SECTION 2 FINANCIAL INFORMATION

Item 2.02 Results of Operations and Financial Condition

On July 19, 2005, Gilead Sciences, Inc., a Delaware corporation, issued a press release announcing earnings for the second quarter ended June 30, 2005. A copy of the earnings press release is filed as Exhibit 99.1 to this report.

Each non-GAAP financial measure reflected in the earnings press release is included because our management uses this information to help gain a better understanding of the comparative operating performance of the company and believes it will be useful for investors. These non-GAAP financial measures represent adjustments to GAAP financial measures to exclude transactions or items our management believes were unusual due to their nature, size and infrequency. There were no such adjustments for the second quarters of 2005 and 2004. For the first quarter of 2004, these adjustments included the \$20.6 million fair value gain and its related tax effects on our Eyetech Pharmaceuticals, Inc. (Eyetech) warrants as a result of Eyetech completing an initial public offering in February 2004. Consequently, excluding this transaction from our results provides users of the financial statements an important insight into our results and related trends that affect our core business.

The information in this Form 8-K and the exhibit attached hereto shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities under that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, regardless of any general incorporation language in such filing.
