HSBC INVESTOR UPDATE

HSBC Holdings plc is today holding an update on Group Strategy for investors and analysts at its London headquarters located at 8 Canada Square, Canary Wharf. Registration for webcast viewing of these presentations is

available at  
www.hsbc.com

#### Highlights

- Significant execution progress against the strategy outlined in May 2011
- Strategy unchanged - priorities for the next phase 2014-2016:
  - grow both the business and dividend
  - implement global standards
  - streamline processes and procedures
- Re-affirmed return on equity target range of 12-15%
- Revenue growth exceeding cost growth ('positive jaws')
- Additional sustainable costs savings of US\$2-3bn
- Cost efficiency ratio in the mid-50s
- Basel 3 common equity tier 1 ratio above 10%
- Progressive dividends

Stuart Gulliver, Group Chief Executive, commented:

"We have transformed HSBC in the first phase of the execution of our strategy. We have announced the closure or disposal of 52 non-strategic or underperforming businesses, achieved US\$4bn of annualised sustainable cost savings and generated double-digit loan growth in 15 priority markets. HSBC is now simpler, easier to manage and ready to take advantage of growth opportunities.

"HSBC's network bridges more than 90% of global international trade and capital flows and connects customers to the world's biggest growth opportunities. Our 22 home and priority markets are expected to account for approximately 58% of addressable total banking revenue growth<sup>1</sup> globally to 2020. Over the next three years we will focus discretionary growth of risk-weighted assets in our priority faster growing markets and Commercial Banking.

"We will also implement global standards, invest in world-leading risk and compliance capabilities and de-risk our operations in higher risk locations.

"We will continue to exert tight cost discipline whilst streamlining processes and procedures. This enables us to invest in growth and global standards.

"As we execute our strategy we will keep under review the capital we hold and, if it appears to the Board to be in the interests of the Company and shareholders, we may seek to neutralise the effects of the scrip dividend.

"HSBC has a distinctive position in the new environment for the banking industry. Taken together, we are confident that these measures will deliver consistent and superior financial results and move us closer to achieving our ambition of being the world's leading international bank."

### Cautionary Statement Regarding Forward-Looking Statements

This News Release contains certain forward-looking statements with respect to HSBC's financial condition, results of operations and business. Forward-looking statements involve inherent risks and uncertainties. A number of factors could cause actual results to differ, in some instances materially, from those anticipated or implied in any forward-looking statement. These include, but are not limited to: changes in general economic conditions in the markets in which we operate, such as continuing or deepening recessions and fluctuations in employment beyond those factored into consensus forecasts; changes in foreign exchange rates and interest rates; volatility in equity markets; lack of liquidity in wholesale funding markets; illiquidity and downward price pressure in national real estate markets; adverse changes in central banks' policies with respect to the provision of liquidity support to financial markets; and factors specific to HSBC, including our success in adequately identifying the risks we face, such as the incidence of loan losses or delinquency, and managing those risks (through account management, hedging and other techniques). HSBC Holdings plc does not undertake to update the forward-looking statements to reflect the impact of circumstances or events that may arise after the date of the forward-looking statements.
