Report of Independent Registered Public Accounting Firm

To the Administrator and Plan Participants of the
United States Steel Corporation
Savings Fund Plan for Salaried Employees

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of the United States Steel Corporation Savings Fund Plan for Salaried Employees (the “Plan”) as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the years then ended, including the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Plan’s management. Our responsibility is to express an opinion on the Plan’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Supplemental Information

The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year) at December 31, 2017 has been subjected to audit procedures performed in conjunction with the audit of the Plan’s financial statements. The supplemental schedule is the responsibility of the Plan’s management. Our audit procedures included determining whether the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

Pittsburgh, Pennsylvania
June 11, 2018

We have served as the Plan's auditor since at least 1981. We have not determined the specific year we began serving as auditor of the Plan.

UNITED STATES STEEL CORPORATION SAVINGS FUND PLAN FOR SALARIED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

December 31, 2017 and 2016

Plan description - The following description provides general information regarding the United States Steel Corporation Savings Fund Plan for Salaried Employees (the Plan), a defined contribution plan which covers substantially all domestic non-union salaried employees of United States Steel Corporation (the Company or the 1. Plan Sponsor) and designated Employing Companies. Eligibility begins in the month following the month of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants should refer to the Summary Plan Description and the Plan Text for a complete description of the Plan. These documents are available from the United States Steel and Carnegie Pension Fund (the Plan Administrator).

Contributions - The Plan receives (1) Participant contributions (a) as pre-tax, after-tax and/or Roth 401(k) savings, and/or (b) rollover contributions, and (2) Employer contributions, as matching contributions and/or non-contributory defined contribution Retirement Account contributions. Each component of contributions is described in further detail below. Eligible employees may save from 1 percent to 16 percent of base salary (35 percent if annual base salary in the immediately preceding year is equal to or less than the threshold amount for determining highly compensated employees for the year preceding the year in which savings occur) in half percent increments on a pre-tax basis, an after-tax basis, as after-tax Roth 401(k) savings or a combination thereof. Other qualified plan limits include:

	2017	2016
Dollar Limit on IRC Sec. 401(k) pre-tax contributions	\$18,000	\$18,000
Dollar Limit on IRC Sec. 414(v) catch-up contributions	\$6,000	\$6,000
Maximum covered compensation [IRC 401(a)(17)]	\$270,000	\$265,000
Highly Compensated Employee Definition	\$120,000	\$120,000

The Plan has an auto-enrollment feature where eligible employees are automatically enrolled in the Plan at a pre-tax contribution percentage of 3 percent per pay period, unless they make an affirmative election not to contribute to the Plan or to contribute a different percentage. Additionally, the Plan has an auto-escalation feature where the initial 3 percent pre-tax contribution percentage will automatically increase by 1 percent on the enrollment anniversary date each year until the contribution percentage reaches 6 percent. Participants may, at any time, change their contribution percentage or suspend any future deductions from their pay. The auto-escalation feature is available to all participants, even if they were not automatically enrolled. The annual increase feature applies to Roth 401(k) savings where a participant has a Roth 401(k) savings election, but not a pre-tax savings election.

Savings on the first 6 percent of base salary are matched by company contributions on a dollar-for-dollar basis. Matching company contributions, which vest when a participant attains three years of continuous service, are initially invested in United States Steel Corporation common stock, whereas each participating employee has the option of having savings invested in full increments of 1 percent among twenty-one active investment options as of December 31, 2017 (see Notes 1(f), 9 and 11). Eligible participants may also contribute amounts representing the direct rollover of pre-tax funds from a qualified retirement plan sponsored by any previous employer or a conduit IRA, or from the United States Steel Corporation Plan for Employee Pension Benefits (Revision of 2003). The Plan allows direct rollovers of a lump-sum distribution from a designated Roth account under a qualified 401(k) plan sponsored by any of the employee's previous employers. All investments are participant directed.

Until March 31, 2017, Marathon Oil Corporation (MOC) common stock held in the Marathon Stock Fund and Marathon Petroleum Corporation (MPC) common stock held in the Marathon Petroleum Stock Fund remained as options in the Plan but were closed to new investments. Participants were prohibited from purchasing additional shares of the Marathon Stock Fund and Marathon Petroleum Stock Fund, but continued to have the option to hold,

sell, or withdraw their investment in the respective fund. Dividends from such shares continued to be reinvested in their respective fund shares. Effective November 10, 2016, the Plan was amended to remove Marathon Oil Corporation stock and Marathon Petroleum Corporation stock as investment options and transfer existing balances to the applicable default investment option effective as of the close of business March 31, 2017.

Separate investment elections may be made for Employee Savings (pre-tax savings, after-tax savings, Roth 401(k) savings, catch-up contributions and Roth 401(k) catch-up contributions), Retirement Account contributions, rollover account contributions and Roth 401(k) rollover account contributions. All contributions are deposited in the trust on a monthly basis (more frequently in the case of employee contributions for eligible employees paid on a more frequent basis). Monies deposited are reinvested by Fidelity Management Trust Company ("the Trustee") in the investment options specified.

UNITED STATES STEEL CORPORATION SAVINGS FUND PLAN FOR SALARIED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

December 31, 2017 and 2016

Eligible employees under the Plan (except for union-represented guardworkers at U. S. Steel Tubular Products, Inc.'s Lone Star Plant at Lone Star Tubular Operations) participate in a non-contributory defined contribution Retirement Account maintained under the Plan. With respect to the defined contribution Retirement Account, the Employing Companies make contributions, depending on age and base salary, to the employee's account on a monthly basis. Percentages are based upon the age of the participant as of the first day of the month and eligible salary at the time of the contribution, as noted below:

Age	Percentage of Monthly Base Salary
Less than 35	4.75%
35 to less than 40	6%
40 to less than 45	7.25%
45 and above	8.5%

Participants become fully vested in the value of the Retirement Account after attaining three years of continuous service.

Prior to 2016, eligible employees who accrued continuous service for benefit accrual purposes under the United States Steel Corporation Plan for Employee Pension Benefits (Revision of 2003) were excluded from the Retirement Account.

Payment of benefits - Unmatched after-tax savings can be withdrawn at any time. Pre-tax savings and earnings thereon and Roth 401(k) savings and earnings thereon are available only for withdrawal at termination of employment or age 59½, except under certain financial hardship conditions. Vested company contributions and earnings are available for withdrawal, upon vesting, except that vested company contributions and a participant's matched after-tax savings cannot be withdrawn in a partial withdrawal within 24 months after the contribution is made. Terminated employees with a vested account balance of more than \$1,000 (including any unpaid loan balance) may defer distribution until age 70 ½. A participant who terminates employment for any reason, and who, b. on the effective date of termination, had three or more years of continuous service, is entitled to receive his or her entire account balance, including all company contributions. A participant who terminates employment for any reason with less than three years of continuous service will forfeit nonvested company contributions unless termination is by reason of permanent layoff, total and permanent disability, involuntary termination of employment under circumstances which would qualify the participant for benefits under the United States Steel Corporation Supplemental Unemployment Benefit Program for Non-Union Employees, or death. Forfeiture occurs as of the date on which the participant (i) incurs five consecutive one year breaks in continuous service, or (ii) if earlier, receives a distribution of the entire vested portion of his account.

Forfeited accounts - Any forfeited nonvested company contributions (\$0.959 million in 2017 and \$1.057 million in 2016), from either matching company contributions or Retirement Account contributions, are credited to the c. Company and applied to reduce any subsequent company contributions required under the Plan. In 2017 and 2016, company contributions were reduced by \$1.017 million and \$1.045 million, respectively, from forfeited nonvested accounts. Forfeitures occurring on or after January 1, 2015 may be applied to plan expenses.

d. Participant accounts - Under the investment transfer provisions, and absent any trade restrictions under Section 16b of the Securities Exchange Act, a participant can elect to transfer funds (including matching company contributions) between investments on a daily basis. Transfer requests made before the time that markets close on a day stock

markets are open are processed after markets close that same day. All other transfer requests are processed after markets close on the next day that the stock markets are open. Transfers are permitted on a daily basis but may be subject to fund specific restrictions and limited by other pending transfers. Fund restrictions include short-term trading fees charged by the T. Rowe Price Emerging Markets Stock Fund equal to 2% of the value sold when selling shares after holding them less than 90 days. Prior to December 12, 2016, three additional investment options had short term trading fees:

- 1) Fidelity Diversified International Fund - Class K charges a fee equal to 1% of the value sold when selling shares after holding them less than 30 days.
- 2) Fidelity Low-Priced Stock Fund - Class K charges a fee equal to 1.5% of the value sold when selling shares after holding them less than 90 days.
- 3) Fidelity Real Estate Investment Portfolio charges a fee equal to 0.75% of the value sold when selling shares after holding them less than 90 days.

In addition, Fidelity has implemented an excessive trading policy in the mutual funds it offers under the Plan that also applies to certain non-Fidelity funds at the request of the applicable fund manager or Plan Sponsor. Final regulations under ERISA section 408(b)(2) require Fidelity to disclose to participants the following information: 1) a description of any compensation that will be charged directly against the amount invested in connection with the acquisition, sale, transfer of, or withdrawal from an investment; 2) a description of the annual operating expenses if the return is not fixed; and 3) a description of any ongoing expenses in addition to annual operating expenses.

UNITED STATES STEEL CORPORATION SAVINGS FUND PLAN FOR SALARIED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

December 31, 2017 and 2016

All or part of the taxable portion of a lump-sum distribution from the United States Steel Corporation Plan for Employee Pension Benefits may be rolled over into an eligible participant's account within 60 days following receipt of the distribution. Eligible participants may also roll over assets from the qualified plans of their immediately preceding employer (or from a conduit IRA solely containing such assets and earnings). Rollovers into the Plan for 2017 and 2016 totaled \$28.9 million and \$45.4 million, of which \$25.0 million and \$43.4 million were transferred from the United States Steel Corporation Plan for Employee Pension Benefits, respectively.

Notes receivable from participants - The loan program enables participants to borrow up to 50 percent of the value of their vested account (other than the Retirement Account) subject to certain provisions. The maximum loan amount is \$50,000 and the minimum loan amount is \$500. Repayments of loans are made in level monthly installments over a period of not less than twelve months or more than 60 months. A maximum of two loans can be outstanding at any one time. The interest rate on loans is the Prime Rate as provided by Reuters as of Markets Close e. on the last business day of the prior month plus one percent (for plan loans approved in any month before July 1, 2014, the rate was the rate charged on fully secured loans by the USX Federal Credit Union plus one-half of one percent) and remains fixed for the duration of the loan (5.25 percent and 4.25 percent in 2017 and 2016, respectively). Prepayment of the entire outstanding loan can be made at any time without penalty. When payments are not timely received, the loan amount outstanding at that time becomes subject to taxation. Loans are recorded at net realizable value in the financial statements.

f. Investment options - Please refer to the Summary Plan Description for details on the investment options offered by the Plan.

2. Accounting policies:

a. Basis of accounting - Financial statements are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

b. Use of estimates - The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Investment valuation - The Plan's investments are stated at fair value as defined by ASC Topic 820, Fair Value Measurement (see Note 11).

d. Net appreciation/depreciation - The Plan presents in the accompanying Statements of Changes in Net Assets Available for Benefits the net appreciation/depreciation in the fair value of its investments which consists of the net realized gains or losses and the net unrealized appreciation or depreciation on those investments.

e. Investment by the trustee - The Trustee shall invest any monies received with respect to any investment option in the appropriate shares, units or other investments as soon as practicable. Purchases and sales of securities are recorded on a trade-date basis.

f. Administrative expenses - The Plan is responsible for the payment of all costs and expenses incurred in administering the Plan, including the expenses of the Plan Administrator, record keeping fees, the fees and expenses of the Trustee and other legal and administrative expenses. To cover these expenses, the Plan Administrator shall

utilize the following sources in the priority listed: (1) fees received from any fund provider to reimburse the Plan Administrator for services provided by the Plan Administrator which would otherwise have been provided by the fund provider (i.e., revenue sharing), (2) loan origination fees, (3) settlement proceeds and other miscellaneous items, (4) voluntary contributions from the Employing Companies to cover cost of administration and (5) assessments against participants' individual accounts. There were no assessments against participants' individual accounts in either 2017 or 2016.

g. Payment of benefits - Benefits are recorded when paid.

h. Income recognition - Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Participant loans - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Loans in default are classified as benefit payments to the participants based upon the terms of the Plan.

i. Excess contributions payable - Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

UNITED STATES STEEL CORPORATION SAVINGS FUND PLAN FOR SALARIED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

December 31, 2017 and 2016

Recent accounting pronouncements - On August 27, 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2014-15, Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern (ASU 2014-15). ASU 2014-15 explicitly requires management to assess an entity's ability to continue as a going concern, and to provide related footnote disclosures in certain circumstances. Previously, there was no guidance in US GAAP about management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern or to provide related footnote disclosures. ASU 2014-15 is effective for all entities for interim and annual periods beginning after December 15, 2016; early application is permitted. The adoption of ASU 2014-15 did not have a disclosure impact to the Plan's financial statements.

1. Subsequent events - The Plan has evaluated subsequent events through June 11, 2018, the date on which the financial statements were available to be issued.

3. Plan amendments - Effective April 1, 2018, the Plan was amended to reflect a change in the recordkeeper's loan repayment process for inactive employees, and for minor technical corrections and clarifications.

Effective January 1, 2018, the Plan was amended for a change in how the recordkeeper processes loan defaults occurring on or after January 1, 2018 and to reflect an updated investment option name.

Effective January 1, 2018, the Plan's definition of total and permanent disability was amended.

Effective for transactions initiated on or after September 5, 2017, the Plan was amended to shorten the settlement cycle from three business days to two business days after the trade for buy and sell transactions involving Company Stock, and for a minor technical correction.

Effective April 1, 2017, the Plan was amended and restated to provide that all or part of forfeited Company Matching Contributions and Retirement Account Contributions (and the earnings thereon) may, if elected by the Plan Administrator, be used to fund qualified nonelective contributions (QNEC Contributions) and to make various technical corrections and clarifications.

Effective April 1, 2017, the Plan was amended to remove references to the Marathon Oil Corporation and Marathon Petroleum Corporation stock investment options.

Effective December 31, 2016, the Plan was amended to reflect the updated names of Transtar, LLC and Union Railroad Company, LLC.

Effective November 10, 2016, the Plan was amended to remove Marathon Oil Corporation stock and Marathon Petroleum Corporation stock as investment options and transfer existing balances to the applicable default investment option effective as of the close of business March 31, 2017.

Effective October 3, 2016, the Plan was amended to adopt a managed accounts service, and for other miscellaneous technical clarifications and updates including changes to the withdrawal rules, loan rules, default investment options and the transfer date for U. S. Steel Seamless Tubular Operations, LLC non-union employees as part of the tubular reorganization (to March 1, 2016) and other provisions.

Edgar Filing: UNITED STATES STEEL CORP - Form 11-K

Effective August 1, 2016, the Plan was amended to change the name of the share class for the Fidelity Freedom Index funds.

Effective February 29, 2016, the Plan was amended to reflect the restructuring of U. S. Steel's tubular business and designate U. S. Steel Seamless Tubular Operations, LLC as an employing company.

Effective February 1, 2016, the Plan was amended to clarify and update the designation schedules to better reflect the needs of the applicable businesses.

Effective January 26, 2016, the Plan was amended to indicate that eligible employees impacted by the pension plan freeze were automatically enrolled into the Retirement Account and to clarify the Retirement Account provisions and default investment elections.

Effective January 1, 2016, the Plan was amended to further clarify that plan terms were consistent with recent IRS guidance on same-sex marriage.

Transfers to the plan - Net transfers to the plan total \$0.5 million in 2017 and \$0.1 million in 2016. For both years the transfers were primarily related to voluntary direct plan transfers from the USS 401(k) Plan for

4. USW-Represented Employees for employees who transferred from union positions to eligible non-represented positions.

5. Employer-related investments - Purchases and sales of Company common stock in accordance with provisions of the Plan are permitted under ERISA.

UNITED STATES STEEL CORPORATION SAVINGS FUND PLAN FOR SALARIED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

December 31, 2017 and 2016

6. Tax status - The IRS has determined and informed the Plan Sponsor by letter dated January 30, 2014 that the Plan, as amended and restated effective January 1, 2013, continues to qualify under §401(a) of the Internal Revenue Code of 1986, as amended, and its related trust is exempt from tax under §501(a) of the Internal Revenue Code of 1986, as amended. The Plan has been amended subsequent to the amendments taken into account by the Internal Revenue Service in conjunction with its issuance of the January 30, 2014 determination letter. The Plan Sponsor and Tax Counsel for the Plan believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believe that the Plan is qualified and the related trust is tax-exempt.

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no active audits in progress for any tax periods. The Plan Sponsor believes it is no longer subject to examinations by the Internal Revenue Service for the years prior to 2012.

7. Plan termination - The Plan Sponsor believes the existence of the Plan is in the best interest of its employees and, although it has no intention of discontinuing it, the Plan Sponsor has the right under the Plan to terminate the Plan in whole or in part at any time for any reason. However, in the event of Plan termination, participants would become 100% vested in their employer contributions and the net value of the assets of the Plan shall be allocated among the participants and beneficiaries of the Plan in compliance with ERISA.

8. Risks and uncertainties - Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these investments and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

9. Stable value common collective trust - The Plan invests in stable value wrap contracts through a stable value common collective trust, the Fidelity Managed Income Portfolio II - Class 3 (MIP II). This investment option calculates its net asset value per unit as of the close of business of the New York Stock Exchange. Investments in wrap contracts are fair valued using a discounted cash flow model which considers recent fee bids as determined by recognized dealers, discount rate and the duration of the underlying portfolio of securities. Underlying debt securities for which quotations are readily available are valued at their most recent bid prices in the principal market in which such securities are normally traded. MIP II consists of seven wrap contracts, which calls for the application of ASC 962-325 (Plan Accounting-Defined Contribution Pension Plans - Investments - Other) for valuation purposes. MIP II is classified as a common collective trust and is classified as an investment measured at net asset value since a market price is not available for this investment in an active market.

As an investment option in the Plan, there are no restrictions on redemptions for this fund. If the Plan were to initiate a full redemption of the collective trust, then the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments related to this investment.

Because the wrap contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the wrap contracts. Contract value, as reported to the Plan by the wrap contract issuers, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

10. Related party transactions - Certain investments of the Plan are mutual funds and common collective trusts managed by Fidelity Investments. Therefore, these transactions qualify as party-in-interest transactions. The Trustee collects management fees by offsetting the investment return in an amount as noted by the investment's expense ratio. Therefore, the Plan is not directly billed for these fees.

One investment fund option available to participants is Company common stock. As a result, transactions related to this investment fund qualify as party-in-interest transactions (see Note 5). Dividends received for 2017 and 2016 were \$1.0 million and \$1.3 million, respectively. Purchases and sales for 2017 were \$56.5 million and \$64.9 million, respectively, and purchases and sales for 2016 were \$50.8 million and \$106.8 million, respectively.

The Plan also holds notes receivable totaling \$11.9 million and \$12.3 million in 2017 and 2016, respectively, representing participant loans that qualify as party-in-interest transactions.

UNITED STATES STEEL CORPORATION SAVINGS FUND PLAN FOR SALARIED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

December 31, 2017 and 2016

Fair value measurement - ASC Topic 820 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Plan's investments, and requires additional disclosure about fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are summarized below.

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Partnership has the ability to access.

Level 2 - Inputs to the valuation methodology include

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan's assets are classified as follows:

Level 1

Interest-bearing cash

Common stock

Mutual Funds

An instrument's level is based on the lowest level of any input that is significant to the fair value measurement. Interest-bearing cash is an investment in a short-term money market fund that is valued at \$1 per share, which approximates fair value. Common stock is valued at the closing price reported on the active market on which the individual securities are traded. Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. The stable value common collective trust is composed primarily of fully benefit-responsive investment contracts that are valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding valuation methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Refer to Note 9 for a description of the stable value common collective trust.

There were no Level 2 or 3 assets at December 31, 2017 or December 31, 2016.

There were no transfers between Levels 1, 2 or 3 during the year ended December 31, 2017.

UNITED STATES STEEL CORPORATION SAVINGS FUND PLAN FOR SALARIED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

December 31, 2017 and 2016

The following is a summary of the Plan's assets carried at fair value:

Investments at Fair Value at December 31, 2017

(\$ in thousands)

Asset Classes	Total	Quoted Prices (Level 1)
Interest-bearing cash	\$12,348	\$12,348
Common stock	170,022	170,022
Mutual Funds	864,721	864,721
Total assets in the fair value hierarchy	\$1,047,091	\$1,047,091
Investments measured at net asset value (a)	222,858	
Investments at fair value	\$1,269,949	

Investments at Fair Value at December 31, 2016

(\$ in thousands)

Asset Classes	Total	Quoted Prices (Level 1)
Interest-bearing cash	\$18,469	\$18,469
Common stock	199,380	199,380
Mutual Funds	701,607	701,607
Total assets in the fair value hierarchy	\$919,456	\$919,456
Investments measured at net asset value (a)	233,303	
Investments at fair value	\$1,152,759	

In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are (a) intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits. These investments represent holdings in the stable value common collective trust.
