PROXY STATEMENT

INTRODUCTION

Our 2005 annual meeting of stockholders will be held on Tuesday, April 19, 2005 at 10:30 a.m., Chicago time, at the office of Northern Trust Corporation (the "Corporation") located on the northwest corner of LaSalle and Monroe Street in Chicago, Illinois. We invite you to attend the annual meeting and vote your shares directly.

You do not need to attend the annual meeting to vote your shares. Instead, you may vote your shares by telephone or through the Internet or you may complete, sign, date and return the enclosed proxy card in the postage-paid envelope provided. Instructions for voting by telephone or through the Internet can be found on the enclosed proxy card.

The Corporation's board of directors is soliciting your proxy to encourage your participation in the voting at the annual meeting and to obtain your support on each proposal to be presented. This proxy statement provides you with information about each proposal and other matters that you may find useful in voting your shares. On March 14, 2005, we began mailing this proxy statement and the enclosed proxy card to all stockholders entitled to vote at the annual meeting. Detailed information relating to the Corporation's activities and financial performance is contained in our 2004 annual report to stockholders, which is also enclosed.

VOTING

Who May Vote

Record holders of the Corporation's common stock at the close of business on February 28, 2005 may vote at the annual meeting. On that date, the Corporation had 218,699,056 shares outstanding. The shares of common stock held in the Corporation's treasury will not be voted.

You are entitled to one vote for each share of common stock that you owned of record at the close of business on February 28, 2005. The enclosed proxy card indicates the number of shares you are entitled to vote at the annual meeting. You may vote cumulatively in the election of directors, a process described below under "Election of Directors."

Voting Your Proxy

Whether or not you plan to attend the annual meeting, we urge you to vote your proxy promptly.

If you are a stockholder of record (that is, if you hold shares of the Corporation's common stock in your own name), you may vote your shares by proxy using any of the following methods:

- telephoning the toll-free number listed on the proxy card;
- using the Internet site listed on the proxy card; or
- completing, signing, dating and returning the proxy card in the postage-paid envelope provided.

The telephone and Internet voting procedures set forth on the proxy card are designed to authenticate stockholders' identities, to allow stockholders to provide their voting instructions, and to confirm that their instructions have been properly recorded. If you vote by telephone or through the Internet, you should not return your proxy card.

If your shares of common stock are held by a broker, bank or other nominee in street name, you will receive voting instructions (including instructions, if any, on how to vote by telephone or through the Internet) from the record holder that you must follow in order to have your shares voted at the annual meeting.

If you own shares of common stock as a participant in the amended and restated Northern Trust Company Thrift-Incentive Plan (TIP), including shares in the Northern Trust Stock Fund or the Former ESOP Fund of the TIP, or shares in any other employee benefit plan of the Corporation, you will receive a voting instruction card that covers the shares credited to each of your plan accounts.

Whether you vote by mail, telephone or Internet, your common stock will be voted in accordance with your instructions. If you sign, date and return your proxy card without indicating how you want to vote your shares, the proxy holders will vote your shares as recommended by the board of directors **FOR** the election of each nominee for director and **FOR** the ratification of the appointment of KPMG LLP as the Corporation's independent registered public accountants for the year 2005. The proxy holders are authorized to vote as they shall determine in their sole discretion on any other matters as may properly come before the meeting.

Revoking Your Proxy

You may revoke your proxy at any time *before* it is voted at the annual meeting. To revoke your proxy, you may send a written notice of revocation to the Corporation's Corporate Secretary at the address indicated on the first page of this proxy statement, submit another signed proxy with a later date, vote by telephone or through the Internet at a later date, or vote in person at the annual meeting.

Voting in Person

You may come to the annual meeting and vote your shares in person by obtaining and submitting a ballot that will be provided at the meeting. However, if your shares are held by a broker, bank or other nominee in street name, to be able to vote at the meeting you must obtain a proxy, executed in your favor, from the institution that holds your shares, indicating that you were the beneficial owner of the shares on February 28, 2005, the record date for voting.

Householding Information

We are delivering only one annual report and proxy statement to record stockholders who share the same address unless they have notified us that they wish to continue receiving multiple copies. This practice, known as householding, reduces duplicate mailings, saves printing and postage costs as well as natural resources and will not affect dividend check mailings. If you wish to receive a separate copy of the annual report or proxy statement, or if you wish to receive separate copies of future annual reports or proxy statements, please call 312-444-7030 or mail a request to the Corporation's Corporate Secretary at the address indicated on the first page of this proxy statement. We will deliver the requested documents promptly upon your request.

If you and other record stockholders with whom you share an address currently receive multiple copies of annual reports or proxy statements, or if you hold stock in the Corporation in more than one account and, in either case, you wish to receive only a single copy of the annual report or proxy statement, please contact the Corporation's transfer agent (Wells Fargo Bank, N.A., Attn: Householding, P.O. Box 64854, St. Paul, MN 55164-0854; Telephone: 877-602-7615) with the names in which all accounts are registered and the name of the account for which you wish to receive mailings.

Quorum and Vote Required for Approval

A quorum of stockholders is necessary to hold a valid meeting. A quorum will exist if a majority of the outstanding shares is present in person or by proxy at the annual meeting. Abstentions and broker non-votes, if any, will be counted as present for purposes of establishing a quorum. A broker non-vote will occur when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that proposal and has not received instructions from the beneficial owner. Inspectors of election appointed for the annual meeting will tabulate all votes cast in person or by proxy at the annual meeting. In the event a quorum is not present at the annual meeting, we expect that the annual meeting will be adjourned or postponed to solicit additional proxies.

The directors will be elected at the annual meeting by a plurality of all the votes cast (*i.e.*, the 12 nominees for director who receive the most votes will be elected). Votes to withhold authority for a nominee or nominees will have no effect on the election of directors, and it is not anticipated that there will be any broker non-votes on this proposal since brokers will have discretion to vote in the election of directors. The vote required for ratification of the appointment of KPMG LLP as the Corporation's independent registered public accountants for the year 2005 is the affirmative vote of a majority of the shares of common stock present in person or by proxy and entitled to vote at the annual meeting. An abstention with respect to the ratification of the appointment of KPMG LLP will have the effect of a vote against the ratification proposal, and broker non-votes will have no effect on the ratification proposal.

Solicitation of Proxies

The Corporation will pay all costs of soliciting proxies. The Corporation has retained Georgeson Shareholder Communications Inc. to assist with the solicitation of proxies for a fee not to exceed \$12,500, plus reimbursement of reasonable out-of-pocket expenses. In addition, we may also use our officers and employees to solicit proxies either personally or by telephone, Internet, letter or facsimile.

ADMITTANCE TO THE ANNUAL MEETING

Stockholders as of the record date, or their duly appointed proxies, may attend our annual meeting on April 19, 2005, and each may be accompanied by one guest. Registration will begin at 9:30 a.m., and seating will begin at 10:00 a.m. If you attend, please note that you will need an admission ticket or proof of ownership of Northern Trust common stock to enter the meeting. If you arrive at the meeting without an admission ticket, we will admit you only if we are able to verify that you are a Northern Trust stockholder. Also, you may be asked to present valid picture identification,

such as a driver's license or passport. For safety and security reasons, cameras and recording devices will not be permitted in the meeting.

For registered stockholders, an admission ticket is enclosed. Please bring the admission ticket with you to the meeting.

If your shares of common stock are held by a broker, bank or other nominee in street name, your admission ticket is the left side of your voting information form. If you do not bring your admission ticket, you will need proof of ownership to be admitted to the meeting. A recent brokerage statement or letter from a bank or broker is an example of proof of ownership.

ELECTION OF DIRECTORS

Stockholders will be asked to elect 12 directors at this year's annual meeting. Set forth below is detailed information with respect to the 12 nominees, 11 of whom are currently serving as directors of the Corporation and of its principal subsidiary, The Northern Trust Company (the Bank). Robert S. Hamada, a director of the Corporation since 1988, has decided not to stand for re-election as a director at the annual meeting. Charles A. Tribbett III, a new director nominee who was initially recommended to the Corporate Governance Committee by William A. Osborn, the Chairman and Chief Executive Officer of the Corporation and the Bank, will stand for election to Mr. Hamada's vacated seat. Each of the 12 director nominees has consented to serve as a director if elected at this year's annual meeting.

Each nominee elected as a director will serve until the next annual meeting and until his or her successor has been elected and qualified. If any nominee is unable to serve as a director at the time of the annual meeting, your proxy may be voted for the election of another nominee proposed by the board or the board may reduce the number of directors to be elected at the annual meeting.

The enclosed proxy card provides instructions on how to vote for all nominees or to withhold authority to vote for all or one or more nominees. You have cumulative voting rights in the election of directors, meaning that your total number of votes equals the number of your shares of common stock multiplied by 12, the number of directors to be elected. You may allocate these cumulative votes equally among the nominees or otherwise as you specify on the enclosed proxy card. Unless you choose a different allocation and so mark on your proxy card, it is expected that the proxy holders will allocate cumulative votes equally among all nominees for whom authority to vote has not been withheld. However, the proxy holders will have the discretion to allocate cumulative votes differently among those for whom authority to vote has not been withheld, so as to elect all or as many nominees as possible depending on the circumstances at the annual meeting. If you wish to exercise your right to cumulative voting, you must provide us with written instructions on the enclosed proxy card; you may not exercise this right by voting by telephone or through the Internet.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR THE ELECTION OF EACH NOMINEE.

CORPORATE GOVERNANCE

Director Independence

The board of directors has determined that, in its opinion, all current directors of the Corporation (other than William A. Osborn, the Chairman and Chief Executive Officer of the Corporation and of the Bank) are independent directors as defined under applicable rules of The Nasdaq Stock Market, Inc. (Nasdaq). In making its determinations of independence, the board considered certain categorical standards of independence as set forth in stock exchange corporate governance rules and all relevant facts and circumstances to ascertain whether there was any relationship between a director and the Corporation that, in the opinion of the board, would interfere with the exercise of independent judgment in carrying out the responsibilities of the director, or any material relationship with the Corporation (either directly or as a partner, shareholder or officer of an organization that has a relationship with the Corporation). In each case, the Corporation's directors, other than Mr. Osborn, could be determined to be independent under the categorical standards considered by the board, which are attached as Exhibit A to this proxy statement.

The independent directors of the Corporation meet in executive sessions separate from management at least twice a year. The independent directors met in such executive sessions three times during 2004. The chairman of the Corporate Governance Committee or, in his or her absence, the chairman of either the Audit, Compensation and Benefits, Business Risk, or Business Strategy Committee presides at the executive sessions of the independent directors.

the first page of this proxy statement, not less than 90 days and not more than 120 days prior to the anniversary date of the prior year's annual meeting. The notice must contain the information required by the by-laws. Stockholders may recommend candidates for director by following the procedures for communicating with directors described below under Communications with the Board and Independent Directors. The Committee uses the same process for considering, evaluating and recommending director candidates, regardless of whether a candidate is recommended by a stockholder, director, officer, third-party search firm or any other person or group.

In its evaluation of director candidates, including persons recommended by stockholders, the Committee considers the factors specified in the Corporation's Corporate Governance Guidelines, including the nature of the expertise and experience required for the performance of the duties of a director of a corporation engaged in the Corporation's business and such matters as: relevant business and industry experience; professional background; age; current employment; community service and other board service. The Committee also considers the racial, ethnic and gender diversity of the board in assessing individual candidates. The Committee seeks to identify, as candidates for director, persons with a reputation for and record of integrity and good business judgment who (i) have experience in positions with a high degree of responsibility and are leaders in the organizations with which they are affiliated, (ii) are free from conflicts of interest that could interfere with a director's duties to the Corporation and its stockholders, and (iii) are willing and able to make the necessary commitment of time and attention required for effective board service. The Committee also takes into account a candidate's level of financial literacy, and monitors the mix of skills and experience of the directors in order to assess whether the board has the necessary tools to perform its oversight function effectively. A full listing of the characteristics and qualifications of director candidates considered by the Committee is set forth in the Corporate Governance Guidelines on the Corporation's website at www.northerntrust.com. Following its evaluation process, the Committee recommends its director nominees to the full board of directors, and the board makes the final determination of director nominees based on its consideration of the Committee's recommendation and report.

The Executive Committee, whose members are Directors Osborn (Chair), Kelly, Mooney, Smith and Smithburg, meets as required and may exercise the powers of the board in the management of the business and affairs of the Corporation when the board is not in session, subject to limitations imposed by law and the by-laws of the Corporation.

ADDITIONAL INFORMATION ABOUT THE BOARD AND MANAGEMENT

Director Compensation

In 2004, non-employee directors received the following fees for their service on the board:

Annual Retainer	\$ 40,000
For Each Board and Committee Meeting Attended	\$ 1,500

The chairman of each committee other than the Executive Committee received an additional annual retainer of \$10,000 in 2004. Each member of the Audit Committee (including the Audit Committee chairman) received an additional annual retainer of \$5,000. All non-employee directors are also eligible to receive a per diem fee of \$1,000 when required to attend orientation meetings or to perform specific services on behalf of the Corporation. The Corporation paid \$9,000 for such services in 2004.

In January 2003, each non-employee director received a grant of 2,400 stock units under the Northern Trust Corporation 2002 Stock Plan (the 2002 Plan), with 800 stock units vesting upon election or re-election as a director of the Corporation in each of the years 2003, 2004 and 2005. Any additional non-employee directors elected during this period will receive a similar award, prorated for time served on the board during the three-year time period. A non-employee director will receive one share of common stock for each stock unit upon vesting of the stock units. Dividend equivalents on the stock units are paid on a current basis unless, as described below, the non-employee director elects to defer the stock units.

Non-employee directors may elect to defer payment of their cash compensation and stock units until termination of their service as directors. Any deferred cash compensation is converted into stock units representing shares of common stock. The value of each stock unit is based upon the market price of the stock at the end of the calendar quarter for which the cash compensation would have been paid. Dividend equivalents on all deferred stock units are paid quarterly to a cash account and accrue interest at an interest rate determined from time to time by the Compensation and Benefits Committee. Deferred cash compensation and dividend equivalents will be paid out in cash, and deferred stock units will be distributed in stock, in each case in a lump sum or in up to ten annual installments at the election of the director.

In 2005, compensation for the non-employee directors will remain the same as in 2004, except that the non-employee directors will receive an annual retainer of \$60,000, and a grant of stock units equal in value to \$60,000 and comprised of (i) 800 stock units from an earlier grant that will vest in 2005 and (ii) stock units equal in value to \$60,000 less the value of the 800 stock units, in each case with the value of the stock units determined by the average of the high and low sale prices of the common stock on the date of the 2005 annual meeting of stockholders.

Directors who are also employees receive no additional compensation for serving on the board or its committees.

These transactions included loans; purchases, sales and placements of investment securities and other financial instruments; fiduciary transactions; deposits; and other purchase, sale and finance transactions. Similar transactions may occur in the ordinary course of business in the future. All loans were made on a non-preferential basis and did not involve more than the normal risk of collectibility or present other unfavorable terms. All loans made to directors and executive officers of the Corporation are permitted under the provisions of the Sarbanes-Oxley Act of 2002. Transactions in 2004 involving services provided by the Corporation to its directors and executive officers did not result in payments or fees that were material to the gross revenues of the Corporation.

Other Business Relationships

In the ordinary course of business, the Corporation uses the products and services of organizations of which the Corporation's directors are directors or executive officers. Transactions in 2004 involving the purchase of products and services did not result in payments that were material to the gross revenues of the organization with which a director was associated. Mr. Helman, a director of the Corporation, is a partner in the law firm of Mayer, Brown, Rowe & Maw, which renders legal services to the Corporation and its subsidiaries.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Corporation's directors and executive officers, and beneficial owners of more than 10% of the Corporation's stock, if any, to file with the SEC initial reports of ownership and reports of changes in ownership of any securities of the Corporation. Copies of these reports must also be provided to the Corporation.

To the Corporation's knowledge, all the Corporation's directors, executive officers and beneficial owners of more than 10% of the Corporation's stock made on a timely basis all filings required during 2004, except that Alison A. Winter, an Executive Vice President of the Corporation, filed a late Form 5 to report that she is a trustee of a trust holding 100 shares of the Corporation's common stock. In making these disclosures, the Corporation relied on copies of the reports provided to the Corporation and written representations from reporting persons that no other reports were required.

Compensation and Benefits Committee Interlocks and Insider Participation

None of the members of the Compensation and Benefits Committee is or ever was an officer or employee of the Corporation or any of its subsidiaries. Members of the committee, as well as members of their immediate families and various corporations and other entities associated with such members, may have loans with the Bank and other transactions with the Corporation and its subsidiaries. All loans were made on a non-preferential basis and did not involve more than the normal risk of collectibility or present other unfavorable terms. All loans made to members of the Compensation and Benefits Committee are permitted under the provisions of the Sarbanes-Oxley Act of 2002.

EXECUTIVE COMPENSATION

COMPENSATION AND BENEFITS COMMITTEE REPORT

The Compensation and Benefits Committee (the Committee) is responsible for overseeing the Corporation's executive compensation program. The Committee is composed entirely of independent directors as defined by Nasdaq.

The Committee approves compensation of the Corporation's executive officers, recommends director compensation, and provides strategic advice and direction with respect to the Corporation's employee compensation, benefits and welfare policies, plans and programs. The specific duties and responsibilities of the Committee are described above under Corporate Governance Compensation and Benefits Committee and are set forth in the Compensation and Benefits Committee charter, which is available on the Corporation's website at www.northerntrust.com.

Executive Compensation Principles

General. Every year the Committee reviews each component of the Corporation's executive compensation program. The Committee compares compensation levels to those of a peer group of 10-15 financial services organizations that share one or more of the following characteristics: lines of business similar to those of the Corporation; significant operations in the Corporation's principal geographic areas; competitor of the Corporation for executive talent; and size, either overall or in particular lines of business, comparable to that of the Corporation. All of the organizations in the peer group for 2004 are included in the Keefe, Bruyette & Woods 50 Index, a market-capitalization-weighted bank-stock index used by the Corporation in its Five-Year Cumulative Total Return graph presented elsewhere in this proxy statement.

The Committee reviews and approves the compensation of the Corporation's management committee, which includes the chief executive officer and the other executive officers named in the Summary Compensation Table (the named executive officers). For other executives the Committee reviews and approves overall compensation policies and payment levels. The Committee considers executive compensation recommendations from the Corporation's Human Resources Department and, as described below, an outside compensation consultant. In reviewing the compensation of executives other than the chief executive officer, the Committee takes the chief executive officer's counsel and recommendations into account. In its executive compensation decisions, the Committee adheres to a common set of compensation principles applicable to all employees of the Corporation. The key principles underlying the Corporation's total compensation strategy include: a focus on all elements of total compensation; consideration of the competitive market for guidance on the design of incentive pay programs and the levels of base and incentive pay; and a recognition of company, business unit and individual performance.

The Corporation's executive compensation program is designed to compensate individuals at competitive levels to ensure the effective recruitment and retention of executive talent. It links short-term and longer-term financial rewards to the Corporation's success by making a significant portion of the executives' cash compensation variable and dependent on corporate or business unit performance. The Committee believes that this component of executive compensation should increase if performance goals are achieved or exceeded, and correspondingly should decrease if goals are not achieved. The Corporation's executive compensation program also emphasizes equity incentives in order to closely align the executives' interests with those of the stockholders.

Compensation Consultant. The Committee retains an outside compensation consultant to assist the Committee's executive compensation decision-making. The outside compensation consultant provides information regarding competitive market data, relevant legal and regulatory requirements, and corporate best practices. The consultant advises the Committee on how best to make compensation decisions with respect to the Corporation's executive officers consistent with stockholders' long-term interests. The consultant also responds to and makes compensation recommendations in light of specific factors relevant to the Corporation.

Stock Ownership Guidelines. The Committee reviews the stock ownership and stock retention levels of the Corporation's executive officers. The Committee has not previously established formal stock ownership requirements for its executive officers and directors given the significance (as a multiple of base salaries) of existing equity holdings and potential equity holdings (in the form of stock options and stock units) of these individuals. See Security Ownership of Management presented elsewhere in this proxy statement. However, management is now working with the Committee and the Committee's outside compensation consultant to develop and implement formal stock ownership and retention guidelines in 2005.

Deductibility. Section 162(m) of the Internal Revenue Code (the Code) generally disallows a tax deduction to public companies for compensation in excess of \$1,000,000 per year paid to the chief executive officer and the four other most highly compensated executive officers employed at year-end. Certain compensation, including performance based compensation, may qualify for an exemption from the deduction limit if it satisfies various technical requirements under Section 162(m). The Committee views the tax deductibility of executive compensation as one factor to be considered in the context of its overall compensation philosophy. The Committee reviews each material element of compensation on a continuing basis and takes steps to assure deductibility if that can be accomplished without sacrificing flexibility and other important elements of the overall executive compensation program. Base salary and the amounts reflected in the other annual compensation and all other compensation columns of the Summary Compensation Table do not by their nature qualify as performance based compensation under Section 162(m). However, annual cash incentives and certain awards under the 2002 Stock Plan qualify as deductible performance based compensation. Accordingly, substantially all compensation paid in 2004 to the named executive officers was fully deductible.

Components of Executive Compensation

The Corporation's executive compensation program has the following principal components: base salaries, annual cash incentives, restricted stock units and stock options. The Corporation also makes specific awards of restricted stock from time to time. The following summarizes actions taken by the Committee in connection with its review of 2004 compensation of the named executive officers.

Base Salaries. The Committee generally determines base salaries and any adjustments to base salaries by evaluating the responsibilities of the current position and the individual's experience, performance, career progress and potential development. The Committee also considers the range of salary increases awarded to employees generally and reviews market surveys showing base salary information for comparable executive positions at peer group companies to ensure that this component of compensation is competitive. The Committee targets the base salaries of the Corporation's executive officers at approximately the median of salaries for similar positions in the companies used for comparison purposes. The Committee considers all of these factors without assigning particular weight

to any single factor. Adjustments in 2004 to the base salaries of the named executive officers were effective as of April 2004 and are shown in the Salary column of the Summary Compensation Table.

Annual Cash Incentives. The named executive officers were eligible for 2004 annual incentive awards under the provisions of the stockholder-approved Management Performance Plan. The Plan establishes a maximum award funding opportunity for each Plan participant, expressed as a percentage of the Corporation's consolidated net income for the relevant year. The maximum award funding opportunity is 0.6% of consolidated net income for the chairman and chief executive officer, 0.4% for the president and chief operating officer (if different from the chairman and chief executive officer), and 0.3% for each of the other Plan participants. The Committee has, and typically exercises, negative discretion to adjust the size of specific awards downward from the maximum award funding opportunity. Following completion of the fiscal year, the Committee first determines each participant's maximum award funding opportunity on the basis of the Corporation's consolidated net income for the year, and then approves specific awards as a percentage of base salary.

At the recommendation of Mr. Osborn, the Committee approved annual incentive awards for 2004 to members of the Management Committee, including the named executive officers, as shown in the Bonus column of the Summary Compensation Table. Mr. Osborn based his recommendations on several factors, including the performance of both the Corporation and the respective business areas managed by the individuals during 2004, individual performance, and comparative compensation data for senior management positions at peer organizations.

Restricted Stock Units. In February 2004 the Committee approved grants of restricted stock units to the named executive officers. All stock units were awarded under the provisions of the 2002 Plan, which was approved by stockholders in 2002.

Each restricted stock unit entitles the award recipient to receive one share of stock in the year in which the award vests. Stock units vest over a specified vesting period determined by the Committee. Dividend equivalents on the stock units are paid on a current basis. If the executive dies, becomes disabled, or retires during the vesting period, a pro-rated number of stock units becomes distributable. In addition, if an executive who has reached age 55 leaves and does not compete with the Corporation during the vesting period, a pro-rated number of stock units is eligible for distribution at the completion of the vesting period. In all other instances where the executive leaves the Corporation during the vesting period, the stock units are forfeited. Upon a change in control of the Corporation, the full stock unit grant becomes distributable.

Distribution of stock units granted prior to December 31, 2004 is mandatorily deferred to the extent that distribution would result in compensation not being deductible by the Corporation under the provisions of Section 162(m) of the Code. See Deductibility above. If distribution of an award is deferred for this reason, the award becomes distributable in the first year in which it would result in deductible compensation, such as when the executive has retired and is no longer subject to Section 162(m). However, in light of new tax legislation effective January 1, 2005, the Corporation is reviewing this mandatory deferral provision for possible revision. Distribution of stock units also may be voluntarily deferred by the executive.

Individual awards of restricted stock units are based on competitive compensation data and the estimated value of the award to the recipient. The Committee also considers the equity awards

previously granted to the individual, as well as the retention of these awards over the years. The 2004 restricted stock units granted to the named executive officers are shown in the Restricted Stock Awards column of the Summary Compensation Table.

Stock Options. Option grants are designed to align the interests of executives with those of the stockholders. All stock options awarded to the named executive officers in February 2004 were granted under the provisions of the stockholder-approved 2002 Plan.

Under the 2002 Plan, stock options are granted with an exercise price equal to the market price of the common stock on the date of grant and expire ten years after the date of the grant. This approach is designed to motivate the executive to contribute to the creation of stockholder value over the long term. Stock options vest over a specified vesting period determined by the Committee. If the executive dies or becomes disabled, the stock options (whether vested or unvested) become vested and may be exercised until the earlier of five years following death or disability or the expiration date of the option. If the executive retires, the stock options continue to vest in accordance with their terms and, once vested, may be exercised until the earlier of five years following retirement or the expiration date of the option. In addition, if the executive is a member of the Management Committee on the date of grant, and is age 55 or older with a minimum of 10 years of employment on the date of termination of employment, the stock options continue to vest and, once vested, may be exercised until the earlier of five years following termination of employment or the expiration date of the option. In all other instances (other than termination due to severance where special rules apply), vested stock options expire on the earlier of three months following termination of employment and unvested stock options expire on termination of employment. Upon a change in control of the Corporation, all stock options become vested and exercisable.

In approving individual stock option awards, the Committee considers competitive compensation data and the estimated option value to the recipient. Awards are made within the context of providing an appropriate mix of cash and equity incentives and also take into consideration individual performance factors. The Committee also considers the number of stock options and other stock compensation previously granted to the individual, as well as the retention of shares over the years. The 2004 stock option grants to the named executive officers are shown in the table captioned Option Grants in Last Fiscal Year.

Chief Executive Officer Compensation

During 2004, the Committee reviewed each component of Mr. Osborn's compensation and made the following adjustments.

Base Salary. Effective April 1, 2004, the Committee increased Mr. Osborn's base salary to \$1,000,000 from \$975,000. This 2.6% increase reflected the Committee's consideration of competitive compensation data for chief executive officers in the Corporation's peer group, the Corporation's 2004 salary increase policy, and an evaluation of Mr. Osborn's individual performance by the Committee.

Annual Cash Incentive. In February 2005, the Committee awarded Mr. Osborn an annual cash incentive of \$2,000,000 for 2004. This award reflects the Committee's view that Mr. Osborn's leadership was instrumental to the Corporation's 2004 performance, including: record net income of \$505.6 million (up 25% over 2003); record net income per common share of \$2.27 (up 26% over

2003); record assets under administration of \$2.6 trillion (up 23% over 2003); and record assets under management of \$572 billion (up 19% over 2003).

Restricted Stock Units and Stock Options. In February 2004, the Committee awarded Mr. Osborn a grant of 30,000 restricted stock units and a stock option grant to purchase 250,000 shares. The stock unit grant represented approximately 16.3% of the total of 184,500 stock units awarded by the Committee in 2004, and the stock option grant represented approximately 9.7% of the total stock options to purchase 2,589,200 shares that were granted in 2004. In determining the stock units and stock option award amounts for Mr. Osborn, the Committee considered relevant competitive compensation data, the targeted level of equity as a form of variable compensation, and the linkages the awards would provide to the stockholders' long-term interests.

(1) Salary adjustments for each of the named executive officers during 2004 were effective April 1, 2004.

(2) The Bonus figures represent the dollar value of the annual cash incentives earned by the named executive officers. For 2002, approximately 80% of the annual cash incentive was paid in cash and 20% was distributed in the form of non-qualified stock options on February 18, 2003.

(3) The Other Annual Compensation column reflects reimbursements for the payment of personal income taxes incurred in connection with the business use of company automobiles. None of the named executive officers received perquisites or personal benefits in excess of the reporting thresholds established by the SEC (the lesser of \$50,000 or 10% of the total amount of Salary and Bonus).

(4) Each named executive officer received a restricted stock unit award in February 2004 as shown in the table below. The market values of the restricted stock units awarded in 2004 are based on a price of \$49.12 per share, the mean of the high and low sale prices of the common stock on February 17, 2004, the date of grant, as reported by Nasdaq. All other material terms of the restricted stock units are described in Compensation and Benefits Committee Report Components of Executive Compensation Restricted Stock Units. The table below also shows the total number of restricted stock units held by the named executive officers and their aggregate market value as of December 31, 2004. All market values are based on a price of \$48.83 per share, the mean of the high and low sale prices of the common stock on December 31, 2004, as reported by Nasdaq. None of the named executive officers held any shares of restricted stock as of December 31, 2004.

(5) The 2003 number does not include stock options granted in 2003 that constitute 20% of each named executive officer's 2002 annual incentive award reported in the Bonus column. Material terms of the stock options are described in Compensation and Benefits Committee Report Components of Executive Compensation Stock Options.

(6) The amounts shown reflect the values of previously granted performance shares distributed to the named executive officers. The values were determined by multiplying the total number of performance shares (as earned over various three-year performance periods and subsequently distributed) by the mean of the high and low sale prices of the common stock on the dates of distribution as reported by Nasdaq, and adding dividend equivalents and an interest factor. The Committee discontinued awarding performance shares in 1999 when it began to make awards of restricted stock units. As previously awarded, performance shares were subject to a three-year

performance period followed by a three-year vesting period. Upon the completion of each three-year performance period, the Committee determined the extent to which the performance goals for that performance period were achieved and authorized the crediting of the appropriate number of performance shares to a participant's account. The shares were then distributed to the participant on the third anniversary following the date on which the shares were credited to the participant's account, together with the dividend equivalents and interest.

(7) The All Other Compensation column reflects (i) matching contributions made by the Corporation on behalf of the named executive officers to the TIP and the Supplemental Thrift-Incentive Plan (the Supplemental TIP) and (ii) allocations on behalf of the named executive officers under the ESOP and the Supplemental Employee Stock Ownership Plan (the Supplemental ESOP), all of which are defined contribution plans. As noted, effective January 1, 2005, the ESOP was merged into the TIP. In the event of a change in control of the Corporation, participants become fully vested in all benefits payable under the TIP, the Supplemental TIP and the Supplemental ESOP. The following table shows the TIP and Supplemental TIP matching contributions and the ESOP and Supplemental ESOP allocations made in 2004 to the named executive officers.

Name	2004 Matching Contributions under the TIP and Supplemental TIP	2004 Allocations under the ESOP and Supplemental ESOP
William A. Osborn	\$43,566	\$29,813
Perry R. Pero	\$21,646	\$14,813
William L. Morrison	\$21,646	\$14,813

Option Grants in Last Fiscal Year

The following table sets forth certain information with respect to the stock options granted during 2004 to the executive officers named in the Summary Compensation Table. Using 0%, 5% and 10% in assumed rates of stock price appreciation (compounded annually) for the option term of ten years, the table also shows the potential realizable pre-tax value of the stock options. These assumed rates are used for illustrative purposes only, and are not intended to represent or predict future increases in the price of the Corporation's common stock.

Name	Number of Securities Underlying Options Granted(1)	Individual Grants			Potential Realizable Value at Assumed Annual Rates of Stock Price Appreciation for Option Term of 10 years(2)		
		Percent of Total Options Granted to Employees In 2004	Exercise Price	Expiration Date	0%	5%	10%
William A. Osborn	250,000	9.7%	\$49.12	2/17/14	0	\$7,722,826	\$19,571,157
Perry R. Pero	80,000	3.1%	\$49.12	2/17/14	0	\$2,471,304	\$ 6,262,770

Frederick H. Waddell	90,000	3.5%	\$49.12	2/17/14	0	\$2,780,217	\$ 7,045,617

(1) These options were granted on February 17, 2004. One-fourth of these options will each become exercisable on February 17 of 2005, 2006, 2007 and 2008. All other material terms of the stock options are described in Compensation and Benefits Committee Report Components of Executive Compensation Stock Options.

(2) No gain to the optionees is possible without an increase in the stock price, which will benefit all stockholders commensurately. The pre-tax gain to all stockholders after ten years, using as a base the mean of the high and low sale prices of common stock as reported by Nasdaq on the respective option grant dates and the number of shares outstanding as of December 31, 2004, would be \$0 for 0% appreciation, approximately \$6.8 billion for 5% appreciation and approximately \$17.1 billion for 10% appreciation.

AUDIT COMMITTEE REPORT

The Audit Committee of the board is responsible for providing oversight of the Corporation's financial reporting functions and internal controls. The board appoints the Audit Committee and its chairman annually, with the Committee consisting of at least four directors. The Audit Committee operates under a formal charter, which is attached to this proxy statement as Exhibit B and is available at the Corporation's website at www.northerntrust.com. The Audit Committee charter sets forth in detail the duties and responsibilities of the Audit Committee.

The Audit Committee's duties and responsibilities are ones of oversight. In fulfilling their duties and responsibilities, it is recognized that members of the Committee are not full-time employees of the Corporation, and are not, and do not represent themselves to be, accountants or auditors by profession. Each member of the Committee shall be entitled to rely in good faith on (i) the integrity of those persons and organizations within and outside the Corporation from which he or she receives information, (ii) the accuracy of the financial and other information provided to the Committee absent actual knowledge to the contrary (which shall be promptly reported to the Board) and (iii) representations made by management or third parties as to any information technology, internal audit and other non-audit services provided by the Corporation's independent registered public accountants to the Corporation. The responsibility for the completeness and accuracy of the Corporation's financial statements rests with the Corporation's management. The responsibility of KPMG LLP, the Corporation's independent registered public accountants, is (i) to perform an audit and to express an opinion as to whether the Corporation's annual consolidated financial statements are free of material misstatement and presented in accordance with generally accepted accounting principles and (ii) to perform an audit and to express an opinion as to management's assessment of, and the effective operation of, the Corporation's internal control over financial reporting.

The Audit Committee received the written disclosures and the letter from KPMG LLP, required by the Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), as currently in effect. The disclosures described the relationships and fee arrangements between the firm and the Corporation. Consistent with Independence Standards Board Standard No. 1 and the rules and regulations of the SEC, the Audit Committee considered at a meeting held on January 18, 2005 whether the provision of non-audit services by the independent registered public accountants to the Corporation for the fiscal year ended December 31, 2004 is compatible with maintaining KPMG LLP's independence and has discussed with KPMG LLP the firm's independence from the Corporation.

The Audit Committee reviewed and discussed with the Corporation's independent registered public accountants the matters required to be discussed by the Statement on Auditing Standards No. 61, as amended (Communications with Audit Committees).

The Audit Committee reviewed and discussed with management and the Corporation's independent registered public accountants the audited financial statements of the Corporation for the year ended December 31, 2004.

Based on the above-mentioned reviews and discussions with management and the Corporation's independent registered public accountants, and subject to the limitations on the role and responsibilities of the Audit Committee referred to above, the Audit Committee, exercising its business judgment, recommended to the board that the Corporation's audited financial statements

be included in its Annual Report on Form 10-K for the year ended December 31, 2004, for filing with the SEC.

This report is submitted on behalf of the members of the Audit Committee:

Duane L. Burnham, Chairman

RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

Appointment of Independent Registered Public Accountants

The independent registered public accountants are appointed annually by the Corporation's Audit Committee. For the year 2005, the Audit Committee has authorized the engagement of KPMG LLP as the Corporation's independent registered public accountants. KPMG LLP served as the Corporation's independent registered public accountants for the year ended December 31, 2004. Representatives of KPMG LLP will be present at the annual meeting. They will have an opportunity to make a statement if they wish and will be available to respond to appropriate questions raised by stockholders at the meeting.

Stockholder ratification of the selection of KPMG LLP as the Corporation's independent registered public accountants is not required. However, the board of directors is submitting the selection of KPMG LLP as the Corporation's independent registered public accountants to the stockholders for ratification to learn the opinion of stockholders on this selection. If the stockholders fail to ratify KPMG LLP as the independent registered public accountants, the Audit Committee will reassess its appointment. Even if the selection is ratified, the Audit Committee in its discretion may direct the appointment of different independent registered public accountants at any time during the year if it determines that such change would be in the best interests of the Corporation and its stockholders.

Pre-Approval Policies and Procedures of the Audit Committee

On February 17, 2004, the Audit Committee adopted the revised Northern Trust Corporation Policy Regarding Engagement of Independent Public Accountants to Provide Auditor Services, which superceded the Policy adopted by the Audit Committee on April 14, 2003. The purpose of the Policy is to establish procedures for Audit Committee pre-approval of all auditor services to be provided to the Corporation by its independent registered public accountants. Auditor services include audit services, audit-related services, tax services and non-audit services. The Policy provides that the Audit Committee, the Chairman or any Audit Committee member delegated the authority (a Designated Member), has the authority to grant pre-approvals of auditor services. In addition, the Policy provides that the independent registered public accountants may be engaged to provide only those non-audit services (i) that are permitted by the SEC's final rule entitled "Strengthening the Commission's Requirements Regarding Auditor Independence" and (ii) that, in the judgment of the Audit Committee, are compatible with maintaining the independent registered public accountants' independence from the Corporation. In evaluating whether a proposed engagement of the Corporation's independent registered

public accountants for a specific permitted non-audit service is compatible with maintaining the firm's independence from the Corporation, the Audit Committee or a Designated Member thereof must consider whether the proposed engagement would cause the independent registered public accountant to (1) audit its own work, (2) perform management functions, or (3) act as an advocate for the Corporation. The independent registered public accountants shall in no event be engaged to perform any Prohibited Services, as defined in the Policy.

The Audit Committee approved a total of \$30,000 for tax services performed by KPMG LLP pursuant to the de minimis exception under the SEC rules. This amount represents 11% of the aggregate Tax Fees paid to KPMG LLP in 2004.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR THE RATIFICATION OF KPMG LLP AS THE CORPORATION'S INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS FOR THE YEAR 2005.

OTHER BUSINESS

The board of directors knows of no business to be presented at the 2005 annual meeting other than that described above. The Corporation's by-laws provide that stockholders may bring matters before an annual meeting only if they give timely written notice of the matter to be brought not less than 90 days and not more than 120 days before the month and day that the Corporation held the prior year's annual meeting. The notice must be directed to the attention of the Corporation's Corporate Secretary and contain the information required by the by-laws.

STOCKHOLDER PROPOSALS FOR 2006 ANNUAL MEETING

Any stockholder proposals for the 2006 annual meeting must be received by the Corporation, directed to the attention of the Corporation's Corporate Secretary, no later than November 14, 2005 in order to be eligible for inclusion in the Corporation's proxy statement and form of proxy for that meeting. The proposal must comply in all respects with the rules and regulations of the SEC and the by-laws of the Corporation.

Also, under the Corporation's by-laws, other proposals that are not included in the proxy statement will be considered timely and may be eligible for presentation at that meeting if they are received by the Corporation in the form of a written notice, directed to the attention of the Corporation's Corporate Secretary, not earlier than December 20, 2005 and not later than January 19, 2006. The notice must contain the information required by the by-laws.

NORTHERN TRUST CORPORATION

AUDIT COMMITTEE CHARTER

Effective January 18, 2005

(Supersedes the Audit Committee Charter Adopted February 17, 2004)

The By-laws of Northern Trust Corporation (the Corporation) provide that the Board of Directors of the Corporation (the Board) shall appoint annually at its organization meeting an Audit Committee (Committee) and its Chairman. The By-laws also provide that the Committee shall perform such functions as are set forth in an audit committee charter both for the Corporation and its subsidiaries (collectively, Northern Trust) on a consolidated basis and for such individual banking subsidiaries as the Board shall direct.

I. Purpose.

The Committee's purpose is to oversee the accounting and financial reporting processes of Northern Trust and the audits of the consolidated financial statements of Northern Trust and to provide assistance to the Board in fulfilling its legal and fiduciary obligations with respect to matters involving the accounting, auditing, financial reporting, internal financial control and legal compliance functions of Northern Trust, including, without limitation, (a) assisting the Board's oversight of (i) the integrity of Northern Trust's consolidated annual and quarterly financial statements and earnings releases filed on Form 8-K, (ii) Northern Trust's compliance with legal and regulatory requirements, (iii) the Corporation's public accountants' qualifications and independence, and (iv) the performance of Northern Trust's internal audit function and the Corporation's public accountants, and (b) preparing the report required to be prepared by the Committee pursuant to the rules of the Securities and Exchange Commission (the SEC) for inclusion in the Corporation's annual proxy statement.

II. Committee Membership, Independence and Experience.

The Committee shall consist of at least four directors. Each member of the Committee shall be qualified to serve on the Committee pursuant to the requirements of The Nasdaq Stock Market, Inc. (NASDAQ) and any additional requirements the Board deems appropriate. The Board shall appoint the members of the Committee annually based on the recommendations of the Corporation's Corporate Governance Committee. The Board may fill vacancies on the Committee and may remove a member from Committee membership at any time with or without cause.

The Chairmanship of the Committee should change at least every five years. There should also be a regular rotation in the membership of the Committee, balancing in each case the need for fresh perspective with the need for experience and continuity.

Edgar Filing: NORTHERN TRUST CORP - Form DEF 14A

All members of the Committee shall be independent directors under the Corporation's Corporate Governance Guidelines and the applicable NASDAQ rules, the provisions of the Sarbanes-Oxley Act of 2002 (the "Act"), and the Federal Deposit Insurance Corporation Improvement Act of 1991 ("FDICIA"). The Committee shall have, in the judgment of the Board, the literacy and experience requirements under the applicable NASDAQ rules, the provisions of the Act and FDICIA. At least one

B-1

member of the Committee shall have accounting or related financial management expertise, as such qualifications are interpreted by the Board in its business judgment. At least one member of the Committee shall be the audit committee financial expert, as such term is defined in the rules and regulations promulgated by the SEC pursuant to the Act.

Director's fees (including any additional amounts paid to chairmen of committees and to members of committees of the Board) are the only compensation a member of the Committee may receive from the Corporation; provided, however, that a member of the Committee may also receive pension or other forms of deferred compensation from the Corporation for prior service so long as such compensation is not contingent in any way on continued service.

No director may serve as a member of the Committee if such director serves on the audit committee of more than two other public companies unless the Board determines that such simultaneous service would not impair the ability of such director to effectively serve on the Committee. Any such determination must be disclosed in the Corporation's annual proxy statement.

III. Committee Structure and Operations.

Meetings.

The Committee shall meet in person or by telephone conference, videoconference or other means of communications permitted under applicable Delaware law at least once every fiscal quarter. Additional meetings may be held or actions may be taken by unanimous written consent, as deemed necessary or appropriate by the Committee Chairman or by any other member of the Committee. Minutes of each meeting shall be prepared by such person designated by the Committee Chairman, as Acting Secretary of the Committee and, when approved, shall be distributed to all Board members.

The Committee may ask members of management or others to attend its meetings (or portions thereof) and to provide pertinent information as it may deem necessary or appropriate. The Committee shall meet separately, periodically, with (i) management, (ii) Northern Trust's internal auditors and (iii) the Corporation's public accountants, in each case to discuss any matters that the Committee or any of the above persons or firms believes should be discussed privately.

Resources.

The Committee shall have the resources and authority appropriate to discharge its duties and responsibilities. The Committee shall have direct and unrestricted access to Northern Trust's management and non-management personnel, all corporate records and the Corporation's public accountants. The Committee shall have the authority to obtain advice and assistance from internal or external legal, accounting or other advisors, without the approval of the engagement by the Board or management, and may direct the proper officers of the Corporation to pay the reasonable fees and expenses of any such advisors. The Committee may request its advisors to attend a meeting of the Committee or to meet with any members of the Committee.

IV. Committee Responsibility and Authority.

Edgar Filing: NORTHERN TRUST CORP - Form DEF 14A

The Committee's responsibility is one of oversight. The responsibility for the completeness and accuracy of the financial statements rests with Northern Trust's management. The responsibility of

B-2

the Corporation's public accountants is to perform an audit and to express an opinion as to whether Northern Trust's annual consolidated financial statements are free of material misstatement and presented in accordance with generally accepted accounting principles (GAAP).

In fulfilling their duties and responsibilities hereunder, it is recognized that members of the Committee are not full-time employees of Northern Trust and are not, and do not represent themselves to be, accountants or auditors by profession. Each member of the Committee shall be entitled to rely in good faith on (i) the integrity of those persons and organizations within and outside Northern Trust from which he or she receives information, (ii) the accuracy of the financial and other information provided to the Committee by such persons or organizations absent actual knowledge to the contrary (which shall be promptly reported to the Board) and (iii) representations made by Northern Trust's management as to any information technology, internal audit and other non-audit services provided by the Corporation's public accountants to Northern Trust.

The Corporation's public accountants shall be accountable to the Board and the Committee. The public accountants shall report directly to the Committee. The Committee shall have the authority and responsibility to evaluate, select, and, as appropriate, replace the Corporation's public accountants.

V. Committee Oversight Activities.

Approval of audit and permitted non-audit services will be granted by the Committee in its sole discretion.
- Reviewing the performance of the Corporation's public accountants, including the lead partner of the public accountants, and, in its sole discretion, making decisions regarding the replacement or termination of the public accountants when circumstances warrant.
