SEACHANGE INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements as of October 31, 2008 and for the three and nine months ended October 31, 2008 and 2007 include the accounts of SeaChange International, Inc. and its subsidiaries (SeaChange or the Company). SeaChange believes that the unaudited condensed consolidated financial statements reflect all adjustments (consisting of only normal recurring adjustments), necessary for a fair statement of SeaChange s financial position, results of operations and cash flows at the dates and for the periods indicated. The results of operations for the periods presented are not necessarily indicative of results expected for the full fiscal year or any other future periods. The unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes for the year ended January 31, 2008, filed on April 14, 2008 included in SeaChange s Annual Report on Form 10-K for such fiscal year. The balance sheet at January 31, 2008 was derived from audited financial statements but does not include all disclosures required by accounting principles generally accepted in the United States of America. Certain reclassifications have been made to conform prior period amounts to current period presentation, including the reclassification of revenue originated in Canada and South America to North American revenue as discussed in Note 6. This reclassification had no impact on the Company s results of operations or financial position.

Principles of Consolidation

The Company consolidates the financial statements of its wholly owned subsidiaries and all inter-company accounts are eliminated in consolidation. SeaChange also holds minority investments in the capital stock of certain private companies having product offerings or customer relationships that have strategic importance. The Company evaluates its equity and debt investments and other contractual relationships with affiliate companies in order to determine whether the guidelines of FASB Interpretation (FIN) No. 46, Consolidation of Variable Interest Entities, as revised under FIN 46R should be applied in the financial statements. FIN No. 46R addresses consolidation by business enterprises of variable interest entities that possess certain characteristics. A variable interest entity (VIE) is defined as an entity in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support. The primary beneficiary is required to consolidate the financial position and results of the VIE. Since the adoption of FIN 46R, the Company concluded that FIN 46R has not required the consolidation of any affiliated company.

The Company s investments in affiliates include investments accounted for under the cost method and the equity method of accounting. The investments that represent less than a 20% ownership interest of the common shares of the affiliate are carried at cost. Under the equity method of accounting, which generally applies to investments that represent 20% to 50% ownership of the common shares of the affiliate, SeaChange s proportionate ownership share of the earnings or losses of the affiliate are included in equity income (loss) in earnings of affiliates in the condensed consolidated statement of operations.

Goodwill

In connection with acquisitions of operating entities, the Company recognizes the excess of the purchase price over the fair value of the net assets acquired as goodwill. Goodwill is not amortized, but is evaluated for impairment, at the reporting unit level, annually in the third fiscal quarter. Goodwill of a reporting unit also is tested for impairment on an interim basis in addition to the annual evaluation if an event occurs or circumstances change which would more likely than not reduce the fair value of a reporting unit below its carrying amount.

The process of evaluating goodwill for impairment requires several judgments and assumptions to be made to determine the fair value of the reporting units, including the method used to determine fair value, discount rates, expected levels of cash flows, revenues and earnings, and the selection of comparable companies used to develop market based assumptions.

In the third quarter, the Company changed the timing of its annual goodwill impairment testing for its Media Services reporting unit from October 31, 2008 to August 1, 2008. This change did not delay, accelerate or avoid an impairment charge (see Note 6). A letter from our independent auditors, Grant Thornton LLP discussing this change is included with this report as Exhibit 18.1.

2. Fair Value Measurements

The Company adopted the provisions of Statement of Financial Account Standard No. 157 and FASB Staff Position FAS 157-2, *Fair Value Measurements* (SFAS 157 and FSP FAS 157-2) on February 1, 2008. The adoption of these pronouncements did not have a material effect on the Company s financial position or results of operations. Accordingly, the Company is continuing to apply Statement of Financial Accounting Standard No. 115, *Accounting for Certain Investments in Debt and Equity Securities* (SFAS 115) for its available for sale securities with offsetting unrealized gains and losses reported in other comprehensive income or loss. Per SFAS 157, the Company is providing fair value measurement disclosures of its available for sale securities in accordance with one of three levels of fair value measurement.

Table of Contents

SFAS 157 defines fair value to be the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and emphasizes that fair value is a market-based measurement, not an entity-specific measurement. It establishes a fair value hierarchy and expands disclosures about fair value measurements in both interim and annual periods. SFAS 157 enables the reader of the financial statements to assess the inputs used to develop fair value measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. FSP FAS 157-2 defers the effective date of SFAS 157 until January 2009 for non-financial assets and non-financial liabilities that are recognized or disclosed in the financial statements on a nonrecurring basis. SFAS 157 requires that assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The Company s financial assets and liabilities that are measured at fair value on a recurring basis as of October 31, 2008 are as follows:

	October 31, 2008	Fair Value Measurements Using		
		Level 1	Level 2	Level 3
		(in thousands)		
Financial assets:				
Available for sale marketable securities:				
Current marketable securities	$ 10,994	$ 10,994	$	$
Non-current marketable securities	11,990	10,990		1,000
Total	$ 22,984	$ 21,984	$	$ 1,000

The Company relies on mark to market valuations to record the fair value of the Company s available for sale security assets which are measured under a Level 1 input. These assets are publicly traded equity securities for which market prices are readily observable and recorded under the guidelines of SFAS 115. At October 31, 2008, we had $11.0 million in short-term marketable securities and $12.0 million in long-term marketable securities. Of the $23.0 million in available-for-sale securities at October 31, 2008, the Company holds $1.0 million in auction rate securities (ARS) that were intended to provide liquidity via an auction process that resets the applicable interest rate in the event there is no new investment in these securities. Due to recent uncertainty in the credit markets, this $1.0 million ARS holding in our investment portfolio has failed to settle on its respective settlement date resulting in illiquidity in this investment. Consequently, we have not been able to access these funds and do not expect to do so until a future auction of these investments is successful or a buyer is found outside the auction process. Although the maturity date of the underlying security of our ARS investment is twenty-three years, we currently have sufficient cash and cash equivalents, cash from operations and access to unused credit facilities to meet our short term liquidity requirements and do not anticipate that we will need to access our ARS investment. Accordingly, the Company has classified this investment at par value which approximates fair value.

3. Inventories

Inventories consist of the following:

	October 31, 2008	January 31, 2008
	(in thousands)	
Components and assemblies	$ 11,073	$ 9,979
Finished products	6,399	4,336
Total	$ 17,472	$ 14,315

4. Investments in Affiliates

On Demand Group Limited

In fiscal year 2006, SeaChange acquired the outstanding shares in On Demand Group Limited (ODG) it did not previously own in exchange for approximately $14.0 million in cash consideration, including transaction costs of $500,000. Two of the former shareholders of ODG became executive officers of SeaChange in conjunction with the acquisition. The purchase agreement provided for additional contingent consideration to the former shareholders of ODG, if ODG met certain goals. The contingent consideration was paid in cash or issued of SeaChange common stock in four installments. In May 2006, SeaChange paid $3.0 million in cash to satisfy the first installment. On June 30, 2006, SeaChange and the former shareholders of ODG amended the original purchase agreement to provide for the acceleration of the second installment of contingent consideration in exchange for the issuance of

341,360 shares of SeaChange s common stock having a fair market value of $2.3 million as of the date of the amendment. In December 2007 SeaChange and the former shareholders of ODG amended the original purchase agreement to provide the former shareholders of ODG 417,304 shares of SeaChange s common stock which was satisfied in March 2008 having a fair market value of $3.2 million as of the date of the amendment in satisfaction of the third installment. On March 13, 2008, SeaChange and the former stockholders of ODG amended the original purchase agreement to provide for the satisfaction of the final contingent by payment through the issuance in March 2008 of 714,084 shares of SeaChange s common stock having a fair market value of $4.9 million as of the date of the amendment. As of January 31, 2008 the Company recorded the third and fourth contingent consideration installments totaling $8.1 million, as additional goodwill for the step up acquisition of ODG and issued 1,131,388 shares of common stock in the first quarter of fiscal 2009.

On Demand Deutschland GmbH & Co. KG

On February 27, 2007, ODG, a wholly-owned subsidiary of SeaChange, entered into an agreement with Tele-Munchen Fernseh GmbH & Co. Produktionsgesellschaft (TMG) to create a joint venture named On Demand Deutschland GmbH & Co. KG. On Demand Deutschland specializes in establishing on-demand and pay-per-view services on multiple platforms in German-speaking Europe. ODG contributed $2.8 million to acquire its 50% ownership interest in the joint venture of which $2.6 million consisted of the fair value of customer contracts and content license agreements contributed by ODG and $154,000 represented a cash contribution. The customer contracts and licensed content had no book value. SeaChange determined that this investment is an operating joint venture and does not require consolidation under the accounting guidance of FIN No. 46R. Consequently, SeaChange accounts for this investment under the equity method of accounting.

ODG s original investment in the joint venture was recorded at $154,000 representing the US dollar equivalent of the initial cash contribution. The difference between the book and fair value of the customer contracts and content license agreements is being accreted over the expected five year life of the contracts and recorded as a gain and an increase in the investment. This gain will be partially offset by ODG s 50% share of the joint venture s amortization expense over the same period related to the acquired contracts and content license agreements. ODG also recorded a net payable amount to the joint venture of $337,000 as of the joint venture formation date (February 27, 2007) reflecting the transfer of net liabilities incurred by ODG related to the joint venture as well as the joint venture s reimbursement of previously incurred costs by ODG of $787,000 related to joint venture activities prior to its formation. Consistent with EITF 89-7, *Exchange of Assets or Interest in a Subsidiary for a Noncontrolling Equity Interest in a New Entity,* ODG did not record other income in connection with the reimbursement of these costs or any other gains as ODG is deemed to have a commitment to support the operations of the joint venture. ODG treated the reimbursement and other gain for a total of $869,000 as a capital distribution in excess of the carrying value of its investment in the joint venture as of April 30, 2007. This capital distribution will be accreted over the expected five year life of the customer contracts and recorded as a gain and an increase in the investment in the joint venture. ODG recorded an income tax provision during the quarter ended April 30, 2007 of $1.1 million for the taxable gain recognized by ODG related to the $2.6 million contribution of customer contracts and content licenses to and the reimbursement of previously paid costs from the joint venture.

ODG entered into a Service Agreement with the joint venture whereby ODG provides content aggregation, distribution, marketing and administration services to the joint venture under an arm s length fee structure. In the three months and nine months ended October 31, 2008 and 2007, ODG recorded revenues of $360,000 and $208,000 and $1.3 million and $677,000 respectively, related to the Service Agreement. ODG s share of profits from this agreement in proportion to its equity ownership interest is eliminated in consolidation.

The Shareholder s Agreement requires ODG to provide cash contributions up to $4.2 million (USD equivalent) upon the request of the joint venture s management and approval by the shareholders of the joint venture. ODG recorded its proportionate share of the joint venture s losses for the three months ending October 31, 2008 and 2007 of $179,000 and $148,000, respectively. For the nine months ending October 31, 2008 and 2007, ODG recorded losses of $576,000 and $301,000, respectively. Due to the capital distribution and ODG s share of the joint venture s net loss exceeding the book value of its investment in the joint venture, the investment is recorded as a long-term liability of $1.6 million and $1.3 million at October 31, 2008 and January 31, 2008, respectively.

InSite One

In April 2008, the Company converted the outstanding accounts receivable balance of $432,000 owed to the Company by InSite One as of January 31, 2008 for $100,000 and 474,300 shares of InSite One s Series E Convertible Preferred Stock. The Company has approximately 12% share of the total capital stock of InSite One. SeaChange accounts for this investment under the cost method of accounting.

5. Commitments and Contingencies

SeaChange provides indemnification, to the extent permitted by law, to its officers, directors, employees and agents for liabilities arising from certain events or occurrences while the officer, director, employee, or agent is or was serving at SeaChange s request in such capacity. With

respect to acquisitions, SeaChange provides indemnification to or assumes indemnification obligations for the current and former directors, officers and employees of the acquired companies in accordance with the acquired companies bylaws and charter. As a matter of practice, SeaChange has maintained directors and officers liability insurance including coverage for directors and officers of acquired companies.

SeaChange enters into agreements in the ordinary course of business with customers, resellers, distributors, integrators and suppliers. Most of these agreements require SeaChange to defend and/or indemnify the other party against intellectual property infringement claims brought by a third party with respect to SeaChange s products. From time to time, SeaChange also indemnifies customers and business partners for damages, losses and liabilities they may suffer or incur relating to personal injury, personal property damage, product liability, and environmental claims relating to the use of SeaChange s products and services or resulting from the acts or omissions of SeaChange, its employees, authorized agents or subcontractors. For example, SeaChange has received requests from several of its customers for indemnification of patent litigation claims asserted by Acacia Media Technologies, USA Video Technology Corporation and VTran Media Technologies. Management performed an analysis of these requests under Statement of Financial Accounting Standards No. 5, *Accounting for Contingencies* (SFAS 5) and determined that, as of October 31, 2008, $50,000 was estimable and probable and has recorded an accrual.

SeaChange warrants that its products, including software products, will substantially perform in accordance with its standard published specifications in effect at the time of delivery. Most warranties have at least a one year duration that generally commence upon installation. In addition, SeaChange provides maintenance support to all customers and therefore allocates a portion of the product purchase price to the initial warranty period and recognizes revenue on a straight line basis over that warranty period related to both the warranty obligation and the maintenance support agreement. When SeaChange receives revenue for extended warranties beyond the standard duration, it is deferred and recognized on a straight line basis over the contract period. Related costs are expensed as incurred.

In the ordinary course of business, SeaChange provides minimum purchase guarantees to certain of its vendors to ensure continuity of supply against the market demand. Although some of these guarantees provide penalties for cancellations and/or modifications to the purchase commitments as the market demand decreases, most of the guarantees do not. Therefore, as the market demand decreases, SeaChange re-evaluates the accounting implications of guarantees and determines what charges, if any, should be recorded.

With respect to its agreements covering product, business or entity divestitures and acquisitions, SeaChange provides certain representations and warranties and agrees to indemnify and hold such purchasers harmless against breaches of such representations, warranties and covenants. Many of the indemnification claims have a definite expiration date while some remain in force indefinitely. With respect to its acquisitions, SeaChange may, from time to time, assume the liability for certain events or occurrences that took place prior to the date of acquisition.

SeaChange provides such guarantees and indemnification obligations after considering the economics of the transaction and other factors including but not limited to the liquidity and credit risk of the other party in the transaction. SeaChange believes that the likelihood is remote that any such arrangement could have a material adverse effect on its financial position, results of operation or liquidity. SeaChange records liabilities, as disclosed above, for such guarantees based on the Company s best estimate of probable losses which considers amounts recoverable under any recourse provisions.

6. Segment Information

Until the end of fiscal 2008, the Company was managed and operated as three segments, Broadcast, Broadband and Services. In its first quarter of fiscal 2009, the Company realigned its previously reported segments into three new reporting segments: Software, Servers and Storage, and Media Services, as segments defined by SFAS No. 131, *Disclosure about Segments of an Enterprise and Related Information*. The Company believes this reorganization better reflects the increasing importance and magnitude of its software products and services as well as the scale of its ODG subsidiary. A description of the three new reporting segments is as follows:

Software segment includes product revenues from the Company s Advertising, VOD, Middleware and Broadcast software, related services such as professional services, installation, training, project management, product maintenance, technical support and software development for those software products, and operating expenses relating to the Software segment such as research and development, selling and marketing and amortization of intangibles.

Servers and Storage segment includes product revenues from the VOD and Broadcast server product lines and related services such as professional services, installation, training, project management, product maintenance, and technical support for those products and operating expenses relating to the Servers and Storage segment, such as research and development and selling and marketing.

Media Services segment includes the operations of ODG including content acquisition and preparation services for television and wireless network service providers and related operating expenses.

Under this revised reporting structure, the Company further determined that there are significant functions, and therefore costs, that are considered corporate expenses and are not allocated to the reportable segments for the purposes of assessing performance and making operating decisions. These unallocated costs include general and administrative expenses, other than general and administrative expenses related to ODG, interest, taxes and equity earnings in affiliates, which are managed separately at the corporate level.

The segment data for the three and nine months ended October 31, 2007 has been recast to reflect the realignment of the new segments. Prior to fiscal 2009, services revenues, which included ODG revenues, were reported in the Services segment and the Company did not separately track these service revenues and costs by these new segments, except for ODG. Accordingly, management has made certain assumptions to determine the amount of service revenues and service costs attributed to the Software and Servers and Storage reporting segments for the three and nine months ended October 31, 2007. The basis of the assumptions for all such revenues, costs and expenses includes significant judgments and estimations. There are no inter-segment revenues for the periods shown below. The Company does not separately track all assets by operating segments nor are the segments evaluated under this criterion. The following summarizes the revenues, gross profit, operating expenses and income from operations by reportable segment:

Table of Contents

	Three Months Ended October 31,		Nine Months Ended October 31,	
	2008	2007	2008	2007
	(in thousands)

Consolidated income (loss) from operations	$ 4,967	$ 3,065	$ 6,280	$ (9,560)

Table of Contents

The following table summarizes percentage of revenues by geographic locations:

	Three Months Ended October 31, 2008	Three Months Ended October 31, 2007	Nine Months Ended October 31, 2008	Nine Months Ended October 31, 2007
	(in thousands)			
Revenues:				
North America	74%	68%	70%	66%
Latin America	2%	3%	2%	4%
Europe and Middle East	19%	20%	21%	22%
Asia Pacific and other international locations	5%	9%	7%	7%
Total	100%	100%	100%	100%

The following summarizes revenues by significant customer where such revenue exceeded 10% of total revenues for the indicated period:

	Three Months Ended October 31, 2008	Three Months Ended October 31, 2007	Nine Months Ended October 31, 2008	Nine Months Ended October 31, 2007
Customer A	36%	30%	33%	33%
Customer B	11%	14%	13%	14%
Customer C	10%			

At October 31, 2008, two different customers accounted for approximately 27% and 23%, respectively, of the accounts receivable and unbilled receivables balances. At January 31, 2008, two customers accounted for 23% and 18%, respectively, of SeaChange s accounts receivable and unbilled receivables balances.

During the second quarter of fiscal 2009, the Company finalized its reallocation of goodwill to the Company s new reportable segments and changes in the carrying amount of goodwill for the first nine months of fiscal 2009, as follows:

	Broadband	Services	Software	Goodwill Servers & Storage	Media Services	Total
			(in thousands)			
Balance at January 31, 2008	$ 11,169	$ 18,302	$	$	$	$ 29,471
Reallocation	(11,169)	(18,302)	10,398	771	18,302	
Cumulative Translation Adjustment					(3,145)	(3,145)
Balance at October 31, 2008	$	$	$ 10,398	$ 771	$ 15,157	$ 26,326

The goodwill reallocation shown in the table above relates to the reorganization of the Company s reportable segments. The goodwill formerly included in the Broadband and Services segments was allocated between the Software, Servers and Storage and Media Services segments based on a relative fair value approach using management estimates of fair value of the segments. No impairment was recorded as a result of the change in segments. As of August 1, 2008, SeaChange reviewed the recoverability of goodwill associated with its three reporting units, Software, Servers and Storage and Media Services, and determined that there was no goodwill impairment (Note 1 and Exhibit 18.1).

7. Income Taxes

For the three and nine months ended October 31, 2008, the Company recorded an income tax provision of $1.5 million on a profit before tax of $5.0 million and an income tax provision of $2.1 million on a profit before tax of $7.9 million, respectively, resulting in an effective income tax provision rate of 29% and 27%, respectively.

For the three and nine months ended October 31, 2007, the Company recorded income tax provisions of $493,000 and $1.9 million, respectively, on a profit before tax of $3.5 million and on a loss before tax of $8.1million, respectively, resulting in an effective income tax provision rates of

14% and 23%, respectively. Of these amounts, $1.1 million was attributable to taxable gains for ODG s transfer of assets to and the reimbursement of previously paid costs from On Demand Deutschland GmbH & Co. KG, the German joint venture formed in February 2007 with Tele-Munchen Fernseh GmbH & Co. Produktionsgesellschaft. In addition, the Company exhausted its U.S. tax benefit carry back potential in fiscal 2007, thus eliminating any recording of U.S. tax benefit for fiscal 2008.

As of October 31, 2008, the Company has maintained the full valuation allowance against its net U.S. deferred tax assets primarily due to the uncertainties related to the Company s ability to generate sufficient pre-tax income for fiscal 2009 and thereafter. If SeaChange generates sufficient pre-tax income in the future, some portion or all of the valuation allowance could be reversed and a corresponding increase in net income would be reported in future periods.

Table of Contents

8. Comprehensive (Loss) Income

During the third quarter of fiscal year 2009, the U.S. dollar increased in strength against the foreign currencies held by our subsidiaries. The Company s ODG operations in the United Kingdom generated a foreign currency translation loss of $7.1 million which was recorded as accumulated other comprehensive loss reducing the Company s equity section of the balance sheet over the prior period.

The components of comprehensive (loss) income consisted of the following:

	Three Months Ended October 31,		Nine Months Ended October 31,	
	2008	2007	2008	2007
	(in thousands)			
Net income (loss)	$ 3,367	$ 3,305	$ 5,197	$ (9,128)
Other comprehensive income (loss):				
Foreign currency translation adjustment	(7,129)	467	(7,336)	1,139
Unrealized (loss) gain on marketable securities	(47)	94	(325)	168
Other comprehensive (loss) income	(7,176)	561	(7,661)	1,307
Comprehensive (loss) income	$ (3,809)	$ 3,866	$ (2,464)	$ (7,821)

9. Earnings (Loss) Per Share

Earnings (loss) per share are presented in accordance with SFAS No. 128, Earnings Per Share, which requires the presentation of basic earnings (loss) per share and diluted earnings (loss) per share. Basic earnings (loss) per share are computed by dividing earnings (loss) available to common shareholders by the weighted-average shares of common stock outstanding during the period. For the purposes of calculating diluted earnings (loss) per share, the denominator includes both the weighted average number of shares of common stock outstanding during the period and the weighted average number of shares of potential common stock, such as stock options and restricted stock units and warrants, calculated using the treasury stock method.

For the three and nine months ended October 31, 2008, 3,532,000 and 3,961,000 common stock equivalents respectively were anti-dilutive based on the Company s stock price being lower than the option exercise or strike price. The number of shares that were anti-dilutive for the three and nine month periods ended October 31, 2007 were 4,881,000 and 4,141,000 shares, respectively.

Below is a summary of the shares used in calculating basic and diluted income (loss) per share for the periods indicated:

	Three Months Ended October 31,		Nine Months Ended October 31,	
	2008	2007	2008	2007
	(in thousands)			
Weighted average shares used in calculating earnings per share Basic	30,514	29,577	30,729	29,503
Dilutive common stock equivalents	629	103	467	
Weighted average shares used in calculating earnings per share Diluted	31,143	29,680	31,196	29,503

10. Recently Issued Accounting Pronouncements

In October 2008, the FASB issued FASB Staff Position No. FAS 157-3, Determining the Fair Value of a Financial Asset in a Market That Is Not Active (FSP 157-3), which clarifies the application of SFAS 157 when the market for a financial asset is inactive. Specifically, FSP 157-3 clarifies how (1) management s internal assumptions should be considered in measuring fair value when observable data are not present, (2) observable market information from an inactive market should be taken into account, and (3) the use of broker quotes or pricing services

should be considered in assessing the relevance of observable and unobservable data to measure fair value. The guidance in FSP 157-3 was effective during the Company s third fiscal quarter, and had no material impact upon the Company s results of operations and financial position.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51* (SFAS 160). SFAS 160 establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. The guidance will become effective for fiscal years beginning after December 15, 2008. SFAS 160 is effective for the Company beginning February 1, 2009. The Company is currently assessing the impact that FASB 160 may have on its results of operations and financial position.

Table of Contents

In March 2008, the FASB issued FASB Statement No. 161 (SFAS 161), *Disclosures about Derivative Instruments and Hedging Activities*. SFAS 161 is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity s financial position, financial performance, and cash flows. It is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Company is currently evaluating the impact of adopting SFAS 161 on its results of operations and financial position. The Company does not currently have any derivative instruments or hedging activities.

On December 12, 2007, the FASB ratified Emerging Issues Task Force (EITF) Issue No. 07-01, *Accounting for Collaborative Arrangements* (EITF 07-01). EITF 07-01 defines collaborative arrangements and establishes reporting requirements for transactions between participants in a collaborative arrangement and between participants in the arrangement and third parties. EITF 07-01 also establishes the appropriate income statement presentation and classification for joint operating activities and payments between participants, as well as the sufficiency of the disclosures related to these arrangements. EITF 07-01 is effective for fiscal years beginning after December 15, 2008 (February 1, 2009, for the Company). Companies are required to apply EITF 07-01 using a modified version of retrospective transition for those arrangements in place at the effective date. In addition, companies are required to report the effects of the application of EITF 07-01 as a change in accounting principle through retrospective application to all prior periods presented for all arrangements existing as of the effective date, unless it is impracticable to apply the effects of the change retrospectively. The Company is currently assessing the impact that EITF 07-01 may have on its results of operations and financial position.

On April 25, 2008, the FASB issued FASB Staff Position (FSP) FAS 142-3, *Determination of the Useful Life of Intangible Assets*, which revises the factors that an entity should consider to develop renewal or extension assumptions used in determining the useful life of a recognized intangible asset. The FSP amends paragraph 11(d) of SFAS 142. The FSP is effective for financial statements issued for fiscal years beginning after December 15, 2008 (February 1, 2009, for the Company) and for interim periods within those fiscal years. Early adoption is prohibited. Entities should apply the FSP s guidance in determining the useful life of an intangible asset prospectively to recognized intangible assets acquired after the FSP s effective date. However, once effective, the FSP s disclosure requirements apply prospectively to all recognized intangible assets, including those acquired before the FSP s effective date. The Company is currently assessing the impact that FAS 142-3 may have on its results of operations and financial position.

In December 2007, the FASB issued SFAS No. 141 (R) *Business Combinations* (SFAS 141R). SFAS 141R establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. SFAS 141R also provides guidance for recognizing and measuring the goodwill acquired in the business combination and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The guidance will become effective as of the beginning of the Company s fiscal year beginning after December 15, 2008. SFAS No. 141R is effective for the Company beginning February 1, 2009. SFAS 141R will have an impact on accounting for business combinations once adopted but the effect is dependant upon acquisitions at that time.

11. Subsequent Event

On November 19, 2008, ODG, a wholly-owned subsidiary of SeaChange entered into a Share Purchase Agreement (the Share Purchase Agreement) providing for the purchase by ODG of all the outstanding capital stock (the Mobix Shares) of Mobix Interactive Limited (Mobix). Mobix is a London, England based company that provides software and content services related to the deployment of mobile video services for wireless network operators.

At the closing, ODG paid the shareholders of Mobix approximately £2 million (approximately $3 million) in cash for the Mobix Shares, with an additional £1 million (approximately $1.5 million) deposited in escrow to be released on the later of February 19, 2009 and the date certain performance goals have been satisfied, with the amount of the escrow being subject to reduction should there have been a breach of the representations, warranties, covenants and agreements contained in the Share Purchase Agreement.

In addition, under the earnout provisions in the Share Purchase Agreement, if Mobix meets certain performance goals, primarily related to the financial performance of Mobix, over the period ending November 19, 2011, ODG will be obligated to make additional cash payments aggregating £8.29 million (approximately $12.4 million). The contingent consideration will be reduced or increased based upon Mobix s actual performance relative to the performance goals.

ITEM 2. Management s Discussion and Analysis of Financial Condition and Results of Operations
Factors That May Affect Future Results

Any statements contained in this Form 10-Q that do not describe historical facts may constitute forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. These statements relate to future events or our future financial

Table of Contents

performance and are identified by words such as may, will, could, should, expect, plan, intend, seek, anticipate, believe, esti continue or other comparable terms or the negative of those terms. Forward-looking statements in this Form 10-Q include certain statements regarding the effect of certain accounting standards on our financial position and results of operations, the effect of certain legal claims against us, projected changes in our revenues, earnings and expenses, exchange rate sensitivity, interest rate sensitivity, liquidity, product introductions and general market conditions. Our actual future results may differ significantly from those stated in any forward-looking statements. Any such forward-looking statements contained herein are based on current expectations, but are subject to a number of risks and uncertainties that may cause actual results to differ materially from expectations. The factors that could cause actual future results to differ materially from current expectations include the following: the continued growth, development and acceptance of the video-on-demand market; the loss of one of our large customers; the cancellation or deferral of purchases of our products; the timing of significant customer orders; the length of our sales cycles; a decline in demand or average selling price for our products; our ability to manage our growth; our ability to protect our intellectual property rights and the expenses that may be incurred by us to protect our intellectual property rights; an unfavorable result of current or future litigation; content providers limiting the scope of content licensed for use in the video-on-demand market; our ability to introduce new products or enhancements to existing products; our dependence on certain sole source suppliers and third-party manufacturers; our ability to obtain license or distribution rights for certain technologies; our ability to compete in our marketplace; our ability to respond to changing technologies; the risks associated with international sales; the performance of companies in which we have made equity investments, including Casa Systems, Inc., and On Demand Deutschland GmbH & Co. KG; our ability to integrate businesses acquired by us, including Mobix Interactive Limited; changes in the regulatory environment and our ability to hire and retain highly skilled employees; any weaknesses over internal controls over financial reporting; any additional tax liabilities; and system errors, failures or interruptions. Further information on factors, including those listed above, that could cause actual results to differ from those anticipated is detailed in various filings made by us from time to time with the Securities and Exchange Commission, including but not limited to, those appearing in Part I, Item 1A. Risk Factors, in our Annual Report on Form 10-K filed with the Securities and Exchange Commission on April 14, 2008. Any forward looking statements should be considered in light of those factors.

Overview

We are a leading developer, manufacturer and marketer of digital video systems and services including the management, aggregation, licensing, storage, and distribution of video, television, gaming and advertisement content to cable system operators, telecommunications companies and broadcast television companies.

Until the end of fiscal 2008, the Company was managed and operated as three segments, Broadcast, Broadband and Services. In its first quarter of fiscal 2009, the Company realigned its previously reported segments into three new reporting segments: Software, Servers and Storage, and Media Services as segments defined by SFAS No. 131*, Disclosure about Segments of an Enterprise and Related Information*. The Company believes this reorganization better reflects the increasing importance and magnitude of its software products and services as well as the scale of its ODG subsidiary. A description of the three new reporting segments is as follows:

Software segment includes product revenues from the Company s Advertising, VOD, Middleware and Broadcast software, related services such as professional services, installation, training, project management, product maintenance, technical support and software development for those software products, and operating expenses relating to the Software segment such as research and development, selling and marketing and amortization of intangibles.

Servers and Storage segment includes product revenues from VOD and Broadcast server product lines and related services such as professional services, installation, training, project management, product maintenance, and technical support for those products and operating expenses relating to the Servers and Storage segment, such as research and development and selling and marketing.

Media Services segment includes the operations of ODG including content acquisition, and preparation services for television and wireless network service providers and related operating expenses.

Under this revised reporting structure, the Company determined there are significant functions, and therefore costs, that are considered corporate expenses and are not allocated to the reportable segments for the purposes of assessing performance and making operating decisions. These unallocated costs include general and administrative expenses, other than general and administrative expenses related to ODG, interest, taxes and equity earnings in affiliates, which are managed separately at the corporate level. In the third quarter, the Company changed the timing of its annual goodwill impairment testing for its Media Services reporting unit from October 31, 2008 to August 1, 2008. This change did not delay, accelerate or avoid an impairment charge (see Note 6). A letter from our independent auditors, Grant Thornton LLP discussing this change is

included with this report as Exhibit 18.1.

The Segment data for the three and nine months ended October 31, 2007 has been recast to reflect the realignment of the new segments. Prior to fiscal 2009, services revenues, which included ODG revenues, were reported in the Services segment and the Company did not separately track these service revenues and costs by these new segments, except for ODG. Accordingly, management has made certain assumptions to determine the amount of service revenues and service costs attributed to the Software and Servers and Storage reporting segments for the three and nine months ended October 31, 2007. The basis of the assumptions for all such revenues, costs and expenses includes significant judgments and estimations. There are no inter-segment revenues for the periods. The Company does not separately track all assets by operating segments nor are the segments evaluated under this criterion.

Table of Contents

We have experienced fluctuations in our product revenues from quarter to quarter due to the timing of the receipt of customer orders and the shipment of those orders. The factors that impact the timing of the receipt of customer orders include among other factors:

- the customer s receipt of authorized signatures on their purchase orders;
- the budgetary approvals within the customer s company for capital purchases; and
- the ability to process the purchase order within the customer s organization in a timely manner.

Factors that may impact the shipment of customer orders include:

- the availability of material to produce the product;
- the time required to produce and test the product before delivery; and
- the customer s required delivery date.

The delay in the timing of receipt and shipment of any one customer order can result in significant fluctuations in our revenue reported on a quarterly basis.

Our operating results are significantly influenced by a number of factors, including the mix of products sold and services provided, pricing, costs of materials used in our products and the expansion of our operations during the fiscal year. We price our products and services based upon our costs and consideration of the prices of competitive products and services in the marketplace. The costs of our products primarily consist of the costs of components and subassemblies that have generally declined from product introduction to product maturity. As a result of the growth of our business, our operating expenses have historically increased in the areas of research and development, selling and marketing and administration. In the current state of the economy, we currently expect that customers may still have limited capital spending budgets as we believe they are dependent on advertising revenues to fund their capital equipment purchases. Accordingly, we expect our financial results to vary from quarter to quarter and our historical financial results are not necessarily indicative of future performance. In light of the higher proportion of our international business, we expect movements in foreign exchange rates to have a greater impact on our operating results and the equity section of our balance sheet in the future.

Our ability to continue to generate revenues within the markets that our products are sold and to generate cash from operations and net income is dependent on several factors which include:

- market acceptance of the products and services offered by our customers and increased subscriber usage and demand for these products and services;
- selection by our customers of our products and services versus the products and services being offered by our competitors;
- our ability to introduce new products to the market in a timely manner and to meet the demands of the market for new products and product enhancements;

- our ability to maintain gross margins from the sale of our products and services at a level that will provide us with cash to fund our operations given the pricing pressures within the market and the costs of materials to manufacture our products; and

- our ability to control operating costs given the fluctuations that we have experienced with revenues from quarter to quarter.

Three Months ended October 31, 2008 Compared to the Three Months Ended October 31, 2007

The following table sets forth statement of operations data for the three months ended October 31, 2008 compared to the three months ended October 31, 2007.

Table of Contents

	Three Months Ended October 31,	
	2008	2007
	(in thousands)	
Revenues:		
Products	$ 29,691	$ 29,995
Services	22,104	19,029
	51,795	49,024
Costs and expenses:		
Cost of product revenues	10,374	13,461
Cost of service revenues	13,278	11,285
Research and development	10,488	10,662
Selling and marketing	6,831	5,505
General and administrative	5,464	4,240
Amortization of intangibles	393	806
Income from operations	4,967	3,065
Interest and other income, net	45	440
Income before income taxes and equity income in earnings of affiliates	5,012	3,505
Income tax expense	(1,466)	(493)
Equity (loss) income in earnings of affiliates, net of tax	(179)	293
Net income	$ 3,367	$ 3,305

Revenues

The following table summarizes information about the Company s reportable segment revenues for the three months ended October 31, 2008 and 2007. Segment data for October 31, 2007 is presented on a basis consistent with the October 31, 2008 data and the changed reporting segment structure.

	Three Months Ended October 31,		
	2008	2007	%
	(in thousands, except for percentage data)		
Software revenues:			
Products	$ 22,857	$ 17,385	31%
Services	14,707	11,774	25%
Total Software revenues	$ 37,564	$ 29,159	29%
Servers and Storage revenues:			
Products	$ 6,834	$ 12,610	(46)%
Services	3,546	3,488	2%
Total Servers and Storage revenues	$ 10,380	$ 16,098	(36)%
Media Services Revenue:			
Services	$ 3,851	$ 3,767	2%
Total consolidated revenue:			
Products	$ 29,691	$ 29,995	(1)%
Services	22,104	19,029	16%

Total consolidated revenues	$ 51,795	$ 49,024	6%

Product Revenues. Product revenues decreased 1% to $29.7 million in the three months ended October 31, 2008 from $30.0 million in the three months ended October 31, 2007. Product revenues from the Software segment accounted for 77% and 58% of the total product revenues in the three months ended October 31, 2008 and 2007, respectively while the Servers and Storage segment accounted for 23% and 42% of total product revenues in the three months ended October 31, 2008 and 2007, respectively.

Service Revenues. Our Services revenues increased 16% year over year to $22.1 million in the three months ended October 31, 2008 from $19.0 million in the three months ended October 31, 2007. Services revenues for the Software segment accounted for 67% and 62% of the total Services revenue in the three months ended October 31, 2008 and 2007, respectively. Servers and Storage services revenue accounted for 16% and 18% of total services revenues in the three months ended October 31, 2008 and 2007, respectively, while Media Services revenue accounted for 17% and 20% of total services revenues in the three months ended October 31, 2008 and 2007, respectively.

For the three months ended October 31, 2008, three customers accounted for more than 57% of our total revenues and two customers accounted for more than 44% of our total revenues for the three months ended October 31, 2007. We believe that a significant amount of our revenues will continue to be derived from a limited number of customers.

International sales accounted for approximately 26% and 32% of total revenues in the three months ended October 31, 2008 and 2007, respectively. These orders were made primarily in United States dollars. We expect that international products and services revenues will remain a significant portion of our business in the future.

Software Revenues. Revenues from our Software segment for the three months ended October 31, 2008 increased $8.4 million or 29% from the three months ended October 31, 2007. The year over year growth was primarily due to higher software subscription revenue of $4.7 million which was recognized under the percentage-of-completion accounting method from a contract extension signed during the quarter with Comcast which extended the contract through the end of calendar 2009. A significant portion of the software development revenue generated in the three months ended October 31, 2008 from the Comcast agreement related to efforts undertaken in prior quarters. In addition, an increase of $2.2 million of higher Advertising license revenue compared to the same quarter in the previous year was due to continued growth in high definition television channel requirements for North American customers. The 25% increase in services revenue for the Software segment was primarily due to completion of several large projects that were initiated in prior quarters.

Servers and Storage Revenues. Revenues from the Servers and Storage segment for the three months ended October 31, 2008 decreased $5.7 million or 36% from related revenues in the three months ended October 31, 2007. The decrease in product revenues in the three months ended October 31, 2008 of $5.7 million compared to the same quarter in the previous year was primarily due to lower VOD server orders from US cable television customers. The 2% year over year increase in services revenue in our Servers and Storage segment is due to a larger installed base of our VOD and broadcast server products year over year.

Media Services. Revenues from Media Services increased by approximately 2% in the three months ended October 31, 2008 compared to the three months ended October 31, 2007. The increase in revenue was due primarily to revenue from recent contract wins in Turkey and Greece as well as professional service revenue from a customer in Brazil. Since ODG s functional currency is the British pound, these Media Service revenues were offset by a 13% decrease due to the weakening of the British pound compared to the U.S dollar during the quarter compared to the same quarter in the previous year.

Product Gross Profit. Costs of product revenues consist primarily of the cost of purchased material components and subassemblies, labor and overhead relating to the final assembly and testing of complete systems and related expenses. The gross profit percentage for products increased from 55% in the three months ended October 31, 2007 to 65% in the three months ended October 31, 2008. The increase in product gross profit percentages between years is due to a significant amount of software subscription revenue being recognized under the percentage-of-completion accounting method in the three months ended October 31, 2008 while the related costs were incurred in prior quarters.

Service Gross Profit. Cost of services revenues consist primarily of labor, materials and overhead relating to the installation, training, product maintenance and technical support, software development, and project management provided by us and costs associated with providing video content services. The gross profit percentage for services was relatively flat compared to the three months ended October 31, 2007.

Software Gross Profit. Software segment gross margin of 62% was six points higher compared to the three months ended October 31, 2007. The increase in gross margins is due mainly to higher subscription revenue being recognized under the percentage-of-completion accounting method from the renewal of the Comcast agreement in the three months ended October 31, 2008 compared to the three months ended October 31, 2007.

Servers and Storage Gross Profit. Servers and Storage segment gross margin of 42% in the three months ended October 31, 2008 was six points lower than in the three months ended October 31, 2007 due mainly to a higher proportion of lower margin broadcast server revenue in this year s

third quarter compared to the same quarter last year along with lower service margins due to an increase in field service headcount compared to the same quarter last year.

Media Services Gross Profit. Media Services segment gross margin of 14% in the three months ended October 31, 2008 was six points higher than in the three months ended October 31, 2007 due principally to revenue recognized from a Brazilian customer where all the costs to fulfill the contract were incurred in prior periods.

Research and Development. Research and development expenses consist primarily of the compensation of development personnel, depreciation of development and test equipment and an allocation of related facilities expenses. Research and development expenses decreased 2% from $10.7 million, or 22% of total revenues, in the three months ended October 31, 2007, to $10.5 million or 20% of total revenues, in the three months ended October 31, 2008. The decrease is primarily due to the higher allocation of research and development expenses to cost of sales resulting from an increase in software development revenue for the three months ended October 31, 2008, compared to the three months ended October 31, 2007.

Selling and Marketing. Selling and marketing expenses consist primarily of compensation expenses, including sales commissions, travel expenses and certain promotional expenses. Selling and marketing expenses increased 24% from $5.5 million, or 11% of total revenues, in the three months ended October 31, 2007, to $6.8 million, or 13% of total revenues, in the three months ended October 31, 2008. This increase is due to increased staffing and related expense of $400,000, and higher commission expense of $600,000.

General and Administrative. General and administrative expenses consist primarily of the compensation of executive, finance, human resource and administrative personnel, legal and accounting services and an allocation of related facilities expenses. In the three months ended October 31, 2008, general and administrative expenses increased to $5.5 million, or 11% of total revenues, from $4.3 million, or 9% of total revenues, in the three months ended October 31, 2007. The increase was primarily due to higher legal fees of $400,000, higher bad debt expense of $200,000, and higher general and administrative expenses at ODG for $400,000 due to increased headcount.

Amortization of Intangible Assets. Amortization expense consists of the amortization of acquired intangible assets which are operating expenses and not considered costs of revenues. Amortization expense was $393,000 and $806,000 in the three months ended October 31, 2008 and 2007, respectively. The sale of the Company s equity investment in FilmFlex and the removal of the intangible assets related to FilmFlex contributed to the decrease in amortization expense. Amortization is also based on the future economic value of the related intangible assets which is generally higher in earlier years of the assets lives. An additional $47,000 and $122,000 of amortization expense related to acquired technology was charged to cost of sales for the three months ended October 31, 2008 and 2007, respectively.

Interest and Other Income, net. Interest and net other income, net was $45,000 in the three months ended October 31, 2008, compared to $440,000 in the three months ended October 31, 2007. The decrease in interest and other income, net includes a charge for currency losses of $434,000 due to translation losses at our various foreign subsidiaries (where the functional currency is the US Dollar) derived from fluctuations in exchange rates between the various currencies and the U.S dollar.

Equity (Loss) Income in Earnings of Affiliate, net of tax. Equity loss in earnings of affiliates was $179,000 and equity income of $293,000 in the three months ended October 31, 2008 and 2007, respectively. For the three months ended October 31, 2008, all of the equity loss of $179,000 was recognized from On Demand Deutschland. For the three months ended October 31, 2007, $431,000 of equity income was recognized from FilmFlex and $148,000 of equity loss was recognized from On Demand Deutschland.

Income Tax Provision. For the three months ended October 31, 2008, we recorded an income tax provision of $1.5 million on income before tax of $5.0 million resulting in an effective income tax provision rate of 29%. For the three months ended October 31, 2007, we recorded an income tax provision of $493,000 on a profit before taxes of $3.5 million resulting in an effective income tax provision rate of 14%. The income tax provision rate of 29% at October 31, 2008 was primarily attributable to revenue in our foreign subsidiaries which are at lower tax rates than in the U.S and U.S tax credits used to offset any U.S taxable income up to the Alternative Minimum Tax limit of 20%.

As of October 31, 2008, we continue to maintain a full valuation allowance against our net U.S. deferred tax assets primarily due to the uncertainties related to our ability to generate sufficient pre-tax income for fiscal 2009 and thereafter. If we generate sufficient pre-tax income in the future, some portion or all of the valuation allowance could be reversed and a corresponding increase in net income would be reported in future periods.

Nine Months ended October 31, 2008 Compared to the Nine Months Ended October 31, 2007

The following table sets the forth statement of operations data for the nine months ended October 31, 2008 compared to the nine months ended October 31, 2007.

19

Table of Contents

	Nine Months Ended October 31, 2008	2007
	(in thousands)	
Revenues:		
Products	$ 86,171	$ 77,511
Services	61,713	54,551
	147,884	132,062
Costs and expenses:		
Cost of product revenues	34,118	40,315
Cost of service revenues	38,221	34,507
Research and development	32,011	32,473
Selling and marketing	20,519	17,185

Income before income taxes and equity income in earnings of affiliates	7,872	(8,149)
Income tax expense	(2,099)	(1,851)
Equity (loss) income in earnings of affiliates, net of tax	(576)	872
Net income (loss)	$ 5,197	$ (9,128)

Revenues

The following table summarizes information about the Company s reportable segment revenues for the nine months ended October 31, 2008 and 2007. Segment data for October 31, 2007 is also presented on a basis consistent with the October 31, 2008 data and the changed reporting segment structure.

	Nine Months Ended October 31, 2008	2007	%
	(in thousands, except percentage data)		
Software revenues:			
Products	$ 60,916	$ 49,943	22%
Services	39,291	32,416	21%
Total Software revenues	$ 100,207	$ 82,359	22%
Servers and Storage revenues:			
Products	$ 25,255	$ 27,568	-8%
Services	10,663	9,517	12%
Total Servers and Storage revenues	$ 35,918	$ 37,085	-3%
Media Services revenue:			
Services	$ 11,759	$ 12,618	-7%
Total consolidated revenue:			
Products	$ 86,171	$ 77,511	11%

Services	61,713	54,551	13%
Total consolidated revenues	$ 147,884	$ 132,062	12%

Product Revenues. Product revenues increased 11% to $86.2 million in the nine months ended October 31, 2008 from $77.5 million in the nine months ended October 31, 2007. Product revenues from the Software segment accounted for 71% and 64% of the total product revenues in the nine months ended October 31, 2008 and 2007, respectively, while the Servers and Storage segment, accounted for 29% and 36% of total product revenues in the nine months ended October 31, 2008 and 2007, respectively.

Service Revenues. Service revenues increased 13% year over year to $61.7 million in the nine months ended October 31, 2008 from $54.6 million in the nine months ended October 31, 2007. Service revenues for the Software segment accounted for 64% and 59% of the total Service revenue in the nine months ended October 31, 2008 and 2007, respectively. Servers and Storage service revenues accounted for 17% of total Service revenues in the nine months ended October 31, 2008 and 2007, while Media Services revenue accounted for 19% and 23% of total Service revenues in the nine months ended October 31, 2008 and 2007, respectively.

For the nine months ended October 31, 2008 and 2007 the same two customers accounted for more than 46% and 47% of our total revenues, respectively. We believe that a significant amount of our revenues will continue to be derived from a limited number of customers.

International sales accounted for approximately 30% and 38% of total revenues in the nine months ended October 31, 2008 and 2007, respectively. These orders were made primarily in United States dollars. We expect that international product and service revenues will remain a significant portion of our business in the future.

Software Revenues. Revenues from our Software segment for the nine months ended October 31, 2008 increased $17.9 million or 22% to $100.2 million from the nine months ended October 31, 2007. The year over year growth was primarily due to increased software licensing revenue from shipments of Advertising Insertion, Axiom, VODlink, Media Client and our VOD hospitality software products which were partially offset by $5.7 million of lower software subscription revenues from Comcast. The 21% increase in service revenue for the Software segment was primarily due to higher Advertising and VOD product maintenance revenues from a growing installed base of products and installation revenue from the completion of several large projects during this fiscal year.

Servers and Storage Revenues. Revenues from the Servers and Storage segment for the nine months ended October 31, 2008 decreased $1.2 million or 3% to $35.9 million from related revenues in the nine months ended October 31, 2007. The decrease in product revenues in the nine months ended October 31, 2008 of $2.3 million compared to the same period in the previous year was primarily due to lower VOD server revenue from North American based service providers. The 12% year over year increase in services revenue in our Servers and Storage segment is due to increased installation revenue from VOD and broadcast servers products year over year.

Media Services. Revenues from Media Services decreased by approximately $859,000 or 7% to $11.8 million in the nine months ended October 31, 2008 compared to the nine months ended October 31, 2007. The decrease in revenue was due primarily to the impact of the weakening of the British pound compared to the U.S dollar during the third quarter compared to third quarter in the previous year which lowered revenue by approximately $500,000 as well as decreased processing of VOD content for its main UK customer.

Product Gross Profit. Costs of product revenues consist primarily of the cost of purchased material components and subassemblies, labor and overhead relating to the final assembly and testing of complete systems and related expenses. The gross profit percentage for products increased from 48% in the nine months ended October 31, 2007 to 60% in the nine months ended October 31, 2008. The increase in product gross profit percentages between years were due mainly to the Company s recorded charge of $4.1 million in connection with asset impairments taken during the three months ended October 31, 2007. The remaining increase is primarily due to higher sales volume-related margin from our Advertising Insertion, Axiom, VODlink and our VOD hospitality software products compared to the nine months ended October 31, 2007.

Service Gross Profit. Cost of services revenues consist primarily of labor, materials and overhead relating to the installation, training, product maintenance and technical support, software development, and project management provided by us and costs associated with providing video content services. The gross profit percentage for services increased from 37% in the nine months ended October 31, 2007 to 38% in the nine months ended October 31, 2008 due to an increase in more favorable absorption of service personnel costs due to higher VOD server and software services revenue, which was partially offset by lower Media Service margins due to lower revenues.

Software Gross Profit. Software segment gross margin was 58% and 49% in the nine months ended October 31, 2008 and 2007, respectively. The increase in product gross profit percentages between years is due mainly to a favorable product mix of higher margin Advertising Insertion and VOD software product revenue in the nine months ended October 31, 2008 compared to the nine months ended October 31, 2007, as well as the asset impairments taken in the second quarter of fiscal 2008.

Servers and Storage Gross Profit. Servers and Storage segment gross margin of 45% in the nine months ended October 31, 2008 was six points higher than in the nine months ended October 31, 2007 because of lower manufacturing costs due to headcount and other cost reductions taken in the second quarter of fiscal 2008.

Media Services Gross Profit. Media Services segment gross margin of 14% in the nine months ended October 31, 2008 was two points lower than in the nine months ended October 31, 2007 due principally to lower revenues and higher year over year headcount.

Research and Development. Research and development expenses consist primarily of the compensation of development personnel, depreciation of development and test equipment and an allocation of related facilities expenses. Research and development expenses decreased 1% from $32.5 million, or 25% of total revenues, in the nine months ended October 31, 2007, to $32.0 million, or 22% of total revenues, in the nine months ended October 31, 2008. The decrease is primarily due to employee severance expense of $763,000 related to headcount reductions occurring in the second quarter of fiscal 2008.

Selling and Marketing. Selling and marketing expenses consist primarily of compensation expenses, including sales commissions, travel expenses and certain promotional expenses. Selling and marketing expenses increased $3.2 million or 19% from $17.2 million, or 13% of total revenues, in the nine months ended October 31, 2007, to $20.5 million, or 14% of total revenues, in the nine months ended October 31, 2008. This increase is primarily due to increased staffing, higher commission expense related to higher revenues, higher external commissions and increased travel expenses compared to the nine months ended October 31, 2007.

General and Administrative. General and administrative expenses consist primarily of the compensation of executive, finance, human resource and administrative personnel, legal and accounting services and an allocation of related facilities expenses. In the nine months ended October 31, 2008, general and administrative expenses increased to $15.6 million, or 11% of total revenues, from $14.7 million, or 11% of total revenues, in the nine months ended October 31, 2007. The increase was primarily due to increased legal, bad debt expense and higher general and administrative expenses at ODG offset by lower accounting fees compared to the nine months ended October 31, 2007.

Amortization of Intangible Assets. Amortization expense consists of the amortization of acquired intangible assets which are operating expenses and not considered costs of revenues. Amortization expense was $1.2 million and $2.4 million in the nine months ended October 31, 2008 and 2007, respectively. The sale of the Company s equity investment in FilmFlex and the removal of the intangible assets related to FilmFlex contributed to the decrease in amortization expense. Amortization is also based on the future economic value of the related intangible assets which is generally higher in earlier years of the assets lives. An additional $140,000 and $364,000 of amortization expense related to acquired technology was charged to cost of sales for the nine months ended October 31, 2008 and 2007, respectively.

Interest and Other Income, net. Interest and other income, net was $1.6 million in the nine months ended October 31, 2008, compared to $1.4 million in the nine months ended October 31, 2007. The increase in interest and other income is primarily due to an increase in the cash position of the Company compared to October 31, 2007 due mainly to $18.0 million of proceeds received in the fourth quarter of fiscal 2008 related to the sale of our equity investment in FilmFlex offset by translation losses at our various foreign subsidiaries (where the functional currency is the US Dollar) derived from fluctuations in exchange rates between the various currencies and the U.S dollar.

Equity (Loss) Income in Earnings of Affiliates, net of tax. Equity loss in earnings of affiliates was $576,000 and equity income in earnings of affiliates was $872,000 in the nine months ended October 31, 2008 and 2007, respectively. For the nine months ended October 31, 2008, all of the equity loss of $576,000 was recognized from On Demand Deutschland. For the nine months ended October 31, 2007, $714,000 of equity income was recognized from FilmFlex and $153,000 of equity loss was recognized from On Demand Deutschland.

Income Tax Provision. For the nine months ended October 31, 2008, we recorded an income tax provision of $2.1 million on income before tax of $7.9 million resulting in an effective income tax provision rate of 27%. The income tax provision rate was primarily attributable to the taxable position of our foreign subsidiaries with lower tax rates than in the U.S and used U.S tax credits to offset any U.S taxable income up to the Alternative Minimum Tax limit of 20%. For the nine months ended October 31, 2007, we recorded an income tax provision of $1.9 million on a loss before taxes of $8.1 million resulting in an effective income tax provision rate of (23%). This was due to tax gains for ODG s transfer of assets to and reimbursement of previously paid costs from On Demand Deutschland GmbH & Co KG.

Off-Balance Sheet Arrangements

We do not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements. As such, we are not exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in such relationships.

Liquidity and Capital Resources

Historically, we have financed our operations and capital expenditures primarily with cash on-hand and the proceeds from sales of our common stock. Cash and cash equivalents decreased $6.7 million from $63.4 million at January 31, 2008 to $56.7 million at October 31, 2008. Working capital, excluding long-term marketable securities, decreased $4.3 million from $86.2 million at January 31, 2008 to $81.9 million at October 31, 2008.

Net cash provided by operating activities was $9.4 million for the nine months ended October 31, 2008 and $8.0 million for the nine months ended October 31, 2007. The net cash provided by operating activities for the nine months ended October 31, 2008 was the

result of net income adjusted for non cash depreciation and amortization of intangible assets of $5.4 million, $2.8 million of stock compensation expense and $1.3 million in reserve accruals. In addition to the non-cash items, the other significant change in operating assets and liabilities that provided cash from operations included an increase in deferred revenue of $6.6 million and an increase of $4.6 million in customer deposits which was partially offset with an increase of $14.0 million in net receivables and an increase in net inventory of $6.8 million, of which approximately $2.8 million of inventory was reclassified to fixed assets for use as research and development equipment and spare components for use in connection with customer maintenance. The increases in net receivables were due to the timing of shipments and invoicing to our customers.

Net cash used by investing activities was $9.2 million for the nine months ended October 31, 2008 compared to $2.5 million used for the nine months ended October 31, 2007. Investment activity for the nine months ended October 31, 2008 consisted primarily of the net sales of $1.3 million of marketable securities offset by the purchase of property and equipment of $10.4 million, which includes the purchase by ODG of a facility in London, U.K. for $5.7 million and $1.4 million for production and office equipment at the London facility. On June 3, 2008, ODG executed an agreement to purchase the 9,000 square foot facility in London for approximately GBP 2.7 million ($5.7 million equivalent as of that date). This facility will be used as office space for ODG personnel as well as to house content preparation work that had been previously outsourced. The Company plans to continue to purchase production and office equipment of up to $2.6 million for the London facility over the next six months.

Net cash used by financing activities was $4.1 million for the nine months ended October 31, 2008 and net cash provided by financing activities was $1.3 million for the nine months ended October 31, 2007. In the nine months ended October 31, 2008, the cash used by financing activities was due to the repurchase of $6.0 million of the Company s stock partially offset by $1.9 million of proceeds from the issuance of common stock in connection with stock option exercises and stock purchases under the Company s Employee Stock Purchase Plan.

Effect of exchange rates on cash and cash equivalents was the result of the translation of ODG cash balance which uses the British pound as the functional currency to U.S dollar at October 31, 2008.

On November 19, 2008, ODG, a wholly-owned subsidiary of SeaChange entered into a Share Purchase Agreement (the Share Purchase Agreement) providing for the purchase by ODG of all the outstanding capital stock (the Mobix Shares) of Mobix Interactive Limited (Mobix). Mobix is a London, England based company that provides software and content services related to the deployment of mobile video services for wireless network operators. At the closing, ODG paid the shareholders of Mobix approximately 2 million (approximately $3 million) in cash for the Mobix Shares, with an additional 1 million (approximately $1.5 million) deposited in escrow to be released on the later of February 19, 2009 and the date certain performance goals have been satisfied, with the amount of the escrow being subject to reduction should there have been a breach of the representations, warranties, covenants and agreements contained in the Share Purchase Agreement. In addition, under the earnout provisions in the Share Purchase Agreement, if Mobix meets certain performance goals, primarily related to the financial performance of Mobix, over the period ending November 19, 2011, ODG will be obligated to make additional cash payments aggregating 8.29 million (approximately $12.4 million). The contingent consideration will be reduced or increased based upon Mobix s actual performance relative to the performance goals.

On October 31, 2008, we renewed a $15.0 million revolving line of credit with RBS Citizens Bank through October 31, 2010. Loans made under this revolving line of credit bear interest at a rate per annum equal to the bank s prime rate. Borrowings under this line of credit are collateralized by substantially all of our assets. The loan agreement requires that we provide Citizens Bank with certain periodic financial reports and comply with certain financial ratios including a minimum level of earnings before interest, taxes and depreciation and amortization on a trailing twelve month basis, when amounts are outstanding under the loan agreement. As of October 31, 2008, we were in compliance with the financial covenants. There are currently no amounts outstanding under the revolving line of credit.

We are occasionally required to post letters of credit, issued by a financial institution, to secure certain sales contracts. Letters of credit generally authorize the financial institution to make a payment to the beneficiary upon the satisfaction of a certain event or the failure to satisfy an obligation. The letters of credit are generally posted for one-year terms and are usually automatically renewed upon maturity until such time as we have satisfied the commitment secured by the letter of credit. We are obligated to reimburse the issuer only if the beneficiary collects on the letter of credit. We believe that it is unlikely we will be required to fund a claim under our outstanding letters of credit. As of October 31, 2008, the full amount of the letters of credit was supported by our credit facility.

On February 13, 2008, SeaChange International s Board of Directors authorized the repurchase of up to $20.0 million of its common stock, par value $.01 per share, through a share repurchase program. As authorized by the program, shares may be purchased in the open market or through privately negotiated transactions, in a manner consistent with applicable securities laws and regulations, including pursuant to a Rule 10b5-1 plan maintained by the Company. This stock repurchase program does not obligate the Company to acquire any specific number of shares and may be suspended or discontinued at any time. All repurchases are expected to be funded from the Company s current cash and investments balances. The timing and amount of the shares to be repurchased will be based on market conditions and other factors, including price, corporate

and regulatory requirements and alternative investment opportunities. For the nine months ended October 31, 2008, 833,597 shares of our common stock had been purchased as part of the repurchase program at an average price of $7.16. No shares were purchased during the three months ended October 31, 2008. As of October 31, 2008 the remaining maximum dollar value of shares that may yet be purchased under the program is $14.0 million.

Table of Contents

On February 27, 2007, ODG, a wholly-owned subsidiary of SeaChange, entered into an agreement with Tele-Munchen Fernseh GmbH & Co. Produktionsgesellschaft (TMG) to create a joint venture named On Demand Deutschland GmbH & Co. KG. The Shareholder s Agreement requires ODG to provide cash contributions up to $4.2 million (USD equivalent) upon the request of the joint venture s management and approval by the shareholders of the joint venture. There have been no cash contributions to date.

We believe that existing funds combined with available borrowings under the revolving line of credit and cash provided by future operating activities are adequate to satisfy our working capital, potential acquisitions and capital expenditure requirements and other contractual obligations for the foreseeable future, including at least the next 24 months.

Effects of Inflation

Management believes that financial results have not been significantly impacted by inflation and price changes in materials we use in manufacturing our products.

Recent Accounting Pronouncements

In October 2008, the FASB issued FASB Staff Position No. FAS 157-3, Determining the Fair Value of a Financial Asset in a Market That Is Not Active (FSP 157-3), which clarifies the application of SFAS 157 when the market for a financial asset is inactive. Specifically, FSP 157-3 clarifies how (1) management s internal assumptions should be considered in measuring fair value when observable data are not present, (2) observable market information from an inactive market should be taken into account, and (3) the use of broker quotes or pricing services should be considered in assessing the relevance of observable and unobservable data to measure fair value. The guidance in FSP 157-3 was effective during the Company s third fiscal quarter, and had no material impact upon the Company s results of operations and financial position.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51* (SFAS 160). SFAS 160 establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. The guidance will become effective for fiscal years beginning after December 15, 2008. SFAS 160 is effective for us beginning February 1, 2009. The Company is currently assessing the impact that SFAS 160 may have on our results of operations and financial position.

In March 2008, the FASB issued FASB Statement No. 161(SFAS 161), *Disclosures about Derivative Instruments and Hedging Activities*. SFAS 161 is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity s financial position, financial performance, and cash flows. It is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Company is currently evaluating the impact of adopting SFAS 161 on its results of operations and financial position. The Company does not currently have any derivative instruments or hedging activities.

On December 12, 2007, the FASB ratified Emerging Issues Task Force (EITF) Issue No. 07-01, *Accounting for Collaborative Arrangements* (EITF 07-01). EITF 07-01 defines collaborative arrangements and establishes reporting requirements for transactions between participants in a collaborative arrangement and between participants in the arrangement and third parties. EITF 07-01 also establishes the appropriate income statement presentation and classification for joint operating activities and payments between participants, as well as the sufficiency of the disclosures related to these arrangements. EITF 07-01 is effective for fiscal years beginning after December 15, 2008 (February 1, 2009, for the Company). Companies are required to apply EITF 07-01 using a modified version of retrospective transition for those arrangements in place at the effective date. In addition, companies are required to report the effects of the application of EITF 07-01 as a change in accounting principle through retrospective application to all prior periods presented for all arrangements existing as of the effective date, unless it is impracticable to apply the effects of the change retrospectively. We are currently assessing the impact that EITF 07-01 may have on our results of operations and financial position.

On April 25, 2008, the FASB issued FASB Staff Position (FSP) FAS 142-3, *Determination of the Useful Life of Intangible Assets*, which revises the factors that an entity should consider to develop renewal or extension assumptions used in determining the useful life of a recognized intangible asset. The FSP amends paragraph 11(d) of SFAS 142. The FSP is effective for financial statements issued for fiscal years beginning after December 15, 2008 (February 1, 2009, for the Company) and for interim periods within those fiscal years. Early adoption is prohibited. Entities should apply the FSP s guidance in determining the useful life of an intangible asset prospectively to recognized intangible assets acquired after the FSP s effective date. However, once effective, the FSP s disclosure requirements apply prospectively to all recognized intangible assets, including those acquired before the FSP s effective date. We are currently assessing the impact that FAS 142-3 may have on our results of operations and financial position.

In December 2007, the FASB issued SFAS No. 141 (R) *Business Combinations* (SFAS 141R). SFAS 141R establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. SFAS 141R also provides guidance for recognizing and measuring the goodwill acquired in the business combination and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The guidance will become effective as of

the beginning of the Company s fiscal year beginning after December 15, 2008. SFAS No. 141R is effective for the Company beginning February 1, 2009. SFAS 141R will have an impact on accounting for business combinations once adopted but the effect is dependant upon acquisitions at that time.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

We face exposure to financial market risks, including adverse movements in foreign currency exchange rates and changes in interest rates. These exposures may change over time as business practices evolve and could have a material adverse impact on our financial results. Our foreign currency exchange exposure is primarily associated with product sales arrangements, European and Asian repatriation or settlement of intercompany payables and receivables among subsidiaries and its parent company, and/or investment/equity contingency considerations denominated in the local currency where the functional currency of the foreign subsidiary is the U.S. dollar. Substantially all of our international product sales are payable in United States Dollars (USD) or in the case of our ODG operations service sales, payable in GBP, and provide a natural hedge for receipts and local payments. In light of the high proportion of our international businesses, we expect the risk of any adverse movements in foreign currency exchange rates could have an impact on our translated results within the Combined Statements of Financial Position and Operations. During the third quarter of fiscal year 2009 the U.S. dollar increased in strength against several foreign currencies for countries where we have operations. The impact of the stronger US dollar on our non-US subsidiaries on translation, decreased our ending cash balance at October 31, 2008 by $2.8 million since January 31, 2008. In addition, for the three months ended October 31, 2008 the Company s ODG operations in the United Kingdom generated a foreign currency translation loss of $7.1 million which was recorded as accumulated other comprehensive loss reducing the Company s equity section of the balance sheet over the prior period.

With the exception of ODG, the U.S. Dollar is the functional currency for our international subsidiaries. All foreign currency gains and losses are included in interest and other income, net, in the accompanying Consolidated Statements of Operations. In the third quarter of fiscal year 2009, the Company recorded approximately $434,000 in losses to interest and other income, net due to the international subsidiary translations and cash settlements of revenues and expenses.

The carrying amounts reflected in the condensed consolidated balance sheet of cash and cash equivalents, short-term marketable securities, trade receivables and trade payables approximate fair value at October 31, 2008 due to the short maturities of these instruments. We maintain investment portfolio holdings of various issuers, types, and maturities. Our cash and marketable securities include cash equivalents, which we consider to be investments purchased with original maturities of three months or less. Given the short maturities and investment grade quality of the portfolio holdings at October 31, 2008, a sharp rise in interest rates should not have a material adverse impact on the fair value of our investment portfolio. Additionally, our long term marketable investments, which are carried at the lower of cost or market, have fixed interest rates, and therefore are subject to changes in fair value. As a result, we do not currently hedge these market risk exposures.

At October 31, 2008, we had $14.5 million in short-term marketable securities and $6.7 million in long-term marketable securities. Of the $21.2 million in available-for-sale securities at October 31, 2008, the Company holds $1.0 million in auction rate securities (ARS) that were intended to provide liquidity via an auction process that resets the applicable interest rate in the event there is no new investment in these securities. Due to the uncertainty in the credit markets this $1.0 million ARS holding in our investment portfolio has failed to settle on its respective settlement date resulting in the illiquidity of this investment. Consequently, we have not been able to access these funds and do not expect to do so until a future auction of these investments is successful or a buyer is found outside the auction process. Although the maturity date of the underlying security of our ARS investment is twenty-three years, we currently have sufficient cash and cash equivalents, cash from operations and access to unused credit facilities to meet our short term liquidity requirements and do not anticipate that we will need to access our ARS investment. Accordingly, the Company has classified this investment as long-term and its fair value equals par on maturity.

ITEM 4. Controls and Procedures

(a) *Evaluation of disclosure controls and procedures*. The Company evaluated the effectiveness of our disclosure controls and procedures, as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act), as of the end of the period covered by this quarterly report on Form 10-Q. William C. Styslinger, III, our Chief Executive Officer, and Kevin M. Bisson, our Chief Financial Officer, reviewed and participated in this evaluation. Based upon that evaluation, Messrs. Styslinger and Bisson concluded that the Company s disclosure controls and procedures were effective as of the end of the period covered by this report and as of the date of the evaluation.

(b) *Changes in internal controls over financial reporting.* As a result of the evaluation completed by the Company, and in which Messrs. Styslinger and Bisson participated, the Company has concluded that there were no changes during the fiscal quarter ended October 31, 2008 in our internal controls over financial reporting, which have materially affected, or are reasonably likely to materially affect, the Company s internal

controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings

Litigation

None.

Other Matters

SeaChange provides indemnification, to the extent permitted by law, to its officers, directors, employees and agents for liabilities arising from certain events or occurrences while the officer, director, employee, or agent is or was serving at SeaChange s request in such capacity. With respect to acquisitions, SeaChange provides indemnification to or assumes indemnification obligations for the current and former directors, officers and employees of the acquired companies in accordance with the acquired companies bylaws and charter. As a matter of practice, SeaChange has maintained directors and officers liability insurance including coverage for directors and officers of acquired companies.

SeaChange enters into agreements in the ordinary course of business with customers, resellers, distributors, integrators and suppliers. Most of these agreements require SeaChange to defend and/or indemnify the other party against intellectual property infringement claims brought by a third party with respect to SeaChange s products. From time to time, SeaChange also indemnifies customers and business partners for damages, losses and liabilities they may suffer or incur relating to personal injury, personal property damage, product liability, and environmental claims relating to the use of SeaChange s products and services or resulting from the acts or omissions of SeaChange, its employees, authorized agents or subcontractors. For example, SeaChange has received requests from several of its customers for indemnification of patent litigation claims asserted by Acacia Media Technologies, USA Video Technology Corporation and VTran Media Technologies. Management performed an analysis of all requests under Statement of Financial Accounting Standards No. 5, *Accounting for Contingencies* (SFAS 5) and determined as of October 31, 2008 that $50,000 was estimable and probable and has recorded an accrual.

SeaChange warrants that its products, including software products, will substantially perform in accordance with its standard published specifications in effect at the time of delivery. Most warranties have at least a one year duration that generally commence upon installation. In addition, SeaChange provides maintenance support to all customers and therefore allocates a portion of the product purchase price to the initial warranty period and recognizes revenue on a straight line basis over that warranty period related to both the warranty obligation and the maintenance support agreement. When SeaChange receives revenue for extended warranties beyond the standard duration, it is deferred and recognized on a straight line basis over the contract period. Related costs are expensed as incurred.

In the ordinary course of business, SeaChange provides minimum purchase guarantees to certain of its vendors to ensure continuity of supply against the market demand. Although some of these guarantees provide penalties for cancellations and/or modifications to the purchase commitments as the market demand decreases, most of the guarantees do not. Therefore, as the market demand decreases, SeaChange re-evaluates the accounting implications of guarantees and determines what charges, if any, should be recorded.

With respect to its agreements covering product, business or entity divestitures and acquisitions, SeaChange provides certain representations and warranties and agrees to indemnify and hold such purchasers harmless against breaches of such representations, warranties and covenants. Many of the indemnification claims have a definite expiration date while some remain in force indefinitely. With respect to its acquisitions, SeaChange may, from time to time, assume the liability for certain events or occurrences that took place prior to the date of acquisition.

SeaChange provides such guarantees and indemnification obligations after considering the economics of the transaction and other factors including but not limited to the liquidity and credit risk of the other party in the transaction. SeaChange believes that the likelihood is remote that any such arrangement could have a material adverse effect on its financial position, results of operation or liquidity. SeaChange records liabilities, as disclosed above, for such guarantees based on the Company s best estimate of probable losses which considers amounts recoverable under any recourse provisions.

ITEM 1A. Risk Factors

In addition to the other information set forth in this Form 10-Q, you should carefully consider the risk factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended January 31, 2008, which could materially affect our business, financial condition

or future results. The risks described in our Annual Report on Form 10-K are not the only risks that we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or future results.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

Repurchase of the Company s Equity Securities

On February 13, 2008, SeaChange International s Board of Directors authorized the repurchase of up to $20.0 million of its common stock, par value $.01 per share, through a share repurchase program. As authorized by the program, shares may be purchased in the open market or through privately negotiated transactions, in a manner consistent with applicable securities laws and regulations, including pursuant to a Rule 10b5-1 plan maintained by the Company. This stock repurchase program does not obligate the Company to acquire any specific number of shares and may be suspended or discontinued at any time. All repurchases are expected to be funded from the Company s current cash and investments balances. The Company does not intend to repurchase any shares from its management team or other insiders.

The repurchase program is scheduled to terminate on December 31, 2008, and may be modified or discontinued at any time. For the nine months ended October 31, 2008, 833,597 shares of our common stock had been purchased as part of the repurchase program at an average price of $7.16. No shares were purchased during the three months ended October 31, 2008. As of October 31, 2008, the remaining maximum dollar value of shares that may yet be purchased under the program is $14.0 million.

ITEM 6. Exhibits

(a) Exhibits

10.1 Amendment No.14, dated as of October 31, 2008, between the Company and Citizens Bank of Massachusetts, to that certain Loan and Security Agreement, dated as of October 22, 2001, by and between the Company and Citizens Bank of Massachusetts

18.1 Letter, dated December 8, 2008 from Grant Thornton LLP to the Company regarding the Change in Accounting Principles.

31.1 Certification Pursuant to Rule 13a-14(a) of the Exchange Act, as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 (filed herewith).
