meeting and upon reports provided to the Directors by Martin Currie throughout the preceding year, the Directors determined that the Fund outperformed the MSCI Golden Dragon Index for the one-, three-, five- and ten-year periods ending April 30, 2010 (at both net asset value and market price). They further concluded, on the basis of the limited universe of comparable funds, that the expense ratio of the Fund was as low as, or lower than, those of the Fund's direct competitors. Accordingly, the Directors concluded that the performance of the Fund was at least satisfactory.

3. The Costs to Martin Currie of its Services and the Profits Realized by Martin Currie from its Relationship with the Fund

The Directors considered the profitability of the advisory arrangement with the Fund to Martin Currie. The Directors had been provided with general data on the Fund's profitability to Martin Currie. They first discussed with representatives of Martin Currie the methodologies used in computing the costs that formed the bases of the profitability calculations. Concluding that these methodologies were acceptable, they turned to the data provided. After discussion and analysis, they concluded that, to the extent that Martin Currie's relationship with the Fund had been profitable, the profitability was in no case such as to render the advisory fee excessive. The Directors also discussed whether the compensation of Martin Currie personnel was at an appropriate level to retain and motivate employees.

In considering whether Martin Currie benefits in other ways from its relationship with the Fund, the Directors noted that, other than the advisory fees payable to Martin Currie under the Advisory Agreements, there is no other investment advisory, brokerage, or other fee received or receivable by Martin Currie or its affiliates from the Fund. The Directors concluded that, to the extent that Martin Currie derives other benefits from its relationship with the Fund, those benefits are not so significant as to render the adviser's fees excessive.

4. The Extent to which Economies of Scale would be Realized if and as the Fund Grows and Whether the Fee Levels in the Listed Management Agreement Reflect these Economies of Scale

On the basis of their discussions with Martin Currie's management and their analysis of information provided at the Meeting, the Directors determined that the nature of the Fund and its operations is such that Martin Currie was likely to realize economies of scale in the management of the Fund as it grows in size. It was noted in the Board's discussion with representatives of Martin Currie that Martin Currie's assets under management from its China business had increased substantially and as such Martin Currie had realized economies of scale from managing more China portfolios for more clients. It was noted that these economies of scale were shared with the Fund because they had enabled Martin Currie to develop centralized dealing facilities that pool transactions across all of its clients. In addition, the economies were reflected in the breakpoint in the Fund's fee structure.

BOARD DELIBERATIONS REGARDING APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS (CONTINUED)

In order to better evaluate the Fund's advisory fees, the Directors had requested comparative information with respect to fees paid by similar funds, i.e., public funds that invest in China. The Directors found that, because of the distinctive nature of the Fund, the universe of similar funds was limited; the total number of comparable funds, which included the Fund, was seventeen.

They also noted that there are no other public funds with a dedicated direct investment component that provide a fee comparison. It was noted that the closest comparison would be private equity funds and those funds normally have a base fee of 2% of assets and an incentive based fee based on gains realized on portfolio investments, and thus, the Directors determined that the Direct Investment Management Fee compares favorably with the fees of private equity funds. It was also noted that, while the Direct Investment Management Fee is higher than the fees paid by other public funds, the Listed Investment Management Fee compared favorably with management fees of other similar public funds and the effective combined fees under the Listed Management Agreement and the Direct Management Agreement were lower than the fees for most other similar public funds. The Directors noted that the Fund's total expense ratio was lower than most of the comparable funds' total expense ratios. The Directors concluded that the limited data available provided some indirect confirmation of the reasonableness of Martin Currie's fees.

APPROVAL OF THE ADVISORY AGREEMENTS

The Directors approved the continuance of the Fund's Advisory Agreements with Martin Currie after weighing the foregoing factors. They reasoned that, considered in themselves, the nature and extent of the services provided by Martin Currie were appropriate, that the performance of the Fund had been at least satisfactory, and that Martin Currie could be expected to provide services of high quality. As to Martin Currie's fees for the Fund, the Directors determined that the fees, considered in relation to the services provided, were fair and reasonable, that the Fund's relationship with Martin Currie was not so profitable as to render the fees excessive, that any additional benefits to Martin Currie were not of a magnitude materially to affect the Directors' deliberations, and that the fees adequately reflected shared economies of scale with the Fund.

DIVIDENDS AND DISTRIBUTIONS; SUMMARY OF DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund will distribute to shareholders, at least annually, substantially all of its net investment income from dividends and interest earnings and expects to distribute any net realized capital gains annually. Pursuant to the Dividend Reinvestment and Cash Purchase Plan (the "Plan"), adopted by the Fund, each shareholder will automatically be a participant (a "Participant") in the Plan unless Computershare Trust Company, N.A., the Plan Agent, is otherwise instructed by the shareholder in writing, to have all distributions, net of any applicable U.S. withholding tax, paid in cash. Shareholders who do not participate in the Plan will receive all distributions in cash paid by check in U.S. dollars mailed directly to the shareholder by Computershare Trust Company, N.A., as paying agent. Shareholders who do not wish to have distributions automatically reinvested should notify the Fund by contacting Computershare Trust Company, N.A. c/o The China Fund, Inc. at P.O. Box 43078, Providence, Rhode Island 02940-3078, by telephone at 1-800-426-5523 or via the Internet at www.computershare.com/investor.

The Plan will operate whenever a dividend or distribution is declared payable only in cash or in cash or shares of the Fund's common stock, but it will not operate with respect to a dividend or distribution declared payable only in shares of the Fund's common stock (including such a declaration that provides an option to receive cash).

Computershare Trust Company, N.A ("Computershare" or the "Plan Agent") act as Plan Agent. If the Directors of the Fund declare an income dividend or a capital gains distribution payable either in the Fund's Common Stock or in cash, non-participants in the Plan will receive cash and participants in the Plan will receive Common Stock. The shares of common stock issued by the Fund will be valued at net asset value or, if the net asset value is less than 95% of the market price on the valuation date, then shares will be valued at 95% of the market price. If the net asset value per share of the common stock on the valuation date exceeds the market price, participants will be issued shares at market price. The valuation date will be the dividend or distribution payment date or, if that date is not a trading day on the exchange on which the Fund's shares are then listed, the next preceding trading day. If the Fund should declare a dividend or capital gains distribution payable only in cash, the Plan Agent will, as purchasing agent for the participants, buy shares of common stock in the open market, on the New York Stock Exchange or elsewhere, with the cash in respect of such dividend or distribution, for the participant's accounts on, or shortly after, the payment date.

Participants in the Plan have the option of making additional payments to the Plan Agent annually, in any amount from \$100 to \$3,000 for investment in the Fund's Common Stock. The Plan Agent will use all funds received from participants (as well as any dividends and capital gains distributions received in cash) to purchase Fund shares in the open market on January 15 of each year or the next trading day if January 15th is not a trading day. Participants may make voluntary cash payments by sending a check (in U.S. dollars and drawn on a U.S. Bank) made payable to "Computershare" along with a completed transaction form which is attached to each statement a Participant receives. The Plan Agent will not accept cash, traveler's checks, money orders or third party checks. Any voluntary cash payments received more than thirty-five days prior to such date will be returned by the Plan Agent, and interest will not be paid on any such amounts. To avoid unnecessary cash accumulations, and also to allow ample time for receipt and processing by the Plan Agent, participants should send in voluntary cash payments to be received by the Plan Agent approximately two days before January 15. A participant may withdraw a voluntary cash payment by written notice, if the notice is received by the Plan Agent not less than 48

Edgar Filing: CHINA FUND INC - Form N-CSR

hours before such payment is to be invested. In the event that a Participant's check for a voluntary cash payment is returned unpaid for any reason, the Plan Agent will consider the

request for investment of such funds null and void, and shall immediately remove from the Participant's account those shares, if any, purchased upon the prior credit of such funds. The Plan Agent shall be entitled to sell shares to satisfy any uncollected amount plus any applicable fees. If the net proceeds of the sale of such shares are insufficient to satisfy the balance of such uncollected amounts, the Plan Agent shall be entitled to sell such additional shares from the Participant's account as may be necessary to satisfy the uncollected balance.

The Plan Agent will confirm in writing, each trade for a Participant's account and each share deposit or share transfer promptly after the account activity occurs. The statement will show the number of shares held, the number of shares for which dividends are being reinvested, any cash received for purchase of shares, the price per share for any purchases or sales, and any applicable fees for each transaction charged the Participant. In the event the only activity in a Participant's account is the reinvestment of dividends, this activity will be confirmed in a statement on at least a quarterly basis. If the Fund pays an annual dividend and the only activity in a Participant's account for the calendar year is the reinvestment of such dividend, the Participant will receive an annual statement. These statements are a Participant's continuing record of the cost basis of purchases and should be retained for income tax purposes.

The Plan Agent will hold shares of common stock acquired pursuant to the Plan in non-certificated form in the name of the Participant for whom such shares are being held and each Participant's proxy will include those shares of common stock held pursuant to the Plan. The Plan Agent will forward to each Participant any proxy solicitation material received by it. In the case of shareholders, such as banks, brokers or nominees, which hold shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the shareholder as representing the total amount registered in the name of such Participants and held for the account of beneficial owners who participate in the Plan. Upon a Participant's Internet, telephone or written request, the Plan Agent will deliver to her or him, without charge, a certificate or certificates representing all full shares of common stock held by the Plan Agent pursuant to the Plan for the benefit of such Participant.

Participants will not be charged a fee in connection with the reinvestment of dividends or capital gains distributions. The Plan Agent's transaction fees for the handling of the reinvestment of dividends and distributions will be paid by the Fund. However, Participants will be charged a per share fee (currently \$0.05) incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends or capital gains distributions and with purchases from voluntary cash payments made by the Participant. A \$2.50 transaction fee and a per share fee of \$0.15 will also be charged by the Plan Agent upon any request for sale. Per share fees include any brokerage commissions the Plan Agent is required to pay.

The automatic reinvestment of dividends and distributions will not relieve participants of any income tax which may be payable on such dividends and distributions. Participants will receive tax information annually for their personal records and to help them prepare their federal income tax return. For further information as to tax consequences of participation in the Plan, Participants should consult with their own tax advisors.

These terms and conditions may be amended or supplemented by the Plan Agent or

Edgar Filing: CHINA FUND INC - Form N-CSR

the Fund at any time or times but, except when necessary or appropriate to comply with applicable law or the rules or policies of the Securities and Exchange Commission or any other regulatory authority, only by mailing to the Shareholders appropriate written

notice at least 30 days prior to the effective date thereof. The amendment or supplement shall be deemed to be accepted by the Participants unless, prior to the effective date thereof, the Plan Agent receives written notice of the termination of a Participant's account under the Plan. Any such amendment may include an appointment by the Plan Agent in its place and stead of a successor Plan Agent under these terms and conditions, with full power and authority to perform all or any of the acts to be performed by the Plan Agent under these terms and conditions. Upon any such appointment of a successor Plan Agent for the purposes of receiving dividends and distributions, the Fund will be authorized to pay to such successor Plan Agent, for the Participants' accounts, all dividends and distributions payable on the shares of common stock held in the Participants' name or under the Plan for retention or application by such successor Plan Agent as provided in these terms and conditions.

Requests for copies of the Plan, which sets forth all of the terms of the Plan, and all correspondence concerning the Plan should be directed to Computershare Trust Company, N.A., the Plan Agent for The China Fund, Inc., in writing at P.O. Box 43078, Providence, Rhode Island, 02940-3078, by telephone at 1-800-426-5523 or via the Internet at www.computershare.com/investor.
