Enclosure: Partner Communications reports second quarter 2017 results

PARTNER COMMUNICATIONS REPORTS
SECOND QUARTER 2017 RESULTS¹

ADJUSTED EBITDA² TOTALED NIS 252 MILLION

OPEX² TOTALED NIS 489 MILLION, A DECLINE OF NIS 83 MILLION FROM Q2 2016

ADJUSTED FREE CASH FLOW² TOTALED NIS 208 MILLION

Second quarter 2017 highlights (compared with second quarter 2016)

- Total Revenues: NIS 805 million (US\$ 230 million), a decrease of 10%
- Service Revenues: NIS 646 million (US\$ 185 million), a decrease of 7%
- Equipment Revenues: NIS 159 million (US\$ 45 million), a decrease of 22%
- Total Operating Expenses (OPEX): NIS 489 million (US\$ 140 million), a decrease of 15%
- Adjusted EBITDA: NIS 252 million (US\$ 72 million), an increase of 11%
- Adjusted EBITDA Margin²: 31% of total revenues compared with 25%
- Profit for the Period: NIS 34 million (US\$ 10 million), an increase of 31%
- Net Debt²: NIS 1,081 million (US\$ 309 million), a decrease of NIS 883 million
- Adjusted Free Cash Flow (before interest): NIS 208 million (US\$ 59 million), an increase of NIS 48 million
- Cellular ARPU: NIS 62 (US\$ 18), a decrease of 5%
- Cellular Subscriber Base: approximately 2.66 million at quarter-end, a decrease of 1%

Rosh Ha'ayin, Israel, August 16, 2017 – Partner Communications Company Ltd. ("Partner" or the "Company") (NASDAQ and TASE: PTNR), a leading Israeli communications operator, announced today its results for the quarter ended June 30, 2017.

Commenting on the second quarter 2017 results, Mr. Isaac Benbenisti, CEO of Partner noted:

"The second quarter results portray a net increase in the number of cellular subscribers, continued efficiency measures implemented in the Company and an increase in operating profit.

¹ The quarterly financial results are unaudited.

² For the definition of this and other Non-GAAP financial measures, see "Use of Non-GAAP Financial Measures" in this press release.

In the last quarter, we continued to establish our leadership in the cellular segment, and we reported an increase in the number of Post-Paid subscribers, who account for 85% of the Company's cellular subscriber base, for the eighth consecutive quarter. We continue to deploy 4.5G network throughout the country and at the same time we continue to implement MIMO 4X4 technology in our cellular network, which will enable us to offer cellular internet at speeds of up to 400 Mbps. In addition, we continue to develop additional capabilities for Partner's unique IoT (Internet of Things) Pro network, which are for private use and adapted to the specific needs of business subscribers.

We opened the second half of 2017 with the initial marketing of Partner TV services and triple services which include internet and fixed-line telephony, in addition to TV. Over 20,000 consumers have requested to join Partner TV, reflecting the strong interest in the Israeli market to switch to a more advanced TV service at a more attractive price. In the last two weeks we have already begun installations in the homes of consumers. In addition, the localized launch of Netflix in Israel, and our partnership with the world's leading internet television network, will enable us to offer a unique value-added offering to Partner TV customers.

Last week we revealed additional news, with the announcement regarding the expansion of Partner's fiber optic network, which enables private customers, already at this point in time, internet services at speeds of up to 1,000Mbps and we have already reached tens of thousands of households. In the coming months we plan to significantly expand our deployments within the cities with a reach of additional tens of thousands of homes using Partner's fiber infrastructure. This is in addition to growing numbers of business customers already enjoying the advantages of Partner's fiber optic network, which is deployed in central business areas in various cities in Israel and is connected to economic centers worldwide.

The positive quarterly results, together with the successful launch of Partner TV and the progress in fiber deployment, are the result of long-term plans that we started over two years ago, designed to provide our customers with added value across the variety of communication services we offer as a comprehensive communications group."

Mr. Dudu Mizrahi, Partner's Chief Financial Officer, commented on the second quarter results of 2017:

"The past months at Partner have been characterized by activity in a wide range of operational and financial areas, and continued efficiency measures in the Company, all alongside the planning of future investments by the Company.

During the last quarter, the Company's cellular subscriber base grew by 4 thousand subscribers, with the Post-Paid subscribers increasing by 14 thousand subscribers while the Pre-Paid subscribers base declined by 10 thousand subscribers. An increase in the size of the subscriber base together with an increase in ARPU, as a result of seasonality and price stability in calls and data packages, resulted in a quarterly increase in revenues from cellular services.

In the equipment sales operations, the steps that we have taken in the past few months resulted in an improvement in gross profit from equipment sales to NIS 33 million with profitability of 21% compared to gross profit of NIS 26 million and profitability of 16% in the first quarter of 2017.

Further, in the second quarter, following the trend we have seen in previous quarters, we continued to reduce the Company's OPEX, which contributed to the improvement in the Company's EBITDA compared to the previous quarter as well as to the parallel quarter last year. In the second quarter of 2017, the higher EBITDA was a result of the growth in service revenues, the improvement in gross profit from equipment sales and the continued decline in OPEX.

We continue to report strong adjusted free cash flow before interest payments, which totaled NIS 208 million in the second quarter of 2017, an increase of 30% compared to the second quarter of 2016 and a 65% increase compared to the first quarter of 2017.

With respect to financing, during the past quarter we took a number of steps including a capital raise of approximately NIS 190 million, early repayments of loans from banks and financial institutions in a total amount of NIS 700 million in June and NIS 175 million in July, while at the same time raising new debt by issuing bonds in an amount of approximately NIS 255 million in July. These measures strengthened the Company's balance sheet and will reduce the Company's finance expenses, in order to enable us to realize Partner's strategic plans."

Financial Review

In Q2 2017, total revenues were NIS 805 million (US\$ 230 million), a decrease of 10% from NIS 897 million in Q2 2016.

Service revenues in Q2 2017 totaled NIS 646 million (US\$ 185 million), a decrease of 7% from NIS 692 million in Q2 2016.

Service revenues for the cellular segment in Q2 2017 totaled NIS 497 million (US\$ 142 million), a decrease of 6% from NIS 527 million in Q2 2016. The decrease was mainly the result of two factors, the continued price erosion of cellular services (both Post-Paid and Pre-Paid) due to the continued competitive market conditions and one-time revenue items in Q2 2016.

Service revenues for the fixed-line segment in Q2 2017 totaled NIS 192 million (US\$ 55 million), a decrease of 12% from NIS 219 million in Q2 2016. The decrease reflected the continuing decrease in revenues from international calls as well as other fixed line services.

Equipment revenues in Q2 2017 totaled NIS 159 million (US\$ 45 million), a decrease of 22% from NIS 205 million in Q2 2016, largely reflecting a decrease in the volume of equipment sales.

Gross profit from equipment sales in Q2 2017 was NIS 33 million (US\$ 9 million), compared with NIS 42 million in Q2 2016, a decrease of 21%, mainly reflecting the decrease in the volume of equipment sales.

Total operating expenses ('OPEX') totaled NIS 489 million (US\$ 140 million) in Q2 2017, a decrease of 15% or NIS 83 million from Q2 2016. The decrease mainly reflected a decline in expenses related to the cellular network as well as a decrease in other expenses reflecting the impact of various efficiency measures undertaken as part of a long-term plan to reduce the Company's cost base. Including depreciation and amortization expenses and other expenses (mainly amortization of employee share based compensation), OPEX in Q2 2017 decreased by 13% compared with Q2 2016, mainly for the same reasons as above.

In Q2 2017, the Company recorded income with respect to the settlement agreement regarding the Orange brand in an amount of NIS 54 million (US\$ 15 million), unchanged from Q2 2016. Q2 2017 is the last quarter the Company will record income with respect to the settlement agreement regarding the Orange brand.

Other income, net, totaled NIS 8 million (US\$ 2 million) in Q2 2017, compared to NIS 12 million in Q2 2016, a decrease of 33%, mainly reflecting a decrease in income from the unwinding of trade receivables.

Operating profit for Q2 2017 was NIS 103 million (US\$ 29 million), an increase of 54% compared with NIS 67 million in Q2 2016.

Adjusted EBITDA in Q2 2017 totaled NIS 252 million (US\$ 72 million), an increase of 11% from NIS 228 million in Q2 2016. As a percentage of total revenues, Adjusted EBITDA in Q2 2017 was 31% compared with 25% in Q2 2016.

Adjusted EBITDA for the cellular segment was NIS 196 million (US\$ 56 million), in Q2 2017, an increase of 26% from NIS 155 million in Q2 2016, reflecting the decrease in OPEX partially offset by a decrease in service revenues and gross profit from equipment sales. As a percentage of total cellular segment revenues, Adjusted EBITDA for the cellular segment in Q2 2017 was 31% compared with 22% in Q2 2016.

Adjusted EBITDA for the fixed-line segment was NIS 56 million (US\$ 16 million) in Q2 2017, a decrease of 23% from NIS 73 million in Q2 2016, reflecting the decrease in service revenues, partially offset by a decrease in OPEX and an increase in gross profit from equipment sales. As a percentage of total fixed-line segment revenues, Adjusted EBITDA for the fixed-line segment in Q2 2017 was 27%, compared with 31% in Q2 2016.

Finance costs, net in Q2 2017 were NIS 54 million (US\$ 15 million), an increase of 93% compared with NIS 28 million in Q2 2016, largely a result of one-time early repayment expenses of NIS 25 million in Q2 2017.

Income taxes for Q2 2017 were NIS 15 million (US\$ 4 million), compared with NIS 13 million in Q2 2016.

Profit in Q2 2017 was NIS 34 million (US\$ 10 million), compared with a profit of NIS 26 million in Q2 2016, an increase of 31%.

Based on the weighted average number of shares outstanding during Q2 2017, basic earnings per share or ADS, was NIS 0.21 (US\$ 0.06), compared to basic earnings per share of NIS 0.17 in Q2 2016.

Cellular Segment Operational Review

At the end of Q2 2017, the Company's cellular subscriber base (including mobile data and 012 Mobile subscribers) was approximately 2.66 million including approximately 2.27 million Post-Paid subscribers or 85% of the base, and approximately 389 thousand Pre-Paid subscribers, or 15% of the subscriber base.

During the second quarter of 2017, the cellular subscriber base increased by approximately 4 thousand subscribers. The Post-Paid subscriber base increased by approximately 14 thousand subscribers, while the Pre-Paid subscriber base declined by approximately 10 thousand subscribers.

The quarterly churn rate for cellular subscribers in Q2 2017 was 9.0%, compared with 9.8% in Q2 2016. The decline in churn rate reflected a decline in both Post-Paid and Pre-Paid subscriber churn.

Total cellular market share (based on the number of subscribers) at the end of Q2 2017 was estimated to be approximately 26%, unchanged from Q2 2016.

The monthly Average Revenue per User ("ARPU") for cellular subscribers in Q2 2017 was NIS 62 (US\$ 18), a decrease of 5% from NIS 65 in Q2 2016. The decrease mainly reflected the continued price erosion in key cellular services due to the persistent competition in the cellular market and one-time revenue items recorded in Q2 2016.

Funding and Investing Review

In Q2 2017, Adjusted Free Cash Flow totaled NIS 208 million (US\$ 59 million), an increase of 30% from NIS 160 million in Q2 2016.

Cash generated from operations increased by 24% to NIS 268 million (US\$ 77 million) in Q2 2017 from NIS 217 million in Q2 2016. The increase mainly reflected the increase in Adjusted EBITDA and the smaller decrease in operating assets and liabilities, which was mainly explained by the significant decrease in the volume of equipment sales under long-term payment plans.

Cash capital expenditures ('CAPEX payments'), as represented by cash flows used for the acquisition of property and equipment and intangible assets, were NIS 60 million (US\$ 17 million) in Q2 2017, an increase of 5% from NIS 57 million in Q2 2016.

The level of Net Debt at the end of Q2 2017 amounted to NIS 1,081 million (US\$ 309 million), compared with NIS 1,964 million at the end of Q2 2016.

Business Developments

Further to the Company's previous reports, regarding its intentions to early repay borrowings from banks and institutions, in June 2017 the Company repaid borrowings in a total amount of NIS 700 million (US\$ 200 million) (borrowings C, D, E, F, G & H) and in July 2017 an additional amount of NIS 175 million (US\$ 50 million) (borrowings G & I).

As previously reported by the Company on June 18, 2017, the Company issued shares of the Company. The total net consideration received was approximately NIS 190 million (US\$ 54 million).

As previously reported by the Company on July 20, 2017, the Company issued new Notes (Series F), traded on TASE, in a principal amount of NIS 255 million (US\$ 73 million), repayable in five equal annual installments in the years 2020 through 2024. The principal bears fixed annual interest of 2.16%, payable on a semiannual basis starting December 2017.

Regulatory Developments

In May 2017, the Ministry of Communications published its decision regarding the requirement of Bezeq to offer its telephony services to other operators in a resale format as of July 2017, instead of the planned full wholesale telephony services which was scheduled to begin in May 2015. The price paid to Bezeq by the operators for the resale telephony is suggested by the Ministry to be set substantially higher than the prices set for the planned full wholesale telephony product.

According to the decision, the date of implementation of the full wholesale telephony service has been postponed at the latest by July 18, 2018. However, the Ministry will consider whether to extend the temporary resale arrangement or to make it permanent in light of the competitive situation over the coming year.

The Ministry allowed interested parties to present their positions regarding the prices set for the resale format and the Company filed its response with the Ministry. The Company argued for lower tariffs for the resale telephony product and insisted that this arrangement can only be a temporary arrangement. The Minister committed that any possible change to the price (that may result from the hearing) would be applied retroactively.

In addition, in June 2017 the Ministry of Communications published the maximum tariffs for HOT's wholesale bit-stream internet access service. The Ministry has yet to publish its decisions regarding several critical issues which have so far delayed the actual implementation of this wholesale market. In addition, HOT has failed to implement some aspects of the service and these await enforcement by the Ministry. Therefore, there is no clear deadline for the implementation of the service.

IFRS 15

In May 2014, a new revenue recognition standard was issued (IFRS 15). The new standard is effective for annual reporting periods beginning on or after January 1, 2018, according to its transition provisions. Earlier application is permitted.

The Company has identified a number of relevant issues. Currently the most significant issue identified is the treatment of the costs of obtaining contracts with customers which, under the new standard, are to be capitalized under certain conditions, while currently these costs are generally recognized as incurred. According to the standard, sale commissions and incentives paid to employees and resellers for obtaining contracts with customers will be recognized as assets, and amortized to profit or loss when the related goods and services are transferred to the customers. The capitalization of these costs of obtaining contracts is expected to have a material positive effect on our results of operations in the coming years, which is expected to be leveled off in later years.

In addition, the Company is in the process of preparing for the implementation of the requirement of the standard to allocate revenues to performance obligations identified, including preparing for the application of the portfolio approach under certain conditions, establishing customer groupings and other related issues.

The Company is making progress in implementing the required adjustments into the Company's information systems which are expected to be completed in the third quarter of 2017. The Company aims to adopt the standard as early as possible, subject to the completion of the required adjustments to the information systems.

The Company plans to apply the standard according to the modified retrospective approach. Under this approach, entities will recognize transitional adjustments in retained earnings on the date of initial application, i.e. without restating the comparative period; and applying the new rules to contracts that are not completed as of the date of initial application.

The Company is currently unable to quantify the impact of the implementation of IFRS 15.

Conference Call Details

Partner will hold a conference call on Wednesday, August 16, 2017 at 10.00AM Eastern Time / 5.00PM Israel Time. To join the call, please dial the following numbers (at least 10 minutes before the scheduled time):

International: +972.3.918.0610

North America toll-free: +1.888.668.9141

A live webcast of the call will also be available on Partner's Investors Relations website at:

www.partner.co.il/en/Investors-Relations/lobby/

If you are unavailable to join live, the replay of the call will be available from August 16, 2017 until September 06, 2017, at the following numbers:

International: +972.3.925.5941

North America toll-free: +1.877.456.0009

In addition, the archived webcast of the call will be available on Partner's Investor Relations website at the above address for approximately three months.

Forward-Looking Statements

This press release includes forward-looking statements within the meaning of Section 27A of the US Securities Act of 1933, as amended, Section 21E of the US Securities Exchange Act of 1934, as amended, and the safe harbor provisions of the US Private Securities Litigation Reform Act of 1995. Words such as "estimate", "believe", "anticipate", "expect", "intend", "seek", "will", "plan", "could", "may", "project", "goal", "target" and similar expressions often identify forward-looking statements but are not the only way we identify these statements. Specific statements have been made regarding the Company's continued investment and development in its cellular network to offer its customers additional capabilities for Partner's IoT Pro network and higher internet speeds; the anticipated unique value-added offerings to Partner TV customers; the planned deployments of Partner's fiber optic infrastructure to reach additional tens of thousands of homes; the expected reduction in the Company's finance expenses and strengthened ability to realize our strategic plans as a result of refinancing measures taken by the Company and the expected material positive effect on our results of operations in the coming years as a result of the capitalization of the costs of securing contracts which is expected to be leveled off in later years. In addition, all statements other than statements of historical fact included in this press release regarding our future performance are forward-looking statements. We have based these forward-looking statements on our current knowledge and our present beliefs and expectations regarding possible future events. These forward-looking statements are subject to risks, uncertainties and assumptions, including: (i) technological, technical or other operational difficulties that might delay or block the Company from: continuing to invest and develop its cellular network and fiber optic infrastructure to achieve the stated objectives; (ii) whether the Company will have the financial resources and commercial strategies which allow it to successfully offer its customers unique value-added offerings in the TV market and bundled services or reach the targeted expansion in the number of customers served by its fiber optic infrastructure; and the extent to which the Company's finance expenses will be and remain reduced and its results operations improved as a result, respectively, of the refinancing measures taken and the capitalization of the costs of securing contracts. The future results may differ materially from those anticipated herein. For further information regarding risks, uncertainties and assumptions about Partner, trends in the Israeli telecommunications industry in general, the impact of current global economic conditions and possible regulatory and legal developments, and other risks we face, see "Item 3. Key Information - 3D. Risk Factors", "Item 4. Information on the Company", "Item 5. Operating and Financial Review and Prospects", "Item 8. Financial Information - 8A. Consolidated Financial Statements and Other Financial Information - 8A.1 Legal and Administrative Proceedings" and "Item 11. Quantitative and Qualitative Disclosures about Market Risk" in the Company's Annual Reports on Form 20-F filed with the SEC, as well as its immediate reports on Form 6-K furnished to the SEC. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The quarterly financial results presented in this press release are unaudited financial results.

The results were prepared in accordance with IFRS, other than the non-GAAP financial measures presented in the section, "Use of Non-GAAP Financial Measures".

The financial information is presented in NIS millions (unless otherwise stated) and the figures presented are rounded accordingly.

The convenience translations of the New Israeli Shekel (NIS) figures into US Dollars were made at the rate of exchange prevailing at June 30, 2017: US \$1.00 equals NIS 3.496. The translations were made purely for the convenience of the reader.

Use of Non-GAAP Financial Measures

The following non-GAAP measures are used in this report. These measures are not financial measures under IFRS and may not be comparable to other similarly titled measures for other companies. Further, the measures may not be indicative of the Company's historic operating results nor are meant to be predictive of potential future results.

Non-GAAP Measure	Calculation	Most Comparable IFRS Financial Measure
Adjusted EBITDA*	Adjusted EBITDA: Profit (Loss) add Income tax expenses, Finance costs, net, Depreciation and amortization expenses (including amortization of intangible assets, deferred expenses-right of use and impairment charges), Other expenses (mainly amortization of share based compensation)	Profit (Loss)
Adjusted EBITDA margin (%)	Adjusted EBITDA margin (%): Adjusted EBITDA divided by Total revenues	
Adjusted Free Cash Flow**	Adjusted Free Cash Flow: Cash flows from operating activities deduct Cash flows from investing activities add Short-term investment in (proceeds from) deposits	Cash flows from operating activities deduct Cash flows from investing activities
Total Operating Expenses (OPEX)	Total Operating Expenses: Cost of service revenues add Selling and marketing expenses add General and administrative expenses deduct Depreciation and amortization expenses, Other expenses (mainly amortization of employee share based compensation)	Sum of: Cost of service revenues, Selling and marketing expenses, General and administrative expenses
Net Debt	Net Debt: Current maturities of notes payable and borrowings add Notes payable add Borrowings from banks and others	Sum of: Current maturities of notes payable and borrowings, Notes payable,

deduct
Cash and cash equivalents
deduct
Short-term deposits

INTERIM SEGMENT INFORMATION & ADJUSTED EBITDA RECONCILIATION

(1) Mainly amortization of employee share based compensation.

Adjusted EBITDA as reviewed by the CODM represents Earnings Before Interest (finance costs, net), Taxes, Depreciation and Amortization (including amortization of intangible assets, deferred expenses-right of use and impairment charges) and Other expenses (mainly amortization of share based compensation). Adjusted EBITDA is not a financial measure under IFRS and may not be comparable to other similarly titled measures for other (2) companies. Adjusted EBITDA may not be indicative of the Group's historic operating results nor is it meant to be predictive of potential future results. The usage of the term "Adjusted EBITDA" is to highlight the fact that the Amortization includes amortization of deferred expenses – right of use and amortization of employee share based compensation and impairment charges; it is fully comparable to EBITDA information which has been previously provided for prior periods.

(3) Operating expenses include selling and marketing expenses and general and administrative expenses.

(1) In July 2017, after the balance sheet date, the Company issued Series F Notes in a principal amount of NIS 255 million. Regarding Series F Notes, the Company is required to comply with a financial covenant that the ratio of Net Debt to Adjusted EBITDA shall not exceed 5. Compliance will be examined and reported on a quarterly basis. For the definitions of Net Debt and Adjusted EBITDA see 'Use of non-GAAP measures' section above. For the purpose of the covenant, Adjusted EBITDA is calculated as the sum total for the last 12 month period, excluding adjustable one-time items. As of June 30, 2017, the ratio of Net Debt to Adjusted EBITDA was 1.2. Additional stipulations regarding Series F Notes are as follows: shareholders' equity shall not decrease below NIS 400 million; the Company shall not create floating liens subject to certain terms; the Company has the right for early redemption under certain conditions; the Company shall pay additional annual interest of 0.5% in the case of a two-notch downgrade in the Notes rating and an additional annual interest of 0.25% for each further single-notch downgrade, up to a maximum additional interest of 1%; the Company shall pay additional annual interest of 0.25% during a period in which there is a breach of the financial covenant.

The Company has additional financial covenants regarding its borrowings from financial institutions. See note 15 to the Company's 2016 annual financial statements.

In the reporting period, the Company was in compliance with all financial covenants and obligations and no cause for early repayment occurred.

(2) 'MAKAM' is a variable interest based on the yield of 12 month government bonds issued by the government of Israel. The interest rate is updated on a quarterly basis.

(*) On these dates additional Notes of the series were issued. The information in the table refers to the full series.
