NTT DoCoMo, Inc.

Earnings Release for the First Quarter Ended June 30, 2004

Revenues and Operating Income on Pace with Annual Forecast

FOMA subscribers top 5 million*, flat-rate charging for FOMA i-mode service well received

* As of July 19, 2004

Consolidated financial results of NTT DoCoMo, Inc. and its subsidiaries (collectively we or DoCoMo) for the first quarter ended June 30, 2004 (April 1, 2004 to June 30, 2004), are summarized as follows.

<< Highlights of Financial Results >>

For the first quarter ended June 30, 2004, operating revenues were ¥1,221.1 billion (down 2.5% compared to the same period of the prior year), operating income was ¥276.6 billion (down 17.9% compared to the same period of the prior year), income before income taxes was ¥276.9 billion (down 17.8% compared to the same period of the prior year) and net income was ¥170.4 billion (down 13.4% compared to the same period of the prior year).

Earnings per share were ¥3,507.28 and EBITDA margin** was 36.5% (down 4.3 points compared to the same period of the prior year).

Notes:

1. Consolidated financial statements in this release are unaudited.
2. Amounts in this release are rounded off.

** EBITDA and EBITDA margin, as we use them, are different from EBITDA as defined in Item 10(e) of Regulation S-K and may not be comparable to similarly titled measures used by other companies. For an explanation of our definition of EBITDA, see the reconciliations to the most directly comparable financial measures calculated and presented in accordance with GAAP on page 16.

Table of Contents**<<Comment from Masao Nakamura, President and CEO >>**

In the first quarter of the fiscal year ending March 31, 2005, we increased the discount rates for our Family Discount service, reduced Packet Pack monthly charges for our third-generation FOMA service, and introduced flat-rate tariff packages for i-mode access via FOMA. As a result of these measures, and also because of the expansion of FOMA's coverage, especially in indoor and underground areas, as well as the release of our new FOMA 900i series handset models, the number of FOMA subscribers increased steadily after passing the 3 million mark in March 2004, to 4.58 million at the end of June 2004 and to over 5 million as of July 19, 2004.

Operating revenues and operating income for the first quarter dropped from the same period of last fiscal year to ¥1,221.1 billion and ¥276.6 billion, respectively, but we believe they are progressing favorably vis-à-vis our annual forecast for the full year.

In a bid to provide customers with services that are truly useful for their lives and businesses and to create new business models on top of the conventional model centered on revenues from metered communications charges, in July 2004, we launched i-mode FeliCa service, which enables cellular phones to function as a mobile wallet for electronic payment or as an electronic membership card using the FeliCa contactless IC chips embedded in the phone. To this end, we reviewed our organizational structure establishing a new Products and Services Division, a unit that oversees the production and management of all services offered by NTT DoCoMo, and reorganizing our Corporate Marketing Division with an aim to strengthen our marketing activities to corporate clients.

While the competition in the Japanese cellular communications market is expected to become more fierce going forward, we will strive to reinforce our brand by further improving our network quality and providing tariff packages, products, services and after sales support that better suit the needs of our customers, and thereby solidify our business foundation.

------------	----------------	----------------	----------------	----------------

Table of Contents**1. Business Overview**

- (1) Operating revenues totaled ¥1,221.1 billion (down 2.5% compared to the same period of the prior year).

Cellular (FOMA+mova) services revenues decreased to ¥1,042.2 billion (down 3.8% compared to the same period of the prior year). Despite a positive impact on revenues from subscriber growth driven by introduction of new products such as FOMA 900i and mova 506i series handsets, cellular (FOMA+mova) revenues decreased due to decline in ARPU reflecting a reduction in rates such as increased discount rates for our Family Discount and the introduction of a flat-rate FOMA i-mode service, called pake-hodai.

Voice revenues from FOMA services increased to ¥75.8 billion (up 778.9% compared to the same period of the prior year) and packet communications revenues from FOMA services increased to ¥41.7 billion (up 867.5% compared to the same period of the prior year) due to a significant increase in the number of FOMA services subscribers which included the migration of subscribers from mova services to FOMA services.

<Breakdown of operating revenues>	Billions of yen		
	(UNAUDITED)		Increase (Decrease)
	Three months ended	Three months ended	
	June 30, 2004	June 30, 2003	
Wireless services	¥ 1,079.8	¥ 1,116.8	(3.3%)
Including: Cellular (FOMA+mova) services revenues (i)	1,042.2	1,083.3	(3.8%)
- Voice revenues (ii)	770.4	828.9	(7.1%)
Including: FOMA services	75.8	8.6	778.9%
- Packet communications revenues	271.8	254.4	6.8%
Including: FOMA services	41.7	4.3	867.5%
Including: PHS services revenues	16.0	18.0	(11.2%)
Including: Quickcast services revenues	1.2	1.6	(23.0%)
Equipment sales	141.4	135.5	4.3%
Total operating revenues	¥ 1,221.1	¥ 1,252.3	(2.5%)

Notes:

- (i) In past reports, cellular services revenues were broken down into cellular (mova) services revenues, cellular (FOMA) services revenues and packet communications services revenues. For the three months ended June 30, 2004, cellular services revenues were aggregated and represented as cellular (FOMA+mova) services revenues.
- (ii) Voice revenues include data communications revenues through circuit switching system.

- (2) Operating expenses were ¥944.6 billion (up 3.2% compared to the same period of the prior year).

Edgar Filing: NTT DOCOMO INC - Form 6-K

Personnel expenses were ¥62.2 billion, which were approximately the same as the same period of the prior year.

Non-personnel expenses increased to ¥609.7 billion (up 6.3% compared to the same period of the prior year) due to an increase in revenue-linked variable expenses, which include cost of equipment sold, sales commissions paid to agent resellers and costs related to point loyalty programs, by 9.6% compared to the same period of the prior year, reflecting the migration of subscribers from mova services to FOMA services.

Depreciation and amortization expenses decreased to ¥165.2 billion (down 3.4% compared to the same period of the prior year). Although capital expenditures increased by 27.2% compared to the same period of the prior year, their effect was more than offset by a decrease in the net book value of our wireless telecommunications equipment such as switching equipment at the beginning of the fiscal period compared to the beginning of the same period of the prior year.

Table of Contents

<Breakdown of operating expenses>	Billions of yen		
	(UNAUDITED)		
	Three months ended	(UNAUDITED)	
	June 30, 2004	Three months ended June 30, 2003	Increase (Decrease)
Personnel expenses	¥ 62.2	¥ 62.4	(0.2%)
Non-personnel expenses	609.7	573.3	6.3%

Taxes and public dues	9.3	8.9	3.8%
Total operating expenses	¥ 944.6	¥ 915.3	3.2%

(3) Operating income decreased to ¥276.6 billion (down 17.9% compared to the same period of the prior year) and income before income taxes, which included the net of interest income and interest expense, decreased to ¥276.9 billion (down 17.8% compared to the same period of the prior year).

(4) Net income was ¥170.4 billion (down 13.4% compared to the same period of the prior year).

2. **Segment Information**

(1) Mobile phone business

Operating revenues were ¥1,195.0 billion and operating income was ¥283.8 billion.

Cellular (mova) services

- On and after May 2004, we released 3 models and 9 body color variations of mova 506i series handsets, which were the newest models of 50X series handsets that were equipped with various features. We also released P252iS, which is targeted for women. Despite continuous high demand for the newest mova series handsets, the number of cellular (mova) services subscribers as of June 30, 2004, decreased to 41.82 million due to continuous progress in the migration of subscribers from mova services to FOMA services.
- Voice ARPU, i-mode ARPU and aggregate ARPU of cellular (mova) services were ¥5,350, ¥1,800 and ¥7,150, respectively.

Cellular (FOMA) services

Edgar Filing: NTT DOCOMO INC - Form 6-K

- Due to the introduction of a flat-rate FOMA i-mode service, called pake-hodai, and sales promotion of FOMA 900i series handsets released sequentially from February 2004, the number of cellular (FOMA) services subscribers (mainly younger subscribers) and cellular (FOMA) services revenues increased. We also continuously expanded the indoor and outdoor coverage of our FOMA network including all subway stations in Tokyo. The number of the subscribers reached 4.58 million at June 30, 2004, steadily increased by 0.53 million, 0.43 million and 0.57 million in April, May and June 2004, respectively.
- Voice ARPU, packet ARPU and aggregate ARPU of cellular (FOMA) services were ¥6,580, ¥3,660 and ¥10,240, respectively.
- In addition, in both mova and FOMA services, we strengthened our competitiveness by reinforcing our point loyalty program and we also enriched billing-related services such as providing estimated costs for downloading and improving a service which notifies our subscribers via e-mail when their total communications charges reach certain subscriber-preset amounts. Furthermore, the number of subscribers for our Melody Call service, which enable the service subscribers to set their preferred music or voice contents as ring back tones, exceeded one million in June 2004.

Table of Contents

- Voice ARPU, packet ARPU and aggregate ARPU of cellular (FOMA+mova) services were ¥5,450, ¥1,950 and ¥7,400, respectively.

i-mode services

- To let our i-mode subscribers enjoy rich contents and applications of i-mode services more comfortably and without worrying about their charges, we lowered the additional monthly charges for FOMA Packet Pack in May 2004 and introduced a flat-rate FOMA i-mode service, called pake-hodai, in June 2004. The sales of FOMA 900i series handsets are favorable. As a result, the number of i-mode services subscribers increased to 41.72 million at June 30, 2004.
- Our global technical-partnership strategy has progressed steadily as COSMOTE Mobile Telecommunications S.A., a Greek carrier, launched i-mode services in June 2004 and we entered into a new i-mode license agreement with Telstra Corporation Limited, an Australian carrier. The total number of i-mode services subscribers outside Japan has continuously grown and surpassed the three million mark at the end of June 2004.

Note:

ARPU: Average monthly revenue per unit

Average monthly revenue per unit, or ARPU, is used to measure average monthly operating revenues attributable to designated services on a per user basis. ARPU is calculated by dividing various revenue items included in operating revenues from our Wireless services, such as monthly charges, voice transmission charges and packet transmission charges, from designated services which are incurred consistently each month, by number of active subscribers to the relevant services. We believe that our ARPU figures provide useful information regarding the average usage of our subscribers. The revenue items included in the numerators of our ARPU figures are based on our U.S. GAAP results of operations. This definition applies to all ARPU figures hereinafter.

See page 15 for the details of the calculation methods.

<Number of subscribers by services>	Thousand subscribers		Increase
	June 30, 2004	March 31, 2004	(Decrease)
Cellular (mova) services	41,824	42,882	(2.5%)
Cellular (FOMA) services	4,583	3,045	50.5%
i-mode services	41,723	41,077	1.6%

Notes:

Number of i-mode subscribers as of June 30, 2004 = Cellular (mova) i-mode subscribers (37,197 thousand) + Cellular (FOMA) i-mode subscribers (4,526 thousand)

Edgar Filing: NTT DOCOMO INC - Form 6-K

Number of i-mode subscribers as of March 31, 2004 = Cellular (mova) i-mode subscribers (38,080 thousand) + Cellular (FOMA) i-mode subscribers (2,997 thousand)

	Three months ended	Three months ended	Increase
	June 30, 2004	June 30, 2003	(Decrease)
Mobile phone business operating revenues	¥ 1,195.0	¥ 1,224.4	(2.4%)
Mobile phone business operating income	283.8	349.8	(18.9%)

Table of Contents

(2) PHS business

Operating revenues were ¥17.4 billion and operating loss was ¥7.2 billion.

We saw an ongoing net increase in the number of fixed-fee-service-for-data-communications subscribers. However, the aggregate number of PHS subscribers as of June 30, 2004, decreased to 1.54 million due to a decrease in the number of voice services subscribers. The decrease in operating loss compared with the same period of the prior year resulted from our efforts to lower the cost of sales promotion.

PHS ARPU was ¥3,330.

Note:

See page 15 for the details of the ARPU calculation methods.

<Number of subscribers>	Thousand subscribers		Increase
	June 30, 2004	March 31, 2004	(Decrease)
PHS services	1,537	1,592	(3.5%)

Quickcast business operating revenues	¥ 1.3	¥	1.6	(21.9%)
Quickcast business operating loss	(0.2)		(0.9)	

(4) Miscellaneous businesses

Operating revenues were ¥7.5 billion and operating income was ¥0.2 billion.

We launched an international roaming-in service to enable subscribers of overseas mobile operators who sign an international roaming agreement with DoCoMo to receive the same convenience as in their own country by using our FOMA network while they make and receive calls in Japan.

<Operating results>	Billions of yen			Increase (Decrease)
	(UNAUDITED)

	June 30, 2004	Three months ended	June 30, 2003	
Miscellaneous businesses operating revenues	¥ 7.5	¥	6.4	15.9%
Miscellaneous businesses operating income	0.2		0.6	(62.3%)

Table of Contents**3. Capital Expenditures**

Total capital expenditures* were ¥187.6 billion.

We expanded both the indoor and outdoor coverage areas of our FOMA services (approximately 99.7% nationwide population coverage as of June 30, 2004), reinforced FOMA networks to meet expanding demand and promoted the construction of IP core networks with IP router architecture. In addition, we made our capital expenditures more efficient and less costly by reducing the acquisition costs of equipment and improving the design and construction process.

<Breakdown of capital expenditures>	Billions of yen		
	(UNAUDITED)		
	Three months ended	(UNAUDITED)	
	June 30, 2004	Three months ended June 30, 2003	Increase (Decrease)

PHS business	0.8	1.1	(27.7%)
Quickcast business	0.0	0.0	
Other (including information systems)	45.2	30.1	50.1%
Total capital expenditures	¥ 187.6	¥ 147.5	27.2%

* See the reconciliations to the most directly comparable financial measures calculated and presented in accordance with GAAP on page 16.

4. Cash Flow Conditions

Net cash provided by operating activities was ¥117.7 billion (down 56.4% compared to the same period of the prior year). Although we had a smaller increase in inventories and a smaller decrease in accounts payable, net cash provided by operating activities decreased primarily because the payment of income taxes increased.

Net cash used in investing activities was ¥203.2 billion (up 5.0% compared to the same period of the prior year). The collection of a shareholders loan to Hutchison H3G UK Holdings Limited, which DoCoMo advanced in the prior fiscal year, had a positive impact on net cash in investing activities. However, payment for purchase of property, plant and equipment accompanying an increase in capital expenditures increased cash used in investing activities.

Net cash used in financing activities was ¥180.5 billion (up 206.0% compared to the same period of the prior year). We reduced external financing and increased stock buybacks and dividend payments. We spent a total of ¥8.4 billion to repurchase our shares during the three months ended June 30, 2004.

Free cash flows were negative ¥85.5 billion.

Edgar Filing: NTT DOCOMO INC - Form 6-K

Equity ratio and debt ratio improved compared to the same period of the prior year due to an increase in shareholders' equity and a decrease in interest bearing liabilities.

Table of Contents

<Statements of cash flows>	Billions of yen		
	(UNAUDITED)		Increase (Decrease)
	Three months ended	Three months ended	
	June 30, 2004	June 30, 2003	
Net cash provided by operating activities	¥ 117.7	¥ 270.3	(56.4%)
Net cash used in investing activities	(203.2)	(193.6)	
Net cash used in financing activities	(180.5)	(59.0)	
Free cash flows	(85.5)	76.7	

<Financial measures>	Three months ended	Three months ended	Increase (Decrease)
	June 30, 2004	June 30, 2003	
Equity ratio	64.2%	59.4%	4.8 points
Debt ratio	20.2%	26.5%	(6.3 points)

Notes:

Free cash flows = Cash flows from operating activities + Cash flows from investing activities

In past reports, we excluded net payments for short-term loans and deposits from Cash flows from investing activities in determining our free cash flows. In the table above, approximately ¥0.1 billion has been subtracted from the amount of Free cash flows previously reported for the three months ended June 30, 2003 to reflect the inclusion of payments for short-term loans and deposits.

Equity ratio = Shareholders' equity / Total assets

Debt ratio = Interest bearing liabilities / (Shareholders' equity + Interest bearing liabilities)

FOMA , i-mode , mova , pake-hodai , Quickcast and Melody Call are trademarks or registered trademarks of NTT DoCoMo, Inc. Other product or company names shown in this Earnings Release are trademarks or registered trademarks.

Notes to Unaudited Consolidated Financial Statements

The accompanying unaudited consolidated financial information of NTT DoCoMo, Inc. and its subsidiaries (collectively DoCoMo) has been prepared in accordance with accounting principles generally accepted in the United States of America.

The following is explanation regarding the adoption of a new accounting standard in the three months ended June 30, 2004.

Adoption of a new accounting standard

Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity

Effective April 1, 2004, DoCoMo adopted Statement of Financial Accounting Standards (SFAS) No.150, Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity. SFAS No.150 changes the accounting for certain financial instruments with characteristics of both liabilities and equity that, under previous guidance, could be classified as equity, by now requiring those instruments to be classified as liabilities (or assets in some circumstances) in the statement of financial position. Further, SFAS No.150 requires disclosure regarding the terms of those instruments and settlement alternatives. The adoption of SFAS No.150 did not have any impact on DoCoMo s results of operations and financial position.

* Please refer to the attached sheet (P.15 APPENDIX 2) for an explanation of the methods used to calculate ARPU, and the number of active subscribers used in calculating ARPU, MOU and Churn Rate.

- (1) Calculation does not include FOMA
- (2) Source: Telecommunications Carriers Association
- (3) Inclusive of circuit switched data communications
- (4) MOU (Minutes of Usage) : Average communication time per one month per one user
- (5) Inclusive of FOMA handsets
- (6) Not inclusive of data communication time via @FreeD service
- (7) Percent of data traffic in total outbound call time
- (8) Included in total cellular subscribers
- (9) Not included in total cellular subscribers

Table of Contents

(APPENDIX 2)

ARPU Calculation Methods

1. ARPU (Average monthly revenue per unit)*

- i) Aggregate ARPU (FOMA+mova)=Voice ARPU (FOMA+mova) + Packet ARPU (FOMA+mova)

Voice ARPU (FOMA+mova) : Voice ARPU (FOMA+mova) Related Revenues (monthly charges, voice transmission charges) / No. of active cellular phone subscribers (FOMA+mova)

Packet ARPU (FOMA+mova) : {Packet ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges)+ i-mode ARPU (mova) Related Revenues (monthly charges, packet transmission charges)}/ No. of active cellular phone subscribers (FOMA+mova)

i-mode ARPU (FOMA+mova)^{*1} : i-mode ARPU (FOMA+mova) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA+mova)

ARPU generated purely from i-mode (FOMA+mova)^{*2} : i-mode ARPU (FOMA+mova) Related Revenues (monthly charges, packet transmission charges) / No. of active i-mode subscribers (FOMA+mova)

- ii) Aggregate ARPU (FOMA)=Voice ARPU (FOMA) + Packet ARPU (FOMA)

Voice ARPU (FOMA) : Voice ARPU (FOMA) Related Revenues (monthly charges, voice transmission charges) / No. of active cellular phone subscribers (FOMA)

Packet ARPU (FOMA) : Packet ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA)

i-mode ARPU^{*1} (FOMA) : i-mode ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA)

ARPU generated purely from i-mode (FOMA)^{*2} : i-mode ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) / No. of active i-mode subscribers (FOMA)

iii) Aggregate ARPU (mova)=Voice ARPU (mova) + i-mode ARPU (mova)

Voice ARPU (mova) : Voice ARPU (mova) Related Revenues (monthly charges, voice transmission charges) / No. of active cellular phone subscribers (mova)

i-mode ARPU (mova)^{*1} : i-mode ARPU (mova) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (mova)

ARPU generated purely from i-mode (mova)^{*2} : i-mode ARPU (mova) Related Revenues (monthly charges, packet transmission charges) / No. of active i-mode subscribers (mova)

iv) ARPU (PHS) : ARPU (PHS) Related Revenues (monthly charges, voice transmission charges) / No. of active PHS subscribers

2. Active Subscribers Calculation Methods

No. of active subscribers used in ARPU/MOU/Churn Rate calculations are as follows:

1Q Results : Sum of No. of subscribers** for each month from April to June

FY Results : Sum of No. of subscribers** for each month from April to March

** subscribers = (No. of subscribers at the end of previous month + No. of subscriber at the end of current month) / 2

Calculation methods for No. of active subscribers used in ARPU^{*3}, MOU^{*4} and Churn Rate^{*5} were changed to make the subscriber figures more precise. In accordance with this change, 1Q results of 2003 (described in Appendix 1) are retroactively restated based on the new calculation method above.

[Previous calculation method]

1Q Results : {(No. of subscribers at the end of March + No. of subscribers at the end of June) / 2} x 3 months

*1

Edgar Filing: NTT DOCOMO INC - Form 6-K

The numerator for i-mode ARPU (FOMA+mova, FOMA, mova) is the number of all subscribers who have active cellular phones, regardless of whether the i-mode service is activated.

- *2 The numerator for ARPU generated purely from i-mode (FOMA+mova, FOMA, mova) is the number of active i-mode subscribers only.
- *3 ARPU figures restated : Aggregate ARPU (mova), Voice ARPU (mova), i-mode ARPU (mova), ARPU generated purely from i-mode (mova) and ARPU (PHS)
- *4 MOU figures restated : MOU (mova), MOU (PHS)
- *5 Churn Rate restated : Churn Rate (Cellular), Churn Rate (PHS)

Special Note Regarding Forward-Looking Statements

This Earnings Release contains forward-looking statements such as forecasts of results of operations, policies, management strategies, objectives, plans, recognition and evaluation of facts, expected number of subscribers and financial results. All forward-looking statements that are not historical facts are based on management's current expectations, assumptions, estimates, projections, plans, recognition and evaluations based on the information currently available. The projected numbers in this report were derived using certain assumptions that are indispensable for making projections in addition to historical facts that have been acknowledged accurately. These forward-looking statements are subject to various risks and uncertainties. Known and unknown risks, uncertainties and other factors could cause the actual results to differ materially from those contained in or suggested by any forward-looking statement. DoCoMo cannot promise that its assumptions, expectations, projections, anticipated estimates or other information expressed in these forward-looking statements will turn out to be correct. Potential risks and uncertainties include, without limitation:

Our 3G services, including our new value-added services may not develop as we expect.

The introduction or change of various laws or regulatory regimes that affect us or our competitive environment could have an adverse effect on our financial condition and results of operations.

The introduction of a number portability system for mobile phones in Japan may, in addition to burdening us with the expenses associated with introducing the system, lead to a decrease in our number of subscribers due to transition to other mobile operators from us, which may adversely affect our financial condition and results of operations.

Increasing competition from other cellular services providers or other technologies, or rapid changes in market trends, could have an adverse effect on our financial condition and results of operations.

Our acquisition of new subscribers, retention of existing subscribers and revenue per unit may not be as high as we expect.

We may not be able to maintain our ability to avoid reduced quality of services to maintain customer satisfaction because we have only a limited amount of spectrum and facilities.

Overseas operators may not introduce the W-CDMA technology and mobile multimedia services that we currently use in our 3G system, which would adversely affect our ability to offer international services to our subscribers.

Our international investments, alliances and collaborations may not produce the returns or provide the opportunities we expect.

The performance of our PHS business may not improve and the business may continue to operate at a loss in the future.

We may not be able to successfully address social issues arising from inappropriate use of our products and services by our subscribers, which may adversely affect our credibility or corporate image.

Our parent, NTT, could exercise influence that may not be in the interests of our other shareholders.

Edgar Filing: NTT DOCOMO INC - Form 6-K

Concerns about wireless telecommunications health risks and our inability to properly respond to such concerns may adversely affect our financial condition and results of operations.

System failures caused by earthquakes, power shortages, malfunction of software and devices, and our inability to properly respond to such failures may adversely affect our financial condition and results of operations.

Our inability to properly respond to viruses and cyber attacks which adversely affect communications through our network system or wireless phones may adversely affect our financial condition and results of operations.

Volatility and changes in the economic conditions and securities market in Japan and other countries may have an adverse effect on our financial condition and results of operations.

Forward-Looking Statements

The forecasts presented herein are forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Act of 1934. Statements made in this presentation with respect to DoCoMo's plans, objectives, projected financials, operational figures, beliefs and other statements that are not historical facts are forward-looking statements about the future performance of DoCoMo which are based on management's expectations, assumptions, estimates, projections and beliefs in light of information currently available to it. These forward-looking statements, such as statements regarding the introduction of new products and services or termination or suspension of existing services, financial and operational forecasts, dividend payments, the growth of the Japanese cellular market and the ubiquitous services market, the growth of data usage, the growth of DoCoMo's cellular phone business, the migration of users to DoCoMo's 3G services and associated improvements in 3G services, improvements in 3G and 2G coverage area, and management goals are subject to various risks and uncertainties that could cause actual results to be materially different from and worse than as described in the forward-looking statements. Potential risks and uncertainties include, without limitation, our 3G services, including our new value-added services may not develop as planned; the introduction or change of various laws or regulations that affect us or our competitive environment could have an adverse effect on our financial condition and results of operations; the introduction of number portability in Japan may increase our expenses and may lead to a decrease in our number of subscribers if our subscribers choose to switch to other cellular service providers; increasing competition from other cellular services providers or other technologies, or rapid changes in market trends, could have an adverse effect on our financial condition and results of operations; our acquisition of new subscribers, retention of existing subscribers and revenue per unit may not be as high as we expect; subscribers may experience reduced quality of services because we have only a limited amount of spectrum and facilities available for our services; the W-CDMA technology that we use for our 3G system may not be introduced by other operators, which could limit our ability to offer international services to our subscribers; our international investments, alliances and collaborations may not produce the returns or provide the opportunities we expect; the performance of our PHS business may not improve as we expect and the business may continue to operate at a loss in the future; social problems, such as unsolicited bulk e-mail, which are caused by misuse or misunderstanding of our products and services may increase our expenses or adversely affect our credibility and corporate image; our parent, NTT, could exercise influence that may not be in the interests of our other shareholders; concerns about wireless telecommunications health risks may adversely affect our financial condition and results of operations; system failures due to earthquakes, power outages or malfunctioning software or equipment may adversely affect our financial condition and results of operations; Computer viruses, cyber attacks or other sabotage may harm our network systems and other communication systems using cellular phones; and volatility and changes in the economic conditions and securities market in Japan and other countries may have an adverse effect on our financial condition and results of operations. Further information about the factors that could affect the company's results is included in Item 3.D: Risk Factors of its annual report on Form 20-F filed with the U.S. Securities and Exchange Commission on June 28, 2004, which is available in the investor relations section of the company's web page at www.nttdocomo.com and also at the SEC's web site at www.sec.gov.

Table of Contents

Financial Results Highlights

Senior Executive Vice President

Masayuki Hirata

Table of Contents

FY2004 First Quarter Results Highlights

n FY2004 First Quarter Results Highlights

Operating revenues and operating income dropped as compared to the same period of last fiscal year to 1,221.1 billion and 276.6 billion yen, respectively, but both are progressing favorably vis-à-vis our full-year earnings forecast.

n FY2004 First Quarter Activities

Offered steeper discounts in Family Discount package, revised Packet Pack charges, and introduced pake-hodai flat-rate service for FOMA, to reinforce our competitiveness and propel future growth.

Continued to expand FOMA's coverage area and enriched handset line-up. Consequently, FOMA's subscriber base topped 5 million on July 19.

Launched i-mode FeliCa service in July, with an aim to provide cellular services useful for people's lives and businesses.

n Future Plans

Strive to enhance network quality and offer better tariff plans, services, handsets and after sales support from the viewpoint of customers, with a goal to further reinforce DoCoMo's brand and competitiveness.

Table of Contents

FY2004 1Q Financial Results Highlights (US GAAP)

n Consolidated financial statements in this release are unaudited.

*1: For an explanation of these numbers, see the reconciliations to the most directly comparable financial measures calculated and presented in accordance with GAAP on Slide 26 and the IR page of our website, www.nttdocomo.co.jp.

*2: In past reports, we excluded net payments for short-term loans and deposits from Cash flows from investing activities in determining our free cash flows. In the table above, approximately 0.1 billion yen has been subtracted to the amount of Free cash flows previously reported for the three months ended June 30, 2003 to reflect the inclusion of payments for short-term loans and deposits.

Table of Contents

Historical Growth of Japan's Cellular Phone Market

While the number of net additional subscribers in the overall market decreased 23.3% year-on-year in the 1Q of FY2004, no. of DoCoMo's net additions dropped only by 3.8%.

Percentage of i-mode subscribers to our total cellular subscribers reached approx. 90% as of Jun. 30, 2004.

Table of Contents

FOMA Subscriber Growth

FOMA's subscriber base grew to over 5 million in July 2004, due to brisk sales of 900i series handsets, etc.

Acquired largest number of net additional 3G subscribers among all carriers all in FY2004 first quarter.

No. of FOMA subscribers is projected to reach 10.6 million by Mar. 31, 2005.

Table of Contents

Growth of Net Additional 3G Subscribers

7

Table of Contents

Rate Changes Implemented in FY2004 First Quarter

n Launched pake-hodai Flat Rate Service (Jun. 1, 2004)

Uptake has grown steadily, gathering many subscription applications applications prior to launch of service.
(No. of subscribers as of Jun. 30, 2004: Approx. 590,000)

pake-hodai has been well accepted especially among younger subscribers, with teenagers and those in their twenties accounting for approx. 60% of total

No. of pake-houdai subscribers is expected to exceed 1 million on Aug. 1, 2004.

n Revised Packet Pack Charges (Effective May 1, 2004)

Percentage of users subscribing to Packet Pack or pake-hodai as of Jun. 30, 2004, increased 3.5 points from Mar. 31, 2004.

n Revised Family Discount Rates (Effective Apr. 1, 2004)

Percentage of users subscribing to Family Discount service approx. 58% as of Jun. 30, 2004.

(Up 2.4 points from Mar. 31, 2004, or up 4.2 points from the time of press announcement in late Jan. 2004).

Table of Contents

Effect of Measures Implemented in FY2004 First Quarter

Churn rate has improved as a result of successfully retaining existing subscribers.

DoCoMo recovered No. 1 position in share of net additions in June at 43.3%.

Return to Shareholders

Shareholders Return Ratio* in FY2003: 72%

*Shareholders Return Ratio=(Dividend payment + Repurchase of own Shares)/Net income

Balanced between dividend payment and repurchase of own shares

n Dividend Policies

Annual dividend including commemorative dividend (500 yen/share) for FY2003 was 1,500 yen/share (Total dividend payment: Approx. 73.3 billion yen). Annual dividend for FY2004 is planned to increase two-fold from the previous fiscal year (excluding commemorative dividend) to 2,000 yen/share.

n Repurchase of Own Shares

In the fiscal year ended Mar. 31, 2004, the Company repurchased shares worth 394.9 billion yen out of the possible 600 billion yen authorized at the 12th ordinary meeting of shareholders. In addition, the Company bought back shares worth 8.4 billion yen in May 2004. As a result, the total amount spent for share repurchase reached 403.4 billion yen.

At the 13th ordinary meeting of shareholders, it was resolved to authorize the Company to repurchase shares worth up to 600 billion yen for FY2004.

FY2004 First Quarter Results

Detailed Analysis

Executive Vice President and CFO

Yoshiaki Ugaki

Table of Contents

Operating Revenues (US GAAP)

- n Due to the decline in cellular service revenues resulting from the implementation of various discount packages, operating revenues for the first quarter of FY2004 dropped 31.2 billion yen, or 2.5% year-on-year, to 1,221.1 billion yen, which equaled to approximately 24.8% of our full-year budget.

Table of Contents

FOMA ARPU • MOU

In the first quarter of FY2004, both FOMA ARPU and MOU increased significantly to 10,240 yen (up 630 yen year-on-year) and 230 minutes (up 59 minutes year-on-year), respectively.

Quarterly Data

Full-Year Data

- n MOU (Minutes of usage) : Average communication time per one month per one user.

- n Average monthly revenue per unit, or ARPU, is used to measure average monthly revenues attributable to designated services on a per user basis. ARPU is calculated by dividing various revenue items included in operating revenues, such as monthly charges, voice transmission charges and packet transmission charges from designated services, by the number of active subscribers to the relevant services. Accordingly, the calculation of ARPU excludes revenues that are not representative of monthly average usage such as activation fees. We believe that our ARPU figures calculated in the above way provide useful information regarding the monthly average usage of our subscribers. The revenue items included in the numerators of our ARPU figures are based on our US GAAP results of operations. This definition applies to all ARPU figures hereinafter.

- n Aggregate ARPU (FOMA)=Voice ARPU (FOMA) + Packet ARPU (FOMA)
 - n Voice ARPU (FOMA): Voice ARPU (FOMA) Related Revenues (monthly charges and voice transmission charges)/No. of active cellular phone subscribers (FOMA)

 - n Packet ARPU(FOMA): Packet ARPU (FOMA) Related Revenues (monthly charges and packet transmission charges)/ No. of active cellular phone subscribers (FOMA)

 - n i-mode ARPU (FOMA): i-mode ARPU (FOMA) Related Revenues (monthly charges and packet transmission charges)/No. of active cellular phone subscribers (FOMA)

- ◆ No. of active subscribers used in calculating ARPU (FOMA) and MOU (FOMA) are as below:
 - n FOMA quarterly data: sum of No. of active subs. in each month of the current quarter

 - n FOMA full-year data: sum of No. of active subs. in each month of current fiscal year.

 - * No. of active subs. in each month : (No. of subs. at end of previous month + no. of subs. at end of current month)/2

Table of Contents

Cellular Phone(FOMA+mova)ARPU/MOU

Aggregate ARPU for first quarter of FY2004 dropped 660 yen from the same quarter of last fiscal year to 7,400 yen due mainly to decline in voice ARPU. MOU decreased 10 minutes year-on-year to 152 minutes.

Quarterly Data

Full-Year Data

- n MOU (Minutes of usage) : Average communication time per one month per one user.
- n For an explanation of Average Revenue Per Unit (ARPU), see footnote on page 17 of this presentation.
- n Aggregate ARPU(FOMA+mova)=Voice ARPU (FOMA+mova)+Packet ARPU (FOMA+mova)
 - n Voice ARPU (FOMA+mova): Voice ARPU (FOMA+mova) Related Revenues (monthly charges and voice transmission charges) /No. of active cellular phone subscribers (FOMA+mova)
 - n Packet ARPU (FOMA+mova): Packet ARPU (FOMA+mova) Related Revenues (monthly charges and packet transmission charges) / No. of active cellular phone subscribers (FOMA+mova)
 - n i-mode ARPU (FOMA+mova): i-mode ARPU (FOMA+mova) Related Revenues (monthly charges and packet transmission charges) / No. of active cellular phone subscribers (FOMA+mova)
- ◆ No. of active subscribers used in calculating ARPU (FOMA+mova) and MOU (FOMA+mova) are as below:
 - n Quarterly data: sum of No. of active subs. in each month of the current quarter
 - n Full-year data: sum of No. of active subs. in each month of current fiscal year.
 - * No. of active subs. in each month : (No. of subs. at end of previous month + no. of subs. at end of current month)/2

Table of Contents

Operating Expenses (US GAAP)

- n Operating expenses for the first quarter of FY2004 grew by 29.3 billion yen, or 3.2% year-on-year, to 944.6 billion yen due primarily to the increase of revenue-linked expenses targeted at further expanding the uptake of FOMA. The amount equaled approx. 23.1% of our full-year operating expenses budget.

Table of Contents

Capital Expenditures*

n Capital expenditures in the first quarter of FY2004

equaled 23.6% of the annual budget.

grew by 40.1 billion yen, or 27.2% from the same quarter of last fiscal year, due primarily to the expansion of FOMA coverage area.

Table of Contents

Operational Results and Forecasts

* Number of handsets sold above include handsets activated without involving sales by DoCoMo.

n MOU (Minutes of usage): Average communication time per one month per one user.

n For an explanation of Average Revenue Per Unit (ARPU), see footnote on page 17 of the presentation.

◆ No. of active subscribers used in calculating cellular phone/PHS churn rates, aggregate ARPU (PHS) and MOU (PHS) are as below:

n FY2003 First Quarter and FY2004 First Quarter Data: Sum of No. of active subscribers in each month $\{ (\text{No. of active subs. at end of previous month} + \text{No. of active subs at end of current month}) \div 2 \}$ from April to June

n 2004/3 and 2005/3(E) Data: Sum of No. of active subs in each month $\{ (\text{No. of active subs at end of previous month} + \text{No. of active subs at end of current month}) \div 2 \}$ from April to March.

◆ Calculation methods for No. of active subscribers used in ARPU (PHS), MOU (PHS) and Churn Rate were changed to made the subscriber figures more precise. In accordance with this change, 1Q results of 2003 are retroactively restated based on the new calculation method above.

Environmental Conservation/Social Contribution Activities

DoCoMo operates its business with an emphasis on environmental conservation, believing it is one of the most important management challenges facing the entire corporate group.

Acquisition of ISO14001 environmental management/inspection certification

Green equipment procurement/purchase taking environmental impact into account

Collection & recycling of used cellular handsets and accessories

Saving on paper resources through provision of e-billing service

Active participation in activities aimed at reducing greenhouse gas emissions

As part of our social contribution activities, DoCoMo offers products & services developed based on the universal design concept, with an aim to help build warmer ties between people.

Opened DoCoMo Hearty Plaza, a DoCoMo shop based on universal design concept

Introduced Hearty Discount service

Release of handsets supporting universal design: Raku Raku Phone, etc.

DoCoMo has also implemented countermeasures for disasters, e.g., i-mode Disaster Message Board service, to enable users to post messages on their safety and circumstances in the event of an earthquake and other large-scale disaster.
