#### PRODUCT DEVELOPMENT AND MARKETING

Many of the company's consumer products are developed in the company's laboratories. The company has established global structures for operations and research and development, which are designed to enable the company to implement cost-savings initiatives more quickly on a broad scale and to shorten the time that it takes to develop an idea into a market-ready product. Research and development costs amounted to \$11.7 million, \$10.9 million and \$9.8 million in fiscal years 2004, 2003 and 2002, respectively.

New products introduced by the company are assigned product managers, who guide the products from development to the consumer. The product managers are responsible for the overall marketing plans for the products and coordinate advertising and marketing activities.

The company allocates a large portion of its revenues to the advertising and marketing of consumer beauty products. Net earnings are materially affected by these expenditures, which are charged against income in the period incurred. Advertising and marketing expenditures were \$254.1 million in 2004, \$212.4 million in 2003 and \$189.1 million in 2002.

The company regards television as the best medium for advertising and uses it to conduct extensive network, spot and cable television advertising campaigns. The company also advertises through other media such as newspapers, magazines and radio, as well as through *Sally Beauty Supply* and *Beauty Systems Group* direct mailings to customers.

Extensive advertising and marketing are required to build and protect a branded consumer product's market position. The company believes there is significant consumer awareness of its major brands and that such awareness is an important factor in the company's operating results.

#### COMPETITION

The domestic and international markets for the company's branded consumer products are highly competitive and sensitive to changes in consumer preferences and demands. The company's competitors range in size from large, highly diversified companies (some of which have substantially greater financial resources than the company) to small, specialized producers. The company competes primarily on the basis of innovation, product quality and price and believes that brand loyalty and consumer acceptance are also important factors to the company's success.

*Sally Beauty Supply* and *Beauty Systems Group* experience domestic and international competition from a wide range of retail outlets, including mass merchandisers, drug stores and supermarkets, carrying a full line of beauty and health care products. In addition, *Sally Beauty Supply* and *Beauty Systems Group* compete with local and regional cash-and-carry beauty supply stores and full-service dealers selling directly to salons through both professional distributor sales consultants and outlets open only to salon professionals. *Sally Beauty Supply* and *Beauty Systems Group* also face competition from certain manufacturers which use their own sales forces to distribute their professional beauty products directly to salons.

## DISTRIBUTION

The company's sales force and independent brokers sell its retail beauty and health care products and food and household products by calling upon retail outlets such as mass merchandisers, supermarkets, drug stores, dollar stores, wholesalers and variety stores.

The company's sales representatives and brokers sell its professional hair care products primarily for the ethnic market in the United States to beauty supply outlets and to beauty distributors, who in turn sell to beauty salons, barber shops and beauty schools.

The company's consumer products are sold internationally in more than 120 countries, primarily through direct sales by its subsidiaries, independent distributors and licensees. The company's foreign operations are subject to risks inherent in transactions involving foreign currencies and political uncertainties.

*Sally Beauty Supply* and *Beauty Systems Group* sell professional beauty supplies through its 3,047 stores, including 145 franchises, located in 48 states, Puerto Rico, the United Kingdom, Canada, Japan, Germany and Mexico. *Sally Beauty Supply* stores sell merchandise on cash-and-carry terms and are primarily located in strip shopping centers. *Sally Beauty Supply* operates the largest domestic chain of cash-and-carry beauty supply stores and, as such, is a major customer of some of the company's competitors in the personal care products industry. In addition, *Beauty Systems Group* sells products in exclusive distribution territories throughout the United States and portions of Canada and Mexico to the professional market through its stores and about 1,200 professional distributor sales consultants. *Sally Beauty Supply* sells Alberto-Culver's professional and ethnic hair care products, but these products represent only a small portion of *Sally Beauty Supply's* selection of salon brands.

## EMPLOYEES

In its domestic and foreign operations, the company had approximately 18,300 full-time equivalent employees as of September 30, 2004 consisting of about 11,400 hourly personnel and 6,900 salaried employees. At September 30, 2003, the company had approximately 17,000 full-time equivalent employees.

Certain subsidiaries of the company have union contracts covering production, warehouse, shipping and maintenance personnel. The company considers relations with its employees to be satisfactory.
