**Item 2.05. Costs Associated with Exit or Disposal Activities.**

Jamba, Inc. (the Company) has embarked on an aggressive plan to invest in infrastructure and increase brand presence in order to build the foundation for accelerated growth over the coming years. In fiscal 2008, the Company has encountered a challenging economic environment that has adversely affected customer traffic, particularly in California, continuing cost pressures from increases in minimum wage, commodities, and other operating expenses, and lower than forecasted sales volumes of certain new Company stores. In response to those conditions, on May 13, 2008, the Company made the determination to reduce the Company's workforce and close certain underperforming Company stores. These actions were part of an overall effort to reduce operating costs in light of the Company's decision to moderate new Company store growth in fiscal 2008 and increase its operational efficiency. The Company believes these efforts are critical components to the future success of the Company.

Approximately 53 employees will be affected as a result of the workforce reduction. On May 15, 2008, the Company notified the affected employees. The employees affected by this workforce reduction represent approximately 19% of the employees located at the Company's support center in Emeryville, California and field employees responsible for operational supervision, recruiting, training, local marketing, and real estate matters. The Company currently estimates that, in connection with the workforce reduction, it will incur a pre-tax restructuring charge in fiscal second quarter of approximately \$750,000, almost all of which is related to severance costs estimated to be incurred in connection with the reduction in workforce. Substantially all of the restructuring charge will result in future cash expenditures, which the Company believes will all occur in fiscal 2008. Although the Company believes that its estimates are appropriate and reasonable based on available information, actual results could differ from these estimates.

In addition, the Company plans to close 10 underperforming Company stores during this fiscal year and terminate 7 signed leases for un-built stores. The decision to take this action resulted from a thorough assessment and analysis of the trade area and market conditions for these stores or locations.

At this time, the Company is unable in good faith to make a determination of an estimate or range of estimates required by paragraphs (b), (c) and (d) of Item 2.05 of Form 8-K with respect to the charges related to the lease terminations and closings of these 10 stores and lease terminations of 7 signed leases for un-built stores. As permitted by Item 2.05 of Form 8-K, the Company will file an amendment to this Report under Item 2.05 within four business days after the Company's determination of such estimate or range of estimates. Once determined, the Company expects to record the majority of these costs during fiscal 2008 as the affected stores are closed and leases are terminated.

In addition, the Company plans to further slow capital spending and the rate of new store openings and has therefore determined to further moderate new Company store growth in fiscal 2008 to 35-40 stores.
