nd you may incur dilution to your stock holdings.

We have historically relied upon our existing cash balance and cash flows from operating activities to fund our operations. We have incurred operating losses in the fiscal years ended June 30, 2012 and 2013, and there is no assurance that we will be able to achieve profitable operations and positive cash flows in the foreseeable future or at all. If capital requirements vary materially from those currently planned, we may require additional capital sooner than expected. There can be no assurance that such capital will be available in sufficient amounts or on terms acceptable to us, if at all. Further, any sale of a substantial number of additional shares will cause dilution to an investment in our Common Stock and could also cause the market price of our Common Stock to decline. We have the authority to issue up to 50,000,000 shares of Common Stock (of which, as of February 25, 2014, 3,340,896 shares were outstanding), to issue options and warrants to purchase shares of our Common Stock (of which, as of February 25, 2014, options to acquire 179,169 shares of our Common Stock were outstanding and no warrants were outstanding) and to designate and issue up to 10,000,000 shares of preferred stock, of which 78,129 have been designated as Series A Convertible Preferred Stock (of which, as of February 25, 2014, no shares were outstanding). Issuances of additional shares of our stock in the future could dilute existing shareholders and may adversely affect the market price of our Common Stock.

The failure to maintain the market price of our Common Stock may affect our ability to remain listed on the NASDAQ exchange.

The minimum bid price for our publicly traded Common Stock was below \$1.00 for a significant period of time throughout 2008, 2009 and 2010, ultimately resulting in us effecting a one-for-three reverse split of our Common Stock on June 17, 2010 to increase our stock price to satisfy the \$1.00 minimum bid price listing requirement of the Nasdaq Capital Market. Notwithstanding the increased price of our Common Stock that resulted from the reverse split, our future performance, general market conditions and other factors could result in us failing to satisfy the listing standards of the Nasdaq Capital Market in the future. If our Common Stock were to be delisted from the Nasdaq Capital Market, our shareholders may find it difficult to either dispose, or obtain quotations for the price, of our Common Stock.

Risks Relating to Our Business

A substantial portion of our revenue is derived from a single customer such that if we were to lose that customer, it would have a material adverse effect on our business, financial condition and results of operations.

In fiscal year 2013, our top 20 customers accounted for 81% of our sales, with our largest customer accounting for 47% of our sales. The loss of our largest customer, or the loss of any other significant customer, would severely impact us, including having a material adverse effect on our business, financial condition, cash flows, revenue and results of operations.

Our failure to manage contracting sales levels could harm us by having a material adverse effect on our business and results of operations.

Over the past two fiscal years our total sales have contracted from \$27.1 million in 2011 to \$12.2 million in 2013. We continue to implement the steps of a strategic plan, the objectives of which are to identify and capture additional revenue opportunities and concurrently reduce operating costs not critical to revenue growth. There can be no assurance, however, as to either the timing or success of achieving these objectives, which, during any period not achieved, may cause us to experience a prolonged material and adverse impact on our business.

Even if we are successful in identifying and capturing additional revenue opportunities, we may be required to expand our overall production, development, marketing, sales, management and training capacity. In the event we are unable to identify, hire, train and retain qualified individuals in such capacities within a reasonable timeframe, such failure could have a material adverse effect on us.

We terminated our bank credit facility agreements in September 2012. An inability to achieve anticipated cash flows from operations over the next twelve months could have a material adverse effect on our liquidity and could require additional financing, which may not be available on acceptable terms or at all.

At June 30, 2012, we were in violation of profitability-based covenants related to our then-existing bank credit facility, for which the bank had the right to declare us in default of the bank credit facility agreements and the entire amount owing under the facility, consisting of a term loan, to become immediately due and payable. We historically had not made any borrowings against our bank lines of credit, and believed that existing cash balances and cash flows from operations would be sufficient to fund operations for the next twelve months and to fully repay the term loan. Accordingly, on August 30, 2012, we notified the bank of our intent to terminate the credit facility agreements and repay the term loan in full, which amounted to \$685,000 at the time of its repayment in September 2012.

An inability to achieve anticipated cash flows from operations could have a material adverse effect on our ability to fund operations for the next twelve months and require us to obtain new financing. However, there is no assurance that such financing will be available on acceptable terms, if at all.

A substantial portion of our business is derived from our two core business areas that, if not serviced properly, may result in a material adverse impact upon our business, results of operations and financial condition.

In fiscal year 2013, we derived more than 78% of our revenue from sales of our medical device and motion control products and related services. We believe that a primary factor in the market acceptance of our products and services is the value that is created for our customers by those products and related services. Our future financial performance

will depend in large part on our ability to continue to meet the increasingly sophisticated needs of our customers through the timely development, successful introduction and implementation of new and enhanced products and services, while at the same time continuing to provide the value our customers have come to expect from us. We have historically expended a significant percentage of our revenue on product development and believe that significant continued product development efforts will be required to sustain our growth. Continued investment in our sales and marketing efforts will also be required to support future growth.

There can be no assurance that we will be successful in our product development efforts, that the market will continue to accept our existing products, or that new products or product enhancements will be developed and implemented in a timely manner, meet the requirements of our customers, or achieve market acceptance. If new products or product enhancements do not achieve market acceptance, our business, results of operations and financial condition could be materially adversely affected.

We face significant competition from a number of different sources, which could negatively impact our results of operations and business conditions.

The markets for products in the industries served by our customers are intensely competitive, and we face significant competition from a number of different sources. Several of our competitors have significantly greater name recognition, as well as substantially greater financial, technical, product development and marketing resources, than us.

We compete in all of our markets with other major surgical device and motion control related companies. As a provider of outsourced products and services, we also compete with our customers' own internal development groups. Competitive pressures and other factors, such as new product or new technology introductions by us, our customers' internal development and manufacturing departments, or our competitors may result in price or market share erosion that could have a material adverse effect on our business,

results of operations and financial condition. Also, there can be no assurance that our products and services will achieve broad market acceptance or will successfully compete with other products.

The industry in which we operate is subject to significant technological change and any failure or delay in addressing such change could adversely affect our competitive position or could make our current products obsolete.

The medical device and motion control markets are generally characterized by rapid technological change, changing customer needs, frequent new product introductions, and evolving industry standards. The introduction of products incorporating new technologies and the emergence of new industry standards could render our existing products obsolete and unmarketable. There can be no assurance that we will be successful in developing and marketing new products that respond to technological changes or evolving industry standards.

New product development requires significant research and development expenditures that we have historically funded through operations; however we may be unable to do so in the future and we have no credit facility with which to fund such expenditures. Any significant decrease in revenues or research funding could impair our ability to respond to technological advances in the marketplace and to remain competitive. If we are unable, for technological or other reasons, to develop and introduce new products in a timely manner in response to changing market conditions or customer requirements, our business, results of operations and financial condition may be materially adversely affected. Although we target new markets for access, develop new products and update existing products, there can be no assurance that we will do so successfully or that even if we are successful, such efforts will be completed concurrently with or prior to the introduction of competing products. Any such failure or delay could adversely affect our competitive position or could make our current products obsolete.

A conflict of interest exists with respect to certain investments approved by our Investment Committee.

In April 2013, our Board approved a Surplus Capital Investment Policy (the “Policy”) that provides, among other items, for the following:

- (a) Determination by our Board of Directors of (i) our surplus capital balance and (ii) the portion of such surplus capital balance to be invested according to the Policy;
- (b) Selection of an Investment Committee responsible for implementing the Policy; and
- (c) Objectives and criteria under which investments may be made.

The current composition of the Investment Committee is: Messrs. Swenson (Chair) and Cabillot, both of whom are members of our Board of Directors and professional investment fund managers, and Mr. Hurwitz, our Chief Executive

Officer and Chief Financial Officer. The Investment Committee has approved making investments in the common stocks of certain companies in which funds managed by Mr. Swenson and/or Mr. Cabillot currently hold common stock investments, and may approve making additional such investments in the future. In such situations, a potential conflict of interest exists, or will exist, in that Messrs. Swenson's or Cabillot's interests may not be independent of Investment Committee decisions.

Our investments are concentrated in stocks whose fair values are subject to a loss in value and which may not easily be sold.

Our current investments under the Policy are concentrated in common stocks of OTC companies. A significant decline in the value of our investments may produce a large decrease in our consolidated shareholders' equity and can have a material adverse effect on our consolidated book value per share. Under certain circumstances, significant declines in the fair value of these investments may require the recognition of losses in the statement of operations and other comprehensive income. In addition, such stocks do not consistently trade on a daily basis, which could adversely affect our ability to sell them on a timely basis or at an acceptable value.

Our quarterly results can fluctuate significantly from quarter to quarter, which may negatively impact the price of our shares and/or cause significant variances in the prices at which our shares trade.

Our sales have fluctuated in the past, and may fluctuate in the future from quarter to quarter and period to period, as a result of a number of factors including, without limitation: the size and timing of orders from customers; the length of new product development cycles; market acceptance of new technologies; changes in pricing policies or price reductions by us or our competitors; the timing of new product announcements and product introductions by us or our competitors; the financial stability of major customers; our success in expanding our sales and marketing programs; acceleration, deferral, or cancellation of customer orders and deliveries; changes in our strategy; revenue recognition policies in conformity with accounting principles generally accepted in the United States ("GAAP"); personnel changes; and general market and economic factors.

Because a significant percentage of our expenses are relatively fixed, a variation in the timing of sales can cause significant fluctuations in operating results from quarter to quarter. As a result, we believe that interim period-to-period comparisons of our results of operations are not necessarily meaningful and should not be relied upon as indications of future performance. Further, our historical operating results are not necessarily indicative of future performance for any particular period.

In addition, it is possible that our operating results in future quarters may be below the expectations of public market analysts and investors. In such an event, the price of our Common Stock could be materially adversely affected.

Our operations are subject to a number of complex government regulations, the violation of which could have a material adverse effect on our business.

The manufacture and distribution of medical and dental devices are subject to state and federal requirements set forth by various agencies including the FDA and EPA. The statutes, regulations, administrative orders, and advisories that affect our businesses are complex and subject to diverse, often conflicting, interpretations. While we make every effort to maintain full compliance with all applicable laws and regulations, we are unable to eliminate an ongoing risk that one or more of our activities may at some point be determined to have been non-compliant. The penalties for non-compliance could range from an administrative warning to termination of a portion of our business. Furthermore, even if we are subsequently determined to have fully complied with applicable laws or regulations, the costs to achieve such a determination and the intervening loss of business could adversely affect or result in the cessation of a portion of our business. A change in such laws or regulations at any time may have an adverse effect on our operations. Notwithstanding the risks inherent in our business, management believes that our operations are in compliance with applicable laws and regulations.

The FDA regulates all medical devices into one of three classes (Class I, II or III) based on the level of control necessary to assure the safety and effectiveness of the device. The surgical instrumentation we manufacture is generally classified into Class I, and our dental instrumentation is generally classified into Class II. The FDA has broad enforcement powers to recall and prohibit the sale of products that do not comply with federal regulations, and to order the cessation of non-compliant processes. No claim has been made to date by the FDA regarding any of our products or processes. Nevertheless, as is common in the industry, certain of our products and processes are from time to time subject to routine governmental reviews and investigations. While management believes that our products and processes fully comply with applicable laws and regulations, we are unable to predict the outcome of any such future review or investigation.

We believe that our business is conducted in a manner consistent with EPA and other agency regulations governing disposition of industrial waste materials. In February 2011, we became aware of a report entitled "Site Discovery Report, Southeast Santa Ana Project DTSC – Cypress Region," dated February 2010 (the "Report"), that was prepared by the Cypress, California regional office of the Cal/EPA Department of Toxic Substances Control ("DTSC") for Region 9 of the EPA under an agreement between the two agencies. The purpose of the Report was to identify sites within an area of southeast Santa Ana, California that may be sources of groundwater contamination previously detected in that

area. The Report identified 25 sites, including our former Santa Ana site, for further screening by DTSC staff over the next two years. DTSC has informed us that no further evaluation of our former site took place during fiscal years 2011 through 2013. It is uncertain whether future developments, if any, from DTSC's screening process would have any application to our former site and, if so, what exposure we might face concerning any findings that might be made concerning the site. In addition, we are unable to predict the outcome of any investigation or review that might be undertaken in the future with respect to our disposition of industrial waste materials.

If any of our products, processes or other operations were to be found in violation of government regulations, it could expose us to claims, liabilities and remedial obligations that could have a material adverse effect on our business.

We face significant uncertainty in the industry due to government healthcare reform.

Political, economic and regulatory influences are subjecting the healthcare industry to fundamental changes. The Patient Protection and Affordable Care Act (the "Healthcare Act") enacted sweeping reforms to the U.S. healthcare industry, including mandatory health insurance, reforms to Medicare and Medicaid, the creation of large insurance purchasing groups, new taxes on medical equipment manufacturers that will apply to certain of our products and other significant modifications to the healthcare delivery system. Due to uncertainties regarding the ultimate features of the new federal legislation and its implementation, we cannot predict what impact the Healthcare Act may have on us, our customers or our industry.

We rely heavily on our proprietary technology, which, if not properly protected or if deemed invalid, could have a material adverse effect on our business, results of operations and financial condition.

We are dependent on the maintenance and protection of our proprietary technology and rely on patent filings, exclusive development and supply agreements, confidentiality procedures, and employee nondisclosure agreements to protect it. There can be no assurance that the legal protections and precautions taken by us will be adequate to prevent misappropriation of our technology or that competitors will not independently develop technologies equivalent or superior to ours. Further, the laws of some foreign countries do not protect our proprietary rights to as great an extent as do the laws of the United States and are often not enforced as vigorously as those in the United States.

We do not believe that our operations or products infringe on the intellectual property rights of others. However, there can be no assurance that others will not assert infringement or trade secret claims against us with respect to our current or future products. Assertions or claims by others, whether or not valid, could cause us to incur significant legal costs defending our intellectual property rights and potentially require us to enter into a license agreement or royalty arrangement with the party asserting the claim or to cease our use of the infringing technology, any of which could have a material adverse effect on our business, results of operations and financial condition.

The global economic environment may impact our business, operating results or financial condition.

Changes in the global economic environment have caused, and may cause in the future, a general tightening in the credit markets, lower levels of liquidity, increases in rates of default and bankruptcy, and extreme volatility in credit, equity and fixed income markets. These macroeconomic developments could negatively affect our business, operating results or financial condition should they cause, for example, current or potential customers to become unable to fund purchases of our products, in turn resulting in delays, decreases or cancellations of purchases of our products and services, or causing the customer to not pay us or to delay paying us for previously purchased products and services. In addition, financial institution failures may cause us to incur increased expenses or make it more difficult either to obtain financing for our operations, investing activities (including the financing of any future acquisitions), or financing activities. Additional economic risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition or operating results.

We face risks and uncertainties associated with potential litigation by or against us, which could have a material adverse effect on our business, results of operations and financial condition.

We continually face the possibility of litigation as either a plaintiff or a defendant. It is not reasonably possible to estimate the awards or damages, or the range of awards or damages, if any, that we might incur in connection with such litigation.

Many of our products are complex and technologically advanced. Such products may, from time to time, be the subject of claims concerning product performance and construction, including warranty claims. While we are committed to correcting such problems as soon as possible, there is no assurance that solutions will be found on a timely basis, if at all, to satisfy customer demands or to avoid potential claims or litigation. Also, due to the location of

our facilities, as well as the nature of our business activities, there is a risk that we could be subject to litigation related to environmental remediation claims. We maintain insurance to protect against claims associated with the use of our products, but there can be no assurance that our insurance coverage will adequately cover any claim asserted against us.

The uncertainty associated with potential litigation may have an adverse impact on our business. In particular, litigation could impair our relationships with existing customers and our ability to obtain new customers. Defending or prosecuting litigation could result in significant legal costs and a diversion of management's time and attention away from business operations, either of which could have a material adverse effect on our business, results of operations and financial condition. There can be no assurance that litigation would not result in liability in excess of our insurance coverage, that our insurance will cover such claims or that appropriate insurance will continue to be available to us in the future at commercially reasonable rates.

Our operations are dependent upon our key personnel. If such personnel were to leave unexpectedly, we may not be able to execute our business plan.

Our future performance depends in significant part upon the continued service of our key technical and senior management personnel. Because we have a relatively small number of employees when compared to other leading companies in the same industry, our dependence on maintaining our relationship with key employees is particularly significant. We are also dependent on our ability to attract and retain high quality personnel, particularly in the areas of product development, operations management, marketing and finance.

A high level of employee mobility and the aggressive recruiting of skilled personnel characterize the medical device and motion control industries. There can be no assurance that our current employees will continue to work for us. Loss of services of key employees could have a material adverse effect on our business, results of operations and financial condition.

We are subject to changes in and interpretations of financial accounting matters that govern the measurement of our performance, compliance with which could be costly and time consuming.

We are subject to changes in and interpretations of financial accounting matters that govern the measurement of our performance. Based on our reading and interpretations of relevant guidance, principles or concepts issued by, among other authorities, the Financial Accounting Standards Board, the SEC and the American Institute of Certified Public Accountants, management believes our performance, including current sales contract terms and business arrangements, has been properly reported. However, there continue to be issued interpretations and guidance for applying the relevant standards to a wide range of contract terms and business arrangements that are prevalent in the industries in which we operate. Future interpretations or changes by the regulators of existing accounting standards or changes in our business practices may result in future changes in our accounting policies and practices that could have a material adverse effect on our business, financial condition, cash flows, revenue and results of operations.

Our evaluation of internal controls and remediation of potential problems is costly and time consuming and could expose weaknesses in financial reporting.

Section 404 of the Sarbanes-Oxley Act of 2002, as amended, requires management's assessment of the effectiveness of the Company's internal control over financial reporting. This process is expensive and time consuming, and requires significant attention of management. Management can give no assurance that material weaknesses in internal controls will not be discovered. If a material weakness is discovered, corrective action may be time consuming and costly, and could further divert the attention of management. The disclosure of a material weakness, even if quickly remedied, could reduce the market's confidence in our financial statements and harm our stock price, especially if a restatement of financial statements for past periods is required.

For each share of Common Stock held of record as of 5:00 p.m., New York City time, on the Record Date, you will receive [] of a Subscription Right. Each whole Subscription Right will entitle you to purchase one share of our Common Stock at a Subscription Price equal to \$[] per share of Common Stock. Subscription Rights may only be exercised in whole numbers; we will not issue fractional shares of Common Stock upon exercise of Subscription Rights and, to the extent that the number of Subscription Rights that you are entitled to receive is not a whole number, the shares of Common Stock issuable upon exercise of the Subscription Rights will be rounded down to the nearest whole share for purposes of determining the number of shares of Common Stock for which you may subscribe. Any excess subscription funds will be returned, without interest or penalty, as soon as practicable after the expiration of the Rights Offering period.

Subscription Privilege

Each whole Subscription Right that you own will entitle you to purchase one share of our Common Stock at the Subscription Price. You may exercise your Subscription Privilege for some or all of your Subscription Rights, or you may choose not to exercise any Subscription Rights.

For example, if you owned 1,000 shares of our Common Stock as of 5:00 p.m., New York City time, on the Record Date, you would receive [] Subscription Rights and would have the right to purchase [] shares of Common Stock for \$[] per share (or \$[] in the aggregate) by exercising your Subscription Privilege in full.

Limitation on Exercise of Subscription Privilege

In the event that the exercise by a shareholder of the Subscription Privilege or the purchase of Common Stock under the Standby Purchase Agreement could, as determined by the Company in its sole discretion, potentially result in a limitation on the Company's ability to use Tax Attributes under the Code and rules promulgated by the Internal Revenue Service, the Company may, but is under no obligation to, reduce the exercise by such shareholder of the Subscription Privilege or the amount purchased under the Standby Purchase Agreement to such number of shares of Common Stock as the Company in its sole discretion shall determine to be advisable in order to preserve the Company's ability to use the Tax Attributes.

No Fractional Shares Issuable Upon Exercise of Subscription Rights

Subscription Rights may only be exercised in whole numbers; we will not issue fractional shares of Common Stock upon exercise of Subscription Rights and, to the extent that the number of Subscription Rights that you are entitled to receive is not a whole number, the shares of Common Stock issuable upon exercise of the Subscription Rights will be rounded down to the nearest whole share for purposes of determining the number of shares of Common Stock for which you may subscribe. Any excess subscription funds will be returned, without interest or penalty, as soon as practicable after the expiration of the Rights Offering period.

Subscription Price

The Subscription Price per share of Common Stock will be \$[]. The Subscription Price is equal to []% of the closing price of our Common Stock, as reported by the NASDAQ Capital Market, on [], 201[] (which was the latest practicable date on which the Subscription Price could be established prior to the launch of the Rights Offering). The Subscription Price is not necessarily related to our book value, results of operations, cash flows, financial condition or the future market value of our Common Stock. We cannot assure you that you will be able to sell shares purchased in this Rights Offering at a price equal to or greater than the Subscription Price. We do not intend to change the Subscription Price in response to changes in the trading price of our Common Stock prior to the closing of the Rights Offering.

Standby Commitment

On December 17, 2013, we entered into a Standby Purchase Agreement with AO Partners and Farnam Street Capital as the Standby Purchasers, which was subsequently amended by Amendment No. 1 to Standby Purchase Agreement (as amended, the “Standby Purchase Agreement”). Pursuant to the Standby Purchase Agreement, the Standby Purchasers have agreed to purchase, at the Subscription Price, in a private transaction separate from the Rights Offering, any and all Unsubscribed Shares (subject to reduction as a result of Tax Attribute Considerations). Pursuant to the terms of the Standby Purchase Agreement, the Unsubscribed Shares will be allocated 50% to AO Partners and 50% to Farnam Street Capital. Nicholas J. Swenson, a director of the Company, is the Managing Member of AO Partners and, in such capacity, has the power to direct the affairs of AO Partners. Raymond E. Cabillot, a director of the Company, is Chief Executive Officer and a director of Farnam Street Capital and, in such capacity, has the power to direct the affairs of Farnam Street Capital.

Any purchases by the Standby Purchasers pursuant to the Standby Purchase Agreement will be made for investment purposes and not with a view toward resale. The number of shares of Common Stock that will be purchased by the Standby Purchasers can only be determined upon the completion of the Rights Offering. The Standby Purchasers will purchase all shares of Common Stock that could have been but were not subscribed for in the Rights Offering (subject to reduction as a result of Tax Attribute Considerations). If the Rights Offering is fully subscribed by shareholders through the exercise in full of their Subscription Privileges, the Standby Purchasers or their affiliates will purchase shares of Common Stock pursuant to the exercise of their respective Subscription Privileges, but will not purchase any additional shares of Common Stock pursuant to the Standby Purchase Agreement.

If, on the other hand, no shareholders were to purchase any shares of Common Stock through the exercise of their Subscription Privileges (and assuming that the Tax Attribute Considerations do not result in a lesser number of shares of Common Stock being issued to the Standby Purchasers), all of the shares offered pursuant to the Rights Offering would be issued and sold to the Standby Purchasers. In that event, [] shares of Common Stock would be issued to the Standby Purchasers – with [] shares to be purchased by AO Partners and [] shares to be purchased by Farnam Street Capital. As a result, assuming that all shares offered pursuant to the Rights Offering are issued and sold to the Standby Purchasers, Nicholas J. Swenson, a director of the Company, would control (either directly or indirectly through AO Partners or other entities controlled by Mr. Swenson) approximately [] shares, or []%, of the Company’s outstanding Common Stock, and Raymond E. Cabillot, a director of the Company, would control (either directly or indirectly through Farnam Street Capital or other entities controlled by Mr. Cabillot) approximately [] shares, or []%, of the Company’s outstanding Common Stock.

No fees or other consideration will be paid by the Company to the Standby Purchasers in exchange for their commitment to purchase any and all Unsubscribed Shares.

After the expiration of the Rights Offering period, all unexercised Subscription Rights will be null and void. Any subscription payments for shares not allocated or validly purchased will be returned to you, without interest or penalty, as soon as practicable following the Expiration Date of the Rights Offering.

Reasons for the Rights Offering; Use of Proceeds

We are conducting the Rights Offering to raise equity capital and to provide our existing shareholders with the opportunity to purchase additional shares of our Common Stock. We expect the proceeds from the Rights Offering and the transactions contemplated by the Standby Purchase Agreement to be approximately \$2,800,000 (before expenses and subject to reduction as a result of Tax Attribute Considerations). We intend to use the net proceeds of the Rights Offering to pursue strategic opportunities that may present themselves from time to time or, if not used to pursue strategic opportunities, for working capital and general corporate purposes, including to fund our ongoing research and development and product initiatives. Also, to the extent net proceeds of the Rights Offering are not deployed, some of the funds may be invested in accordance with the terms of our Surplus Capital Investment Policy.

You should contact your broker, custodian bank or other nominee if you do not receive this form, but you believe you are entitled to participate in the Rights Offering. We are not responsible if you do not receive the form from your broker, custodian bank or nominee or if you receive it without sufficient time to respond.

Your Subscription Rights will not be considered exercised unless the Subscription Agent actually receives from you, your broker, custodian, bank or other nominee, as the case may be, all of the required documents and your full Subscription Price payment prior to 5:00 p.m., New York City time, on [], 201[], the scheduled Expiration Date of this Rights Offering.

· receipt by the Subscription Agent of any certified or cashier’s check drawn upon a U.S. bank.

Clearance of Uncertified Personal Checks

If you are paying by uncertified personal check, please note that payment will not be deemed to have been received by the Subscription Agent until the check has cleared, which could take at least five or more business days. If you wish to pay the Subscription Price by uncertified personal check, we urge you to make payment sufficiently in advance of the time the Rights Offering expires to ensure that your payment is received by the Subscription Agent and clears by the Expiration Date. We urge you to consider using a certified or cashier’s check drawn upon a U.S. bank.

Instructions for Completing Your Subscription Rights Certificate

You should read the instruction letter accompanying the Subscription Rights Certificate carefully and strictly follow it. **Do not send Subscription Rights Certificates or payments to us.** Except as described below under “The Rights Offering—Notice of

Guaranteed Delivery,” we will not consider your subscription received until the Subscription Agent has received delivery of a properly completed and duly executed Subscription Rights Certificate and payment of the full Subscription Price (and any payment by uncertified personal check has cleared). The risk of delivery of all documents and payments is on you or your nominee, not us or the Subscription Agent.

The method of delivery of Subscription Rights Certificates and payment of the subscription amount to the Subscription Agent will be at the risk of the holders of Subscription Rights. If sent by mail, we recommend that you send those certificates and payments by overnight courier or by registered mail, properly insured, with return receipt requested, and that a sufficient number of days be allowed to ensure delivery to the Subscription Agent and clearance of payment before the expiration of the subscription period for the Rights Offering. Because uncertified personal checks may take at least five or more business days to clear, we urge you to pay or arrange for payment by means of certified or cashier’s check or bank draft to avoid missing the opportunity to exercise your Subscription Rights should you decide to exercise your Subscription Rights.

Missing or Incomplete Subscription Information

If you do not indicate the number of Subscription Rights being exercised, or do not forward full payment of the total Subscription Price payment for the number of Subscription Rights that you indicate are being exercised, then you will be deemed to have exercised your Subscription Rights with respect to the maximum number of whole Subscription Rights that may be exercised with the aggregate Subscription Price payment you delivered to the Subscription Agent. If we do not apply your full Subscription Price payment to your purchase of shares of our Common Stock, the Subscription Agent will return the excess amount to you by mail, without interest or penalty, as soon as practicable after the Expiration Date of the Rights Offering.

Conditions and Cancellation

We reserve the right to cancel the Rights Offering on or prior to the Expiration Date for any reason. Among other reasons, we may cancel the Rights Offering if at any time before completion of the Rights Offering there is any judgment, order, decree, injunction, statute, law or regulation entered, enacted, amended or held to be applicable to the Rights Offering that in the sole judgment of our Board of Directors would or might make the Rights Offering or its completion, whether in whole or in part, illegal or otherwise restrict or prohibit completion of the Rights Offering. We may waive any of these conditions and choose to proceed with the Rights Offering even if one or more of these events occur. If we cancel the Rights Offering, in whole or in part, all affected Subscription Rights will expire without value, and all subscription payments received by the Subscription Agent will be returned, without interest or penalty, as soon as practicable.

Cancellation Rights

Our Board of Directors may cancel the Rights Offering in its sole discretion at any time prior to the time the Rights Offering expires for any reason. If we cancel the Rights Offering, we will issue a press release notifying shareholders of the cancellation, and any funds you paid to the Subscription Agent will be returned, without interest or penalty, as soon as practicable.

If you deliver Subscription Rights Certificates, Notices of Guaranteed Delivery, payments of the Subscription Price or other subscription documents in a manner different than that described in this Prospectus, we may not honor the exercise of your Subscription Privileges.

Fees and Expenses

We will pay the fees and expenses of the Subscription Agent. We have also agreed to indemnify the Subscription Agent from and against certain liabilities in connection with the Rights Offering. Neither the Subscription Agent nor the Company will pay such expenses.

Notice to Brokers and Nominees

If you are a broker, a custodian bank, a trustee, a depository for securities or other nominee holder who holds shares of our Common Stock for the account of others as of 5:00 p.m., New York City time, on the Record Date, you should notify the respective beneficial owners of such shares of the Rights Offering as soon as possible to learn their intentions with respect to exercising their Subscription Rights. You should obtain instructions from the beneficial owner with respect to their Subscription Rights, as set forth in the instructions we have provided to you for your distribution to beneficial owners. If the beneficial owner so instructs, you should complete the appropriate Subscription Rights Certificates and submit them to the Subscription Agent with the proper payment. If you hold shares of our Common Stock for the account(s) of more than one beneficial owner, you may exercise the number of Subscription Rights to which all such beneficial owners in the aggregate otherwise would have been entitled had they been direct record holders of our Common Stock as of 5:00 p.m., New York City time, on the Record Date, provided that you, as a nominee record holder, make a proper showing to the Subscription Agent by submitting the form entitled “Nominee Holder Certification” that we will provide to you with your Rights Offering materials. If you did not receive this form, you should contact the Subscription Agent to request a copy.

In the case of Subscription Rights that you hold of record on behalf of others through the Depository Trust Company (“DTC”), those Subscription Rights may be exercised by instructing DTC to transfer the Subscription Rights from your DTC account to the Subscription Agent’s DTC account, and by delivering to the Subscription Agent the required certification as to the number of shares subscribed for pursuant to the exercise of the Subscription Rights of the beneficial owners on whose behalf you are acting, together with payment of the full Subscription Price.

Notice of Guaranteed Delivery

If you wish to exercise your Subscription Rights, but you do not have sufficient time to deliver the Subscription Rights Certificate evidencing your Subscription Rights to the Subscription Agent on or before 5:00 p.m., New York City time, on [], 201[] (the Expiration Date of the Rights Offering), you may exercise your Subscription Rights by the following guaranteed delivery procedures:

· deliver to the Subscription Agent on or prior to the Rights Offering Expiration Date your Subscription Price payment in full for each share you subscribed for under your subscription privilege in the manner set forth above under “The Rights Offering—Payment Method”;

Your Notice of Guaranteed Delivery must be delivered in substantially the same form provided with the Instructions For Use of Pro-Dex, Inc. Subscription Rights Certificates, which will be distributed to you with your Subscription Rights Certificate. A form of that guarantee is included with the Notice of Guaranteed Delivery.

You should confirm receipt of all facsimile transmissions by calling the Subscription Agent at (855) 793-5068.

Questions About Exercising Subscription Rights

If you have any questions or require assistance regarding the method of exercising your Subscription Rights or requests for additional copies of this Prospectus, the Instructions For Use of Pro-Dex, Inc. Subscription Rights Certificates, the Notice of Guaranteed Delivery or any other Rights Offering documents, you should contact the Subscription Agent at (855) 793-5068.

Transferability of Rights

The Subscription Rights granted to you may be exercised only by you, and, therefore, you may not sell, transfer or assign your Subscription Rights to anyone else.

Validity of Subscriptions

We will resolve all questions regarding the validity and form of the exercise of your Subscription Privileges, including time of receipt and eligibility to participate in the Rights Offering. Our determination will be final and binding. Once made, subscriptions and directions are irrevocable, and we will not accept any alternative, conditional or contingent subscriptions or directions. We reserve the absolute right to reject any subscriptions or directions not properly submitted or the acceptance of which would be unlawful. You must resolve any irregularities in connection with your subscriptions before the subscription period expires, unless waived by us in our sole discretion. Neither the Subscription Agent nor we shall be under any duty to notify you or your representative of defects in your subscriptions. A subscription will be considered accepted, subject to our right to cancel the Rights Offering, only when a properly completed and duly executed Subscription Rights Certificate and any other required documents and payment of the full subscription amount have been received by the Subscription Agent (and any payment by uncertified personal check has cleared). Our interpretations of the terms and conditions of the Rights Offering will be final and binding.

Segregated Account; Return of Funds

The Subscription Agent will hold funds received in payment for shares of our Common Stock to be purchased in the Rights Offering in a segregated account pending completion of the Rights Offering. The Subscription Agent will hold this money until the Rights Offering is completed or is cancelled. If the Rights Offering is cancelled for any reason, the Subscription Agent will return this money to subscribers, without interest or penalty, as soon as practicable.

Certificates for Shares of Common Stock

All shares that you purchase in the Rights Offering will be issued in book-entry, or uncertificated, form. When issued, the shares will be registered in the name of the Subscription Rights holder of record. As soon as practicable after the expiration of the

Rights Offering period, the Subscription Agent will arrange for issuance to each Subscription Rights holder of record that has validly exercised its Subscription Privilege, the shares of Common Stock purchased pursuant to the Subscription Privilege.

Rights of Subscribers

You will have no rights as a shareholder with respect to the shares of our Common Stock purchased in the Rights Offering until your account, or your account at your broker, custodian bank or other nominee, is credited with such shares. You will have no right to revoke your subscriptions after you deliver your completed Subscription Rights Certificate, payment and any other required documents to the Subscription Agent.

Foreign Shareholders

We will not mail Subscription Rights Certificates to shareholders whose addresses are outside the United States or who have a U.S. military post office or foreign post office address. The Subscription Agent will hold these Subscription Rights Certificates for their account. To exercise Subscription Rights, our foreign shareholders must notify the Subscription Agent prior to 11:00 a.m., New York City time, at least three business days prior to the Expiration Date of the Rights Offering and demonstrate to the satisfaction of the Company that the exercise of such Subscription Rights does not violate the laws of the jurisdiction of such shareholder.

No Revocation or Change

Once you submit the Subscription Rights Certificate to exercise any Subscription Rights, you are not allowed to revoke or change the exercise or request a refund of monies paid. All exercises of Subscription Rights are irrevocable, even if you learn information about us that you consider to be unfavorable or if the market price of our Common Stock drops below the Subscription Price. You should not exercise your Subscription Rights unless you are certain that you wish to purchase the shares of our Common Stock offered pursuant to the Rights Offering.

Regulatory Limitation

We will not be required to issue to you shares of our Common Stock pursuant to the Rights Offering if, in our opinion, you are required to obtain prior clearance or approval from, or submit a prior notice to, any state or federal regulatory authorities to own or control the shares and if, at the time the Rights Offering expires, we determine that you have not properly obtained such clearance or approval or submitted such notice. See also "Limitation on Exercise of

Subscription Privilege.”

No Recommendation to Subscription Rights Holders

Our Board of Directors is making no recommendation regarding your exercise of the Subscription Rights. Shareholders who exercise Subscription Rights risk investment loss on new money invested. We cannot assure you that the market price of our Common Stock will be above the Subscription Price at the time of exercise or at the expiration of the Rights Offering or that anyone purchasing shares at the Subscription Price will be able to sell those shares in the future at the same price or a higher price. You are urged to decide whether or not to exercise your Subscription Rights based on your own assessment of our business and the Rights Offering. Among other things, you should carefully consider the risks, uncertainties and other information described under the heading “Risk Factors” in this Prospectus and the risks, uncertainties and other information described in documents incorporated by reference in this Prospectus, including but not limited to the sections entitled “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operation” in our Annual Report on Form 10-K for the year ended June 30, 2013 and our Quarterly Reports on Form 10-Q for the quarters ended September 30, 2013 and December 31, 2013, as well as the risks, uncertainties and other information described in our other filings with the Securities and Exchange Commission (including but not limited to any subsequently filed Quarterly Reports on Form 10-Q), pursuant to Sections 13(a), 13(c), 14, or 15(d) of the Exchange Act before making a decision to invest in our Common Stock.

Participation in Rights Offering by Members of our Board of Directors

In connection with the Rights Offering, we have entered into a Standby Purchase Agreement with AO Partners and Farnam Street Capital. Pursuant to the Standby Purchase Agreement, the Standby Purchasers have agreed to purchase, at the Subscription Price, in a private transaction separate from the Rights Offering, any and all Unsubscribed Shares (subject to reduction as a result of Tax Attribute Considerations). Pursuant to the terms of the Standby Purchase Agreement, the Unsubscribed Shares will be allocated 50% to AO Partners and 50% to Farnam Street Capital. Nicholas J. Swenson, a director of the Company, is the Managing Member of AO Partners and, in such capacity, has the power to direct the affairs of AO Partners. Raymond E. Cabillot, a director of the Company, is Chief Executive Officer and a director of Farnam Street Capital and, in such capacity, has the power to direct the affairs of Farnam Street Capital. Other members of the Board of Directors may decide to participate in the Rights Offering in their capacity

as shareholders of the Company, but are not required to do so. Any shares of Common Stock issued to the Standby Purchasers in connection with the standby purchase commitment described above will be “restricted securities” as that term is defined in Rule 144 under the Securities Act. The Standby Purchasers and certain of their affiliates may also exercise the Subscription Privileges they hold in their capacity as shareholders of the Company.

Listing

The Subscription Rights may not be sold, transferred or assigned to anyone else and will not be listed on the NASDAQ Capital Market or any other stock exchange or trading market. Our Common Stock trades on the NASDAQ Capital Market under the symbol “PDEX” and the shares to be issued in connection with the Rights Offering will be eligible for trading on the NASDAQ Capital Market under the same symbol.

Participation in Rights Offering Not Required; Potential Dilution

You are not required to exercise your Subscription Rights or otherwise take any action in response to this Rights Offering. If you do not exercise your Subscription Rights and the Rights Offering is completed, the number of shares of our Common Stock you own will not change but your percentage ownership of our total outstanding Common Stock will decrease because shares will be purchased by other shareholders in the Rights Offering or by the Standby Purchasers. Your percentage ownership of our Common Stock may also decrease if you do not exercise your Subscription Privilege in full.

Shares of Common Stock Outstanding After the Rights Offering

As of February 25, 2014, 3,340,896 shares of our Common Stock were issued and outstanding. Assuming no other transactions by us involving our Common Stock, and no options for our Common Stock are exercised prior to the expiration of the Rights Offering, if the Rights Offering is fully subscribed through the exercise of the Subscription Rights and/or the Standby Purchasers acquire all of the Common Stock not purchased by the holders of Subscription Rights, then an additional [] shares of our Common Stock will be issued and outstanding after the closing of the Rights Offering, for a total of [] shares of Common Stock issued and outstanding. As a result of the Rights Offering, the ownership interests and voting interests of the existing shareholders that do not fully exercise their Subscription Privileges will be diluted.

Other Matters

We are not making the Rights Offering in any state or other jurisdiction in which it is unlawful to do so, nor are we distributing or accepting any offers to purchase any shares of our Common Stock from Subscription Rights holders who are residents of those states or other jurisdictions or who are otherwise prohibited by federal or state laws or regulations to accept or exercise the Subscription Rights. We may delay the commencement of the Rights Offering in those states or other jurisdictions, or change the terms of the Rights Offering, in whole or in part, in order to comply with the securities laws or other legal requirements of those states or other jurisdictions. Subject to state securities laws and regulations, we also have the discretion to delay allocation and distribution of any shares you may elect to purchase by exercise of your Subscription Privileges in order to comply with state securities laws. We may decline to make modifications to the terms of the Rights Offering requested by those states or other jurisdictions, in which case, if you are a resident in those states or jurisdictions or if you are otherwise prohibited by federal or state laws or regulations from accepting or exercising the Subscription Rights, you will not be eligible to participate in the Rights Offering. However, we are not currently aware of any states or jurisdictions that would preclude participation in the Rights Offering.

DESCRIPTION OF CAPITAL STOCK

The following summary of the terms of the Company's capital stock does not purport to be complete and is subject to and qualified in its entirety by reference to the Company's Articles of Incorporation and the Company's Bylaws, each of which may be further amended from time to time and both of which are incorporated herein by reference.

General

As of February 25, 2014, the Company's authorized capital stock consists of (i) 50,000,000 shares of Common Stock, no par value per share, and (ii) 10,000,000 shares of preferred stock, no par value per share ("Preferred Stock"), of which 78,129 shares have been designated as Series A Convertible Preferred Stock ("Series A Preferred Stock"). As of February 25, 2014, 3,340,896 shares of Common Stock were issued and outstanding and no shares of Preferred Stock were issued and outstanding.

Common Stock

The holders of the Company's Common Stock are entitled to one vote for each share of Common Stock held of record on all matters submitted to a vote of the Company's shareholders, including the election of directors, and do not have cumulative voting rights. Subject to preferences that may be applicable to any outstanding Preferred Stock, holders of Common Stock are entitled to receive ratably those dividends, if any, as may be declared by the Board of Directors out of legally available funds. Subject to the rights of any outstanding Preferred Stock, upon the Company's liquidation, dissolution or winding-up, the holders of Common Stock will be entitled to share ratably in the net assets legally available for distribution to the Company's shareholders after the payment of all of the Company's debts and other liabilities. Holders of Common Stock have no preemptive or conversion rights or other subscription rights and there are no redemption or sinking fund provisions applicable to the Common Stock. All outstanding shares of Common Stock are fully paid and nonassessable.

Broadridge Corporate Issuer Solutions, Inc. is the transfer agent for the Company's Common Stock.

The Company's Common Stock is listed on the NASDAQ Capital Market under the symbol "PDEX".

Preferred Stock

The Company's Board of Directors has the authority, without further action by the Company's shareholders (other than such approval rights as may be granted to any outstanding series of Preferred Stock), to designate and issue one or more series of Preferred Stock and to fix the rights, powers, preferences, qualifications, limitations and restrictions of each series of Preferred Stock to the maximum extent permitted by Colorado law. Among other things, the Board of Directors may establish the following with respect to each series of Preferred Stock:

- (i) the number of shares that constitute each series of Preferred Stock;
- (ii) the rate and preference of dividends, if any, the time of payment of dividends, whether dividends are cumulative and the date from which any dividend shall accrue;

Edgar Filing: - Form

- (iii) whether the series of Preferred Stock may be redeemed and, if so, the redemption price and the other terms and conditions of redemption;
- (iv) sinking fund or other provisions, if any, for redemption or purchase of the series of Preferred Stock;
- (v) whether the series of Preferred Stock may be converted into, or exchangeable for, other classes of capital stock of the Company (including Common Stock or another series of Preferred Stock) and, if so, the conversion price or exchange rate and the other terms of conversion or exchange; and
- (vi) the liquidation preferences payable on, and other rights afforded to, the series of Preferred Stock in the event of voluntary or involuntary dissolution, winding-up or other liquidation of the Company.

The rights, powers, preferences, qualifications, limitations and restrictions of different series of Preferred Stock may differ with respect to dividend rates, redemption provisions, sinking fund provisions, conversion and exchange rights, liquidation preferences and other matters.

The issuance of Preferred Stock could decrease the amount of earnings and assets available for distribution to holders of Common Stock or adversely affect the rights and powers, including voting rights, of the holders of Common Stock. The existence of authorized but unissued Preferred Stock may also discourage or render more difficult attempts to take control of the Company, as described in more detail below under “Anti-Takeover Provisions of Governing Documents.”

Series A Preferred Stock

78,129 shares of the Company’s Preferred Stock have been designated as Series A Preferred Stock, which have the following rights and preferences:

- (i) holders of Series A Preferred Stock will have a liquidation preference of \$3.60 per share of Series A Preferred Stock payable in preference to holders of Common Stock and holders of shares of the Company’s other capital stock, if any, ranking junior to the Series A Preferred Stock (a consolidation or merger of the Company with or into another corporation or entity or sale of all or substantially all of the assets of the Company shall be deemed a “liquidation” with respect to the Series A Preferred Stock unless such consolidation or merger is a Pro Forma Merger; a “Pro Forma Merger” is defined in the Company’s Articles of Incorporation as a consolidation or merger, as the result of which 15% or fewer of the equity securities of the Company outstanding after the merger or consolidation are owned by persons who were not holders of equity securities of the Company immediately preceding the merger or consolidation);
- (ii) holders of Series A Preferred Stock have the right, at any time and from time to time, to convert three shares of Series A Preferred Stock into one share of Common Stock (which conversion rate is subject to adjustment in the event shares of Common Stock are issued as a dividend or distribution on any class of capital stock of the Company or if the Common Stock is subdivided, split or combined or subject to a recapitalization, reclassification or similar transaction);
- (iii) no fractional shares of Common Stock will be issued upon conversion of Series A Preferred Stock, and in lieu of any fractional share the Company shall pay the holder of converted Series A Preferred Stock an amount calculated in accordance with the Company’s Articles of Incorporation;
- (iv) the Company must at all times reserve and keep available out of its authorized but unissued Common Stock, solely for the purpose of issuance upon conversion of the Series A Preferred Stock, the number of shares of Common Stock issuable upon the conversion of all outstanding shares of Series A Preferred Stock;
- (v) the Company will not, by amendment of its Articles of Incorporation or through any other voluntary action, avoid or seek to avoid the observance or performance of any of the rights or preferences of the Series A Preferred Stock;
- (vi) the Company does not have the right to redeem Series A Preferred Stock;
- (vii) holders of Series A Preferred Stock have no voting rights except as otherwise granted to them under Colorado law;
- (viii) Series A Preferred Stock will not be entitled to dividends; and
- (ix) all shares of Series A Preferred Stock surrendered for conversion into Common Stock shall be restored to the status of authorized but unissued shares of Preferred Stock and may not be reissued as Series A Preferred Stock.

Anti-Takeover Provisions of Governing Documents

The Company’s Bylaws require that the Company’s shareholders satisfy certain advance notice and other requirements in order to properly submit proposals or director nominees for consideration at the Company’s annual meetings of shareholders.

Edgar Filing: - Form

As discussed above, the Company's Board of Directors has the authority, without further action by the Company's shareholders (other than such approval rights as may be granted to any outstanding series of Preferred Stock), to designate and issue one or more series of Preferred Stock and to fix the rights, powers, preferences, qualifications, limitations and restrictions of each series of Preferred Stock to the maximum extent permitted by Colorado law. The existence of authorized but unissued Preferred Stock may enable the Board of Directors to render more difficult or to discourage an attempt to obtain control of the Company by means of a merger, tender offer, proxy contest or otherwise. Among other things, if in the due exercise of its fiduciary obligations, the Board of Directors were to determine that a takeover proposal is not in the best interests of the Company and its shareholders, the Board of Directors could cause shares of Preferred Stock to be designated and issued without further shareholder approval in one or more private offerings or other transactions that might dilute the voting or other rights of the proposed acquirer or insurgent shareholder or shareholder group.

CERTAIN MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a general summary of certain material U.S. federal income tax consequences to U.S. holders (as defined below) of the receipt and ownership of the Subscription Rights pursuant to the Rights Offering and certain tax considerations for U.S. holders of the ownership of our Common Stock resulting from the exercise of Subscription Rights. This summary is based upon provisions of the Code, applicable Treasury Regulations, administrative rulings, judicial authorities and other applicable existing U.S. federal income tax authorities, all of which are subject to change or differing interpretations, possibly with retroactive effect which could result in U.S. federal income tax consequences different from those discussed below. No assurance can be given that the Internal Revenue Service, or IRS, will not challenge one or more of the tax results described in this discussion, and no opinion of the Company's counsel or ruling from the IRS has been, or is expected to be, sought with respect to the U.S. federal tax consequences of the Rights Offering.

This summary does not provide a complete analysis of all potential tax considerations. This summary is only applicable to U.S. holders of Common Stock who are individuals and who acquire the Subscription Rights pursuant to the terms of the Rights Offering, have held the Common Stock, and will hold the Subscription Rights, and the Common Stock issued upon exercise of the rights as capital assets (generally, property held for investment) within the meaning of Section 1221 of the Code. This summary does not deal with all tax consequences that may be relevant to holders in light of their personal circumstances or particular situations, such as holders who may be subject to special tax treatment under the Code, including (without limitation) dealers in securities or currencies, financial institutions, insurance companies, regulated investment companies, real estate investment trusts, tax-exempt entities or traders in securities that elect to use a mark-to-market method of accounting for their securities, persons holding Subscription Rights or Common Stock as part of a hedging, integrated or conversion transaction or a straddle, persons deemed to sell Common Stock, under the constructive sale provisions of the Code, persons whose "functional currency" is not the U.S. dollar, and foreign taxpayers. This summary does not deal with any U.S. federal non-income, state, local or foreign tax consequences, estate or gift tax consequences, or alternative minimum tax consequences, nor does it address any tax considerations to persons other than U.S. holders.

For purposes of this discussion, a "U.S. holder" is a beneficial owner of our right or Common Stock that is, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;

- a corporation, or other business entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States, any state of the United States or the District of Columbia;

· an estate, if its income is subject to U.S. federal income taxation regardless of its source; or

a trust, if (i) a U.S. court can exercise primary supervision over the trust's administration and one or more U.S. persons (within the meaning of the Code) have the authority to control all of its substantial decisions or (ii) the trust has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person.

If a partnership (including any entity treated as a partnership for U.S. federal income tax purposes) receives the Subscription Rights or exercises the Subscription Rights, the tax treatment of a partner in a partnership generally will depend upon the status of the partner and the activities of the partnership. Such a partner or partnership should consult its tax advisor as to the U.S. federal income tax consequences of the receipt, exercise or lapse of the Subscription Rights.

Holders of Common Stock are urged to consult their own tax advisors as to the specific tax consequences of the Rights Offering to them, including the applicable federal, state, local and foreign tax consequences of the Rights Offering to them and the effect of possible changes in tax laws.

Taxation of Subscription Rights

Receipt of Subscription Rights

The receipt of Subscription Rights pursuant to the Rights Offering should generally be treated as a nontaxable distribution with respect to your existing shares of Common Stock for U.S. federal income tax purposes. Under Section 305 of the Code, a shareholder who receives a right to acquire shares will, in certain circumstances,

be treated as having received a taxable dividend in an amount equal to the fair market value of such right. The application of this rule is very complex and subject to uncertainty. However, we believe that pursuant to Section 305 of the Code and the Treasury Regulations promulgated thereunder, the receipt of Subscription Rights should generally not be taxable to a shareholder for U.S. federal income tax purposes. Consequently, the discussion below assumes that the receipt of Subscription Rights will be treated as a nontaxable distribution .

Tax Basis in Subscription Rights

If the fair market value of the Subscription Rights you receive is less than 15% of the fair market value of your existing Common Stock on the date you receive the Subscription Rights, the Subscription Rights will be allocated a zero basis for U.S. federal income tax purposes, unless you elect to allocate basis between your existing Common Stock and the Subscription Rights in proportion to the relative fair market values of the existing Common Stock and the Subscription Rights determined on the date of receipt of the Subscription Rights. If you choose to allocate basis between your existing Common Stock and the Subscription Rights, you must make this election on a statement included with your tax return for the taxable year in which you receive the Subscription Rights. Such an election is irrevocable.

On the other hand, if the fair market value of the Subscription Rights you receive is 15% or more of the fair market value of your existing Common Stock on the date you receive the Subscription Rights, then you must allocate your basis in your existing Common Stock between the existing Common Stock and the Subscription Rights you receive in proportion to their fair market values determined on the date you receive the Subscription Rights.

The fair market value of the Subscription Rights on the date the Subscription Rights are distributed is uncertain, and we have not obtained, and do not intend to obtain, an appraisal of the fair market value of the Subscription Rights on that date. In determining the fair market value of the Subscription Rights, you should consider all relevant facts and circumstances, including any difference between the Subscription Price of the Subscription Rights and the trading price of our Common Stock on the date that the Subscription Rights are distributed, the length of the period during which the Subscription Rights may be exercised and the fact that the Subscription Rights are non-transferable.

Holding Period in Subscription Rights

Your holding period in a Subscription Right will include your holding period in the Common Stock with respect to which the Subscription Right was distributed.

Exercise of Subscription Privilege

Generally, you will not recognize gain or loss on the exercise of a Subscription Right pursuant to the Subscription Privilege. Your tax basis in new shares of Common Stock acquired when you exercise a Subscription Right pursuant to the Subscription Privilege will be equal to your adjusted tax basis in the Subscription Right plus the Subscription Price. The holding period of a share of Common Stock acquired when you exercise a Subscription Right, if any, pursuant to the Subscription Privilege will begin on the date of exercise.

If you exercise a Subscription Right received in the Rights Offering after disposing of the share of our Common Stock with respect to which such Subscription Right is received, then certain aspects of the tax treatment of the exercise of the Subscription Right are unclear, including (1) the allocation of tax basis between the Common Stock previously sold and the Subscription Right, (2) the impact of such allocation on the amount and timing of gain or loss recognized with respect to the Common Stock previously sold, and (3) the impact of such allocation on the tax basis of Common Stock acquired through exercise of the Subscription Right. If you exercise a Subscription Right received in the Rights Offering after disposing of the Common Stock with respect to which the Subscription Right is received, you should consult your tax advisor.

Expiration of Subscription Rights

If you do not exercise your Subscription Rights, you should not recognize a capital loss for U.S. federal income tax purposes and any portion of the tax basis in your existing shares of Common Stock previously allocated to the Subscription Right not exercised should be re-allocated to the existing Common Stock.

If you allow Subscription Rights to expire after disposing of the Common Stock with respect to which such Subscription Rights are received, then certain aspects of the tax treatment of the expiration of the Subscription Rights are unclear, including (1) the allocation of tax basis between the Common Stock previously sold and the Subscription Rights, (2) the impact of such allocation on the amount and timing of gain or loss recognized with respect to the Common Stock previously sold, and (3) the impact of such allocation on the amount and timing of gain or loss recognized upon the expiration of the Subscription Rights. If you allow Subscription Rights to expire after disposing of the Common Stock with respect to which the Subscription Rights are received, you should consult with your tax advisor.

Ownership of Common Stock Upon Exercise of Subscription Privilege

Distributions

In general, distributions of money, securities and any other property (other than our stock or rights to acquire such stock) with respect to our Common Stock will constitute dividends to the extent made out of our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. If a distribution exceeds our

Edgar Filing: - Form

current and accumulated earnings and profits, the excess will be treated as a non-taxable return of capital to the extent of your adjusted tax basis in the Common Stock and thereafter as capital gain from the sale or exchange of such Common Stock.

-38-

Gain or Loss on Disposition of Common Stock

Upon the sale or other disposition of our Common Stock, you will generally recognize capital gain or loss for U.S. federal income tax purposes equal to the difference between your amount realized on the sale and your adjusted tax basis in such Common Stock. Such capital gain or loss will be long-term capital gain or loss if your holding period for the common shares is more than one year. Long-term capital gain of an individual is generally taxed at favorable rates. The deductibility of capital losses is subject to limitations.

Additional Medicare Tax on Net Investment Income

For tax years beginning after December 31, 2012, an additional 3.8% tax will be imposed on the net investment income of certain U.S. citizens and resident aliens, and on the undistributed net investment income of certain estates and trusts. Among other items, net investment income generally includes gross income from dividends and net gain from the disposition of property, such as our Common Stock, less certain deductions. You should consult your tax advisor with respect to this additional tax.

Information Reporting and Backup Withholding

Payments made to you of proceeds from the sale or other disposition of the Common Stock may be subject to information reporting to the IRS and possible U.S. federal backup withholding. Backup withholding will not apply if you furnish a correct taxpayer identification number (certified on the IRS Form W-9) or otherwise establish that you are exempt from backup withholding. Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against your U.S. federal income tax liability. You may obtain a refund of any excess amounts withheld under the backup withholding rules by filing the appropriate claim for refund with the IRS and furnishing any required information.

Item 15. Indemnification of Directors and Officers

Pro-Dex is incorporated under the laws of the State of Colorado. Section 7-109-102 of the Colorado Business Corporations Act (the “Colorado Act”) authorizes a Colorado corporation to indemnify any director of the corporation against liability incurred in any proceeding if he or she acted in good faith and in a manner he or she reasonably believed to be in (or in the case of conduct not in taken the director’s official capacity, not opposed to) the best interests of the corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful; provided that the corporation generally may not indemnify a director for conduct which the director is adjudged liable.

Unless limited by a corporation’s articles of incorporation, Sections 7-109-103 and 7-109-107 of the Colorado Act require that a Colorado corporation indemnify a director or officer of the corporation who was wholly successful, on the merits or otherwise, in defending any proceeding to which he or she was a party because he or she was a director or officer of the corporation against reasonable expenses incurred in connection therewith.

Pursuant to Section 7-109-104 of the Colorado Act, a Colorado corporation may advance a director’s expenses incurred in defending any action or proceeding upon receipt of an undertaking and a written affirmation of his or her good faith belief that he or she has met the standard of conduct specified in Section 7-109-102 described above. Unless limited by the corporation’s articles of incorporation, Section 7-109-107 of the Colorado Act extends this same protection to officers of a corporation.

Regardless of whether a director or officer has the right to indemnity pursuant to the provisions of the Colorado Act described above, Section 7-109-108 of the Colorado Act allows a Colorado corporation to purchase and maintain insurance on behalf of a director or officer against liability resulting from his or her role as director or officer.

Article 8 of the Company’s Articles of Incorporation expressly states that (unless limited by its Bylaws, by Board of Director or shareholder resolution or by contract) the Company shall indemnify its directors and officers to the extent and in a manner permitted by the Colorado Act. No provision of the Company’s Bylaws, no resolutions by the Company’s Board of Directors or shareholders, and no contracts between the Company and its directors or officers have limited such rights.

It is the Company’s policy to maintain an insurance policy indemnifying its directors and officers against certain liabilities, including certain liabilities arising under the Securities Act, which might be incurred by them in such capacities and against which they may not be entitled to indemnification by us. As of February 25, 2014 , the Company has such an insurance policy in place.

It is also the Company’s policy to enter into indemnification agreements with each of its directors and officers. As of February 25, 2014 , the Company has entered into its standard form of indemnification agreement with each of its current directors and officers, pursuant to which the Company agrees, among other things, to indemnify and advance expenses to each director and officer to the maximum extent permitted by law.

Item 17. Undertakings

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the SEC pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (a)(1)(i), (a)(1)(ii) and (a)(1)(iii) do not apply if the registration statement is on Form S-3 or Form F-3 and the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement;

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof;

Edgar Filing: - Form

(3) To remove from registration by means of a post-effective amendment any of the securities being registered that remain unsold at the termination of the offering; and

(4) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities:

The undersigned registrant undertakes that in a primary offering of securities of an undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- (i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
- (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
- (iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
- (iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

Edgar Filing: - Form

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(d) The undersigned registrant hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.
