FUND DISTRIBUTIONS AND MANAGED DISTRIBUTION PLAN

The Fund has a Managed Distribution Plan to pay 10% of the Fund's net asset value on an annualized basis. Distributions may represent earnings from net investment income, realized capital gains, or, if necessary, return of capital. The board believes that regular monthly, fixed cash payouts will enhance shareholder value and serve the long-term interests of shareholders. You should not draw any conclusions about the Fund's investment performance from the amount of the distributions or from the terms of the Fund's Managed Distribution Plan.

The Fund estimates that it has distributed more than its income and net realized capital gains in the fiscal year to date; therefore, a portion of your distributions may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with "yield" or "income".

The amounts and sources of distributions reported in Section 19(a) notices of the 1940 Act are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder

Edgar Filing: ZWEIG TOTAL RETURN FUND INC - Form N-CSR

of its fiscal year and may be subject to changes based on tax regulations. The Fund will send shareholders a Form 1099-DIV for the calendar year that will tell you how to report distributions for federal income tax purposes.

The Board may amend, suspend or terminate the Managed Distribution Plan at any time, without prior notice to shareholders if it deems such action to be in the best interest of the Fund and its shareholders.

Information on the Zweig funds is available at www.Virtus.com. Section 19(a) notices are posted on the website at:

MARKET OVERVIEW AND OUTLOOK

It was famine and feast for the stock market in 2009, capping one of the most volatile decades in financial history. Following a steep slump early in the year, the major indexes rebounded strongly to achieve their best year on a percentage basis since 2003.

Rising 15%/(1)/ in the fourth quarter, the Dow Jones Industrial Average ended 2009 at 10,428, marking a gain of 18.8%/(1)/. This was an increase of 59%/(1)/ from its 12-year low touched on March 9, but still 26%/(1)/ below its record close of 16,164 on October 9, 2007. For the decade, the Dow lost 9.3%/(1)/.

The S&P 500 Index, which gained 15%/(1)/ in the final quarter, closed the year at 1,115.10, up 65%/(1)/ from its March low, and an increase of 23.5%/(1)/ for 2009. The index slipped 24.1%/(1)/ for the decade.

The technology-heavy Nasdaq Composite, which was hardest hit by the bursting of the dot-com bubble, rose 15.5%/(1)/ in the last quarter and surged

Edgar Filing: ZWEIG TOTAL RETURN FUND INC - Form N-CSR

43.9%/(1)/ for the year. It was the largest annual point gain since 1999 and the second greatest point rise in its history. However, it still left the Nasdaq down 44.2%/(1)/ for the past 10 years.

Last year was also comeback time for world markets. Excluding the U.S., the Dow Jones World Index climbed nearly 40%/(1)/ in dollar terms for 2009. China's Shanghai Composite exploded 80%/(1)/ and Japan's Nikkei Stock Average of 225 companies gained 19%/(1)/. In Europe, Britain's FTSE 100 rose 22.1%/(1)/ and Germany's DAX Index was up 23.8%/(1)/.

(1) Return excludes reinvested dividends.

Managed Distribution Plan: The Fund has a policy to distribute 10% of its net asset value annually. Please see the inside front cover for more details.

Back at home, Federal Reserve (the "Fed") Chairman Ben Bernanke said he expected "moderate" economic growth in 2010 but cautioned that it "would be at a pace slower than we would like." While conceding that the economy faced "formidable headwinds," he said he saw no signs of a bubble. Mr. Bernanke also said low inflation and the economy's slack warranted keeping today's "exceptionally low interest rates for an extended period." He later warned that at some point as "the economic recovery takes hold, the Fed will need to tighten policy to prevent the emerging of an inflation problem down the road."

Although there was an uptick in consumer prices in November, that inflation component still seems tame. The Labor Department reported that consumer prices edged up a seasonally adjusted 0.4% in November after an 0.3% rise in October. Excluding the volatile food and energy sectors, the November core inflation rate was unchanged from the previous month. At the same time, the Commerce Department reported that consumer spending increased moderately in November, going up just 0.2% on an inflation adjusted basis. Wholesale prices climbed 1.8% in November after a 0.3% gain in October. That core rate was up 0.5%, the largest monthly increase in over a year.

The Fed reported that industrial production increased 0.8% in November from the previous month. It also noted that the rate by which industries used their available capacity increased to 71.3% from a revised 70.67% in October. The Fed also reported that third - quarter worker productivity was not as strong as previously reported. While the annual rate dipped to 8.13% from the formerly reported 9.5% estimate, it was still the highest figure in six years.

Another revised estimate revealed that the U.S. economy grew more slowly than previously reported. The Commerce Department said that the nation's gross domestic product of goods and services (GDP) increased at a 2.8% annual rate in the third quarter instead of its earlier projection of 3.5%. However it was still the first increase since the second quarter of 2008.

The housing market, a key component of the economy, is presenting a mixed picture. The Commerce Department reported that new home construction increased 8.9% in November on a seasonally adjusted annual rate of 574,000 units, while the Census Bureau said new home sales tumbled 11.3% that month. Meanwhile, the National Association of Realtors announced that sales of existing homes increased 7.4% to a seasonally adjusted rate of 6.54 million units - the highest level since February 2007.

Upbeat economic news came from the Institute for Supply Management ("ISM") which reported that its index of manufacturing activity rose to 55.9 in

Edgar Filing: ZWEIG TOTAL RETURN FUND INC - Form N-CSR

December from 53.6 in November, to the highest reading since April 2006. Any score above 50 indicates expansion. Bullish sentiment was echoed by the Conference Board, which said its index of leading economic indicators gained 0.9% in November following a 0.3% rise in October.

Less positive was the news from the employment front. The Commerce Department reported that another 85,000 jobs were cut in December, bringing the total job loss to 7.2 million since the recession began in December 2007. While the unemployment rate of 10% was unchanged from November, it was only because many workers stopped looking for jobs that month and thus weren't counted.

Growth prospects for the fourth quarter were heightened by the Commerce Department report that the U.S. trade deficit narrowed in October to \$32.9 billion. Exports rose 2.6%, its sixth straight monthly increase, while imports gained only 0.4%. The weaker dollar has helped to spur exports. Tracked against a basket of sixteen other currencies the dollar ended 2009 down 5%, according to the J.P. Morgan Chase Index. For the year, the dollar declined 2.94% against the euro and increased 2.6% against the yen.

3

Merger and acquisition deal volume in the U.S. fell 10% in 2009 to \$766.8 billion from \$850.6 billion in 2008, according to Dealogic. There were 7,140 U.S. deals last year, a drop of 17% from the 8,614 a year earlier. Global activity also declined, with deal volume totaling \$2.3 trillion in 2009, off 22% from \$2.94 trillion in 2008 and the lowest volume since \$1.98 trillion in 2004.

There was a great disparity in global initial public offerings ("IPO") of stocks in 2009 with Asia taking the lion's share by far, according to Dealogic. China alone completed 185 deals totaling \$50.5 billion, over double the amount completed in the U.S. and Europe combined. The U.S. achieved 49 deals totaling \$16.7 billion while Europe had 69 deals valued at only \$7.7 billion. While the global number of IPOs last year declined 15% to 583, the dollar volume increased 50% over 2008 to \$114.7 billion.

Looking to the future, companies in the S&P 500 Index are expected to earn \$77.84 a share in 2010, an increase of about 30% over last year, according to Thomson Financial. The less optimistic Wall Street Journal consensus survey forecast a 21% gain to \$72.62 a share.

Based on these earning forecasts for 2010, Bloomberg News reported that stocks in the S&P 500 Index were trading at a price/earnings ratio of 14.18 at the year end against 13.98 on September 30 and 11.34 at the close of 2008. These figures compare with an average P/E ratio of 14.9 dating back to 1984. For trailing twelve-month earnings, the ratios were 24.52, 19.56, and 18.8 respectively. To us, these valuations seem about fairly priced. They are not cheap but they are also not widely out of line.

Following a dismal year, companies are expected to increase their dividend payments by 6.1% for 2010, according to Howard Silverblatt, senior index analyst at Standard and Poor's. Mr. Silverblatt believes that "the dividend recovery will be slow" and that it will take until 2012 to 2013 to return to where we were. Last year 804 companies cut dividends against 110 two years ago and was at the highest level since the S&P began collecting data in 1955. The number of dividend increases fell 36.4% to a record low.

As far as the market outlook is concerned, analysts are far more optimistic

Edgar Filing: ZWEIG TOTAL RETURN FUND INC - Form N-CSR

than individual investors. Surveyed by Investors Intelligence, analysts tallied 52% bulls and 17% bears at the year end. At the same time, the American Institute of Investors reported that its members were evenly split, with 38% bulls and 38% bears. Our viewpoint is somewhere between the investors and the analysts. The public is gun shy. They have been selling domestic stock mutual funds and buying bond funds. Analysts, meanwhile, are optimistic because interest rates are still low and the tape has been performing pretty well.

We think that the economy turned around about six months ago and earnings will be higher than most people expect. Corporations have cut a lot of fat from their operations and if, or as, the economy turns up, profit margins will be quite high, which is bullish for the market.

One factor that is making us somewhat nervous right now is the highly optimistic sentiment indicators. However, as the old saying goes, the bull market has to climb a wall of worry and there is always plenty to worry about. There will be a correction at some point but it doesn't necessarily have to be a big one. On the whole, today's equity market looks positive.

4

BOND MARKET

Last year was generally tough for government bonds. Yields on the benchmark 10-year Treasury Note increased from 2.21% at the beginning of 2009 to 3.84% at the close. (Yields move in the opposite direction from price -- when bond yields rise, bond prices fall.) The high yield for the year was reached on June 10 when the 10-year hit 3.95%.

The second half of the year saw modest gains in Treasury bond portfolios (including coupons yields and interest). The improvements were made primarily in corporate bonds of lower credit ratings. After the S&P touched bottom in early March, investors were willing to buy riskier assets.

Treasury Inflation Protected Securities ("TIPS") also outperformed standard Treasury Notes for the year. That is because some investors viewed the easy Fed money policy, combined with increased fiscal deficits, as potentially inflationary. Once the stock market stabilized and eventually started to move higher, investors saw fewer reasons to own U.S. Government debt, with its low yields and safe haven status.

The so-called "flight to quality" from 2008 and early 2009 reversed and Treasuries did poorly. With the Federal Funds Rates at a zero to 25 basis points (effectively a zero percent overnight inter-bank interest rate) and with yields further out in time, the so-called "yield curve" is about as steep as it has ever been. This reflects worry about possible future inflation and a higher level of government borrowing. Both factors are negative for government bond holders.

Corporate bonds, on the other hand, had a huge risk premium priced in at the beginning of the year, reflecting mass concern about a possible "Armageddon" -- a total meltdown of our financial system. As these fears abated, asset prices rose and corporate bonds climbed with them. The spread over the "risk free" rate of return for government bonds narrowed and bond holders and credit product positions profited nicely.

Our bond portfolio reflects our view that both TIPS and corporate bonds would do better this year than Treasury notes and bonds. While the Fund has

Edgar Filing: ZWEIG TOTAL RETURN FUND INC - Form N-CSR

rarely owned non-AAA paper, our managers viewed the opportunity early in 2009 as unique and invested in several lower grade investment bond names. That decision, combined with owning TIPS and keeping a low duration (a measure of sensitivity to interest rates) in other Treasury securities, helped provide solid performance for our bond portfolio. At this writing, our portfolio remains at a low relative duration, with a high percentage of TIPS and less credit exposure than we held two months ago.

Sincerely,

/s/Martin E. Zweig, Ph.D.

- (1) Closing Price -- New York Stock Exchange.
- (2) Total investment return is calculated assuming a purchase of a share of the Fund's common stock at the opening NYSE share price on the first business day and a sale at the closing NYSE share price on the last business day of each period reported. Dividends and distributions, if any, are assumed for the purpose of this calculation, to be reinvested at prices obtained under the Fund's Automatic Reinvestment and Cash Purchase Plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net assets from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.
- (3) Computed using average shares outstanding.
- (4) Shares were sold at a 5% discount from a 5-day average market price from 5/14/07 to 5/18/07.
- (5) Total investment return includes the dilutive effect of the rights offering. Without this effect, the total investment return would have been (13.82)%.
- (6) Amount is less than \$0.005.
- (7) NAV return is calculated using the opening Net Asset Value price of the Fund's common stock on the first business day and the closing Net Asset Value price of the Fund's common stock on the last business day of each period reported. Dividends and distributions, if any, are assumed for the purpose of this calculation, to be reinvested at prices obtained under the Fund's Automatic Reinvestment and Cash Purchase Plan.

THE ZWEIG TOTAL RETURN FUND, INC.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009

NOTE 1 -- ORGANIZATION

The Zweig Total Return Fund, Inc. (the "Fund") is a closed-end, diversified management investment company registered under the Investment Company Act of 1940 (the "Act"). The Fund was incorporated under the laws of the State of Maryland on July 21, 1988. The Fund's investment objective is to seek the highest total return, consisting of capital appreciation and current income, consistent with the preservation of capital.

NOTE 2 -- SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principals

Edgar Filing: ZWEIG TOTAL RETURN FUND INC - Form N-CSR

generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates and those differences could be significant.

A. SECURITY VALUATION:

Equity securities are valued at the official closing price (typically last sale) on the exchange on which the securities are primarily traded, or if no closing price is available, at the last bid price.

Debt securities are valued on the basis of broker quotations or valuations provided by a pricing service, which utilizes information with respect to recent sales, market transactions in comparable securities, quotations from dealers, and various relationships between securities in determining value. Due to the continued volatility in the current market, valuations developed through pricing techniques may materially vary from the actual amounts realized upon sale of the securities.

As required, some securities and other assets may be valued at fair value as determined in good faith by or under the direction of the Directors.

Certain foreign common stocks may be fair valued in cases where closing prices are not readily available or are deemed not reflective of readily available market prices. For example, significant events (such as movement in the U.S. securities market, or other regional and local developments) may occur between the time that foreign markets close (where the security is principally traded) and the time that the Fund calculates its net asset value (generally, the close of the NYSE) that may impact the value of securities traded in these foreign markets. In these cases, information from an external vendor may be utilized to adjust closing market prices of certain foreign common stocks to reflect their fair value. Because the frequency of significant events is not predictable, fair valuation of certain foreign common stocks may occur on a frequent basis.

17

Investments in underlying funds are valued at each fund's closing net asset value determined as of the close of business of the New York Stock Exchange (generally 4:00 p.m. Eastern time).

Short-term investments having a remaining maturity of 60 days or less are valued at amortized cost, which approximates market.

The Fund utilizes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- . Level 1 -- quoted prices in active markets for identical securities
- . Level 2 -- prices determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- . Level 3 -- prices determined using significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

Edgar Filing: ZWEIG TOTAL RETURN FUND INC - Form N-CSR

A summary of the inputs used to value the Fund's net assets by each major security type is disclosed at the end of the Schedule of Investments. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

B. SECURITY TRANSACTIONS AND RELATED INCOME:

Security transactions are recorded on the trade date. Dividend income is recorded on the ex-dividend date, or in the case of certain foreign securities, as soon as the Fund is notified. Interest income is recorded on the accrual basis. The Fund amortizes premiums and accretes discounts using the effective interest method. Realized gains and losses are determined on the identified cost basis.

C. INCOME TAXES:

The Fund is treated as a separate taxable entity. It is the policy of the Fund to comply with the requirements of Subchapter M of the Internal Revenue Code and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes or excise taxes has been made.

The Fund may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable based upon current interpretations of the tax rules and regulations that exist in the markets in which it invests.

Accounting for Uncertainty in Income Taxes, sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Management has analyzed the Fund's tax positions and has concluded that no provision for income tax is required in the Fund's financial statements. The Fund is unaware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months. Each of the Fund's federal tax returns for the prior three fiscal years remains subject to examination by the Internal Revenue Service.

18

D. DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS:

Distributions are recorded by the Fund on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences may include the treatment of non-taxable dividends, market premium and discount, non-deductible expenses, expiring capital loss carryovers, foreign currency gain or loss, operating losses and losses deferred due to wash sales. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications to capital paid in on shares of beneficial interest.

The Fund has a Managed Distribution Plan to pay 10 percent of the Fund's net asset value ("NAV") on an annualized basis. Distributions may represent earnings from net investment income, realized capital gains, or, if necessary, return of capital. Shareholders should not draw any conclusions about the Fund's investment performance from the terms of the Fund's Managed Distribution

Edgar Filing: ZWEIG TOTAL RETURN FUND INC - Form N-CSR

Plan. As noted in the Statement of Changes, the Fund distributed a return of capital.

E. FOREIGN CURRENCY TRANSLATION:

Foreign securities and other assets and liabilities are valued using the foreign currency exchange rate effective at the end of the reporting period. Cost of investments is translated at the currency exchange rate effective at the trade date. The gain or loss resulting from a change in currency exchange rates between the trade and settlement dates of a portfolio transaction is treated as a gain or loss on foreign currency. Likewise, the gain or loss resulting from a change in currency exchange rates between the date income is accrued and paid is treated as a gain or loss on foreign currency. The Fund does not isolate that portion of the results of operations arising from changes in exchange rates and that portion arising from changes in the market prices of securities.

Purchases and sales of securities (excluding U.S. Government and agency securities and short-term securities) for the period ended December 31, 2009, were as follows:

Purchases.....	\$ 98,832
Sales.....	107,758

Purchases and sales of long-term U.S. Government and agency securities for the period ended December 31, 2009, were as follows:

Purchases.....	\$31,042

NOTE 5 -- INDEMNIFICATIONS

Under the Fund's organizational documents and related agreements, its directors and officers are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, the Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these arrangements.

NOTE 6 -- CAPITAL STOCK AND REINVESTMENT PLAN

At December 31, 2009, the Fund had one class of common stock, par value \$0.001 per share, of which 500,000,000 shares are authorized and 114,594,744 shares are outstanding.

Registered shareholders may elect to have all distributions paid by check mailed directly to the shareholder by Computershare as dividend paying agent. Pursuant to the Automatic Reinvestment and Cash Purchase Plan (the "Plan"), shareholders not making such election will have all such amounts automatically reinvested by Computershare, as the Plan agent, in whole or fractional shares of the Fund, as the case may be. During the periods ended December 31, 2009 and December 31, 2008, there were no shares issued pursuant to the Plan.

20

In a non-transferable rights offering ended May 18, 2007, shareholders exercised rights to purchase 20,730,142 shares of common stock at an offering price of \$4.98 per share for proceeds, net of expenses, of \$102,586,107. Expenses were adjusted by \$15,058 in 2008, resulting in final net proceeds of \$102,571,049.

On December 21, 2009, the Fund announced a distribution of \$0.034 per share to shareholders of record on December 31, 2009. This distribution has an ex-dividend date of January 5, 2010, and is payable on January 11, 2010. Please

Edgar Filing: ZWEIG TOTAL RETURN FUND INC - Form N-CSR

see inside front cover for more information on fund distributions.

NOTE 7 -- CREDIT RISK AND ASSET CONCENTRATIONS

In countries with limited or developing markets, investments may present greater risks than in more developed markets and the prices of such investments may be volatile. The consequences of political, social or economic changes in these markets may have disruptive effects on the market prices of these investments and the income they generate, as well as the Fund's ability to repatriate such amounts.

The Fund may invest a high percentage of its assets in specific sectors of the market in its pursuit of a greater investment return. Fluctuations in these sectors of concentration may have a greater impact on the Fund, positive or negative, than if the Fund did not concentrate its investments in such sectors.

NOTE 8 -- REGULATORY EXAMS

Federal and state regulatory authorities from time to time make inquiries and conduct examinations regarding compliance by Virtus and its subsidiaries (collectively "the Company") with securities and other laws and regulations affecting their registered products.

There are currently no such matters which the Company believes will be material to these financial statements.

NOTE 9 -- FEDERAL INCOME TAX INFORMATION

(\$ REPORTED IN THOUSANDS)

At December 31, 2009, federal tax cost and aggregate gross unrealized appreciation (depreciation) of securities held by the Fund were as follows:

FEDERAL TAX COST	UNREALIZED APPRECIATION	UNREALIZED DEPRECIATION	NET UNREALIZED APPRECIATION (DEPRECIATION)
\$446,357	\$36,036	\$(10,536)	\$25,500

The Fund has \$9,584 of capital loss carryovers, expiring in 2017, which may be used to offset future capital gains. The Fund may not realize the benefit of these losses to the extent it does not realize gains on investments prior to the expiration of the capital loss carryovers. In addition, under certain conditions, the Fund may lose the benefit of these losses to the extent that distributions to shareholders exceed required distribution amounts as defined under the Internal Revenue Code. Shareholders may also pay additional taxes on these excess distributions.

21

Under current tax law, foreign currency and capital losses realized after October 31 may be deferred and treated as occurring on the first day of the following fiscal year. For the fiscal year ended December 31, 2009, the Fund deferred \$1,421 and recognized \$108 of post-October losses.

The components of distributable earnings on a tax basis (excluding unrealized appreciation (depreciation) which is disclosed in the table above) consist of undistributed ordinary income of \$0 and undistributed long-term

Edgar Filing: ZWEIG TOTAL RETURN FUND INC - Form N-CSR

capital gains of \$0.

The differences between the book and tax basis components of distributable earnings relate principally to the timing of recognition of income and gains for federal income tax purposes. Short-term gain distributions reported in the Statement of Changes in Net Assets, if any, are reported as ordinary income for federal tax purposes. Distributions are determined on a tax basis and may differ from net investment income and realized capital gains for financial reporting purposes.

NOTE 10 -- RECLASSIFICATION OF CAPITAL ACCOUNTS

As of December 31, 2009, the Fund increased undistributed net investment income by \$39,064, increased the accumulated net realized loss by \$740, and decreased capital paid in on shares of beneficial interest by \$38,324.

NOTE 11 -- RECENT ACCOUNTING PRONOUNCEMENTS

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-06 "Improving Disclosures about Fair Value Measurements". ASU 2010-06 amends FASB Accounting Standards Codification Topic 820, Fair Value Measurements and Disclosures, to require additional disclosures regarding fair value measurements. Certain disclosures required by ASU No. 2010-06 are effective for interim and annual reporting periods beginning after December 15, 2009, and other required disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Management is currently evaluating the impact ASU No. 2010-06 will have on its financial statement disclosures.

NOTE 12 -- SUBSEQUENT EVENT EVALUATIONS

Management has evaluated the impact of all subsequent events on the Fund through February 16, 2010, the date the financial statements were issued, and has determined that the following subsequent event requires recognition or disclosure in these financial statements.

Virtus Distributors, Inc., the Fund's administrator, sub-contracts with PNC Global Investment Servicing for certain sub-administrative duties.

On February 2, 2010, The PNC Financial Services Group, Inc. ("PNC") entered into a Stock Purchase Agreement (the "Stock Purchase Agreement") with The Bank of New York Mellon Corporation ("BNY Mellon"). Upon the terms and subject to the conditions set forth in the Stock Purchase Agreement, which has been approved by the board of directors of each company, PNC will sell to BNY Mellon (the "Stock Sale") 100% of the issued and outstanding shares of PNC Global Investment Servicing Inc., an indirect, wholly-owned subsidiary of PNC. The Stock Sale includes PNC Global Investment Servicing (U.S.) Inc., and is expected to close in the third quarter of 2010.

material respects, the financial position of The Zweig Total Return Fund, Inc. (the "Fund") at December 31, 2009, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2009 by correspondence with the custodian, provide a reasonable basis for our opinion.

SUPPLEMENTARY PROXY INFORMATION

The Special Meeting of Shareholders of The Zweig Total Return Fund, Inc. was

Edgar Filing: ZWEIG TOTAL RETURN FUND INC - Form N-CSR

held on October 27, 2009. The meeting concluded with the Fund remaining closed-end. The number of in-person and proxy votes represented at the special meeting did not constitute a quorum and the chairman of the special meeting closed the meeting without adjournment as permitted by the Fund's bylaws. The number of proxies received represented approximately 32% of the Fund's outstanding shares, with less than 8% of outstanding shares in favor of the conversion proposal. The affirmative vote of a majority of shares outstanding as of the record date would have been required to pass the proposal.

The Fund was required to submit the conversion proposal to its shareholders in accordance with its Articles of Incorporation because its shares traded on the New York Stock Exchange during the quarter ended June 30, 2009 at an average discount from their net asset value of 10% or more, determined on the basis of the discount as of the end of the last trading day in each week during such quarter. As set forth in the Fund's definitive proxy statement filed with the Securities and Exchange Commission on August 28, 2009, the Board of Directors, including its independent directors, voted unanimously to recommend against conversion to an open-end fund.

AUTOMATIC REINVESTMENT AND CASH PURCHASE PLAN

The Zweig Total Return Fund, Inc. (the "Fund") allows you to conveniently reinvest distributions monthly in additional Fund shares thereby enabling you to compound your returns from the Fund. By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

ENROLLMENT IN THE REINVESTMENT PLAN

It is the policy of the Fund to automatically reinvest distributions payable to shareholders. A "registered" shareholder automatically becomes a participant in the Fund's Automatic Reinvestment and Cash Purchase Plan (the "Plan"). The Plan authorizes the Fund to credit all shares of common stock to participants upon a distribution regardless of whether the shares are trading at a discount or premium to the net asset value. Registered shareholders may terminate their participation and receive distributions in cash by contacting Computershare Trust Company, N.A. (the "Plan Administrator"). The termination will become effective with the next distribution if the Plan Administrator is notified at least 7 business days prior to the distribution payment date. Registered shareholders that wish to change their distribution option from cash payment to reinvest may do so by contacting the Plan Administrator at 1-800-272-2700.

In the case of banks, brokers, or other nominees which hold your shares for you as the beneficial owner, the Plan Administrator will administer the Plan based on the information provided by the bank, broker or nominee. To the extent that you wish to participate in the Plan, you should contact the broker, bank or nominee holding your shares to ensure that your account is properly represented. If necessary, you may have your shares taken out of the name of the broker, bank or nominee and register them in your own name.

HOW SHARES ARE PURCHASED THROUGH THE REINVESTMENT PLAN

When a distribution is declared, nonparticipants in the plan will receive cash. Participants in the Plan will receive shares of the Fund valued as described below:

If on the record date of the distribution, the market price of the Fund's common stock is less than the net asset value, the Plan Administrator will buy Fund shares on behalf of the Participant in the open market, on the New York Stock Exchange (NYSE) or elsewhere. The price per share will be equal to the weighted average price of all shares purchased, including commissions. Commission rates are currently \$0.02 per share, although the rate is subject to change and may vary. If, following the commencement of purchases and before the Plan Administrator has completed its purchases, the trading price equals or exceeds the most recent net asset value of the common shares, the Plan Administrator may cease purchasing shares on the open market and the Fund may issue the remaining shares at a price equal to the greater of (a) the net asset value on the last day the Plan Administrator purchased shares or (b) 95% of the market price on such day. In the case where the Plan Administrator has terminated open market purchase and the Fund has issued the remaining shares, the number of shares received by the Participant in respect of the cash distribution will be based on the weighted average of prices paid for shares

Edgar Filing: ZWEIG TOTAL RETURN FUND INC - Form N-CSR

purchased in the open market and the price at which the Fund issued the remaining shares. Under certain circumstances, the rules and regulations of the Securities and Exchange Commission may require limitation or temporary suspension of market purchases of shares under the Plan. The Plan Administrator will not be accountable for its inability to make a purchase during such a period.

If on the record date of the distribution, the market price is equal to or exceeds the net asset value, Participants will be issued new shares by the Fund at the greater of the (a) the net asset value on the record date or (b) 95% of the market price on such date.

The automatic reinvestment of distributions will not relieve Participants of any income tax which may be payable on such distributions. A Participant in the Plan will be treated for federal income tax purposes, as having received on a payment date, a distribution in an amount equal to the cash the participant could have received instead of shares. If you participate in the Plan, you will receive a Form 1099-DIV concerning the Federal tax status of distributions paid during the year.

VOLUNTARY CASH PURCHASE PLAN

Participants in the Plan have the option of making additional cash payments for investment in shares of the Fund. Such payments can be made in any amount from \$100 per payment to \$3,000 per month. The Plan Administrator will use the funds received to purchase Fund shares in the open market on the 15th of each month or the next business day if the 15th falls on a weekend or holiday (the "Investment Date"). The purchase price per share will be equal to the weighted average price of all shares purchased on the Investment Date, including commissions. There is no charge to shareholders for Cash Purchases. The plan administrator's fee will be paid by the Fund. However, each participating shareholder will pay pro rata share of brokerage commissions incurred (currently \$0.02 per share, but may vary and is subject to change) with respect to the Plan Administrator's open market purchases in connection with all cash investments. Voluntary cash payments should be sent to Computershare Trust Company, N.A., PO Box 43078, Providence, RI 02940-3078.

Participants have an unconditional right to obtain the return of any cash payment if the Plan Administrator receives written notice at least 5 business days before such payment is to be invested.

AUTOMATIC MONTHLY INVESTMENT

Participants in the Plan may purchase additional shares by means of an Automatic Monthly Investment of not less than \$100 nor more than \$3,000 per month by electronic funds transfer from a predesignated U.S bank account. If a Participant has already established a Plan account and wishes to initiate Automatic Monthly Investments, the Participant must complete and sign an automatic monthly investment form and return it to the Plan Administrator together with a voided check or deposit slip for the account from which funds are to be withdrawn. Automatic monthly investment forms may be obtained from the Plan Administrator by calling 1-800-272-2700.

TERMINATION OF SHARES

Shareholders wishing to liquidate shares held with the Plan Administrator must do so in writing or by calling 1-800-272-2700. The Plan Administrator does not charge a fee for liquidating your shares; however, a brokerage commission of \$0.02 will be charged. This charge may vary and is subject to change.

Edgar Filing: ZWEIG TOTAL RETURN FUND INC - Form N-CSR

Once terminated, you may re-enroll in the Plan (provided you still have shares registered in your name) by contacting the Plan Administrator at 1-800-272-2700.

ADDITIONAL INFORMATION

For more information regarding the Automatic Reinvestment and Cash Purchase Plan, please contact the Plan Administrator at 1-800-272-2700 or visit our website at Virtus.com.

The Fund reserves the right to amend or terminate the Plan as applied to any voluntary cash payments made and any dividend or distribution paid subsequent to written notice of the change sent to the members of the Plan at least 90 days before the record date for such distribution. The Plan also may be amended or terminated by the Plan Administrator with at least 90 days written notice to participants in the Plan.

The Fund and its Delegate(s) must also identify potential or actual conflicts of interests in voting proxies and address any such conflict of interest in accordance with this Statement of Policy.

III Factors to consider when voting.

- A. A Delegate may abstain from voting when it concludes that the effect on shareholders' economic interests or the value of the Portfolio Holding is indeterminable or insignificant.
- B. In analyzing ANTI-TAKEOVER MEASURES, the Delegate shall vote on a case-by-case basis taking into consideration such factors as overall long-term financial performance of the target company relative to its industry competition. Key measures which shall be considered include, without limitation, five-year annual compound growth rates for sales, operating income, net income, and total shareholder returns (share price appreciation plus dividends). Other financial indicators that will be considered include margin analysis, cash flow, and debit levels.
- C. In analyzing CONTESTED ELECTIONS, the Delegate shall vote on a case-by-case basis taking into consideration such factors as the qualifications of all director nominees. The Delegate shall also consider the independence and attendance record of board and key committee members. A review of the corporate governance profile shall be completed highlighting entrenchment devices that may reduce accountability.
- D. In analyzing CORPORATE GOVERNANCE MATTERS, the Delegate shall vote on a case-by-case basis taking into consideration such factors as tax and economic benefits associated with amending an issuer's state of incorporation, dilution or improved accountability associated with changes in capital structure, management proposals to require a supermajority shareholder vote to amend charters and bylaws and bundled or "conditioned" proxy proposals.
- E. In analyzing EXECUTIVE COMPENSATION PROPOSALS and MANAGEMENT MATTERS, the Adviser shall vote on a case-by-case basis taking into consideration such factors as executive pay and spending on perquisites, particularly in conjunction with sub-par performance and employee layoffs.
- F. In analyzing PROXY CONTESTS FOR CONTROL, the Delegate shall vote on a case-by-case basis taking into consideration such factors as long-term financial performance of the target company relative to its industry; management's track record; background to the proxy contest; qualifications of director nominees (both slates); evaluation of what each side is offering shareholders as well as the likelihood that the proposed objectives and goals can be met; and stock ownership positions.

- G. A Delegate shall generally vote against shareholder SOCIAL MATTERS proposals.

IV Delegation.

- A. In the absence of a specific direction to the contrary from the Board of Trustees of the Fund, the Adviser will be responsible for voting proxies for all Portfolio Holdings in accordance with this Statement of Policy, or for delegating such responsibility as described below.
- B. The Adviser delegated with authority to vote proxies for Portfolio Holdings shall be deemed to assume a duty of care to safeguard the best interests of the Fund and its shareholders. No Delegate shall accept direction or inappropriate influence from any other client, director or employee of any affiliated company and shall not cast any vote inconsistent with this Statement of Policy without obtaining the prior approval of the Fund or its duly authorized representative(s).
- C. With regard to each Series for which there is a duly appointed Subadviser acting pursuant to an investment advisory agreement satisfying the requirements of Section 15(a) of the Investment Company Act of 1940, as amended, and the rules thereunder, the Subadviser may, pursuant to delegated authority from the Adviser, vote proxies for Portfolio Holdings with regard to the Series or portion of the assets thereof for which the Subadviser is responsible. In such case, the Subadviser shall vote proxies for the Portfolio Holdings in accordance with Sections II, III and V of this Statement of Policy, provided, however, that the Subadviser may vote proxies in accordance with its own proxy voting policy/procedures ("Subadviser Procedures") if the following two conditions are satisfied: (1) the Adviser must have approved the Subadviser Procedures based upon the Adviser's determination that the Subadviser Procedures are reasonably designed to further the best economic interests of the affected Fund shareholders, and (2) the Subadviser Procedures are reviewed and approved annually by the Board of Trustees. The Subadviser will promptly notify the Adviser of any material changes to the Subadviser Procedures. The Adviser will periodically review the votes by the Subadviser for consistency with this Statement of Policy.

V. Conflicts of Interest

- A. The Fund and its Delegate(s) seek to avoid actual or perceived conflicts of interest in the voting of proxies for Portfolio Holdings between the interests of Fund shareholders, on one hand, and those of the Adviser, Delegate, principal underwriter, or any affiliated person of the Fund, on the other hand. The Board of Trustees may take into account a wide array of factors in determining whether such a conflict exists, whether such conflict is material in nature, and how to properly address or resolve the same.
- B. While each conflict situation varies based on the particular facts presented and the requirements of governing law, the Board of Trustees or its delegate(s) may take the following actions, among others, or otherwise give weight to the following factors, in addressing material conflicts of interest in voting (or directing Delegates to vote) proxies pertaining to Portfolio Holdings: (i) rely on the recommendations of an established, independent third party with qualifications to vote proxies such as Institutional Shareholder

No Adviser shall waive any conflict of interest or vote any conflicted proxies without the prior written approval of the Board of Trustees or the President of the Fund pursuant to section D of this Article.

- D. In the event that a determination, authorization or waiver under this Statement of Policy is requested at a time other than a regularly scheduled meeting of the Board of Trustees, the President of the Fund shall be empowered with the power and responsibility to interpret and apply this Statement of Policy and provide a report of his or her determinations at the next following meeting of the Board of Trustees.

VI. Miscellaneous.

The Adviser shall gather, collate and present information relating to the its proxy voting activities of those of each Delegate in such format and medium as the Fund shall determine from time to time in order for the Fund to discharge its disclosure and reporting obligations pursuant to Rule 30b1-4 under the Investment Company Act of 1940, as amended.

- C. The Adviser shall pay all costs associated with proxy voting for Portfolio Holdings pursuant to this Statement of Policy and assisting the Fund in providing public notice of the manner in which such proxies were voted.

POTENTIAL CONFLICTS OF INTERESTS

There may be certain inherent conflicts of interest that arise in connection with the Mr. Neel's and Mr. Dickerson's management of each Fund's investments and the investments of any other accounts he manages. Such conflicts could arise from the aggregation of orders for all accounts managed by a particular portfolio manager, the allocation of purchases across all such accounts, the allocation of IPOs and any soft dollar arrangements that the Adviser may have in place that could benefit the Funds and/or such other accounts. The Board of Trustees/Directors has adopted on behalf of the Funds policies and procedures designed to address any such conflicts of interest to ensure that all transactions are executed in the best interest of the Funds' shareholders. The Advisers and Sub adviser are required to certify their compliance with these procedures to the Board of Trustees on a quarterly basis. There have been no material compliance issues with respect to any of these policies and procedures during the Funds' most recent fiscal year ended December 31, 2009. Additionally, there are no material conflicts of interest between the investment strategy of a Fund and the investment strategy of other accounts managed by Mr. Neel and Mr. Dickerson since portfolio managers generally manage funds and other accounts having similar investment strategies.

(A) (3) COMPENSATION STRUCTURE OF PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBERS

For the most recently completed fiscal year ended December 31, 2009, following is a description of Mr. Neel's and Mr. Dickerson's compensation structure as portfolio managers of ZA and Euclid.

Virtus Investment Partners, Inc. and its affiliated investment management firms (collectively, "Virtus"), believe that the firm's compensation program is adequate and competitive to attract and retain high-caliber

Edgar Filing: ZWEIG TOTAL RETURN FUND INC - Form N-CSR

investment professionals. Investment professionals at Virtus receive a competitive base salary, an incentive bonus opportunity and a benefits package. Portfolio managers may also have the opportunity to participate in long-term equity programs, including potential awards of Virtus restricted stock units ("RSUs") with multi-year vesting, subject to Virtus board approval.

Following is a more detailed description of the compensation structure of the Fund's portfolio managers.

Base Salary. Each Portfolio Manager is paid a fixed base salary, which is designed to be competitive in light of the individual's experience and responsibilities. Base salary is determined using compensation survey results of investment industry compensation conducted by an independent third party in evaluating competitive market compensation for its investment management professionals.

Incentive Bonus. Annual incentive payments are based on targeted compensation levels, adjusted based on profitability, investment performance factors and a subjective assessment of contribution to the team effort. The short-term incentive payment is generally paid in cash, but a portion may be made in Virtus RSUs. Individual payments are assessed using comparisons of actual investment performance compared with specific peer groups or index measures.

Performance of the funds managed is generally measured over one-, three- and five year periods and an individual manager's participation is based on the performance of each fund/account managed.

While portfolio manager compensation contains a performance component, this component is further adjusted to reward investment personnel for managing within the stated framework and for not taking unnecessary risks. This approach ensures that investment management personnel remain focused on managing and acquiring securities that correspond to a fund's mandate and risk profile and are discouraged from taking on more risk and unnecessary exposure to chase performance for personal gain. We believe we have appropriate controls in place to handle any potential conflicts that may result from a substantial portion of portfolio manager compensation being tied to performance

Other Benefits. Portfolio managers are also eligible to participate in broad-based plans offered generally to employees of Virtus and its affiliates, including 401(k), health and other employee benefit plans.

In summary, the Investment Manager believes that overall compensation is both fair and competitive while rewarding employees for not taking unnecessary risks to chase personal performance.
