(Page 4 of 7 pages)

Item 5. Interest in Securities of the Issuer:

(a) Stephen M. Hicks has voting and investment control over securities held by Tarpon Bay Partners LLC (“Tarpon”), which is the record holder of 26 shares of Series H Convertible Preferred Stock (“Series H Preferred”) of the Company. As a result of such control of Tarpon and stock ownership, Mr. Hicks has voting power over the 461,038,961 shares of common stock into which the Series H Preferred shares are convertible on all matters upon which the Company’s holders of common stock are entitled to vote or to which stockholders are entitled to give consent. Tarpon also holds \$50,000 and \$75,000 principal amount convertible notes of the Issuer convertible into common stock at a conversion price per share, for the \$50,000 note, equal to 40% of the lowest reported closing bid price of the Issuer’s common stock for the 30 trading days, ending on the trading day immediately before the relevant conversion date, and for the \$75,000 note, 75% of the lowest closing bid price during the 20 trading days prior to the day that the holder delivers a conversion notice to the Issuer. At September 15, 2014, the \$50,000 and \$75,000 convertible notes were convertible into 178,571,429 and 187,500,000 shares of common stock, respectively.

Mr. Hicks, as manager of ASC Recap LLC (“ASC”), has voting and investment control over 25,375,000 shares of the Issuer’s common stock held by ASC, and of a convertible promissory note of the Issuer held by ASC in the principal amount of \$2,500, convertible at a conversion price of 50% of the lowest reported closing bid price of the Issuer’s common stock for the 30 trading days, ending on the trading day immediately before the relevant conversion date. At September 15, 2014, the \$2,500 note was convertible into 7,142,857 shares of common stock.

Mr. Hicks, as manager of the general partner of Southridge Partners II LP (“Southridge II”), has voting and investment control over a Common Stock Purchase Warrant held by Southridge II to purchase 500,000 shares of common stock of the Issuer, at an exercise price of \$.05 per share.

At September 16, 2014, Mr. Hicks owns beneficially 860,128,247 shares of common stock, through his voting and investment control of securities of the Issuer held by Tarpon, ASC and Southridge II.

(b) Tarpon has voting power and power to direct the disposition of 26 shares of Series H Preferred, which are convertible into an aggregate of 461,038,961 shares of common, and has the voting rights of 461,038,961 shares of common stock on all matters as to which stockholder entitled to vote or to consent. At September 16, 2014, Tarpon had the power to direct the disposition of two convertible notes of the Issuer in the principal amounts of \$50,000 and \$75,000, and convertible into 178,571,429 and 187,500,000 shares of common stock, respectively.

On June 17, 2014, the Company issued 51 shares of Series G Convertible Preferred Stock (“Series G Preferred”) to Stephen Hicks. The Certificate of Designation for the Series G Preferred provides that the holders of the 51 shares of the Series G Preferred possess in the aggregate 51% of the total voting power of all issued and outstanding voting

capital of the Issuer on specified matters as to which stockholders are entitled to vote or consent, using a formula that adjusts the voting power of the Series G Preferred to take into account the actual number of shares of common and preferred stock of the Issuer outstanding at the time of the applicable stockholder vote or consent. These voting rights apply only to matters of Company capitalization (i.e. increase in authorized common stock, stock splits, etc.), and similar matters upon which stockholders are entitled to vote or to which stockholders are entitled to give consent.

Accordingly, at September 16, 2014, Mr. Hicks had voting power over 25,375,000 shares of common stock owned directly by ASC and over 461,038,961 shares of Series H Preferred owned directly by Tarpon. In addition, at that date, Mr. Hicks held voting power representing 1,401,265,155 shares of common stock, by reason of his ownership of the issued and outstanding 51 shares of Series G Preferred.

At September 16, 2014, Mr. Hicks had the power of disposition over 860,128,247 shares of common stock, which includes 25,375,000 shares of common stock owned directly by ASC; a convertible promissory note of the Issuer held by ASC in the principal amount of \$2,500, convertible into 7,142,857 shares of common stock; 26 shares of Series H Preferred, convertible into 461,038,961 shares of common stock, owned directly by Tarpon; 500,000 shares of common stock pursuant to the exercise of a Common Stock Purchase Warrant owned directly by Southridge II; and of 178,571,429 and 187,500,000 shares of common stock issuable pursuant to conversion of two convertible notes of the Issuer held by Tarpon in the principal amounts of \$50,000 and \$75,000, respectively.

(c) As reported in Issuer's Current Report on Form 8-K (the "Form 8-K") filed on June 17, 2014, on June 13, 2014, Tarpon entered into a consulting agreement with Issuer. As a result of that agreement, the Company agreed to issue Tarpon initially seventeen (17) shares of the Company's Series H Preferred, with a stated value of \$25,000 per share and convertible into 151,785,714 shares of the Issuer's common stock. Tarpon will receive additional shares of Series H Preferred with a stated value of \$75,000 monthly, commencing July 2014 and continuing through the balance of the term of the Consulting Agreement.

(Page 5 of 7 pages)

The Series H Preferred is convertible into common stock at the option of the holder at any time. The number of shares of common stock into which each share of Series H Preferred is convertible is determined by dividing the stated value of each preferred share (\$25,000) by the average of the closing bid prices for the common stock during the calendar month immediately preceding the issuance date of the stock.

The Form 8-K also reports the issuance of 51 shares of the Series G Preferred to Stephen Hicks. The voting rights of the holder of the Series G Preferred are described in Item 5(b) above. The Series G Preferred has a par value of \$0.001 per share and no rights to dividends, but provides for liquidation rights which entitle the holder to a pro-rata share of net assets. Each Series G share is convertible, at the option of the holder, into one share of common stock.

(d) No person, other than Stephen Hicks, is known to have the right to receive or the power to direct the receipt of dividends from, or the proceeds from the sale of the 860,128,247 shares of common stock specified in the last paragraph of Item 5(b).

(e) Not applicable.

Item 6. Contracts, Arrangements, Understandings or Relationships with Respect to Securities of the Issuer:

As reported in the Form 8-K, on June 13, 2014, the Company entered into a consulting agreement (the "Consulting Agreement") with Tarpon for the period from the date of the agreement through March 31, 2015. The agreement requires Tarpon to provide general management and consulting services and advisory services to the Company, including assistance in connection with the restructuring of its outstanding debt and equity securities. The manager of Tarpon is Stephen Hicks, the President of the Company.

Pursuant to the terms of the Consulting Agreement, Tarpon will be compensated by the issuance to it by the Company of shares of Series H Preferred. Pursuant to the terms of the Consulting Agreement, Tarpon received 17 shares of Series H Preferred with a stated value of \$425,000.00 upon the execution of the Consulting Agreement, and will receive additional Series H Preferred stock with a stated value of \$75,000 monthly, commencing July 2014 and continuing through the balance of the term. The execution and delivery of the Consulting Agreement was approved by the directors of the Company. Mr. Hicks did not participate in the vote on this matter.
