SALEM COMMUNICATIONS ANNOUNCES FIRST QUARTER 2004 RESULTS

First Quarter Same Station Revenue and Same Station Operating Income Increase 10.0% and 27.3%, Respectively

CAMARILLO, CA April 26, 2004 Salem Communications Corporation (Nasdaq: SALM), the leading radio broadcaster focused on religious and family themes programming, announced today results for the first quarter ended March 31, 2004.

Commenting on these results, Edward G. Atsinger III, President and CEO said, "Our better than expected first quarter results were driven by improvements in our developing radio properties and reflect the high growth nature of our station group in an improving advertising environment. We are especially pleased with our ability to leverage our 10.0% same station revenue performance into an impressive 27.3% same station operating income growth. We also expanded our station operating income margin to 36.2% from 32.0% in the same quarter last year.

Mr. Atsinger continued, "In addition to our impressive financial performance in the first quarter, we positioned ourselves for future growth with a number of initiatives that will benefit shareholders over the long-term. For example, we improved our presence in the nation's largest markets, strengthening our presence in Atlanta and Honolulu, while entering the Detroit market. As a result, we have a presence in 23 of the top 25 markets, including all of the top 10 markets. We also recently introduced news/talk stations in Dallas, Philadelphia and Baltimore, and launched a new three-hour national morning program, Bill Bennett's Morning in America, in over 70 markets across the country. Finally, we are continuing to make progress in our contemporary Christian music stations, as listenership, revenues and cash flow are all increasing. All told, we are off to a great start in 2004.

First Quarter 2004 Results

For the quarter ended March 31, 2004, net broadcasting revenue increased 11.5% to \$43.2 million from \$38.7 million in the same period a year ago. The company reported operating income of \$8.0 million for the quarter, compared with operating income of \$3.2 million for the same period last year. Operating income for the quarter ending March 31, 2003 was reduced by \$2.2 million related to the denial of a tower relocation and a coverage license upgrade. The company reported net income of \$1.2 million for the quarter, or \$0.05 per diluted share, compared with a net loss of \$6.1 million, or \$0.26 loss per share, for the same period last year. The net loss for the quarter ended March 31, 2003 included a

Edgar Filing: SALEM COMMUNICATIONS CORP /DE/ - Form 8-K

one-time loss (net of an income tax benefit) of \$4.0 million, or \$0.17 loss per share, as a result of the early retirement of \$100 million of the company's 9.5% senior subordinated notes.

Station operating income (SOI) increased 26.2% to \$15.6 million for the first quarter of 2004 from \$12.4 million in the corresponding period last year. Station operating income margin increased to 36.2% in the first quarter of 2004 from 32.0% in the first quarter of 2003. The company expects this percentage to continue to improve as its developing radio stations continue to mature.

On a same station basis, net broadcasting revenue increased 10.0% to \$42.6 million and station operating income increased 27.3% to \$15.7 million for the first quarter of 2004 as compared to the first quarter of 2003. Same station results have been favorably impacted by revenue and station operating income growth from our contemporary Christian music radio stations.

EBITDA increased to \$10.8 million in the first quarter of 2004 compared to (\$0.3) million in the first quarter of 2003. EBITDA for 2003 included a one-time expense of \$6.4 million for the early retirement of the company's 9.5% senior subordinated notes and a \$2.2 million expense due to a denied tower site and license upgrade. Excluding these write-offs, Adjusted EBITDA increased 29.4% to \$10.8 million for the first quarter of 2004 from \$8.3 million in the corresponding 2003 period.

Per share numbers were calculated based on 23,678,124 weighted average diluted shares for the quarter ended March 31, 2004, and 23,484,113 weighted average diluted shares for the comparable 2003 period.

Station Operating Income (SOI) Margin Composition Analysis

The following presentation of the company's radio station portfolio, which is for analytical purposes only, separates each station into one of four categories based upon first quarter performance. The company believes this analysis is helpful in assessing the portfolio's financial and operational development.

Three Months Ended March 31, 2003 (Net Broadcasting Revenue and SOI in millions)

SOI Margin %	Stations	Net Broadcasting		SOI	Average SOI%
		Revenue

Second Quarter 2004 Outlook

For the second quarter of 2004, Salem is projecting net broadcasting revenue between \$47.0 million and \$47.5 million. Net income for the second quarter of 2004 is projected to be between \$0.11 per diluted share and \$0.13 per diluted share. Salem is projecting station operating income between \$17.5 million and \$18.0 million for the second quarter of 2004.

Second quarter 2004 guidance reflects the following:

- Start up losses associated with the recently acquired stations in the Jacksonville, Florida market as well as the launch of our new national morning program, Bill Bennett's Morning in America.
- Costs associated with the introduction of news/talk programming on our stations in Philadelphia, Dallas and Baltimore.
- Continued growth from Salem's underdeveloped radio stations particularly our contemporary Christian music radio stations.
- Salem expects to achieve same station revenue growth of approximately 10% and overall revenue growth in the low double digits for April 2004. Based on its most recent pacings, Salem is projecting second quarter same station and overall revenue growth in the high single digits.

Additionally, for 2004 as a whole, the company expects corporate expenses of approximately \$17 million. Salem also expects acquisition and improvement related capital expenditures of approximately \$10 million, and maintenance capital expenditures of approximately \$6 million.

Mr. Atsinger continued, "Looking ahead, near-term industry growth trends bode well for the second quarter. In addition, the investments we have made in our stations have resulted in ratings, revenue and margin improvements. As a result, we are well positioned to capitalize on the improving advertising environment and expect our second quarter and full year results to reflect this growth potential. We are optimistic about the rest of 2004."

Balance Sheet

As of March 31, 2004, the company had net debt of \$320.9 million and was in compliance with all of its covenants under the credit facility and bond indentures. Salem's bank leverage ratio was 6.3 as of March 31, 2004 versus a compliance covenant of 7.25. Salem's bond leverage ratio was 5.6 as of March 31, 2004 versus an incurrence covenant of 7.0.

Salem will host a teleconference to discuss its results today at 10:00 AM Eastern Time. To access the teleconference, please dial 973-582-2734 ten minutes prior to the start time. The teleconference will also be available via live webcast on the investor relations portion of the company's website, located at www.salem.cc. If you are unable to listen to the live teleconference at its scheduled time, there will be a replay available through May 10, 2004, and can be accessed by dialing 973-341-3080, passcode 4705503. The webcast will also be archived on the company's website.

Salem Communications Corporation, headquartered in Camarillo, California, is the leading U.S. radio broadcaster focused on religious and family themes programming. Upon the close of all announced acquisitions, the company will own 95 radio stations, including 60 stations in 23 of the top 25 markets. In addition to its radio properties, Salem owns Salem Radio Network, which syndicates talk, news and music programming to over 1,600 affiliated radio stations; Salem Radio Representatives, a national sales force; Salem Web Network, the leading Internet provider of Christian content and online streaming; and Salem Publishing, a leading publisher of contemporary Christian music trade and consumer magazines.

Forward Looking Statements

Statements used in this press release that relate to future plans, events, financial results, prospects or performance are forward-looking statements as defined under the Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those anticipated as a

result of certain risks and uncertainties, including but not limited to the ability of Salem to close and integrate announced transactions, market acceptance of recently launched music formats, competition in the radio broadcast, Internet and publishing industries and from new technologies, adverse economic conditions, and other risks and uncertainties detailed from time to time in Salem's reports on Forms 10-K, 10-Q, 8-K and other filings filed with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Salem undertakes no obligation to update or revise any forward-looking statements to reflect new information, changed circumstances or unanticipated events.

Regulation G

Station operating income, EBITDA and Adjusted EBITDA are financial measures not prepared in accordance with generally accepted accounting principles (GAAP). Station operating income is defined as net broadcasting revenues minus broadcasting operating expenses. EBITDA is defined as net income before interest, taxes, depreciation and amortization. Adjusted EBITDA is defined as EBITDA adjusted for the cost of a denied tower site and license upgrade and the loss on early redemption of long-term debt. In addition, Salem has provided supplemental information as an attachment to this press release, reconciling these non-GAAP financial measures to the most directly comparable financial measures prepared in accordance with GAAP. The company believes these non-GAAP financial measures, when considered in conjunction with the most directly comparable GAAP financial measures, provide useful measures of the company's operating performance.

Station operating income, EBITDA and Adjusted EBITDA are generally recognized by the broadcasting industry as important measures of performance and are used by investors as well as analysts who report on the industry to provide meaningful comparisons between broadcasting. Station operating income, EBITDA and Adjusted EBITDA are not a measure of liquidity or of performance in accordance with GAAP, and should be viewed as a supplement to and not a substitute for, or superior to, the company's results of operations presented on a GAAP basis such as operating income and net income. In addition, Salem's definition of station operating income, EBITDA and Adjusted EBITDA is not necessarily comparable to similarly titled measures reported by other companies.

SALEM COMMUNICATIONS ANNOUNCES PROPOSED EQUITY OFFERING

CAMARILLO, Calif., April 26, 2004-- Salem Communications Corporation (Nasdaq: SALM), the leading radio broadcaster focused on religious and family-themed programming, announced today that it intends to offer for sale 3,100,000 shares of Class A common stock in a registered public offering. The proposed offering will consist of 2,325,000 primary shares to be offered by the Company, and 775,000 secondary shares to be offered by selling stockholders. The selling stockholders are the founders of the Company and its principal stockholders, Edward G. Atsinger III and Stuart W. Epperson. In addition, the Company and the selling stockholders expect to grant the underwriters an over-allotment option to purchase up to an additional 175,000 shares from the Company and 225,000 shares from the selling stockholders.

Salem Communications intends to use the net proceeds from this offering for working capital and general corporate purposes, which may include the redemption of up to approximately \$52.5 million principal amount of the outstanding 9% senior subordinated notes. Upon completion of the offering, the Company anticipates having approximately 20,315,417 shares of its Class A common stock outstanding, assuming the over-allotment option is not exercised.

Salem Communications has appointed Credit Suisse First Boston LLC and Deutsche Bank Securities Inc. as the joint book-running managers for the offering.

The shares of Class A common stock to be sold in the proposed offering will be sold pursuant to the Company's existing shelf registration statement on file with the Securities and Exchange Commission. This press release is not an offer to sell or a solicitation of an offer to buy these securities in any state in which such offer, solicitation or sale would be unlawful. This offering may be made only by means of a prospectus and related prospectus supplement. When available, copies of such documents may be obtained from Credit Suisse First Boston LLC, 11 Madison Avenue, New York, NY 10010; Deutsche Bank Securities Inc., Syndicate Operations, 1251 Avenue of the Americas, 25th Floor, New York, NY 10020; UBS Securities LLC, 299 Park Avenue, New York, NY 10171; Jefferies & Company, Inc., 650 California Street, 29th Floor, San Francisco, CA 94108; and SunTrust Capital Markets, Inc., 3333 Peachtree Road, N.E. 10th Floor, Atlanta, GA 30326.

Salem Communications Corporation, headquartered in Camarillo, CA, is the leading U.S. radio broadcaster focused on religious- and family-themed programming. Upon completion of all announced transactions, the company will own 95 radio stations, mainly comprised of three formats: Christian Teaching/Talk; News/Talk; and Contemporary Christian Music. In addition to its radio properties, Salem owns the Salem Radio Network®, which syndicates talk, news and music programming to approximately 1,600 affiliated radio stations; Salem Radio Representatives, a national sales organization; Salem Web Network, the leading Internet provider of Christian content and online streaming; and Salem Publishing, a Christian magazine publisher. For more information, visit Salem Communications' web site at www.Salem.cc.

Forward Looking Statements

This press release contains forward-looking statements as defined under the Private Securities Litigation Reform Act of 1995. Such statements involve known and unknown risks, uncertainties, assumptions and other factors that may cause actual events and results to differ materially from those that may be described or implied. Such factors include but are not limited to adverse economic and market conditions and other risks and uncertainties detailed from time to time in Salem's reports on Forms 10-K, 10-Q, 8-K and other filings filed with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Salem undertakes no obligation to update or revise any forward-looking statements to reflect new information, changed circumstances or unanticipated events.

Beneficial conversion feature related to debt	\$ (2,413,158)	\$ -
Common stock issued for payment of accounts payable	\$ 41,875	\$ -

The accompanying notes are an integral part of these consolidated financial statements.

Note 1. Basis of Presentation and Nature of Operations

Basis of Presentation: The interim Consolidated Financial Statements of Capsalus Corp. (Capsalus, the Company, we, us or our) are unaudited but, in the opinion of management, reflect all adjustments necessary for a fair statement of financial position, results of operations and cash flows for the periods presented. Except as otherwise disclosed herein, these adjustments consist of normal, recurring items. The results of operations for any interim period are not necessarily indicative of full year results. The Consolidated Financial Statements and Notes are presented in accordance with the requirements for Quarterly Reports on Form 10-Q and do not contain certain information included in our annual Consolidated Financial Statements and Notes.

The preparation of the interim Consolidated Financial Statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim Consolidated Financial Statements and the reported amounts of revenue and expenses for the reporting periods. Despite our intention to establish accurate estimates and use reasonable assumptions, actual results may differ from our estimates.

The December 31, 2009 Consolidated Balance Sheet data was derived from the audited Consolidated Financial Statements but does not include all disclosures required by accounting principles generally accepted in the United States of America. This Form 10-Q should be read in conjunction with our Consolidated Financial Statements and Notes included in our Annual Report on Form 10-K for the year ended December 31, 2009.

Nature of Operations: Capsalus is a global wellness solutions company with operations in Nutritional Products, Animal Wellness and BioPharm Process Systems. Capsalus was originally incorporated under the name Mach One Corporation. On October 20, 2010, the Company changed its name to Capsalus Corp. The assets of the Animal Wellness group were sold on August 6, 2010 (refer to Note 6. Sale of Animal Wellness Group Assets). The Nutritional Products Division is a new, consumer-driven business unit focused on healthy food and beverages. The BioPharm Process Systems Group provides documentation, process modules, process skids, custom tanks and vessels and custom stainless steel fabrication to the biopharmaceutical industry.

Note 2. Summary of Significant Accounting Policies

Inventory: Inventory consists of finished goods only as of December 31, 2009. The Company maintains its inventory on a perpetual basis utilizing the first-in first-out (FIFO) method. Inventories have been valued at the lower of cost or market. As of December 31, 2009, management has not established an obsolescence reserve for inventory, as we believe that all inventory is usable and that market values of all inventories exceed cost.

Property and Equipment: Property and equipment is reported at cost less accumulated depreciation. Maintenance and repairs are charged to expense as incurred. The cost of property and equipment is depreciated over the following estimated useful lives of the related assets:

Furniture & Fixtures	7 years
Machinery & Equipment	5 years

Long-Lived and Amortizable Intangible Assets: The Company periodically evaluates the carrying value of long-lived and amortizable intangible assets to be held and used, including but not limited to, property and equipment and intangible assets, when events and circumstances warrant such a review. The carrying value of a long-lived or amortizable intangible asset is considered impaired when the anticipated undiscounted cash flow from such asset is less than its carrying value. In that event, a loss is recognized based on the amount by which the carrying value

exceeds the fair value of the long-lived asset. Fair value is determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved. Losses on long-lived assets to be disposed of are determined in a similar manner, except that fair values are reduced for the cost to dispose. The Company has reviewed long-lived and amortizable intangible assets with estimable useful lives and determined that the remaining net carrying value, after impairing certain assets in 2010, is recoverable in future periods.

Revenue Recognition: The Company recognizes revenue when persuasive evidence of an arrangement exists, transfer of title has occurred, the selling price is fixed or determinable, collection is reasonably assured and delivery has occurred per the contract terms. For certain contracts in its BioPharm Process Systems Group, the Company recognizes revenue based on the percentage of completion method. Revenue is deferred when customer billings exceed revenue earned.

Segment Reporting: The Company operates and manages the business under one reporting segment. Currently, Animal Wellness, BioPharm Process Systems and Nutritional Products have not generated significant revenues or acquired significant assets. As such, the Company operates and manages the business under one reporting segment.

Goodwill: Goodwill is the excess of cost of an acquired entity over the amounts assigned to assets acquired and liabilities assumed in a business combination. Goodwill is not amortized. We evaluate the carrying value of goodwill annually during the quarter ending December 31, and between such annual evaluations if events occur or circumstances change that would indicate a possible impairment. We use a discounted cash flow model based on management's judgment and assumptions to determine the estimated fair value of the Company. An impairment loss generally would be recognized when the carrying amount of the Company's net assets exceeds the estimated fair value of the reporting unit. During the quarter ended June 30, 2010, the Company determined that the value of the goodwill related to the acquisition of Ceres Organic Harvest (Ceres) was permanently impaired and, as such, recorded a charge in discontinued operations in the Company's consolidated statement of operations of \$178,048.

Fair Value of Financial Instruments: The respective carrying value of certain on-balance sheet financial instruments approximates their fair values. These financial instruments include cash, accounts receivable, accounts payable and accrued liabilities, and notes payable. Fair values were assumed to approximate cost or carrying values as most of the debt was incurred recently and the assets were acquired within one year. Management is of the opinion that the Company is not exposed to significant interest, credit or currency risks arising from these financial instruments.

Income Taxes: The Company provides for income taxes using an asset and liability approach. Deferred tax assets and liabilities are recorded based on the differences between the financial statement and tax bases of assets and liabilities and the tax rates in effect when these differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance if, based on the weight of the available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. For all periods presented, the Company has recorded a full valuation allowance against its deferred tax assets.

The Company recognizes a financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement with the relevant tax authority.

Comprehensive Income (Loss): Comprehensive income (loss) includes net loss and items defined as other comprehensive income. Items defined as other comprehensive income include unrealized gains (losses) on marketable securities. The Company had \$12,065 and \$(237,271) of other comprehensive income (loss) for the nine months ended September 30, 2010 and 2009, respectively.

Reclassifications: Certain reclassifications have been made to the 2009 financial statement presentation to correspond to the current year's format. Total 2009 equity and net loss are unchanged due to these reclassifications.

Recent Accounting Developments: In January 2010, the FASB issued ASU 2010-06, "Improving Disclosures about Fair Value Measurements." This update requires additional disclosure within the roll forward of activity for assets and liabilities measured at fair value on a recurring basis, including transfers of assets and liabilities within Level 3 of the fair value hierarchy. In addition, the update requires enhanced disclosures of the valuation techniques and inputs used in the fair value measurements within Levels 2 and 3. The new disclosure requirements are effective for interim and annual periods beginning after December 15, 2009, except for the disclosure of purchases, sales issuances and settlements of Level 3 measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010. As ASU 2010-6 only requires enhanced disclosures, the Company does not expect that the adoption of this update will have a material effect on its financial statements.

Note 3. Going Concern Uncertainty

The accompanying financial statements have been prepared on the basis that the Company will continue as a going concern, which assumes the realization of assets and the satisfaction of liabilities in the normal course of business. Since inception, until the acquisition of entities that formed the Animal Wellness and BioPharm Process Systems Groups in February 2009, the Company had primarily been engaged in product development and pre-operational activities. The Company has accumulated losses totaling \$18,637,907 from inception through September 30, 2010, and a net working capital deficit of \$2,264,408 as of September 30, 2010. The uncertainty related to these conditions raises substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Over the next 18 months, in order to have the capability of achieving our business plan, we believe that we will require at least \$5,000,000 in additional funding to pay down certain payables and accruals and to provide working capital. Should we be unable to obtain additional funding in the next 3 months, we would be required to further cut expenses until such funding is obtained. We are currently attempting to raise these funds by means of one or more public or private offerings of debt or equity securities or both. However, at this point, we have not specifically identified the type or sources of this funding. We also are exploring commercial and joint venture financing opportunities. If we are unsuccessful in raising funds, we may have to reduce expenses and/or cease operations altogether.

Note 4. Discontinued Operations

On March 31, 2010, Ceres adopted a plan to close the business of its wholly-owned subsidiary, Organic Grain and Milling, Inc. (OGM). As of March 31, 2010, substantially all operational activities of OGM were discontinued. As a result, effective in its first quarter of fiscal 2010, the Company classified OGM as discontinued operations separate from the continuing operations of the Company for all the periods presented in the financial statements.

On July 1, 2010, the Company adopted a plan to close the business of Ceres Organic Harvest, Inc. (Ceres). As of July 1, 2010, substantially all operational activities of Ceres were discontinued. As a result, effective in the quarter ended September 30, 2010, the Company classified Ceres as discontinued operations separate from the continuing operations of the Company for all the periods presented in the financial statements.

On August 6, 2010, the Company entered into an agreement to sell the Animal Wellness group business (refer to Note 6. Sale of Animal Wellness Group Assets). As a result, effective in the quarter ended September 30, 2010, the Company classified the Animal Wellness group as discontinued operations separate from the continuing operations of the Company for all the periods presented in the financial statements.

The following table summarizes results of OGM, Ceres and the Animal Wellness group classified as discontinued operations in the Company's condensed, consolidated statements of operations for the three and nine months ended September 30, 2010 and 2009:

	Three months ended		Nine months ended	
	September 30, 2010	September 30, 2009	September 30, 2010	September 30, 2009
Sales, net	\$ 13,437	\$ 1,500,072	\$ 591,389	\$ 3,924,347
Cost of goods sold	20,189	1,504,425	557,658	3,632,588
Gross profit	(6,752)	(4,353)	33,731	291,759
Operating expenses	50,722	621,414	546,585	1,595,670
Goodwill and intangible asset impairment	-	-	853,548	-
Loss from discontinued operations	(57,474)	(625,767)	(1,366,402)	(1,303,911)
Other income (expense)	253,902	(16,273)	188,684	(43,769)
Income (loss) from discontinued operations before taxes	196,428	(642,040)	(1,177,718)	(1,347,680)
Income tax expense (benefit) from discontinued operations	-	-	-	-
Income (loss) from discontinued operations	196,428	(642,040)	(1,177,718)	(1,347,680)
Net loss attributable to non-controlling interest in variable interest entity	-	4,127	-	78,702
Income (loss) from discontinued operations	\$ 196,428	\$ (637,913)	\$ (1,177,718)	\$ (1,268,978)

The following table summarizes the major classes of assets and liabilities in OGM's, Ceres' and the Animal Wellness group's balance sheets as of September 30, 2010 and December 31, 2009:

	September 30, 2010	December 31, 2009
Cash	\$ 4,794	\$ 19,648
Accounts receivable	37,853	307,794
Inventory	-	320,843
Other current assets	-	6,907
Property and equipment, net (planned to be sold within 12 months)	1,237	113,596
Current assets of discontinued operations	\$ 43,884	\$ 768,788
Property and equipment, net	\$	\$ 527,106
Intangible assets	-	707,500
Goodwill	-	178,048
Non-current assets of discontinued operations	\$	\$ 1,412,654
Accounts payable	\$ 681,550	\$ 1,318,233
Accrued liabilities	73,215	371,835
Notes payable	239,800	803,772
Current liabilities of discontinued operations	\$ 994,565	\$ 2,493,840

Note 5. Product License and Asset Purchase

On August 11, 2009, the Company entered into an exclusive license and distribution agreement to acquire the formulations and worldwide marketing rights to a suite of products that promote joint and bone health in horses, dogs and humans. These formulas and related rights are being acquired from Platte Valley State Bank (Platte Valley), who currently owns all rights pertaining to these products. The products were previously developed, manufactured and distributed by Clark Biotechnology, Inc. (CBI). CBI discontinued operations in 2008 due to the death of its founder.

The agreement calls for minimum royalties totaling \$350,000 to be paid as follows:

\$30,000	September 11, 2010 (1)
\$80,000	September 11, 2011
\$80,000	September 11, 2012
\$80,000	September 11, 2013
\$80,000	September 11, 2014

(1) The Company made this payment by the due date referenced above

The Company has imputed interest on these installments at a rate of 12%, which is equivalent to the Company's estimated borrowing rate as of the date of the agreement. The discounted value of the licensed asset totals \$243,700 and has been included in intangible assets on our consolidated balance sheet and a corresponding liability included in

current portion of long-term debt and long-term debt (refer to Note 12. Long-term debt) as of September 30, 2010.

The Company is treating these minimum royalty payments as a purchase of the related formulations and marketing rights as once these minimum royalty payments are made, the Company will have sole title to the formulations and marketing rights.

In addition, the Company is required to pay additional royalties of 4% of net sales of the products that exceed \$2,000,000 in each year of the agreement. These royalties will be recorded as incurred. There were no sales of this product during the period from August 11, 2009 to September 30, 2010.

Note 6. Sale of Animal Wellness Group Assets

On August 6, 2010, the Company entered into an agreement to sell substantially all of the assets, including equipment, license rights, certain receivables and intellectual property, of its former Animal Wellness Group to Hi-TIG, Inc., a company owned by the Company's former CEO (Purchaser). In return, the Purchaser assumed certain liabilities of the Company, including, but not limited to, existing and future liabilities related to the former Animal Wellness Group and wages accrued and other liabilities on the Company's balance sheet related to the Company's former CEO.

The following table summarizes the net assets and liabilities relating to the Animal Wellness group that were sold to the Purchaser as of September 30, 2010:

	2010
Current assets	\$ 52,210
Property, plant and equipment	353,014
Assets	\$ 405,224
Current liabilities	\$ 670,794
Liabilities	\$ 670,794

During the quarter ended September 30, 2010, the Company recorded a gain on the sale of the assets of \$265,570 in discontinued operations in the Company's consolidated statement of operations.

Note 7. Acquisition

On April 14, 2010, the Company completed an acquisition of WhiteHat Holdings, LLC, a Delaware limited liability company (WhiteHat), through the merger of WhiteHat into White Hat Acquisition Corp., a wholly-owned subsidiary of the Company (Merger Sub), pursuant to a Plan and Agreement of Merger entered into by the parties on February 25, 2010 (the Merger Agreement). The Merger Sub subsequently changed its name to WhiteHat Holdings, Inc. and will operate as a wholly owned subsidiary of Capsalus.

Pursuant to the terms of the Merger Agreement, (i) \$400,000 shall be deposited into a WhiteHat account not later than April 30, 2010, to be used by WhiteHat to pay its legal, accounting, marketing and debt expenses and to further the development of its business, and (ii) all of the issued and outstanding shares of common and preferred stock of WhiteHat were converted into 154,798,780 shares of Capsalus common stock and distributed to the WhiteHat shareholders pro rata. In addition, \$1,175,000 of WhiteHat indebtedness was cancelled and converted into 15,343,750 shares of Capsalus common stock at approximately \$0.08 per share. Upon the close of the acquisition, the former WhiteHat shareholders owned approximately 45% of the total issued and outstanding common stock of Capsalus. In the event that less than \$400,000 was deposited into a WhiteHat account by April 30, 2010, Capsalus is required to issue additional shares of its common stock (Penalty Shares) to the WhiteHat shareholders, pro rata. In addition, Capsalus was obligated to provide additional capital to the WhiteHat subsidiary of not less than \$1,600,000 on or before July 4, 2010. In the event Capsalus failed to provide such capital within the required time period, Capsalus is required to issue to the former WhiteHat shareholders up to 33,691,592 additional shares of its common stock (Additional Shares). However, in no event will the total number of shares issued to the WhiteHat shareholders at the closing, together with any Penalty Shares and/or Additional Shares exceed 49.9% of Capsalus's issued and outstanding common stock.

As of the date of this report, the Company has deposited all of the initial \$400,000 and approximately \$600,000 of the additional capital required under the Merger Agreement. The Company is working with the WhiteHat management

team to raise the additional funding necessary under the agreement. However, as the July 4, 2010 funding commitment date was missed, the Company has appropriately recorded the fair value of the Additional Shares of \$2,358,411 as additional purchase consideration and as a credit to additional paid-in capital.

Due to the nature and timing of this transaction, as of June 30, 2010, the Company had made a good-faith estimate as to the value of the consideration paid for WhiteHat and the fair value of acquired assets and assumed liabilities, including identifiable intangibles, and recorded a preliminary purchase price allocation. The Company finalized these estimates and the purchase price allocation during the quarter ended September 30, 2010.

The following table summarizes the allocation of the purchase price to the fair values of the assets acquired and liabilities assumed at the date of acquisition, in accordance with the purchase method of accounting, as of September 30, 2010:

Issuance of 170,142,530 shares of common stock with an estimated fair value of \$.07 per share (closing price on April 14, 2010)	\$ 11,909,977
Contingent consideration for Additional Shares (included in additional paid-in capital)	2,358,411
Cash advances	103,500
Total purchase consideration	\$ 14,371,888
Identifiable intangible assets	\$ 1,500,000
Equipment, software and web site development	92,000
Goodwill	13,141,276
Total assets acquired	14,733,276
Notes payable (\$309,300) and related accrued interest (\$52,088)	361,388
Total liabilities assumed	361,388
Total purchase consideration	\$ 14,371,888

The acquired intangible assets, comprised of trademarks, formulas and customer relationships, have an estimated weighted average useful life of five years and will be amortized using a method that reflects the pattern in which assets are expected to be consumed.

Note 8. Intangible Assets and Goodwill

Intangible assets

Intangible assets, net at September 30, 2010 and December 31, 2009 consisted of the following:

	September 30, 2010	December 31, 2009
Formulas (See Note 7)	\$ 1,000,000	\$ -
Customer relationships (See Note 7)	400,000	-
Trademarks (See Note 7)	100,000	-
Engineering methodology and customer list	100,000	100,000
Licensed assets (See Note 5)	243,700	243,700
	1,843,700	343,700
Less: accumulated amortization	(31,667)	(16,667)
	\$ 1,812,033	\$ 327,033

Amortization expense related to intangible assets was \$5,000 and \$15,000 for the three and nine months ended September 30, 2010, respectively, and \$5,000 and \$11,667 for the three and nine months ended September 30, 2009.

Estimated aggregate amortization expense based on current intangibles for the next five years is expected to be as follows: \$5,000 remaining in 2010, \$56,559 in 2011, \$131,843 in 2012, \$294,538 in 2013 and \$453,968 in 2014.

Goodwill

The value of the goodwill recorded during the quarter ended June 30, 2010 related to the acquisition of WhiteHat of \$13,141,276 is dependent on the success of the Company's plan to pursue the production, marketing and sale of White Hat's ready-to-drink juices. Several factors, such as adequate available funding, shelf life and product margins in this highly competitive market, remain to be evaluated to assure success of the Company's plan. If the Company is not able to successfully produce, market and sell the ready-to-drink juice product line, the related goodwill would become significantly impaired.

Note 9. Composition of Certain Financial Statement Captions

Other current assets at September 30, 2010 and December 31, 2009 consisted of the following:

	September 30, 2010	December 31, 2009
Prepaid management fee	\$ 26,250	\$ 105,000
Brand trademark held for sale	80,000	80,000
Inventory advance	260,095	260,095
Prepaid assets and other	9,764	28,984
	\$ 376,109	\$ 474,049

Note 10. Property and Equipment

Property and equipment at September 30, 2010 and December 31, 2009 consisted of the following:

September 30, 2010	December 31, 2009
-----------------------	----------------------

Machinery & equipment	\$	40,000	\$	-
Computer equipment		64,583		17,265
		104,583		17,265
Less: accumulated depreciation		(23,001)		(8,555)
	\$	81,582	\$	8,710

Depreciation expense related to property and equipment was \$7,600 and \$13,933 for the three and nine months ended September 30, 2010, respectively and \$4,977 for the three and nine months ended September 30, 2009.

Note 11. Short-term Notes Payable and Other Debt

Short-term notes payable and other debt at September 30, 2010 and December 31, 2009 consisted of the following:

	September 30, 2010	December 31, 2009
Short-term convertible notes payable	\$ 1,471,986	\$ 355,000
Short-term loans and lines of credit	166,300	50,118
	\$ 1,638,286	\$ 405,118

Short-term Convertible Notes Payable

Commonwealth One

The Commonwealth One round of financing was closed in the quarter ended December 31, 2008. Proceeds from the notes were \$550,000. Interest at 12.0% was due with the principal on various dates through June 2009. The notes are unsecured and are convertible into shares of the Company's common stock at \$0.045 per share at any time during the term of the notes.

During the year ended December 31, 2009, \$450,000 of the Commonwealth One notes were converted into 10,000,000 shares of the Company's common stock. During the quarter ended September 30, 2010, the Company paid \$50,000 in principal on the remaining outstanding note balance totaling \$100,000. The note holder has verbally extended the remaining balance of this note until further notice.

Plant Notes

The Company also entered into loan agreements with an unrelated individual (Plant Notes) during the quarters ended December 31, 2008 and March 31, 2009. Proceeds from the agreements totaled \$105,000 with interest at 5.0% due with the principal on June 30, 2010. The notes are unsecured and are convertible into shares of the Company's common stock at \$0.50 per share at any time during the term of the notes. During the quarter ended September 30, 2010, the Company paid \$15,000 in principal on the Plant Notes. The note holder has verbally extended the remaining balance of this note until further notice.

Blake Note

In connection with the acquisition of Pacific Rim Foods on December 31, 2008, the Company acquired a note payable for \$100,000 to an unrelated individual (Blake Note). Interest at 10.0% is payable annually. All outstanding interest and principal are due January 13, 2011. The note is unsecured and is convertible into shares of the Company's common stock at \$0.125 per share at any time during the term of the note.

CMS Notes

In December 2009, the Company entered into a round of financing with Charles Morgan Securities, Inc. Proceeds from the notes (CMS Notes) were \$50,000 as of December 31, 2009. Interest at 12.0% is due with the principal on September 30, 2010. The notes are unsecured and are convertible into shares of the Company's common stock at \$0.08 per share at any time during the term of the notes. The conversion price is subject to certain weighted-average anti-dilution adjustments if the Company were to subsequently issue common stock at a price below the then-applicable conversion price.

During the quarter ended June 30, 2010, \$50,000 of the original CMS notes, and \$3,000 of related accrued interest, were converted to 1,325,000 shares of the Company's common stock at \$0.04 per share. The note converted had an original conversion rate of \$0.08 per share. Since the actual conversion rate was lower, the Company recorded a beneficial conversion feature charge in its consolidated statement of operations of \$50,000 during the quarter ending

June 30, 2010.

During the quarter ended March 31, 2010, additional proceeds from the CMS notes were \$100,000. Interest at 12.0% is due with the principal on February 11, 2011. The notes are unsecured and are convertible into shares of the Company's common stock at \$0.04 per share at any time during the term of the notes. As the conversion price of the CMS notes issued during the quarter ended March 31, 2010 was below the then current market price of the Company's common stock, a beneficial conversion feature discount was recorded, in the form of a debt discount, in the amount of \$100,000. The discount recorded is being amortized to interest expense over the life of the notes. Amortization of \$25,000 and \$67,708 was recorded for the three and nine months ended September 30, 2010, respectively.

2010 Tranche I Notes

During the quarter ended June 30, 2010, the Company entered into a round of financing with a group of individual lenders. Proceeds from the notes (2010 Tranche I Notes) were \$60,000 as of June 30, 2010. The notes are unsecured, bear interest at 10%, and are convertible into shares of the Company's common stock at prices ranging from \$0.03 to \$0.04 per share at any time during the term of the notes. As the conversion price of the notes was below the then current market price of the Company's common stock, a beneficial conversion feature discount was recorded, in the form of a debt discount, in the amount of \$60,000. The discount recorded is being amortized to interest expense over the life of the notes. Amortization of \$9,445 and \$20,278 was recorded for the three and nine months ended September 30, 2010, respectively.

During the quarter ended September 30, 2010, additional proceeds from the 2010 Tranche I Notes were \$1,144,000. The notes are unsecured, bear interest ranging from 10% to 12%, and are convertible into shares of the Company's common stock at \$0.04 per share at any time during the term of the notes.

Except for the CMS notes issued during the quarter ended March 31, 2010, and the initial \$60,000 of 2010 Tranche I notes, the conversion prices of all other convertible notes were established at, or above, the then current market price of the Company's common stock and therefore, no beneficial conversion feature discount has been recorded.

A summary table of short-term convertible notes payable as of September 30, 2010 and December 31, 2009 follows:

	September 30, 2010	December 31, 2009
Commonwealth One	\$ 50,000	\$ 100,000
Plant Notes	90,000	105,000
Blake Note	100,000	100,000
CMS Notes, net of debt discount	67,708	50,000
2010 Tranche I Notes, net of debt discount	1,164,278	-
Total	\$ 1,471,986	\$ 355,000

Short Term Loans and Lines of Credit

In September 2009, the Company entered into a loan agreement with Thomsen Group, LLC. The note balance as of September 30, 2010 and December 31, 2009 is \$0 and \$50,118, respectively. Interest is at 8.0%, principal and interest payments were due upon demand, and the note was unsecured. Thomsen Group, LLC is majority-owned by a director of the Company.

In connection with the acquisition of WhiteHat on April 14, 2010 (see Note 7), the Company assumed notes payable totaling \$309,300. The outstanding balance of the notes as of September 30, 2010 is \$166,300. Interest is at 10%, principal and interest payments are due upon demand, and the notes are unsecured.

Note 12. Long-term Debt

Long-term debt at September 30, 2010 and December 31, 2009 consisted of the following:

	September 30, 2010	December 31, 2009
Zero Coupon Convertible Subordinated Notes Payable, interest at 5.0%, principal and interest due December 12, 2013, convertible into shares of common stock of the Company at \$0.076 per share at any time, unsecured (total maturity value of \$2,545,073)	\$ 1,069,760	\$ 3,137,602
Liability for license agreement (total maturity value of \$350,000) (See Note 5)	246,938	255,077
Convertible Note Payable, interest at 12.0%, principal and interest due April 1, 2012, convertible into shares of common stock of the Company at \$0.02 per share at any time, unsecured, net of debt discount (face value of \$100,000)	25,000	-
Convertible Note Payable, interest at 12.0%, principal and interest due June 2, 2012, convertible into shares of common stock of the Company	50,000	-

at \$0.02 per share at any time, unsecured, net of debt discount (face value of \$300,000)

		1,391,698		3,392,678
Less current portion:		(80,000)		(12,133)
Total long-term debt	\$	1,311,698	\$	3,380,545

Zero Coupon Notes

In December 2008, the Company issued Zero Coupon Convertible Subordinated notes payable with a maturity date of December 12, 2013 for proceeds of \$3,035,000. No payments are required on the notes until maturity at which time the principal amount of \$3,808,298 is due. Original interest discount (OID) accrues at a rate of 5% per year on the accreted value of the note. The holder may at any time during the term of the note convert the accreted value of the notes into shares of common stock of the Company. If either an event of default occurs under the note, as defined in the note agreement, or a change of control occurs with respect to the Company, the holder of the note may put the note to the Company at its accreted value.

The conversion price of the Zero Coupon Convertible Subordinated notes (\$0.125 per share) was established at, or above, the then current market price of the Company's common stock and therefore, no beneficial conversion feature discount has been recorded. The conversion price is subject to weighted-average anti-dilution adjustments in the event we issue common stock at a price below the then-applicable conversion price other than common stock issuances or option grants to the Company's employees, directors or officers.

The Company does not consider these anti-dilution features to be an embedded derivative and therefore subject to variable accounting due to the embedded instrument not meeting the net settlement characteristic as noted in ASC 815-10-15-83(c) and ASC 815-10-15-99. More specifically, to meet the net settlement characteristics, an embedded instrument must be able to be either (1) net settled under contract terms, (2) net settled through a market mechanism or (3) net settled by delivery of derivative instrument or asset readily convertible to cash. The Company believes the embedded instrument cannot be net settled via contract terms or a market mechanism and although settlement of the embedded instrument could be made with the delivery of the Company's common stock (i.e. an asset), due to the Company's stock being lightly traded as per ASC 815-10-15-130 and as illustrated at ASC 815-10-55-87, 88 and 89 (Cases B through D), to be considered "readily convertible to cash", the number of shares of stock to be exchanged must be small relative to the stock's daily transaction volume. Currently, the Company's daily transaction volume of their common stock is very low. However, moving forward, as required in ASC 815-10-15-139, the Company will continually evaluate whether or not the common stock is considered to be readily convertible to cash. In the event the Company's daily trading volume of their common stock were to increase significantly to the point where the shares to be exchanged in connection with the convertible notes would be relatively small in relation to the daily trading volume, the contract would then satisfy the net settlement characteristic and likely may need to be accounted for as a derivative.

Under current accounting guidance, if the terms of a contingent conversion option does not permit an issuer to compute the number of shares that the holder would receive if the contingent event occurs and the conversion price is adjusted, an issuer shall wait until the contingent event occurs and then compute the resulting number of shares that would be received pursuant to the new conversion price. The number of shares that would be received upon conversion based on the adjusted conversion price would then be compared with the number that would have been received before the occurrence of the contingent event. The excess number of shares multiplied by the commitment date stock price equals the incremental intrinsic value that results from the resolution of the contingency and the corresponding adjustment to the conversion price. That incremental amount shall be recognized when the triggering event occurs.

On April 14, 2010, the acquisition of WhiteHat qualified as a triggering event for the weighted-average anti-dilution adjustments. The Company evaluated the event based upon the note agreement and determined that the conversion price of the notes should be adjusted down to \$0.076 per share. Since this new conversion price is lower than the original conversion price, the Company recognized and recorded a beneficial conversion feature discount, in the form of a debt discount, in the amount of \$1,812,180. The discount recorded is being amortized to interest expense over the remaining life of the notes using the effective interest method. Amortization of \$60,070 and \$128,035 was recorded for the three and nine months ended September 30, 2010, respectively.

On July 8, 2010, approximately \$1.1 million of the Company's zero-coupon convertible notes payable were converted to 17.5 million shares of the Company's common stock at \$0.06 per share. The notes converted had a revised conversion rate of \$0.076 per share. Since the actual conversion rate was lower, the Company recognized and recorded an additional beneficial conversion feature charge in its consolidated statement of operations of approximately \$280,000 during the quarter ending September 30, 2010. In addition, the conversion resulted in the recognition of the portion of the previously recorded debt discount that related to the converted notes. This resulted in a charge to interest expense of \$571,105 for the three and nine months ended September 30, 2010.

Convertible Notes Payable

During the quarter ended June 30, 2010, the Company entered into a financing agreement with an individual lender. Proceeds from the notes were \$100,000 on April 1, 2010 and \$300,000 on June 2, 2010. The notes are unsecured and are convertible into shares of the Company's common stock at \$0.02 per share at any time during the term of the notes. As the conversion price of the notes was below the then current market price of the Company's common stock, a beneficial conversion feature discount was recorded, in the form of a debt discount, in the amount of \$100,000 and \$300,000, respectively. The discount recorded is being amortized to interest expense over the life of the notes. Amortization of \$25,000 and \$75,000 was recorded for the three and nine months ended September 30, 2010, respectively.

Future minimum payments on long-term debt at September 30, 2010 are as follows:

Years ending December 31,	
2010, remaining	\$ -
2011	80,000
2012	480,000
2013	2,625,073
2014	80,000
	\$ 3,265,073

Note 13. Basic and Diluted Earnings (Loss) Per Share

The Company computes earnings (loss) per share under two different methods, basic and diluted, and presents per share data for all periods in which statements of operations are presented. Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding. Diluted earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of common stock and common stock equivalents outstanding. The table below shows the calculation of basic and diluted loss per share for the three and nine months ended September 30, 2010 and 2009, respectively:

	Three months ended		Nine months ended	
	September 30, 2010	September 30, 2009	September 30, 2010	September 30, 2009
Loss:				
Net loss from continuing operations	\$ (1,547,756)	\$ (812,100)	\$ (2,823,565)	\$ (6,294,330)
Net income (loss) from discontinued operations	182,625	(637,912)	(1,177,718)	(1,268,978)
Net loss	\$ (1,365,131)	\$ (1,450,012)	\$ (4,001,283)	\$ (7,563,308)
Number of shares:				
Weighted-average shares outstanding	383,364,985	163,986,263	297,090,592	136,244,588
Loss per share:				
Net loss from continuing operations per common share (basic and diluted)	\$ -	\$ (0.01)	\$ (0.01)	\$ (0.05)
Net loss from discontinued operations per common share (basic and diluted)	\$ -	\$ -	\$ -	\$ (0.01)
Net loss per common share (basic and diluted)	\$ -	\$ (0.01)	\$ (0.01)	\$ (0.06)

As of September 30, 2010, the Company had (i) 1,240,000 shares of common stock issuable under convertible preferred stock arrangements, (ii) 200,000 shares of common stock issuable upon the exercise of outstanding warrants and (iii) 86,284,218 shares of common stock issuable under convertible financing arrangements. As of September 30, 2009, the Company had (i) 9,000,000 shares of common stock issuable under convertible preferred stock arrangements, (ii) 200,000 shares of common stock issuable upon the exercise of outstanding warrants and (iii) 28,732,231 shares of common stock issuable under convertible financing arrangements. These 87,724,218 and 37,932,231 shares as of September 30, 2010 and 2009, respectively, which would be reduced by applying the treasury stock method, were excluded from diluted weighted average outstanding shares amount for computing the net loss per common share, because the net effect would be antidilutive for each of the periods presented.

Note 14. Stockholders' Equity

Common Stock

The Company is authorized to issue 500,000,000 shares of \$.001 par value common stock. The Company has 386,309,473 shares of its common stock issued and outstanding at September 30, 2010. Dividends may be paid on outstanding shares as declared by the Board of Directors. Each share of common stock is entitled to one vote.

Preferred Stock

The Company is authorized to issue 10,500,000 shares of \$0.05 par value preferred stock.

Pursuant to the acquisition of Modular Process Constructors, the Company issued 500,000 shares of Series B Preferred Stock. The Series B Preferred Stock shares are convertible at any time into common shares at a ratio of two common shares for each preferred share. In addition, each preferred share has one vote for each common share outstanding and has a liquidation preference of \$1.00 per share (\$500,000 at September 30, 2010 and December 31, 2009, respectively).

Pursuant to the acquisition of Ceres, the Company issued 8,000,000 shares of Series C Preferred Stock. The Series C Preferred Stock shares are convertible at any time into common shares at a ratio of one common share for each preferred share. In addition, each Preferred share has one vote for each common share outstanding and has a liquidation preference of \$.50 per share (\$120,000 and \$1,000,000 at September 30, 2010 and December 31, 2009, respectively). In December 2009, 6,000,000 shares of the Series C Preferred Stock were converted into 6,000,000 shares of common stock. During the quarter ended March 31, 2010, an additional 1,760,000 shares of the Series C Preferred Stock were converted to 1,760,000 shares of common stock. On October 12, 2010, the remaining 240,000 shares of the Series C Preferred Stock were converted to 240,000 shares of common stock.

Stock Issuances

During the quarter ended March 31, 2010, the Company issued:

3,608,333 shares of common stock valued at \$116,500 (various amounts between \$0.03 and \$0.06 per share) for cash.

700,000 shares of common stock valued at \$56,000 (\$0.08 per share) for prepaid marketing services. This amount was recorded as other current assets in the consolidated balance sheet and is being amortized ratably over the period of the marketing contract.

1,141,000 shares of common stock valued at \$100,090 (approximately \$0.09 per share) for professional services. This amount is included in the Company's consolidated statements of operations for the quarter ended June 30, 2010.

1,760,000 shares of the Series C preferred stock were converted to 1,760,000 shares of the Company's common stock.

During the quarter ended June 30, 2010, the Company issued:

170,142,530 shares of common stock valued at \$11,909,977 (approximately \$0.07 per share) for the acquisition of White Hat Brands, LLC.

1,325,000 shares of common stock for the conversion of \$50,000 of short-term notes payable and \$3,000 of related accrued interest (\$0.04 per share).

588,575 shares of common stock valued at \$23,543 (\$0.04 per share) for professional services. This amount is included in the Company's consolidated statements of operations for the quarter ended June 30, 2010.

During the quarter ended September 30, 2010, the Company issued:

17,550,610 shares of common stock for the conversion of \$1,053,037 of Zero Coupon Convertible Subordinated Notes Payable (\$0.06 per share).

5,900,112 shares of common stock for the conversion of \$439,646 of a note payable of discounted operations and \$38,263 of related accrued interest (\$0.08 per share).

599,500 shares of common stock valued at \$23,980 (\$0.04 per share) for professional services. This amount is included in the Company's consolidated statements of operations for the quarter ended September 30, 2010.

896,867 shares of common stock valued at \$41,875 (\$0.04 per share) for payment of accounts payable.

750,000 shares of common stock valued at \$30,000 (\$0.04 per share) for employee bonuses. This amount is included in the Company's consolidated statements of operations for the quarter ended September 30, 2010.

Stock Warrants

At September 30, 2010 and December 31, 2009, the Company had a total of 200,000 warrants outstanding to purchase the Company's common stock at an exercise price of \$0.125 per share. The warrants expire on January 3, 2014.

Treasury Stock

During the quarter ended March 31, 2010, the Company sold 120,000 shares of its common stock held in treasury stock for \$10,095 in cash, at an average price of \$0.08 per share. The shares had a cost basis of \$0.25 per share.

During the quarter ended June 30, 2010, the Company sold 89,000 shares of its common stock held in treasury stock for \$4,435 in cash, at an average price of \$0.05 per share. The shares had a cost basis of \$0.25 per share. During the

quarter ended September 30, 2010, the Company sold 679,700 shares of its common stock held in treasury stock for \$33,977 in cash, at an average price of \$0.05 per share. The shares had a cost basis of \$0.25 per share. Losses on sale of our treasury shares are recorded in additional paid in capital in the equity section of our consolidated balance sheet as of September 30, 2010. As of September 30, 2010, the Company held 1,002,835 shares of its common stock in treasury.

Note 15. Commitments and Contingencies

Operating Leases

We currently lease office space in Atlanta, Georgia. The lease payment is \$5,000 per month and expires in December 2010. Our commitment for rent due for the remainder of 2010 under this operating lease is \$15,000. Total rent expense under operating leases for the three and nine months ended September 30, 2010 was \$29,153 and \$64,919, respectively. Total rent expense under operating leases for the three and nine months ended September 30, 2009 was \$58,143 and \$89,911, respectively.

Litigation Matters

The Company periodically is subject to claims and lawsuits that arise in the ordinary course of business. It is the opinion of management that the disposition or ultimate resolution of such claims and lawsuits will not have a material adverse effect on the financial position of the Company.

Earn-Out Agreement

In connection with the acquisition of Modular Process Constructors, LLC (MPS) in February 2009, the Company executed an earn-out agreement for the issuance of up to 35% of the Company's issued and outstanding common stock based on the percentage of MPS net income to total consolidated net income of the Company for the three-year period ending December 31, 2011. Under current accounting guidance, contingent consideration arrangements such as this are to be recorded as a liability or equity at its estimated fair value at the time of the acquisition. As of December 31, 2009 (the end of the measurement period for the acquisition), the Company determined that the contingent consideration had no discernable fair value. As of September 30, 2010, the Company continues to believe the contingent consideration has no discernable fair value.

Note 16. Income Taxes

Realization of our net operating loss carryforwards and other deferred tax temporary differences are contingent upon future taxable earnings. Our net deferred tax assets have been reduced fully by a valuation allowance, as realization is not considered to be likely based on an assessment of the history of losses and the likelihood of sufficient future taxable income.

We are subject to income taxes in the U.S. federal jurisdiction and various state jurisdictions. As of September 30, 2010, we are no longer subject to U.S. federal tax examinations for tax years before 2006. We are subject to state tax audits until the applicable statutes of limitations expire.

We recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. As of September 30, 2010, there were no such items accrued and we had no unrecognized tax benefits. We do not expect any material changes in our unrecognized tax positions over the next 12 months.

Note 17. Subsequent Events

On October 20, 2010, the Company executed an irrevocable Subscription Agreement for the purchase of 200,000 Class B Preferred Units (the "Units") of Wish Upon A Hero, LLC, a Delaware limited liability company ("WISH"), for an aggregate consideration of \$400,000 with \$100,000 payable upon execution of the Subscription Agreement and \$100,000 on or before each of the following dates: November 20, 2010, December 20, 2010 and January 20, 2011. The Company was also granted an option to purchase an additional 100,000 Units for an aggregate consideration of

\$200,000 with \$100,000 payable on or before February 20, 2011 and \$100,000 on or before March 20, 2011. Upon completion of the purchase, the Company will own 22% of WISH or 30% if it exercises its option in full.

In connection with the purchase of the WISH Units, the Company granted Non-Qualified Stock Options to the President of WISH, to purchase up to 8,000,000 shares of the Company's common stock at an exercise price of \$.05 per share. Options to acquire 2,000,000 shares vests immediately with an additional 3,000,000 shares vesting if WISH cumulates gross revenues of \$5,000,000 on or before October 20, 2012 and an additional 3,000,000 shares if WISH cumulates \$10,000,000 in gross revenues on or before October 20, 2012. All vested options will expire on October 20, 2020.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

NOTE REGARDING FORWARD-LOOKING STATEMENTS

Sections of this Form 10-Q, including the Management's Discussion and Analysis or Plan of Operation, contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), Section 21E of the Securities and Exchange Act of 1934, as amended (the "Exchange Act"), and the Private Securities Litigation Reform Act of 1995, as amended. These forward-looking statements are subject to risks and uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from the results, performance or achievements expressed or implied by the forward-looking statements. You should not unduly rely on these statements. Forward-looking statements involve assumptions and describe our plans, strategies, and expectations. You can generally identify a forward-looking statement by words such as "may," "should," "would," "could," "plan," "goal," "potential," "expect," "anticipate," "estimate," "believe," "intend," "project," and similar words or variations thereof. This Quarterly Report on Form 10-Q contains forward-looking statements that address, among other things,

CRITICAL ACCOUNTING POLICIES AND ESTIMATES:

The preparation of the financial information contained in this 10-Q requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We evaluate these estimates on an ongoing basis, including those related to allowances for doubtful accounts and returns, inventory valuation, the carrying value and any impairment of goodwill and intangible assets, and income taxes. These critical accounting policies are discussed in more detail in the Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the year ended December 31, 2009.

RECENT ACCOUNTING DEVELOPMENTS

See Note 2 to the accompanying interim consolidated financial statements for a summary of recent accounting developments.

Plan of Operation

Overview

Capsalus offers a broad range of solutions to global health problems. WhiteHat Holdings, LLC (WhiteHat) was acquired on April 14, 2010. In combining with WhiteHat, the Company is creating a new, consumer-driven business unit, the Nutritional Products Division, focused on healthy food and beverages. WhiteHat is committed to promoting the health and wellness of children by providing healthy and nutritious products and related services to support healthy eating habits and regular physical activity, especially during the pre-teen years. WhiteHat has developed and test-marketed (in 2008) a variety of great-tasting, fortified juice beverages for kids under the brand Dog On It!™ that are made with all-natural ingredients and loaded with calcium and vitamins A, B, C, D & E – without adding excess sugar or high fructose corn syrup. The Company is currently reviewing the product line to determine timing; location and the best method to roll out these products. WhiteHat is headquartered in Atlanta, GA.

Ceres Organic Harvest Inc. (Ceres), an acquisition that closed Feb. 20, 2009, was part of the Capsalus Organics and Sustainables Group (OSG). The Ceres acquisition included Organic Grain & Milling, Inc. (OGM), its wholly-owned subsidiary. OGM sourced organic grains from Midwestern farms and supplied them to the food and feed industries through its elevator in North Dakota. On March 31, 2010, Ceres adopted a plan to close the OGM business. As of March 31, 2010, substantially all operational activities of OGM were discontinued. In July 2010, the Board of

Directors voted to discontinue all operations of Ceres due to the continued slow-down in its market along with the planned focus on the new branded business strategy the Company is pursuing. We have impaired the goodwill and intangible assets related to Ceres in the quarter ended June 30, 2010.

Modular Process Constructors, LLC (MPS), an acquisition that closed Feb. 19, 2009, is now part of Capsalus's BioPharm Process Systems Group and engages in the design and manufacture of constructed systems for the biopharmaceutical industry. It offers process modules and skids, custom tanks and vessels, and sanitary stainless steel flow equipment, along with professional project management, design qualifications, detail design, component procurement, schedule metrics and reporting. The BioPharm Process Systems Group is headquartered in Kenosha, Wisconsin.

Currently, neither Nutritional Products nor BioPharm Process Systems have generated significant revenues nor acquired significant assets. As such, the Company operates and manages the business under one reporting segment.

We have not generated significant operating revenues, and as of September 30, 2010, we had incurred a cumulative consolidated net loss from inception of \$18,637,907.

For the three-month and nine month periods ended September 30, 2010, our consolidated net losses were \$1,365,131 and \$4,001,283, respectively. For the three and nine month periods ended September 30, 2009, our consolidated net losses were \$1,450,012 and \$7,563,308, respectively. Our current liabilities as of September 30, 2010 exceed current assets by \$2,264,408.

Over the next 18 months, in order to have the capability of achieving our business plan, we believe that we will require at least \$5,000,000 in additional funding to pay down certain payables and accruals and to provide working capital. We are currently attempting to raise these funds by means of one or more public or private offerings of debt or equity securities or both. However, at this point, we have not specifically identified the type or sources of this funding. We also are exploring commercial and joint venture financing opportunities.

Results of Operations

Quarter Ended September 30, 2010 Compared to Quarter Ended September 30, 2009

There were no sales or related cost of goods sold for the quarter ended September 30, 2010 compared to \$79,621 and \$24,798 of sales and cost of goods sold for the same period last year, respectively. Net sales and cost of goods sold decreased due to a lack of current funding that required a temporary halt in operations at MPS.

Operating expenses decreased to \$515,652 in the quarter ended September 30, 2010 from \$776,961 in the same quarter in 2009. Operating expenses decreased due to cost control measures that the Company has taken due to lack of current funding.

Interest expense increased to \$1,045,956 in the quarter ended September 30, 2010 from \$123,399 in the same quarter in 2009. Interest expense increased as new debt acquired in 2010 includes beneficial conversion features, resulting in higher effective interest rates. In addition, a triggering event occurred related to our zero coupon notes payable, which lowered the conversion rate of the notes. This resulted in a beneficial conversion feature discount, which is being amortized to interest expense over the remaining term of the notes. Finally, during the quarter ended September 30, 2010, approximately \$1.1 million of our long-term debt was converted to common stock at a price lower than the price that was contracted, resulting in a beneficial conversion feature charge to operations of approximately \$280,000. Total non-cash BCF charges including amortization were \$991,086 in the three months ended September 30, 2010.

Income from discontinued operations was \$182,625 for the three months ended September 30, 2010 compared to a loss of \$637,912 for the same period in 2009. Income for the three months ended September 30, 2010 includes a gain on the sale of assets of the Animal Wellness group of \$265,570.

Results of Operations

Nine months ended September 30, 2010 compared to the nine months ended September 30, 2009

There were no sales or related cost of goods sold for the nine months ended September 30, 2010 compared to \$149,950 and \$63,442 of sales and cost of goods sold for the same period last year, respectively. Net sales and cost of goods sold decreased due to a lack of current funding that required a temporary halt in operations at MPS.

Operating expenses decreased to \$1,415,571 in the nine months ended September 30, 2010 from \$2,376,195 in the same period in 2009. Operating expenses decreased due to cost control measures that the Company has taken due to

lack of current funding.

During the nine months ended September 30, 2009, the Company impaired goodwill related to the acquisition of Pacific Rim Foods of \$3,438,466.

Interest expense increased to \$1,395,150 in the period ended September 30, 2010 from \$532,515 in the same period in 2009. Interest expense increased as new debt acquired in 2010 includes beneficial conversion features, resulting in higher effective interest rates. In addition, a triggering event occurred related to our zero coupon notes payable, which lowered the conversion rate of the notes. This resulted in a beneficial conversion feature discount, which is being amortized to interest expense over the remaining term of the notes. Finally, during the quarter ended September 30, 2010, approximately \$1.1 million of our long-term debt was converted to common stock at a price lower than the price that was contracted, resulting in a beneficial conversion feature charge to operations of approximately \$280,000. Total non-cash BCF charges including amortization were \$1,291,077 in the nine months ended September 30, 2010.

Loss from discontinued operations was \$1,177,718 for the nine months ended September 30, 2010 compared to a loss of \$1,268,978 for the same period in 2009. The loss is slightly lower as operations were discontinued in the current year and because we recognized a gain on the sale of assets of the Animal Wellness group of \$265,570 during 2010.

Liquidity and Capital Resources

We had a cash balance of \$584,129 as of September 30, 2010 and a cash balance of \$60,254 as of December 31, 2009.

The value of our marketable securities on September 30, 2010 decreased to \$0 from \$4,223 as of market close on December 31, 2009. The decrease is due to the sale of our remaining marketable securities during the period ended September 30, 2010.

Accounts receivable as of September 30, 2010 decreased to \$1,816 from \$78,000 at December 31, 2009 due to a slowdown in operations at MPS due to economic conditions. Additionally, the sale of Animal Wellness assets included the transfer of certain accounts receivable totaling approximately \$50,000 to the purchaser.

Inventory as of September 30, 2010 decreased to \$0 from \$2,215 at December 31, 2009 due to a slowdown in operations at MPS due to economic conditions. Additionally, lack of funding has forced the Company to delay inventory purchases for future sales.

Total assets at September 30, 2010 are \$16,168,013 compared to \$3,263,110 at December 31, 2009. This increase is primarily attributable to goodwill of \$13,141,276 being recorded in connection with the acquisition of WhiteHat.

As of September 30, 2010, we have current liabilities totaling \$3,270,346 compared to \$3,303,103 at December 31, 2009.

Long term debt as of September 30, 2010 is \$1,311,698 compared to \$3,380,545 at December 31, 2009. The decrease is due to our recognition of a beneficial conversion feature discount on the Company's zero coupon notes payable of approximately \$1.8 million. This discount is being amortized ratably over the remaining term of the notes. In addition, \$400,000 of new long term debt agreements were entered into during the period ended September 30, 2010. The new agreements were subject to a beneficial conversion provision. The discounted balance as of September 30, 2010 is \$75,000. Finally, approximately \$1.1 million in long term debt was converted to common stock of the Company during the period ended September 30, 2010. The discounted balance of the converted debt was approximately \$600,000.

Operating Activities

Net cash used in operations decreased to \$895,434 during the nine months ended September 30, 2010 from \$1,466,157 during the nine months ended September 30, 2009. The decrease in operating cash flows was primarily due to the slow-down of operating activities due to a lack of current funding, a decrease in net loss and significant

changes in working capital levels from the prior year. More specifically, the changes in working capital in the period ended September 30, 2010 included decreases in accounts receivable, inventory and other assets and increases in accounts payable and accrued expenses. Accounts receivable decreased due to a decrease in sales at MPS. The decrease in inventory is primarily a result of a reduction of inventory levels to generate working capital. The increase in accounts payable and accrued expenses was driven by our current lack of capital.

Investing Activities

Net cash from used in investing activities decreased to \$100,056 during the nine months ended September 30, 2010 from cash provided by investing activities of \$140,227 during the nine months ended September 30, 2009. In 2009, we sold marketable securities for cash (\$144,576), whereas we sold the last of our marketable securities for \$3,444 in cash in 2010. In 2009, we had available funds to purchase property and equipment (\$7,366), whereas our current lack of funds limited our ability to invest in property and equipment. We used \$103,500 for the WhiteHat acquisition during the nine months ended September 30, 2010.

Financing Activities

Net cash provided by financing activities during the nine months ended September 30, 2010 was \$1,580,890, compared to \$1,437,249 during the same period in 2009. The primary reason for the increase in cash provided by financing activities was cash provided by debt and equity totaling \$1,820,500 as compared to cash provided by debt totaling \$1,640,403 in the same period during 2009. Additionally, proceeds from the sale of treasury stock during the nine months ended September 30, 2010 was approximately \$49,000 compared to the net use of approximately \$153,000 in cash to purchase treasury stock during the same period in 2009. Partially offsetting these increases; payments on debt during the nine months ended September 30, 2010 was approximately \$288,000 compared to payments on debt of approximately \$50,000 during the same period in 2009.

Our longer-term working capital and capital requirements will depend upon numerous factors, including revenue and profit generation, the cost of filing, prosecuting, defending, and enforcing patent claims and other intellectual property rights, competing technological and market developments, collaborative arrangements. Additional capital will be required in order to attain our goals. We cannot assure you that funds from our future operations or funds provided by our current financing activities will meet the requirements of our operations, and in that event, we will continue to seek additional sources of financing to maintain liquidity. We are actively pursuing all potential financing options as we look to secure additional funds both to stabilize and to grow our business operations. Our management will review any financing options at their disposal, and will judge each potential source of funds on its individual merits. We cannot assure you that we will be able to secure additional funds from debt or equity financing, as and when we need to, or if we can, that the terms of this financing will be favorable to us or our stockholders. If we are unsuccessful in raising funds, we may have to reduce expenses and/or cease operations altogether.

Item 3. Qualitative and Quantitative Disclosures About Market Risk.

None.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed in our reports filed pursuant to the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer as appropriate, to allow timely decisions regarding required disclosures. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

As of September 30, 2010, our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of our disclosure controls and procedures as such term is defined in Rules 13a-15(e) under the Securities and Exchange Act of 1934 (The "Exchange Act"). Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were not effective as of September 30, 2010 in ensuring that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure because of those material weaknesses relating to internal controls that are described in Item 9A(T). of the Company's Form 10-K for the year ended December 31, 2009, filed April 16, 2010.

Notwithstanding the material weaknesses that existed as of September 30, 2010, our Chief Executive Officer and Chief Financial Officer have concluded that the financial statements included in this report present fairly, in all material respects, the financial position, results of operations and cash flows of the Company in conformity with accounting principles generally accepted in the United States of America.

Changes in Internal Controls

During the fiscal quarter ended September 30, 2010, there were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Management has concluded that the material weaknesses in internal control, as described in Item 9A(T). of our Form 10-K for the year ended December 31, 2009,

have not been fully remediated. We are committed to finalizing our remediation action plan and implementing the necessary enhancements to our policies and procedures to fully remediate the material weaknesses discussed above. Due to our lack of sufficient capital, we expect these material weaknesses to continue until our capital needs are met.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

Not Applicable.

Item 1A. Risk Factors.

The Company is a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and is not required to provide the information required under this item.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On July 8, 2010, Capsalus issued 17,550,610 shares of common stock for the conversion of \$1,053,037 of Zero Coupon Convertible Subordinated Notes Payable (\$0.06 per share).

On July 8, 2010, Capsalus issued 5,900,112 shares of common stock for the conversion of \$439,646 of the Tiryaki note payable and \$38,263 of related accrued interest (\$0.08 per share).

On July 9, 2010, Capsalus issued 750,000 shares of common stock valued at \$30,000 (\$0.04 per share) for employee bonuses.

On various dates during the quarter ended September 30, 2010, Capsalus issued 599,500 shares of common stock valued at \$23,980 (\$0.04 per share) for professional services.

On various dates during the quarter ended September 30, 2010, Capsalus issued 896,867 shares of common stock valued at \$41,875 (\$0.04 per share) for payment of accounts payable.

All of the investors above are sophisticated individuals who had the opportunity to review all of the Company's SEC filings and to discuss with the officers and directors of the Company the business and financial activities of the Company. All of the investors acquired their Common Stock and/or Preferred Stock (the "Securities") for investment and not with a view toward distribution. Therefore, based on the foregoing, the Company issued the Securities in reliance upon the exemptions from registration provided by Section 4(2) of the Securities Act of 1933 and/or Regulation D, there under.

Item 3. Defaults Upon Senior Securities.

Not Applicable.

Item 4. Submission of Matters of a Vote of Security Holders

None.

Item 5. Other Information

Not Applicable.

Item 6. Exhibits

(a) Exhibits: The following exhibits are filed with this report:

31.1 Certification pursuant to Rule 13a-14(a) or 15d-14(a) under The Securities Exchange Act of 1934 as amended. *

31.2 Certification pursuant to Rule 13a-14(a) or 15d-14(a) under The Securities Exchange Act of 1934 as amended. *

32. Certifications pursuant to 18 U.S.C section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002. *

* The Exhibit attached to this Form 10-Q shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934 (the "Exchange Act") or otherwise subject to liability under that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such filing.

SIGNATURES

In accordance with the requirements of the Securities Exchange Act of 1934, as amended, the registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
