PROXY STATEMENT

INFORMATION CONCERNING THE SOLICITATION

The enclosed proxy is solicited by Richardson Electronics, Ltd. (the Company) whose principal executive offices are located at 40W267 Keslinger Road, P.O. Box 393, LaFox, Illinois 60147-0393, for use at the Annual Meeting of Stockholders of the Company, to be held Tuesday, October 17, 2006 at 3:15 P.M. Chicago time, at the offices of the Company, 40W267 Keslinger Road, LaFox, Illinois, or at any adjournments thereof. In addition to solicitation of proxies by mail, proxies may be solicited by the Company's Directors, officers and regular employees by personal interview or telephone, telegram or similar means, and the Company will request brokers and other custodians, nominees and fiduciaries to forward proxy soliciting material to the beneficial owners of shares which are held of record by them. The expense of all such solicitation, including printing and mailing, will be paid by the Company. Any proxy may be revoked at any time before its exercise by written notice to the Secretary of the Company, by executing a subsequent proxy or by attending the meeting and electing to vote in person. This Proxy Statement and accompanying proxy were first sent or given to stockholders on or about September 15, 2006.

Only stockholders of the Company of record at the close of business on August 21, 2006 are entitled to vote at the meeting or any adjournment thereof. As of that date, there were outstanding 14,403,442 shares of Common Stock, par value \$.05 per share, and 3,092,985 shares of Class B Common Stock, par value \$.05 per share. Holders of Common Stock are entitled to one (1) vote per share and holders of Class B Common Stock are entitled to ten (10) votes per share on all matters voted upon at the meeting. The Common Stock and the Class B Common Stock will vote together as a single class on all proposals presented in this Proxy Statement. Outstanding shares of the Company, represented in person or by proxy, having a majority of the voting power shall constitute a quorum at the meeting. An affirmative vote of a plurality of the voting power of the shares represented at the meeting is required to elect Directors and the nine nominees who receive the most votes will be elected. An affirmative vote of a majority of the voting power of the shares represented at the meeting is required to ratify our selection of Ernst & Young LLP as our independent registered public accounting firm for fiscal 2007. Unless authority to vote for the election of Directors (or for any nominee) is withheld, proxies will be voted for the Directors proposed by the Board, and, if no contrary instructions are given, proxies will be voted for the ratification of the engagement of Ernst & Young LLP for fiscal 2007. Discretionary authority is provided in the proxy as to any matters not specifically referred to therein. Management is not aware of any other matters that are likely to be brought before the meeting. However, if any such matters properly come before the meeting, it is understood that the proxy holder or holders are fully authorized to vote thereon in accordance with his or their judgment and discretion. Stockholders of record who are present at the meeting in person or by proxy and who abstain, including brokers holding customers' shares of record who cause abstentions to be recorded at the meeting, are considered stockholders who are present and entitled to vote and they count toward the quorum and a vote against the proposals. Brokers holding shares of record for customers generally are not entitled to vote on certain matters unless they receive voting instructions from their customers. If brokers do not receive instruction to vote on discretionary matters, they will not vote on such matters with respect to such shares. These broker non-votes will be counted as present for quorum purposes but not entitled to vote on the matter in question, thus effectively reducing the number of votes needed to approve the matter.

ELECTION OF DIRECTORS

A Board of nine Directors will be elected to serve until the next annual meeting, or until their successors are elected and shall have qualified subject to their earlier resignation or removal as permitted by law. The proxies returned pursuant to this solicitation will be voted by the persons named therein for the election as Directors of the persons named below under *Information Relating to Directors, Nominees and Executive Officers* as nominees for election as Directors unless specifically directed to withhold authority in the proxy. Should any nominee be unable to accept the office of Director (which is not presently anticipated), the persons named in the proxies will vote for the election of such other persons, as they shall determine.

The Board of Directors has determined that the composition and functioning of the Committee complies with the requirements of the Securities and Exchange Commission (SEC) and The National Association of Securities Dealers (NASD) listing standards, including that each of its members is independent as that term is defined in NASD Rules, and one of its members, John R. The members of the Audit Committee are Mr. Peterson (Chairman), Mr. Purkey and Mr. Rubinovitz. The Audit Committee has adopted a written charter approved by the Board. The charter was included as Exhibit A to the proxy statement for the Annual Meeting of Stockholders held October 12, 2004.

The Board of Directors' Compensation Committee held six meetings in the last fiscal year. The members of the Compensation Committee are Messrs. Bouyer, Hodes and Rubinovitz (Chairman). Upon the termination of a Director because of death, retirement, or removal from the Board within one year after a change of control, options granted to the Non-Employee Directors become fully exercisable with respect to all shares covered thereby and shall remain fully exercisable until the option expires by its terms.

**COMPENSATION AND STOCK OPTION COMMITTEE REPORT,
STOCK PERFORMANCE GRAPH AND AUDIT COMMITTEE REPORT**

The following pages contain a report issued by the Company's Compensation and Stock Option Committees of the Board of Directors relating to executive compensation for fiscal 2006, a chart titled "Stock Performance Graph" and a report issued by the Audit Committee of the Board of Directors relating to its review of the Company's financial statements, procedures and practices. Stockholders should be aware that under SEC rules, the Compensation and Stock Option Committee Report on Executive Compensation, the Stock Performance Graph and the Audit Committee Report are not deemed to be soliciting material or filed with the SEC under the Securities Exchange Act of 1934, and are not incorporated by reference in any past or future filing by the Company under the Securities Exchange Act of 1934, as amended, or the Securities Act of 1933, as amended, unless these sections are specifically referenced.

REPORT ON EXECUTIVE COMPENSATION

Traditionally, the Company's executive officers' compensation has been determined by the Company's Chief Executive Officer due to the relatively small number of other executive officers and the personal knowledge of the relative performance and responsibilities of each executive officer of the Chief Executive Officer. Compensation for the Company's executive officers, other than the Chief Executive Officer, for the fiscal year ended June 3, 2006 was established in this manner and was approved by the Compensation Committee, except for long-term incentive compensation in the form of stock option and restricted stock award grants which were established by the Stock Option Committee. The compensation for the Company's Chief Executive Officer for fiscal 2006 was determined pursuant to a formula set by the Board of Directors in 1983, prior to the effective date of the SEC rules mandating disclosure of the basis for such compensation, at a fixed base salary adjusted annually on each June 1 for changes in the cost of living (\$495,894 for fiscal 2006), and a bonus equal to 2% of the Company's after tax profits. Mr. Richardson did not receive a bonus for fiscal year 2006. The Company expects that the Chief Executive Officer will continue to recommend compensation for the Company's other executive officers for approval of the Compensation Committee of the Board of Directors who will set such compensation and that the Stock Option Committee will determine the granting of options and stock awards, and that the Chief Executive Officer's compensation also will be set by the Compensation Committee.

Individual compensation of other executive officers has been established to maintain equitable internal relationships taking into account the responsibilities, experience, seniority, and work performance of the individual executive, the overall performance of the Company and the unit or area of responsibility of the executive, the strategic objectives and budget considerations of the Company and competitive industry practices. The relative weight given to each of these factors varies from individual to individual and from year to year. Increases in executive officers' base salaries for the year ended June 3, 2006 ranged from 7% to 31%.

A significant portion of each executive officer's compensation is in the form of a bonus (in fiscal 2006 it was budgeted to be 50% of base compensation depending on the executive) which is performance-related. Bonuses are designed to reward executives for achieving and exceeding Company performance goals and/or individual performance goals. Bonuses or portions thereof, in fiscal 2006, for certain executive officers were based upon targeted levels of the Company's earnings. For bonuses or portions thereof based upon individual performance, the performance criteria or goals varied with each executive as set by the Compensation Committee with recommendation from the Chief Executive Officer after the executive's annual review. For example, an executive responsible for a business unit may receive a bonus or a portion thereof based upon the business unit meeting its financial goals while an executive in charge of other functions may receive a bonus or portion thereof based upon his achieving individual performance objectives which are generally subjective, established specifically for him or her by the Compensation Committee with recommendation from the Chief Executive Officer. For the fiscal year ended June 3, 2006, such individual performance bonuses or portions thereof were paid at percentages of target, ranging from 50% to 100%. Financial measures (e.g. earnings per share, return on invested capital, gross margin) and targets for each executive officer are set at the beginning of the fiscal year by

the Compensation Committee with recommendation from the Chief Executive Officer, although discretionary adjustments are possible should unforeseen events occur.

Salary levels, bonus criteria and performance objectives for the Company's executive officers are examined each year to take into account factors discussed above and other additional factors believed appropriate at the time. Executive compensation structures and levels for each year's targeted overall Company and individual performance goals are determined following regular structured annual reviews of each executive officer conducted by the Chief Executive Officer. Target performance levels take into account historic patterns of Company performance and strategic objectives.

Individual stock option grants in fiscal 2006 were determined giving consideration to the factors discussed above, previous option grants, and to give the executive officers additional incentive to improve the overall performance of the Company. In fiscal 2006, 204,044 options were granted to executive officers, and an aggregate of 2,863 shares pursuant to restricted stock awards. All such options have an exercise price that is equal to 100% of the fair market value as defined in the applicable Incentive Compensation Plan of the Company's Common Stock on the date of grant. The Chief Executive Officer does not participate in these plans.

In addition, all executive officers, including the Chief Executive Officer, participate in broad based benefits generally available to all U.S. employees of the Company, such as medical, dental, disability, life insurance, profit sharing (which includes a 401(k) feature), employees' stock ownership and employees' stock purchase plans.

The Omnibus Budget Reconciliation Act of 1993 (the Act) amended the Internal Revenue Code, Section 162(m), to limit deductibility for the Company for income tax purposes of compensation paid to the Chief Executive Officer and the four other highest paid executive officers to \$1 million per year, per person, subject to certain exceptions. The Company does not currently have any executive exceeding that limitation. If at a future date it appears likely that such limitation may be exceeded, the Committee will consider recommending restructuring of executive compensation programs in light of the requirements of the Act and the regulations that may be promulgated thereunder to permit them to meet the exceptions to the limitation so such compensation may continue to be deductible.

REPORT OF THE AUDIT COMMITTEE

Three non-employee Directors comprise the Audit Committee. Each Director is independent as defined in Rule 3200(a)(15) of the Rules of the NASD. The Board of Directors has adopted a written charter for the Audit Committee which was attached as Exhibit A to the Company's Proxy Statement filed on September 7, 2004.

Pursuant to its written Charter, the Audit Committee has:

Reviewed and discussed the audited financial statements with management and with the independent registered public accountants;

Discussed with the independent registered public accountants the matters required to be discussed by Statement on Auditing Standards Board No. 61;

Received the written disclosures and the letter from the independent registered public accountants required by Independence Standards Board Standard No. 1, and has discussed with the independent registered public accountants the accountants' independence, and considered the compatibility of non-audit services provided to the Company by the accountants with their independence; and

Based on the review and discussion above, recommended to the Board of Directors (and the Board of Directors has accepted the recommendation) that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended June 3, 2006 for filing with the SEC.

Management is responsible for the Company's financial reporting process, including its system of internal control, and for the preparation of consolidated financial statements in accordance with generally accepted accounting principles. The Company's independent auditors are responsible for auditing those financial statements. The responsibility of the Audit Committee is to monitor and review these processes. It is not the Audit Committee's duty or responsibility to conduct auditing or accounting reviews or procedures. The Audit Committee members are not employees of the Company and they may not be, and they may not represent themselves to be or to serve as, accountants or auditors by profession or experts in the fields of accounting or auditing. Therefore, the Audit Committee has relied, without independent verification, on management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States of America and on the representations of the independent auditors included in their report on the Company's financial statements. The Audit Committee's oversight does not provide it with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions with management and the independent auditors do not assure that the Company's financial statements are presented in accordance with generally accepted accounting principles, that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards or that the Company's independent accountants are in fact independent.

All Other Fees		
	<u> </u>	<u> </u>
Total	\$ 3,586,744	\$ 1,987,845
	<u> </u>	<u> </u>

- (1) Audit Fees were for professional services rendered for the audits of the Company's annual financial statements included in the Company's Forms 10-K and 10-K/As, the review of the Company's financial statements included in the Company's Quarterly Reports on Form 10-Q and 10-Q/As, statutory audits for certain of its non-U.S. subsidiaries and for the audits of the Company's internal controls over financial reporting.
- (2) Tax Fees were for transfer pricing, tax compliance, and tax consulting services.

Edgar Filing: RICHARDSON ELECTRONICS LTD/DE - Form DEF 14A

Audit Fees are reviewed and specifically approved by the Audit Committee on an annual basis. On April 7, 2003, the Audit Committee established formal policies and procedures for the pre-approval of audit-related, tax and other fees. These procedures include a review and pre-approval of an annual budget covering the nature of and amount to be expended for auditor services by specific categories of services to be provided. In addition, services not anticipated in the budget (so long as they are permitted services) or which exceed the budgeted amount may be authorized by the Company's Chief Financial Officer if \$20,000 or less, and if more than

\$20,000, with the approval of the Chairman of the Audit Committee and in each case with a submission and approval by the full Audit Committee at its next regularly quarterly scheduled meeting. Fees for such unanticipated services were 22% of the total fees paid to the Company's principal accountant for fiscal year 2006.

RELATIONSHIP WITH INDEPENDENT ACCOUNTANTS

After the Company completed its fiscal year ended May 28, 2005, the Audit Committee of the Board of Directors determined that the Committee would issue a request for proposals regarding the engagement of an independent registered public accounting firm to audit the Company's financial statements for the fiscal year ending June 3, 2006. The request for proposals was issued in July 2005 to several large, registered public accounting firms, including KPMG LLP (KPMG). On August 29, 2005, KPMG notified the Company that it declined to stand for re-election as the Company's independent registered public accounting firm and that the client-auditor relationship between the Company and KPMG had ceased.

On August 29, 2005, the Company, with the approval of its Audit Committee, notified Ernst & Young LLP (Ernst & Young) of its selection.

KPMG's audit reports on the Company's consolidated financial statements as of and for the years ended May 28, 2005 and May 29, 2004 did not contain an adverse opinion or disclaimer of opinion, nor were such reports qualified or modified as to uncertainty, audit scope or accounting principles, except that KPMG's audit reports on the Company's consolidated financial statements as of and for the years ended May 28, 2005 and May 29, 2004 included separate paragraphs which stated the following:

As discussed in Note A to the consolidated financial statements, the Company changed its method of accounting for certain inventories from the last-in, first-out method to the first-in, first-out method as of June 1, 2003 ;

As also discussed in Note A to the consolidated financial statements, the Company restated its net income (loss) per share calculation using a two-class method of calculation as required by EITF Issue No. 03-6, *Participating Securities and the Two-Class Method under FASB Statement No. 128*, which was effective for the fiscal periods beginning after March 31, 2004 ;

As discussed in Note B to the consolidated financial statements, the Company restated its consolidated financial statements as of and for the years ended May 28, 2005 and May 29, 2004 to correct errors discovered by the Company in the accounts of a subsidiary, RES S.r.l., and error related to the income tax valuation allowance, and certain other errors ; and

As discussed in Note M to the consolidated financial statements, the Company restated certain geographic information included in Note M as of and for the years ended May 28, 2005 and May 29, 2004 to correct the errors discovered by the Company related to the geographic classification of one of its wholly owned subsidiaries and errors related to the composition of those assets comprising the long-lived assets of each of its geographic segments.

KPMG's audit reports on management's assessment of the effectiveness of internal control over financial reporting and the effectiveness of internal control over financial reporting as of May 28, 2005 did not contain an adverse opinion or disclaimer of opinion, and was not qualified or modified as to uncertainty, audit scope, or accounting principles, except that KPMG's report indicates that the Company did not maintain effective internal control over financial reporting as of May 28, 2005 because of the effects of material weaknesses on the achievement of the

objectives of the control criteria, and contains explanatory paragraphs that state:

- 1 *Deficiencies in the Company's Control Environment.* The Company did not maintain effective company-level controls as defined in the *Internal Control-Integrated Framework* published by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Specifically:

The Company had inadequately trained finance, accounting, and tax personnel with a lack of appropriate expertise in U.S. generally accepted accounting principles. Accordingly, in certain circumstances, an effective secondary review of technical accounting matters was not performed.

The Company did not maintain proper segregation of duties between the access to cash, accounts receivable and inventory and the financial accounting responsibility for such assets, nor did the Company adopt appropriate policies to limit the authority of those personnel responsible for these duties.

The Company did not maintain adequate controls over end-user computing. Specifically, controls over the access, completeness, accuracy, validity, and review of certain spreadsheet information that supports the financial reporting process were either not designed appropriately or did not operate as designed.

These deficiencies resulted in a more than remote likelihood that a material misstatement of the Company's annual or interim financial statements would not be prevented or detected, and contributed to the development of other material weaknesses described below.

- 2 *Inadequate controls associated with the accounting for income taxes.* The Company did not employ personnel with the appropriate level of skill and experience to prepare, document, and review its accounting for income taxes. This lack of skill and experience resulted in the Company's inability to:

Execute procedures to periodically reassess the valuation of tax assets and liabilities;

Effectively perform and document a periodic evaluation of the reasonableness of assumptions with respect to the recoverability of recorded deferred tax assets and tax reserves;

Provide appropriate oversight to ensure that the risks and obligations with respect to the financial reporting effects of tax planning strategies were appropriately monitored and addressed;

Execute policies and procedures to ensure that the financial reporting and disclosure obligations related to tax contingencies were appropriately understood and considered; and

Maintain policies and procedures to ensure that the effects of deficiencies in the tax reporting process associated with value added taxes were properly reflected in the financial statements.

As a result of these deficiencies, material misstatements were identified in the Company's deferred tax assets and liabilities, valuation allowance, and tax reserves.

- 3 *Inadequate financial statement preparation and review procedures.* The Company did not maintain adequate policies and procedures, or employ sufficiently experienced personnel, to ensure that accurate and reliable interim and annual consolidated financial statements were prepared and reviewed on a timely basis. Specifically, the Company did not have:

Effective reconciliation of significant balance sheet accounts;

Effective reconciliation of subsidiary accounts to consolidating financial information;

Sufficient skills and experience in the application of U.S. generally accepted accounting principles on the part of certain subsidiaries;

Edgar Filing: RICHARDSON ELECTRONICS LTD/DE - Form DEF 14A

Policies and procedures relating to the origination and maintenance of contemporaneous documentation to support key accounting judgments made;

Effective review of presentation and disclosure requirements related to the financial statements;

Procedures to provide support for accounting entries submitted from the parent company and affiliates; and

Adequate policies and procedures related to the review and approval of accounting entries.

As a result of these deficiencies, misstatements were identified in the Company's consolidated financial statements. These deficiencies in internal control over financial reporting resulted in a more than remote likelihood that a material misstatement of the Company's interim or annual financial statements would not be prevented or detected.

- 4 *Deficiency related to the application of accounting literature.* The Company did not maintain adequate policies and procedures, or employ sufficiently experienced personnel, to ensure appropriate application of Financial Accounting Standards Board Statement No. (SFAS) 52, *Foreign Currency Translation*.

In connection with the audits of the two fiscal years ended May 28, 2005 and May 29, 2004, and the subsequent interim period through August 29, 2005, there were no disagreements with KPMG on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements if not resolved to the satisfaction of KPMG, would have caused KPMG to make reference in connection with their opinion to the subject matter of the disagreement.

During the fiscal years ended May 28, 2005 and May 29, 2004, and the subsequent interim period through August 29, 2005, there were no reportable events (as defined in Item 304(a)(1)(v) of Regulation S-K), except for the following:

In Item 9A of the Company's Annual Report on Form 10-K for the year ended May 28, 2005, as amended, management of the Company reported that it had assessed the effectiveness of the Company's internal control over financial reporting as of May 28, 2005 and had identified material weaknesses in internal control as described in the bulleted paragraphs above. Such weaknesses resulted in an adverse opinion from KPMG on the effectiveness of the Company's internal control over financial reporting as of May 28, 2005.

In Item 4 of the Company's Quarterly Report on Form 10-Q for the three months ended February 26, 2005, as amended (fiscal 2005 third quarter), the Company disclosed that KPMG reported to management and to the Audit Committee on certain matters involving internal controls that they considered to be material weaknesses. As communicated by the Company's independent auditors, these internal controls related to (i) inappropriate application of certain provisions of Financial Accounting Standards Board Statement No. 52, Foreign Currency Translation, affecting previously issued consolidated financial statements and (ii) the origination and maintenance of contemporaneous documentation of the factual support or key judgments made in connection with the execution of several legal documents that represented important accounting events. The misapplication affected reported currency translation in previously issued consolidated financial statements for fiscal years ending 2002 and 2003, the four quarters of fiscal 2004 and the first two quarters of fiscal 2005.

Also during the fiscal 2005 third quarter, the Company's independent auditors reported to management and to the Audit Committee on certain matters involving internal controls regarding income taxes that they considered to be material weaknesses, including (i) lack of appropriate quarterly analysis of the valuation of deferred tax assets in accordance with Financial Accounting Standards Board Statement No. 109, Accounting for Income Taxes, (ii) lack of consideration of Accounting Principle Board Opinion (APB) No. 23, Undistributed Earnings of Subsidiaries, and (iii) lack of appropriate quarterly analysis of tax liabilities.

In Item 9A of the Company's Annual Report on Form 10-K for the year ended May 29, 2004, as amended, the Company disclosed that KPMG reported to management and to the Audit Committee on certain matters involving internal controls that they considered to be material weaknesses in the Company's internal control over financial reporting. KPMG stated that none of the identified material weaknesses resulted in material inaccuracies in the Company's financial results for the fiscal year ended May 29, 2004.

The identified material weaknesses relate to the need for (i) enhancement of formal policies and procedures, including standard reporting package and assignment of responsibilities, for international consolidation process to ensure timely and effective reporting of foreign subsidiaries financial information and consolidation; (ii) improved reconciliation process for the migration of financial information from local systems of foreign subsidiaries to the PeopleSoft system at headquarters; (iii) improved documentation of management review and reconciliation performance; and (iv) enhancement of documentation for policies and procedures, improved segregation of duties and audit trails for changes in information technology of the Company.

The subject matter of the material weaknesses described above was discussed by the Company's management and the Audit Committee of the Board of Directors of the Company with KPMG at the time. In connection with the retention of Ernst & Young as the Company's independent registered public accounting firm, the Company authorized KPMG to respond fully to the inquiries of Ernst & Young concerning these issues.

The Company has provided KPMG and Ernst & Young with a copy of the foregoing disclosures and each had an opportunity to furnish a letter to the Securities and Exchange Commission if it did not agree with the above statements.

**PROPOSAL TO RATIFY THE APPOINTMENT OF THE COMPANY'S INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM**

The Audit Committee expects to engage Ernst & Young to serve as the Company's independent registered public accounting firm for the fiscal year ending June 2, 2007.

Although the Audit Committee is not required to do so, it is submitting its expected selection of the Company's independent registered public accountants for ratification at the Annual Meeting in order to ascertain the views of its stockholders. The Audit Committee will not be bound by the vote of the stockholders; however, if the proposed selection is not ratified, the Audit Committee would reconsider its selection.

THE BOARD OF DIRECTORS RECOMMENDS THAT THE STOCKHOLDERS VOTE FOR RATIFICATION OF THE APPOINTMENT OF ERNST & YOUNG AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR FISCAL YEAR ENDING JUNE 2, 2007.
