Forward-Looking Statements

This Report on Economic and Financial Analysis contains forward-looking statements relating to our business which are based on management s current expectations, estimates and projections about future events and financial trends which could affect our business. Words such as: believes , anticipates , plans , expects , intends , aims , evaluates , predicts , foresees , projects , guidelines , should and similar expression identify forward-looking statements. These statements are not guarantees of future performance and involve risks and uncertainties which are difficult to predict and which could be beyond our control. Furthermore, certain forward-looking statements are based on assumptions which future events may prove to be inaccurate. Therefore, actual results may differ materially from the plans, objectives, expectations, projections and intentions expressed or implied in such forward-looking statements.

Factors which could cause actual results to differ materially include, among others, changes in regional, national and international commercial and economic conditions; inflation rates, increases in customer default and any other delays in credit operations; increases in the allowance for loan loss; loss of funding capacity; loss of clientele or revenues; our capacity to sustain and improve performance; changes in interest rates which could, among others, have an adverse effect on our margins; competition in the banking sector, in financial services, credit card services, insurance, asset management and other related sectors; government regulations and fiscal matters; disputes or adverse legal proceedings or ruling; as well as credit risks and other loan and investment activity risks.

Accordingly, the reader should not place undue reliance on these forward-looking statements. In all cases, these forward-looking statements are valid only as at the date they are made. Except as required under applicable legislation, we assume no obligation whatsoever to update these statements, whether as a result of new information, future events or any other motive.

redeemed.

	Nine-month Period			2003	
2002	2003	% Variation	2nd Qtr.	3rd Qtr.	% Variation
(448)	(554)	13.5	(183)	(191)	4.4

The variation for the period is shown below:

A) Insurance Product Selling Expenses

	Nine-month Period				
2002	2003	% Variation			
(396)	(458)	15.7			

This increase was generated for the most part by growing Auto and Basic line insurance sales, maintaining the ratio of sales to premiums consistent with the prior period.

	2003	
2nd Qtr.	3rd Qtr.	% Variation
(148)	(152)	2.7

Selling expenses remained practically stable for the quarter.

The variation for the period is shown below:

B) Pension Plan Selling Expenses

	Nine-month Period				
2002	2003	% Variation			
(92)	(96)	4.3			

The increase in this expense reflects the growth in the VGBL product sales.

2003 2nd Qtr. 3rd Qtr. % Variation (35) (39) 11.4

The increase in this expense reflects the growth in the VGBL product sales.

Expenses with Pension Plan Benefits and Redemptions

Nine-month Period				
2002	2003	% Variation		
(1,180)	(1,793)	51.9		

The variation in this account was mainly due to the increase in the payment of pension plan redemptions as a result of specific VGBL and PGBL plan features.

Personnel Expenses

Nine-month Period				
2002	2003	% Variation		
(3,029)	(3,507)	15.8		

This increase was mainly generated by: (i) salary increases, pursuant to trade-union agreements (September/02) R\$ 177 from October 2002; (ii) appropriation of the collective labor agreement of September/03 R\$ 171, including the bonus (single payment) of R\$ 98; and (iii) an increase in the number of employees, subsequent to the acquisition of BBV Banco in 2Q03 R\$ 107.

2003 2nd Qtr. 3rd Qtr. % Variation (600) (756) 26.0

The variation in this account was mainly due to the increase in the payment of pension plan redemptions as a result of specific VGBL and PGBL plan features.

	2003	
2nd Qtr.	3rd Qtr.	% Variation
(1,148)	(1,306)	13.8

This increase was generated mainly by: (i) appropriation of the collective labor agreement of September/03 R\$ 171, including the bonus (single payment) of R\$ 98; (ii) an increase in the number of employees, following the acquisition of BBV Banco in June/03 growing by R\$ 27 in 2Q03 and by R\$ 80 in 3Q03, a variation of R\$ 53.

Other Administrative Expenses

Nine-month Period					
2002	2003	% Variation			
(2,917)	(3,486)	19.5			

The increase in this expense mainly reflects expansion in the customer service network, in particular: (i) depreciation and amortization R\$ 86; (ii) third-party services R\$ 61; (iii) rents R\$ 55, mainly relating to branches which were auctioned subsequent to June 2002; (iv) leasing R\$ 55; (v) communications R\$ 43; (vi) expenses for transport R\$ 40; and (vii) consolidation of BBV Banco R\$ 100.

Tax Expenses

Nine-month Period			
2002	2003	% Variation	
(590)	(761)	29.0	

	2003	
2nd Qtr.	3rd Qtr.	% Variation
(1,153)	(1,232)	6.9

The increase for this quarter reflects increased expenses for: (i) leasing R 17; (ii) third-party services R 11; (iii) communications R 6; and (iv) consolidation of BBV Banco R 50.

	2003	
2nd Qtr.	3rd Qtr.	% Variation
(238)	(255)	7.1

The growth rate mainly reflects increases in expenses for PIS/COFINS, consistent with taxable income growth for the period.

Equity in the Earnings of Associated Companies

Nine-month Period			
2002	2003	% Variation	
32	(26)	(181.3)	

This variation was mainly generated by (i) equity in earnings determined in IRB Brasil Resseguros S.A. of R\$ 33 for the period/02, against equity in loss of R\$ (8) for the period/03; and (ii) equity in loss in U.G.B. of R\$ (4) for the period/02, against equity in loss of R\$ (25) for the period/03.

Other Operating Income

Nine-month Period			
2002	% Variation		
1,392	1,895	36.1	

The increase for the period is mainly due to reversal of the provision for exchange variation R\$ 504 in 2003.

Other Operating Expenses

Nine-month Period			
2002	2003	% Variation	
(2,943)	(1,813)	(38.4)	

The variation is mainly due to a provision for exchange variation recorded in the amount of R\$ 948 for the period/02.

Operating Income

Nine-month Period		
2002	2003	% Variation

The variation in this quarter mainly reflects the increase in the COFINS rate from 3% to 4% R\$ 12.

	2003	
2nd Qtr.	3rd Qtr.	% Variation
(28)	7	(125.0)

This variation was mainly generated by (i) equity in loss determined in IRB Brasil Resseguros S.A. of R (27) for 2Q03, against equity in earnings of R\$ 20 for 3Q03; and (ii) equity in loss in U.G.B. of R\$ (8) for 2Q03, against equity in loss of R\$ (12) for 3Q03.

	2003	
2nd Qtr.	3rd Qtr.	% Variation
837	401	(52.1)

The variation reflects mainly reversal of the provision for exchange variation R\$ 338 in 2Q03.

2003				
2nd Qtr.	3rd Qtr.	% Variation		
(559)	(598)	7.0		

The variation for the quarter is mainly due to: (i) greater financial expense R R\$ 15; and (ii) expense with cost of services rendered R\$ 26.

2003

Financial Market Indicators

Analysis of the Adjusted Financial Margin Published

Bradesco s consolidated financial margin (before PDD) totaled R\$ 9.1 billion for the period accumulated to September/03, a 7.2% increase compared to the same period in 2002 (R\$ 8.5 billion). The financial margin for this quarter (3Q03) totaled R\$ 3.2 billion, a 21% increase

compared with 2003 (R\$ 2.6 billion).

Even after the cut in the basic interest rate for the quarter (CDI/SELIC) and the fall in lending rates, Bradesco obtained an increase in financial margin as mentioned above.

Similarly, the annualized financial margin (obtained by dividing the lending and trading margin, excluding PDD, by the average balance of total assets) increased from 7.2% in 2Q03 to 8.2% for 3Q03, a 1 percentage point increase.

However, for the first nine months of 2003, the annualized financial margin dropped in comparison with the same period in 2002, from 9.3% to 8.1%.

Analysis of the Adjusted Financial Margin Adjusted

Adjusting the additional provision for market risk fluctuation recorded/reversed (exchange provision), the annualized financial margin for the quarter would be 8.2%, compared to 8.1% in 2Q03. On the other hand, for the first nine months of 2003, the annualized rate would total 8.6%, compared with 7.8% for the same period in 2002.

We highlight below the events generating both published and adjusted financial margin:

- Increase in the average balance of total assets from R\$ 149.7 billion in 2Q03 to R\$ 159.4 billion in 3Q03, a 6.5% increase (impacted by the acquisition of BBV Banco).
- Average balance of securities for 3Q03, which was up by 17.4%, as compared to 2Q03, amounting to an average balance of R\$ 45.4 billion for the quarter.
- Average balance of Bradesco s credit portfolio was slightly up by 3% compared to 2Q03. The Manufacturing and Consumer segments grew most, by 5.7% and 4.7%, respectively. In particular, Banco Postal provided important leverage to credit operations with consumer customers, following the opening of the new branches and post-office bank checking accounts.
- Performance of funds from technical reserves for insurance, private pension plans and savings bonds, which totaled an average balance for the first nine months of 2003 of R\$ 21.8 billion compared to R\$ 15.0 billion, for the same period in 2002, ie, a 45.2% growth, facilitating long-term financial margin increases.
- Comparing expenses for price-level restatement and interest on funds from technical reserves to financial income on insurance, private pension plans and savings bonds, these expenses comprised, in 2Q03, 64.5% of revenue, however, in 3Q03, this percentage dropped to 57.0%, demonstrating Bradesco s greater efficiency in managing these resources.
- We also stress that results for 3Q03 were affected positively, as a result of the decrease in the compulsory demand deposit rate in September (from 60% to 45%).

Human Resources

At September 30, 2003, Bradesco s employees, including staff at the subsidiaries, totaled 77,154. The increase compared with December 2002 was generated mainly by the acquisition of BBV Banco in June 2003, with 4,677 employees, incorporated into Bradesco s headcount for September 2003. The following table presents the growth of Bradesco s headcount.

Personnel Expenses

At September 30, 2003, Bradesco s accumulated personnel expenses totaled R\$ 3.5 billion, including expenses for remuneration, social charges, benefits, training, employee profit sharing, bonus (single payment) and others.

Benefits offered by Bradesco to its employees include health insurance and dental care, as well as a supplementary retirement pension plan.

The following pie graph presents the percentage share of each item in relation to total Bradesco personnel expenditure:

Composition of Personnel Expenses September 2003

Personnel Expenses by Business Segment September 2003

Training

Bradesco s staff training activities are tuned to its organizational strategies, to the ongoing improvement of its customer service quality and to its capacity to produce results.

Accordingly, the Training Program uses tailor-made methodologies, offering in-class or self-training courses to all its staff, designed to meet both their professional and personal development needs.

The most innovative of these training methodologies, permitting the rapid inclusion of a considerable number of employees, is the TreiNet, online training program which was used for the period from January to September 2003 by 184,808 participants for courses in Integration and Basic Banking, Financial Mathematics, Business Accounting and Balance Sheet Analysis, Financial Market and Investments, Loans and Financing, Business Support Platforms, Convenience Services, Internal Control Systems, Savings Bonds, Vida e Previdência pension plans, Cashier Training, Written Communication and Performance Management and Decision-making Support (GDAD).

Through the important partnerships entered into with Consulting Firms, Universities and Business Schools, such as USP, FGV and IBMEC, the Bank qualifies its professional staff to operate in the Organization s diverse specialist segments, such as Bradesco Empresas (Middle Market), Corporate and Private Banking, Prime and Consortium.

Particular emphasis should also be given to the specialization courses offered at post-graduate level. Four groups have been formed for courses such as: Business Process Management and Foreign Trade and International Operations and Banking Business, given at the following institutions, FIA, FIPE and FGV.

Bradesco s compliance culture was also strengthened through distance learning courses, via manuals and TreiNet programs available to all the Organization s employees.

During the period from January to September of 2003, 993 courses were given, in 12,345 groups, with 302,886 employee participations and a total of 5,983,841 hours spent in training, as well as investments to the order of R\$ 46 million.

(*) For comparison purposes, amounts for September 2003 are accumulated over the prior 12-month period.

Operating Efficiency (%)

The variation in the operating efficiency ratio is motivated by acquisitions made by the Bradesco Organization in the prior 2 years. We stress that the synergy process of these acquisitions is still in progress.

Activity-Based Costing

As part of the Organization s ongoing pursuit to optimize its results and performance, our cost management model will be supported by Activity-Based Costing (ABC) methodology which has already provided, among others, support for studies relating to the formation and negotiation of banking charges, costing information for performance and decision-making support management and for customer profitability purposes, and for the formation of a database for analyses regarding the unification and rationalization of the Bank s different units.

The Organization is currently implementing ABM (Activity-Based Management) methodology which will rapidly lead to cost prevention practices and a pro-active approach as regards the identification of opportunities. Thus, at the same time as we improve our processes, we are also able to seamlessly integrate operating performance with strategic objectives, in the pursuit to create and/or sustain competitive advantages

and value for both our customers and stockholders.

Accordingly, the future mission of the activity-based management model is to provide ongoing support for planning and controlling the Bank s business processes and to promote the permanent improvement of operating and tactical issues and to provide a firm basis for their strategic gearing.

reserves; (ii) the conso	lidation of BBV Banco	; and (iii) adjustments	redemption/maturity of	f securities during the qu	arter.

r in securities; partially mitigated by (iv) redemption/maturity of securities during the period and (v) by negative exchange variation of 17.3% in 2003.

Interbank and Interdepartmental Accounts

September		
2002	2003	% Variation
10,798	13,253	22.7

The variation mainly reflects the increase in compulsory Brazilian Central Bank deposits as a result of: (i) the increase in the additional rate from 3% to 8% for compulsory time deposits and from 5% to 10% for compulsory savings account deposits; and (ii) the increase in the volume of deposits for the period.

Credit and Leasing Operations

	September			2003	
2002	2003	% Variation	June	September	% Variation
53,599	52,776	(1.5)	53,048	52,776	(0.5)

(i) contract settlements; (ii) negative exchange variation of 17.3%, in 2003, affecting foreign currency indexed or denominated contracts; (iii) less credit demand for the period and as a result of greater credit granting selectivity; and offset by: (iv). the consolidation of BBV Banco; and (v) by the price-level restatement of the other contracts. N.B. Includes advances on foreign exchange contracts, other receivables and does not consider the allowance for loan losses, as described in Note 12 to the financial statements.

The variation in the credit portfolio for the period is mainly due to:

Allowance for Loan Losses (PDD)

	September	
2002	2003	% Variation
3,818	4,151	8.7

June	September	% Variation
15,024	13,253	(11.8)
	1 20	herated by the cut in the s from 60% in 2Q03 to

2003

2003		
June	September	% Variation
53,048	52,776	(0.5)

The variation in the credit portfolio for the quarter is mainly due to: (i) contract settlements; (ii) less credit demand for the quarter and as a result of greater credit granting selectivity; and was offset by: (iii) the price-level restatement of the other contracts. N.B. Includes advances on foreign exchange contracts, other receivables and does not consider the allowance for loan losses.

2003			
June	September	% Variation	
4,109	4,151	1.0	

The nominal increase in PDD for the period was 8.7%, however, if we disregard the additional provisions of R\$ 424 in 2002 and of R\$ 822 in 2003, the allowance would present a decrease of 1.9%. Total PDD on credit operations increased from 7.1% in 2002 to 7.9% in 2003. The total allowance on the abnormal course credit portfolio, rated from D to H, increased from 129.7% in 2002 to 142.1% in 2003.

Other Receivables and Assets

September		
2002	2003	% Variation
26,815	24,886	(7.2)

The variation is mainly due to a drop in the volume of the foreign exchange portfolio; partially offset by the consolidation of BBV Banco. N.B. This total is less (net of corresponding PDD) an amount of R\$ 620 in 2002 and R\$ 594 in 2003, allocated to the credit and leasing operations and allowance for loan losses accounts.

Permanent Assets

	September	
2002	2003	% Variation
5,670	5,069	(10.6)

The decrease for the period was mainly generated by (i) sale of branches by auction; and (ii) amortization of goodwill in subsidiary companies; partially offset by (iii) the consolidation of BBV Banco.

Deposits

	September		
2002	2003	% Variation	
55,871	58,346	4.4	

The variation for the period reflects: (i) the consolidation of BBV Banco; and (ii) the growth in time deposits abroad.

Deposits Received Under Security Repurchase Agreements

Total PDD on credit operations increased from 7.7% in 2Q03 to 7.9% in 3Q03. On the other hand, the total allowance on the abnormal course credit portfolio, rated from D to H, increased from 143.1% in 2Q03 to 142.1% in 3Q03.

	2003			
June	September	% Variation		
25,602	24,886	(2.8)		

The variation is mainly due to a drop in the volume of the foreign exchange portfolio. N.B. This total is less (net of corresponding PDD) of an amount of R\$ 607 in 2Q03 and of R\$ 594 in 3Q03, allocated to the credit and leasing operations and allowance for loan losses accounts.

2003			
June	September	% Variation	
5,173	5,069	(2.0)	

The decrease for the quarter was mainly generated by (i) sale of branches by auction; and (ii) amortization of goodwill in subsidiary companies.

2003		
June	September	% Variation
56,822	58,346	2.7

This variation mainly reflects the growth in the volume of time deposits abroad.

2002	2003	% Variation
7,230	23,069	219.1

The increase in the account balance for the period was due to greater demand for this type of funding, reflecting the interest for investments in assets with greater liquidity during the period.

Funds from Acceptance and Issuance of Securities

	September		
2002	2003	% Variation	
5,839	5,941	1.7	

This increase mainly reflects: (i) new securities issued abroad, net of payments; (ii) the consolidation of BBV Banco; partially mitigated by: (iii) negative exchange variation of 17.3% in 2003.

June	September	% Variation
18,569	23,069	24.2

The increase in this account balance for the quarter was due to greater demand for this type of funding, reflecting the interest for investments in assets with greater liquidity during the quarter.

	2003		
June	September	% Variation	
5,745	5,941	3.4	

This increase mainly reflects new securities issued abroad, in excess of settlements.

Interbank and Interdepartmental Accounts

September		
2003	% Variation	
1,474	6.3	
	2003	

This growth is mainly derived from the increase in the volume of collection and money orders, following the increase in the number of customers and in the customer service network.

Borrowings and Onlendings

	September	
2002	2003	% Variation
19,355	15,186	(21.5)

The decrease for the period is mainly due to: (i) the settlement of a number of overdue and non-renewable operations, indexed or denominated in foreign currency; and (ii) negative exchange variation of 17.3% in 2003.

Other Liabilities and Derivative Financial Instruments

	2003		
June	September	% Variation	
1,735	1,474	(15.0)	

The variation is mainly due to a decrease in the volume of collection and money orders in 3Q03.

	2003		
June	September	% Variation	
14,572	15,186	4.2	

The increase reflects mainly the price-level restatement of contracts during the quarter.

	September	
2002	2003	% Variation
28,532	28,946	1.5

This oscillation was mainly generated by: (i) issuance of subordinated debt in local currency; (ii) funds obtained from abroad, through the securitization of the future flow of receivables; (iii) the consolidation of BBV Banco; and was partially offset by (iv) less volume in the fx portfolio, and (v) negative exchange variation of 17.3% in 2003. N.B. Excluding advances on foreign exchange contracts of R\$ 5,432 and R\$ 6,168, allocated to credit operations and technical reserves of R\$ 2,174 and R\$ 3,372, allocated to a specific account in 2002 and 2003, respectively.

	2003		
June	September	% Variation	
27,462	28,946	5.4	

The oscillation for the quarter reflects mainly: (i) funds obtained from abroad, through the securitization of the future flow of receivables and was partially offset by (ii) the decrease in the volume of the fx portfolio. N.B. Excluding advances on foreign exchange contracts of R\$ 5,814 and R\$ 6,168, allocated to credit operations and technical reserves of R\$ 2,875 and R\$ 3,372, allocated to a specific account in 2Q03 and 3Q03, respectively.

Technical Reserves for Insurance, Private Pension Plans and Savings Bonds

	September	
2002	2003	% Variation
16,600	24,461	47.4

This variation was derived principally from an ongoing strengthening of reserves arising from the increased sales of private pension plans and insurance policies, in particular, VGBL products. N.B. Includes technical reserves of R\$ 2,174 and R\$ 3,372 in 2002 and 2003, respectively, classified in other liabilities .

2003			
June	September	% Variation	
22,732	24,461	7.6	

This variation was derived principally from an ongoing strengthening of reserves arising from the increased sales of private pension plans and insurance policies, in particular, VGBL products. N.B. Includes technical reserves of R\$ 2,875 and R\$ 3,372 in 2Q03 and 3Q03, respectively, classified in other liabilities .

2003

September

Minority Interest in Subsidiaries

	September	
2002	2003	% Variation
257	111	(56.8)

This decrease was mainly due to the incorporation of all the minority stockholders of Banco Mercantil.

Credit Portfolio by Economic Activity Sector - In millions of reais

	2003				
	June	%	September	%	
Public Sector	196	0.4	202	0.4	
Private Sector	52,852	99.6	52,574	99.6	
Manufacturing Commerce	17,150 8,617 605 11,248	32.4 16.3 1.1 21.0	17,615 7,711 521 11,161 826	33,4 14.6 1.0	
					Financial intermediation
Services					21.1
Agriculture, livestock raising, fishing, forest				826	1.6
development and management					
Consumers	14,406	27.2	14,740	27.9	
TOTAL	53,048	100.0	52,776	100.0	

At the end of the third quarter of 2003, 99.6% of the credit portfolio was directed to the private sector, with no significant movement compared with the prior quarter. By economic activity sector, manufacturing maintained the majority of credit volume, with a 33.4% share of total operations, particularly food and beverages, steel, metal products and mechanics. Credits directed to the service sector, including financial intermediaries, comprised 22.1%, whereas commerce and farming/livestock activities recorded a 14.6% and 1.6% portfolio share, respectively. Loans to consumers comprised 27.9% of the portfolio.

Portfolio Performance

Analyzed on an overall basis, the credit portfolio performance for the quarter continued to reflect the disappointing conditions prevailing in the domestic economic scenario during the period, reflected mainly by a slacking economy and shrinking wages. Within this context, even though the process designed to introduce a more flexible monetary policy resulted in successive interest rate cuts from June onwards, the demand for credit in the third quarter continued slack, indicating that the economic agents are postponing consumption and investment decisions, in the expectation of obtaining more favorable conditions in the future for new financing contracts.

As a result, albeit to a smaller degree compared with the movement registered in prior quarters, the total volume of credit operations at the end of September again showed a decline, totaling R 52.8 billion on a consolidated basis, corresponding to a decrease of 0.5% compared to June or 1.5% when analyzed in relation to the prior twelve months.

Credit market activity is expected to pick up in the final quarter and if the stable economic scenario is confirmed and the current trend towards interest rate cuts continues, we anticipate that both companies and individual consumers will resume the contracting of new bank credit in the forthcoming months on more consistent basis.

Composition of the Credit Portfolio by Risk Levels

The classification and quality of the credit portfolio by risk level, at September 30, 2003, remained stable in comparison with the first quarter. The operations concentrated from levels AA to C, classified by BACEN as normal course operations, totaled 90.4% of the accumulated balance. 2.8% of operations were classified at risk administration level D and will remain so until this risk is reduced or guarantees with greater liquidity are obtained. Only 6.8% were considered to be abnormal course operations, subject to partial loss after the application of customary recovery procedures. The maintenance of these rates reflects the Bank s permanent use of credit assessment and monitoring instruments.

Rating - In millions of reais

At September 30, 2003									
				Minimum R	equirement

Н	1,987	100.0	982	446	559	1,987	-	1,987	
Total at September 30, 2003	52,776	-	1,218	721	1,390	3,329	822	4,151	
Total at June 30, 2003	53,048	-	1,177	828	1,286	3,292	817	4,109	

(1) On total portfolio.

(2) For operations with installments overdue by more than 14 days.

(3) Recorded based on the customer/transaction classification.

(4) The additional provision is recorded based on management's experience and expected collection of the credit portfolio to determine the total allowance deemed sufficient to cover specific and general portfolio risks, as well as the provision calculated based on risk level ratings and the corresponding minimum provision requirements established by CMN Resolution 2,682. The additional provision per customer was classified in the above table according to the corresponding risk levels.

The volume of the allowance for loan losses for the third quarter of 2003 totaled R\$ 4,151 million, corresponding to 7.9% of total credit operations. However, of this amount, only 46.7% effectively comprises overdue operations (past due and falling due) compared to 48.8% in June and the remaining portion is recorded as a precaution only, based on the customers' internal classification or to cover specific and general portfolio risks.

Movement of the Portfolio between September 2002 and September 2003 - In millions of reais

The performance of the consolidated credit portfolio for the prior twelve months ended September 30, 2003, despite the low level of economic activity, evidences the maintenance of the quality of the assets, in particular as a result of new borrowers, corresponding to an increases of 19.3%, compared to the balance of the credit portfolio in September 2002.

Portfolio Movement between September 2002 and September 2003

	Borrowers rer from Septemb	-	Sentember 2002 and		September 2002 and September		
Level	In millions of reais	%	In millions of reais	%	In millions of reais	%	
AA to C	37,993	89.6	9,743	94.0	47,736	90.4	
D to H	4,420	10.4	620	6.0	5,040	9.6	
Total	42,413	100.0	10,363	100.0	52,776	100.0	

As a result, the quality of the credits granted to new borrowers in annual terms is proving to be satisfactory and accordingly the percentage of credit operations classified as normal course (from AA to C) maintained its customary high level, totaling 90.4% at the end of the third quarter.

Credit Portfolio Indicators

To facilitate the analysis of the Bank's credit portfolio performance, we present below, on a consolidated basis, a comparative summary of the main parameters, based on the rules established by BACEN for recording provisions.

	In millions of reais				
	2002	2003			
Items	September	June	September		
Total Credit Operations	53,599	53,048	52,776		
- Consumer	13,974	14,406	14,740		
- Corporate	39,625	38,642	38,036		
Existing Allowance	3,818	4,109	4,151		
- Specific	2,125	2,006	1,939		
- Generic	1,269	1,286	1,390		
- Additional	424	817	822		
Existing Allowance/Specific Allowance (%)	179.7	204.9	214.1		
Existing Allowance/Total Credit Operations (%)	7.1	7.7	7.9		

Normal Course Operations (from AA to C)/Total Credit Operations (%)	90.7	90.2	90.4
Operations under risk management (D)/Total Credit Operations (%)	2.5	3.4	2.8
Abnormal Course Operations (from E to H)/Total Credit Operations (%)	6.8	6.4	6.8
Credit Operations (D)	1,334	1,841	1,460
Existing Allowance (D)	261	520	413
Allowance/Credit Operations (D) (%)	19.6	28.2	28.3
Credit Operations (from E to H)	3,642	3,375	3,580
Existing Provision (from E to H)	3,130	2,939	3,027
Allowance/Credit Operations (from E to H) (%)	85.9	87.1	84.6

The figures at the end of September 2003 continue to confirm the low credit risk of the Bradesco portfolio, as a result of its comfortable coverage levels and moreover that the Organization's credit granting strategy is being applied on a secure, selective and consistent basis.

• Asset Management

Bradesco rated Top Fund Manager for the second year running in 2003

Bradesco was rated Best Fund Manager in Brazil in 2003 for the second time in a row by Exame magazine.

The Exame magazine s Best Investment Fund Guide is one of the most complete and well-respected analyses in this sector, published in partnership with the Finance Study Center at the São Paulo Business Administration School of Fundação Getulio Vargas. The study covered the 12-month period from July 2002 to June 2003.

We present below the categories in which Bradesco s performance was highlighted:

Overall Ranking Best Fund Manager 1st place in Retail Funds 1st place in Leveraged Funds 2nd place in Share Funds 19 5-star rated Funds

According to Standard & Poor s Bradesco Funds are the Best

Bradesco Investment Funds were highlighted in the Valor Investe magazine supplement of the Valor Econômico newspaper, published on September 18, 2003. Three Bradesco funds received the quality Select Fund seal given by S&P (Standard & Poor s), the well-known credit rating agency. According to this supplement, these Funds present a rare combination of performance, profitability, management transparency and trustworthy asset management.

A number of Bradesco funds also comprise S&P s Star Ranking which rates the best investment funds, based on strict international classification criteria.

The magazine also stressed the fact that Bradesco has won important awards in asset management and is Brazil s largest private fund manager.

Bradesco leads the Best Share Fund ranking published by Investidor Individual magazine

Bradesco was ranked leader by Investidor Individual magazine (July/August 2003) among Brazil s Best Share Funds.

This ranking, prepared by the Risk Office, shows the most successful variable income share and multimarket funds for the first five months of 2003.

BRAM-Bradesco Asset Management, the company responsible for managing Bradesco s Investment Funds was ranked 1st place with 19 funds selected. The 2nd ranked company had 8 funds selected.

• Risk Management

Activities and Structure

At Bradesco, risk management is seen as a competitive advantage, adding value to the Bradesco name and at the same time supporting the diverse business areas, facilitating a stable environment and ensuring that resources yield maximum benefits and that capital is allocated to the benefit of stockholders and society as a whole.

Bradesco adopts an ongoing strategy designed to enhance its risk management activities, in the pursuit to keep abreast of the best market practices adopted worldwide. These activities have become increasingly important not only as a result of the global economy, but also on account of the complex nature of the products and services offered to the community.

The independence of the risk management area is essential for achieving the successful management of market, liquidity, credit and operating risks. This activity together with others including money-laundering prevention, internal controls and compliance are managed by the Risk Management and Compliance Department, under the direct control of the Statutory Department Director, who in turn is subordinated to an Executive Director, reporting directly to the Institution s President:

This organizational structure is designed not only to guarantee area independence but also to place greater focus on these important value-added activities, confirming the Organization s commitment to the implementation of best corporate governance practices, using every available resource, whether human, technical or financial, to ensure that this area meets the conditions required to manage risk across the Group. In

particular, because Bradesco is now extending its risk analysis strategy to encompass not only its banking business but also its associated companies, including Bradesco Vida e Previdência (private pensions), Bradesco Saúde (healthcare insurance), Bradesco Seguros (insurance), BRAM (asset management) and Bradesco Capitalização (savings bonds) as regards actuarial and market risks, consolidating its risk management culture on an Organization-wide basis.

The Risk Management and Compliance Department is also responsible for coordinating compliance with the regulations determined by the Brazilian Central Bank, particularly those relating to the New Capital Accord (Basel II) to be published in the near future by the Basel Committee.

Within this context, Bradesco is proud to inform that it was rated Best Bank for Risk Management in the Treasury area (Latin America 2003), by Global Finance magazine.

Credit Risk Management

As part of its credit risk management enhancement process(1), Bradesco is working uninterruptedly to improve the procedures for gathering and controlling portfolio information, develop new loss calculation models, enhance and prepare rating inventories used in the various sectors in which the Bank operates, oversee credit analysis, granting and settlement processes, monitor credit concentration and to define the dividing line between operating risks and credit risks.

As part of this ongoing enhancement process, during the third quarter of 2003 (3Q03), important efforts were made to prepare the Bank for the introduction of more advanced risk management techniques, based on the recommendations of the New Capital Accord to be introduced by the Basel Committee, among which we highlight the following:

- Structuring of the expected loss calculation system in line with Basel II requirements.
- Identification of the reporting process changes required to improve decision making and credit portfolio management.
- Redevelopment and specification of the management information structure. (MIS to Gestão).
- Mapping, evaluation and identification of credit risk management capacity gaps, as regards Basel II requirements, recommending roles and responsibilities, professional qualification, review of the organizational structure and IT demands.
- Credit risk is the risk arising from the possibility of loss due to the non-receipt of amounts contracted with counterparties and related creditors. Credit risk management requires strict discipline and control over the analyses of the transactions carried out, safeguarding, at the same time, process integrity and independence.

Credit Policy

Designed to ensure maximum security, quality and liquidity in the investment of assets, minimizing risks inherent to all types of credit operation, the Organization's Credit Policy also seeks to offer agile and profitable business, applying appropriate methodology for each of the Bank s business segments, set forth in the following topic, as well as directing the establishment of operating limits and the granting of credit.

Credit is granted based on a highly automated and efficient approvals system, supported by assessment policies which are geared by constantly improving technical parameters designed to ensure proper support for credit decisions.

As part of this system, the Branches operate within varying limits depending on the size and type of guarantee offered, while specialized credit scoring systems maximize the speed and security of the approvals process, based on strict protection standards.

The credit committees located at the Bank's headquarters also play an important role, centralizing, analyzing and authorizing credit operations at amounts above the branch limits and managing this core strategic activity.

Operations are diversified, non-selective and focused on consumer and corporate customers with sound payment capacity and proven creditworthiness. Care is taken to ensure that the underlying guarantees are sufficient to cover the risks assumed, considering the purpose and terms of the credit granted.

Credit Granting

Bradesco operates on a segmented service basis, seeking to match its different products and services to the different profiles and size of its target public. In line with a world market trend, Bradesco s structure permits the grouping together of customers with similar profiles facilitating superior quality customer service, extending business opportunities with a greater focus on relationship actions.

Major corporations with annual billings in excess of R\$ 180 million are served since June 1999 by Bradesco Corporate Banking which provides a range of sophisticated financial solutions, enhancing its service structure through the use of the Asian and Euro Desks, focused on prospecting new business in these regions.

Middle market companies, with annual billings from R\$ 15 million to R\$ 180 million, are served by Bradesco Empresas which came into operation in January 2002 designed to offer a differentiated service in exclusive VIP areas, tailored to the specific needs of this type of customer, who in general prefer the use of alternative channels such as the telephone, ATMs and the Internet, instruments in which Bradesco technology is outstanding.

In the consumer customer area, the first step in terms of customer segmentation was taken via Bradesco Private Banking, focused on the personalized management of high-income customer accounts with funds available for investment in excess of R\$ 1 million, which commenced operations in November 2000.

More recently in May 2003, following the incorporation of Banco Mercantil de São Paulo, the Bradesco Prime service was launched targeting consumer customers with monthly incomes of more than R\$ 4 thousand or investments in excess of R\$ 50 thousand. Through exclusive branches, or specifically reserved areas in traditional branches, this public receives a high standard of personalized customer service with a wide range of products and services, including diverse credit lines, insurance policies and private pension plans.

Other customers are classified on a retail basis as companies or consumers. Bradesco s activities in this segment were strengthened through the partnership entered into last year with the Brazilian Postal and Telegraph Company Correios for the purpose of creating Banco Postal, the post-office bank. Dedicated to extending banking service access to low-income bracket consumers, particularly those who live in the country s remote interior regions, Bradesco is now present in all of Brazil s states.

Methodology used for Credit Portfolio classification

In addition to supporting the establishment of minimum parameters for granting credit and managing risk, the credit risk scoring system established by the Brazilian Central Bank also facilitates the definition of differentiated credit policies based on the customer's specific, characteristics and size, providing a basis for the correct pricing of operations and for establishing the most appropriate guarantees for each situation.

In accordance with internal policy, Bradesco customer risk ratings are established on a corporate basis and are permanently reviewed to maintain the quality of the credit portfolio. These ratings are segmented as follows:

Rating	Bradesco	% Provision	Concept
AA	Excellent	0.0	Premium company/group, with size, tradition and market leadership, with excellent reputation and economic and financial position.
А	Very Good	0.5	Company/group with size, sound economic and financial position, acting ir markets with good prospects and/or potential for expansion.
В	Good	1.0	Company/group which, regardless of size, has a good economic and financial position.

Classification Corporate

С	Acceptable	3.0	Company/group with a satisfactory economic and financial situation but with performance subject to economic scenario variations.
D	Fair	10.0	Company/group with economic and financial position in decline or unsatisfactory accounting information, under risk management.
E	Deficient	30.0	
F	Bad	50.0	Abnormal course credit operations, classified based on expected loss as per percentage shown.
G	Critical	70.0	
Н	Uncollectible	100.0	

In the case of consumer customers, the above risk ratings are mainly defined based on their registered reference variables which include: income, equity, restrictions and indebtedness, as well as performance and past relationship with the Bank.

Market Risk Management

Market risk is related to the possibility of the loss of income from fluctuating rates caused by mismatched maturities, currencies and indices of the Institution's asset and liability portfolios. This risk is monitored on a strict basis by the financial market to avoid losses for institutions.

At Bradesco, market risks are managed through methodologies and models which are consistent with local and international market realities, ensuring that the Organization's strategic decisions are implemented with speed and a high level of reliability.

The Organization adopts a conservative policy regarding market risk exposure; VaR (Value at Risk) limits are defined by Senior Management, and compliance is monitored daily by an area which is independent from portfolio management. The methodology used to determine VaR has a reliability level of 97.5%. The volatilities and correlations used by the models are calculated on statistical bases, whereas future prospects are calculated based on economic studies. The methodology applied and current statistical models are validated daily using backtesting techniques.

We present below the VaR of the Own Portfolio positions (Treasury):

Risk Factors	In thousands of reais							
	2002			2003				
	June	September	December	March	June	September		
Prefixed	4,881	7,108	5,407	6,293	6,541	12,658		
Exchange coupon	48,259	23,041	33,142	9,662	14,717	19,000		
Foreign currency	8,422	1,988	2,876	1,807	439	184		
Floating rate	14	75	11	105	10	13		
Correlated effect	(15,809)	(8,008)	(4,014)	(3,803)	(3,243)	(3,395)		
VaR	45,767	24,204	37,422	14,064	18,464	28,460		

In addition, a daily Gap Analysis is performed to measure the effect of the movement in the internal interest rate and foreign exchange coupon curves (interest spread paid above the foreign exchange variation) on the portfolio.

Complementing the market risk monitoring, control and management structure and in accordance with Central Bank regulations, a daily verification is made of the values at risk for the fixed and foreign exchange positions of the Organization s entire portfolio and of minimum capital requirements.

Operating Risk Management

Operating risks are those inherent to activities which provide support for transactions in which the Organization participates and may occur as a result of the interruption of business, system failures, errors, omission, fraud or external events impacting the results of the Institution and of its customers.

Following recent guidelines issued by the Basel Committee, the Organization is working to adapt its processes to comply with possible future Central Bank demands, complementing its present capital management policies, based on an analysis of operating losses.

Operating risk is managed at Bradesco based on the dissemination of its culture, disclosure of its policies and development of own methodologies, models and tools designed to permit, among other factors, decreases in the cost of regulatory capital to be subscribed and at the same time increases in operating efficiency.

Bradesco, through its Operating Risk Management area, prepared a plan designed to achieve full compliance with the 10 principles of good operating-risk-management practice determined by the Basel Committee.

In line with the definition and development of the methodology and accounting and management criteria used for managing operating risk, the area is now implementing a specific Internal Management System for streamlining this information, designed to manage, enhance and increase the knowledge used to administrate operating loss events, facilitating an in-depth assessment, based on either management or accounting controls.

The cutting-edge nature of this internal operating risk management process can be regarded as a benchmark of Bradesco s important status within Brazil s financial scenario, increasing its competitive edge as a result of greater operating efficiency and adding stockholder value, as well as extending its relationship of trust with customers, the market and regulatory bodies.

Liquidity Risk Management

Liquidity risk management is designed to control the different mismatched liquidation terms of the Institution's rights and obligations, as well as the liquidity of the financial instruments used to manage the financial positions.

Knowledge and monitoring of this risk are critical since they enable the Organization to settle transactions on a timely and secure basis.

At Bradesco, liquidity risk management involves a series of controls, mainly, the establishment of technical limits and an ongoing assessment of the positions assumed and financial instruments used.

Capital Risk Management

The Organization's capital is managed to optimize the risk-return ratio, minimizing losses through the implementation of well-defined business strategies and maximizing efficiency in the combination of factors which impact the Capital Adequacy Ratio (Basel).

Other (results and acquisition of treasury stock, JCP, minority interest and risks)	2.46	2.45
Ratio in September 2003 Internal Controls	18.37	15.91

Complementing its operating risk control and management activities, the Organization has developed a number of systems, policies and internal controls over the years to mitigate possible potential losses generated by its exposure to this type of risk.

Aware of the importance of these controls, Bradesco has developed and implemented certain tools designed to optimize these processes and procedures, among which we highlight the following:

- Implementation of an internal controls system (Compliance), based on the pillars defined by Basel and the methodology of the Committee of Sponsoring Organizations (COSO), mainly as regards components in the following areas: control environment, risk assessment, control activities, information, communications and monitoring, ensuring that activities, policies and normative instructions are in constant compliance with legal and regulatory standards.
- Implementation of a Brazilian Payments System (SPB) risk management process for the specific purpose of monitoring the flow of messages transmitted between the Organization s banks and the external entities such as the Brazilian Central Bank, Special Clearance and Custody System (SELIC), clearing houses and other financial institutions. This monitoring process is based on information system tools and intense staff training activities to facilitate the identification and rectification of events in environments and systems and also to ensure that online cash transfers (TEDs) processed via SPB are properly validated. Complementing these monitoring activities, the Bank also adopts a Systems Contingency Plan for SPB to cover the main departments handling critical transactions, addressing pre-established scenarios and actions and reducing the possibility of messages not being correctly processed.
- Ongoing improvement of technology tools and employee training, focused on the process used to monitor the financial activity of customers and designed to prevent money laundering and utilization of the Organization for processing illegal transactions.
- Dissemination of processes and procedures to guarantee information security, based on Corporate Information Security Policy and Standards, the guidelines of which establish premises for protecting the confidentiality, integrity and availability of information.

Banco Postal

Bradesco offers its products and services under the name of Banco Postal in partnership with Empresa Brasileira de Correios e Telégrafos Correios (Brazil s Postal Service Company).

Through the Correios post-office branches installed nationwide, Bradesco provides online real-time transactions using a latest-generation technology model.

The Correios personnel are trained by Bradesco to provide the customary top-quality services typical of both institutions.

Through Banco Postal, Bradesco is encouraging the socio-economic development of low-income bracket consumers, contributing towards the positive transformations currently taking place in Brazil. This post-office bank provides access to a wide range of products and services, which include, among others, the opening of checking and savings accounts, granting of loans, issue of check books, receipt of utility bill payments and others, all of which distinguish Banco Postal from among the market s other banking correspondents. More products are soon to be introduced, designed to provide customers with an increasing range of options for carrying out their banking business at locations which are closer to their homes.

We stress that out of a total of 1,627 municipalities with no previous access to banking services, some 1,000 can now take advantage of the services offered by Banco Postal, providing benefits to a population of more than 9.6 million people.

The quarter was marked by the start-up, on September 26, of operations in post-office bank branch #3,000, on the island of Fernando de Noronha. On this occasion, account number 1,000,000 was opened and the first 2 loans, under the new microcredit line, were granted, structured in conformity with the federal government s plan to increase Brazilian economic activity through the granting of credit to low-income consumers.

At the same time, Bradesco is forging other important partnerships in the Correspondent Banking segment with major retailing networks, including supermarket and drugstore chains, increasing the number of outlets offering its products and services.

• Bradesco Day and Night Customer Service Channels

As well as the traditional Customer Service Network (Branches), Bradesco customers are able to consult their banking transactions, carry out financial transactions and purchase products and services deployed via state-of-the-art technology through the following alternative channels: Self-service (Auto-Atendimento), Easy Phone (Fone Fácil) and Internet Banking.

Bradesco Day and Night Self-Service ATM Network

Brazil s largest Private-Sector Self-service Network, with 22,462 ATMs (Bradesco - 21,585 and BCN - 877).

Located in bank branches and in all areas of important economic agglomeration: Shopping Malls, Hypermarkets, Supermarkets, Airports, Service Stations, Bus Terminals etc.

Bradesco Self-Service Network Distribution Monthly Productivity September 2003

Bradesco Day and Night Easy Phone Service

Nationwide 24-hour access, 7 days a week, with Electronic Voice Response (EVR) technology and personalized calls in 69 regions.

Personalized calls are routed via Bradesco s Data and Voice Network to call centers in São Paulo Santa Cecília and Osasco Headquarters.

The Easy Phone service is widely used as a result of the large number of fixed and mobile telephones now in use throughout Brazil.

Bradesco Day and Night Internet Banking

The Bradesco Portal contains links to 22 related websites and to the Banco BCN and Finasa bank websites. Bradesco Internet Banking (www.bradesco.com.br) online since May 31, 1996 is a worldwide benchmark for Home Banking services.

Since it was first launched, Bradesco Internet Banking has focused on innovating and deploying the largest number of online services possible for its customers.

At present, Bradesco Internet Banking offers its customers more than 210 different services, which can be accessed 24 hours a day, seven days a week anywhere on earth.

Internet Banking

Thousand transactions

Bradesco Internet Banking

Bradesco online services were created to facilitate the day-to-day life of its customers, offering access to the transactions available through the branch network from any point on the globe.

The internet is an important and profitable customer relationship channel, generating benefits for both customers and stockholders.

ShopInvest Bradesco

In March 1999, Bradesco launched ShopInvest (www.shopinvest.com.br), the first Brazilian retail bank broker to operate in BOVESPA's online Home Broker.

Through ShopInvest, investors can access a variety of different information and trade shares in BOVESPA, even if they are not Bradesco account holders. All of these services are provided free-of-charge and comply with the same rules applicable to bricks-and-mortar trading.

ShopInvest stands out for its wide range of investment options, available in nine Investment Rooms: Shares; Savings Bonds; CDB; Funds; Real Estate; BM&F; Savings Accounts; Vida e Previdência (Private Pension Plans) and Insurance.

ShopCredit

In May 2001, Bradesco launched ShopCredit (www.shopcredit.com.br), the Bank s Financing and Loan website, which offers a complete portfolio of Bradesco's credit lines. The products are grouped together for purchase by consumer or corporate customers with full details on each option and visitors can use a simulator to calculate amounts and terms in the Personal Credit, Consumer Financing (CDC), Leasing, Housing Loans and Finame (Moderfrota, Prefixado and Proleite) modes. ShopCredit visitors can also request instant personal credit, quickly and securely.

Bradesco Net Empresa

On September 18, 2001, Bradesco launched its new corporate banking website.

With Bradesco Net Empresa, companies gained a new ally for optimizing the financial management of their businesses. Through this website, companies can operate bank accounts, make payments and collections and perform other transactions online without having to visit a bricks-and-mortar branch.

B2C (Business to Consumer)

Bradesco Electronic Trade was created in 1998 and soon became a successful hallmark. In the wake of this success, ShopFácil was launched in 2000, offering, among other services, Meios de Pagamento Eletrônico Bradesco (Bradesco Online Payment Methods) the safest, most practical and economic way to shop online.

Bradesco is currently the only Bank in the world to date to receive ISO 9001:2000 accreditation for its Online Commercial Payment Methods.

Bradesco Electronic Payment Methods comprise: Electronic Wallet (Bradesco debit cards, PoupCard and Bradesco Visa and MasterCard Credit Cards), Pagamento Fácil (Easy Payment), Boleto Bancário (Online Dockets), Interaccount Transfers and Bradesco Online Credit.

B2B (Business to Business)

In the B2B area, emphasis should be given to the business solutions offered by Bradesco comprising the following: a security and limits module, B2B payment methods, management tools (buyer, seller and bank) and a financial reconciliation module for the seller.

At present, the Bank offers the following B2B Payment Methods:

- Online Docket;
- Electronic Wallet (Credit Cards); and
- Financing lines.

Third-quarter highlights for 2003:

- Launching of the Bradesco Empresas website.
- Launching of the Bradesco Custody website.
- Online transmission of Bradesco Consortium Member Meetings.

Services	Position in 2003 up to September 30
I Bradesco Infernet Banking	5.6 million registered users.233.7 million transactions carried out (a 19.9% increase compared to the same period in 2002).

Credit	1,945.3	2,139.9	5,899.8	2,330.1	2,483.4	7,164.4		
Debit	857.0	981.7	2,633.9	1,368.6	1,522.2	4,190.2		
Number of transactions	54.9	60.9	167.0	69.9	76.9	215.1		
Credit	32.3	35.2	97.9	35.9	38.7	111.1		
Debit Credit Cards	22.6	25.7	69.1	34.0	38.2	104.0		

The number of Bradesco credit cards increased by 19.3% in the third quarter compared with the same period in 2002, while the Visa and Mastercard market grew by some 7.9%. This growth rate expanded our market share from 14.4% in 2002 to 16.1% in 2003.

Third-quarter billings totaled R\$ 2.5 billion, a growth rate of 16.1% as compared to the same period in 2002, with a 9.9% increase in the number of transactions.

These results include the addition of 64.8 thousand credit cards to Bradesco s card base, following the incorporation of BBV Banco.

Debit Cards (Electron)

The number of debit cards increased by 17.0% in the third quarter of 2003, compared to the same period in 2002, strengthened by the acquisition of BBV Banco, with some 360 thousand cards, confirming Bradesco s leadership of the Visa Electron market.

In terms of billings, this increase totaled 55.1%. These two indicators demonstrate clearly that Brazilians are changing their payment habits, substituting checks and cash for the use of debit cards. The commercial establishments are our allies in this market, since debit cards are preferred for their guaranteed liquidity, security and easy operation.

Acquiring Market

The network of commercial establishments in Brazil, accredited by the Visa system, is administered by Companhia Brasileira de Meios de Pagamentos - Visanet, in which Bradesco has a direct capital holding of 39.7%. From January to September 2003, Visanet processed some R\$ 38.6 billion in transactions, including both credit and debit card billings, a 34.0% increase over the same period in 2002. At present, Visanet has 699 thousand associated establishments nationwide. The Visa network is preferred by customers precisely because of the card s wide market acceptance.

• Bradesco Corporate Banking

Since its creation in 1999, Bradesco Corporate Banking has focused on enhancing its specialized structures designed to provide the best possible service to 1,159 Economic Groups comprising its target market, segmented as follows:

Corporate - The structure devised to conduct the Bank s relationship with Brazil s major corporations is growing and improving year by year. Every effort is made to ensure that the related-area professionals have a thorough working knowledge of the corresponding economic sectors and companies and as a result are able to offer complete solutions and genuine added value, developing solutions in the areas of cash management, private pension plans, asset management, overseas trade and risk management.

Agribusiness - A team of specialists formed to attend companies in this important economic segment, providing product and service solutions in line with their specific needs.

Asian Desk - A partnership entered into with the UFJ Bank for the purpose of developing financial solutions, in the role of economic and financial advisor and main banker for companies interested in the commercial and financial flows between Brazil/Japan and Brazil/Asia.

Euro Desk - Following the conclusion of the acquisition of BBV Banco, the Euro Desk is now under implementation. Focused on the management of customers of Spanish origin and the development of financial solutions for Bradesco Corporate companies, fostering business synergies with BBVA in Europe, the U.S. and Latin America.

• Bradesco Empresas (middle market)

Bradesco s middle market segment, Bradesco Empresas, was created in April 2002, designed to offer quality corporate customer service for companies all over Brazil.

This segment targets middle market companies with annual billings from R\$ 15 million to R\$ 180 million.

The Bank s traditional Branch customers who are compatible with this profile are invited to join the Bradesco Empresas segment.

The Bradesco Empresas service offers exclusively reserved Branches for its corporate customers in this segment, located in strategic areas.

By September 2003, this segment had 44 service outlets in São Paulo, Rio de Janeiro, Minas Gerais, Paraná and Rio Grande do Sul with 6,746 customers from the different production chain sectors.

The personalized service offered by Bradesco Empresas prompted significant investments in this area, including specific training for our Relationship Managers and the restructuring of the IT structure, designed to provide added value and increase the Bank s share of this segment.

Since they are responsible for a maximum portfolio of 25 to 30 organizations, each Relationship Manager is able to focus on increasing business in the following areas: Loans, Investments, Foreign Trade, Derivatives, Cash Management and Structured Transactions.

The recent mergers of other financial institutions by Bradesco have had a positive effect, increasing the Bank s product portfolio and market share.

Up to the end of December 2003, there will be a total of 66 Middle Market Branches.

• Bradesco Private Banking

Bradesco Private Banking, through the deployment of its exclusive line of ISO 9001:2000 accredited products and services, provides expert advice to its customers through qualified professionals, on the best local and international capital market investment options designed to increase their wealth, on a one-to-one basis with the discretion, privacy and security required by this customer service.

• Bradesco Prime

As part of the segmentation strategy implemented by the Organization in 1999, Bradesco Prime commenced activities on May 19, 2003 and now boasts a Network of 142 Branches distributed nationwide and which is expected to increase to 175 by February 2004.

Bradesco Prime s target public comprises consumer customers with a monthly income of more than R 4,000.00 or with investments in excess of R 50,000.00.

Bradesco Prime coordinates the Bank s commercial relationship with these segment customers, providing VIP facilities and personalized attendance by Relationship Managers, as well as bespoke products and services.

The Bradesco Prime Relationship Manager is a high-caliber professional capable of catering to all the financial needs of his/her customers. Since customer portfolios are kept small, managers are able to dedicate special attention to each one.

Bradesco Prime Customers have access to the extensive Bradesco customer service network, comprising its nationwide branches and self-service network.

• International Area

Structure

This area operates with support of its 17 specialized units operating in Brazil (Bradesco 12 and BCN - 5), 1 Branch in New York (Bradesco), 4 Branches in Grand Cayman (Bradesco, BCN, Boavista and Mercantil), 2 Branches in Nassau (BBV Banco and Boavista), 1 subsidiary in Buenos Aires, Banco Bradesco Argentina S.A., 1 subsidiary in Nassau, Boavista Banking Limited, 1 subsidiary in Luxembourg, Banco Bradesco Luxembourg S.A., 1 subsidiary in Tokyo, Bradesco Services Co., Ltd. and 1 subsidiary in Grand Cayman, Cidade Capital Markets Ltd.

In the International Area, emphasis should be given to the important support offered by the Bradesco Organization designed to foster Brazilian foreign trade, with a balance at the end of the third quarter of some US\$ 6.7 billion in export and import financing, as well as for onlending to local customers.

Foreign trading for exports through August 2003 totaled US\$ 9.4 billion, a growth rate of 11.2% compared to the same period in 2002. We also highlight the 40.8% increase recorded in foreign exchange trading for imports, which totaled US\$ 3.8 billion as compared to US\$ 2.7 billion for the period from January to August 2002.

Volume of Foreign Currency Trade -In billions of U.S. dollars Export Market

Banco Bradesco Argentina Banco Bradesco Luxembourg S.A.	20.6 246.5	10

The core objective of the foreign branches and subsidiaries is to obtain funds in the international market for onlending to customers, principally through the financing of Brazilian foreign trade.

The main activity of the subsidiary Banco Bradesco Luxembourg S.A. is to provide additional services to private banking customers and to increase foreign trade operations.

In the first nine months of 2003, as well as short-term funds obtained from correspondent banks for foreign trade financing, loans of US\$ 2.064 billion on a consolidated basis were raised through public and private placements in the international capital market, earmarked for foreign trade financing and working capital loans.

This amount corresponds to a 254% increase over the same period in 2002, when the Organization obtained some US\$ 583 million.

In the same context, emphasis should be given to the conclusion of the Payment Order Securitization Program, with funds obtained, on August 20, 2003, in two tranches for the total amount of US\$ 400 million, under a 7-year term, with principal and interest paid quarterly and a 2-year grace period for amortization of the principal. As well as this program, Bradesco Grand Cayman obtained on July 10, 2003, an amount of US\$ 270 million relating to the transaction concerning the Securitization of Visanet Credit Card Receivables in the amount of US\$ 500 million, with an 8-year term.

Mergers, Acquisitions, Project Finance, Corporate Reorganization and Privatizations

Confirming its dynamic approach in the prospecting of new business, Bradesco ended the first half of 2003 with 7 operations in the Mergers and Acquisitions segment.

Bradesco s presence is also notable in Project Finance operations, acting as a financial advisor to major corporations operating in electric power generation and co-related projects.

• Structured Transactions

Launched on June 23, 2003, this service area is part of the Organization s strategy to strengthen its positions, considering the highly competitive scenario produced by the policies of recent governments in their pursuit for economic stability.

Designed principally to attend customers from Bradesco Corporate Banking and Bradesco Empresas, this service is focused on developing personalized solutions for customer needs in the following areas: project financing, securitization of assets, loan syndication, etc. which are known in the financial market as structured transactions.

The third quarter was mainly dedicated to area implementation, in particular, structural issues, the selection and transfer of staff from other areas and associated companies to form the Department s basis, as well as the definition of processes relating to the approval, contracting and processing of transactions.

At the same time, efforts were made to disseminate the activities of this new area across the Bradesco Empresas and Corporate Banking Branches with the approval and recognition of the first structured transactions.

• Collection and Tax and Utility Collections

Collection

Bradesco Collection strengthens its position yearly as an authentic partner in the management of corporate business. Combining high standards of efficiency with latest-generation IT resources, Bradesco collection services are an efficient and secure tool for use by a universe of corporate entities.

Bradesco s computer-recorded Collection services, transmitting and receiving data on a direct computer-to-computer basis, rely on one of the most advanced banking technology systems available, offering important productivity gains to companies by permitting the streamlining of services. The available services include electronic collection (computer-recorded) permitting online information consultation by user companies. This system processes approximately 98% of all documents recorded in the Bradesco collection portfolio.

Pag-For Bradesco facilitates the management of Trade Accounts Payable for more than 42 thousand companies.

Tax and Utility Collections

Developed based on high standards of efficiency and quality, Bradesco s tax and utility collections serve a dual purpose. On the one hand, they seek to provide customer satisfaction with appropriate and innovative solutions for the settlement of taxes, duties and contributions. On the other, they effectively interact with the different Government Departments in the federal, state and municipal spheres and with public utility concessionaires.

Bradesco s tax and utility collection services are noted for the speed and security of the data transmitted and amounts collected.

Banco BCN S.A. is recognized in the market as the RELATIONSHIP BANK for its highly segmented customer service, which provides products and services developed on a personalized basis in accordance with the customers specific needs.

Customer Service

The customer service network comprised 219 traditional Branches distributed nationwide; 2 BCN Digital Branches (in São Paulo and Rio de Janeiro) offering an advanced concept in phonebank services, through which products and services are sold by management teams and delivered by courier service with no need for customers to leave their homes or the office; 1 Branch abroad in Grand Cayman and a further 99 Banking Service Posts and 96 Online Service Outlets installed on corporate customer premises. As well as the branches and service post and outlets, customers had access to 877 BCN ATMs and 2,159 ATMs comprising the 24-Hour Bank Network, as well as 11,007 Bradesco Day and Night ATMs, which can be used by BCN customers and to the services offered by BCN Office Banking and BCNNet Internet Banking. Another phone service, the BCN Live Line, is also available to branch customers throughout Brazil.

At the end of September, BCN had 869 thousand customers, 730 thousand account holders and 139 thousand non-account holders and had issued a total of 230 thousand credit cards.

Banco Finasa S.A., a wholly owned subsidiary of BCN, had 1 Branch in Brazil and operates through Finasa Promotora de Vendas Ltda. The Promotora, responsible for securing customers and receiving and forwarding consumer financing proposals, had 53 Branches at the end of the quarter and was present in 12,777 new and used vehicle dealerships and 804 stores selling furniture and home decor, IT related equipment and software, tourism and finishing materials, among others. Customers served by Banco Finasa S.A. totaled 862 thousand.

Corporate Reorganization

In the pursuit for a greater degree of competitiveness and productivity and the consequent rationalization and reduction of administrative and legal costs, on September 30, based on the balance sheets at June 30, 2003, Bancocidade Distribuidora de Títulos e Valores Mobiliários Ltda. and BCN S.A. Distribuidora de Títulos e Valores Mobiliários, subsidiaries of Banco BCN S.A. were incorporated into Finasa Distribuidora de Títulos e Valores Mobiliários S.A., and as a result BCN now holds 80.0% of this company s capital. On the same date, also based on the balances sheets at June 30, BCN Corretora de Títulos e Valores Mobiliários S.A., formerly CLSA-BCN Corretora de Títulos e Valores Mobiliários S.A., incorporated Bancocidade Corretora de Valores Mobiliários e de Câmbio Ltda.

Social Actions

The Bank continues its important support of sports activities through the BCN Sports program, which focuses on the formation, maintenance and dissemination of women s basketball and volleyball at 81 training centers, 49 for volleyball and 32 for basketball. At these centers, some 4,300 young women athletes from 10 to 15 years of age have access to courts, uniforms, sports material, instructors and all the infrastructure required to practice these sports, completely free of charge. The girls must be able to prove continuous and consecutive attendance at school to participate

in this program, which also includes counseling on citizenship issues, personal hygiene, nutrition and prevention of teenage pregnancy and drug abuse.

Operating Performance

Net Income and Stockholders Equity

BCN reported third-quarter net income of R\$ 75.2 million, an increase of 14.5% compared to R\$ 65.7 million for the same period in 2002.

Stockholders equity for the third quarter of 2003, grew by R\$ 1.5 billion following the capital increase in August and totaled R\$ 3.3 billion at the end of September, after adjustments for dividends of R\$ 21.6 million, projected for the period.

The Bank s accumulated net income for the nine-month period totaled R\$ 356.1 million, corresponding to an average annualized return of 24.2% on stockholders equity.

In the first half of 2003, non-recurring income was recorded in the amount of R\$ 132.5 million in Potenza Leasing S.A. Arrendamento Mercantil, a wholly owned subsidiary of the Bank, derived from deferred tax assets recorded on prior-year tax losses and negative bases of social contribution. Disregarding this effect, net income for the nine-month period totaled R\$ 223.6 million and the average annualized return on stockholders equity was 15.8%, after adjustment.

Funding and Portfolio Administration

At September 30, 2003, the overall funds obtained and managed totaled R\$ 23.5 billion, a 3.3% increase compared with the same period in 2002. Deposits, the Bank s main source of funds, totaled R\$ 9.9 billion. Total funds include an amount of R\$ 3.0 billion in Investment Funds, obtained by BCN Branches, managed by BRAM Bradesco Asset Management Ltda. and administrated by Banco Bradesco S.A.

Total Assets and Credit Operations

Total assets remained stable as compared to September 2002, at R\$ 23.0 billion. Of this amount 53.7%, or R\$ 12.3 billion, was allocated to credit operations, including leasing operations and advances on foreign exchange contracts and 34.7%, or R\$ 8.0 billion, was allocated to short-term interbank accounts and securities and derivative financial instruments.

Banco Finasa S.A., a wholly owned subsidiary of Banco BCN S.A., is focused on the consumer customer segment and operates mainly in the financing of new and used vehicles, consumer durables and services through Finasa Promotora de Vendas Ltda., which is responsible for securing new customers and receiving and forwarding consumer financing proposals. In 2003, the Promotora continued consolidating its structure, absorbing staff from Finasa S.A., C.F.I., in 2002 and from BBV Banco, in September this year, preparing to give leverage to the transactions in the areas under focus. The strategy for growth includes the implementation of different sales channels and partnerships such as those entered into with Ford Serviços and Microsoft in 2002 and with ABRAPAR, after approval by the Brazilian Association of Fiat Automobile Dealerships ABRACAF, in the first half of 2003, for supporting the financing of vehicles sold by the associated dealerships. Facing market competition accordingly, by extending the distribution channels and increasing market share.

At the end of September, Finasa Promotora de Vendas operated through its 53 Branches and was present in 12,777 new and used vehicle dealership outlets and 804 stores selling furniture and home decor, IT related equipment and software, tourism and finishing materials, among others.

Customers served by Banco Finasa totaled some 862 thousand.

Net Income and Stockholders Equity

The Bank reported third-quarter net income of R\$ 23.2 million, totaling R\$ 76.1 million for the nine-month period, an increase of 46.7% compared to the same period in 2002. With stockholders equity, at September 30, of R\$ 278.9 million, after adjustments for the quarterly dividend of R\$ 5.5 million, the average annualized return from January to September was 38.0%.

At the end of September 2003, assets totaled R\$ 4.9 billion, an increase of 16.3% over the same period in 2002. Of this amount, R\$ 4.4 billion comprised funds for new and used auto financing, an increase of 17.7%, as compared to the same period in 2002.

Auto-financing production for the first nine months of 2003 totaled R\$ 2.7 billion, growing by 89.8% compared to R\$ 1.4 billion produced for the same period in 2002.

Number of Policyholders - Thousand

Up to September 30, 2003, the average number of customers grew by 4.4% compared to the same period in 2002.

Bradesco Saúde continues to maintain its outstanding market position, especially in the corporate health insurance segment. Brazilian consumers are increasingly convinced that Health and Dental Insurance are the best alternatives for meeting their medical, hospital and dental care needs. At present, Bradesco Saúde has more than 2.3 million customers.

The increasing number of policyholders employed by micro, small and medium companies, as well as major corporations that have contracted Bradesco Saúde, confirms the company s high level of expertise and personalization in Corporate Insurance services, a distinct advantage in the Health Insurance market.

Approximately 11 thousand companies in Brazil have acquired Bradesco Health Insurance. Out of the 100 largest companies in Brazil, 35 are Bradesco clients in the Health and Dental Health lines and out of the country s 10 largest companies, 60% are Bradesco Saúde clients.

Emphasis should also be given to the practical nature of the Bradesco Saúde Portal (http://www.bradescosaude.com.br), which, in addition to providing information on available products, also offers a number of services to policyholders, prospects and brokers.

The Bradesco Insurance Group occupies a leadership position in the Basic Line Brazilian market, which comprises the following main types of insurance, named and operating risks, national and international transport, oil risks, engineering risks, third-party liability and aircraft risks, among others.

In the mass market insurance segment, focusing on consumer and small and medium corporate customers, the results achieved from policy sales continue significant, particularly Bradesco Seguro Residencial Simplificado (Bradesco Simplified Residential Insurance).

In the Corporate Insurance area, the Group consolidated its leadership position, by insuring business conglomerates operating in the automobile, mining, steel, oil, electrical power, agribusiness, paper and pulp, chemical, aluminum and aircraft industries, confirming the Bradesco Insurance Group s significant presence among Brazil s major corporations.

The Automotive and RCF (Optional Third Party Liability) line posted an important increase in the number of policyholders and the technically correct pricing policy was maintained. Emphasis should also be given to the implementation of the differentiated services which add value to products, such as discounts given through the nationwide customer service networks and the increase in the number of relationships with brokers which are carried out exclusively online via the Internet.

In June, Bradesco Seguros launched a new product called Garantia Plus, which secured 43 thousand customers in only 4 months of operation. The Bradesco Seguros Garantia Plus offers coverage for personal accident (death and invalidity) and 6 more events comprising serious illnesses: heart surgery and angioplasty, cancer, strokes (CVA), chronic kidney disease, transplants, as well as assistance such as second opinions from abroad and funeral and personal expenses.

- On April 25, Bradesco Seguros won the Top de Marketing 2003 award given by the Brazilian Association of Sales and Marketing Directors ADVB with the following case: Bradesco Seguros. Liderança de ponta a ponta é isso: 1ª em share of market, e agora também a 1ª em top of mind .
- 2. The Bradesco Seguros website, which had already won the iBEST internet award in the Insurance and Revelation categories in 2002, also won this year s Grand Prix internet oscar awarded by popular vote and the site was also rated best Insurance category site by the Academy and popular votes.
- 3. In July, Bradesco Seguros was ranked first place at the eighth edition of the Top of Mind awards Marcas de Sucesso Minas Gerais. The event was organized by the business economy magazine Mercado Comum to reveal outstanding brand awareness among consumers. Bradesco Seguros won the award in the Insurance Company Leadership category. The study was carried out by the Instituto de Perfil, with more than 1,221 household interviews carried out in nine different regions throughout the state.
- 4. Also in July, Bradesco Seguros was considered as most remembered mark in the state of Alagoas winning the Prêmio Marcas 2003, in the category Top of Mind First remembered brand category. The award was given by the Tribuna de Alagoas newspaper based on a poll carried out by the Harrop Institute. The study revealed that 12.9% of those interviewed replied Bradesco Seguros, when asked which brand comes to mind first when insurance is mentioned. This percentage was double that achieved by the 2nd ranked company.

(1) Including BBV Previdência e Seguradora Brasil S.A. from June 2003.

Income from Plans Market Share (%)

Since its foundation in 1981, Bradesco Vida e Previdência has recorded consistently high levels of growth, confirming its leadership of a sector which from the early nineties has shown considerable potential for expansion.

Income from its private pension plans has grown some 43.3% per year over the last five years, enabling the company to maintain its leadership position with 38.3% of the market, the result of a sound product development policy structured around innovative and flexible options.

Products bearing the Bradesco Vida e Previdência hallmark reflect the company's efforts to remain ahead of its time, sensitive to future trends.

Growth in Technical Reserves - In millions of reais

Providing a secure option for participants, policyholders and beneficiaries, Bradesco Vida e Previdência has recorded an increasing growth rate in the volume of its technical reserves. During the period, technical reserves presented an increase of 30.4% over the same period in 2002, highlighting the company's capacity to meet the commitments assumed.

Bradesco Vida e Previdência's unquestionable commitment to providing a care-free future for its participants has ensured its ranking as Brazil's largest listed supplementary pension plan company.

Growth in Guaranteeing Assets of Technical Reserves - In millions of reais

Private Pension Plan and VGBL Investment Portfolio - Market Share (%)

Reflecting the growth in income from private pension plans, Bradesco Vida e Previdência ended the third quarter of 2003 with a high level of capitalization. The investment portfolio presents an ongoing growth in financial volume and results, well above the required volume of technical reserves.

The company's success and commitment to the implementation of its policies are confirmed by its 50.8% share of this segment, one of most important market indicators.

Increase in Number of Participants - Thousand

During the nine-month period, Bradesco Vida e Previdência signed new contracts for individual and company plans, which accounted for a 5.8% increase in the number of participants compared to the performance recorded for the same period in 2002. Total plan participants surpassed the 1.3 million mark.

(1) Includes: Bradesco Capitalização and Atlântica Capitalização (formerly BCN Capitalização).

Bradesco Capitalização s outstanding position in the premium bond market is the result of its transparent operating policy, which is focused on the deployment of products in line with potential consumer demand.

The company is consolidating its outstanding position in diverse regions and holds a leadership position in two Brazilian states, according to the latest figures for August published by SUSEP. The company s market share in these states was as follows: 27.1% in Amazonas and 23.5% in São Paulo.

In pursuit of a bond which is suited to its customers different profiles and budgets, the company developed a number of products varying in accordance with the type of payment (single or monthly), contribution terms, regularity of draws (weekly or monthly) and related prize amounts. This phase brought the company closer to the general public and consolidated the success of its Pé Quente (Lucky Bond) savings bond series.

Bradesco Capitalização was the first private savings bond company in Brazil to receive ISO9002 accreditation and in December 2002 this certificate was upgraded to the 2000 Version ISO 9001:2000. This accreditation from Fundação Vanzolini attests to the management quality of Bradesco savings bonds and confirms the principles on which their creation was based: good products, good services and continuous growth.

Income from Plans - Market Share (%)

Technical Reserves - Market Share (%)

Growth in Technical Reserves - In millions of reais

With its fast-growing volume of technical reserves, Bradesco Capitalização surpassed the mark of R\$ 1.8 billion up to September, presenting a growth rate of 24.6% compared to the same period in 2002. According to data from SUSEP for August 2003, the company has 21.8% of the total market volume of technical reserves.

These results transmit confidence and confirm the company s financial soundness and capacity to honor the commitments assumed with its customers.

Growth in Assets guaranteeing Technical Reserves - In millions of reais

Number of Customers - Thousand

Outstanding Savings Bonds - Thousand

In line with its customer loyalty building policy focused on customer service and the offer of innovative products, the number of Bradesco Capitalização customers increased by 23.4% up to September 2003, compared to the same period in 2002, totaling 2.8 million. The outstanding savings bond portfolio also presented a significant 227.6% increase over the same period in 2002, reaching a total of 21.4 million outstanding bonds.

Highlights

Bradesco Capitalização was highlighted in an article published in the April edition of the Conjuntura Econômica magazine, and ranked as leader of its corresponding sector, based on a study conducted by Austin Rating. The methodology used to rank the best companies considered indicators such as stockholders equity, liquidity and profitability.

Awards

Bradesco Capitalização received the Top de Marketing 2003 award, given by the Brazilian Association of Sales and Marketing Directors -ADVB for the following case: Título de Capitalização Pé Quente Reserva Especial em proeza inédita: quebra paradigma e conquista público de alta renda . This award is designed to give proper recognition for the work of organizations which demonstrate excellence in sustaining their products, services or trademarks through innovative and consistent marketing tactics.

Bradesco Corretora ended the third quarter among the 10 most important brokerage firms, out of more than 90 operating in the São Paulo Stock Exchange (BOVESPA). During this period, services were provided to 17,025 investors and 74,128 buy and sell orders were carried out for a total financial volume of R\$ 3.1 billion. The Corretora participates with BOVESPA in the Bovespa vai até você campaign in an important effort to raise public awareness regarding the benefits of investing in the stock market.

Bradesco Corretora negotiated 652.8 thousand contracts in the Mercantile and Futures Exchange (BM&F) for a financial volume of R\$ 72.1 billion, ranking the Corretora 21st among the most important brokerage firms, out of more than 90 participants. The Corretora has centered its efforts on the continued expansion of its business, as well as promoting the futures market. For example, in the agricultural area it acts directly in the country s main production centers, through visits, seminars and participation in agricultural fairs and expos. In conjunction with the BM&F, the company sponsored visits to the exchange and Bradesco Corretora in São Paulo by investors from all over the country. At the same time, the company hosted numerous visits by farmers, teachers, opinion-makers and brokers from the physical commodities market.

Online web trading for the three-month period totaled 44,296 orders with a financial volume of R\$ 248.6 million, representing 4.4% of all Home-Broker operations carried out in BOVESPA and placing the Corretora fourth in the overall ranking. The customer base increased by 6.6% with more than 1,057 new customers registered during the quarter and more than 10,481 e-mails received.

As a result of its role in Public Offerings of Share Purchases, Special Operations, Stock Swapping Auctions and Privatization Auctions, Bradesco Corretora continues in its important market position, with financial volume of R\$ 95.3 million for the quarter.

Net income recorded for the quarter totaled R\$ 3.6 million.

Stockholders' equity at the end of the quarter increased to R\$ 99.3 million, corresponding to 47.6% of total assets of R\$ 208.6 million.

Bradesco Securities, Inc., a wholly owned subsidiary of Bradesco, operates as a broker dealer in the United States. The company's activities are focused on the intermediation of share purchases and sales, with emphasis on ADR operations. The company is also authorized to operate with Bonds, Commercial Paper and Certificates of Deposit, among others, and to provide Investment Advisory services. This Bradesco initiative was motivated by more than 90 programs involving ADRs of Brazilian companies traded in New York and by the growing interest of foreign investors in the emerging markets and is designed to offer support for global economy investors who invest part of this flow in countries such as Brazil.

Designed to provide leverage to its brokerage transactions abroad, Bradesco Securities, Inc. increased company capital in the amount of US\$ 20 million in May 2003.

• Leasing Companies

At September 30, 2003, the Bradesco Organization had the following leasing companies: Bradesco BCN Leasing S.A. Arrendamento Mercantil, Boavista S.A. Arrendamento Mercantil, Potenza Leasing S.A. Arrendamento Mercantil, Bancocidade Leasing Arrendamento Mercantil S.A. and BBV Leasing Brasil S.A.

The Organization seeking to achieve higher levels of competitiveness and productivity and consequently the rationalization and reduction of operating, administrative and legal costs, is concentrating its leasing operations in Bradesco BCN Leasing S.A. Arrendamento Mercantil, formerly BCN Leasing Arrendamento Mercantil S.A., following the incorporation, in February, of Bradesco Leasing S.A. Arrendamento Mercantil. In April, the Organization incorporated Finasa Leasing Arrendamento Mercantil S.A. and on September 22, it acquired BBV Leasing Brasil S.A. s portfolio.

The increase in stockholders equity between 2002 and 2003 was mainly derived from a capital increase of R\$ 500 million in Potenza Leasing S.A. Arrendamento Mercantil and of R\$ 180 million in Boavista S.A. Arrendamento Mercantil, in November 2002. Moreover, an amount of R\$ 132.5 million in non-recurring income was recognized in March 2003, in Potenza Leasing, derived from deferred tax assets recorded on prior-year tax losses and negative bases of social contribution.

Leasing Performance Consolidated Bradesco

Bradesco's leasing operations are carried out through its subsidiaries: Bradesco BCN Leasing S.A. Arrendamento Mercantil and Banco Finasa S.A.

At the end of the third quarter, leasing operations brought to present value totaled R\$ 1,438.7 million, with a balance of R\$ 22.6 million receivable in operating leases.

According to the Brazilian Association of Leasing Companies (ABEL), the Bradesco Organization is leader of this sector, with a 17.5% market share (base date: August 2003). This sound performance is a direct result of its action plan which is fully integrated with the Branch Network and the maintenance of its diversified business strategies in various market segments, as well as the implementation of operating agreements with major industries, particularly in the heavy vehicle and machinery/equipment sectors.

The following pie graph presents the composition of Bradesco's consolidated leasing portfolio by types of asset.

Operations

On December 9, 2002, Bradesco Consórcios commenced the sale of consortium quotas to Bradesco employees and on January 21, 2003 these sales were extended to the account holders and non-account holders of all of its financial institutions and included as part of the Organization s product portfolio.

The first online internet meeting of Bradesco Consortium holders was held on February 26, 2003 and by September 30, 2003, 25 meetings had been held.

At September 30, 2003, a total of 47 thousand consortium quotas had been sold, with billings in excess of R\$ 1.6 billion, 2,388 participants had been selected by bid or draw and 1,054 items had been delivered to members comprising 218 groups.

The company uses all the facilities of the Bradesco Organization customer service network to commercialize the products offered.

Mission

The company s mission is to manage consortium plans and groups for consumer and corporate purchasers regardless of whether they are Bradesco account holders or not, and to operate in the light and heavy vehicle (including cars, trucks, tractors and combine harvesters) and real estate segments, maintaining excellent standards in the quality of the services offered and in consortium system practice, pursuant to regulations determined by the Brazilian Central Bank and in line with the Bradesco Organization s philosophy.

Segmentation

The Bradesco Organization s entry into this segment is part of its strategy to offer the most complete range of product and services possible to its customers.

Providing all income brackets with the opportunity to purchase items through the consortium quota system, filling a market lacuna at accessible prices and considering inclusive, regarding in particular real estate products, the country s present housing deficit.

The Consortium segment is a complementary niche to regular banking activities and at present there are 3 million (*) consortium group members nationwide. According to information gathered, only 15% (*) of vehicles sold in Brazil are sold via the Consortium method.

The automobile consortium group system ended the first half of the year growing by 11.9%.

At present, an average 64.3 thousand (*) participants receive items monthly through this purchase method as compared to 61.3 thousand 12 months ago, an increase of 4.7% (*), including first homes and new cars and more than 20 other products sold through the consortium quota system.

In the first half of 2003, 45 thousand residential housing consortium quotas were sold in Brazil, a 29% increase over sales for the same period in 2002.

Representation

Within this segment, Bradesco plays a central role in providing Brazilians with the opportunity to acquire consumer durables and real estate.

At September 30, 2003, Bradesco Consórcios had sold more than 47 thousand quotas, leading us to project strong medium and long-term results, with positive effects on our capacity to secure new customers.

• Awards

During the period, Bradesco was rated Best Local Partner in Brazil for carrying out business and for its capacity to meet customer demands by Euromoney magazine. Bradesco also received the Best Listed Company in 2002 award, from the Association of Capital Market Investment Analysts and Players - Apimec Nacional. This award is the result of a poll carried out by members based on, among other criteria, the quality of the information released to the market, as well its accuracy and timeliness.

For the third time running, Bradesco was rated Best Retail Bank in Brazil by the consultancy Austin Asis and the Conjuntura Econômica magazine published by Fundação Getulio Vargas. The Bank also received the Best Consumer Internet Bank award given by Global Finance magazine. The same magazine also rated Bradesco as Best Consumer Integrated Site and Best Corporate Institutional Integrated Site in Latin America, in terms of products offered, marketing and design.

In the 2003 Best Investment Fund Guide (Guia Melhores Fundos de Investimentos 2003) issued by Exame magazine, Bradesco appears for the second time in a row as Best Private Fund Manager in Brazil. The Guide also rates Bradesco as Best Retail Fund Manager and Best Leveraged Fund Manager, as well as rating 19 of the Organization s funds as five star, the highest grade awarded by this Guide.

• Sociocultural Events

During the third quarter of 2003, Bradesco gave important support to 222 social projects nationwide. These comprised cultural, regional, sector or professional venues, including trade fairs, seminars, congresses and community events.

On the cultural scene, Bradesco took part as a sponsor at the Japanese Community Festival, the Folklore Festival in Olímpia and at the San Gennaro Festivities organized by São Paulo s Italian Community, as well as at the Nippo/Brazilian Festival in Paraná. Bradesco also sponsored

the Expoagro Fair, in Minas Gerais, providing important incentives to agricultural development in Brazil s interior regions.

During the period, emphasis should also be given to the events sponsored by Bradesco Seguros, which include the International Bienal of Architecture and Design, held in São Paulo, at which the insurance company acted as sponsor and official insurer, the exhibition of religious art Sant Ana Coleção Ângela Gutierrez, the French Cinema Festival and the entire series of the Dell Arte International Classical Concerts in Rio de Janeiro.

In the educational area, the Bradesco Foundation commenced the construction of its 40th school in the town of Osasco, São Paulo. The new unit which should be opened in 2004 is designed to attend two thousand students from the local community. During the quarter, the students, parents, teachers and support staff at five foundation schools took part together in a number of different voluntary efforts, offering among others, handicraft courses and free medical and dental check-ups, benefiting hundreds of people from underprivileged communities.

MAIN SUBSIDIARIES AND ASSOCIATED COMPANIES

• Administrative Body

• Fundação Bradesco The Bradesco Organization s Social Arm

Background

The Bradesco Foundation, a not-for-profit entity, headquartered at Cidade de Deus, Osasco (SP), was founded in 1956 and declared to be of Federal Public Utility by Decree 86,238, on July 30, 1981.

Convinced that education lies at the roots of equal opportunity and personal and collective fulfillment, the Bradesco Foundation currently maintains 39 schools installed as priority in the country s most underprivileged regions, in all of Brazil s states and in the Federal District.

Objectives and Goals

Through its pioneer action in private social investment, the Bradesco Foundation s chief mission is to provide formal, quality education to children, young people and adults ensuring that they receive the qualifications required to achieve personal fulfillment through their work and the exercising of their rights and duties as citizens.

Accordingly, the Foundation has expanded its activities yearly, increasing the number of students matriculated in its schools from 13,080 to more than 103,000 over the last twenty-three years. The Bradesco Foundation schools offer education free-of-charge at pre, junior and high

school levels, as well as basic professional and technical training in IT, electronics, industry, management and agriculture and livestock raising. Distance learning is also offered as part of its Youth and Adult Education programs.

Important Events

The 39th Bradesco Foundation School, in the city of Boa Vista, Roraima, opened its doors on February 6 this year with modern facilities and the capacity to attend more than 1,200 students.

On March 9, all the Foundation Schools took part in Brazil s National Voluntary Action Day . More than 190 thousand people benefited from activities promoted in the leisure and entertainment, education, culture, sports, healthcare, community development and citizenship action areas. Four thousand volunteers participated, including students, parents, support staff, teachers and professionals from partner organizations, providing more than 200 quality services to community members residing in the vicinity of the Foundation schools.

On August 12, the Bradesco Foundation received the Order of Merit from the Supreme Labor Court at a ceremony held at the high court in Brasília, in the Federal District.

On September 3, a stone was laid to mark the foundation of the new school which is to be built in the town of Osasco, SP. Located in the Jardim Conceição neighborhood, the school will have the capacity to attend some 2,000 students from the local community.

School Locations

The majority of the Foundation's educational units are located on the outskirts of major cities or in rural areas where there is a significant lack of educational and welfare assistance. Thousands of students in all four corners of Brazil are given the opportunity to study at the Foundation schools.

Independent auditors report on supplementary account information

To The Administrative Council and Stockholders Banco Bradesco S.A. Osasco - SP

We have performed special review, in accordance with the specific rules established by the Brazilian Institute of Independent Auditors (IBRACON), jointly with the Brazilian Federal Accounting Council, of the consolidated interim report of Banco Bradesco S.A. and its subsidiaries for the nine-month periods ended September 30, 2003 and 2002 and have issued an unqualified report, dated October 21, 2003.

Our review was performed for the purpose of reviewing the consolidated interim report of Banco Bradesco S.A. and its subsidiaries, taken as a whole. In connection with our special review, we have performed a review of the supplementary account information included in the Report on Economic and Financial Analysis that is presented exclusively for the purpose of additional analysis and is not a required part of the financial statements.

Based on our special review, we are not aware of any significant modifications that should be made to the supplementary account information for it to be presented adequately, in all material respects, in relation to the interim report taken as a whole.

5 - Financial Statements, Report of the Audit Committee and Independent Auditors Report

Directors Report

To Our Stockholders,

We are pleased to present the financial statements for the quarter ended September 30, 2003, of Banco Bradesco S.A., as well as the consolidated financial statements, prepared in accordance with the requirements of Brazilian corporate legislation.

Among the important events for the quarter at the Bradesco Organization, we highlight the conclusion of the incorporation process of Banco Bilbao Vizcaya Argentaria Brasil S.A. into Bradesco on September 22, with the transformation of the BBV Banco Branches into Bradesco Branches. This initiative has optimized resources, drawing together staff expertise and dedication to offer customers maximum quality in products and services.

For the period from January 1 to September 30, 2003, Bradesco reported net income of R\$ 1.591 billion, corresponding to R\$ 1.00 per thousand shares, an annualized return of 16.69% on closing stockholders equity and of 18.22% on average stockholders equity.

Taxes and contributions, including social security contributions, payable or accrued on the main activities carried out by the Bradesco Organization, for the first nine months of the year, amounted to R\$ 2.371 billion, or 149.03% of net income.

At the end of the quarter, paid-up capital of R\$ 7 billion, plus reserves of R\$ 5.967 billion comprised the total stockholders equity of R\$ 12.967 billion, an increase of 23.49% compared with the same period in 2002. Net equity per thousand shares was equivalent to R\$ 8.18.

Managed stockholders equity corresponds to 7.96% of consolidated assets which totaled R\$ 164.363 billion, a 17.28% growth rate compared to September 2002. As a result, the capital adequacy ratios were 18.37% on a consolidated financial basis and 15.91% on a consolidated economic and financial basis, accordingly, above the 11% required minimum established by National Monetary Council Resolution 2099 of August 17, 1994, in conformity with the Basel Accord. At the end of the quarter, the ratio of permanent assets to stockholders equity, in relation to consolidated reference equity was 44.32% on a consolidated financial basis and 29.95% on a consolidated economic and financial basis, accordingly, within the maximum 50% limit.

In compliance with the provisions of Article 8 of Brazilian Central Bank Circular 3068, of November 8, 2001, Bradesco declares that it has both the financial capacity and the intention to hold to maturity the securities classified in the securities held to maturity category.

With a growth rate of 31.23% over the same period in 2002, overall funding obtained by the Bradesco Organization amounted to R\$ 238.060 billion, at September 30 and comprised the following :

- R\$ 81.415 billion in demand, time and interbank deposits, open market and savings accounts.
- R\$ 90.663 billion in managed assets, comprising investment funds and customer portfolios.
- R\$ 33.660 billion in foreign exchange portfolio, borrowings and onlendings, own working capital funds, collection and tax and utility collections and similar, as well as funds from the issuance of securities and local subordinated debt.
- R\$ 24.461 billion recorded in technical reserves for insurance, private pension plans and savings bonds, a growth rate of 47.35% compared to the same period in 2002.
- R\$ 7.861 billion in foreign resources through public and private issues, subordinated debt and securitization of future financial flows, corresponding to a total of US\$ 2.689 billion.

The balance of credit operations totaled R\$ 52.776 billion and includes the following:

- R\$ 6.168 billion in advances on foreign exchange contracts for a portfolio of US\$ 2.945 billion in export financing.
- US\$ 362.884 million in foreign currency import financing.
- R\$ 1.439 billion in leasing.
- R\$ 4.204 billion in agricultural loans
- R\$ 6.946 billion in foreign and domestic onlendings, mainly comprising funds from the National Bank for Economic and Social Development (BNDES).

In the housing loan area, Bradesco provided funds during the first nine months of the year for the construction and purchase of residential housing in the amount of R\$ 838.101 million, comprising 13.223 properties.

With an active presence in the Capital Market Area, Bradesco was an important intermediary in the public placement of shares, debentures and promissory notes, with a total volume of R\$ 3.879 billion recorded since the beginning of the year, corresponding to 59.97% of all issues registered with the Brazilian Securities Commission (CVM). The Bank also gained recognition for its activities in the area of mergers and acquisitions, project finance and as an advisor in corporate and financial restructuring.

The Bradesco Insurance Group, with an important role in the insurance, private pension plan and savings bond areas, reported net income of R\$ 439.358 million at September 30, 2003. The overall premium income attained R\$ 9.304 billion, a growth rate of 27.55% in comparison with the same period in 2002. Some 30 thousand attendants at concessionaires and brokers are available to serve the Group s policyholders.

Structured to offer top-quality standards of comfort, ease and security, the Bradesco Organization Customer Service Network offered its customers and other users access to 10,043 service outlets at the end of the quarter, including 21,585 ATMs in the BDN Bradesco Day and Night Self-service Network, 14,867 of which also operate at weekends and on bank holidays:

3,033	Branches in Brazil (Bradesco 2,811, BCN - 221 and Banco Finasa - 1).
	Branches abroad, 1 in New York (Bradesco), 4 in Grand Cayman (Bradesco, BCN, Mercantil and Banco Boavista)
7	and 2 in Nassau, Bahamas (Boavista and Banco Alvorada, formerly BBV Banco).
	Subsidiaries abroad (Banco Bradesco Argentina S.A. in Buenos Aires, Banco Bradesco Luxembourg S.A. in
	Luxembourg, Boavista Banking Ltd. in Nassau, Bradesco Securities, Inc. in New York, Bradesco Services Co. Ltd.
6	in Tokyo and Cidade Capital Markets Ltd. in Grand Cayman).
3,144	Banco Postal branches.
1,958	Banking service posts and outlets in companies (Bradesco 1,763 and BCN - 195).
1,842	Outplaced terminals in the BDN Bradesco Day and Night Network.
	Branches of Finasa Promotora de Vendas, present in 12,777 vehicle dealerships and 804 stores selling furniture and
53	home decor, IT related equipment, tourism and travel and finishing materials, among others.

In compliance with CVM Instruction 381, the Bradesco Organization declares that, during the quarter, no non-audit services were contracted or rendered by KPMG Auditores Independentes for an amount which exceeds 5% of the total external audit costs. This policy complies with internationally accepted principles designed to maintain the independence of external auditors. In accordance with these principles: auditors should not audit their own work, or exercise management functions for their clients or promote the interests of such clients. Each external audit is contracted for a maximum five-year period pursuant to Brazilian Central Bank recommendations.

In the social area, the Organization continues its important efforts, principally through its educational and welfare programs developed by Fundação Bradesco (the Bradesco Foundation), which maintains 39 schools, installed as a priority in Brazil s most socially and economically deprived regions, across all of its states and in the Federal District. More than 105 thousand students receive education, completely free-of-charge, including youth and adult education courses and basic professional training. More than 49 thousand students enrolled on its infant, junior, middle/high and technical school courses receive free meals, uniforms, school materials and medical/dental care from the Foundation.

In the Human Resources Area, Bradesco enhances its training programs yearly, specifically designed to foster the professional skills and development of its staff. Based on an across-the-board view of current business demands and permanent education, the Organization has achieved increasingly positive results as regards the improvement in customer service and the efficiency of its products and services. For the period from January to September, 993 courses were given with 302,886 participations. The benefit plans designed to guarantee the well-being, better life quality and security of employees and their dependents, covered 191,051 people at the end of the quarter.

The results accomplished to date reflect the importance of the strategy developed by the Bradesco Organization, which is based on the concepts of quality and efficiency. Grateful for the success achieved, we would like to thank our stockholders and customers for their support and confidence and our staff and other stakeholders for their dedication.

Cidade de Deus, October 24, 2003 Board of Directors and Board of Executive Officers

Banco Bradesco S.A.

- 36) OTHER INFORMATION
- 1) OPERATIONS

Banco Bradesco S.A. is a private-sector open-capital company which, operating as a multiple bank, carries out all types of authorized banking activities including foreign exchange transactions through its commercial, investment, consumer financing, housing loan and credit card portfolios. The Bank also operates in a number of other activities through its direct and indirect subsidiary companies, particularly in leasing, consortium management, insurance, savings bond and private pension plan activities. Operations are conducted within the context of the companies comprising the Bradesco Group, which are jointly active in the market.

2) PRESENTATION OF THE FINANCIAL STATEMENTS

The financial statements of Banco Bradesco S.A. include the financial statements of Banco Bradesco S.A., its foreign branches and its direct and indirect subsidiaries and jointly controlled investments.

The financial statements of Banco Bradesco S.A. were prepared based on accounting policies determined by Brazilian Corporation Law for the recording of operations, as well as the rules and instructions of the National Monetary Council (CMN), Brazilian Central Bank (BACEN), Brazilian Securities Commission (CVM) and Superintendency of Private Insurance (SUSEP), and comprise the financial statements of the leasing companies based on the capital leasing method of accounting, which requires the reclassification of leasing operations to the current-asset and long-term-receivable accounts.

Accordingly, upon consolidation, intercompany investments, account balances, revenue, expenses and unrealized income were eliminated from the financial statements and, in the case of investments which are jointly controlled with other stockholders, asset, liability and income components are included in the consolidated financial statements in proportion to the parent company's percentage capital ownership of each investee. Goodwill on the acquisition of investments in subsidiaries is presented in deferred assets and minority interests in net income and stockholders equity are separately disclosed. Exchange variation arising from permanent investments in subsidiaries and foreign branches was allocated to the statement of income accounts in accordance with the corresponding assets and liabilities from which it originated.

The financial statements include estimates and assumptions, such as the calculation of the allowance for loan losses, the estimation of the fair value of certain financial instruments, the quantification of technical reserves for insurance, pension plans and savings bonds and the determination of the useful economic life of specific assets. Actual results could differ from these estimates and assumptions.

We present below the main direct and indirect subsidiaries, including their foreign branches and subsidiaries and jointly controlled investments:

(1) Percentage ownership decreased following the merger of Banco E	EA S.A. in April 2003.		

(2) Became a subsidiary of Banco Baneb S.A. in March 2003 and was merged in April 2003.

(3) Company and branch acquired in June 2003.

(4) Percentage ownership increased through acquisition and incorporation of shares of minority stockholders of Banco Mercantil de São Paulo S.A.

(5) Became a direct subsidiary of Banco Bradesco in May 2003.

(6) Percentage ownership increased as a result of the merger of Bradesco Leasing in February 2003 and of Finasa Leasing in April 2003 into BCN Leasing.

- (7) Formerly BCN Leasing Arrendamento Mercantil S.A.
- (8) Merged into Bradesco BCN Leasing in February 2003.
- (9) Proportionally consolidated in accordance with CMN Resolution 2723 and CVM Instruction 247.
- (10) Companies audited by other independent auditors in 2002.
- (11) Companies audited by other independent auditors in 2003.
- (12) Percentage ownership increased through acquisition of BBV Banco in June 2003.
- (13) Merged into Bradesco BCN Leasing in April 2003 (see item 7).
- (14) Merged into Mercantil Grand Cayman in November 2002.
- (15) Percentage ownership increased through cancellation of treasury stock of Bradesco Seguros.
- (16) Became a direct subsidiary of Bradesco Seguros in April 2003.
- (17) Percentage ownership increased through acquisition of shares.
- (18) Merged into Banco Mercantil in January 2003.
- (19) Percentage ownership increased through acquisition of quotas in October 2002:
- (20) BBV Banco changed its name to Banco Alvorada in October 2003.

3) SIGNIFICANT ACCOUNTING POLICIES

a) Determination of net income

Income and expenses are recorded on the accrual basis and are prorated daily when of a financial nature. Transactions with prefixed rates are recorded at their redemption amounts and income and expenses for the future period are recorded as a discount to the corresponding asset and liability accounts. Post-fixed or foreign-currency-indexed transactions are adjusted to the balance sheet date. Income and expenses of a financial nature are calculated based on the exponential method, except when relating to discounted notes or to cross-border transactions which are calculated on the straight-line method.

The insurance and coinsurance premiums and income on commissions, net of premiums assigned in coinsurance and reinsurance and corresponding expenses for commission, are appropriated to results upon issuance of the corresponding insurance policies and are deferred for appropriation on a straight-line basis over the terms of the policies, through the recording and reversal of a provision for unearned premiums and deferred selling expenses. The accepted coinsurance and retrocession operations are recorded based on the information received from other companies and the Brazilian Institute of Reinsurers (IRB), respectively.

The revenue from savings bond plans is recognized at the time it is effectively received. The expenses for placement of bonds, classified as Selling Expenses, are recorded as they are incurred. Brokerage expenses are recorded at the time the savings bond plan contributions are effectively received. The payment of prizes on winning bonds is recorded as an expense in the month in which the draw takes places.

The private pension plan contributions are recorded in income at the time they are effectively received.

b) Interbank investments

These are recorded at purchase cost, including accrued income up to the balance sheet date, net of loss accrual, where applicable.

c) Securities

Pursuant to BACEN Circular 3068/2001, as from June 30, 2002, securities are classified and recorded as presented below:

- Trading securities securities which are acquired for the purpose of being actively and frequently traded are adjusted to market value as a counter-entry to results for the period.
- Securities available for sale securities which are not specifically intended for trading purposes or as held to maturity, are adjusted to market value as a counter-entry to a specific account in stockholders' equity, at amounts net of tax effects.
- Securities held to maturity securities for which there exists intention and financial capacity for maintenance through to maturity are recorded at cost, plus accrued earnings, as a counter-entry to results for the period.

Up to June 2002, securities were valued at cost of acquisition, plus accrued earnings and less of the provision for adjustment to probable realizable value.

d) Derivative financial instruments (assets and liabilities)

Pursuant to BACEN Circular 3082/2002 and complementary regulations, the derivative financial instruments are classified based on management s intended use thereof on the date of the operation and whether it was carried out for hedging purposes or not.

The derivative financial instruments which do not comply with the hedging criteria established by BACEN, particularly derivatives used to manage general exposure to risk, are recorded at market values, with the corresponding mark-to-market adjustments taken directly to income for the period.

The derivative financial instruments used for protection against exposure to risk or for changing the characteristics of financial assets and liabilities and which are: (i) significantly co-related in relation to the adjustment of their market value to the market value of the hedged item, at both the start and over the duration of the contract; and (ii) considered to be effective in mitigating the risk associated with the exposure which is to be protected, are classified as hedges in accordance with their specific nature:

- Market risk hedge the hedged financial assets and liabilities and the corresponding derivative financial instruments are recorded at market value, with corresponding mark-to-market adjustments recorded directly in income for the period.
- Cash flow hedge hedged financial assets and liabilities and the corresponding derivative financial instruments are recorded at market value, with corresponding mark-to-market adjustments, net of tax effects, recorded in the stockholders equity account. The non-hedged portion is recorded directly in results for the period.

e) Credit and leasing operations and allowance for loan and leasing losses

The credit and leasing operations are classified in compliance with: (i) the parameters established by CMN Resolution 2682/1999 at nine levels from AA (minimum risk) to H (maximum risk); and (ii) management s risk level assessment. This assessment, which is carried out on a periodic basis, considers current economic conditions, and past loan loss experience, as well as specific and general risks relating to operations, borrowers and guarantors. The length of the delay in payment defined in CMN Resolution 2682/1999 is also taken into account for customer risk

classification purposes as follows:

Length of Delay	Customer Classification
No delay	AA
Up to 14 days	А
From 15 to 30 days	В
From 31 to 60 days	С
From 61 to 90 days	D
From 91 to 120 days	Е
From 121 to 150 days	F
From 151 to 180 days	G
More than 180 days	Н

The accrual of credit operations past due up to 60 days is recorded in income on credit operations and subsequent to the 61st day, in unearned income.

Past-due operations classified at H level remain at this level for six months, subsequent to which time they are written off against the existing allowance and controlled over a five-year period in memorandum accounts and no longer presented in the balance sheet.

Renegotiated operations are maintained with a maximum classification equal to their prior classification. Renegotiated operations, already written off against the allowance and which are recorded in memorandum accounts are classified at H level and any gains derived from their renegotiation are recognized as revenue only when they are effectively received.

In the case of mortgage loans, the contractual capitalization period (monthly or quarterly) for income appropriation purposes complies with applicable legislation and end-borrower financings are adjusted to the present value of the installments receivable.

The allowance for loan losses is recorded at an amount considered sufficient to cover estimated losses and is based upon current economic conditions, past loan loss experience, specific and general portfolio risks and on BACEN requirements and instructions (Note 12 f, g).

f) Income tax and social contribution (asset and liability)

Deferred income tax and social contribution calculated on tax losses, negative basis of social contribution and temporary additions are recorded in Other receivables - sundry , and the provision for deferred income tax on excess depreciation and mark-to-market adjustments is recorded in Other liabilities taxes and social security contributions . Only deferred tax assets which have already acquired tax deductibility rights are recorded on amortization of goodwill.

Deferred tax assets on temporary additions are realized upon use and/or reversal of the corresponding provisions on which they were recorded. Deferred tax assets on tax losses and negative basis of social contribution will be realized as taxable income is generated (Note 35).

The provision for federal income tax is calculated at the standard rate of 15% of taxable income, plus an additional rate of 10% for income over established limits. The provision for social contribution is recorded at the rate of 9% of pre-tax income. Provisions were recorded for other taxes and social contributions in accordance with specific applicable legislation.

g) Technical reserves relating to insurance, pension plan and savings bond activities

Provision for unearned premiums

These are recorded at the amount of that portion of the insurance premiums issued/retained corresponding to the unexpired risk periods of the insurance contracts, in accordance with the criteria determined by SUSEP standards.

Benefits to be granted and benefits granted

Mathematical reserves comprise the amount of the liabilities assumed under the form of income, pension and savings plans and are calculated based on the financial method determined in the contract under the responsibility of a legally qualified actuary registered with the Brazilian Institute of Actuaries (IBA). The mathematical reserves comprise the present value of future benefits estimated based on actuarial methods and assumptions. The provision for benefits to be granted comprises participants whose receipt of benefits has not yet commenced and the provision

for benefits granted comprises participants who are currently receiving benefits.

Savings Bonds mathematical reserves

These are recorded in conformity with the technical notes approved by SUSEP, based on a variable percentage applicable to the amounts effectively received.

Unsettled claims and IBNR

The provision for payment of unsettled claims is recorded based on estimated probable payments, net of recoveries and adjusted for price-level restatement up to the balance sheet date. The reserve for claims incurred but not reported (IBNR) is calculated on an actuarial basis to quantify the volume and amount of the claims incurred, but which have not yet been reported to the insurance companies by the policyholders/beneficiaries.

h) Investments

Significant investments in subsidiaries, associated companies and jointly controlled investments are recorded on the equity method. The financial statements of the foreign branches and subsidiaries are adjusted to comply with the accounting practices adopted in Brazil, translated into reais and their related effects recognized in income for the period.

The exchange membership certificates of Stock Exchanges, the Center for the Financial Clearance and Custody of Private Securities (CETIP) and the Mercantile and Futures Exchange (BM&F) were recorded at net book value and fiscal incentives and other investments were recorded at cost, plus restatements through December 31, 1995, net of the provision for loss, where applicable.

i) Property and equipment in use

Property and equipment in use is stated at cost plus restatements through December 31, 1995, net of the corresponding accumulated depreciation, calculated on the straight-line method at annual rates which take into consideration the economic useful lives of the assets as follows: buildings in use - 4%; furniture and fixtures and machinery and equipment - 10%; data processing systems - 20% to 50%; and transport systems - 20%.

j) Deferred charges

Deferred charges are recorded at cost of acquisition or formation, net of the corresponding accumulated amortization of 20% to 50% per annum, calculated on the straight-line method.

Goodwill on the acquisition of investments in subsidiary companies, based on expected future results, is amortized at rates of 10% to 20% per annum and is presented within deferred charges.

k) Deposits and deposits received under security repurchase agreements

These are stated at the amount of the liabilities and include related charges up to the balance sheet date, on a daily pro rata basis.

l) Other assets and liabilities

The assets are stated at their realizable amounts, including, where applicable, related income and monetary (on a daily pro rata basis) and exchange variations, less provisions when deemed appropriate. The liabilities include known or estimated amounts, plus related charges and monetary (on a pro rata basis) and exchange variations.

4) INFORMATION FOR COMPARISON PURPOSES

a) Reclassification

In order to facilitate comparison of the financial statements, certain September 30, 2002 account balances were reclassified in line with the accounting procedures/classification used at September 30, 2003.

(1) Investment fund applications were distributed based on the securities comprising their portfolios, maintaining the fund category classification.

(2) The number of days to maturity was based on the maturity of the securities, regardless of accounting classification.

(3) This column reflects book value subsequent to mark-to-market, adjustment, except for securities held to maturity, whose market value is higher than book value by R\$ 295,584 thousand, net of tax effects.

(4) The market value of securities is determined based on the market price practiced on the balance sheet date. In the event no market prices are available, amounts are estimated based on the prices quoted by dealers, on price definition models, quotation models or quotations for instruments with similar characteristics.

d) Composition of the portfolios by account:

	24.8	23.3	11.0	40.9	100.0

Investment fund applications were distributed based on the securities comprising their portfolios.

The number of days to maturity was based on the maturity of the securities, regardless of accounting classification.

e) At June 30, 2003, an amount of R 1,521,134 thousand of investment fund applications was reclassified from securities available for sale to trading securities and an amount of R 215,137 thousand of Brazilian foreign debt notes from securities held to maturity to securities available for sale . These reclassifications decreased stockholders equity by R 53,757 thousand with no effect, however, on income. The reclassifications were based on Management s reassessment of the new profile of the securities portfolio following the acquisition of BBV Banco.

f) Income on security transactions, financial income on insurance, private pension plans and savings bonds and derivative financial instruments

We present below the composition of the results of transactions with securities and derivative financial instruments:

	Nine-month period	In thousands of reais
Revenue	2003	2002
Fixed income securities ⁽¹⁾	2,412,559	6,193,588
Interbank investments ⁽²⁾	3,365,580	634,064
Allocation of exchange variation of foreign branches	(676,097)	3,453,854
Equity securities	(3,977)	(41,315)
Other	(35)	277
Subtotal	5,098,030	10,240,468
Financial income on insurance, private pension plans and savings bonds		
Fixed income securities	3,738,682	1,706,009
Equity securities	209,330	167,858
Subtotal	3,948,012	1,873,867
Transactions with derivatives ⁽³⁾	46,315	(2,381,132)
Total	9,092,357	9,733,203
 Includes foreign securities. Note 9b. Note 33c -V. INTERBANK ACCOUNTS RESTRICTED DEPOSITS 		

a) We present below the Restricted Deposits account:

At September 30 - In thousands of reais

	2003	2002
Compulsory deposits demand deposit ^{§1})	3,550,943	3,471,714
Compulsory deposits savings account deposits ⁽²⁾	4,195,784	3,984,056
Additional compulsory deposits ⁽³⁾	4,322,115	1,842,467
Restricted deposits National Housing System ⁽⁴⁾	388,856	401,315
Funds from agricultural loans ⁽⁴⁾	578	578
Total	12,458,276	9,700,130

(1) Without remuneration.

(2) Remunerated at the same rate as savings account deposits.

(3)

Additional compulsory deposit on demand, savings and time deposits remunerated based on the variation in the Brazilian Central Bank reference rate (SELIC).

- (4) Remunerated based on the reference rate (TR).
- b) Income on compulsory deposits

We present below income on restricted deposits:

Nine-month period - In thousands of reais

	2003	2002
Restricted deposits BACEN (compulsory deposits)	1,061,907	247,419
Restricted deposits National Housing System (SFH)	34,579	21,407
Total	1,096,486	268,826
12) CREDIT OPERATIONS		

The information relating to credit operations including advances on foreign exchange contracts, leasing operations and other receivables is presented as follows:

a) Credit operations by type and maturity.

- b) Credit operations arising from new acquisitions.
- c) Credit operations by type and risk level.
- d) Concentration of credit operations.
- e) Credit operations by activity sector.
- f) Composition of credit operations and allowance for loan losses.
- g) Movement of the allowance for loan losses.
- h) Recovery and renegotiation of credit operations.

i) Income on credit operations.

Additional provision (4)	821,949
 Including Banco Mercantil de São Paulo S.A. R\$ 195,110 thousand; Banco BEA S.A. R\$ 6,696 thousand; Banco Cidade S.A. Potenza Leasing S.A R\$ 15,683 thousand. 	A. R\$ 16,600 thousand; and

(2) For operations with installments overdue by more than 14 days.

(3) Recorded based on the customer/transaction classification and accordingly not included in the preceding item.

(4) The additional provision is recorded based on management's experience and expected collection of the credit portfolio, to determine the total allowance deemed sufficient to cover specific and general portfolio risks, as well as the provision calculated based on risk level ratings and the corresponding minimum provision requirements established by CMN Resolution 2682. The additional provision per customer was classified (Note 12f) according to the corresponding risk levels.

(5) BBV Banco.

h) Recovery and renegotiation of credit operations:

Expense for provision for loan losses, net of recoveries of written-off credits:

Nine-month period - In thousands of reais

	2003	2002
Amount recorded for the period	1,998,173	2,239,615

- (15) Information at August 31, 2003.
- (16) Sold in November 2002.
- (17) Sold in the 2nd quarter of 2003.
- (18) Information at July 31, 2003.
- (19) Equity accounting considers results determined by the companies subsequent to acquisition and includes equity variations in the investees not derived from results, as well as adjustments arising from the equalization of accounting principles, where applicable.

16) PROPERTY AND EQUIPMENT IN USE AND LEASED ASSETS

These are stated at cost plus restatements through December 31, 1995. Depreciation is calculated on the straight-line method at annual rates which take into consideration the economic useful lives of the assets. We present below the composition of property and equipment in use and leased assets:

	Rate	Cost	Depreciation	Residual value			
Land and buildings in use:							
-Buildings	4%	1,072,021	(557,177)	514,844			
-Land	-	538,814	-	538,814			
Installations, furniture and equipment in use	10%	2,122,744	(1,068,801)	1,053,943			
Security and communications systems	10%	138,202	(71,282)	66,920			
Data processing systems	20 to 50%	1,382,293	(1,048,115)	334,178			
Transport systems	20%	27,971	(12,803)	15,168			
Other	-	64,668	-	64,668			
Subtotal	-	5,346,713	(2,758,178)	2,588,535			
Leased assets	-	50,475	(26,174)	24,301			

Total in 2003	-	5,397,188	(2,784,352)	2,612,836
Total in 2002	-	5,331,847	(2,679,609)	2,652,238
Land and buildings in use of the Bradesco Organization present an unrecorded inc	rement of R	R\$ 833,984 thou	sand, based on app	praisal reports
prepared by independent experts in 2002.				

The permanent assets to stockholders equity ratio in relation to consolidated reference equity is 29.95% on a consolidated basis and 44.32% on a consolidated financial basis, within the maximum 50% limit.

17) DEFERRED CHARGES

a) Goodwill

Goodwill on the acquisition of investments, based on future profitability, mainly results from goodwill on the acquisition of BCN R\$ 141,626 thousand (2002 - R\$ 175,617 thousand); Credireal R\$ 51,801 thousand (2002 R\$ 64,233 thousand); Baneb R\$ 72,228 thousand (2002 R\$ 84,789 thousand); Boavista R\$ 319,668 thousand (2002 R\$ 364,798 thousand); BEA R\$ 58,348 thousand (2002 R\$ 61,512 thousand); Mercantil - R\$ 85,650 thousand (2002 R\$ 728,449 thousand); Banco Cidade - R\$ 142,871 thousand (2002 R\$ 181,836 thousand); BBV Banco - R\$ 192,882 thousand; and Bradesco BCN Leasing S.A. Arrendamento Mercantil in the amount of R\$ 48,315 thousand (2002 R\$ 55,516 thousand). Amortization of goodwill for the period totaled R\$ 861,596 thousand (2002 R\$ 170,228 thousand), of which R\$ 680,759 thousand comprises extraordinary amortization of goodwill in Banco Mercantil de São Paulo S.A. (Note 31). Remaining goodwill will be amortized over a period varying from 4 to 10 years.

b) Other deferred charges

We present below the composition of other deferred charges

The Bradesco Organization is currently a defendant in a number of legal suits in the labor, civil and tax spheres, arising from the normal course of its business activities.

The provisions were recorded based on the opinion of the Organization s legal advisors, the types of lawsuit, similarity with previous suits and complexity, available jurisprudence and court sentences, whenever loss was deemed probable.

The Organization s Management considers that the provision recorded for contingencies is sufficient to cover probable losses generated by the corresponding legal proceedings.

Labor Claims

Labor claims are generated by normal employee turnover matters and mostly comprise claims for unpaid overtime.

From 1992, employee hours are controlled electronically and accordingly claims on an individual basis are, for the most part, no longer significant.

Civil Suits

These arise during the normal course of certain work routines and comprise claims for pain and suffering and pecuniary damages, mainly protests, bounced checks and the inclusion of names in the restricted credit registry.

In general, these claims do not comprise facts which could cause a significant effect on financial results.

Tax Proceedings

The Bradesco Organization is disputing the legality of certain taxes and contributions, for which provisions have been recorded in full, despite the likelihood of a successful medium and long-term outcome based on the opinion of their legal advisors.

The provisions recorded, segregated by legal sphere are as follows:

At September 30 - In thousands of reais

	2003	2002
Labor claims	866,097	589,375
Civil suits	364,107	295,582

At September 30, 2003	798,940,057,872	786,939,365,428	1,585,879,423,300

At the Extraordinary General Meeting held on January 10, 2003, approval was given for the cancellation of 9,797,900,000 common nominative-registered shares, of the Bank s own capital, with no par value, held in treasury, without decreasing capital, which were acquired by the Bank by decision of the Board of Directors at the meetings held on April 1, July 11 and November 26, 2002.

At the Extraordinary General Meeting held on March 10, 2003, approval was given to increase capital by R 399,000 thousand to R 5,599,000 thousand, through the capitalization of the balance of the following reserve: Capital reserve Share premium - R 7,435 thousand and a portion of the Revenue reserve Statutory account - R 391,565 thousand, with no new issue of shares pursuant to Clause One of Article 169 of Law 6404/76.

At the Extraordinary General Meeting held on March 31, 2003, approval was given to ratify the capital increase approved at the Extraordinary General Meeting held on January 10, 2003 in the amount of R\$ 501,000 thousand from R\$ 5,599,000 thousand to R\$ 6,100,000 thousand, through the subscription of 66,800,000,000 new nominative-registered shares with no par value, of which 33,652,745,021 are common and 33,147,254,979 are preferred shares.

At the Extraordinary General Meeting held on March 31, 2003, approval was given for a capital increase in the amount of R\$ 158,735 thousand, from R\$ 6,100,000 thousand to R\$ 6,258,735 thousand, through the issue of 20,767,712,349 new nominative-registered shares with no par value, of which 10,462,433,059 are common and 10,305,279,290 are preferred shares, in the proportion of 23.94439086 Bradesco shares for each Banco Mercantil share, of which 12.06279162 are common and 11.88159924 are preferred shares, to be attributed to the minority stockholders of Banco Mercantil, regardless of the type of shares held by them in Mercantil. At the same meeting, approval was given to increase capital by R\$ 41,265 thousand to R\$ 6,300,000 thousand through the capitalization of a portion of the account balance of Revenue reserve Statutory , with no new issue of shares.

At the Extraordinary General Meeting held on June 9, 2003, approval was given for a capital increase of R\$ 630,000 thousand, from R\$ 6,300,000 thousand to R\$ 6,930,000 thousand, through the issue of 70,431,409,114 new nominative-registered shares, with no par value, of which 35,482,189,407 are common and 34,949,219,707 are preferred shares, in the proportion of 44.422475667 Bradesco shares for each BBV Banco share, of which 22.379315072 are common and 22.043160595 are preferred shares, to be attributed to the minority stockholders of BBV Banco, regardless of the type of shares held by them in BBV Banco. At the same meeting, approval was given to increase capital by R\$ 70,000 thousand to R\$ 7,000,000 thousand, through the capitalization of a portion of the account balance of Revenue reserve Statutory, with no new issue of shares.

At the Extraordinary General Meeting held on August 6, 2003, approval was given for the acquisition of up to 40 billion nominative-registered shares, with no par value, of which 15 billion are common and 25 billion are preferred shares, to be held in treasury and subsequently sold or cancelled, with no capital decrease. Up to September 30, 2003, no shares had been acquired.

c) Interest attributed to own capital

Non-voting preferred shares are entitled to all rights and benefits attributed to common shares and in conformity with the Bank s statutes have priority to repayment of capital and 10% additional interest attributed to own capital and/or dividends, in accordance with the provisions of paragraph 1, item II of Article 17 of Law 6404/76, as amended by Law 10303/2001.

In conformity with the Bank s statutes, stockholders are entitled to interest attributed to own capital and/or dividends which total at least 30% of net income for the period, adjusted in accordance with Brazilian corporate legislation.

Interest attributed to own capital is calculated based on the stockholders' equity accounts and limited to the variation in the long-term interest rate (TJLP), subject to the existence of profits, computed prior to the deduction thereof, or of retained earnings and revenue reserves in amounts that are equivalent to or exceed twice the amount of such interest.

At the Board of Directors meeting held on March 5, 2003, approval was given to increase monthly interest attributed to own capital, paid in advance to stockholders, by 20%, from R\$ 0.0117650 to R\$ 0.0141180, per thousand common shares and from R\$ 0.0129415 to R\$ 0.0155298,

per thousand preferred shares, effective as from March 2003.

It is the Bank s policy to distribute, during the year, all the interest attributed to own capital, determined in conformity with the above criteria and to compute this interest for the minimum compulsory dividend, net of withholding tax (IRRF).

Interest attributed to own capital January 1 to September 30, 2003

- b) Foreign exchange portfolio transactions in the interbank market for ready settlement.
- c) Foreign credit lines for export financing in Brazil, subject to exchange variations and interest at rates practiced in the international market.
- d) These payables are recorded as a counter-entry to exchange purchases pending settlement.
- e) Short-term interbank investments interbank deposits of related companies at CDI rate (Certificate of Interbank Deposit).
- f) Repurchase and/or resale commitments pending settlement, guaranteed by government securities at normal market rates.
- g) Differences between amounts receivable and payable on swaps.
- h) Foreign currency loans for financing of exports subject to exchange variation and bearing interest at international market rates.
- i) Costs reimbursed by Bradesco BCN Leasing S.A. Arrendamento Mercantil to Banco Bradesco S.A. on account of the use of its Branch network facilities for contracting lease operations.
- j) Contract with Scopus Tecnologia S.A. for IT equipment maintenance services and the contract with CPM S.A. for data processing systems maintenance services.
- k) Investments in foreign securities, fixed rate notes and eurobonds subject to exchange variations and carrying interest at rates used for securities placed in the international market.
- Payables on interbank onlendings funds from rural loans bearing interest and charges corresponding to normal rates practiced for this type of transaction.
- m) Payments made by Banco Bradesco S.A. for healthcare plans of employees and their dependents.

n) Contributions made by Banco Bradesco S.A. to private pension plans for employees and directors.

33) FINANCIAL INSTRUMENTS

a) Risk and risk management

The main risks related to financial instruments, arising from the business carried out by the Bank and its subsidiaries are as follows: credit risk; market risk; liquidity risk; and capital risk. The process used to manage these risks involves the Organization's diverse levels and embraces a range of different policies and strategies. The risk management policies are generally conservative and seek to limit absolute loss to a minimum.

Credit Risk

Credit risk is the risk arising from the possibility of loss due to the non-receipt of amounts contracted with borrowers and their related creditors. Credit risk management requires a strictly disciplined control over all analyses and transactions carried out, safeguarding process integrity and independence. Bradesco's credit policy is designed to ensure maximum security, quality and liquidity in the investment of assets, as well as flexible and profitable business, minimizing risks inherent to this type of operation and directing the establishment of operating limits and the granting of credit. Accordingly, the Credit Department and Committees located at the Bank's Headquarters are critical to policy implementation since they are responsible for gearing and managing this core strategic activity. The Branches work within varying limits, according to the size and types of underlying guarantee, subject to a centralized evaluation and accordingly in line with the Organization s credit and risk management policy. Operations involving less significant amounts are subject to specialized automated credit scoring systems, maximizing the speed and security of the approvals process, based on strict protection standards. Operations are diversified, non-selective and focused on Consumer and Corporate customers with sound payment capacity and proven credit worthiness. Care is taken to ensure that related guarantees are sufficient to cover the risks assumed, considering the purpose and terms of the credit granted.

Market Risk

Market risk is related to the possibility of the loss of income from fluctuating rates caused by the unhedged terms, currencies and indices of the Bank's asset and liability portfolio. At Bradesco, market risks are managed through methodologies and models which are consistent with local and international market reality, ensuring that the Organization's strategic decisions are implemented with speed and a high level of reliability. The Organization adopts a conservative policy regarding market risk exposure and VaR (Value at Risk) limits are defined by Senior Management, and compliance is monitored daily by an area which is independent from portfolio management. The methodology used to determine VaR has a reliability level of 97.5%. The fluctuations and correlations used by the models are calculated on statistical bases and future prospects are calculated based on economic studies. The methodology applied and current statistical models are validated daily using backtesting techniques. We present below the VaR of the Consolidated Own Portfolio positions (Treasury):

At September 30, 2003 - In thousands of reais

Risk Factors	2003	2002
Prefixed	12,658	7,108
Exchange coupon	19,000	23,041
Foreign currency	184	1,988
Floating rate	13	75
Correlated effect	(3,395)	(8,008)

28,460 24,204

In addition, a daily Gap Analysis is performed to measure the effect of the movement in the internal interest rate and foreign exchange coupon curves (interest spread paid above the foreign exchange variation) on the portfolio. Complementing the market risk monitoring, control and management structure and in accordance with Central Bank regulations, a daily verification is made of the values at risk for the fixed and foreign exchange positions of the Organization s entire portfolio and of minimum capital requirements.

Liquidity Risk

VaR (Value at Risk)

Liquidity risk management is designed to control the different unhedged liquidation terms of the Bank's rights and obligations as well as the liquidity of the financial instruments used to manage the financial positions. Knowledge and monitoring of this risk is critical since it enables the Organization to settle transactions on a timely and secure basis. At Bradesco, liquidity risk management involves a series of controls, mainly, the establishment of technical limits and an ongoing assessment of the positions assumed and financial instruments used.

Capital Risk

The Organization's capital is managed to optimize the risk-return ratio, minimizing losses through the implementation of well-defined business strategies and maximizing efficiency in the combination of factors which impact the Capital Adequacy Ratio (Basel).

In thousands	of	reais
--------------	----	-------

Calculation Basis - Capital Adequacy Ratio (Basel):	Financial(1)	Economic- Financial (2)
Stockholders equity Minority interest	12,966,820 11,170	12,966,820 110,991
Reference equity - Level I Reference equity - Level II (Subordinated Debt)	12,977,990 3,416,133	13,077,811 3,416,133
Total reference equity (Level I + Level II)	16,394,123	16,493,944
Risk-weighted assets	89,262,170	103,644,845
Capital adequacy ratio at September 30, 2003 (3)	18.37%	15.91%

Capital adequacy ratio at September 30, 2002

(1) Financial companies only.

- (2) Financial and non-financial companies.
- (3) Following the issuance of subordinated debt in October 2003, in the amount of R\$ 1,397,385 thousand, the capital adequacy ratios, on a consolidated financial and economic and financial basis, were 19.93% and 17.26%, respectively.

b) Market Value

The book value, net of allowances for mark-to-market, of the main financial instruments and their corresponding market value at September 30, 2003 are summarized as follows:

At September 30, 2003 - In thousands of reais

15.55%

13.68%

	Book value	Market value	Potential gain (loss)	Potential gain (loss), net of tax effects
Assets:				
Securities and derivative financial instruments	47,905,478	48,172,351	266,873	176,136
Credit and leasing operations	52,776,421	53,067,726	291,305	192,261
Investments (1)	504,392	507,843	3,451	2,278
Liabilities:				
Time deposits	25,798,230	25,817,398	(19,168)	(12,651)
Funds from acceptance and issuance of securities	5,940,596	6,018,030	(77,434)	(51,106)
Borrowings and onlendings	15,186,483	15,293,431	(106,948)	(70,586)
Subordinated debt	3,481,653	3,493,890	(12,237)	(8,076)
Total	-	-	345,842	228,256

(1) Not including increment in investments in associated companies.

Determination of market value of financial instruments:

- Securities, investments, subordinated debt and other liabilities are based on the average quotation prevailing in the corresponding markets at the balance sheet date. In the event no market prices are available, amounts are estimated based on the prices quoted by dealers, price definition models, quotation models or quotations for instruments with similar characteristics.
- Prefixed credit operations were determined by discounting estimated cash flows, using interest rates which are equivalent to interest rates applied by the Bank for new contracts with similar features practiced on the balance sheet date.
- Time deposits, funds for issuance of securities and borrowings and onlendings were calculated by discounting the difference between the cash flows under the contract terms and the rates practiced in the market on the balance sheet date.

c) Derivatives

Bradesco carries out transactions involving financial instruments, which are recorded in balance sheet or memorandum accounts, for its own account and for customers. The derivative financial instruments are used by the Bank to hedge its asset and liability positions against the effect of exchange variations. The derivatives generally represent future commitments for exchanging currencies or indices, or purchasing and selling other financial instruments according to the terms and dates set forth in the contracts. Under the option contracts, the purchaser is entitled, but not obliged, to purchase or sell a financial instrument at a specific strike price in the future.

(I) The amounts of the instruments recorded in balance sheet and memorandum accounts at September 30, 2003 are summarized below:

In thousands of reais

Total	35,500,738	21,427,367
34) EMPLOYEE BENEFITS		

Banco Bradesco and its subsidiaries sponsor a supplementary retirement pension plan for employees and directors. The unrestricted benefits generating plan (PGBL) is of the defined contribution type, which permits the accumulation of savings by participants over their professional careers through contributions paid by themselves and the sponsoring company. The related resources are invested in an Exclusive Financial Investment Fund FIFE.

The program is managed by Bradesco Vida e Previdência S.A. and BRAM - Bradesco Asset Management Ltda. is responsible for the financial administration of the FIFE funds.

The contributions paid by employees and by Bradesco and its subsidiaries total 4% of salary, except for participants who in 2001 opted to migrate to the PGBL plan from the defined benefits plan and whose contributions to the PGBL plan were maintained at the levels in force for the defined benefits plan at the time of migration, respecting nevertheless the 4% minimum.

The actuarial liabilities of the defined contribution plan (PGBL) at September 30, 2003 total R\$ 849,304 thousand and are fully covered by the net equity of the corresponding FIFE fund.

As well as the aforementioned defined contribution plan (PGBL), former participants of the defined benefits plan are guaranteed a proportional deferred benefit, corresponding to their accumulated rights in the latter plan. For participants of the defined benefits plan, transferred or not to the PGBL plan, retired participants and pensioners, the present value of the plan s actuarial liabilities at September 30, 2003 totals R\$ 1,573,983 thousand and is fully covered by guaranteeing assets.

The subsidiary Banco Baneb S.A. (into which Banco BEA S.A. was merged Note 2) maintains a supplementary pension plan managed by Caixa de Previdência dos Funcionários do BEA CABEA, which is currently undergoing a sponsorship withdrawal process, with base date established at November 30, 2002 and whose sponsor s contributions ceased from December 1, 2002. The participants ceased to contribute as from the same date. The plan s actuarial liabilities are fully covered by the net asset of the plans.

The subsidiary Banco Baneb S.A. and its subsidiaries are sponsors of supplementary pension plans of the defined contribution and defined benefits type, through Fundação Baneb de Seguridade Social BASES (for former Baneb employees). The actuarial liabilities of the defined contribution and defined benefit plans are fully covered by the net assets of the plans.

The funds guaranteeing the private pension plans are invested in compliance with applicable legislation (government securities and corporate bonds, listed company stock and real estate).

Expenses with contributions made during the period totaled R\$ 221,367 thousand (2002 - R\$ 100,983 thousand).

In addition, Bradesco and its subsidiaries offer their employees and directors a number of other benefits including: healthcare insurance, dental care, group life and personal accident insurance, as well as professional training, the expenses for which, including the aforementioned contributions, totaled R\$ 752,015 thousand (2002 - R\$ 570,782 thousand) for the period.

Independent auditors report on special review

To The Administrative Council and Stockholders Banco Bradesco S.A. Osasco -SP

We have performed special review of the consolidated interim report of Banco Bradesco S.A. and its subsidiaries for the nine-month periods ended September 30, 2003 and 2002, comprising the balance sheets, the statements of income and changes in financial position and the respective notes to the consolidated interim report, which were prepared in conformity with accounting practices adopted in Brazil.

Our review was performed in conformity with the specific rules established by the Brazilian Institute of Independent Auditors (IBRACON), jointly with the Brazilian Federal Accounting Council, and consisted mainly of: (a) inquiries and discussions with the managers responsible for the accounting, financial and operational areas of the Bank and its subsidiaries, regarding to the principal criteria adopted in the preparation of the interim reports; and (b) review of information and subsequent events that have or may have a significant effect on the financial position and operations of Banco Bradesco S.A. and its subsidiaries.

Based on our special review, we are not aware of any significant modifications that should be made to the aforementioned consolidated interim report for it to be in conformity with accounting practices adopted in Brazil.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
