Hawaiian Holdings, Inc.
Notes to Consolidated Financial Statements (Unaudited)

1. Business and Basis of Presentation

Hawaiian Holdings, Inc. (the Company or Holdings) is a holding company incorporated in the State of Delaware. The Company's primary asset is its sole ownership of all issued and outstanding shares of common stock of Hawaiian Airlines, Inc. (Hawaiian). The accompanying unaudited financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X of the U.S. Securities and Exchange Commission (SEC). Accordingly, these interim financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, the accompanying financial statements contain all adjustments, including normal recurring adjustments, necessary for the fair presentation of the Company's results of operations and financial position for the periods presented. Due to seasonal fluctuations, among other factors common to the airline industry, the results of operations for the periods presented are not necessarily indicative of the results of operations to be expected for the entire year. The accompanying unaudited Consolidated Financial Statements should be read in conjunction with the financial statements and the notes of the Company included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

2. Significant Accounting Policies

Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2014-09, Revenue from Contracts with Customers (ASU 2014-09), requiring an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASU 2014-09 will replace most existing revenue recognition guidance in GAAP when it becomes effective. In July 2015, the FASB voted to defer the amendments in ASU 2014-09 by one year to December 15, 2017. The terms of ASU 2014-09 are effective for fiscal years, and interim periods within those fiscal years, beginning after the revised effective date, and allow for either full retrospective or modified retrospective adoption. Organizations are permitted to adopt the new revenue standard early, but not before December 15, 2016.

The Company is currently evaluating the effect that the provisions of ASU 2014-09 will have on its consolidated financial statements and related disclosures. We have determined that the new standard, once effective, will preclude the Company from accounting for miles earned under its HawaiianMiles customer loyalty program using the incremental cost method, and will require use of the deferred revenue method. This change could have a significant impact on the Company's financial statements.

In April 2015, the FASB issued Accounting Standards Update 2015-03, Simplifying the Presentation of Debt Issuance Costs (ASU 2015-03), requiring an entity to present its debt issuance costs on the balance sheet as a deduction from the carrying amount of the related debt liability instead of a deferred charge. It is effective for annual reporting periods beginning after December 15, 2015, but early adoption is permitted. We are currently evaluating the impact the adoption of this standard will have on the Company's financial statements.

3. Accumulated Other Comprehensive Loss

Reclassifications out of accumulated other comprehensive loss by component is as follows:

4. Earnings Per Share

Basic earnings per share, which excludes dilution, is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding for the period.

Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. For the three and nine months ended September 30, 2015 and 2014, anti-dilutive shares excluded from the calculation of diluted earnings per share were not material.

	Three Months Ended September 30, 2015		Nine Months Ended September 30, 2015	
	2014		2014	
	(in thousands, except for per share data)			
Numerator:				
Net Income	\$70,029	\$35,575	\$144,746	\$57,827
Denominator:				
Weighted average common stock shares outstanding - Basic	53,731	53,878	54,266	53,359
Assumed exercise of stock options and awards	396	848	458	1,061
Assumed conversion of convertible note premium	350	4,965	1,618	4,498
Assumed conversion of warrants	6,351	3,359	6,139	2,767
Weighted average common stock shares outstanding - Diluted	60,828	63,050	62,481	61,685
Net Income Per Share				
Basic	\$1.30	\$0.66	\$2.67	\$1.08
Diluted	\$1.15	\$0.56	\$2.32	\$0.94

Convertible Note Transaction

In March 2011, the Company entered into a convertible note transaction which included the sale of convertible notes, purchase of call options and sale of warrants. As of September 30, 2015, the Company's 5% Convertible Notes due in 2016 ("Convertible Notes") had an outstanding principal balance of \$3.3 million and can be redeemed with either cash or the Company's common stock, or a combination thereof, at the Company's option. During the three and nine months ended September 30, 2015, the Company repurchased \$1.0 million and \$67.8 million in principal of the Convertible Notes, respectively. The 0.4 million shares into which the currently outstanding Convertible Notes can be converted will not impact the dilutive earnings per share calculation in the current and future periods under the if-converted method, as the Company has the intent and ability to redeem the principal amount of the Convertible Notes with cash.

During the three and nine months ended September 30, 2015 and 2014 the average share price of the Company's common stock exceeded the conversion price of \$7.88 per share. Therefore, shares related to the conversion premium of the Convertible Notes (for which share settlement is assumed for earnings per share purposes) are included in the Company's computation of diluted earnings per share.

In connection with the issuance of the Convertible Notes, the Company entered into separate call option transactions and separate warrant transactions with certain financial investors to reduce the potential dilution of the Company's common stock and to offset potential payments by the Company to holders of the Convertible Notes in excess of the principal of the Convertible Notes upon conversion.

The call options to repurchase the Company's common stock will always be antidilutive and, therefore, will have no effect on diluted earnings per share and are excluded from the table above.

During the three and nine months ended September 30, 2015 and 2014 the average share price of the Company's common stock exceeded the warrant strike price of \$10.00 per share. Therefore, the assumed conversion of the warrants is included in the Company's computation of diluted earnings per share.

Stock Repurchase Program

In April 2015, the Company's Board of Directors approved a stock repurchase program under which the Company may repurchase up to \$100 million of its outstanding common stock over a two-year period through the open market, established plans or privately negotiated transactions in accordance with all applicable securities laws, rules and

regulations. The stock repurchase program is subject to modification or termination at any time. The Company spent \$20.0 million and \$37.7 million to repurchase approximately 0.9 million and 1.6 million shares of the Company's common stock in open market transactions during the three and nine months ended September 30, 2015, respectively. As of September 30, 2015, the Company has \$62.3 million remaining to spend under the stock repurchase program. See Part II, Item 2., "Unregistered Sales of Equity Securities and Use of Proceeds" of this report for additional information on the stock repurchase program.

5. Short-Term Investments

Debt securities that are not classified as cash equivalents are classified as available-for-sale investments and are stated at fair value. Realized gains and losses on sales of investments are reflected in nonoperating income (expense) in the unaudited consolidated statements of operations. Unrealized gains and losses on available-for-sale securities are reflected as a component of accumulated other comprehensive loss.

The following is a summary of short-term investments held as of September 30, 2015 and December 31, 2014:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
September 30, 2015	(in thousands)			
Corporate debt	\$169,615	\$84	\$(205)) \$169,494

Contractual maturities of short-term investments as of September 30, 2015 are shown below.

	Under 1 Year (in thousands)	1 to 5 Years	Total
Corporate debt	\$72,807	\$96,687	\$169,494
U.S. government and agency debt	12,441	35,631	48,072
Municipal bonds	16,961	7,038	23,999
Other fixed income securities	22,371	1,501	23,872
Total short-term investments	\$124,580	\$140,857	\$265,437

The Company classifies investments as current assets as these securities are available for use in its current operations.

6. Fair Value Measurements

ASC Topic 820, Fair Value Measurement (ASC 820) clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1 — Observable inputs such as quoted prices in active markets for identical assets or liabilities;

Level 2 — Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term for the assets or liabilities; and

Level 3 — Unobservable inputs for which there is little or no market data and that are significant to the fair value of the assets or liabilities.

The tables below present the Company's financial assets and liabilities measured at fair value on a recurring basis:

Fair Value Measurements as of September 30, 2015				
	Total	Level 1	Level 2	Level 3
	(in thousands)			
Cash equivalents	\$ 150,388	\$ 133,602	\$ 16,786	\$—

Short-term investments	265,437	—	265,437	—
Fuel derivative contracts:	0			
Heating oil put options	3,480	—	3,480	—
Heating oil swaps	12	—	12	—
Foreign currency derivatives	10,620	—	10,620	—
Total assets measured at fair value	\$ 434,937	\$ 138,602	\$ 296,335	\$—
Fuel derivative contracts:				
Heating oil swaps	\$ 27,165	\$—	\$ 27,165	\$—
Foreign currency derivatives	368	—	368	—
Interest rate derivatives	3,175	—	3,175	—
Total liabilities measured at fair value	\$ 30,708	\$—	\$ 30,708	\$—
Fair Value Measurements as of December 31, 2014				
	Total	Level 1	Level 2	Level 3
	(in thousands)			
Cash equivalents	\$ 55,072	\$ 35,913	\$ 19,159	\$—
Restricted cash	6,566	6,566	—	—
Short-term investments	260,121	—	260,121	—
Fuel derivative contracts:	0			
Heating oil put options	32,637	—	32,637	—
Foreign currency derivatives	19,746	—	19,746	—
Total assets measured at fair value	\$ 374,142	\$ 42,479	\$ 331,663	\$—
Fuel derivative contracts:				
Heating oil swaps	\$ 71,447	\$—	\$ 71,447	\$—
Interest rate derivative	129	—	129	—
Negative arbitrage derivative	500	—	—	500
Total liabilities measured at fair value	\$ 72,076	\$—	\$ 71,576	\$ 500

Cash equivalents. The Company's cash equivalents consist of money market securities, U.S. agency bonds, foreign and domestic corporate bonds, and commercial paper. The instruments classified as Level 2 are valued using quoted prices for similar assets in active markets.

Restricted cash. The Company's restricted cash consist of money market securities.

Short-term investments. Short-term investments include U.S. and foreign government notes and bonds, U.S. agency bonds, variable rate corporate bonds, asset backed securities, foreign and domestic corporate bonds, municipal bonds, and commercial paper. These instruments are valued using quoted prices for similar assets in active markets or other observable inputs.

Fuel derivative contracts. The Company's fuel derivative contracts consist of heating oil puts and swaps which are not traded on a public exchange. The fair value of these instruments are determined based on inputs available or derived

from public markets including contractual terms, market prices, yield curves and measures of volatility among others.

Foreign currency derivatives. The Company's foreign currency derivatives consist of Japanese Yen and Australian Dollar forward contracts and are valued based primarily on data available or derived from public markets.

Interest rate derivatives. The Company's interest rate derivatives consists of interest rate swaps and is valued based primarily on data available or derived from public markets.

The table below presents the Company's debt (excluding obligations under capital leases) measured at fair value:

September 30, 2015					December 31, 2014				
Carrying	Fair Value				Carrying	Fair Value			
Amount	Total	Level 1	Level 2	Level 3	Amount	Total	Level 1	Level 2	Level 3
(in thousands)					(in thousands)				
\$816,897	\$815,578	\$—	\$3,224	\$812,354	\$947,897	\$956,811	\$—	\$69,766	\$887,045

The fair value estimates of the Company's debt were based on either market prices or the discounted amount of future cash flows using the Company's current incremental rate of borrowing for similar liabilities.

The carrying amounts of cash, other receivables and accounts payable approximate fair value due to the short-term nature of these financial instruments.

7. Financial Derivative Instruments

The Company uses derivatives to manage risks associated with certain assets and liabilities arising from the potential adverse impact of fluctuations in global fuel prices and foreign currencies.

Fuel Risk Management

The Company's operations are inherently dependent upon the price and availability of aircraft fuel. To manage economic risks associated with fluctuations in aircraft fuel prices, the Company periodically enters into derivative financial instruments. During the three and nine months ended September 30, 2015, the Company primarily used heating oil puts and swaps to hedge its aircraft fuel expense. These derivative instruments were not designated as hedges under ASC Topic 815, Derivatives and Hedging (ASC 815), for hedge accounting treatment. As a result, any changes in fair value of these derivative instruments are adjusted through other nonoperating income (expense) in the period of change.

The following table reflects the amount of realized and unrealized gains and losses recorded as nonoperating income (expense) in the unaudited Consolidated Statements of Operations.

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2015	2014	2015	2014
	(in thousands)			
Fuel derivative contracts				
Losses realized at settlement	\$(13,777)	\$(4,632)	\$(44,921)	\$(6,530)
Reversal of prior period unrealized amounts	9,953	56	38,293	(1,816)
Unrealized losses on contracts that will settle in future periods	(21,185)	(23,316)	(22,042)	(20,160)
Losses on fuel derivatives recorded as Nonoperating income (expense)	\$(25,009)	\$(27,892)	\$(28,670)	\$(28,506)

Foreign Currency Exchange Rate Risk Management

The Company is subject to foreign currency exchange rate risk due to revenues and expenses denominated in foreign currencies, with the primary exposures being the Japanese Yen and Australian Dollar. To manage exchange rate risk,

the Company executes its international revenue and expense transactions in the same foreign currency to the extent practicable.

The Company enters into foreign currency forward contracts to further manage the effects of fluctuating exchange rates. The effective portion of the gain or loss of designated cash flow hedges is reported as a component of accumulated other comprehensive income (AOCI) and reclassified into earnings in the same period in which the related sales are recognized as passenger revenue. The effective portion of the foreign currency forward contracts represents the change in fair value of the hedge that offsets the change in the fair value of the hedged item. To the extent the change in the fair value of the hedge does not perfectly offset the change in the fair value of the hedged item, the ineffective portion of the hedge is immediately recognized as nonoperating income (expense). Foreign currency forward contracts that are not designated as cash flow hedges

are recorded at fair value, and any changes in fair value are recognized as other nonoperating income (expense) in the period of change.

The Company believes that its foreign currency forward contracts that are designated as cash flow hedges will continue to be effective in offsetting changes in cash flow attributable to the hedged risk. The Company expects to reclassify a net gain of approximately \$12.0 million into earnings over the next 12 months from AOCI based on the values at September 30, 2015.

The following tables present the gross fair value of asset and liability derivatives that are designated as hedging instruments under ASC 815 and derivatives that are not designated as hedging instruments under ASC 815, as well as the net derivative positions and location of the asset and liability balances within the unaudited Consolidated Balance Sheets.

Derivative position as of September 30, 2015

	Balance Sheet Location	Notional Amount (in thousands)	Final Maturity Date	Gross fair value of assets (in thousands)	Gross fair value of (liabilities)	Net derivative position

Interest rate derivatives	778		668		536		618		—		—	

Risk and Collateral

The financial derivative instruments expose the Company to possible credit loss in the event the counterparties to the agreements fail to meet their obligations. To manage such credit risks, the Company (1) selects its counterparties based on past experience and credit ratings, (2) limits its exposure to any single counterparty, and (3) periodically monitors the market position and credit rating of each counterparty. Credit risk is deemed to have a minimal impact on the fair value of the

derivative instruments as cash collateral would be provided by the counterparties based on the current market exposure of the derivative.

The Company's agreements with its counterparties also requires the posting of cash collateral in the event the aggregate value of the Company's positions exceeds certain exposure thresholds that are based upon certain liquidity metrics of the Company. The aggregate fair value of the Company's derivative instruments that contain credit-risk related contingent features that are in a net liability position as of September 30, 2015 was \$26.8 million.

ASC 815 requires a reporting entity to elect a policy of whether to offset rights to reclaim cash collateral or obligations to return cash collateral against derivative assets and liabilities executed with the same counterparty under a master netting agreement, or present such amounts on a gross basis. The Company's accounting policy is to present its derivative assets and liabilities on a net basis, including any collateral posted with the counterparty. The Company had no collateral posted with counterparties as of September 30, 2015 and \$0.6 million in collateral posted with counterparties as of December 31, 2014.

The Company is also subject to market risk in the event these financial instruments become less valuable in the market. However, changes in the fair value of the derivative instruments will generally offset the change in the fair value of the hedged item, limiting the Company's overall exposure.

8. Debt

As of September 30, 2015, the expected maturities of long-term debt for the remainder of 2015 and the next four years, and thereafter, were as follows (in thousands):

Remaining months in 2015	\$16,186
2016	82,861
2017	82,092
2018	87,425
2019	99,070
Thereafter	449,317
	\$816,951

Convertible Notes

During the three and nine months ended September 30, 2015 a condition for conversion of the Convertible Notes was satisfied, which permits holders of the Convertible Notes to surrender their notes for conversion during the quarter ending December 31, 2015. Therefore, the principal balance is classified accordingly in the table above.

During the three and nine months ended September 30, 2015, the Company repurchased \$1.0 million and \$67.8 million, respectively, in principal of its Convertible Notes for an aggregate repurchase price of \$3.2 million and \$171.6 million, respectively. The cash consideration was allocated to the fair value of the liability component immediately before extinguishment and the remaining consideration was allocated to the equity component and recognized as a reduction of shareholders' equity.

The repurchase of the Convertible Notes resulted in a loss on extinguishment of \$0.1 million and \$7.3 million for the three and nine months ended September 30, 2015, respectively, which is reflected in nonoperating income (expense) in the unaudited Consolidated Statement of Operations.

Convertible Note Hedges and Warrants

The convertible note hedges and warrants described in Note 8 of the Company's Form 10-K for the year ended December 31, 2014 were outstanding as of September 30, 2015. Under the terms of the convertible note hedges, the counterparties will deliver to the Company an amount equal to the excess of the Company's stock price on the

settlement date and the exercise price of \$7.88 per share multiplied by 10.9 million shares. The convertible note hedges are currently exercisable and expire in March 2016.

Under the terms of the warrants, if the Company elects to deliver cash in lieu of shares, the Company will deliver to the counterparties an amount equal to the excess of the Company's stock price on the settlement date and the exercise price of

\$10.00 per share multiplied by 10.9 million shares. The convertible note hedge transaction and the warrant transactions may settle on different dates. The warrants expire at various dates beginning in June 2016.

9. Employee Benefit Plans

The components of net periodic benefit cost for the Company's defined benefit and other postretirement plans included the following:

Components of Net Period Benefit Cost	Three months ended September 30,		Nine months ended September 30,	
	2015	2014	2015	2014
	(in thousands)			
Service cost	\$4,006	\$3,162	\$12,456	\$9,066
Interest cost	7,454	6,839	22,232	20,811
Expected return on plan assets	(4,702)	(4,842)	(14,134)	(14,532)
Recognized net actuarial loss	3,012	49	8,486	499
Net periodic benefit cost	\$9,770	\$5,208	\$29,040	\$15,844

The Company contributed \$3.2 million and \$16.7 million to its defined benefit and other postretirement plans during the three and nine months ended September 30, 2015, respectively, including \$7.3 million above the minimum funding requirements. The Company contributed \$2.3 million and \$8.9 million to its defined benefit and other postretirement plans during the three and nine months ended September 30, 2014, respectively.

10. Commitments and Contingent Liabilities

Commitments

As of September 30, 2015, the Company had the following capital commitments consisting of firm aircraft and engine orders and purchase rights:

Aircraft Type	Firm Orders	Purchase Rights	Expected Delivery Dates
A330-200 aircraft	1	—	In 2015
A330-800neo aircraft	6	6	Between 2019 and 2021
A321neo aircraft	16	9	Between 2017 and 2020
Rolls-Royce spare engines:			
A330-800neo spare engines	2	—	Between 2019 and 2020
Pratt & Whitney spare engines:			
A321neo spare engines	2	—	Between 2017 and 2018

The Company has operating commitments with a third-party to provide aircraft maintenance services which require fixed payments as well as variable payments based on flight hours for its Airbus fleet through 2027. The Company also has operating commitments with third-party service providers for reservations, IT, and accounting services through 2025.

Committed capital and operating expenditures include escalation and variable amounts based on estimates. The gross committed expenditures and committed financings for those deliveries as of September 30, 2015 are detailed below:

Capital	Operating	Total Committed Expenditures	Less: Committed Financing for Upcoming Aircraft Deliveries*	Net Committed Expenditures
(in thousands)				

Edgar Filing: HAWAIIAN HOLDINGS INC - Form 10-Q

Remaining months in					
2015	\$54,051	\$17,878	\$ 71,929	\$ 48,138	\$23,791
2016	78,018	59,901	137,919	—	137,919
2017	220,806	58,637	279,443	—	279,443
2018	399,953	51,942	451,895	—	451,895
2019	488,553	47,362	535,915	—	535,915
Thereafter	442,888	264,181	707,069	—	707,069
	\$1,684,269	\$499,901	\$ 2,184,170	\$ 48,138	\$2,136,032

*See below for a detailed discussion of the committed financings Hawaiian has received for its upcoming capital commitments for aircraft deliveries.

Purchase Assignment and Lease Financing Agreement

Hawaiian has a commitment to assign its purchase of an Airbus A330-200 aircraft at delivery and simultaneously enter into a lease agreement for the aircraft with scheduled delivery in October 2015 with total committed lease financing of \$48 million. Both the gross capital commitment for the cost of the aircraft and the committed financing are reflected in the table above. The agreement has an initial lease term of 12 years and fixed monthly rental payments that will be determined upon delivery of the aircraft.

The anticipated future minimum payments for this lease are \$2.2 million for the remainder of 2015, \$8.4 million in each of the years 2016 through 2019, and \$65.4 million thereafter.

Aircraft Lease Commitment

Hawaiian entered into a six-year lease agreement for an Airbus A330-200 aircraft with an expected delivery date in the second quarter of 2016, which is not included in the table above. The Company will determine whether this lease will be classified as a capital or operating lease in the period it takes delivery of the aircraft.

The anticipated future minimum payments for this lease are \$5.1 million in 2016, \$8.9 million in each of the years 2017 through 2019, and \$21.5 million thereafter.

Litigation and Contingencies

The Company is subject to legal proceedings arising in the normal course of its operations. Management does not anticipate that the disposition of any currently pending proceeding will have a material effect on the Company's operations, business or financial condition.

General Guarantees and Indemnifications

In the normal course of business, the Company enters into numerous aircraft financing and real estate leasing arrangements that have various guarantees included in the contract. It is common in such lease transactions for the lessee to agree to indemnify the lessor and other related third-parties for tort liabilities that arise out of or relate to the lessee's use of the leased aircraft or occupancy of the leased premises. In some cases, this indemnity extends to related liabilities arising from the negligence of the indemnified parties, but usually excludes any liabilities caused by their gross negligence or willful misconduct. Additionally, the lessee typically indemnifies such parties for any environmental liability that arises out of or relates to its use of the real estate leased premises. The Company believes that it is insured (subject to deductibles) for most tort liabilities and related indemnities described above with respect to the aircraft and real estate that it leases. The Company cannot estimate the potential amount of future payments, if any, under the foregoing indemnities and agreements.

Credit Card Holdback

Under the Company's bank-issued credit card processing agreements, certain proceeds from advance ticket sales may be held back to serve as collateral to cover any possible chargebacks or other disputed charges that may occur. These holdbacks, which are included in restricted cash in the Company's unaudited Consolidated Balance Sheets, totaled \$5.0 million at September 30, 2015 and December 31, 2014.

In the event of a material adverse change in the business, the holdback could increase to an amount up to 100% of the applicable credit card air traffic liability, which would also cause an increase in the level of restricted cash. If the Company is unable to obtain a waiver of, or otherwise mitigate the increase in the restriction of cash, it could have a material adverse impact on the Company.

11. Supplemental Cash Flow Information

Non-cash investing and financing activities for the nine months ended September 30, 2015 and 2014 were as follows:

	Nine months ended September 30,

Certain Restrictions on Subsidiary Distributions, Dividends and Repurchases

The Company and Hawaiian are party to a Credit and Guaranty Agreement (Credit Agreement), dated as of November 7, 2014, that provides for a Revolving Credit Facility. See further discussion of the Revolving Credit Facility at Note 8 to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014. Pursuant to the terms of the Credit Agreement, neither Hawaiian nor any other subsidiary of the Company will directly or indirectly declare or pay any dividend, or purchase, redeem or otherwise acquire or retire for value any equity interests of the Company unless certain conditions are met.

Long-Term Debt

The long-term debt included in the Parent Issuer / Guarantor column represents the Convertible Notes described in Note 8 to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

Income Taxes

The income tax expense (benefit) is presented as if each entity that is part of the consolidated group files a separate return.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 that reflect our current views with respect to certain current and future events and financial performance. Such forward-looking statements include, without limitation: our expectations regarding our financial performance; our expectations regarding available seat miles; our expectations regarding operating revenue per available seat mile; our expectations regarding operating cost per available seat mile; our expectations regarding our fleet; any expectations of operating expenses, deferred revenue, interest rates, income taxes, deferred tax assets, valuation allowance or other financial items or financial performance; statements regarding areas of strategic focus, statements regarding factors that may affect our ability to fund our working capital, capital expenditures or other general purpose needs; estimates of fair value measurements; statements related to aircraft maintenance and repair costs and deposits and timing of maintenance activities; statements related to cash flow from operations and seasonality; estimates of required funding of and contributions to our defined benefit pension and disability plan; estimates of annual fuel expenses and measure of the effects of fuel prices on our business; statements regarding the availability and cost of fuel; statements regarding our total capacity and yields on routes; statements related to our hedging program; statements concerning the impact of, and changes to, accounting principles, policies and estimates; statements regarding credit card holdback; statements regarding the availability of financing; statements regarding our capital expenditures; statements regarding potential violations under the Company's debt or lease obligations; statements regarding our ability to comply with covenants under our financing arrangements; statements related to risk management, credit risks and air traffic liability; statements related to future U.S. and global economic conditions or performance; statements related to changes in our fleet plan and related cash outlays; statements related to expected delivery of new aircraft; statements related to potential route expansion; statements related to the increase in frequency on existing routes; statements related to expected maturation of existing networks; statements related to the effects of any litigation on our operations or business; and statements as to other matters that do not relate strictly to historical facts or statements of assumptions underlying any of the foregoing. Words such as "expects," "anticipates," "projects," "intends," "plans," "believes," "estimates," "could", "may", variations of such words, and similar expressions are also intended to identify such forward-looking statements. These forward-looking statements are and will be, as the case may be, subject to many risks, uncertainties and assumptions relating to our operations and business environment, all of which may cause our actual results to be materially different from any future results, expressed or implied, in these forward-looking statements.

The risks, uncertainties and assumptions referred to above that could cause our results to differ materially from the results expressed or implied by such forward-looking statements also include the risks, uncertainties and assumptions discussed from time to time in our public filings and public announcements, including, but not limited to, our risk factors set out in the "Risk Factors" sections of our Annual Report on Form 10-K for the fiscal year ended December 31, 2014. All forward-looking statements included in this Report are based on information available to us as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statements to reflect events or circumstances that may arise after the date of this quarterly report. The following discussion and analysis should be read in conjunction with our unaudited Consolidated Financial Statements and notes thereto included elsewhere in this Quarterly Report on Form 10-Q.

OVERVIEW

Hawaiian Holdings, Inc. (the "Company," "Holdings," "we," "us" and "our") is a holding company incorporated in the State of Delaware. The Company's primary asset is its sole ownership of all issued and outstanding shares of common stock of Hawaiian Airlines, Inc. ("Hawaiian"). Hawaiian was originally incorporated in January 1929 under the laws of the

Territory of Hawai‘i and became the Company’s indirect 100% owned subsidiary pursuant to a corporate restructuring that was consummated in August 2002. Hawaiian became a Delaware corporation and the Company’s direct wholly-owned subsidiary concurrent with its reorganization in June 2005.

Our Business

We are engaged in the scheduled air transportation of passengers and cargo amongst the Hawaiian Islands (the "Neighbor Island" routes), between the Hawaiian Islands and certain cities in the U.S. mainland (the "North America" routes), and between the Hawaiian Islands and the South Pacific, Australia and Asia (the "International" routes), collectively referred to as our "Scheduled Operations". In addition, we operate various charter flights. We are the largest airline headquartered in the State of Hawai‘i and the tenth largest domestic airline in the United States based on revenue passenger miles reported by the Research and Innovative Technology Administration Bureau of Transportation Statistics for the month of June 2015, the latest available data.

As of September 30, 2015, Hawaiian had 5,475 active employees.

General information about us is available at <http://www.hawaiianairlines.com>. Information contained on our website is not incorporated by reference into, or otherwise to be regarded as part of, this Quarterly Report on Form 10-Q unless expressly noted. Our annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K, as well as any amendments and exhibits to those reports, are available free of charge through our website as soon as reasonably practicable after we file them with, or furnish them to, the SEC.

Financial Highlights

GAAP net income in the third quarter of \$70.0 million or \$1.15 per diluted share.

Adjusted net income in the third quarter of \$78.4 million or \$1.29 per diluted share.

Unrestricted cash and cash equivalents and short-term investments of \$611 million.

See “Results of Operations” below for further discussion of changes in revenue and operating expense. See “Non-GAAP Financial Measures” below for our reconciliation of non-GAAP measures.

Outlook

We expect our financial performance to improve through the fourth quarter as a result of favorable fuel prices. We expect available seat miles during the quarter ending December 31, 2015 to increase by 2% to 4% from the same prior year period, while operating revenue per available seat mile is expected to decrease by 2.5% to 5.5% from the same prior year period. We expect operating cost per available seat mile, excluding fuel, for the quarter ending December 31, 2015 to increase by 3% to 6% from the same prior year period, due to increased pension costs, commissions and other selling expenses, and aircraft rent.

Fleet Summary

The table below summarizes our total fleet as of September 30, 2014 and 2015, and expected fleet as of September 30, 2016 (based on existing agreements):

Aircraft Type	September 30, 2014			September 30, 2015			September 30, 2016		
	Leased (3)	Owned	Total	Leased (3)	Owned	Total	Leased (3)	Owned	Total
A330-200 (1)	7	11	18	9	12	21	11	12	23
767-300 (2)	6	5	11	5	4	9	4	4	8
717-200	3	15	18	3	15	18	3	15	18
ATR turboprop (4)	—	3	3	—	6	6	—	6	6
Total	16	34	50	17	37	54	18	37	55

The increase in the number of leased Airbus A330-200 aircraft from September 30, 2015 to 2016 is due to the (1) planned delivery of an aircraft to be financed through a purchase assignment and lease transaction, and another Airbus A330-200 aircraft through a six-year lease agreement.

(2)

The decrease in the number of leased Boeing 767-300 aircraft from September 30, 2015 to 2016 is due to the planned return of an aircraft at the end of its lease term.

(3) Leased aircraft include both aircraft under capital and operating leases.

(4) The ATR turboprop aircraft are owned by Airline Contract Maintenance & Equipment, Inc., a wholly-owned subsidiary of the Company.

Results of Operations

For the three months ended September 30, 2015, we generated net income of \$70.0 million, or \$1.15 per diluted share, compared to net income of \$35.6 million, or \$0.56 per diluted share, for the same period in 2014. For the nine months ended September 30, 2015, we generated net income of \$144.7 million, or \$2.32 per diluted share, compared to net income of \$57.8 million, or \$0.94 per diluted share, for the same period in 2014.

Selected Consolidated Statistical Data (unaudited)

	Three months ended September 30,		Nine months ended September 30,		
	2015	2014	2015	2014	
	(in thousands, except as otherwise indicated)				
Scheduled Operations (a) :					
Revenue passengers flown	2,830	2,707	8,010	7,638

Gallons of jet fuel consumed	61,179	60,232	176,175	172,333	
Average cost per gallon of jet fuel (actual)	\$1.72	\$3.03	\$1.87	\$3.06	
(c)					

(a) Includes the operations of our contract carrier under a capacity purchase agreement.

(b) Represents adjusted unit costs, a non-GAAP measure. We believe this is a useful measure because it better reflects our controllable costs. See “Non-GAAP Financial Measures” below for our reconciliation of non-GAAP measures.

(c) Includes applicable taxes and fees.

Operating Revenue

During the three months ended September 30, 2015, operating revenue decreased \$7.7 million, or 1.2%, as compared to the prior year period, driven by decreased passenger revenue. During the nine months ended September 30, 2015, operating revenue increased by \$3.3 million, or 0.2%, as compared to the prior year period, driven primarily by an increase in other operating revenue.

Passenger revenue

For the three and nine months ended September 30, 2015, passenger revenue decreased \$10.1 million, or 1.8%, and \$16.3 million, or 1.1%, respectively, as compared to the prior year periods. Details of these changes are described in the table below:

	Three months ended September 30, 2015 as compared to three months ended September 30, 2014				Nine months ended September 30, 2015 as compared to nine months ended September 30, 2014			
	Change in scheduled passenger revenue (in millions)	Change in Yield	Change in RPM	Change in ASM	Change in scheduled passenger revenue (in millions)	Change in Yield	Change in RPM	Change in ASM
North America	\$8.3	(1.4)%	4.3	% 4.6	% \$36.3	(3.9)%	9.1	% 11.4
Neighbor Island	4.5	(0.2)	3.6	5.2	12.5	1.1	2.2	5.8
International	(22.9)	(14.8)	(1.0)	1.2	(65.1)	(10.9)	(5.7)	(8.3)
Total scheduled	\$(10.1)	(4.4)%	2.7	% 3.6	% \$(16.3)	(4.9)%	4.0	% 4.2

North America

For the three and nine months ended September 30, 2015, North America revenue increased by \$8.3 million and \$36.3 million, respectively, as compared to the prior year periods. The increase was primarily due to capacity increases on our North America routes, much of which was added in the second half of 2014. This was slightly offset by a decrease in the yield generated from these routes, which was a result of the increase in industry capacity compared to the prior period.

Neighbor Island

For the three months ended September 30, 2015, Neighbor Island revenue increased by \$4.5 million as compared to the prior year period, due to the introduction of a new cabin configuration to our fleet of 717-200 aircraft and the launch of our turboprop operations in March 2014.

For the nine months ended September 30, 2015, Neighbor Island revenue increased by \$12.5 million as compared to the prior year period, due to the introduction of a new cabin configuration to our fleet of 717-200 aircraft, the launch of our turboprop operations in March 2014, and an increased level of 717-200 flight activity particularly in the first and second quarter of 2015.

International

For the three months ended September 30, 2015, International revenue decreased by \$22.9 million as compared to the prior year period. The continued strengthening of the U.S. dollar combined with lower fuel surcharges resulted in decreased average fares for our International routes compared to the prior periods.

For the nine months ended September 30, 2015, International revenue decreased by \$65.1 million as compared to the prior year period, due to decreased capacity and yield. Decrease in capacity was driven by changes we made to our network in 2014, including the suspension of our route from Honolulu to Fukuoka, Japan (June 2014). Also, the continued strengthening of the U.S. dollar combined with lower fuel surcharges resulted in decreased average fares for our International routes compared to the prior periods.

Other operating revenue

For the three months ended September 30, 2015, other operating revenue increased by \$2.3 million, or 3.2%, as compared to the prior year period. Our co-branded credit card agreement and an increase in ancillary revenue increased other operating revenue by \$1.1 million and \$1.0 million, respectively. The increase in ancillary revenue was primarily driven by a 5% increase in the number of passengers flown on our North America routes.

For the nine months ended September 30, 2015, other operating revenue increased by \$19.6 million, or 9.9%, as compared to the prior year period. Our co-branded credit card agreement increased other operating revenue by \$9.6 million for the nine months ended September 30, 2015. Additionally, a 10% increase in the number of passengers flown on our North America routes resulted in a \$4.4 million increase in ancillary revenue for the nine months ended September 30, 2015.

Operating Expense

Operating expenses were \$477.1 million and \$1,426.1 million for the three and nine months ended September 30, 2015, respectively, and \$533.3 million and \$1,572.2 million for the three and nine months ended September 30, 2014, respectively. Increases (decreases) in operating expenses for the three and nine months ended September 30, 2015 as compared to the prior year periods are detailed below:

	Increase / (decrease) for the three months ended September 30, 2015 compared to the three months ended September 30, 2014			Increase / (decrease) for the nine months ended September 30, 2015 compared to the nine months ended September 30, 2014		
	\$	%		\$	%	
Operating expenses	(in thousands)			(in thousands)		
Aircraft fuel, including taxes and delivery	\$(76,736)	(42.1))%	\$(198,168)	(37.6))%
Wages and benefits	11,415	10.0		35,434	10.6	
Aircraft rent	2,820	10.6		7,634	9.7	
Maintenance, materials and repairs	4,903	9.6		510	0.3	
Aircraft and passenger servicing	(1,564)	(4.9))	(4,981)	(5.4))
Commissions and other selling	(1,710)	(5.3))	(2,906)	(3.1))
Depreciation and amortization	1,677	6.9		7,817	11.0	
Other rentals and landing fees	1,091	4.6		4,952	7.5	
Other	1,872	4.0		3,524	2.5	
Total	\$(56,232)	(10.5))%	\$(146,184)	(9.3))%

Aircraft fuel

Aircraft fuel expense decreased during the three and nine months ended September 30, 2015, as compared to the prior year periods, primarily due to the decrease in the average fuel price per gallon partially offset by an increase in consumption as illustrated in the following table:

	Three months ended September 30, 2015			% Change	Nine months ended September 30, 2015			% Change
	2015	2014			2015	2014		
	(in thousands, except per-gallon amounts)				(in thousands, except per-gallon amounts)			
Aircraft fuel expense, including taxes and delivery	\$105,483	\$182,219	(42.1))%	\$329,329	\$527,497	(37.6))%
Fuel gallons consumed	61,179	60,232	1.6	%	176,175	172,333	2.2	%
Average fuel price per gallon, including taxes and delivery	\$1.72	\$3.03	(43.2))%	\$1.87	\$3.06	(38.9))%

We believe economic fuel expense is the best measure of the effect of fuel prices on our business as it most closely approximates the net cash outflow associated with the purchase of fuel for our operations in a period and is consistent with how management manages our business and assesses our operating performance. We define economic fuel expense as raw fuel expense plus (gains)/losses realized through actual cash payments to/(receipts from) hedge counterparties for fuel hedge derivatives settled in the period inclusive of costs related to hedging premiums. Economic fuel expense is calculated as follows:

	Three months ended September 30, 2015			% Change	Nine months ended September 30, 2015			% Change
	2015	2014			2015	2014		

Edgar Filing: HAWAIIAN HOLDINGS INC - Form 10-Q

	(in thousands, except per-gallon amounts)				(in thousands, except per-gallon amounts)			
Aircraft fuel expense, including taxes and delivery	\$ 105,483	\$ 182,219	(42.1)%	\$ 329,329	\$ 527,497	(37.6)%
Realized losses on settlement of fuel derivative contracts	13,777	4,632	197.4	%	44,921	6,530	587.9	%
Economic fuel expense	\$ 119,260	\$ 186,851	(36.2)%	\$ 374,250	\$ 534,027	(29.9)%
Fuel gallons consumed	61,179	60,232	1.6	%	176,175	172,333	2.2	%
Economic fuel costs per gallon	\$ 1.95	\$ 3.10	(37.1)%	\$ 2.12	\$ 3.10	(31.6)%

32

See Item 3, "Quantitative and Qualitative Disclosures About Market Risk" for additional discussion of our jet fuel costs and related hedging program.

Wages and benefits

Wages and benefits expense increased by \$11.4 million, or 10.0%, and \$35.4 million, or 10.6%, for the three and nine months ended September 30, 2015, respectively, as compared to the prior year periods, due to increased pension and postretirement benefit expenses and increased profit-sharing expense resulting from our improved financial performance as compared to the prior year periods.

Aircraft rent

Aircraft rent expense increased by \$2.8 million, or 10.6%, and \$7.6 million, or 9.7%, for the three and nine months ended September 30, 2015, respectively, as compared to the prior year periods, primarily due to the addition of two aircraft under operating leases (one A330 aircraft each in February 2015 and May 2015), offset by the return of one Boeing 767-300 aircraft in May 2015.

Maintenance, materials and repairs

Maintenance, materials and repairs expense increased by \$4.9 million, or 9.6%, for the three months ended September 30, 2015, due to an increase in the number and cost of heavy checks for the Boeing 717-200 aircraft, and an increase in the number and utilization of Airbus A330-200 aircraft in our fleet, as compared to the prior year period.

Maintenance, materials and repairs expense increased by \$0.5 million, or 0.3%, for the nine months ended September 30, 2015, due to the increase in the number of Airbus A330-200 aircraft in our fleet. This increase was almost entirely offset by the decrease in the number of Boeing 767-300 aircraft in our fleet as compared to the prior year period.

Aircraft and passenger servicing

Aircraft and passenger servicing expense decreased by \$1.6 million, or 4.9%, and \$5.0 million, or 5.4%, for the three and nine months ended September 30, 2015, as compared to the prior year periods. These decreases were primarily due to the repeal of the Aviation Security Infrastructure Fee, which took effect in October 2014.

Depreciation and amortization

Depreciation and amortization expense increased by \$1.7 million, or 6.9%, and \$7.8 million, or 11.0% for the three and nine months ended September 30, 2015, respectively, as compared to the prior year periods, primarily due to the increase in the number of owned aircraft (A330-200 aircraft financed under our 2013 EETC agreement) in our fleet.

Nonoperating Expense

Net nonoperating expense decreased by \$6.1 million, or 12.8%, for the three months ended September 30, 2015, as compared to the prior year period, due to \$2.9 million reduction in losses on our fuel derivatives. Also, our reduced debt levels resulted in a \$3.6 million decrease in our interest expense.

Net nonoperating expense increased by \$10.3 million, or 14.1%, for the nine months ended September 30, 2015, as compared to the prior year period, due to losses of \$7.3 million incurred in connection with the convertible note repurchases made during the period and foreign currency losses.

Income Taxes

We had effective tax rates of 38.0% and 39.0% for the three months ended September 30, 2015 and 2014, respectively, and 38.2% and 39.2% for the nine months ended September 30, 2015 and 2014, respectively. We consider a variety of factors in determining the effective tax rate, including our forecasted full-year pretax results, the U.S. federal statutory rate, expected nondeductible expenses and estimated state taxes.

Liquidity and Capital Resources

Our liquidity is dependent on the cash we generate from operating activities and our debt financing arrangements. As of September 30, 2015, we had \$345.2 million in cash and cash equivalents and \$265.4 million in short-term investments, an increase of \$86.4 million from December 31, 2014.

We have been able to generate sufficient funds from our operations to meet our working capital requirements and typically finance our aircraft through secured debt and lease financings. At September 30, 2015, Hawaiian had approximately \$914.4 million of debt and capital lease obligations, including approximately \$95.8 million classified as a current liability in the unaudited Consolidated Balance Sheets.

Hawaiian has a secured revolving credit facility in an amount of up to \$175.0 million. As of September 30, 2015, we had no outstanding borrowings under the revolving credit facility.

Cash Flows

Net cash provided by operating activities was \$389.5 million and \$252.2 million for the nine months ended September 30, 2015 and 2014, respectively. The increase was primarily due to our improved financial performance from the prior year period.

Net cash provided by investing activities was \$23.0 million for the nine months ended September 30, 2015 due to the refund of pre-delivery deposits we received in connection with the purchase assignment and leaseback of two Airbus A330-200 aircraft that were delivered in February and May 2015, offset by pre-delivery deposits we made for future aircraft deliveries.

Net cash used in financing activities was \$285.4 million for the nine months ended September 30, 2015 primarily due to the repurchase of convertible notes, repayment of long-term debt and repurchase of common stock.

Capital Commitments

As of September 30, 2015, we had the following capital commitments consisting of firm aircraft and engine orders and purchase rights:

Aircraft Type	Firm Orders	Purchase Rights	Expected Delivery Dates
A330-200 aircraft	1	—	In 2015
A330-800neo aircraft	6	6	Between 2019 and 2021
A321neo aircraft	16	9	Between 2017 and 2020
Rolls-Royce spare engines:			
A330-800neo spare engines	2	—	Between 2019 and 2020
Pratt & Whitney spare engines:			
A321neo spare engines	2	—	Between 2017 and 2018

Committed expenditures for these aircraft, engines and related flight equipment approximates \$54 million for the remainder of 2015, \$78 million in 2016, \$221 million in 2017, \$400 million in 2018, \$489 million in 2019 and \$443 million thereafter.

In order to complete the purchase of these aircraft and fund related costs, we may need to secure acceptable financing. We have backstop financing available from aircraft and engine manufacturers, subject to certain customary conditions. We are also currently exploring various financing alternatives, and while we believe that such financing will be

available to us, there can be no assurance that financing will be available when required, or on acceptable terms, or at all. The inability to secure such financing could have an impact on our ability to fulfill our existing purchase commitments and a material adverse effect on our operations.

Stock Repurchase Program

In April 2015, our Board of Directors approved a stock repurchase program under which we may purchase up to \$100 million of our outstanding common stock over a two-year period ending on April 24, 2017 through the open market, established plans or privately negotiated transactions in accordance with applicable securities laws, rules and regulations. The stock repurchase program is subject to modification or termination at any time. We spent \$20.0 million and \$37.7 million to repurchase approximately 0.9 million and 1.6 million shares of our common stock in open market transactions during the three and nine months ended September 30, 2015. As of September 30, 2015, the Company has \$62.3 million remaining to spend under the

stock repurchase program. See Part II, Item 2, “Unregistered Sales of Equity Securities and Use of Proceeds” of this report for additional information on the stock repurchase program.

Covenants under our Financing Arrangements

Under our bank-issued credit card processing agreements, certain proceeds from advance ticket sales may be held back to serve as collateral to cover any possible chargebacks or other disputed charges that may occur. These holdbacks, which are included in restricted cash in our unaudited Consolidated Balance Sheets set forth in the unaudited Consolidated Financial Statements included elsewhere in this Quarterly Report on Form 10-Q, totaled \$5.0 million as of September 30, 2015 and December 31, 2014.

In the event of a material adverse change in the business, the holdback could increase to an amount up to 100% of the applicable credit card air traffic liability, which would also result in an increase in the required level of restricted cash. If we are unable to obtain a waiver of, or otherwise mitigate the increase in the restriction of cash, it could have a material adverse impact on our operations.

Pension and Postemployment Benefit Plan Funding

We contributed \$3.2 million and \$16.7 million to our defined benefit and other postretirement plans during the three and nine months ended September 30, 2015, including \$7.3 million above the minimum funding requirements. Future funding requirements for our defined benefit plans are dependent upon many factors such as interest rates, funded status, applicable regulatory requirements and the level and timing of asset returns.

Contractual Obligations

Our estimated contractual obligations as of September 30, 2015 are summarized in the following table:

Contractual Obligations	Total	Remaining months in 2015	2016 - 2017	2018 - 2019	2020 and thereafter
	(in thousands)				
Debt and capital lease obligations (1) (2)	\$1,146,577	\$26,278	\$271,565	\$272,466	\$576,268
Operating leases—aircraft and related equipment (3)	718,527	27,575	205,069	195,126	290,757
Operating leases—non-aircraft	47,387	1,382	10,206	9,088	26,711
Purchase commitments - Capital (4)	1,684,269	54,051	298,824	888,506	442,888
Purchase commitments - Operating (5)	499,901	17,878	118,538	99,304	264,181
Projected employee benefit contributions (6)	26,544	—	26,544	—	—
Total contractual obligations	\$4,123,205	\$127,164	\$930,746	\$1,464,490	\$1,600,805

Amounts represent contractual amounts due, including interest. Interest on variable-rate debt was estimated using (1) rates in effect as of September 30, 2015. Amounts reflect capital lease obligations for one Airbus A330-200 aircraft, two Boeing 717 aircraft, one A330 flight simulator and aircraft related equipment.

(2) During the period ended September 30, 2015 a condition for conversion of the Convertible Notes was satisfied, which permits holders of the Convertible Notes to surrender their notes for conversion during the quarter ending December 31, 2015. Therefore, the principal balance is classified accordingly in the above table. However, the 5% interest-only, semiannual payments are excluded from the table.

(3)

Amounts reflect leases for eight Airbus A330-200 aircraft, five Boeing 767 aircraft, one Boeing 717 aircraft, and three turbo-prop aircraft.

Amounts include our firm commitments for aircraft and aircraft related equipment. See Note 10 to the unaudited (4) consolidated financial statements for further discussion of the purchase assignment and leaseback transaction for our remaining A330-200 aircraft delivery in 2015.

Amounts include commitments for services provided by third-parties for aircraft maintenance for our Airbus fleet, (5) accounting, IT and reservations. Total contractual obligations do not include long-term contracts where the commitment is variable in nature (with no minimum guarantee), such as aircraft maintenance deposits due under

operating leases and fees due under certain other agreements such as aircraft maintenance power-by-the-hour, computer reservation systems and credit card processing agreements, or when the agreements contain short-term cancellation provisions.

Amount includes our estimated contributions to our pension plans (based on actuarially determined estimates) and our pilots' disability plan. Amounts are subject to change based on numerous factors, including interest rate levels, the amount and timing of asset returns and the impact of future legislation. We are currently unable to estimate the projected contributions beyond 2017.

Non-GAAP Financial Measures

We believe the disclosure of non-GAAP financial measures is useful information to readers of our financial statements because:

• We believe it is the basis by which we are evaluated by industry analysts and investors;

• These measures are often used in management and board of directors decision making analysis;

• It improves a reader's ability to compare our results to those of other airlines; and

• It is consistent with how we present information in our quarterly earnings press releases.

See table below for reconciliation between GAAP consolidated net income to adjusted consolidated net income, including per share amounts (in thousands unless otherwise indicated). The adjustments are described below:

Changes in fair value of derivative contracts, net of tax, are based on market prices for open contracts as of the end of the reporting period. This line item includes the unrealized amounts of fuel and interest rate derivatives (not designated as hedges) that will settle in future periods and the reversal of prior period unrealized amounts. Excluding the impact of these derivative adjustments allows investors to better analyze our operational performance and compare our results to other airlines in the periods presented below.

Loss on extinguishment of debt, net of tax, is excluded to allow investors to better analyze our core operational performance and more readily compare our results to other airlines in the periods presented below.

	Three months ended September 30,			Nine months ended September 30,				
	2015	2014		2015	2014			
	Net Income	Diluted Net Income Per Share	Net Income	Diluted Net Income Per Share	Net Income	Diluted Net Income Per Share	Net Income	Diluted Net Income Per Share
As reported - GAAP	\$70,029	\$1.15	\$35,575	\$0.56	\$144,746	\$2.32	\$57,827	\$0.94
Add: changes in fair value of derivative contracts, net of tax	8,370	0.14	13,956	0.23	(8,492)	(0.14)	13,185	0.21
Add: loss on extinguishment of debt, net of tax	34	—	—	—	4,385	0.07	—	—
Adjusted net income	\$78,433	\$1.29	\$49,531	\$0.79	\$140,639	\$2.25	\$71,012	\$1.15

Operating Costs per Available Seat Mile (CASM)

We have listed separately in the table below our fuel costs per ASM and our non-GAAP unit costs, excluding fuel. These amounts are included in CASM, but for internal purposes we consistently use unit cost metrics that exclude fuel and non-recurring items (if applicable) to measure and monitor our costs.

CASM and CASM, excluding fuel, are summarized in the table below:

	Three months ended September 30,		Nine months ended September 30,	
	2015	2014	2015	2014
	(in thousands, except as otherwise indicated)			
GAAP operating expenses	\$477,061	\$533,293	\$1,426,056	\$1,572,240

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based upon financial statements that have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amount of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities as of the date of the financial statements. Actual results may differ from these estimates under different assumptions and/or conditions.

Critical accounting policies and estimates are defined as those accounting policies and accounting estimates that are reflective of significant judgments and uncertainties that potentially result in materially different results under different assumptions and conditions. For a detailed discussion of the application of our critical accounting policies, see “Critical Accounting Policies” and Note 1, “Summary of Significant Accounting Policies,” to our Consolidated Financial Statements for the year ended December 31, 2014 included in our Annual Report on Form 10-K.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are subject to certain market risks, including commodity price risk (i.e. jet fuel prices), interest rate risk and foreign currency risk. We have market-sensitive instruments in the form of variable-rate debt and financial derivatives used to offset Hawaiian’s exposure to jet fuel price increases, and financial hedge instruments used to hedge Hawaiian’s exposure to variable interest rate risk and foreign currency exchange risk. The adverse effects of potential changes in these market risks are discussed below.

The sensitivity analyses presented do not consider the effects that such adverse changes may have on overall economic activity nor do they consider additional actions we might undertake to mitigate our exposure to such changes. Actual results may differ.

Aircraft Fuel Costs

Aircraft fuel costs constitute a significant portion of our operating expense. Fuel costs represented 22% and 23% of our operating expenses for the three and nine months ended September 30, 2015, respectively, and 34% of our operating expenses for the three and nine months ended September 30, 2014. Approximately 70% of our fuel is based on Singapore jet fuel prices and 30% is based on U.S. West Coast jet fuel prices. Based on gallons expected to be consumed for the remainder of 2015, a \$0.10 increase in the cost of a gallon of jet fuel would increase our fuel expense by approximately \$5.8 million, excluding the results of our fuel hedge program.

We periodically enter into derivative financial instruments to manage our exposure to changes in the price of jet fuel. During the three and nine months ended September 30, 2015, our fuel hedge program primarily consisted of heating oil puts and swaps. Put option contracts provide for a settlement in favor of the holder in the event the prices fall below a predetermined contractual level during a particular time period. Swaps provide for a settlement in our favor in the event the prices exceed a predetermined contractual level and are unfavorable in the event prices fall below a predetermined contractual level.

As of September 30, 2015, we hedged approximately 50% of our projected fuel requirements for the remainder of 2015 with heating oil puts and swaps. As of September 30, 2015, the fair value of these fuel derivative agreements reflected a net liability of \$23.7 million recorded in other accrued liabilities in the unaudited Consolidated Balance Sheets.

We expect to continue our program of offsetting some of our exposure to future changes in the price of jet fuel with a combination of fixed forward pricing contracts, swaps, calls, collars and other option-based structures.

We do not hold or issue derivative financial instruments for trading purposes.

Interest Rates

Our results of operations are affected by fluctuations in interest rates due to our variable-rate debt and interest income earned on our cash deposits. Our variable-rate debt agreements are discussed in Note 8 to our Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2014.

At September 30, 2015, we had \$78.4 million of variable-rate debt indexed to the following interest rates:

Index	Rate	
One-month LIBOR	0.20	%
Three-month LIBOR	0.33	%

Changes in market interest rates have a direct and corresponding effect on our pre-tax earnings and cash flows associated with our variable-rate debt and interest-bearing cash accounts. Based on the balances of our cash and cash equivalents, restricted cash, and variable-rate debt as of September 30, 2015, a change in interest rates is unlikely to have a material impact on our results of operations.

At September 30, 2015, we had \$836.0 million of fixed-rate debt including aircraft capital lease obligations, convertible notes, facility agreements for aircraft purchases, and the outstanding equipment notes related to our 2013 EETC financing. Market risk for fixed-rate long-term debt is estimated as the potential increase in fair value resulting from a hypothetical 10% decrease in interest rates, and amounted to approximately \$16.6 million as of September 30, 2015.

In 2013, we issued variable-rate debt to finance a portion of the purchase price of another Airbus A330-200 aircraft. The interest rate associated with this debt is based on a market index rate that resets every three months. To limit our exposure to significant increases in the applicable market index rates for this debt, we entered into a forward starting interest swap agreement.

Foreign Currency

We generate revenues and incur expenses in foreign currencies. Changes in foreign currency exchange rates impact our results of operations through changes in the dollar value of foreign currency-denominated operating revenues and expenses. Our most significant foreign currency exposures are the Japanese Yen and Australian Dollar. Based on expected remaining 2015 revenues and expenses denominated in Japanese Yen and Australian Dollars, a 10% strengthening in value of the U.S. dollar, relative to the Japanese Yen and Australian Dollar, would result in a decrease in operating income of approximately \$3.5 million and \$2.2 million, respectively, which excludes the offset of the hedges discussed below. This potential impact to the results of our operation is driven by the inherent nature of our international operations, which requires us to accept a large volume of sales transactions denominated in foreign currencies while few expense transactions are settled in foreign currencies. This disparity is the primary factor in our exposure to foreign currencies.

As of September 30, 2015, the fair value of our foreign currency forwards reflected a net asset of \$9.9 million and \$0.3 million recorded in prepaid expenses and other and long-term prepayments and other, respectively, in the unaudited Consolidated Balance Sheets.

ITEM 4.

CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

Our management, including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), performed an evaluation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act of 1934, as amended), which have been designed to permit us to effectively identify and timely disclose important information. Based on that evaluation, our management, including our CEO and CFO, concluded that our disclosure controls and procedures were effective as of September 30, 2015 to provide reasonable assurance that the information required to be disclosed by the Company in reports it files under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and

reported within the time periods specified in the rules and forms of the SEC, and is accumulated and communicated to our management, including our CEO and CFO, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act of 1934, as amended) during the quarter ended September 30, 2015 which materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, will be detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of effectiveness of controls to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

We are not a party to any litigation that is expected to have a significant effect on our operations or business.

ITEM 1A. RISK FACTORS.

See Part I, Item 1A., “Risk Factors,” of our 2014 Annual Report for a detailed discussion of the risk factors affecting our business, results of operations and financial condition.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

The following table displays information with respect to our repurchases of shares of our common stock during the three months ended September 30, 2015:

Period	Total number of shares purchased (i)	Average price paid per share (ii)	Total number of shares purchased as part of publicly announced plans or programs (i)	Approximate dollar value of shares that may yet be purchased under the plans or programs (in millions) (i)
July 1, 2015 - July 31, 2015	99,599	\$23.88	99,599	\$80
August 1, 2015 - August 31, 2015	479,486	22.85	479,486	69
September 1, 2015 - September 30, 2015	281,486	23.68	281,486	62
Total	860,571		860,571	

On April 23, 2015, we announced that our Board of Directors approved a stock repurchase program under which we may purchase up to \$100 million of our outstanding common stock over a two-year period ending on April 24, (i) 2017 through the open market, established plans or privately negotiated transactions in accordance with applicable securities laws, rules and regulations. The stock repurchase program is subject to modification or termination at any time.

(ii) Weighted average price paid per share is calculated on a settlement basis and excludes commission.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

ITEM 5. OTHER INFORMATION.

None.

ITEM 6. EXHIBITS.

Exhibit No.	Description
12	Computation of ratio of earnings to fixed charges for the nine months ended September 30, 2015 and years ended December 31, 2014, 2013, 2012, 2011 and 2010.
31.1	Rule 13a-14(a) Certification of Chief Executive Officer.
31.2	Rule 13a-14(a) Certification of Chief Financial Officer.
