**Approximate date of commencement of proposed sale to the public:** As soon as practicable after the effective date of this registration statement.

If any of the securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, check the following box:

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, please check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

## Edgar Filing: REALOGY CORP - Form S-1

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. ..

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer .. Accelerated filer ..  
 Non-accelerated filer  (Do not check if a smaller reporting company) Smaller reporting company ..

### CALCULATION OF REGISTRATION FEE

Title of each class of securities to be registered	Amount to be registered	Proposed maximum offering price per share	Proposed maximum aggregate offering price	Amount of registration fee
11.00% Series A Convertible Senior Subordinated Notes due 2018	\$1,143,706,000(1)	100%(2)	\$1,143,706,000(2)(3)	\$132,784.27
11.00% Series B Convertible Senior Subordinated Notes due 2018	\$291,424,196(1)	100%(2)	\$291,424,196(2)(3)	\$33,834.35
11.00% Series C Convertible Senior Subordinated Notes due 2018	\$675,111,000(1)	100%(2)	\$675,111,000(2)(3)	\$78,380.39
Class A Common Stock, \$0.01 par value	2,025,809,224(4)	(5)	(5)	(5)
Guarantees				(6)
Total Amount of Registration Fee				\$244,999.00

- (1) Represents the aggregate principal amount of the notes that were issued by Realogy Corporation on January 5, 2011.
- (2) Represents a bona fide estimate of the maximum aggregate offering price solely for the purpose of calculating the registration fee under Rule 457(a) under the Securities Act.
- (3) Equals the aggregate principal amount of notes being registered.
- (4) Represents the maximum number of shares of Class A Common Stock of Domus Holdings Corp. issuable upon conversion of the notes being registered hereby at an initial conversion rate of (A) 975.6098 shares of Class A Common Stock per \$1,000 aggregate principal amount of 11.00% Series A Convertible Senior Subordinated Notes due 2018 and 11.00% Series B Convertible Senior Subordinated Notes due 2018, and (B) 926.7841 shares of Class A Common Stock per \$1,000 aggregate principal amount of 11.00% Series C Convertible Senior Subordinated Notes due 2018. Pursuant to Rule 416 under the Securities Act, the registrants are also registering such indeterminate number of shares of Class A Common Stock as may be issued from time to time upon conversion of the notes as a result of the anti-dilution provisions thereof.
- (5) No separate consideration will be received for the shares of Class A Common Stock of Domus Holdings Corp. issuable upon conversion of the notes; therefore, no additional registration fee is required pursuant to Rule 457(i) under the Securities Act.
- (6) The notes are guaranteed by the guarantors named in Schedule A herein. No separate consideration will be paid in respect of the guarantees, and no additional registration fee is required pursuant to Rule 457(n) under the Securities Act.

**The Registrants hereby amend this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrants shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the Registration Statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.**

**Table of Contents****SCHEDULE A**

The address for each of the guarantors listed below is One Campus Drive, Parsippany, New Jersey 07054. The primary standard industrial classification code number for each of the guarantors listed below is 6531. The guarantors, the states of incorporation or organization for each guarantor and the IRS employer identification number for each guarantor is listed below.

**Table of Contents**

**Subject to completion, dated April 1, 2011**

**The information in this prospectus is not complete and may be changed. The selling securityholders may not sell these securities until the Registration Statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and neither we nor the selling securityholders are soliciting an offer to buy these securities in any jurisdiction where the offer or sale is not permitted.**

**PROSPECTUS**

## **Realogy Corporation**

**\$1,143,706,000 11.00% Series A Convertible Senior Subordinated Notes due 2018**

**\$291,424,196 11.00% Series B Convertible Senior Subordinated Notes due 2018**

**\$675,111,000 11.00% Series C Convertible Senior Subordinated Notes due 2018**

**and**

## **Domus Holdings Corp.**

**Class A Common Stock Issuable upon Conversion of the Notes**

Realogy Corporation ( Realogy ) issued \$2,110,241,196 aggregate principal amount of 11.00% Convertible Senior Subordinated Notes due 2018, consisting of (i) \$1,143,706,000 aggregate principal amount of 11.00% Series A Convertible Senior Subordinated Notes due 2018 (the Series A Convertible Notes ), (ii) \$291,424,196 aggregate principal amount of 11.00% Series B Convertible Senior Subordinated Notes due 2018 (the Series B Convertible Notes ) and (iii) \$675,111,000 aggregate principal amount of 11.00% Series C Convertible Senior Subordinated Notes due 2018 (the Series C Convertible Notes and, together with the Series A Convertible Notes and the Series B Convertible Notes, the notes ) on January 5, 2011 in connection with Realogy s private debt exchange offers (the Debt Exchange Offering ) as more fully described herein. The Series A Convertible Notes, Series B Convertible Notes and Series C Convertible Notes were issued under the same indenture (the indenture ), dated as of January 5, 2011, by and among, Realogy, Domus Holdings Corp., Realogy s indirect parent corporation ( Holdings ), the note guarantors party thereto (the Note Guarantors ) and The Bank of New York Mellon Trust Company, N.A., as trustee (the Trustee), and are treated as a single class for substantially all purposes under the indenture. This prospectus will be used by the selling securityholders named herein to resell their notes and the Class A Common Stock of Holdings, par value \$0.01 per share ( Class A Common Stock ), issuable upon conversion of the notes. We are registering the offer and sale of the notes and the shares of Class A Common Stock issuable upon conversion of the notes to satisfy registration rights we have granted.

The Series A Convertible Notes bear interest at a rate of 11.00% per annum. The Series B Convertible Notes bear interest at a rate of 11.00% per annum. The Series C Convertible Notes bear interest at a rate of 11.00% per annum. Interest is payable semiannually to holders of record at the close of business on April 1 and October 1 immediately preceding the interest payment dates of April 15 and October 15 of each year.

The notes are guaranteed on an unsecured senior subordinated basis by each of Realogy s U.S. direct or indirect restricted subsidiaries that is a guarantor under the 13.375% Senior Subordinated Notes (as defined below). Subject to certain exceptions, any subsidiary that in the future

## Edgar Filing: REALOGY CORP - Form S-1

guarantees the 13.375% Senior Subordinated Notes will also guarantee the notes. Holdings also guarantees the notes on an unsecured junior subordinated basis.

The notes are convertible into Class A Common Stock at any time prior to April 15, 2018. Every \$1,000 aggregate principal amount of Series A Convertible Notes or Series B Convertible Notes is convertible into 975.6098 shares of Class A Common Stock, which is equivalent to an initial conversion price of approximately \$1.025 per share, and every \$1,000 aggregate principal amount of Series C Convertible Notes is convertible into 926.7841 shares of Class A Common Stock, which is equivalent to an initial conversion price of approximately \$1.079 per share, in each case subject to adjustments under certain conditions as set forth in the indenture.

Upon the occurrence of a Qualified Public Offering (as defined below), and at any time thereafter, Realogy may, at its option, redeem the notes, in whole or in part, at a redemption price, payable in cash, equal to 90% of the principal amount of the notes to be redeemed plus accrued and unpaid interest thereon to, but not including, the redemption date. If Realogy undergoes a Change of Control (as defined below), it must offer to repurchase the notes at 101% of the principal amount, plus accrued and unpaid interest and additional interest, if any, to the repurchase date.

We are not selling any notes or shares of Class A Common Stock pursuant to this prospectus and will not receive any proceeds from sales of the securities registered herein by the selling securityholders. The selling securityholders may sell all or a portion of their notes and the Class A Common Stock issuable upon conversion thereof from time to time in market transactions, in negotiated transactions or otherwise, and at prices and on terms that will be determined by the prevailing market price or at negotiated prices. For more information regarding the sales of the notes and Class A Common Stock issuable upon conversion of the notes by the selling securityholders pursuant to this prospectus, please read Plan of Distribution.

There is no public market for the notes or Class A Common Stock and we do not intend to apply for listing of the notes or the Class A Common Stock on any securities exchanges or for quotation of these securities through any automated quotation systems.

**Investing in the notes and the Class A Common Stock issuable upon conversion of the notes involves risks. See Risk Factors beginning on page 19.**

**Neither the Securities and Exchange Commission (the SEC) nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.**

**The date of this prospectus is \_\_\_\_\_, 2011.**

*Except as otherwise indicated or unless the context otherwise requires, the terms "we," "us," "our," "our company" and the "Company" refer to Domus Holdings Corp. and its consolidated subsidiaries, including Domus Intermediate Holdings Corp., a Delaware limited liability company ("Intermediate") and Realogy Corporation, a Delaware corporation ("Realogy"). Holdings is not a party to the senior secured credit facility and certain references in this prospectus to our consolidated indebtedness exclude Holdings with respect to indebtedness under the senior secured credit facility. In addition, while Holdings is a guarantor of Realogy's obligations under the Unsecured Notes (as defined below) and the First and a Half Lien Notes (as defined below), Holdings is not subject to the restrictive covenants in the agreements governing such indebtedness. Holdings, the indirect parent of Realogy, does not conduct any operations other than with respect to its indirect ownership of Realogy. Intermediate, the parent of Realogy, does not conduct any operations other than with respect to its ownership of Realogy.*

You should rely only on the information contained in this prospectus or to which we have referred you. We have not, and the selling securityholders have not, authorized anyone to provide you with information that is different. This prospectus may only be used where it is legal to sell the securities being offered by this prospectus. You should not assume that the information contained in this prospectus is accurate as of any date other than the date on the front cover of this prospectus.

**Table of Contents**

**TRADEMARKS AND SERVICE MARKS**

We own or have rights to use the trademarks, service marks and trade names that we use in conjunction with the operation of our business. Some of the more important trademarks that we own or have rights to use that appear in this prospectus include the CENTURY 21<sup>®</sup>, COLDWELL BANKER<sup>®</sup>, ERA<sup>®</sup>, THE CORCORAN GROUP<sup>®</sup>, COLDWELL BANKER COMMERCIAL<sup>®</sup>, SOTHEBY S INTERNATIONAL REALTY<sup>®</sup> and BETTER HOMES AND GARDENS<sup>®</sup> marks, which are registered in the United States and/or registered or pending registration in other jurisdictions, as appropriate to the needs of our relevant business. Each trademark, trade name or service mark of any other company appearing in this prospectus is owned by such company.

**MARKET AND INDUSTRY DATA AND FORECASTS**

This prospectus includes data, forecasts and information obtained from independent trade associations, industry publications and surveys and other information available to us. Some data is also based on our good faith estimates, which are derived from management's knowledge of the industry and independent sources. As noted in this prospectus, the National Association of Realtors (NAR), the Federal National Mortgage Association (Fannie Mae) and the Federal Home Loan Mortgage Corporation (Freddie Mac) were the primary sources for third-party industry data and forecasts. While NAR and Fannie Mae are two indicators of the direction of the residential housing market, we believe that homesale statistics will continue to vary between us and NAR and Fannie Mae because they use survey data in their historical reports and forecasting models whereas we use data based on actual reported results. In addition to the differences in calculation methodologies, there are geographical differences and concentrations in the markets in which we operate versus the national market. For instance, comparability is impaired due to NAR's utilization of seasonally adjusted annualized rates whereas we report actual period over period changes and their use of median price for their forecasts compared to our average price. Historical NAR data is subject to periodic review and revision. NAR has recently issued a press release disclosing that it is engaged in a review of its sampling and methodology processes with respect to existing homesale data to ensure accuracy. NAR expects to conclude this analysis and publish any revisions in the summer of 2011. Any such changes could result in downward revisions of NAR's historical national survey data but would have no impact on Realogy's reported financial results or driver information.

Forecasts regarding rates of home ownership, median sales price, volume of homesales, and other metrics included in this prospectus to describe the housing industry are inherently uncertain or speculative in nature and actual results for any period may materially differ. Industry publications and surveys and forecasts generally state that the information contained therein has been obtained from sources believed to be reliable, but such information may not be accurate or complete. We have not independently verified any of the data from third-party sources nor have we ascertained the underlying economic assumptions relied upon therein. Statements as to our market position are based on market data currently available to us. While we believe that the industry data presented herein are derived from the most widely recognized sources for reporting U.S. residential housing market statistical data, we do not endorse or suggest reliance on this data alone but provide the data as a benchmark for the industry.

We believe our internal research is reliable, even though such research has not been verified by any independent sources.

**Table of Contents**

**PROSPECTUS SUMMARY**

*This summary highlights information contained elsewhere in this prospectus. You should read the entire prospectus carefully, including the section entitled Risk Factors and our financial statements and the related notes included elsewhere in this prospectus, before making an investment decision to purchase notes and shares of Class A Common Stock issuable upon conversion of the notes. All amounts in this prospectus are expressed in U.S. dollars and the financial statements have been prepared in accordance with generally accepted accounting principles in the United States ( GAAP ).*

**Our Company**

Realogy is a wholly-owned subsidiary of Domus Intermediate Holding Corp., a Delaware corporation, which is wholly-owned by Holdings. Holdings, a Delaware corporation, does not conduct any operations other than with respect to its indirect ownership of Realogy.

We are one of the preeminent and most integrated providers of real estate and relocation services. We are the world's largest real estate brokerage franchisor, the largest U.S. residential real estate brokerage firm, the largest U.S. provider and a leading global provider of outsourced employee relocation services and a provider of title and settlement services. Through our portfolio of leading brands and the broad range of services we offer, we have established our company as a leader in the residential real estate industry, with operations that are dispersed throughout the U.S. and in various locations worldwide. We derive the vast majority of our revenues from serving the needs of buyers and sellers of existing homes, rather than serving the needs of builders and developers of new homes. Realogy was incorporated on January 27, 2006 in the State of Delaware. Holdings was incorporated on December 14, 2006 in the State of Delaware.

We report our operations in four segments: Real Estate Franchise Services, Company Owned Real Estate Brokerage Services, Relocation Services and Title and Settlement Services.

**Segment Overview**

**Real Estate Franchise Services:** Through our Real Estate Franchise Services segment, or RFG, we are a franchisor of some of the most recognized brands in the real estate industry. As of December 31, 2010, our franchise system had approximately 14,700 offices (which included approximately 750 of our company owned and operated brokerage offices) and 264,000 independent sales associates operating under our franchise and proprietary brands in the U.S. and 99 other countries and territories around the world (internationally, generally through master franchise agreements). In 2010, based on NAR's historical survey data and our own results, we were involved, either through our franchise operations of our franchisees or our company owned brokerages, in approximately 23% of all existing homesale transaction volume (sides times average sales price) for domestic transactions involving a real estate brokerage firm. As of December 31, 2010, we had approximately 3,600 domestic franchisees, none of which individually represented more than 1% of our franchise royalties (other than our subsidiary, NRT LLC, or NRT, which operates our company owned brokerage business). We believe this reduces our exposure to any one franchisee. On average, our franchisee's tenure with our brands is 18 years as of December 31, 2010. Our franchise revenues in 2010 included \$206 million of royalties paid by our company owned brokerage operations, or approximately 37% of total franchise revenues, which eliminates in consolidation. As of December 31, 2010, our real estate franchise brands were:

**Century 21®** One of the world's largest residential real estate brokerage franchisors, with approximately 8,000 franchise offices and approximately 121,000 independent sales associates located in the U.S. and 71 other countries and territories;

---

**Table of Contents**

**Coldwell Banker®** One of the largest residential real estate brokerage franchisors, with approximately 3,300 franchise and company owned offices and approximately 89,700 independent sales associates located in the U.S. and 49 other countries and territories;

**ERA®** A residential real estate brokerage franchisor, with approximately 2,500 franchise and company owned offices and approximately 30,100 independent sales associates located in the U.S. and 41 other countries and territories;

**Sotheby's International Realty®** A luxury real estate brokerage brand. In February 2004, we acquired Sotheby's company owned offices and the exclusive license for the rights to the Sotheby's Realty and Sotheby's International Realty trademarks. Since that time, we have grown the brand from 15 company owned offices to approximately 550 franchise and company owned offices and approximately 11,800 independent sales associates located in the U.S. and 43 other countries and territories;

**Better Homes and Gardens® Real Estate** We launched the Better Homes and Gardens® Real Estate brand in July 2008 under an exclusive long-term license from Meredith Corporation ( Meredith ) and have approximately 200 franchise offices and approximately 7,000 independent sales associates located in the U.S.; and

**Coldwell Banker Commercial®** A commercial real estate brokerage franchisor. Our commercial franchise system has approximately 160 franchise offices and approximately 2,100 independent sales associates worldwide. The number of offices and independent sales associates in our commercial franchise system does not include our residential franchise and company owned brokerage offices and the independent sales associates who work out of those brokerage offices that also conduct commercial real estate brokerage business using the Coldwell Banker Commercial® trademarks.

We derive substantially all of our real estate franchising revenues from royalty fees received under long-term franchise agreements with our franchisees (typically ten years in duration for domestic agreements). The royalty fee is based on a percentage of the franchisees' sales commission earned from real estate transactions, which we refer to as gross commission income. Our franchisees pay us royalty fees for the right to operate under one of our trademarks and to utilize the benefits of the systems and tools provided by our real estate franchise operations. These royalty fees enable us to have recurring revenue streams. In exchange, we provide our franchisees with support that is designed to facilitate our franchisees in growing their business, attracting new independent sales associates and increasing their revenue and profitability. We support our franchisees with dedicated branding-related national marketing and servicing programs, technology, training and education. We believe that one of our strengths is the strong relationships that we have with our franchisees, as evidenced by our franchisee retention rate of 95% in 2010. Our retention rate represents the annual gross commission income as of December 31 of the previous year generated by our franchisees that remain in the franchise system on an annual basis, measured against the annual gross commission income of all franchisees as of December 31 of the previous year.

**Company Owned Real Estate Brokerage Services:** Through our subsidiary, NRT, we own and operate a full-service real estate brokerage business in more than 35 of the largest metropolitan areas of the U.S. Our company owned real estate brokerage business operates principally under our Coldwell Banker® brand as well as under the ERA® and Sotheby's International Realty® franchised brands, and proprietary brands that we own, but do not currently franchise to third parties, such as The Corcoran Group®. In addition, under NRT, we operate a large independent REO residential asset manager, which focuses on bank-owned properties. At December 31, 2010, we had approximately 750 company owned brokerage offices, approximately 5,000 employees and approximately 44,000 independent sales associates working with these company owned offices. Acquisitions have been, and will continue to be, part of our strategy and a contributor to the growth of our company owned brokerage business.

## **Table of Contents**

Our company owned real estate brokerage business derives revenues primarily from gross commission income received serving as the broker at the closing of real estate transactions. For the year ended December 31, 2010, our average homesale broker commission rate was 2.48% which represents the average commission rate earned on either the buy side or the sell side of a homesale transaction. Generally in U.S. homesale transactions, the broker for the home seller instructs the closing agent to pay a portion of the sales commission to the broker for the buyer and keeps the remaining portion of the homesale commission. In addition, as a full-service real estate brokerage company, in compliance with applicable laws and regulations, including the Real Estate Settlement Procedures Act ( RESPA ), we actively promote the services of our relocation and title and settlement services businesses, as well as the products offered by PHH Home Loans, LLC ( PHH Home Loans ), our home mortgage venture with PHH Corporation ( PHH ) that is the exclusive recommended provider of mortgages for our real estate brokerage and relocation service customers. All mortgage loans originated by PHH Home Loans are sold to PHH or other third party investors, and PHH Home Loans does not hold any mortgage loans for investment purposes or perform servicing functions for any loans it originates. Accordingly, our home mortgage venture structure insulates us from mortgage servicing risk. We own 49.9% of PHH Home Loans and PHH owns the remaining 50.1%. The Company is not the primary beneficiary and therefore our financial results only reflect our proportionate share of the venture's results of operations which are recorded using the equity method.

**Relocation Services:** Through our subsidiary, Cartus Corporation ( Cartus ), we are a leading global provider of outsourced employee relocation services and the largest provider in the U.S. We offer a broad range of world-class employee relocation services designed to manage all aspects of an employee's move to facilitate a smooth transition in what otherwise may be a difficult process for both the employee and the employer.

Our relocation services business primarily offers its clients employee relocation services such as homesale assistance, home finding and other destination services, expense processing, relocation policy counseling and other consulting services, arranging household moving services, visa and immigration support, intercultural and language training and group move management services. In addition to general residential housing trends, key drivers of our relocation services business are corporate spending and employment trends.

In January 2010, our relocation business acquired Primacy, a relocation and global assignment management services company headquartered in Memphis, Tennessee with international locations in Canada, Europe and Asia. The acquisition enabled Cartus to re-enter the U.S. government relocation business, increase its domestic operations, as well as expand the Company's global relocation capabilities. Effective January 1, 2011, the Primacy business operates under the Cartus name.

In 2010, we assisted in over 148,000 relocations in over 160 countries for approximately 1,500 active clients, including over 60% of the Fortune 500 companies as well as affinity organizations. Cartus has offices in the U.S. as well as internationally in Swindon and Richmond, United Kingdom, Canada, Hong Kong, Singapore, China, Germany, France, Switzerland and The Netherlands.

Clients pay a fee for the services performed and we also receive commissions from third-party service providers, such as real estate brokers and household goods moving service providers. The majority of our clients pay interest on home equity advances and nearly all clients reimburse all other costs associated with our services, including, where required, repayment of home equity advances and reimbursement of losses on the sale of homes purchased. We believe we provide our relocation clients with exceptional service which leads to client retention. As of December 31, 2010, our top 25 relocation clients had an average tenure of 18 years with us. In addition, our relocation services business generates revenue for our other businesses because the clients of our relocation services business often utilize the services of our franchisees and company owned brokerage offices as well as our title and settlement services.

---

## **Table of Contents**

***Title and Settlement Services:*** In most real estate transactions, a buyer will choose, or will be required, to purchase title insurance that will protect the purchaser and/or the mortgage lender against loss or damage in the event that title is not transferred properly and to insure free and clear ownership of the property to the buyer. Our title and settlement services business, which we refer to as TRG, assists with the closing of a real estate transaction by providing full-service title and settlement (i.e., closing and escrow) services to customers, real estate companies, including our company owned real estate brokerage and relocation services businesses as well as a targeted channel of large financial institution clients including PHH. In addition to our own title settlement services, we also coordinate a nationwide network of attorneys, title agents and notaries to service financial institution clients on a national basis.

Our title and settlement services business earns revenues through fees charged in real estate transactions for rendering title and other settlement and non-settlement related services. We provide many of these services in connection with transactions in which our company owned real estate brokerage and relocation services businesses are participating. During 2010, approximately 39% of the customers of our company owned brokerage offices where we offer title coverage also utilized our title and settlement services. Fees for escrow and closing services are generally separate and distinct from premiums paid for title insurance and other real estate services. We also derive revenues by providing our title and settlement services to various financial institutions in the mortgage lending industry. Such revenues are primarily derived from providing our services to their customers who are refinancing their mortgage loans.

We also serve as an underwriter of title insurance policies in connection with residential and commercial real estate transactions. Our title insurance underwriter is licensed in 25 states and Washington, D.C. Our title underwriting operation generally earns revenues through the collection of premiums on policies that it issues.

## **The Refinancing Transactions**

### ***Debt Exchange Offering***

On January 5, 2011, Realogy consummated private debt exchange offers exempt from the registration requirements of the Securities Act of 1933, as amended (the Securities Act), for its outstanding 10.50% Senior Notes due 2014 (the 10.50% Senior Notes), 11.00%/11.75% Senior Toggle Notes due 2014 (the Senior Toggle Notes and, together with the 10.50% Senior Notes, the Existing Senior Notes) and 12.375% Senior Subordinated Notes due 2015 (the 12.375% Senior Subordinated Notes and, together with the Existing Senior Notes, the Existing Notes) pursuant to which Realogy issued the outstanding 11.50% Senior Notes due 2017 (the 11.50% Senior Notes), the outstanding 12.00% Senior Notes due 2017 (the 12.00% Senior Notes and, together with the 11.50% Senior Notes, the Extended Maturity Senior Notes and, together with the Existing Senior Notes, the Senior Notes), the outstanding 13.375% Senior Subordinated Notes due 2018 (the 13.375% Senior Subordinated Notes and, together with the Extended Maturity Senior Notes, the Extended Maturity Notes) and the notes all as issued in the Debt Exchange Offering in exchange for the Existing Notes. The term Senior Subordinated Notes refers to the 12.375% Senior Subordinated Notes and the 13.375% Senior Subordinated Notes, collectively; and the term Unsecured Notes refers to the Senior Notes, the Senior Subordinated Notes and the notes, collectively.

Pursuant to the Debt Exchange Offering, approximately \$2,110 million aggregate principal amount of Existing Notes were tendered for the notes, which are convertible at the holder's option into Class A Common Stock and approximately \$632 million aggregate principal amount were tendered for the Extended Maturity Notes. On January 5, 2011, Realogy issued:

\$492 million aggregate principal amount of 11.50% Senior Notes and \$1,144 million aggregate principal amount of Series A Convertible Notes in exchange for \$1,636 million aggregate principal amount of outstanding 10.50% Senior Notes;

---

**Table of Contents**

\$130 million aggregate principal amount of 12.00% Senior Notes and \$291 million aggregate principal amount of Series B Convertible Notes in exchange for \$421 aggregate principal amount of outstanding Senior Toggle Notes; and

\$10 million aggregate principal amount of 13.375% Senior Subordinated Notes and \$675 million aggregate principal amount of Series C Convertible Notes in exchange for \$685 million aggregate principal amount of outstanding 12.375% Senior Subordinated Notes.

In addition, upon receipt of the requisite consents from the holders of the 10.50% Senior Notes and Senior Toggle Notes, Realogy amended the respective indentures governing the terms of such notes to remove substantially all of the restrictive covenants and certain other provisions previously contained in those indentures.

As a result of the Debt Exchange Offering, Realogy extended the maturity of approximately \$2,742 million aggregate principal amount of the Unsecured Notes to 2017 and 2018, leaving approximately \$303 million aggregate principal amount of Existing Notes that mature in 2014 and 2015. In addition, pursuant to the terms of the indenture, the notes are redeemable at Realogy's option at a price equal to 90% of the principal amount thereof, plus accrued and unpaid interest to the date of redemption upon a Qualified Public Offering.

***Amendment to Senior Secured Credit Facility***

Effective February 3, 2011, Realogy entered into the first amendment to the senior secured credit facility (the Senior Secured Credit Facility Amendment ) and an incremental assumption agreement, which resulted in the following:

certain lenders extended the maturity of a significant portion of first lien term loans, revolving commitments and synthetic letter of credit commitments to October 10, 2016, April 10, 2016, and October 10, 2016, respectively, which extensions resulted in approximately \$2,424 million aggregate principal amount of extended term loans, approximately \$461 million aggregate principal amount of commitments in respect of extended revolving loans and approximately \$171 million aggregate principal amount of extended synthetic letter of credit commitments;

certain lenders simultaneously converted approximately \$98 million aggregate principal amount of revolving commitments in respect of extended revolving loans to extended term loans, thereby reducing the commitments under the revolving credit facility to \$652 million;

the net proceeds of the \$700 million aggregate principal amount of First and a Half Lien Notes (as defined below), together with cash on hand, were used to prepay \$700 million of the outstanding extended term loans, thereby reducing the aggregate principal amount of extended term loans to \$1,822 million;

the interest rate with respect to the extended term loans was increased by 1.25% from the rate applicable to the non-extended term loans;

the interest rate with respect to the extended revolving loans was increased by 1.0% from the rate applicable to the non-extended revolving loans; and

the fee with respect to the synthetic letter of credit facility was increased by 1.25% from the fee applicable to the non-extended synthetic letter of credit facility.

The Senior Secured Credit Facility Amendment also provides for the following:

## Edgar Filing: REALOGY CORP - Form S-1

allows for one or more future issuances of additional senior secured notes or unsecured notes or loans to prepay Realogy's first lien term loans, to be secured on either a *pari passu* basis with, or junior to, its first lien obligations under the senior secured credit facility;

**Table of Contents**

allows for one or more future issuances of additional senior secured or unsecured notes or loans to prepay Realogy's second lien loans, to be secured on a *pari passu* basis with, or junior to, its second lien loans under the senior secured credit facility;

allows for the incurrence of additional incremental term loans that are secured on a junior basis to the second lien loans in an aggregate amount not to exceed \$350 million; and

provides that debt financing secured by a lien that is junior in priority to the first lien obligations under the senior secured credit facility (including, but not limited to, the First and a Half Lien Notes) will not, subject to certain exceptions, constitute senior secured debt for purposes of calculating the senior secured leverage ratio under the senior secured credit facility.

The extended term loans do not require any scheduled amortization of principal. The non-extended term loan facility will continue to provide for quarterly amortization payments totaling 1% per annum of the principal amount of the non-extended first lien term loans. Approximately \$635 million aggregate principal amount of the term loans under the senior secured credit facility were not extended in connection with the Senior Secured Credit Facility Amendment.

***Issuance of First and a Half Lien Notes***

On February 3, 2011, Realogy issued \$700 million aggregate principal amount of 7.875% Senior Secured Notes due 2019 (the First and a Half Lien Notes) in a private offering exempt from the registration requirements of the Securities Act. The First and a Half Lien Notes are secured by substantially the same collateral as Realogy's existing secured obligations under the senior secured credit facility, but the priority of the collateral liens securing the First and a Half Lien Notes is (i) junior to the collateral liens securing Realogy's first lien obligations under the senior secured credit facility and (ii) senior to the collateral liens securing Realogy's second lien obligations under the senior secured credit facility.

As discussed above, the net proceeds from the offering of the First and a Half Lien Notes, along with cash on hand, were used to prepay \$700 million of certain of Realogy's first lien term loans that were extended in connection with the Senior Secured Credit Facility Amendment. See Description of Other Indebtedness for further discussion of the First and a Half Lien Notes and Realogy's other outstanding indebtedness.

As used in this prospectus, the term Refinancing Transactions refers to, collectively, (1) the Debt Exchange Offering, (2) the Senior Secured Credit Facility Amendment, and (3) the issuance of First and a Half Lien Notes.

**Table of Contents**

**OUR OWNERSHIP AND DEBT STRUCTURE**

The following diagram sets forth our ownership and debt structure as of December 31, 2010, after giving effect to the Refinancing Transactions. The diagram does not display all of our subsidiaries.

- (1) Consists of investment funds affiliated with Apollo (as defined below) and an investment fund of co-investors managed by Apollo that invested an aggregate of \$1,978 million of equity in Holdings upon consummation of the Merger.
- (2) In connection with the Debt Exchange Offering, Apollo and Paulson & Co. Inc., on behalf of the several investment funds and accounts managed by it (together with such investment funds and accounts, Paulson ), received Convertible Notes. On a fully diluted basis, assuming that all notes issued in the Debt Exchange Offering are converted into Class A Common Stock, Apollo and Paulson would own approximately 66.26% and 21.52%, respectively, of the outstanding common stock of Holdings (the

**Table of Contents**

- Common Stock ) immediately following such conversion, and the remaining 12.22% of our outstanding Common Stock would be held by our directors, officers and employees (0.2%) and other holders of Convertible Notes.
- (3) Certain members of our management also contributed rollover equity of \$23 million to finance a portion of the Merger. As of December 31, 2010, management owned 2,610,906 shares of Common Stock, options to purchase 15,253,250 shares of Common Stock and 4,500 shares of restricted stock of Holdings. On January 5, 2011, the Board of Directors of Realogy approved the Realogy Corporation Phantom Value Plan and made initial grants of Incentive Awards of approximately \$21.8 million to our CEO, the other named executive officers and the CEO's other three direct reports. These grants are subject to the terms and conditions of the Phantom Value Plan which is intended to provide certain participants, including the Company's named executive officers, with an incentive to remain in the service of the Company, to increase their interest in the success of the Company and to receive compensation based upon the Company's success.
  - (4) As of December 31, 2010, after giving effect to the Refinancing Transactions, the first priority obligations under the senior secured credit facility would have consisted of a \$2,457 million term loan facility, no outstanding borrowings under a \$652 million revolving credit facility, and \$223 million of letters of credit outstanding under a \$257 million synthetic letter of credit facility. On January 5, 2011, Realogy reduced the capacity of its synthetic letter of credit facility to \$223 million to remove the excess capacity above the outstanding letters of credit. The available capacity under the revolving credit facility is reduced by outstanding letters of credit drawn thereunder. As of December 31, 2010, after giving effect to the Refinancing Transactions, borrowing availability under the revolving credit facility would have been approximately \$473 million (after giving effect to \$179 million of outstanding letters of credit). As of March 1, 2011, we had \$60 million outstanding under the revolving credit facility.
  - (5) Realogy has \$650 million of second lien term loans under the incremental loan feature of the senior secured credit facility (the Second Lien Loans ).
  - (6) Guarantors include each wholly-owned subsidiary of Realogy other than subsidiaries that are (a) foreign subsidiaries, (b) securitization entities that are subsidiaries of Cartus Corporation, (c) insurance underwriters that are subsidiaries of Title Resource Group LLC and (d) qualified foreign corporation holding companies.
  - (7) Certain subsidiaries of Cartus Corporation are borrowers under the Securitization Facilities. These special purpose entities were created for financing relocation receivables and advances, relocation properties held for sale and other related assets and issuing notes secured by such receivables and other assets. At December 31, 2010, \$331 million of securitization obligations were outstanding under our Securitization Facilities which were collateralized by \$393 million of securitization assets that are not available to pay our general obligations.
  - (8) Other bank indebtedness consists of revolving credit facilities that are supported by letters of credit issued under the senior secured credit facility, \$5 million is due in April 2011, \$50 million is due in June 2011, \$50 million is due in November 2011, \$50 million is due in January 2013 and \$8 million is due in May 2015. In February 2011, Realogy repaid \$55 million of outstanding borrowings under these revolving credit facilities that were due in April and June 2011.

**Our Equity Sponsor**

On December 15, 2006, Realogy entered into an agreement and plan of merger (the Merger ) with affiliates of Apollo. The Merger was consummated on April 10, 2007. As a result of the Merger, Realogy became an indirect wholly-owned subsidiary of Holdings and our principal stockholders are investment funds affiliated with, or co-investment vehicles managed by, Apollo Management VI, L.P. or one of its affiliates (together with Apollo Global Management, LLC and its subsidiaries, Apollo ). Founded in 1990, Apollo is a leading global alternative asset manager with offices in New York, Los Angeles, London, Frankfurt, Luxembourg, Singapore, Hong Kong and Mumbai. As of December 31, 2010, Apollo had assets under management of \$67.6 billion in its private equity, capital markets and real estate businesses. Companies owned or controlled by Apollo or its affiliates or in which Apollo or its affiliates have a significant equity investment include, among others, Affinion Group Holdings, Inc., AMC Entertainment, Inc., Berry Plastics Group, Inc., CEVA Group Plc, Metals USA Holdings Corp., Momentive Performance Materials LLC, NCL Corporation Ltd., Noranda Aluminum Holding Corporation, Rexnord Holdings, Inc. and Verso Paper Company.

**Table of Contents****SUMMARY HISTORICAL CONSOLIDATED FINANCIAL DATA**

The following table presents our summary historical consolidated financial data and operating statistics. The consolidated statement of operations data for the years ended December 31, 2010, 2009 and 2008 and the consolidated balance sheet data as of December 31, 2010 and 2009 have been derived from our audited consolidated financial statements included in this prospectus. The consolidated balance sheet data as of December 31, 2008 has been derived from our consolidated and combined financial statements not included in this prospectus. Holdings, the indirect parent of Realogy, does not conduct any operations other than with respect to its indirect ownership of Realogy. Intermediate, the parent of Realogy, does not conduct any operations other than with respect to its ownership of Realogy. Any expenses related to stock compensation issued by Holdings to the employees or directors of Realogy or franchise taxes incurred by Holdings are recorded in Realogy's financial statements. As a result, there are no material differences between Holdings' and Realogy's financial statements for the years ended December 31, 2010, 2009 and 2008 and no material differences between Intermediate's and Realogy's financial statements for the years ended December 31, 2010, 2009 and 2008.

The summary historical consolidated financial data should be read in conjunction with the sections of this prospectus entitled "Capitalization," and "Selected Historical Consolidated and Combined Financial Statements."

- (1) After giving effect to the Refinancing Transactions, we estimate that our annual cash interest will increase by approximately \$55 million assuming current LIBOR rates and outstanding indebtedness.

---

**Table of Contents**

- (2) EBITDA is defined by us as net income (loss) before depreciation and amortization, interest (income) expense, net (other than relocation services interest for securitization assets and securitization obligations) and income taxes. EBITDA before restructuring and other items is defined by us as EBITDA adjusted for merger costs, restructuring costs, former parent legacy cost (benefit) items, net, impairment of intangible assets, goodwill and investments in unconsolidated entities, non-cash charges for PHH Home Loans impairment and gain on extinguishment of debt. We present EBITDA and EBITDA before restructuring and other items because we believe EBITDA and EBITDA before restructuring and other items are useful supplemental measures in evaluating the performance of our operating businesses and provide greater transparency into our results of operations. The EBITDA and EBITDA before restructuring and other items measures are used by our management, including our chief operating decision maker, to perform such evaluation. EBITDA and EBITDA before restructuring and other items should not be considered in isolation or as a substitute for net income or other statement of operations data prepared in accordance with GAAP.

We believe EBITDA facilitates company-to-company operating performance comparisons by backing out potential differences caused by variations in capital structures (affecting net interest expense), taxation, the age and book depreciation of facilities (affecting relative depreciation expense) and the amortization of intangibles, which may vary for different companies for reasons unrelated to operating performance. We believe EBITDA before restructuring and other items also facilitates company-to-company operating performance comparisons by backing out those items in EBITDA as well as certain historical cost (benefit) items which may vary for different companies for reasons unrelated to operating performance. We further believe that EBITDA is frequently used by securities analysts, investors and other interested parties in their evaluation of companies, many of which present an EBITDA measure when reporting their results.

EBITDA and EBITDA before restructuring and other items have limitations as analytical tools, and you should not consider EBITDA and EBITDA before restructuring and other items either in isolation or as substitutes for analyzing our results as reported under GAAP. The limitations include the following:

these measures do not reflect changes in, or cash requirement for, our working capital needs;

these measures do not reflect our interest expense (except for interest related to our securitization obligations), or the cash requirements necessary to service interest or principal payments on our debt;

these measures do not reflect our income tax expense or the cash requirements to pay our taxes;

these measures do not reflect historical cash expenditures or future requirements for capital expenditures or contractual commitments;

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often require replacement in the future, and these EBITDA measures do not reflect any cash requirements for such replacements; and

other companies in our industry may calculate these EBITDA measures differently so they may not be comparable.

EBITDA and EBITDA before restructuring and other items are not necessarily comparable to other similarly titled financial measures of other companies due to the potential inconsistencies in the method of calculation

- (3) Adjusted EBITDA Senior Secured Credit Facility Covenant Compliance corresponds to the definition of EBITDA, calculated on a pro forma basis, used in the senior secured credit facility to calculate the senior secured leverage ratio. Adjusted EBITDA is calculated by adjusting EBITDA by the items described below. Adjusted EBITDA is presented to demonstrate Realogy's compliance with the senior secured leverage ratio covenant in the senior secured credit facility. Adjusted EBITDA has limitations as an analytical tool and should not be considered in isolation or as a substitute for net income or other statement of operations data prepared in accordance with GAAP.

**Table of Contents**

In addition to the limitations described above with respect to EBITDA and EBITDA before restructuring and other items, Adjusted EBITDA includes pro forma cost savings, the pro forma effect of business optimization initiatives and the pro forma full year effect of acquisitions and new franchisees. These adjustments may not reflect the actual cost savings or pro forma effect recognized in future periods. We present Adjusted EBITDA for the trailing twelve month period.

A reconciliation of net loss attributable to Realogy to EBITDA, EBITDA before restructuring and other items and Adjusted EBITDA for the years ended December 31, 2010, 2009 and 2008 as calculated in accordance with the senior secured credit facility and presented in certificates delivered to the lenders under the senior secured credit facility is set forth in the following table:

	For the Year Ended December 31,		
	2010	2009	2008

<b>Adjusted EBITDA Senior secured credit facility covenant compliance</b>	<b>\$ 633</b>	<b>\$ 619</b>	<b>\$ 657</b>
<b>Total senior secured net debt (r)</b>	<b>\$ 2,905</b>	<b>\$ 2,886</b>	<b>\$ 3,250</b>
Senior secured leverage ratio (s)	4.59x	4.66x	4.95x

(a) Consists of \$21 million of restructuring costs and \$1 million of merger costs offset by a benefit of \$323 million of former parent legacy items.

(b) Represents the non-cash adjustment for the impairment of goodwill, intangible assets and investments in unconsolidated entities.

(c) Represents actual costs incurred that are not expected to recur in subsequent periods due to restructuring activities initiated during 2010. From this restructuring, we expect to reduce our operating costs by approximately \$34 million on a twelve-month run-rate basis and estimate that \$14 million of such savings

**Table of Contents**

- were realized from the time they were put in place. The adjustment shown represents the impact the savings would have had on the period from January 1, 2010 through the time they were put in place, had those actions been effected on January 1, 2010.
- (d) Represents actual costs incurred that were not expected to recur in subsequent periods due to restructuring activities initiated during 2009. From this restructuring, we expected to reduce our operating costs by approximately \$103 million on a twelve-month run-rate basis and estimated that \$70 million of such savings were realized from the time they were put in place. The adjustment shown represents the impact the savings would have had on the period from January 1, 2009 through the time they were put in place, had those actions been effected on January 1, 2009.
  - (e) Represents actual costs incurred that were not expected to recur in subsequent periods due to restructuring activities initiated during 2008. From this restructuring, we expected to reduce our operating costs by approximately \$96 million on a twelve month run-rate basis and estimated that \$31 million of such savings were realized from the time they were put in place. The adjustment shown represents the impact the savings would have had on the period from January 1, 2008 through the time they were put in place, had those actions been effected on January 1, 2008.
  - (f) Represents the twelve-month pro forma effect of business optimization initiatives that have been completed to reduce costs, including \$12 million related to our Relocation Services new business start-ups, integration costs and acquisition related non-cash adjustments, \$6 million related to vendor renegotiations, \$23 million for employee retention accruals and \$8 million of other initiatives. The employee retention accruals reflect the employee retention plans that have been implemented in lieu of our customary bonus plan, due to the ongoing and prolonged downturn in the housing market in order to ensure the retention of executive officers and other key personnel, principally within our corporate services unit and the corporate offices of our four business units.
  - (g) Represents the twelve-month pro forma effect of business optimization initiatives that have been completed to reduce costs, including \$3 million for initiatives to improve the Company Owned Real Estate Brokerage profit margin, \$2 million for initiatives to improve Relocation Services and Title and Settlement Services fees, \$19 million for employee retention accruals, and \$14 million related to other initiatives. The employee retention accruals reflect the employee retention plans that have been implemented in lieu of our customary bonus plan, due to the ongoing and prolonged downturn in the housing market in order to ensure the retention of executive officers and other key personnel, principally within our corporate services unit and the corporate offices of our four business units.
  - (h) Represents the twelve month pro forma effect of business optimization initiatives that have been completed to reduce costs, including \$4 million related to the exit of the government at-risk homesale business, \$4 million related to the elimination of the 401(k) employer match, \$7 million related to the renegotiation of NRT contracts, \$6 million for employee retention accruals, \$22 million for initiatives to improve the Company Owned Real Estate Brokerage profit margin and Relocation Services fees and \$18 million related to other initiatives. The employee retention accruals reflect the employee retention plans that have been implemented in lieu of our customary bonus plan, due to the ongoing and prolonged downturn in the housing market in order to ensure the retention of executive officers and other key personnel, principally within our corporate services unit and the corporate offices of our four business units.
  - (i) Represents the elimination of non-cash expenses, including \$6 million of stock-based compensation expense, less \$8 million for the change in the allowance for doubtful accounts and notes reserves from January 1, 2010 through December 31, 2010 and \$2 million of other non-cash items.
  - (j) Represents the elimination of non-cash expenses, including a \$14 million write-down of a cost method investment acquired in 2006, \$12 million for the change in the allowance for doubtful accounts and the reserves for development advance notes and promissory notes from January 1, 2009 through December 31, 2009, \$7 million of stock-based compensation expense, and \$1 million related to the unrealized net losses on foreign currency transactions and foreign currency forward contracts.
  - (k) Represents the elimination of non-cash expenses including \$22 million for the change in the allowance for doubtful accounts and \$17 million related to the reserve for development advance notes and promissory

**Table of Contents**

- notes from January 1, 2008 through December 31, 2008, \$7 million of stock based compensation expense, \$14 million related to net losses on foreign currency transactions and foreign currency forward contracts.
- (l) Reflects the adjustment for the negative impact of fair value adjustments for purchase accounting at the operating business segments primarily related to deferred rent for the twelve months ended December 31, 2010, December 31, 2009 and December 31, 2008.
  - (m) Represents the estimated impact of acquisitions and new franchisees as if they had been acquired or signed on January 1, 2010, January 1, 2009 and January 1, 2008. We have made a number of assumptions in calculating such estimate for the year ended December 31, 2010 and there can be no assurance that we would have generated the projected levels of EBITDA had we owned the acquired entities or entered into the franchise contracts as of January 1, 2010.
  - (n) Represents elimination of annual management fees payable to Apollo for the years ended December 31, 2010, 2009 and 2008.
  - (o) Wright Express Corporation ( WEX ) was divested by Cendant in February 2005 through an initial public offering ( IPO ). As a result of such IPO, the tax basis of WEX 's tangible and intangible assets increased to their fair market value which may reduce federal income tax that WEX might otherwise be obligated to pay in future periods. Under Article III of the Tax Receivable Agreement dated February 22, 2005 among WEX, Cendant and Cartus (the TRA ), WEX was required to pay Cendant 85% of any tax savings related to the increase in fair value utilized for a period of time that we expect will be beyond the maturity of the notes. Cendant is required to pay 62.5% of these tax-savings payments received from WEX to Realogy. On June 26, 2009, Realogy entered into a Tax Receivable Prepayment Agreement with WEX, pursuant to which WEX simultaneously paid Realogy the sum of \$51 million, less expenses of approximately \$2 million, as prepayment in full of its remaining contingent obligations to Realogy under Article III of the TRA.
  - (p) Reflects incremental borrowing costs incurred as a result of the securitization facilities refinancing for the years ended December 31, 2010, 2009 and 2008.
  - (q) Represents the expenses incurred in connection with our unsuccessful debt modification activities in the third quarter of 2009 and 2008.
  - (r) Represents total borrowings under the senior secured credit facility which are secured by a first priority lien on our assets plus capital lease obligations less readily available cash. The total borrowings under the senior secured credit facility as of December 31, 2010 includes the revolving credit facility of \$3,059 million plus \$12 million of capital lease obligations less \$166 million of readily available cash as of December 31, 2010. The total borrowings under the senior secured credit facility as of December 31, 2009 includes the revolving credit facility of \$3,091 million plus \$14 million of capital lease obligations less \$219 million of readily available cash as of December 31, 2009. The total borrowings under the senior secured credit facility as of December 31, 2008 includes the revolving credit facility of \$3,638 million plus \$14 million of capital lease obligations less \$402 million of readily available cash as of December 31, 2008.
  - (s) After giving effect to the Refinancing Transactions, our senior secured leverage ratio would have been 3.51 to 1.0 at December 31, 2010.
  - (4) Represents the portion of relocation receivables and advances, relocation properties held for sale and other related assets that collateralize our securitization obligations.
  - (5) For the successor period, Equity (deficit) is comprised of the capital contribution of \$2,001 million from affiliates of Apollo and co-investors offset by the net loss for the period.

**Table of Contents**

The following table represents key business drivers for the periods set forth below:

	As of or For the Year Ended December 31,		
	2010	2009	2008
<b>Operating Statistics:</b>			
<i>Real Estate Franchise Services (1)</i>			
Closed homesale sides (2)	922,341	983,516	995,622
Average homesale price (3)	\$ 198,076	\$ 190,406	\$ 214,271
Average homesale broker commission rate (4)	2.54%	2.55%	2.52%
Net effective royalty rate (5)	5.00%	5.10%	5.12%
Royalty per side (6)	\$ 262	\$ 257	\$ 287
<i>Company Owned Real Estate Brokerage Services (7)</i>			
Closed homesale sides (2)	255,287	273,817	275,090
Average homesale price (3)	\$ 435,500	\$ 390,688	\$ 479,301
Average homesale broker commission rate (4)	2.48%	2.51%	2.48%
Gross commission income per side (8)	\$ 11,571	\$ 10,519	\$ 12,612
<i>Relocation Services</i>			
Initiations (9)	148,304	114,684	136,089
Referrals (10)	69,605	64,995	71,743
<i>Title and Settlement Services</i>			
Purchase title and closing units (11)	94,290	104,689	110,462
Refinance title and closing units (12)	62,225	69,927	35,893
Average price per closing unit (13)	\$ 1,386	\$ 1,317	\$ 1,500

- (1) These amounts include only those relating to third-party franchisees and do not include amounts relating to the Company Owned Real Estate Brokerage Services segment.
- (2) A closed homesale side represents either the buy side or the sell side of a homesale transaction.
- (3) Represents the average selling price of closed homesale transactions.
- (4) Represents the average commission rate earned on either the buy side or sell side of a homesale transaction.
- (5) Represents the average percentage of our franchisees' commission revenue (excluding NRT) paid to the Real Estate Franchise Services segment as a royalty. The net effective royalty rate does not include the effect of non-standard incentives granted to some franchisees.
- (6) Represents net domestic royalties earned from our franchisees (excluding NRT) divided by the total number of our franchisees' closed homesale sides.
- (7) Our real estate brokerage business has a significant concentration of offices and transactions in geographic regions where home prices are at the higher end of the U.S. real estate market, particularly the east and west coasts. The real estate franchise business has franchised offices that are more widely dispersed across the United States than our real estate brokerage operations. Accordingly, operating results and homesale statistics may differ between our brokerage and franchise businesses based upon geographic presence and the corresponding homesale activity in each geographic region.
- (8) Represents gross commission income divided by closed homesale sides.
- (9) Represents the total number of transferees served by the relocation services business. The amounts presented for the year ended December 31, 2010 include 26,087 initiations as a result of the acquisition of Primacy in January 2010.
- (10) Represents the number of referrals from which we earned revenue from real estate brokers. The amounts presented for the year ended December 31, 2010 include 4,997 referrals as a result of the acquisition of Primacy in January 2010.
- (11) Represents the number of title and closing units processed as a result of home purchases.
- (12) Represents the number of title and closing units processed as a result of homeowners refinancing their home loans.
- (13) Represents the average fee we earn on purchase title and refinancing title units.

**Table of Contents**

**THE OFFERING**

*The summary below describes the principal terms of the notes and the Class A Common Stock issuable upon conversion of the notes and is not intended to be complete. It does not contain all the information that is important to you. For a more detailed description of the terms and conditions of these securities, please refer to the sections entitled *Description of the Notes* and *Description of the Common Stock*.*

<b>Issuer of the Notes</b>	Realogy Corporation, a Delaware corporation.
<b>Issuer of the Class A Common Stock</b>	Domus Holdings Corp., a Delaware corporation and the indirect parent of Realogy.
<b>Securities Offered by the Selling Stockholders</b>	\$1,143,706,000 principal amount of 11.00% Series A Convertible Senior Subordinated Notes due 2018, \$291,424,196 principal amount of 11.00% Series B Convertible Senior Subordinated Notes due 2018 and \$675,111,000 principal amount of 11.00% Series C Convertible Senior Subordinated Notes due 2018, which were issued under the same indenture and are treated as a single class for substantially all purposes under the indenture, and Class A Common Stock issuable upon conversion of the notes.
<b>Maturity</b>	April 15, 2018, if not earlier repurchased, redeemed or converted. Realogy will be obligated to pay the outstanding aggregate principal amount in cash on the maturity date of the notes.
<b>Interest</b>	Cash interest on the Convertible Notes accrues at a rate of 11.00% per annum.  Realogy will pay interest on overdue principal, if any, from time to time on demand at a rate that is 2% per annum in excess of 11.00% to the extent lawful, and will pay interest on overdue installments of interest, if any, from time to time on demand at a rate that is 2% per annum in excess of 11.00% to the extent lawful.
<b>Interest Payment Dates</b>	Interest on the notes is payable semi-annually in arrears on April 15 and October 15.
<b>Guarantees</b>	The notes are guaranteed on an unsecured senior subordinated basis by each of Realogy's U.S. direct or indirect restricted subsidiaries that is a guarantor under the 13.375% Senior Subordinated Notes. Subject to certain exceptions, any subsidiary that in the future guarantees the 13.375% Senior Subordinated Notes will also guarantee the notes. In addition, Holdings also guarantees the notes on an unsecured junior subordinated basis. Except in certain circumstances, each guarantee will be released upon the release of the guarantor from its guarantee under the 13.375% Senior Subordinated Notes. If Realogy fails to make payments on the notes, the guarantors, including Holdings, must make them instead. Each entity, other than Holdings, that guarantees Realogy's obligations under the notes and the indenture is referred to in this prospectus as a Note Guarantor.  As of and for the year ended December 31, 2010, Realogy's subsidiaries that are not Note Guarantors represented 7.2% of its total

---

**Table of Contents**

assets (2.4% of its total assets excluding assets of its non-guarantor securitization entities), 4.6% of its total liabilities, including trade payables (1.0% of its total liabilities, including trade payables but excluding liabilities of its non-guarantor securitization entities), 5.1% of its net revenue (5.1% of its net revenue but excluding net revenue of its non-guarantor securitization entities), 600% of its income before income taxes, equity in earnings and noncontrolling interests (850% of its income before income taxes, equity in earnings and noncontrolling interests but excluding income before income taxes, equity in earnings and noncontrolling interests of its non-guarantor securitization entities) and 7.9% of its EBITDA (7.7% of its EBITDA excluding EBITDA of its non-guarantor securitization entities), in each case after intercompany eliminations.

**Ranking**

The notes and the guarantees thereof are Realogy's and the Note Guarantors' unsecured senior subordinated obligations and:

are subordinated in right of payment to all of Realogy's and the Note Guarantors' existing and future senior debt, including the senior secured credit facility, the First and a Half Lien Notes, the Senior Notes, and the related guarantees;

are equal in right of payment with all of Realogy's and the Note Guarantors' existing and future senior subordinated debt, including the Senior Subordinated Notes; and

rank senior in right of payment to all of Realogy's and the Note Guarantors' existing and future debt that is by its terms subordinated to the notes.

The guarantee by Holdings is Holdings' unsecured senior subordinated obligation, is equal in right of payment to all existing and future subordinated indebtedness of Holdings and is junior in right of payment to all existing and future senior indebtedness of Holdings.

In addition, the guarantees of the notes are structurally subordinated to all of the existing and future liabilities and obligations (including trade payables, but excluding intercompany liabilities) of each of Realogy's subsidiaries that is not a Note Guarantor.

As of December 31, 2010, after giving effect to the Refinancing Transactions:

Realogy and the Note Guarantors would have had approximately \$3,807 million of senior secured indebtedness, including approximately \$2,457 million under the senior secured credit facility (without giving effect to \$179 million of outstanding letters of credit under the senior secured credit facility, \$34 million of available capacity under the synthetic letter of credit facility and \$473 million of undrawn availability under the revolving credit facility) and \$700 million under the First and a Half Lien Notes, all of which would have been effectively senior to the notes, to the extent of the value of the assets securing such debt;

**Table of Contents**

Realogy and the Note Guarantors would have had approximately \$4,700 million of senior indebtedness, including our senior secured indebtedness, other bank indebtedness and the Senior Notes, all of which would have been senior to the notes;

Realogy and the Note Guarantors would have had approximately \$2,307 million of senior subordinated indebtedness, including the notes; and

our non-Note Guarantor subsidiaries had approximately \$423 million of total liabilities (approximately \$331 million of which consisted of obligations under our securitization facilities), all of which are structurally senior to the notes. In addition, our securitization subsidiaries were permitted to incur approximately \$231 million of additional secured relocation obligations under our securitization facilities, subject to maintaining sufficient relocation assets for collateralization, all of which are structurally senior to the notes.

**Optional Conversion**

The notes are convertible at any time at the option of the holders thereof, in whole or in part, into shares of Class A Common Stock, at the conversion rates described below.

**Conversion Rates**

975.6098 shares of Class A Common Stock per \$1,000 aggregate principal amount of Series A Convertible Notes and Series B Convertible Notes, which is equivalent to an initial conversion price of approximately \$1.025 per share and 926.7841 shares of Class A Common Stock per \$1,000 aggregate principal amount of Series C Convertible Notes, which is equivalent to an initial conversion price of approximately \$1.079 per share. The conversion rates are subject to adjustment as provided in **Anti-Dilution Provisions** below.

**Optional Redemption**

Upon a Qualified Public Offering and thereafter, the notes will be redeemable at the option of Realogy at a price equal to 90% of the principal amount thereof, plus accrued and unpaid interest to the date of redemption. Holders will be provided with notice of an upcoming Qualified Public Offering and will have a period of time to convert prior to a Qualified Public Offering as described in **Description of the Notes**.

A **Qualified Public Offering** means an underwritten public offering of Class A Common Stock by Holdings or any selling stockholders pursuant to an effective registration statement filed by Holdings with the Securities and Exchange Commission (other than (a) a registration relating solely to an employee benefit plan or employee stock plan, a dividend reinvestment plan, or a merger or a consolidation, (b) a registration incidental to an issuance of securities under Rule 144A, (c) a registration on Form S-4 or any successor form, or (d) a registration on Form S-8 or any successor form) under the Securities Act, pursuant to which the aggregate offering price of the Class A Common Stock (by Holdings and/or other selling stockholders) sold

**Table of Contents**

in such offering (together with the aggregate offering prices from any prior such offerings) is at least \$200 million and the listing of Class A Common Stock on the NASDAQ Global Select Market, NASDAQ Global Market, or the New York Stock Exchange or any successor exchange to the foregoing.

**Mandatory Offer to Purchase**

Upon a Change of Control, each holder of the notes shall have the right to require Realogy to repurchase its notes at a price equal to 101% of the principal amount thereof, plus accrued and unpaid interest to the date of purchase.

**Anti-Dilution Provisions**

Customary anti-dilution protections are provided for mergers, reorganizations, consolidations, stock splits, extraordinary stock dividends, combinations, recapitalizations, reclassifications, distribution of assets (including cash) and similar events.

**Covenants**

The indenture does not contain any restrictive covenants.

**Common Stock Dividends**

The notes do not participate in any Common Stock dividends or distributions of Holdings.

**Use of Proceeds**

We will not receive any proceeds from the sale of the notes or the Class A Common Stock by the selling securityholders.

**Risk Factors**

See **Risk Factors** for a discussion of factors you should carefully consider before deciding to invest in the notes.

---

**Table of Contents**

**RISK FACTORS**

*You should carefully consider each of the following risk factors and all of the other information set forth in this prospectus before making any investment decision. The risk factors generally have been separated into three groups: (1) risks related to the notes, the Class A Common Stock and our indebtedness; (2) risks related to our business; and (3) risks related to Realogy's separation from Cendant. Based on the information currently known to us, we believe that the following information identifies the most significant risk factors affecting our company and the notes and Class A Common Stock. Additional risks and uncertainties not presently known to us may also adversely affect our business. In addition, past financial performance may not be a reliable indicator of future performance and historical trends should not be used to anticipate results or trends in future periods. You should carefully consider the following risk factors and all other information contained in this prospectus before making any investment decision.*

**Risks Related to the Notes, the Class A Common Stock and our Indebtedness**

*Our significant indebtedness could prevent us from meeting our obligations under our debt instruments and could adversely affect our ability to fund our operations, react to changes in the economy or our industry, or incur additional borrowings under our existing facilities.*

We are significantly encumbered by our debt obligations. As of December 31, 2010, after giving effect to the Refinancing Transactions, our total debt, excluding the securitization obligations, would have been \$7,007 million (without giving effect to \$179 million of outstanding letters of credit under the senior secured credit facility and \$473 million of undrawn availability under the revolving credit facility). In addition, as of December 31, 2010, our current liabilities included \$331 million of securitization obligations which were collateralized by \$393 million of securitization assets that are not available to pay our general obligations.

Our indebtedness was principally incurred to finance Realogy's acquisition by Apollo in April 2007 and reflected our then current earnings and our expectations that the housing downturn would recover in the near term. While our total debt has increased since the date of Realogy's acquisition in order to fund negative cash flows, the industry and economy have experienced significant declines that have negatively impacted our operating results. Revenues for the year ended December 31, 2010 compared to the year ended December 31, 2007, on a pro forma combined basis, have decreased by approximately 32%. As a result, we have been, and continue to be, challenged by our heavily leveraged capital structure. There can be no assurance that we will be able to reduce the level of our leverage or debt in the future.

Our substantial degree of leverage could have important consequences, including the following:

it causes a substantial portion of our cash flows from operations to be dedicated to the payment of interest and required amortization on our indebtedness and not be available for other purposes, including our operations, capital expenditures and future business opportunities or principal repayment;

it could cause us to be unable to maintain compliance with the senior secured leverage ratio under the senior secured credit facility;

it could cause us to be unable to meet our debt service requirements under the senior secured credit facility or the indentures governing the Unsecured Notes and the First and a Half Lien Notes or meet our other financial obligations;

it may limit our ability to incur additional borrowings under our existing facilities or securitizations, to obtain additional debt or equity financing for working capital, capital expenditures, business development, debt service requirements, acquisitions or general corporate or other purposes, or to refinance our indebtedness;

it exposes us to the risk of increased interest rates because a portion of our borrowings, including borrowings under the senior secured credit facility, are at variable rates of interest;

---

**Table of Contents**

it may limit our ability to adjust to changing market conditions and place us at a competitive disadvantage compared to our competitors that have less debt;

it may cause a further downgrade of our debt and long-term corporate ratings;

it may cause us to be more vulnerable to periods of negative or slow growth in the general economy or in our business, or may cause us to be unable to carry out capital spending that is important to our growth; and

it may limit our ability to attract and retain key personnel.

***We may not be able to generate sufficient cash to service all of our indebtedness and be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.***

Our ability to make scheduled payments or to refinance our debt obligations depends on our financial and operating performance, which is subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. We have needed to incur additional debt in order to fund negative cash flow. We cannot assure you that we will maintain a level of cash flows from operating activities and from drawings on our revolving credit facilities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness.

If our cash flows and capital resources are insufficient to fund our debt service obligations, we may be forced to reduce or delay capital expenditures, sell assets or operations, seek additional debt or equity capital or restructure or refinance our indebtedness. We cannot assure you that we would be able to take any of these actions, that these actions would be successful and permit us to meet our scheduled debt service obligations or that these actions would be permitted under the terms of our existing or future debt agreements. In the absence of such operating results and resources, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt service and other obligations. The senior secured credit facility and the indentures governing the 12.375% Senior Subordinated Notes, the Extended Maturity Notes and the First and a Half Lien Notes restrict our ability to dispose of assets and use the proceeds from the disposition. We may not be able to consummate those dispositions or realize the related proceeds from them and these proceeds may not be adequate to meet any debt service obligations then due.

If we cannot make scheduled payments on our debt, we will be in default and, as a result:

our debt holders could declare all outstanding principal and interest to be due and payable; and

the lenders under the senior secured credit facility could terminate their commitments to lend us money and foreclose against the assets securing their borrowings.

***An event of default under the senior secured credit facility would adversely affect our operations and our ability to satisfy obligations under our indebtedness.***

The senior secured credit facility contains restrictive covenants, including a requirement that we maintain a specified senior secured leverage ratio, which is defined as the ratio of our total senior secured debt (net of unrestricted cash and permitted investments) to trailing 12-month Adjusted EBITDA. Specifically measured at the last day of each quarter, our senior secured leverage ratio may not exceed 4.75 to 1.0 for the fiscal quarter ending March 31, 2011 and for each fiscal quarter thereafter. Total senior secured debt, for purposes of this ratio, does not include the First and a Half Lien Notes, Second Lien Loans, other bank indebtedness not secured by a first lien on our assets (including indebtedness supported by letters of credit issued under the senior secured credit facility), securitization obligations or the Unsecured Notes. For the fiscal year ended December 31, 2010, we were in compliance with the senior secured leverage ratio covenant with a ratio of 4.59 to 1.0. After giving effect to the Refinancing Transactions, our senior secured leverage ratio would have been 3.51 to 1.0 at December 31, 2010. Based upon the consummation of the Refinancing Transactions and our financial forecast for 2011, we expect to remain in compliance with the senior secured leverage ratio covenant for at least the next

---

**Table of Contents**

12 months. If a housing recovery is delayed further or is weak, we will be subject to additional pressure in maintaining compliance with our senior secured leverage ratio. In future periods, if we are unable to renew or refinance bank indebtedness secured by letters of credit issued under the senior secured credit facility (which are not included in the calculation of the senior secured leverage ratio) and the letters of credit are drawn upon, the reimbursement obligations related to those letters of credit issued under the senior secured credit facility will be included in the calculation of the senior secured leverage ratio. A failure to maintain compliance with the senior secured leverage ratio, or a breach of any of the other restrictive covenants, would result in a default under the senior secured credit facility.

We have the right to cure an event of default of the senior secured leverage ratio in three of any four consecutive quarters through the issuance of additional Holdings equity for cash, which would be infused as capital into Realogy to increase Adjusted EBITDA for purposes of calculating the senior secured leverage ratio for the applicable twelve-month period and reduce net senior secured indebtedness upon actual receipt of such capital. If we are unable to maintain compliance with the senior secured leverage ratio and we fail to remedy or avoid a default through an equity cure permitted thereunder, there would be an event of default under the senior secured credit facility. Other events of default include, without limitation, nonpayment, material misrepresentations, insolvency, bankruptcy, certain material judgments, change of control, and cross-events of default on material indebtedness as well as failure to obtain an unqualified audit opinion by 90 days after the end of any fiscal year. Upon the occurrence of any event of default under the senior secured credit facility, the lenders:

will not be required to lend any additional amounts to us;

could elect to declare all borrowings outstanding, together with accrued and unpaid interest and fees, to be immediately due and payable;

could require us to apply all of our available cash to repay these borrowings; or

could prevent us from making payments on the Unsecured Notes or the First and a Half Lien Notes, any of which could result in an event of default under the First and a Half Lien Notes, the Unsecured Notes or our Apple Ridge Funding LLC securitization program.

If we were unable to repay the amounts outstanding under the senior secured credit facility, the lenders under the senior secured credit facility could proceed against the collateral granted to them to secure the indebtedness thereunder. We have pledged a significant portion of our assets as collateral under the senior secured credit facility. If the lenders under the senior secured credit facility accelerate the repayment of borrowings, we may not have sufficient assets to repay the senior secured credit facility and our other indebtedness or borrow sufficient funds to refinance such indebtedness. Notwithstanding the completion of the Refinancing Transactions, our total indebtedness was not and will not be significantly reduced unless and until the notes issued in the Debt Exchange Offering are converted into equity. In the future, we may need to seek new financing, or explore the possibility of amending the terms of the senior secured credit facility, and we may not be able to do so on commercially reasonable terms, or terms that are acceptable to us, if at all.

If an event of default is continuing under the senior secured credit facility, the First and a Half Lien Notes or our other material indebtedness, such event could cause a termination of our ability to obtain future advances under, and/or amortization of, our Apple Ridge Funding LLC securitization program.

***The notes and the related guarantees are effectively subordinated to all of our secured debt and the secured debt of the Note Guarantors and if a default occurs, we and the Note Guarantors may not have sufficient funds to fulfill our obligations under the notes and the related guarantees.***

The notes and the related guarantees are general unsecured obligations but Realogy's obligations under the senior secured credit facility and the First and a Half Lien Notes and each Note Guarantor's obligations under its guarantee of the senior secured credit facility and the First and a Half Lien Notes are secured by a security

---

**Table of Contents**

interest in substantially all of our assets and the assets of the Note Guarantors. The notes are effectively subordinated to all of our and the Note Guarantors' secured indebtedness to the extent of the value of the assets securing that indebtedness. As of December 31, 2010, after giving effect to the Refinancing Transactions, Realogy and the Note Guarantors would have had approximately \$3,807 million of senior secured indebtedness, including approximately \$2,457 million under the senior secured credit facility (without giving effect to \$179 million of outstanding letters of credit under the senior secured credit facility, \$34 million of available capacity under the synthetic letter of credit facility and \$473 million of undrawn availability under the revolving credit facility) and \$700 million under the First and a Half Lien Notes, all of which would have been effectively senior to the notes. In addition, subject to some limitations, the indenture and the indentures governing the Extended Maturity Notes permit Realogy, subject to certain limitations, to incur additional secured indebtedness and the notes and the related guarantees are effectively junior to any additional secured indebtedness we may incur.

In the event of our bankruptcy, liquidation, reorganization or other winding up, our assets that secure our secured indebtedness will be available to pay obligations on the notes only after all secured indebtedness and, in the case of the 12.375% Senior Subordinated Notes and the 13.375% Senior Subordinated Notes, all senior indebtedness, together with accrued interest, has been repaid in full from those assets. Because the senior secured credit facility and the First and a Half Lien Notes are secured obligations, if we fail to comply with the terms of the senior secured credit facility or the First and a Half Lien Notes and those creditors or noteholders accelerated the payment of all the funds borrowed thereunder and we were unable to repay such indebtedness, they could foreclose on substantially all of our assets and the assets of our Note Guarantors which serve as collateral. In this event, our secured creditors and holders of the First and a Half Lien Notes would be entitled to be repaid in full from the proceeds of the liquidation of those assets before those assets would be available for distribution to other creditors, including holders of the notes. Holders of the notes will participate in our remaining assets ratably with all holders of our unsecured indebtedness that is deemed to be of the same class as the notes, and potentially with all of our other general creditors. We advise you that there may not be sufficient assets remaining to pay amounts due on any or all the notes and the related guarantees then outstanding. The guarantees of the notes have a similar ranking with respect to secured and unsecured indebtedness of the Note Guarantors as the notes do with respect to our secured and unsecured indebtedness, as well as with respect to any unsecured obligations expressly subordinated in right of payment to the guarantees.

***The notes are structurally subordinated to all indebtedness of our existing or future subsidiaries that do not become Note Guarantors.***

You do have any claim as a creditor against any of our existing subsidiaries that are not Note Guarantors or against any of our future subsidiaries that do not become Note Guarantors. Indebtedness and other liabilities, including trade payables, whether secured or unsecured, of those subsidiaries are structurally senior to your claims against those subsidiaries. As of December 31, 2010, our non-Note Guarantor subsidiaries had approximately \$423 million of total liabilities (approximately \$331 million of which would have consisted of secured indebtedness under the securitization facilities), all of which would have been structurally senior to the notes. In addition, subject to maintaining sufficient relocation assets for collateralization, our securitization subsidiaries were permitted to incur approximately \$231 million of additional secured indebtedness under the Securitization Facilities, all of which would be structurally senior to the notes.

The notes are not guaranteed by any of our foreign subsidiaries, our securitization subsidiaries, our insurance subsidiaries or our qualified foreign corporation holding companies. These non-Note Guarantor subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to pay any amounts due under the notes, or to make any funds available therefor, whether by dividends, loans, distributions or other payments.

In the event of a bankruptcy, liquidation, reorganization or other winding up of any of our non-Note Guarantor subsidiaries, these non-Note Guarantor subsidiaries will pay the holders of their debt, holders of preferred equity interests and their trade creditors before they will be able to distribute any of their assets to us

---

**Table of Contents**

(except to the extent we have a claim as a creditor of such non-Note Guarantor subsidiary). Any right that we or the Note Guarantors have to receive any assets of any of the non-Note Guarantor subsidiaries upon the bankruptcy, liquidation, reorganization or other winding up of those subsidiaries, and the consequent rights of holders of notes to realize proceeds from the sale of any of those subsidiaries' assets, are effectively subordinated to the claims of those subsidiaries' creditors, including trade creditors and holders of preferred equity interests of those subsidiaries.

As of and for the year ended December 31, 2010, our subsidiaries that are not Note Guarantors represented 7.2% of our total assets (2.4% of our total assets excluding assets of our non-guarantor securitization entities), 4.6% of our total liabilities, including trade payables (1.0% of our total liabilities, including trade payables but excluding liabilities of our non-guarantor securitization entities), 5.1% of our net revenue (5.1% of our net revenue but excluding net revenue of our non-guarantor securitization entities), 600% of our income before income taxes, equity in earnings and noncontrolling interests (850% of our income before income taxes, equity in earnings and noncontrolling interests but excluding income before income taxes, equity in earnings and noncontrolling interests of our non-guarantor securitization entities) and 7.9% of our EBITDA (7.7% of our EBITDA excluding EBITDA of our non-guarantor securitization entities), in each case after intercompany eliminations.

In addition, the indentures governing the Existing Notes, the Extended Maturity Notes and the First and a Half Lien Notes do, subject to certain limitations, permit these subsidiaries to incur additional indebtedness and do not contain any limitation on the amount of other liabilities, such as trade payables, that may be incurred by these subsidiaries. The indenture does not limit these subsidiaries from incurring additional indebtedness or other liabilities.

***Your right to receive payments on the notes is junior to all of our and the Note Guarantors' senior indebtedness, including our and the Note Guarantors' obligations under the senior secured credit facility, the First and a Half Lien Notes, the Senior Notes and other existing and future senior debt.***

The notes are general unsecured obligations that are junior in right of payment to all of our existing and future senior indebtedness, including the senior secured credit facility, the First and a Half Lien Notes and the Senior Notes. The guarantees of the notes are general unsecured obligations of the Note Guarantors that are junior in right of payment to all of the Note Guarantors' existing and future senior indebtedness, including their guarantee of the senior secured credit facility, the First and a Half Lien Notes and the Senior Notes. We and the Note Guarantors may not pay principal, premium, if any, interest or other amounts on account of the notes or the related guarantees in the event of a payment default or certain other defaults in respect of certain of our senior indebtedness, including debt under the senior secured credit facility, the First and a Half Lien Notes and the Senior Notes, unless such senior indebtedness has been paid in full or the default has been cured or waived. In addition, in the event of certain other defaults with respect to our senior indebtedness, we or the Note Guarantors may not be permitted to pay any amount on account of the notes or the related guarantees for a designated period of time. In addition, the notes are *pari passu* in right of payment with all of our existing and future senior subordinated indebtedness, including the Senior Subordinated Notes.

Because of the subordination provisions in the Senior Subordinated Notes and the notes and the related guarantees, in the event of a bankruptcy, liquidation or dissolution of us or any Note Guarantor, our or the applicable Note Guarantor's assets will not be available to pay obligations under our Senior Subordinated Notes or the notes or the related guarantees until we or the applicable Note Guarantor's have made all payments on our or their senior indebtedness, respectively. We cannot assure you that sufficient assets will remain after all these payments have been made to make any payments on our senior subordinated indebtedness, including payments of principal or interest when due.

As of December 31, 2010 and after giving effect to the Refinancing Transactions, we and the Note Guarantors would have had approximately \$4,700 million of senior indebtedness (without giving effect to \$179 million of outstanding letters of credit under the senior secured credit facility, \$34 million of available capacity

**Table of Contents**

under the synthetic letter of credit facility and \$473 million of undrawn availability under the revolving credit facility), including the senior secured credit facility, the First and a Half Lien Notes, the Senior Notes and other bank indebtedness, all of which are senior to the notes.

*Restrictive covenants under our indentures and the senior secured credit facility may limit the manner in which we operate.*

The senior secured credit facility and the indentures governing the Extended Maturity Notes, the 12.375% Senior Subordinated Notes and the First and a Half Lien Notes contain, and any future indebtedness we incur may contain, various covenants and conditions that limit Realogy's ability to, among other things:

incur or guarantee additional debt;

incur debt that is junior to senior indebtedness and senior to the Senior Subordinated Notes;

pay dividends or make distributions to Realogy's stockholders;

repurchase or redeem capital stock or subordinated indebtedness;

make loans, investments or acquisitions;

incur restrictions on the ability of certain of our subsidiaries to pay dividends or to make other payments to Realogy;

enter into transactions with affiliates;

create liens;

merge or consolidate with other companies or transfer all or substantially all of our assets;

transfer or sell assets, including capital stock of subsidiaries; and

prepay, redeem or repurchase the Unsecured Notes and the First and a Half Lien Notes and debt that is junior in right of payment to the Unsecured Notes and the First and a Half Lien Notes.

As a result of these covenants, we are limited in the manner in which we conduct our business and we may be unable to engage in favorable business activities or finance future operations or capital needs.

*Variable rate indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly.*

At December 31, 2010 and after giving effect to the Refinancing Transactions, approximately \$2,620 million of our borrowings under the senior secured credit facility and other bank indebtedness, would have been at variable rates of interest and expose us to interest rate risk. If interest rates increase, our debt service obligations on the variable rate indebtedness would increase even though the amount borrowed remained the same, and our net income would decrease. Although we have entered into interest rate swaps with a notional value of \$425 million, involving the

## Edgar Filing: REALOGY CORP - Form S-1

exchange of floating for fixed rate interest payments, to reduce interest rate volatility, such interest rate swaps do not eliminate interest rate volatility for the unswapped portion of our variable rate indebtedness at December 31, 2010.

***If we default on our obligations to pay our indebtedness, we may not be able to make payments on the notes.***

Any default under the agreements governing our indebtedness, including a default under the senior secured credit facility that is not waived by the required lenders, and the remedies sought by the holders of such indebtedness, could render us unable to pay principal, premium, if any, and interest on the notes and substantially decrease the market value of the notes. If we are unable to generate sufficient cash flow and are otherwise unable to obtain funds necessary to meet required payments of principal, premium, if any, and interest on our indebtedness, or if we otherwise fail to comply with the various covenants, including financial and operating

**Table of Contents**

covenants, in the instruments governing our indebtedness (including covenants in the indentures governing the Extended Maturity Notes, the First and a Half Lien Notes, the 12.375% Senior Subordinated Notes and the senior secured credit facility), we could be in default under the terms of the agreements governing such indebtedness. In the event of such default, the holders of such indebtedness could elect to declare all the funds borrowed thereunder to be due and payable, together with accrued and unpaid interest, the lenders under the senior secured credit facility could elect to terminate their commitments thereunder and cease making further loans and institute foreclosure proceedings against our assets, we could be forced into bankruptcy or liquidation. If our operating performance declines, we may in the future need to obtain waivers from the required lenders under the senior secured credit facility to avoid being in default, including as a result of our failure to comply with the senior secured leverage ratio. After giving effect to the Refinancing Transactions, our senior secured leverage ratio would have been 3.51 to 1.0 at December 31, 2010. Notwithstanding the reduction in our senior secured net debt for purposes of calculating the senior secured leverage ratio, a delayed or weak housing recovery may materially adversely affect our ability to maintain compliance with our senior secured leverage ratio given our highly leveraged capital structure. If we breach our covenants under the senior secured credit facility and seek a waiver, we may not be able to obtain a waiver from the required lenders. If this occurs, we would be in default under the senior secured credit facility, the lenders could exercise their rights, and we could be forced into bankruptcy or liquidation. See Description of Other Indebtedness and Description of the Notes.

***We are a holding company and are dependent on dividends and other distributions from our subsidiaries.***

We are a holding company with limited direct operations. Our principal assets are the equity interests that we hold in our operating subsidiaries. As a result, we are dependent on dividends and other distributions from those subsidiaries to generate the funds necessary to meet our financial obligations, including the payment of principal and interest on our outstanding debt. Our subsidiaries may not generate sufficient cash from operations to enable us to make principal and interest payments on our indebtedness. In addition, any payment of dividends, distributions, loans or advances to us by our subsidiaries could be subject to restrictions on dividends or repatriation of earnings under applicable local law and monetary transfer restrictions in the jurisdictions in which our subsidiaries operate. In addition, payments to us by our subsidiaries will be contingent upon our subsidiaries' earnings. Our subsidiaries are permitted under the terms of our indebtedness, including the senior secured credit facility, the indentures governing the Unsecured Notes and the First and a Half Lien Notes, to incur additional indebtedness that may restrict payments from those subsidiaries to us. We cannot assure you that agreements governing current and future indebtedness of our subsidiaries will permit those subsidiaries to provide us with sufficient cash to fund our debt service payments.

Our subsidiaries are legally distinct from us and, except for our existing and future subsidiaries that are guarantors of our indebtedness, including the senior secured credit facility, the Unsecured Notes and the First and a Half Lien Notes, have no obligation, contingent or otherwise, to pay amounts due on our debt or to make funds available to us for such payment.

***Realogy may be unable to purchase the notes upon a change of control.***

Upon a change of control, as defined in the indenture, Realogy is required to offer to purchase all of the notes then outstanding for cash at 101% of the principal amount thereof plus accrued and unpaid interest and additional interest, if any. If a change of control occurs under the indenture, we may not have sufficient funds to pay the change of control purchase price, and we may be required to secure third party financing to do so. We may not be able to obtain this financing on commercially reasonable terms, or on terms acceptable to us, or at all. Further, we may be contractually restricted under the terms of the senior secured credit facility and the terms of our other senior indebtedness, from repurchasing all of the notes tendered by holders upon a change of control. Accordingly, we may not be able to satisfy our obligations to purchase any notes unless we are able to refinance or obtain waivers under the senior secured credit facility, the First and a Half Lien Notes and/or the Senior Notes, as applicable. If our failure to repurchase the notes upon a change of control would cause a default under the notes, it would also cause a cross-default under the senior secured credit facility. The senior secured credit

---

**Table of Contents**

facility also provides that a change of control, as defined therein, will be a default that permits lenders to accelerate the maturity of borrowings thereunder and, if such debt is not paid, to enforce security interests in the collateral securing such debt, thereby limiting our ability to raise cash to purchase the notes, and reducing the practical benefit of repurchase provisions to the holders of the notes. Our securitization facilities contain, and any of our future debt agreements may contain, similar provisions.

The change of control provisions in the indenture may not protect you in the event that we consummate a highly leveraged transaction, reorganization, restructuring, merger or other similar transaction, unless such transaction constitutes a change of control under the indenture. Such a transaction may not involve a change in voting power or beneficial ownership or, even if it does, may not involve a change in the magnitude required under the definition of change of control in the indenture to trigger our obligation to repurchase the notes. Except as otherwise described above, the indenture does not contain provisions that permit the holders of the notes to require Realogy to repurchase or redeem the notes in the event of a takeover, recapitalization or similar transaction. If an event occurs that does not constitute a change of control as defined in the indenture, Realogy will not be required to make an offer to repurchase the notes and you may be required to continue to hold your notes despite the event. In addition, the change of control provisions in the notes may also delay or prevent an otherwise beneficial takeover of us due to such takeover triggering the related purchase requirement. See Description of Other Indebtedness and Description of the Notes Repurchase at Option of the Holder Upon a Change of Control.

***There is no public market for the notes, and we do not know if an active trading market will ever develop or, if a market does develop, whether it will be sustained.***

The notes when issued were a new issue of securities and there is no existing trading market for any series of notes. Although the dealer managers in the Debt Exchange Offering have informed us that they intend to make a market in each series of notes, they have no obligation to do so and may discontinue making a market in any series of notes at any time without notice. Therefore, we cannot assure you as to the development or liquidity of any trading market for the notes.

We do not intend to apply for listing or quotation of any series of notes on any securities exchange or stock market. In addition, if a large amount of notes are not tendered or are tendered improperly, the limited amount of notes that would be issued and outstanding after we consummate the Exchange Offers would reduce liquidity and could lower the market price of those notes. The liquidity of any market for each series of notes will depend on a number of factors, including:

the number of holders of such series of notes;

our operating performance, financial condition or prospects;

the market for similar securities;

the interest of securities dealers in making a market in the applicable series of notes; and

prevailing interest rates.

The market, if any, for the notes, similar to other non-investment grade debt, may be subject to disruptions that may cause substantial volatility in the prices of the notes and any disruptions may adversely affect the prices at which you may sell your notes. You may not be able to sell your notes at a particular time, and the price that you receive when you sell may not be favorable.

---

**Table of Contents**

*Apollo is our controlling stockholder and Paulson may become a significant stockholder. There can be no assurance that Apollo and Paulson will act in our best interests as opposed to their own best interests.*

Because of its position as our controlling stockholder, to the extent not otherwise limited in the senior secured credit facility or our indentures, Apollo is able to exercise significant control over decisions affecting us, including:

our direction and policies, including the appointment and removal of officers;

mergers or other business combinations and opportunities involving us;

further issuance of capital stock or other equity or debt securities by us;

payment of dividends; and

approval of our business plans and general business development.

In addition, Paulson owns notes that may be converted into 21.5% of the total outstanding shares of Common Stock on an as converted basis assuming that all notes are converted into shares of Class A Common Stock. Pursuant to the Paulson Securityholders Agreement (as defined below), Paulson also has the right to nominate a member of our Board of Directors or designate a non-voting observer to attend meetings of our Board of Directors and has certain other rights with respect to issuances of our equity and debt securities.

Even if all of the outstanding notes held by parties other than Apollo were converted into Class A Common Stock, which has one vote per share, Apollo, by virtue of its ownership of shares of Class B Common Stock (as defined below), which has five votes per share, would continue to control a majority of the voting power of the outstanding Common Stock. In addition, if all of the notes were converted into Class A Common Stock, all of the Class B Common Stock would automatically convert into shares of Class A Common Stock and Apollo would then hold 66.2% of the outstanding shares of Class A Common Stock. See Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

The concentration of ownership held by Apollo could delay, defer or prevent a change of control of us or impede a merger, takeover or other business combination that may be otherwise favorable to us. In addition, pursuant to Holdings Amended and Restated Certificate of Incorporation, Apollo has the right to, and will have no duty to abstain from, exercising such right to, conduct business with any business that is competitive or in the same line of business as us, do business with any of our clients, customers or vendors, or make investments in the kind of property in which we may make investments. Apollo is in the business of making or advising on investments in companies and may hold, and may from time to time in the future acquire, interests in or provide advice to businesses that directly or indirectly compete with certain portions of our business or are suppliers or customers of ours. Apollo may also pursue acquisitions that may be complementary to our business, and, as a result, those acquisition opportunities may not be available to us. So long as Apollo continues to own a significant amount of the equity of Holdings, even if such amount is less than 50%, Apollo will continue to be able to strongly influence or effectively control our decisions.

Because our equity securities are not registered under the Exchange Act and are not listed on any U.S. securities exchange, we are not subject to any of the corporate governance requirements of any U.S. securities exchanges.

If we encounter financial difficulties, or we are unable to pay our debts as they mature, the interests of our equity holders may conflict with those of the holders of first lien indebtedness under the senior secured credit facility, the First and a Half Lien Notes, the Unsecured Notes or any other holder of our debt and such equity holders have no obligation to provide any additional equity or any debt financing to us.

---

**Table of Contents**

***Texas insurance laws and regulations may delay or impede your ability to purchase the notes and/or the Class A Common Stock.***

The insurance laws and regulations of Texas, the jurisdiction in which our title insurance underwriter subsidiary is domiciled, generally provide that no person may acquire control, directly or indirectly, of a Texas domiciled insurer, unless the person has provided required information to, and the acquisition is approved or not disapproved by, the Texas Department of Insurance. Generally, any person acquiring beneficial ownership of 10% or more of our voting securities, including the notes, the Class A Common Stock, or a combination thereof, would be presumed to have acquired indirect control of our title insurance underwriter subsidiary unless the Texas Department of Insurance upon application determines otherwise. As a result, your ability to purchase the notes and/or the Class A Common Stock may be significantly delayed or otherwise impeded.

***Ratings of the notes may cause their trading price to fall and affect the marketability of the notes.***

The notes are rated by Moody's Investors Services, Inc. and Standard & Poor's Ratings Services. A rating agency's rating of the notes is not a recommendation to purchase, sell or hold any particular security, including the notes. Such ratings are limited in scope, and do not comment as to material risks relating to an investment in the notes. An explanation of the significance of such rating may be obtained from such rating agency. There is no assurance that such credit ratings will remain in effect for any given period of time. Rating agencies also may lower, suspend or withdraw ratings on the notes or our other debt in the future. Holders of the notes will have no recourse against us or any other parties in the event of a change in or suspension or withdrawal of such ratings. Any lowering, suspension or withdrawal of such ratings may have an adverse effect on the market prices or marketability of the notes.

***Federal and state statutes allow courts, under specific circumstances, to void notes and guarantees and require holders of notes to return payments received.***

The issuance of the notes and the related guarantees may be subject to review under federal and state fraudulent transfer and conveyance statutes. While the relevant laws may vary from state to state, under such laws the payment of consideration will be a fraudulent conveyance if (1) we paid the consideration with the intent of hindering, delaying or defrauding creditors or (2) we or any of the guarantors, as applicable, received less than reasonably equivalent value or fair consideration in return for issuing either the notes or a guarantee and, in the case of (2) only, one of the following is also true:

we or any of the guarantors were insolvent or rendered insolvent by reason of the incurrence of the indebtedness;

payment of the consideration left us or any of the guarantors with an unreasonably small amount of capital to carry on the business;  
or

we or any of the guarantors intended to, or believed that we or it would, incur debts beyond our or its ability to pay as they mature. If a court were to find that the issuance of the notes or a related guarantee was a fraudulent conveyance, the court could void the payment obligations under the notes or such guarantee or subordinate the notes or such guarantee to presently existing and future indebtedness of ours or such guarantor, or require the holders of the notes to repay any amounts received with respect to the notes or such guarantee. In the event of a finding that a fraudulent conveyance occurred, you may not receive any repayment on the notes. Further, the voidance of the notes could result in an event of default with respect to our other debt and that of the guarantors that could result in acceleration of such debt.

The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred. In general, however, a court would consider an issuer or a guarantor insolvent if:

the sum of its debts, including contingent and unliquidated liabilities, was greater than the fair saleable value of all of its assets;

---

**Table of Contents**

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts as they became due.

We cannot be certain as to the standards a court would use to determine whether or not we or the Note Guarantors were solvent at the relevant time, or regardless of the standard that a court uses, that the issuance of the notes and the related guarantees would not be subordinated to our or any guarantor's other debt.

If the guarantees of the notes were legally challenged, any such guarantee could also be subject to the claim that, since the guarantee was incurred for our benefit, and only indirectly for the benefit of the Note Guarantor, the obligations of the applicable guarantor were incurred for less than fair consideration. A court could thus void the obligations under the guarantees of the notes, subordinate them to the applicable guarantor's other debt or take other action detrimental to the holders of the notes.

Each guarantee of the notes contains a provision intended to limit the guarantor's liability to the maximum amount that it could incur without causing the incurrence of obligations under its guarantee to be a fraudulent transfer. This provision may not be effective to protect the guarantees from being voided under fraudulent transfer law, or may reduce or eliminate the guarantor's obligation to an amount that effectively makes such guarantee worthless.

***The notes do not restrict our ability to incur additional debt, repurchase our securities or to take other actions that could negatively impact holders of the notes.***

We are not restricted under the terms of the notes from incurring additional debt, including secured debt, or repurchasing our securities. In addition, the limited covenants applicable to the notes do not require us to achieve or maintain any minimum financial results relating to our financial position or results of operations. Our ability to recapitalize, incur additional debt and take a number of other actions that are not limited by the terms of the notes could have the effect of diminishing our ability to make payments on the notes when due. Certain of our other debt instruments may, however, restrict these and other actions. See Description of the Notes Subordination of the Notes.

***The conversion rates of the notes may not be adjusted for all dilutive events that may occur.***

As described under Description of the Notes Conversion Rate Adjustments, we will adjust the conversion rates of the notes for certain events, including, among others:

the issuance of stock or cash dividends on the Class A Common Stock;

the issuance of certain rights or warrants to purchase Class A Common Stock;

certain subdivisions and combinations of Class A Common Stock; and

the distribution of capital stock, indebtedness or assets of Holdings.

We will not adjust the conversion rates for other events, such as an issuance of Class A Common Stock for cash or in connection with an acquisition, or for grants of options, restricted stock or other equity awards pursuant to Holdings' existing and future employee incentive plans, including the Phantom Value Plan, that may adversely affect the trading price of the notes or the Class A Common Stock. If we engage in any of these types of transactions, the value of the Class A Common Stock into which the notes may be convertible may be diluted. In addition, if we are unable to maintain compliance with the senior secured leverage ratio under our senior secured credit facility, we may issue additional equity in the future pursuant to an equity cure or otherwise, which could also adversely impact the value of the notes or the Class A Common Stock. An event that adversely affects the value of the notes, but does not result in an adjustment to the conversion rates, may occur.

---

**Table of Contents**

*You may lose the option time value of your notes if we redeem your notes upon a Qualified Public Offering or if you elect to have your notes repurchased upon a Change of Control and if the notes are redeemed by us upon a Qualified Public Offering, you will not receive the full face amount of your notes.*

Upon a Qualified Public Offering and at any time thereafter, the notes will be redeemable at our option at a price equal to 90% of the principal amount thereof, plus accrued and unpaid interest to the date of redemption. In addition, if a change of control occurs prior to the maturity date of the notes, each holder of the notes will have the right to require us to repurchase its notes at a price equal to 101% of the principal amount thereof, plus accrued and unpaid interest to the date of purchase. Upon such redemption or repurchase, you will not be compensated for any lost option time value of your notes. In addition, because we may redeem the notes at a price equal to 90% of the principal amount thereof, you will not receive the full face amount of your notes following any such redemption.

*As a holder of the notes, you will not be entitled to any rights with respect to Class A Common Stock, but you will be subject to all changes made with respect to Class A Common Stock and even if you convert your notes, your voting interests may be diluted.*

If you hold notes, you will not be entitled to any rights with respect to the Class A Common Stock (including, without limitation, voting rights and rights to receive any dividends or other distributions on the Class A Common Stock), but you will be subject to all changes affecting the Class A Common Stock. You will have the rights with respect to the Class A Common Stock only when shares of Class A Common Stock are delivered to you upon conversion of your notes. For example, in the event that an amendment is proposed to Holdings' charter or by-laws requiring stockholder approval and the record date for determining the stockholders of record entitled to vote on the amendment occurs prior to the date you are deemed to have received Class A Common Stock upon conversion, you will not be entitled to vote on the amendment, although you will nevertheless be subject to any changes in the powers, preferences or special rights of the Class A Common Stock. In addition, because the Class B Common Stock has five votes per share, even if you convert your notes, your voting interests in the Class A Common Stock may not be proportional to your actual ownership of the outstanding Common Stock and holders of Class B Common Stock may control a majority of the voting interests in the Common Stock even though they do not own a majority of the outstanding Common Stock.

*Recent regulatory actions may adversely affect the trading price and liquidity of the notes.*

If the Class A Common Stock becomes publicly traded, we expect that investors in, and potential purchasers of, the notes will employ, or seek to employ, a convertible arbitrage strategy with respect to the notes. Investors that employ a convertible arbitrage strategy with respect to convertible securities typically implement that strategy by selling short the common stock underlying the convertible securities and dynamically adjusting their short position while they hold the convertible securities. As a result, any specific rules regulating short selling of securities, such as the recent amendments to Rule 201 of Regulation SHO that became effective on May 10, 2010, or any other governmental action that interferes with the ability of market participants to effect short sales in Class A Common Stock could adversely affect the ability of investors in, or potential purchasers of, the notes to conduct such a convertible arbitrage strategy with respect to the notes. This could, in turn, adversely affect the trading price and liquidity of the notes.

*You may be subject to United States federal income or withholding taxes if we adjust the conversion rates of notes in certain circumstances, even if you do not receive any cash.*

We will adjust the conversion rates of the notes for stock splits and combinations, stock dividends, cash dividends and certain other events that affect the capital structure of Holdings. See Description of the Notes Conversion Rate Adjustments. If we adjust the conversion rates, you may be treated as having received a constructive distribution from us, resulting in taxable income to you for United States federal income tax purposes, even though you would not receive any cash in connection with a conversion rate adjustment and even

---

**Table of Contents**

though you might not exercise your conversion right. In addition, Non-U.S. Holders (as defined in Certain United States Federal Income Tax Considerations ) of the notes may be deemed to have received a distribution subject to United States federal withholding tax requirements. See Certain United States Federal Income Tax Considerations U.S. Holders Constructive Dividends and Certain United States Federal Income Tax Considerations Non-U.S. Holders Constructive Dividends.

***Holders who convert their notes into Class A Common Stock may be subject to greater risks than the risks to which they would otherwise be subject.***

If you elect to convert your notes into Class A Common Stock, you will hold equity of Holdings, rather than debt of Realogy, which will have important consequences to you. For example, the rights of holders of Class A Common Stock will be junior to our existing and future indebtedness and other obligations. If we were to become subject to bankruptcy protection, holders of the notes who do not convert their notes may receive value greater than the value, if any, received by holders of Class A Common Stock. This is because any claims of holders of the notes and our other indebtedness will be given priority over the claims of holders of equity securities.

***The conversion prices of the notes were determined by negotiations and are based on a premium to the estimated fair market value of the Class A Common Stock. There may not be an active market for Class A Common Stock, and a market may never develop, which could adversely affect the liquidity and market price of the notes and could result in holders of Class A Common Stock being unable to monetize their investment.***

Currently there is no public market for the Class A Common Stock. In the absence of a public market for the Class A Common Stock, the conversion prices of the notes were determined through negotiations with holders of the Existing Notes by reference to the Company's estimated fair market value of the Class A Common Stock as of November 29, 2010. The conversion prices were based on a premium to the estimated fair market value of the Class A Common Stock and may not bear any relationship to our past, current or future operations, cash flows, net income, current financial condition, the book value of our assets or any other established criteria for value. As a result, the conversion prices of the notes should not be considered as reflective of the actual value of the Class A Common Stock.

An active trading market for the Class A Common Stock may never develop or be sustained. The absence of such market could adversely affect the liquidity and price of the Class A Common Stock and the notes. In addition, we cannot assure you that, if such market were to develop, the price at which the Class A Common Stock may trade will not decline, or that such price will reflect the actual financial performance of Holdings.

In connection with any Qualified Public Offering, Holdings expects that it would list the Class A Common Stock for trading on the NASDAQ Global Select Market, the NASDAQ Global Market or the New York Stock Exchange. Until then, you may not be able to liquidate any investment you may make in the Class A Common Stock by converting the notes. We cannot assure you that there will be a trading market for the Class A Common Stock or that an active public market will develop or, if developed, will continue. If an active public market does not develop or is not maintained, the market price and liquidity of the Class A Common Stock may be adversely affected. Moreover, in the event you are able to sell some or all of your Class A Common Stock, you may not recover the original investment.

***Fluctuations in the market price of Class A Common Stock may impact the trading price of the notes and make them more difficult to resell. Holders who receive Class A Common Stock upon conversion of the notes will also be subject to the risk of volatility and depressed prices of Class A Common Stock.***

If the Class A Common Stock becomes publicly traded, the conversion value of the notes will be based on the market price of shares of Class A Common Stock, and any decline in the market price of Class A Common Stock may have a similar effect on the value of the notes and could limit the number of shares deliverable upon conversion of the notes.

## **Table of Contents**

Holders who receive shares of Class A Common Stock upon conversion of the notes will also be subject to the risk of volatility and depressed prices of Class A Common Stock. The conversion of some or all of the notes and any sales of Class A Common Stock issued upon conversion of the notes could adversely affect the market price of Class A Common Stock. In the future, Holdings may sell additional shares of Class A Common Stock to raise capital. We cannot predict the size of future issuances or the effect, if any, that they may have on the market price of Class A Common Stock. The issuance and sale of substantial amounts of Class A Common Stock or securities convertible into Class A Common Stock, or the perception that such issuances and sales may occur, could adversely affect the value of the notes and the market price of Class A Common Stock and impair Holdings' ability to raise capital through the sale of additional equity securities. In addition, holders who receive shares of Class A Common Stock upon conversion of the notes may have their percentage ownership diluted in the future because of equity issuances.

The market price of Class A Common Stock (if such market were to develop) could also be affected by possible sales of shares of Class A Common Stock by investors who view the notes as a more attractive means of equity participation in Holdings and by hedging or arbitrage trading activity involving Class A Common Stock that we expect to develop if the Class A Common Stock becomes publicly tradable. Such hedging or arbitrage trading activity could, in turn, affect the trading price of the notes and/or the market price of any Class A Common Stock that holders receive upon conversion of their notes.

## **Risks Related to Our Business**

*The residential real estate market is cyclical and we are negatively impacted by downturns in this market.*

The residential real estate market tends to be cyclical and typically is affected by changes in general economic conditions which are beyond our control. The U.S. residential real estate market has recently shown some signs of stabilizing from a lengthy and deep downturn that began in the second half of 2005. However, we cannot predict when the market and related economic forces will return the U.S. residential real estate industry to a period of sustained growth.

Any of the following could halt or limit a recovery in the housing market and have a material adverse effect on our business by causing a lack of sustained growth or a decline in the number of homesales and/or prices which, in turn, could adversely affect our revenues and profitability:

continued high unemployment;

a period of slow economic growth or recessionary conditions;

weak credit markets;

a low level of consumer confidence in the economy and/or the residential real estate market;

rising mortgage interest rates;

instability of financial institutions;

legislative, tax or regulatory changes that would adversely impact the residential real estate market, including but not limited to potential reform relating to Fannie Mae, Freddie Mac and other government sponsored entities that provide liquidity to the U.S. housing and mortgage markets;

## Edgar Filing: REALOGY CORP - Form S-1

increasing mortgage rates and down payment requirements and/or reduced availability of mortgage financing, including but not limited to the potential impact of various provisions of the Dodd-Frank Act or other legislation that may be enacted to reform the U.S. housing finance market, including restrictions imposed on mortgage originators as well as retention levels required to be maintained by sponsors to securitize mortgages;

excessive or insufficient regional home inventory levels;

continuing high levels of foreclosure activity including but not limited to the release of homes for sale by financial institutions and the uncertainty surrounding the appropriateness of mortgage servicers foreclosure processes;

**Table of Contents**

adverse changes in local or regional economic conditions;

the inability or unwillingness of homeowners to enter into homesale transactions due to negative equity in their existing homes;

a decrease in the affordability of homes;

our geographic and high-end market concentration relating in particular to our company-owned brokerage operations;

local, state and federal government regulation that burden residential real estate transactions or ownership;

shifts in populations away from the markets that we or our franchisees serve;

individual tax law changes, including potential limits or elimination of the deductibility of certain mortgage interest expense, the application of the alternative minimum tax, real property taxes and employee relocation expenses;

decreasing home ownership rates, declining demand for real estate and changing social attitudes toward home ownership;

commission pressure from brokers who discount their commissions; and/or

acts of God, such as hurricanes, earthquakes and other natural disasters that disrupt local or regional real estate markets.

Recently, banks and other lenders have come under investigations for alleged improper support for foreclosure actions. As a result, the foreclosure process in many areas has slowed and may face ongoing disruption. These foreclosure developments could reduce the level of homesales and could, once these homes reemerge on the market, add additional downward pressure on the price of existing homesales.

Our success is largely dependent on the efforts and abilities of the independent sales associates retained by company owned brokerage offices and by our franchisees. The ability of our company owned brokerage offices and our franchisees to retain independent sales associates is generally subject to numerous factors, including the compensation they receive and their perception of brand value. Given our high degree of leverage and negative perceptions in the media relating to our financial condition, neither our company owned brokerage offices or our independent franchisees may be successful in attracting or maintaining independent sales associates. If we or our franchisees fail to attract and retain independent sales associates, our business may be materially adversely affected.

***A prolonged decline or lack of sustained growth in the number of homesales and/or prices would adversely affect our revenues and profitability.***

Based upon data published by NAR, from 2005 to 2010, annual U.S. existing homesale units declined by 31% and the median homesale price declined by 21%. Our Company's revenues for the year ended December 31, 2010 compared to the year ended December 31, 2007, on a pro forma combined basis, decreased approximately 32%. A further decline or lack of sustained growth in existing homesales, a continued decline in home prices or a decline in commission rates charged by brokers would further adversely affect our results of operations by reducing the royalties we receive from our franchisees and company owned brokerages, reducing the commissions our company owned brokerage operations earn, reducing the demand for our title and settlement services and reducing the referral fees earned by our relocation services business. For example, for 2010, a 100 basis point (or 1%) decline in either our homesale sides or the average selling price of closed homesale transactions, with all else being equal, would have decreased EBITDA by \$2 million for our Real Estate Franchise Services segment and \$9 million for our Company Owned Real Estate Brokerage Services segment.

---

**Table of Contents**

***Our company owned brokerage operations are subject to geographic and high-end real estate market risks, which could continue to adversely affect our revenues and profitability.***

Our subsidiary, NRT, owns real estate brokerage offices located in and around large metropolitan areas in the U.S. Local and regional economic conditions in these locations could differ materially from prevailing conditions in other parts of the country. NRT has more offices and realizes more of its revenues in California, Florida and the New York metropolitan area than any other regions in the country. For the year ended December 31, 2010, NRT realized approximately 63% of its revenues from California (27%), the New York metropolitan area (26%) and Florida (10%). A further downturn in residential real estate demand or economic conditions in these regions could result in a further decline in NRT's total gross commission income and have a material adverse effect on us. In addition, given the significant geographic overlap of our title and settlement services business with our company owned brokerage offices, such regional declines affecting our company owned brokerage operations could have an adverse effect on our title and settlement services business as well. A further downturn in residential real estate demand or economic conditions in these states could continue to result in a decline in our overall revenues and have a material adverse effect on us.

NRT has a significant concentration of transactions at the higher end of the U.S. real estate market. A shift in NRT's mix of property transactions from the high range to lower and middle range homes would adversely affect the average price of NRT's closed homesales.

***Loss or attrition among our senior management or other key employees could adversely affect our financial performance.***

Our success is largely dependent on the efforts and abilities of our senior management and other key employees. Our ability to retain our employees is generally subject to numerous factors, including the compensation and benefits we pay, the mix between the fixed and variable compensation we pay our employees and prevailing compensation rates. Given the lengthy and prolonged downturn in the real estate market and the cost-cutting measures we implemented during the downturn, certain of our employees have received, and may in the near term continue to receive, less variable compensation. As such, we may suffer significant attrition among our current key employees. If we were to lose key employees and not promptly fill their positions with comparably qualified individuals, our business may be materially adversely affected.

***Tightened mortgage underwriting standards could continue to reduce homebuyers' ability to access the credit market on reasonable terms.***

During the past several years, many lenders have significantly tightened their underwriting standards, and many subprime and other alternative mortgage products are no longer being made available in the marketplace. If these trends continue and mortgage loans continue to be difficult to obtain, including in the jumbo mortgage markets important to our higher value and luxury brands, the ability and willingness of prospective buyers to finance home purchases or to sell their existing homes will be adversely affected, which will adversely affect our operating results.

***Adverse developments in general business, economic and political conditions could have a material adverse effect on our financial condition and our results of operations.***

Our business and operations and those of our franchisees are sensitive to general business and economic conditions in the U.S. and worldwide. These conditions include short-term and long-term interest rates, inflation, fluctuations in debt and equity capital markets, consumer confidence and the general condition of the U.S. and world economy.

Dramatic declines in the housing market during the past several years, with falling home prices and increasing foreclosures, including disruptions and delays occasioned by recent investigations into alleged

---

**Table of Contents**

improper foreclosure processes, and unemployment, have resulted in significant write-downs of asset values by financial institutions, including government-sponsored entities and major commercial and investment banks as well as repayment and reimbursement arrangements between the originating banks and Fannie Mae and Freddie Mac. These actions, which initially impacted mortgage-backed securities, spread to credit default swaps and other derivative securities and caused many financial institutions to seek additional capital, to merge with larger and stronger institutions and, in some cases, to fail. Reflecting concern about the stability of the financial markets generally and the strength of counterparties, many lenders and institutional investors reduced, and in some cases, ceased to provide funding to borrowers, including other financial institutions. Lack of available credit or lack of confidence in the financial sector could materially and adversely affect our business, financial condition and results of operations.

A host of factors beyond our control could cause fluctuations in these conditions, including the political environment and acts or threats of war or terrorism. Adverse developments in these general business and economic conditions could have a material adverse effect on our financial condition and our results of operations.

***Recent U.S. governmental actions to assist in the stabilization and/or recovery of the residential real estate market may not be successful; reform of Freddie Mac and Fannie Mae could have a material impact on our operations.***

The U.S. government implemented certain actions during the past several years to assist in a stabilization and/or a recovery of the residential real estate market. These measures have included: (1) the placement of Fannie Mae and Freddie Mac in conservatorship in September 2008 and the funding of over \$130 billion to these entities to backstop shortfalls in their capital requirements; (2) the establishment, and subsequent expansion and extension, of a federal homebuyer tax credit for qualified buyers (that, as extended, required signed contracts on or before April 30, 2010); (3) as part of a broader plan to bring stability to credit markets and stimulate the housing market, the purchase of mortgage-backed securities by the Federal Reserve in an attempt to maintain low mortgage rates (the first phase of which ended on March 31, 2010); (4) the continuation of the 2008 higher loan limits for FHA, Freddie Mac and Fannie Mae loans through September 30, 2011; and (5) the availability of low-cost refinancing through Fannie Mae and Freddie Mac to certain homeowners negatively impacted by falling home prices, encouraging lenders to modify loan terms with borrowers at risk of foreclosure or already in foreclosure. There can be no assurance that these actions or any other governmental action will continue to stabilize the housing market or that any recovery in this market will be sustained as these programs either wind down or expire by their terms.

Moreover, Congress has recently held hearings on the future of Freddie Mac and Fannie Mae and other government sponsored entities or GSEs with a view towards further legislative reform. On February 11, 2011, the Obama Administration issued a report to the U.S. Congress outlining proposals to reform the U.S. housing finance market, including, among other things, reform designed to reduce government support for housing finance and the winding down of Freddie Mac and Fannie Mae over a period of years. Numerous pieces of legislation seeking various types of reform for the GSEs have been introduced recently in Congress. Two significant questions that need to be addressed in any such reform are: (1) will banks and other private sources of capital be able to fill homebuyers' needs as the government seeks to pull back some of the housing mortgage market support and (2) will these other sources of capital be available at rates which are reasonably attractive to potential homebuyers. Legislation, if enacted, which curtails Freddie Mac and/or Fannie Mae's activities and/or results in the wind down of these entities could increase mortgage costs and could result in more stringent underwriting guidelines imposed by lenders, either of which could materially adversely affect the housing market in general and our operations in particular. Given the current uncertainty with respect to the extent, if any, of such reform, it is difficult to predict either the long-term or short-term impact of government action that may be taken.

***The Dodd-Frank Act and other financial reform legislation may, among other things, result in new rules and regulations that may adversely affect the housing industry.***

On July 21, 2010, the Dodd-Frank Act was signed into law for the express purpose of regulating the financial services industry and also establishes an independent federal bureau of consumer financial protection to

---

**Table of Contents**

enforce laws involving consumer financial products and services, including mortgage finance. The bureau is empowered with examination and enforcement authority. The Dodd-Frank Act also establishes new standards and practices for mortgage originators, including determining a prospective borrower's ability to repay their mortgage, removing incentives for higher cost mortgages, prohibiting prepayment penalties for non-qualified mortgages, prohibiting mandatory arbitration clauses, requiring additional disclosures to potential borrowers and restricting the fees that mortgage originators may collect. While we are continuing to evaluate all aspects of the Dodd-Frank Act, such legislation and regulations promulgated pursuant to such legislation as well as other legislation that may be enacted to reform the U.S. housing finance market could materially and adversely affect the mortgage and housing industries, result in heightened federal regulation and oversight of the mortgage and housing industries, increase mortgage costs and result in increased costs and potential litigation for housing market participants.

Certain provisions of the Dodd-Frank Act may impact the operation and practices of Fannie Mae and Freddie Mac and require sponsors of securitizations to retain a portion of the economic interest in the credit risk associated with the assets securitized by them. Federal regulators have been authorized to provide exceptions to the risk retention requirements for certain qualified mortgages and mortgages meeting certain underwriting standards prescribed in such regulations, however, it is unclear what types of mortgage loans will be encompassed by future regulations related to the definition of qualified mortgages. If mortgage loans originated for purchasers of homes are sold into GSE-sponsored mortgage-backed securities that do not meet the definition of a qualified mortgage, then the GSEs may be required to retain a portion of the risk of assets they securitize, which may in turn substantially reduce or eliminate the GSEs' ability to issue mortgage-backed securities. Substantial reduction in, or the elimination of, GSE demand for mortgage loans could have a material adverse effect on the mortgage industry and the housing industry in general. It is also unclear what effect future laws or regulations may have on the ability of the GSEs to issue mortgage-backed securities.

***Monetary policies of the federal government and its agencies may have a material impact on our operations.***

Our business is significantly affected by the monetary policies of the federal government and its agencies. We are particularly affected by the policies of the Federal Reserve Board, which regulates the supply of money and credit in the U.S. The Federal Reserve Board's policies affect the real estate market through their effect on interest rates as well as the pricing on our interest-earning assets and the cost of our interest-bearing liabilities.

We are affected by any rising interest rate environment. Changes in the Federal Reserve Board's policies, the interest rate environment and mortgage market are beyond our control, are difficult to predict and could have a material adverse effect on our business, results of operations and financial condition. Additionally, the possibility of the elimination of the mortgage interest deduction could have an adverse effect on the housing market by reducing incentives for buying or refinancing homes and negatively affecting property values.

***Competition in the residential real estate and relocation business is intense and may adversely affect our financial performance.***

Competition in the residential real estate services business is intense. As a real estate brokerage franchisor, our products are our brand names and the support services we provide to our franchisees. Upon the expiration of a franchise agreement, a franchisee may choose to franchise with one of our competitors or operate as an independent broker. Competitors may offer franchisees whose franchise agreements are expiring similar products and services at rates that are lower than we charge. Our largest national competitors in this industry include The Prudential Real Estate Affiliates, Inc., Real Living (which includes the franchise business that had been conducted by GMAC Real Estate, LLC), RE/MAX and Keller Williams Realty, Inc. Some of these companies may have greater financial resources than we do, including greater marketing and technology budgets, and may be less leveraged. Regional and local franchisors provide additional competitive pressure in certain areas. To remain competitive in the sale of franchises and to retain our existing franchisees, we may have to reduce the fees we charge our franchisees to be competitive with those charged by competitors, which may accelerate if market conditions further deteriorate.

---

**Table of Contents**

Our company owned brokerage business, like that of our franchisees, is generally in intense competition. We compete with other national independent real estate organizations, including Home Services of America, franchisees of our brands and of other national real estate franchisors, franchisees of local and regional real estate franchisors, regional independent real estate organizations, discount brokerages, and smaller niche companies competing in local areas. Competition is particularly severe in the densely populated metropolitan areas in which we operate. In addition, the real estate brokerage industry has minimal barriers to entry for new participants, including participants pursuing non-traditional methods of marketing real estate, such as Internet-based brokerage or brokers who discount their commissions. Discount brokers have had varying degrees of success and while they have been negatively impacted by the prolonged downturn in the residential housing market, they may increase their market share in the future. Real estate brokers compete for sales and marketing business primarily on the basis of services offered, reputation, personal contacts and brokerage commission. As with our real estate franchise business, a decrease in the average brokerage commission rate may adversely affect our revenues. We also compete for the services of qualified licensed independent sales associates. Some of the firms competing for sales associates use a different model of compensating agents, in which agents are compensated for the revenue generated by other agents that they recruit to those firms. This business model may be appealing to certain agents and hinder our ability to attract and retain those agents. Competition for sales associates could reduce the commission amounts retained by our company after giving effect to the split with independent sales associates and possibly increase the amounts that we spend on marketing. Our average homesale commission rate per side in our Company Owned Real Estate Services segment has declined from 2.62% in 2002 to 2.48% in 2010.

In our relocation services business, we compete primarily with global and regional outsourced relocation service providers. The larger outsourced relocation service providers that we compete with include SIRVA, Inc., Weichert Relocation Resources, Inc. and Prudential Real Estate and Relocation Services, Inc.

The title and settlement services business is highly competitive and fragmented. The number and size of competing companies vary in the different areas in which we conduct business. We compete with other title insurers, title agents and vendor management companies. The title and settlement services business competes with a large, fragmented group of smaller underwriters and agencies as well as national competitors.

***Several of our businesses are highly regulated and any failure to comply with such regulations or any changes in such regulations could adversely affect our business.***

Several of our businesses are highly regulated. The sale of franchises is regulated by various state laws as well as by the FTC. The FTC requires that franchisors make extensive disclosure to prospective franchisees but does not require registration. A number of states require registration or disclosure in connection with franchise offers and sales. In addition, several states have franchise relationship laws or business opportunity laws that limit the ability of franchisors to terminate franchise agreements or to withhold consent to the renewal or transfer of these agreements. While we believe that our franchising operations are in compliance with such existing regulations, we cannot predict the effect any existing or future legislation or regulation may have on our business operation or financial condition.

Our real estate brokerage business must comply with the requirements governing the licensing and conduct of real estate brokerage and brokerage-related businesses in the jurisdictions in which we do business. These laws and regulations contain general standards for and prohibitions on the conduct of real estate brokers and sales associates, including those relating to licensing of brokers and sales associates, fiduciary and agency duties, administration of trust funds, collection of commissions, advertising and consumer disclosures. Under state law, our real estate brokers have the duty to supervise and are responsible for the conduct of their brokerage business.

Several of the litigation matters we are involved with allege claims based upon breaches of fiduciary duties by our licensed brokers, violations of state laws relating to business practices or consumer disclosures and with respect to compliance with wage and hour regulations. We cannot predict with certainty the cost of defense or the ultimate outcome of these or other litigation matters filed by or against us, including remedies or awards, and adverse results in any such litigation may harm our business and financial condition.

---

**Table of Contents**

Our company owned real estate brokerage business, our relocation business, our title and settlement service business and the businesses of our franchisees (excluding commercial brokerage transactions) must comply with RESPA. RESPA and comparable state statutes, among other things, restrict payments which real estate brokers, agents and other settlement service providers may receive for the referral of business to other settlement service providers in connection with the closing of real estate transactions. Such laws may to some extent restrict preferred vendor arrangements involving our franchisees and our company owned brokerage business. RESPA and similar state laws also require timely disclosure of certain relationships or financial interests that a broker has with providers of real estate settlement services.

Our title insurance business also is subject to regulation by insurance and other regulatory authorities in each state in which we provide title insurance. State regulations may impede or impose burdensome conditions on our ability to take actions that we may want to take to enhance our operating results.

There is a risk that we could be adversely affected by current laws, regulations or interpretations or that more restrictive laws, regulations or interpretations will be adopted in the future that could make compliance more difficult or expensive. There is also a risk that a change in current laws could adversely affect our business. For example, the Bush tax cuts, which have reduced ordinary income and capital gains rates on federal taxes, were recently extended until the end of 2012, after which these tax cuts are due to expire. There can be no assurance that these tax cuts will be extended or if extended, the extension may apply only to a portion of the tax cuts and/or the extension could be limited in duration. Other potential federal tax legislation includes the elimination or narrowing of mortgage tax deductions. Higher federal income tax rates or further limits on mortgage tax deductions could negatively impact the purchase and sale of residential homes. We cannot assure you that future legislative or regulatory changes will not adversely affect our business operations.

In April 2007, the FTC and Justice Department issued a report on competition in the real estate brokerage industry and concluded that while the industry had undergone substantial changes in prior years, particularly with the increasing use of the Internet, competition has been hindered as a result of actions taken by some real estate brokers, acting through multiple listing services and NAR, state legislatures, and real estate commissions, and recommend, among other things, that the agencies should continue to monitor the cooperative conduct of private associations of real estate brokers, and bring enforcement actions in appropriate circumstances.

In addition, regulatory authorities have relatively broad discretion to grant, renew and revoke licenses and approvals and to implement regulations. Accordingly, such regulatory authorities could prevent or temporarily suspend us from carrying on some or all of our activities or otherwise penalize us if our financial condition or our practices were found not to comply with the then current regulatory or licensing requirements or any interpretation of such requirements by the regulatory authority. Our failure to comply with any of these requirements or interpretations could limit our ability to renew current franchisees or sign new franchisees or otherwise have a material adverse effect on our operations.

We are also, to a lesser extent, subject to various other rules and regulations such as:

the Gramm-Leach-Bliley Act which governs the disclosure and safeguarding of consumer financial information;

various state and federal privacy laws;

the USA PATRIOT Act;

restrictions on transactions with persons on the Specially Designated Nationals and Blocked Persons list promulgated by the Office of Foreign Assets Control of the Department of the Treasury;

federal and state Do Not Call, Do Not Fax, and Do Not E-Mail laws;

## Edgar Filing: REALOGY CORP - Form S-1

controlled business statutes, which impose limitations on affiliations between providers of title and settlement services, on the one hand, and real estate brokers, mortgage lenders and other real estate providers, on the other hand, or similar laws or regulations that would limit or restrict transactions among affiliates in a manner that would limit or restrict collaboration among our businesses;

**Table of Contents**

the Affiliated Marketing Rule, which prohibits or restricts the sharing of certain consumer credit information among affiliated companies without notice and/or consent of the consumer;

the Fair Housing Act;

laws and regulations, including the Foreign Corrupt Practices Act, that can impair significant sanctions on improper payments to foreign officials or agents;

laws and regulations in jurisdictions outside the United States in which we do business;

state and federal employment laws and regulations, including any changes that would require classification of independent contractors to employee status, and wage and hour regulations; and

increases in state, local or federal taxes that could diminish profitability or liquidity.

Our failure to comply with any of the foregoing laws and regulations may subject us to fines, penalties, injunctions and/or potential criminal violations. Any changes to these laws or regulations or any new laws or regulations may make it more difficult for us to operate our business and may have a material adverse effect on our operations.

***Seasonal fluctuations in the residential real estate brokerage and relocation businesses could adversely affect our business.***

The residential real estate brokerage business is subject to seasonal fluctuations. Historically, real estate brokerage revenues and relocation revenues have been strongest in the second and third quarters of the calendar year (although, due to the expiration of the homebuyer tax credit, the third quarter of 2010 was adversely affected by the acceleration of activity into the first half of 2010). However, many of our expenses, such as rent and personnel, are fixed and cannot be reduced during a seasonal slowdown. As a result, we may be required to borrow in order to fund operations during seasonal slowdowns or at other times. Since the terms of our indebtedness may restrict our ability to incur additional debt, we cannot assure you that we would be able to borrow sufficient amounts. Our inability to finance our funding needs during a seasonal slowdown or at other times would have a material adverse effect on us.

***Changes in accounting standards, subjective assumptions and estimates used by management related to complex accounting matters could have an adverse effect on results of operations.***

Generally accepted accounting principles in the United States and related accounting pronouncements, implementation guidance and interpretations with regard to a wide range of matters, such as stock-based compensation, asset impairments, valuation reserves, income taxes and fair value accounting, are highly complex and involve many subjective assumptions, estimates and judgments made by management. Changes in these rules or their interpretations or changes in underlying assumptions, estimates or judgments to be made by management could significantly change our reported results.

***We may not have the ability to complete future acquisitions; we may not be successful in developing the Better Homes and Gardens Real Estate brand.***

We have pursued an active acquisition strategy as a means of strengthening our businesses and have sought to integrate acquisitions into our operations to achieve economies of scale. Our company owned brokerage business has completed over 350 acquisitions since its formation in 1997 and, in 2004, we acquired the Sotheby's International Realty® residential brokerage business and entered into an exclusive license agreement for the rights to the Sotheby's International Realty® trademarks with which we are in the process of building the Sotheby's International Realty® franchise system. In January 2006, we acquired our title insurance underwriter and certain title agencies. As a result of these and other acquisitions, we have derived a substantial portion of our

## **Table of Contents**

growth in revenues and net income from acquired businesses. The success of our future acquisition strategy will continue to depend upon our ability to find suitable acquisition candidates on favorable terms and to finance and complete these transactions.

In October 2007, we entered into a long-term agreement to license the Better Homes and Gardens® Real Estate brand from Meredith. We seek to build a new international residential real estate franchise company using the Better Homes and Gardens® Real Estate brand name. The licensing agreement between us and Meredith became operational on July 1, 2008 and is for a 50-year term, with a renewal term for another 50 years at our option. We may not be able to successfully develop the brand in a timely manner or at all. Our inability to complete acquisitions or to successfully develop the Better Homes and Gardens® Real Estate brand would have a material adverse effect on our growth strategy.

### ***We may not realize anticipated benefits from future acquisitions.***

Integrating acquired companies involves complex operational and personnel-related challenges. Future acquisitions may present similar challenges and difficulties, including:

the possible defection of a significant number of employees and independent sales associates;

increased amortization of intangibles;

the disruption of our respective ongoing businesses;

possible inconsistencies in standards, controls, procedures and policies;

failure to maintain important business relationships and contracts;

unanticipated costs of terminating or relocating facilities and operations;

unanticipated expenses related to integration; and

potential unknown liabilities associated with acquired businesses.

A prolonged diversion of management's attention and any delays or difficulties encountered in connection with the integration of any business that we have acquired or may acquire in the future could prevent us from realizing the anticipated cost savings and revenue growth from our acquisitions.

### ***We may be unable to maintain anticipated cost savings and other benefits from our restructuring activities.***

We are committed to various restructuring initiatives targeted at reducing costs and enhancing organizational effectiveness while consolidating existing processes and facilities. We may not be able to achieve or maintain the anticipated cost savings and other benefits from these restructuring initiatives that are described elsewhere in this prospectus. If our cost savings or the benefits are less than our estimates or take longer to implement than we project, the savings or other benefits we projected may not be fully realized.

### ***Our financial results are affected by the operating results of franchisees.***

Our real estate franchise services segment receives revenue in the form of royalties, which are based on a percentage of gross commission income earned by our franchisees. Accordingly, the financial results of our real estate franchise services segment are dependent upon the

## Edgar Filing: REALOGY CORP - Form S-1

operational and financial success of our franchisees. If industry trends or economic conditions worsen for franchisees, their financial results may worsen and our royalty revenues may decline. In addition, we may have to increase our bad debt and note reserves. We may also have to terminate franchisees more frequently due to non-reporting and non-payment. Further, if franchisees fail to renew their franchise agreements, or if we decide to restructure franchise agreements in order to induce franchisees to renew these agreements, then our royalty revenues may decrease.

---

**Table of Contents**

***Our franchisees and independent sales associates could take actions that could harm our business.***

Our franchisees are independent business operators and the sales associates that work with our company owned brokerage operations are independent contractors, and, as such, neither are our employees, and we do not exercise control over their day-to-day operations. Our franchisees may not successfully operate a real estate brokerage business in a manner consistent with our standards, or may not hire and train qualified independent sales associates or employees. If our franchisees and independent sales associates were to provide diminished quality of service to customers, our image and reputation may suffer materially and adversely affect our results of operations.

Additionally, franchisees and independent sales associates may engage or be accused of engaging in unlawful or tortious acts such as, for example, violating the anti-discrimination requirements of the Fair Housing Act. Such acts or the accusation of such acts could harm our and our brands' image, reputation and goodwill.

Franchisees, as independent business operators, may from time to time disagree with us and our strategies regarding the business or our interpretation of our respective rights and obligations under the franchise agreement. This may lead to disputes with our franchisees and we expect such disputes to occur from time to time in the future as we continue to offer franchises. To the extent we have such disputes, the attention of our management and our franchisees will be diverted, which could have a material adverse effect on our business, financial condition, results of operations or cash flows.

***Our relocation business is subject to risks related to acquiring, carrying and reselling real estate.***

On January 21, 2010, Cartus acquired a global relocation service provider, Primacy, which is a supplier of relocation services to corporate clients as well as certain U.S. government agencies under "at risk" contracts. At December 31, 2010, Primacy was merged into Cartus. Under "at risk" contracts, our relocation business enters into homesale transactions whereby we acquire the homes being sold by relocating employees and bear the risk of all expenses associated with acquiring, carrying and selling the homes, including potential loss on sale. In "at risk" homesale transactions where the ultimate third party buyer is not under contract at the time we become the owner of the home, we are subject to the market risk that the home we purchase will lose value while we are carrying it as well as the risk that our carrying costs will increase, both of which would increase the costs that we may incur on the home. A significant increase in the number of "at risk" home sale transactions could have a material adverse effect on our relocation business if housing prices continue to fall and we are unable to sell our at-risk homes in a timely manner or at favorable prices.

***Clients of our relocation business may terminate their contracts at any time.***

Substantially all of our contracts with our relocation clients are terminable at any time at the option of the client. If a client terminates its contract, we will only be compensated for all services performed up to the time of termination and reimbursed for all expenses incurred up to the time of termination. If a significant number of our relocation clients terminate their contracts with us, our results of operations would be materially adversely affected.

***Our marketing arrangement with PHH Home Loans may limit our ability to work with other key lenders to grow our business.***

Under our Strategic Relationship Agreement relating to PHH Home Loans, we are required to recommend PHH Home Loans as originator of mortgage loans to the independent sales associates, customers and employees of our company owned and operated brokerage offices. This provision may limit our ability to enter into beneficial business relationships with other lenders and mortgage brokers.

***We do not control the joint venture PHH Home Loans and PHH as the managing partner of that venture may make decisions that are contrary to our best interests.***

Under our Operating Agreement with PHH relating to PHH Home Loans, we own a 49.9% equity interest but do not have control of the operations of the venture. Rather, our joint venture partner, PHH, is the managing

---

**Table of Contents**

partner of the venture and may make decisions with respect to the operation of the venture, which may be contrary to our best interests and may adversely affect our results of operations. In addition, our joint venture may be materially adversely impacted by changes affecting the mortgage industry, including but not limited to regulatory changes, increases in mortgage interest rates and decreases in operating margins.

*We may experience significant claims relating to our operations and losses resulting from fraud, defalcation or misconduct.*

We issue title insurance policies which provide coverage for real property to mortgage lenders and buyers of real property. When acting as a title agent issuing a policy on behalf of an underwriter, our insurance risk is typically limited to the first \$5,000 of claims on any one policy, though our insurance risk is not limited if we are negligent. The title underwriter which we acquired in January 2006 typically underwrites title insurance policies of up to \$1.5 million. For policies in excess of \$1.5 million, we typically obtain a reinsurance policy from a national underwriter to reinsure the excess amount. To date, our title underwriter has experienced claims losses that are significantly below the industry average; our claims experience could increase in the future, which could negatively impact the profitability of that business. We may also be subject to legal claims arising from the handling of escrow transactions and closings. Our subsidiary, NRT, carries errors and omissions insurance for errors made during the real estate settlement process of \$15 million in the aggregate, subject to a deductible of \$1 million per occurrence. In addition, we carry an additional errors and omissions insurance policy for Realogy and its subsidiaries for errors made for real estate related services up to \$35 million in the aggregate, subject to a deductible of \$2.5 million per occurrence. This policy also provides excess coverage to NRT creating an aggregate limit of \$50 million, subject to the NRT deductible of \$1 million per occurrence. The occurrence of a significant title or escrow claim in excess of our insurance coverage in any given period could have a material adverse effect on our financial condition and results of operations during the period.

Fraud, defalcation and misconduct by employees are also risks inherent in our business. We carry insurance covering the loss or theft of funds of up to \$30 million annually in the aggregate, subject to a deductible of \$1 million per occurrence. To the extent that any loss or theft of funds substantially exceeds our insurance coverage, our business could be materially adversely affected.

In addition, we rely on the collection and use of personally identifiable information from customers to conduct our business. We disclose our information collection and dissemination practices in a published privacy statement on our websites, which we may modify from time to time. We may be subject to legal claims, government action and damage to our reputation if we act or are perceived to be acting inconsistently with the terms of our privacy statement, customer expectations or the law. Further, we may be subject to claims to the extent individual employees or independent contractors breach or fail to adhere to company policies and practices and such actions jeopardize any personally identifiable information. In addition, concern among potential home buyers or sellers about our privacy practices could keep them from using our services or require us to incur significant expense to alter our business practices or educate them about how we use personally identifiable information.

*We could be subject to severe losses if banks do not honor our escrow and trust deposits.*

Our company owned brokerage business and our title and settlement services business act as escrow agents for numerous customers. As an escrow agent, we receive money from customers to hold until certain conditions are satisfied. Upon the satisfaction of those conditions, we release the money to the appropriate party. We deposit this money with various banks and while these deposits are not assets of the Company (and therefore excluded from our consolidated balance sheet), we remain contingently liable for the disposition of these deposits. The banks may hold a significant amount of these deposits in excess of the federal deposit insurance limit. If any of our depository banks were to become unable to honor our deposits, customers could seek to hold us responsible for these deposits and, if the customers prevailed in their claims, we could be subject to severe losses. These escrow and trust deposits totaled \$190 million and \$161 million at December 31, 2010 and December 31, 2009, respectively.

---

**Table of Contents**

***Title insurance regulations limit the ability of our insurance underwriter to pay cash dividends to us.***

Our title insurance underwriter is subject to regulations that limit its ability to pay dividends or make loans or advances to us, principally to protect policy holders. Generally, these regulations limit the total amount of dividends and distributions to a certain percentage of the insurance subsidiary's surplus, or 100% of statutory operating income for the previous calendar year. These restrictions could limit our ability to receive dividends from our insurance underwriter, make acquisitions or otherwise grow our business.

***We may be unable to continue to securitize certain of our relocation assets, which may adversely impact our liquidity.***

At December 31, 2010, \$331 million of securitization obligations were outstanding through special purpose entities monetizing certain assets of our relocation services business under two lending facilities. We have provided a performance guaranty which guarantees the obligations of our Cartus subsidiary and its subsidiaries, as originator and servicer under the Apple Ridge securitization program. The securitization markets have experienced significant disruptions which may have the effect of increasing our cost of funding or reducing our access to these markets in the future. If we are unable to continue to securitize these assets, we may be required to find additional sources of funding which may be on less favorable terms or may not be available at all.

***The occurrence of any trigger events under our Apple Ridge securitization facility could cause us to lose funding under that facility and therefore restrict our ability to fund the operation of our U.S. relocation business.***

The Apple Ridge securitization facility, which we use to advance funds on behalf of certain U.S. clients of our relocation business in order to facilitate the relocation of their employees, contains terms which if triggered may result in a termination or limitation of new or existing funding under the facility and/or may result in a requirement that all collections on the assets be used to pay down the amounts outstanding under such facility. Some of the terms which could affect the availability of funds under the securitization facility include restrictive covenants and trigger events, including performance triggers linked to the age and quality of the underlying assets, limits on net credit losses incurred, financial reporting requirements, restrictions on mergers and change of control, and cross defaults under the senior secured credit facility, the Unsecured Notes and other material indebtedness. Given the current economic conditions, there is an associated risk relating to compliance with the Apple Ridge securitization performance trigger relating to limits on net credit losses (the estimated losses incurred on securitization receivables that have been written off, net of recoveries of such receivables), as net credit losses may not exceed \$750 thousand in any one month or \$1.5 million in any trailing 12 month period. The Apple Ridge facility has trigger events based on change in control and cross-defaults to material indebtedness. The occurrence of a trigger event under the Apple Ridge securitization facility could restrict our ability to access new or existing funding under this facility and adversely affect the operation of our relocation business.

We are highly dependent on the availability of the asset-backed securities market to finance the operations of our relocation business, and disruptions in this market or any adverse change or delay in our ability to access the market could have a material adverse effect on our financial position, liquidity or results of operations.

Reduced investor demand for asset-backed securities could result in our having to fund our relocation assets until investor demand improves, but our capacity to fund our relocation assets is not unlimited. If we confront a reduction in borrowing capacity under the Apple Ridge facility due to a reduced demand for asset-backed securities, it could require us to reduce the amount of relocation assets we fund and to find alternative sources of funding for working capital needs. Adverse market conditions could also result in increased costs and reduced margins earned in connection with securitization transactions.

If we need to increase the funding available under the Apple Ridge securitization facility, such funding may not be available to us or, if available, on terms acceptable to us. In addition, our Apple Ridge securitization

**Table of Contents**

facility matures in April 2012. We could encounter difficulties in renewing this facility and if this source of funding is not available to us for any reason, we could be required to borrow under the revolving credit facility or incur other indebtedness to finance our working capital needs or we could require our clients to fund the home purchases themselves, which could have a material adverse effect on our ability to achieve our business and financial objectives.

*Our international operations are subject to risks not generally experienced by our U.S. operations.*

Our relocation services business operates worldwide, and to a lesser extent, our real estate franchise services segment has international operations. For the year ended December 31, 2010, revenues from these operations are approximately 2.5% of total revenues. Our international operations are subject to risks not generally experienced by our U.S. operations. The risks involved in our international operations that could result in losses against which we are not insured and therefore affect our profitability include:

fluctuations in foreign currency exchange rates;

exposure to local economic conditions and local laws and regulations, including those relating to our employees;

economic and/or credit conditions abroad;

potential adverse changes in the political stability of foreign countries or in their diplomatic relations with the U.S.;

restrictions on the withdrawal of foreign investment and earnings;

government policies against businesses owned by foreigners;

investment restrictions or requirements;

diminished ability to legally enforce our contractual rights in foreign countries;

difficulties in registering, protecting or preserving trade names and trademarks in foreign countries;

restrictions on the ability to obtain or retain licenses required for operation;

foreign exchange restrictions;

withholding and other taxes on remittances and other payments by subsidiaries; and

changes in foreign taxation structures.

*We are subject to certain risks related to litigation filed by or against us, and adverse results may harm our business and financial condition.*

## Edgar Filing: REALOGY CORP - Form S-1

We cannot predict with certainty the cost of defense, the cost of prosecution, insurance coverage or the ultimate outcome of litigation and other proceedings filed by or against us, including remedies or damage awards, and adverse results in such litigation and other proceedings may harm our business and financial condition. Such litigation and other proceedings may include, but are not limited to, actions relating to intellectual property, commercial arrangements, franchising arrangements, actions against our title company alleging it knew or should have known that others were committing mortgage fraud, standard brokerage disputes like the failure to disclose hidden defects in the property such as mold, vicarious liability based upon conduct of individuals or entities outside of our control, including franchisees and independent sales associates, antitrust claims, general fraud claims, and employment law, including claims challenging the classification of our sales associates as independent contractors. In the case of intellectual property litigation and proceedings, adverse outcomes could include the cancellation, invalidation or other loss of material intellectual property rights used in our business and injunctions prohibiting our use of business processes or technology that is subject to third party

---

**Table of Contents**

patents or other third party intellectual property rights. In addition, we may be required to enter into licensing agreements (if available on acceptable terms or at all) and pay royalties.

In 2002, Frank K. Cooper Real Estate #1, Inc. filed a putative class action (the Cooper Litigation) against Cendant and Cendant's subsidiary, Century 21 Real Estate Corporation (Century 21). The complaint alleges breach of certain provisions of the Real Estate Franchise Agreement entered into between Century 21 and the plaintiffs, breach of the implied duty of good faith and fair dealing, violation of the New Jersey Consumer Fraud Act and breach of certain express and implied fiduciary duties. The complaint alleges, among other things, that Cendant diverted money and resources from Century 21 franchisees and allotted them to NRT owned brokerages and otherwise improperly charged expenses to advertising funds. The complaint seeks unspecified compensatory and punitive damages, injunctive relief, interest, attorney's fees and costs. The New Jersey Consumer Fraud Act provides for treble damages, attorney's fees and costs as remedies for violation of the Act. On August 17, 2010, the court granted plaintiffs' renewed motion to certify a class. The certified class includes Century 21 franchisees at any time between August 1, 1995 and April 17, 2002 whose franchise agreements contain New Jersey choice of law and venue provisions and who have not executed releases releasing the claim (unless the release was a provision of a franchise renewal agreement).

A case management order was entered on November 29, 2010 that includes, among other deadlines, a trial date of April 16, 2012. On December 20, 2010, the court held a status conference to address plaintiffs' motion regarding notice to be issued to the class, the language of the notice, publication of the notice and how class members can opt out of the class. As directed by a court order, Century 21 has delivered to plaintiffs' counsel and Rust Consulting, Inc. (the Notice Administrator) lists of the names and contact information for (1) franchisees that meet the class definition and (2) franchisees that would have met the class definition but for the fact that they signed a waiver of claims against Century 21. Pursuant to the court order, the Notice Administrator has advised us that the notice of pendency of the action was mailed to possible class members on March 4, 2011, and a summary of that notice will be published in various print and online media. This case remains in its very early stages, with most of the effort in the past six months directed at class identification. Discovery on the merits is ongoing. This class action involves substantial, complex litigation. Class action litigation is inherently unpredictable and subject to significant uncertainties. The resolution of the Cooper Litigation could result in substantial losses and we cannot assure you that such resolution will not have a material adverse effect on our results of operations, financial condition or liquidity.

***We are reliant upon information technology to operate our business and maintain our competitiveness, and any disruption or reduction in our information technology capabilities could harm our business.***

Our business depends upon the use of sophisticated information technologies and systems, including technology and systems utilized for communications, records of transactions, procurement, call center operations and administrative systems. The operation of these technologies and systems is dependent upon third party technologies, systems and services, for which there are no assurances of continued or uninterrupted availability and support by the applicable third party vendors on commercially reasonable terms. We also cannot assure you that we will be able to continue to effectively operate and maintain our information technologies and systems. In addition, our information technologies and systems are expected to require refinements and enhancements on an ongoing basis, and we expect that advanced new technologies and systems will continue to be introduced. We may not be able to obtain such new technologies and systems, or to replace or introduce new technologies and systems as quickly as our competitors or in a cost-effective manner. Also, we may not achieve the benefits anticipated or required from any new technology or system, and we may not be able to devote financial resources to new technologies and systems in the future.

In addition, our information technologies and systems are vulnerable to damage or interruption from various causes, including (1) natural disasters, war and acts of terrorism, (2) power losses, computer systems failure, Internet and telecommunications or data network failures, operator error, losses and corruption of data, and similar events and (3) computer viruses, penetration by individuals seeking to disrupt operations or

---

**Table of Contents**

misappropriate information and other physical or electronic breaches of security. We maintain certain disaster recovery capabilities for critical functions in most of our businesses, including certain disaster recovery services from International Business Machines Corporation. However, these capabilities may not successfully prevent a disruption to or material adverse effect on our businesses or operations in the event of a disaster or other business interruption. Any extended interruption in our technologies or systems could significantly curtail our ability to conduct our business and generate revenue. Additionally, our business interruption insurance may be insufficient to compensate us for losses that may occur.

***We do not own two of our brands and must manage cooperative relationships with both owners.***

The Sotheby's International Realty® and Better Homes and Gardens® real estate brands are owned by the companies that founded these brands. We are the exclusive party licensed to run brokerage services in residential real estate under those brands, whether through our franchisees or our company owned operations. Our future operations and performance with respect to these brands requires the continued cooperation from the owners of those brands. In particular, Sotheby's has the right to approve the master franchisors of, and the material terms of our master franchise agreements governing our relationships with, our Sotheby's franchisees located outside the U.S., which approval cannot be unreasonably withheld or delayed. If Sotheby's unreasonably withholds or delays its approval for new international master franchisors, our relationship with them could be disrupted. Any significant disruption of the relationships with the owners of these brands could impede our franchising of those brands and have a material adverse effect on our operations and performance.

***The weakening or unavailability of our intellectual property rights could adversely impact our business.***

Our trademarks, trade names, domain names, trade dress and other intellectual property rights are fundamental to our brands and our franchising business. The steps we take to obtain, maintain and protect our intellectual property rights may not be adequate and, in particular, we may not own all necessary registrations for our intellectual property. Applications we have filed to register our intellectual property may not be approved by the appropriate regulatory authorities. Our intellectual property rights may not be successfully asserted in the future or may be invalidated, circumvented or challenged. We may be unable to prevent third parties from using our intellectual property rights without our authorization or independently developing technology that is similar to ours. Also third parties may own rights in similar trademarks. Any unauthorized use of our intellectual property by third parties could reduce any competitive advantage we have developed or otherwise harm our business and brands. If we had to litigate to protect these rights, any proceedings could be costly, and we may not prevail. Our intellectual property rights, including our trademarks, may fail to provide us with significant competitive advantages in the U.S. and in foreign jurisdictions that do not have or do not enforce strong intellectual property rights.

We cannot be certain that our intellectual property does not and will not infringe issued intellectual property rights of others. We may be subject to legal proceedings and claims in the ordinary course of our business, including claims of alleged infringement of the patents, trademarks and other intellectual property rights of third parties. Any such claims, whether or not meritorious, could result in costly litigation. Depending on the success of these proceedings, we may be required to enter into licensing or consent agreements (if available on acceptable terms or at all), or to pay damages or cease using certain service marks or trademarks.

We franchise our brands to franchisees. While we try to ensure that the quality of our brands is maintained by all of our franchisees, we cannot assure that these franchisees will not take actions that hurt the value of our intellectual property or our reputation.

Our license agreement with Sotheby's for the use of the Sotheby's International Realty® brand is terminable by Sotheby's prior to the end of the license term if certain conditions occur, including but not limited to the following: (1) we attempt to assign any of our rights under the license agreement in any manner not permitted under the license agreement, (2) we become bankrupt or insolvent, (3) a court issues a non-appealable, final

---

**Table of Contents**

judgment that we have committed certain breaches of the license agreement and we fail to cure such breaches within 60 days of the issuance of such judgment, or (4) we discontinue the use of all of the trademarks licensed under the license agreement for a period of twelve consecutive months.

Our license agreement with Meredith for the use of the Better Homes and Gardens® real estate brand is terminable by Meredith prior to the end of the license term if certain conditions occur, including but not limited to the following: (i) we attempt to assign any of our rights under the license agreement in any manner not permitted under the license agreement, (ii) we become bankrupt or insolvent, or (iii) a trial court issues a final judgment that we are in material breach of the license agreement or any representation or warranty we made was false or materially misleading when made.

***Our ability to use our NOLs and other tax attributes may be limited if we undergo an ownership change.***

Our ability to utilize our net operating losses ( NOLs ) and other tax attributes could be limited if we undergo an ownership change within the meaning of Section 382 of the Internal Revenue Code of 1986, as amended (the Code ). An ownership change is generally defined as a greater than 50 percentage point increase in equity ownership by five-percent shareholders in any three-year period. Under certain circumstances, convertible debt that is not yet converted may nevertheless be treated as converted for purposes of testing for an ownership change. It is possible that an ownership change results by virtue of the resale of notes pursuant to this prospectus, the conversion of the notes, future equity issuances, or the cumulative effect of such transactions and the Debt Exchange Offering.

**Risks Related to Realogy's Separation from Cendant**

***We are responsible for certain of Cendant's contingent and other corporate liabilities.***

Under the Separation and Distribution Agreement dated July 27, 2006 (the Separation and Distribution Agreement ) among Realogy, Cendant Corporation ( Cendant ), which changed its name to Avis Budget Group, Inc. ( Avis Budget ) in August 2006, Wyndham Worldwide Corporation ( Wyndham Worldwide ) and Travelport Inc. ( Travelport ), and other agreements, subject to certain exceptions contained in the Tax Sharing Agreement dated as of July 28, 2006, as amended, among Realogy, Wyndham Worldwide and Travelport, Realogy and Wyndham Worldwide have each assumed and are generally responsible for 62.5% and 37.5%, respectively, of certain of Cendant's contingent and other corporate liabilities not primarily related to the businesses of Travelport, Realogy, Wyndham Worldwide or Avis Budget Group. The due to former parent balance was \$104 million at December 31, 2010 and represents Realogy's accrual of its share of potential Cendant contingent and other corporate liabilities.

If any party responsible for Cendant contingent and other corporate liabilities were to default in its payment, when due, of any such assumed obligations related to any such contingent and other corporate liability, each non-defaulting party (including Cendant) would be required to pay an equal portion of the amounts in default. Accordingly, Realogy may, under certain circumstances, be obligated to pay amounts in excess of its share of the assumed obligations related to such contingent and other corporate liabilities, including associated costs and expenses.

Adverse outcomes from the unresolved Cendant liabilities for which Realogy has assumed partial liability under the Separation and Distribution Agreement could be material with respect to our earnings or cash flows in any given reporting period.

**Table of Contents**

**FORWARD-LOOKING STATEMENTS**

Forward-looking statements in this prospectus or other public statements are subject to known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or other public statements. These forward-looking statements were based on various facts and were derived utilizing numerous important assumptions and other important factors, and changes in such facts, assumptions or factors could cause actual results to differ materially from those in the forward-looking statements. Forward-looking statements include the information concerning our future financial performance, business strategy, projected plans and objectives, as well as projections of macroeconomic trends, which are inherently unreliable due to the multiple factors that impact economic trends, and any such variations may be material. Statements preceded by, followed by or that otherwise include the words believes, expects, anticipates, intends, projects, estimates, plans, and similar expressions or future or conditional verbs such as will, should, would, may and could are generally forward-looking in nature and not historical facts. You should understand that the following important factors could affect our future results and cause actual results to differ materially from those expressed in the forward-looking statements:

our substantial leverage as a result of Realogy's April 2007 acquisition by affiliates of Apollo and the related financings (the Merger Transactions). Since 2007, we have needed to incur additional debt in order to fund negative cash flows. After giving effect to the Refinancing Transactions, as of December 31, 2010, our total debt (excluding the securitization obligations) would have been \$7,007 million. The industry and economy have experienced significant declines since the time of the Merger Transactions that have negatively impacted our operating results. As a result, we have been, and continue to be, challenged by our heavily leveraged capital structure;

if we experience an event of default under the senior secured credit facility, including but not limited to a failure to maintain, or a failure to cure a default of, the applicable senior secured leverage ratio under such facility, or under our indentures or relocation securitization facilities or a failure to meet our cash interest obligations under these instruments or other lack of liquidity caused by substantial leverage and the adverse conditions in the housing market, such an event would materially and adversely affect our financial condition, results of operations and business;

under the senior secured credit facility, the senior secured leverage ratio limit of total senior secured net debt to trailing 12-month Adjusted EBITDA, as defined herein, was 5.0 to 1 at December 31, 2010 and the ratio limit steps down to 4.75 to 1 on March 31, 2011 and thereafter. For the fiscal year ended December 31, 2010, we were in compliance with the senior secured leverage ratio covenant with a ratio of 4.59 to 1.0. After giving effect to the Refinancing Transactions, our senior secured leverage ratio would have been 3.51 to 1.0 at December 31, 2010. While the housing market in 2010 showed signs of stabilization, in part due to government actions designed to bolster the housing market, there remains substantial uncertainty with respect to the timing and scope of a housing recovery and if a housing recovery is delayed or is weak, we may be subject to additional pressure in maintaining compliance with our senior secured leverage ratio;

adverse developments or the absence of sustained improvement in general business, economic, employment and political conditions;

adverse developments or the absence of improvement in the residential real estate markets, either regionally or nationally, including but not limited to:

a lack of sustained improvement in the number of homesales, further declines in home prices and/or a deterioration in other economic factors that particularly impact the residential real estate market and the business segments in which we operate;

a lack of improvement in consumer confidence;

Edgar Filing: REALOGY CORP - Form S-1

the impact of ongoing or future recessions, slow economic growth and high levels of unemployment in the U.S. and abroad;

**Table of Contents**

increasing mortgage rates and down payment requirements and/or reduced availability of mortgage financing, including but not limited to the potential impact of various provisions of the Dodd-Frank Act and regulations which may be promulgated thereunder relating to mortgage financing, including restrictions imposed on mortgage originators as well as retention levels required to be maintained by sponsors to securitize mortgages;

legislative, tax or regulatory changes that would adversely impact the residential real estate market, including but not limited to potential reform relating to Fannie Mae, Freddie Mac and other government sponsored entities that provide liquidity to the U.S. housing and mortgage markets;

negative trends and/or a negative perception of the market trends in value for residential real estate;

continuing high levels of foreclosure activity including but not limited to the release of homes for sale by financial institutions and the uncertainty surrounding the appropriateness of mortgage servicers, foreclosure processes;

excessive or insufficient regional home inventory levels;

the inability or unwillingness of homeowners to enter into homesale transactions due to negative equity in their existing homes;

lower homeownership rates in the U.S. due to various factors, including, but not limited to, high unemployment levels, reduced demand or preferred use by households of rental housing due in part to uncertainty regarding future home values;

our geographic and high-end market concentration relating in particular to our company-owned brokerage operations; and

local and regional conditions in the areas where our franchisees and brokerage operations are located;

the impact an increase in interest rates would have on certain of our borrowings that have variable interest and the related increase in our debt service costs that would result therefrom;

limitations on flexibility in operating our business due to restrictions contained in our debt agreements;

our inability to sustain the improvements we have realized during the past several years in our operating efficiency through cost savings and business optimization efforts;

our inability to access capital and/or to securitize certain assets of our relocation business, either of which would require us to find alternative sources of liquidity, which may not be available, or if available, may not be on favorable terms;

any remaining resolutions or outcomes with respect to Cendant's contingent and corporate tax liabilities under the Separation and Distribution Agreement and the Tax Sharing Agreement, including any adverse impact on our future cash flows;

## Edgar Filing: REALOGY CORP - Form S-1

competition in our existing and future lines of business, including, but not limited to, higher costs to retain or attract sales agents for residential real estate brokerages, and the financial resources of competitors;

our failure to comply with laws and regulations and any changes in laws and regulations;

adverse effects of natural disasters or environmental catastrophes;

our failure to enter into or renew franchise agreements, maintain franchisee satisfaction with our brands or the inability of franchisees to survive the most recent real estate downturn;

disputes or issues with entities that license us their trade names for use in our business that could impede our franchising of those brands;

**Table of Contents**

actions by our franchisees that could harm our business or reputation, non-performance of our franchisees or controversies with our franchisees;

the loss of any of our senior management or key managers or employees;

the cumulative effect of adverse litigation or arbitration awards against us and the adverse effect of new regulatory interpretations, rules and laws, including any changes that would (1) require classification of independent contractors to employee status, (2) place additional limitations or restrictions on affiliated transactions, which would have the effect of limiting or restricting collaboration among our business units, (3) interpret the Real Estate Settlement Procedures Act ( RESPA ) in a manner that would adversely affect our operations and business arrangements, or (4) require significant changes in the manner in which we support our franchisees; and

new types of taxes or increases in state, local or federal taxes that could diminish profitability or liquidity.

Other factors not identified above, including those described under the headings Risk Factors and Management s Discussion and Analysis of Financial Condition and Results of Operations, may also cause actual results to differ materially from those described in our forward-looking statements. Most of these factors are difficult to anticipate and are generally beyond our control. You should consider these factors in connection with considering any forward-looking statements that may be made by us and our businesses generally.

Except for our ongoing obligations to disclose material information under the federal securities laws, we undertake no obligation to release publicly any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events unless we are required to do so by law. For any forward-looking statements contained in our public filings or other public statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

**Table of Contents**

**USE OF PROCEEDS**

We will not receive any proceeds from the sale of the notes and Class A Common Stock issuable upon conversion thereof by the selling securityholders.

**Table of Contents****CAPITALIZATION**

The following table sets forth Realogy's cash and cash equivalents and capitalization as of December 31, 2010 on a historical basis and on an as adjusted basis, after giving effect to the Refinancing Transactions.

You should read this table in conjunction with the information included under the headings "Selected Historical Consolidated and Combined Financial Statements" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this prospectus.

Capitalization (excluding securitization obligations)	As of December 31, 2010	
	Historical	As Adjusted
	(In millions)	
Cash and cash equivalents (1)	\$ 192	\$ 333
Long-term debt (including current portion):

Total capitalization (13)	\$ 5,820	\$ 5,935

- (1) Readily available cash as of December 31, 2010 was \$166 million.
- (2) In connection with the Senior Secured Credit Facility Amendment, certain lenders converted approximately \$98 million of commitments in respect of extended revolving loans to extended term loans, thereby reducing the commitments under the revolving credit facility to \$652 million. Our borrowing availability under our \$652 million revolving credit facility is reduced by outstanding letters of credit. At December 31, 2010, we had no borrowings outstanding on the revolving credit facility. The revolving credit facility includes a \$200 million letter of credit sub-facility which had \$21 million of remaining capacity at December 31, 2010. The available capacity under this facility was reduced by \$79 million and \$100 million of outstanding letters of credit on the non-extended and the extended revolving credit facility, respectively at December 31, 2010. As of March 1, 2011, we had \$60 million outstanding on the revolving credit facility.
- (3) As of December 31, on an as adjusted basis, \$700 million of gross proceeds from the First and a Half Lien Notes would have been utilized to prepay a portion of the outstanding borrowings under the term loan facility and \$98 million capacity under the revolving credit facility would have been converted to Extended term loans to provide additional cash on the balance sheet.
- (4) Consists of revolving credit facilities that are supported by letters of credit issued under the senior secured credit facility, \$5 million is due in April 2011, \$50 million is due in June 2011, \$50 million due November

**Table of Contents**

- 2011, \$50 million is due in January 2013 and \$8 million due in May 2015. In February 2011, the Company repaid \$55 million of outstanding borrowings under these revolving credit facilities that were due in April and June 2011.
- (5) Consists of \$1,700 million face amount of 10.50% Senior Notes, less a discount of \$12 million at December 31, 2010. On an as adjusted basis, the face amount of 10.50% Senior Notes would have decreased to \$64 million and the remaining discount would have been written off.
  - (6) Consists of \$470 million face amount of Senior Toggle Notes less a discount of \$2 million at December 31, 2010. On an as adjusted basis, the face amount of Senior Toggle Notes would have decreased to \$49 million and the remaining discount would have been written off.
  - (7) Consists of \$875 million face amount of 12.375% Senior Subordinated Notes, less a discount of \$11 million at December 31, 2010. On an as adjusted basis, consists of \$190 million face amount of 12.375% Senior Subordinated Notes, less a discount of \$3 million.
  - (8) Consists of \$492 million face amount of 11.50% Senior Notes issued in connection with the Debt Exchange Offering, less a discount of \$4 million.
  - (9) Consists of \$130 million face amount of 12.00% Senior Notes issued in connection with the Debt Exchange Offering, less a discount of \$1 million.
  - (10) Consists of \$10 million face amount of 13.375% Senior Subordinated Notes issued in connection with the Debt Exchange Offering.
  - (11) Consists of \$2,110 million face amount of notes issued in connection with the Debt Exchange Offering.
  - (12) As a result of the consummation of the Debt Exchange Offering in January 2011, we expect to write off approximately \$18 million of note discounts and approximately \$10 million of deferred financing costs on the Existing Notes. We expect to have a write off for deferred financing costs in the first quarter of 2011 due to the prepayment of \$700 million of borrowings pursuant to the Senior Secured Credit Facility Amendment.
  - (13) Total capitalization excludes our securitization obligations which are collateralized by relocation related assets and are included in our current liabilities.

**Table of Contents**

**DIVIDEND POLICY**

Holdings has not historically paid any dividends to its shareholders and does not expect to pay dividends on the Class A Common Stock in the foreseeable future, although it reserves the right to do so. We anticipate that all of our earnings in the foreseeable future will be used for the operation and growth of our business.

Any future determination to pay dividends on the Class A Common Stock will be at the discretion of the Holdings Board and will depend upon many factors, including our financial position, results of operations, liquidity, legal requirements and other factors deemed relevant by the Holdings Board.

Holdings' ability to pay dividends is dependent on cash dividends from its subsidiaries as well as certain restrictions contained in the Paulson Securityholders Agreement (as defined below). Covenants under the senior credit facility and indentures also place restrictions on Realogy's ability to pay dividends. See Management's Discussion and Analysis of Financial Condition and Results of Operations and Certain Relationships and Related Party Transactions.

**Table of Contents**

**DETERMINATION OF OFFERING PRICE**

As of the date of this prospectus, there is no established public trading market for the Class A Common Stock. The selling securityholders may sell their notes and Class A Common Stock issuable upon conversion thereof from time to time at the prevailing market prices at the time of the sale or at privately negotiated prices. See Plan of Distribution in this prospectus.

The conversion prices of the notes were determined by our Board of Directors following negotiations with holders of the Existing Notes in connection with the Debt Exchange Offering by reference to the estimated fair market value of the Class A Common Stock as of November 29, 2010. The conversion prices were based on a premium to the estimated fair market value of the Class A Common Stock and may not bear any relationship to our past, current or future operations, cash flows, net income, current financial condition, the book value of our assets or any other established criteria for value. As a result, the conversion prices of the notes should not be considered as reflective of the actual value of the Class A Common Stock.

**Table of Contents****SELECTED HISTORICAL CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS**

The following table presents our selected historical consolidated financial data and operating statistics. The consolidated statement of operations data for the years ended December 31, 2010, 2009 and 2008 and the consolidated balance sheet data as of December 31, 2010 and 2009 have been derived from our audited consolidated financial statements included in this prospectus. The statement of operations data for the periods from April 10, 2007 through December 31, 2007 and January 1, 2007 through April 9, 2007 and the year ended December 31, 2006 and the consolidated balance sheet data as of December 31, 2008, 2007 and December 31, 2006 have been derived from our consolidated and combined financial statements not included in this prospectus. Holdings, the indirect parent of Realogy, does not conduct any operations other than with respect to its indirect ownership of Realogy. Intermediate, the parent of Realogy, does not conduct any operations other than with respect to its ownership of Realogy. Any expenses related to stock compensation issued by Holdings to the employees or directors of Realogy or franchise taxes incurred by Holdings are recorded in Realogy's financial statements. As a result, there are no material differences between Holdings' and Realogy's financial statements for the years ended December 31, 2010, 2009 and 2008 and no material differences between Intermediate's and Realogy's financial statements for the years ended December 31, 2010, 2009 and 2008.

Although Realogy continued as the same legal entity after the Merger, the financial statements for 2007 are presented for two periods: January 1 through April 9, 2007 (the Predecessor Period or Predecessor, as context requires) and April 10 through December 31, 2007 (the Successor Period or Successor, as context requires), which relate to the period preceding the Merger and the period succeeding the Merger, respectively. The results of the Successor are not comparable to the results of the Predecessor due to the difference in the basis of presentation of purchase accounting as compared to historical cost. In the opinion of management, the statement of operations data for 2007 include all adjustments (consisting only of normal recurring accruals) necessary for a fair presentation of the results of operations as of the dates and for the periods indicated. The results for periods of less than a full year are not necessarily indicative of the results to be expected for any interim period or for a full year.

The selected historical consolidated and combined financial data and operating statistics presented below should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations, and our consolidated financial statements and accompanying notes included in this prospectus.

<b>Other Financial Data:</b>						
Ratio of earnings to fixed charges (1)	1.1x					4.5x
Cash dividends						2,183(2)

- (1) For purposes of computing the ratio of earnings to fixed charges, earnings consist of income before income taxes and non-controlling interests plus fixed charges. Fixed charges consist of interest expense on all indebtedness, including amortization of deferred financing costs, and the portion of rental expense that management believes is representative of the interest factor. In addition, interest expense includes interest incurred related to our securitization obligations. Interest related to these securitization obligations are recorded within net revenues on the consolidated and combined statements of operations as the related borrowings are utilized to fund advances within our relocation business where interest is earned on such advances. The interest related to these securitization obligations was \$7 million, \$12 million and \$46 million for the years ended December 31, 2010, 2009 and 2008, respectively, \$45 million for the period from April 10 through December 31, 2007, \$14 million for the period from January 1 through April 9, 2007 and \$42 million for the year ended December 31, 2006. Our earnings were insufficient to cover fixed charges by approximately \$278 million for the year ended December 31, 2009, approximately \$2,317 million for the year ended December 31, 2008, approximately \$1,229 million for the period from April 10 to December 31, 2007, and by approximately \$65 million for the period from January 1 to April 9, 2007.
- (2) In 2006, \$2,183 million of net distribution payments were made to Cendant related to the separation from Cendant.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**

**OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

*The following discussion and analysis should be read in conjunction with our consolidated financial statements and accompanying notes thereto included elsewhere herein. Unless otherwise noted, all dollar amounts in tables are in millions. Holdings, the indirect parent of Realogy, does not conduct any operations other than with respect to its indirect ownership of Realogy. Any expenses related to stock compensation issued by Holdings to the employees or directors of Realogy or franchise taxes incurred by Holdings are recorded in Realogy's financial statements. As a result, there are no material differences between Holdings' and Realogy's financial statements for the years ended December 31, 2010, 2009 or 2008. This Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements. See *Forward-Looking Statements and Risk Factors* for a discussion of the uncertainties, risks and assumptions associated with these statements. Actual results may differ materially from those contained in any forward-looking statements.*

**Overview**

We are a global provider of real estate and relocation services and report our operations in the following four segments:

**Real Estate Franchise Services** (known as Realogy Franchise Group or RFG) franchises the Century 21, Coldwell Banker®, ERA®, Sotheby's International Realty®, Coldwell Banker Commercial® and Better Homes and Gardens® Real Estate brand names. We launched the Better Homes and Gardens® Real Estate brand in July 2008. As of December 31, 2010, our franchise system had approximately 14,700 franchised and company owned offices and 264,000 independent sales associates operating under our brands in the U.S. and 99 other countries and territories around the world, which included approximately 750 of our company owned and operated brokerage offices with approximately 44,000 independent sales associates. We franchise our real estate brokerage franchise systems to real estate brokerage businesses that are independently owned and operated. We provide operational and administrative services, tools and systems to franchisees, which are designed to assist franchisees in achieving increased revenue and profitability. Such services include national and local advertising programs, listing and agent-recruitment tools, including technology, training and purchasing discounts through our preferred vendor programs. Franchise revenue principally consists of royalty and marketing fees from our franchisees. The royalty received is primarily based on a percentage of the franchisee's commissions and/or gross commission income. Royalty fees are accrued as the underlying franchisee revenue is earned (upon closing of the homesale transaction). Annual volume incentives given to certain franchisees on royalty fees are recorded as a reduction to revenue and are accrued for in relative proportion to the recognition of the underlying gross franchise revenue. Franchise revenue also includes initial franchise fees, which are generally non-refundable and are recognized by us as revenue when all material services or conditions relating to the sale have been substantially performed (generally when a franchised unit opens for business). Royalty increases or decreases are recognized with little corresponding increase or decrease in expenses due to the significant operating efficiency within the franchise operations. In addition to royalties received from our independently owned franchisees, our Company Owned Real Estate Brokerage Services segment pays royalties to the Real Estate Franchise Services segment.

**Company Owned Real Estate Brokerage Services** (known as NRT) operates a full-service real estate brokerage business principally under the Coldwell Banker®, ERA®, Corcoran Group® and Sotheby's International Realty® brand names. As an owner-operator of real estate brokerages, we assist home buyers and sellers in listing, marketing, selling and finding homes. We earn commissions for these services, which are recorded upon the closing of a real estate transaction (i.e., purchase or sale of a home), which we refer to as gross commission income. We then pay commissions to real estate agents, which are recognized concurrently with associated revenues. We also operate a large

---

**Table of Contents**

independent residential REO asset manager. These REO operations facilitate the maintenance and sale of foreclosed homes on behalf of lenders. The profitability of the REO business is countercyclical to the overall state of the housing market and was a meaningful contributor to the 2010, 2009 and 2008 financial results of the Company Owned Real Estate Brokerage segment.

**Relocation Services** (known as Cartus) primarily offers clients employee relocation services such as homesale assistance, home finding and other destination services, expense processing, relocation policy counseling and other consulting services, arranging household goods moving services, visa and immigration support, intercultural and language training and group move management services. We provide relocation services to corporate and government clients for the transfer of their employees. Such services include the purchasing and/or selling of a transferee's home, providing home equity advances to transferees (generally guaranteed by the client), expense processing, arranging household goods moving services, home-finding and other related services. We earn revenues from fees charged to clients for the performance and/or facilitation of these services and recognize such revenue as services are provided. In the majority of relocation transactions, the gain or loss on the sale of a transferee's home is generally borne by the client. For all homesale transactions, the value paid to the transferee is either the value per the underlying third party buyer contract with the transferee, which results in no gain or loss to us, or the appraised value as determined by independent appraisers. We generally earn interest income on the funds we advance on behalf of the transferring employee, which is typically based on prime rate or LIBOR rate and recorded within other revenue (as is the corresponding interest expense on the securitization borrowings) in the Consolidated Statement of Operations as earned until the point of repayment by the client. Additionally, we earn revenue from real estate brokers and other third-party service providers. We recognize such fees from real estate brokers at the time the underlying property closes. For services where we pay a third-party provider on behalf of our clients, we generally earn a referral fee or commission, which is recognized at the time of completion of services.

**Title and Settlement Services** (known as Title Resource Group or TRG) provides full-service title, settlement and vendor management services to real estate companies, affinity groups, corporations and financial institutions with many of these services provided in connection with the Company's real estate brokerage and relocation services business. We provide title and closing services, which include title search procedures for title insurance policies, homesale escrow and other closing services. Title revenues, which are recorded net of amounts remitted to third party insurance underwriters, and title and closing service fees are recorded at the time a homesale transaction or refinancing closes. We provide many of these services to third party clients in connection with transactions generated by our Company Owned Real Estate Brokerage and Relocation Services segments as well as various financial institutions in the mortgage lending industry. We also serve as an underwriter of title insurance policies in connection with residential and commercial real estate transactions.

As discussed under the heading **Current Industry Trends**, the domestic residential real estate market has been in a significant and lengthy downturn. As a result, our results of operations have been, and may continue to be, materially adversely affected.

**July 2006 Separation from Cendant**

Realogy was incorporated on January 27, 2006 to facilitate a plan by Cendant to separate into four independent companies—one for each of Cendant's real estate services, travel distribution services (Travelport), hospitality services (including timeshare resorts) (Wyndham Worldwide) and vehicle rental businesses (Avis Budget Group). Prior to July 31, 2006, the assets of the real estate services businesses of Cendant were transferred to Realogy and, on July 31, 2006, Cendant distributed all of the shares of Realogy's common stock held by it to the holders of Cendant common stock issued and outstanding on the record date for the distribution, which was July 21, 2006 (the Separation). The Separation was effective on July 31, 2006.

---

## **Table of Contents**

Before the Separation, Realogy entered into a Separation and Distribution Agreement, a Tax Sharing Agreement and several other agreements with Cendant and Cendant's other businesses to effect the separation and distribution and provide a framework for Realogy's relationships with Cendant and Cendant's other businesses after the Separation. These agreements govern the relationships among Realogy, Cendant, Wyndham Worldwide and Travelport subsequent to the completion of the separation plan and provide for the allocation among Realogy, Cendant, Wyndham Worldwide and Travelport of Cendant's assets, liabilities and obligations attributable to periods prior to the Separation.

### **April 2007 Merger Agreement with Affiliates of Apollo**

On December 15, 2006, Realogy entered into an agreement and plan of merger with Holdings and Domus Acquisition Corp. which are affiliates of Apollo Management VI, L.P., an entity affiliated with Apollo Management, L.P. Under the merger agreement, Holdings would acquire the outstanding shares of Realogy pursuant to the merger of Domus Acquisition Corp. with and into Realogy, with Realogy being the surviving entity. The Merger was consummated on April 10, 2007. All of Realogy's issued and outstanding common stock is currently owned by Intermediate.

Realogy incurred substantial indebtedness in connection with the transaction, the aggregate proceeds of which were sufficient to pay the aggregate merger consideration, repay a portion of Realogy's then outstanding indebtedness and pay fees and expenses related to the Merger. Specifically, Realogy entered into the senior secured credit facility, issued unsecured notes and refinanced the credit facilities governing Realogy's relocation securitization programs. See **Liquidity and Capital Resources** for additional information on the Merger Transactions. In addition, investment funds affiliated with, or co-investment vehicles managed by, Apollo, as well as members of management who purchased Common Stock with cash or through rollover equity, contributed \$2,001 million to Realogy to complete the Merger Transactions, which was treated as a contribution to Realogy's equity.

### **Refinancing Transactions**

During the past several months, Realogy has completed a series of transactions, referred to herein as the Refinancing Transactions, to refinance both its secured and unsecured indebtedness. The Refinancing Transactions, among other things, have:

extended the maturities on more than 90% of the previously outstanding Existing Notes by at least three years;

provided a mechanism for a potential deleveraging of Realogy's debt through the issuance of \$2.1 billion aggregate principal amount of notes that mature in 2018 and that are convertible at any time, at the holder's option, into Common Stock;

extended the maturities of a significant portion of its first lien senior secured indebtedness from 2013 to 2016 (including 79% of its \$3.1 billion term loan facility);

replaced \$700 million of its first lien secured debt with secured indebtedness due in 2019 that is not included in the numerator of its senior secured leverage ratio, thereby significantly improving Realogy's operating cushion under such ratio and mitigating concerns regarding Realogy maintaining compliance with such ratio for at least the next twelve months; and

maintained access to \$650 million of borrowing under its senior secured revolving credit facilities.

We estimate that our annual cash interest will increase by approximately \$55 million assuming current LIBOR rates and outstanding indebtedness after giving effect to the Refinancing Transactions.

---

**Table of Contents**

***Debt Exchange Offering***

On January 5, 2011, Realogy completed the Debt Exchange Offering relating to its outstanding 10.50% Senior Notes, Senior Toggle Notes and 12.375% Senior Subordinated Notes. Approximately \$2,110 million aggregate principal amount of Existing Notes were tendered for Convertible Notes, which are convertible at the holder's option into Class A Common Stock and approximately \$632 million aggregate principal amount of Existing Notes were tendered for Extended Maturity Notes.

On January 5, 2011, Realogy issued:

\$492 million aggregate principal amount of 11.50% Senior Notes and \$1,144 million aggregate principal amount of Series A Convertible Notes in exchange for \$1,636 million aggregate principal amount of outstanding 10.50% Senior Notes;

\$130 million aggregate principal amount of 12.00% Senior Notes and \$291 million aggregate principal amount of Series B Convertible Notes in exchange for \$421 million aggregate principal amount of outstanding Senior Toggle Notes; and

\$10 million aggregate principal amount of 13.375% Senior Subordinated Notes and \$675 million aggregate principal amount of Series C Convertible Notes in exchange for \$685 million aggregate principal amount of outstanding 12.375% Senior Subordinated Notes.

In addition, upon receipt of the requisite consents from the holders of the 10.50% Senior Notes and Senior Toggle Notes, Realogy amended the respective indentures governing the terms of such notes to remove substantially all of the restrictive covenants and certain other provisions previously contained in those indentures.

As a result of the Debt Exchange Offering, Realogy extended the maturity of approximately \$2,742 million aggregate principal amount of the Unsecured Notes to 2017 and 2018, leaving approximately \$303 million aggregate principal amount of Existing Notes that mature in 2014 and 2015. In addition, pursuant to the terms of the indenture, the notes are redeemable at Realogy's option at a price equal to 90% of the principal amount thereof, plus accrued and unpaid interest to the date of redemption upon a Qualified Public Offering.

Realogy and Holdings have filed a registration statement with the SEC, with respect to a registered offer to exchange each series of Extended Maturity Notes for new registered notes having terms substantially identical in all material respects to the Extended Maturity Notes of the applicable series (except that the new registered notes will not contain terms with respect to additional interest or transfer restrictions).

***Amendment to Senior Secured Credit Facility***

Effective February 3, 2011, Realogy entered into the Senior Secured Credit Facility Amendment and an incremental assumption agreement, which resulted in the following:

certain lenders extended the maturity of a significant portion of first lien term loans, revolving commitments and synthetic letter of credit commitments to October 10, 2016, April 10, 2016, and October 10, 2016, respectively, which extensions resulted in approximately \$2,424 million aggregate principal amount of extended term loans, approximately \$461 million aggregate principal amount of commitments in respect of extended revolving loans and approximately \$171 million aggregate principal amount of extended synthetic letter of credit commitments;

certain lenders simultaneously converted approximately \$98 million aggregate principal amount of revolving commitments in respect of extended revolving loans to extended term loans, thereby reducing the commitments under the revolving credit facility to \$652 million;

## Edgar Filing: REALOGY CORP - Form S-1

the net proceeds of the \$700 million aggregate principal amount of First and a Half Lien Notes, together with cash on hand, were used to prepay \$700 million of the outstanding extended term loans, thereby reducing the aggregate principal amount of extended term loans to \$1,822 million;

**Table of Contents**

the interest rate with respect to the extended term loans was increased by 1.25% from the rate applicable to the non-extended term loans;

the interest rate with respect to the extended revolving loans was increased by 1.0% from the rate applicable to the non-extended revolving loans; and

the fee with respect to the synthetic letter of credit facility was increased by 1.25% from the fee applicable to the non-extended synthetic letter of credit facility.

The Senior Secured Credit Facility Amendment also provides for the following:

allows for one or more future issuances of additional senior secured notes or unsecured notes or loans to prepay Realogy's first lien term loans, to be secured on either a *pari passu* basis with, or junior to, its first lien obligations under the senior secured credit facility;

allows for one or more future issuances of additional senior secured or unsecured notes or loans to prepay Realogy's second lien loans, to be secured on a *pari passu* basis with, or junior to, its second lien loans under the senior secured credit facility;

allows for the incurrence of additional incremental term loans that are secured on a junior basis to the second lien loans in an aggregate amount not to exceed \$350 million; and

provides that debt financing secured by a lien that is junior in priority to the first lien obligations under the senior secured credit facility (including, but not limited to, the First and a Half Lien Notes) will not, subject to certain exceptions, constitute senior secured debt for purposes of calculating the senior secured leverage ratio under the senior secured credit facility.

The extended term loans do not require any scheduled amortization of principal. The non-extended term loan facility will continue to provide for quarterly amortization payments totaling 1% per annum of the principal amount of the non-extended first lien term loans.

***Issuance of First and a Half Lien Notes***

On February 3, 2011, Realogy issued \$700 million aggregate principal amount of First and a Half Lien Notes in a private offering exempt from the registration requirements of the Securities Act. The First and a Half Lien Notes are secured by substantially the same collateral as Realogy's existing secured obligations under the senior secured credit facility, but the priority of the collateral liens securing the First and a Half Lien Notes is (i) junior to the collateral liens securing Realogy's first lien obligations under the senior secured credit facility and (ii) senior to the collateral liens securing Realogy's second lien obligations under the senior secured credit facility.

As discussed above, the net proceeds from the offering of the First and a Half Lien Notes, along with cash on hand, were used to prepay \$700 million of certain of Realogy's first lien term loans that were extended in connection with the Senior Secured Credit Facility Amendment.

**Table of Contents**

As used in this prospectus, the term **Refinancing Transactions** refers to, collectively, (1) the Debt Exchange Offering, (2) the Senior Secured Credit Facility Amendment, and (3) the issuance of First and a Half Lien Notes. After giving effect to the Refinancing Transactions, we estimate that our annual cash interest will increase by approximately \$55 million assuming current LIBOR rates and outstanding indebtedness. For more information related to the Refinancing Transactions, see Note 20, **Subsequent Events** to the consolidated financial statements included in this prospectus as well as the debt table below which gives effect to the Refinancing Transactions as if they occurred on December 31, 2010.

	<b>Expiration Date</b>	<b>Total Capacity</b>	<b>Outstanding Borrowings</b>	<b>Available Capacity</b>

- (1) As of December 31, 2010, there were no outstanding borrowings under the revolving credit facility. The available capacity under this facility was reduced by \$79 million and \$100 million of outstanding letters of credit on the non-extended and the extended revolving credit facility, respectively, at December 31, 2010. As of March 1, 2011, we had \$60 million outstanding on the revolving credit facility.
- (2) Consists of revolving credit facilities that are supported by letters of credit issued under the senior secured credit facility, \$5 million is due in April 2011, \$50 million is due in June 2011, \$50 million due November 2011, \$50 million is due in January 2013 and \$8 million due in May 2015. In February 2011, the Company repaid \$55 million of outstanding borrowings under these revolving credit facilities that were due in April and June 2011.
- (3) Consists of \$190 million of 12.375% Senior Subordinated Notes, less a discount of \$3 million.
- (4) Consists of \$492 million of 11.50% Senior Notes, less a discount of \$4 million.
- (5) Consists of \$130 million of 12.00% Senior Notes, less a discount of \$1 million.
- (6) Available capacity is subject to maintaining sufficient relocation related assets to collateralize these securitization obligations.
- (7) Consists of a £35 million facility which expires in August 2015 and a £5 million working capital facility which expires in August 2011.

## **Table of Contents**

### **Impairment of Goodwill and Intangible Assets**

#### ***2010 and 2009***

During the fourth quarter, Realogy performed its annual impairment analysis of goodwill and unamortized intangible assets. This analysis resulted in no impairment charges for 2010 and 2009.

#### ***2008***

The impairment analysis performed in the fourth quarter of 2008 resulted in an impairment charge for 2008 of \$1,739 million (\$1,523 million, net of income tax benefit). The impairment charge reduced intangible assets by \$384 million and reduced goodwill by \$1,355 million. The impairment charge impacted the Real Estate Franchise Services segment by \$953 million, the Company Owned Real Estate Brokerage services segment by \$162 million, the Relocation Services segment by \$335 million and the Title and Settlement Services segment by \$289 million. In addition, in 2008, the Company recorded impairment charges of \$50 million related to investments in unconsolidated entities.

### **Current Industry Trends**

Our businesses compete primarily in the domestic residential real estate market. This market is cyclical in nature and although it has shown strong growth over the past 37 years, it has been in a significant and prolonged downturn, which initially began in the second half of 2005. Prior to 2005, home prices and the number of homesale transactions rose rapidly in the first half of the decade due to a combination of factors, including (1) increased owner-occupant demand for larger and more expensive homes made possible by unusually favorable financing terms for both prime and sub-prime borrowers, (2) low interest rates, (3) record appreciation in housing prices driven partially by investment speculation, (4) the growth of the mortgage-backed securities market as an alternative source of capital to the mortgage market, and (5) high credit ratings for mortgage backed securities despite increasing inclusion of subprime loans made to buyers relying upon continuing home price appreciation rather than more traditional underwriting standards.

As housing prices rose even higher, the number of U.S. homesale transactions first slowed, then began decreasing in 2006. This declining trend continued from 2006 through the first half of 2009. In certain locations, the number of homesale transactions fell far more dramatically than for the country as a whole the hardest hit areas were those areas that had experienced the greatest speculation and/or year over year price appreciation. The overall slowdown in transaction activity caused a buildup of inventories of housing, particularly at the high end of the market, and an increase in short sale and foreclosure activity. These factors combined with the contraction in the mortgage financing market have contributed to heightened buyer caution regarding timing and pricing. The result has been downward pressure on home prices from 2007 through the present period.

Since the onset of the recession in the U.S. economy in December 2007, the housing market has been impacted by consumer sentiment about the overall state of the economy, particularly consumer anxiety over negative or weak economic growth and high unemployment. The deteriorating conditions in the job market, stock market and consumer confidence in the fourth quarter of 2008 caused a further decrease in homesale transactions through the first half of 2009 and more downward pressure on homesale prices for the full year. Based upon data published by NAR from 2005 to 2010, the number of annual U.S. existing homesale units has declined by 31% and the median price has declined by 21%.

In response to the housing downturn, the U.S. government implemented certain actions during the past several years to assist in a stabilization and/or a recovery of the residential real estate market. These measures have included: (1) the placement of Fannie Mae and Freddie Mac in conservatorship in September 2008 and the funding of over \$130 billion to these entities to backstop shortfalls in their capital requirements; (2) the establishment, and subsequent expansion and extension, of a federal homebuyer tax credit for qualified buyers (that, as extended, required signed contracts on or before April 30, 2010); (3) as part of a broader plan to bring

---

**Table of Contents**

stability to credit markets and stimulate the housing market, the purchase of mortgage-backed securities by the Federal Reserve in an attempt to maintain low mortgage rates (the first phase of which ended on March 31, 2010); (4) the continuation of the 2008 higher loan limits for FHA, Freddie Mac and Fannie Mae loans through September 30, 2011; and (5) the availability of low-cost refinancing through Fannie Mae and Freddie Mac to certain homeowners negatively impacted by falling home prices, encouraging lenders, through government financial incentives, to modify loan terms with borrowers at risk of foreclosure or already in foreclosure.

The residential real estate market benefited from the federal homebuyer tax credit, which was included in the American Recovery and Reinvestment Act of 2009 (enacted in February 2009). The Act made available a tax credit equal to 10% of the home's purchase price up to a maximum of \$8,000 to qualified first-time home buyers for the purchase of a principal residence on or after January 1, 2009 and before December 1, 2009. The homebuyer tax credit was extended and modified under The Worker, Homeownership and Business Assistance Act of 2009 (enacted in November 2009). The homebuyer tax credit available to qualified first-time home buyers was extended and the tax credit was expanded to provide a tax credit equal to 10% of the home's purchase price, up to a maximum of \$6,500, for qualified move-up buyers. The program ended for homes under contract by April 30, 2010 and closed no later than September 30, 2010.

During the second half of 2009, homesale transactions increased on a year-over-year basis due in part to modest economic growth, an improvement in the stock market from its March 2009 lows, gradually improving consumer confidence (though it remained at relatively low levels) and the effect of government stimulus including the homebuyer tax credit and monetary policies. The increase in homesale transactions continued in the first half of 2010 and was positively impacted by the extension of the federal homebuyer tax credit, historically low mortgage rates and a high housing affordability index. After June 30, 2010, we saw a substantial decrease in consumer buying activity, particularly in the low and moderate price ranges. We believe this was due to the pull-forward of activity from the third quarter of 2010 into the second quarter and continuing economic uncertainty, high unemployment and relatively low levels of consumer confidence. These factors adversely impacted our results in both the third and fourth quarters of 2010.

Interest rates continue to be at low levels by historical standards, which we believe has helped stimulate demand in the residential real estate market, thereby reducing the rate of sales volume decline. According to Freddie Mac, interest rates on commitments for fixed-rate first mortgages have decreased from an annual average of 6.0% in 2008 to an annual average of 4.7% in 2010. Offsetting some of the favorable impact of lower interest rates are conservative mortgage underwriting standards, increased down payment requirements and limited or negative equity in homes in certain markets.

According to NAR, the inventory of existing homes for sale is 3.6 million homes at December 2010 compared to 3.3 million homes at December 2009. The December 2010 inventory level represents a seasonally adjusted 8.2 months supply. The supply remains higher than the historical average and could increase due to the release of homes for sale by financial institutions. These factors could continue to add downward pressure on the price of existing homesales.

Recently, banks and other lenders have come under investigations for alleged improper support for foreclosure actions. As a result, the foreclosure process in many areas has slowed and may face ongoing disruption. These foreclosure developments could reduce the level of homesales and could, once these homes reemerge on the market, add additional downward pressure on the price of existing homesales.

***Recent Legislative and Regulatory Matters***

*Dodd-Frank Act.* On July 21, 2010, the Dodd-Frank Act was signed into law for the express purpose of regulating the financial services industry. The Dodd-Frank Act establishes an independent federal bureau of consumer financial protection to enforce laws involving consumer financial products and services, including mortgage finance. The bureau is empowered with examination and enforcement authority. The Dodd-Frank Act

**Table of Contents**

also establishes new standards and practices for mortgage originators, including determining a prospective borrower's ability to repay their mortgage, removing incentives for higher cost mortgages, prohibiting prepayment penalties for non-qualified mortgages, prohibiting mandatory arbitration clauses, requiring additional disclosures to potential borrowers and restricting the fees that mortgage originators may collect. While we are continuing to evaluate all aspects of the Dodd-Frank Act, such legislation and regulations promulgated pursuant to such legislation as well as other legislation that may be enacted to reform the U.S. housing finance market could materially and adversely affect the mortgage and housing industries, result in heightened federal regulation and oversight of the mortgage and housing industries, increase mortgage costs and result in increased costs and potential litigation for housing market participants.

Certain provisions of the Dodd-Frank Act may impact the operation and practices of Fannie Mae, Freddie Mac and other government sponsored entities, or GSEs, and require sponsors of securitizations to retain a portion of the economic interest in the credit risk associated with the assets securitized by them. Federal regulators have been authorized to provide exceptions to the risk retention requirements for certain qualified mortgages and mortgages meeting certain underwriting standards prescribed in such regulations, however, it is unclear what types of mortgage loans will be encompassed by future regulations related to the definition of qualified mortgages. If mortgage loans originated for purchasers of homes are sold into GSE-sponsored mortgage-backed securities that do not meet the definition of a qualified mortgage, then the GSEs may be required to retain a portion of the risk of assets they securitize, which may in turn substantially reduce or eliminate the GSEs' ability to issue mortgage-backed securities. Substantial reduction in, or the elimination of, GSE demand for mortgage loans could have a material adverse effect on the mortgage industry and the housing industry in general. It is also unclear what effect future laws or regulations may have on the ability of the GSEs to issue mortgage-backed securities.

*Potential Reform of U.S. Housing Finance Market and Potential Wind-down of Freddie Mac and Fannie Mae.* Congress has recently held hearings on the future of Freddie Mac and Fannie Mae and other government sponsored entities or GSEs with a view towards further legislative reform. On February 11, 2011, the Obama Administration issued a report to the U.S. Congress outlining proposals to reform the U.S. housing finance market, among other things, reform designed to reduce government support for housing finance and the winding down of Freddie Mac and Fannie Mae over a period of years. Numerous pieces of legislation seeking various types of reform for the GSEs have been introduced recently in Congress. Two significant questions that need to be addressed in any such reform are: (1) will banks and other private sources of capital be able to fill homebuyers' needs as the government seeks to pull back some of the housing mortgage market support and (2) will these other sources of capital be available at rates which are reasonably attractive to potential homebuyers. Legislation, if enacted, which curtails Freddie Mac and/or Fannie Mae's activities and/or results in the wind down of these entities could increase mortgage costs and could result in more stringent underwriting guidelines imposed by lenders, either of which could materially adversely affect the housing market in general and our operations in particular. Given the current uncertainty with respect to the extent, if any, of such reform, it is difficult to predict either the long-term or short-term impact of government action that may be taken.

\*\*\*

We believe that long-term demand for housing and the growth of our industry is primarily driven by affordability, the economic health of the domestic economy, positive demographic trends such as population growth, increasing household formation, interest rate trends and locally based dynamics such as housing demand relative to housing supply. While the housing market in 2010 showed signs of stabilization, there remains substantial uncertainty with respect to the timing and scope of a housing recovery. Factors that may negatively affect a housing recovery include:

higher mortgage rates as well as reduced availability of mortgage financing;

lower unit sales, in the absence of the federal homebuyer tax credit and the current uncertainty with respect to foreclosures and limited or negative equity in homes;

**Table of Contents**

lower average homesale price, particularly if banks and other mortgage servicers liquidate foreclosed properties that they are currently holding;

continuing high levels of unemployment;

unsustainable economic recovery in the U.S. or, if sustained, a recovery resulting in only modest economic growth;

a lack of stability or improvement in home ownership levels in the U.S.; and

legislative or regulatory reform, including but not limited to reform that materially adversely impacts the financing of the U.S. housing market.

Consequently, we cannot predict when the residential real estate industry will return to a period of stabilization and sustainable growth. Moreover, if the residential real estate market or the economy as a whole does not improve, we may experience further adverse effects on our business, financial condition and liquidity, including our ability to access capital.

Many of the trends impacting our businesses that derive revenue from homesales also impact our Relocation Services business, which is a global provider of outsourced employee relocation services. In addition to general residential housing trends, key drivers of our Relocation Services business are corporate spending and employment trends which have shown signs of stabilization in 2010; however, there can be no assurance that corporate spending on relocation services will return to previous levels following any economic recovery.

**Homesales**

Existing homesale transactions declined from 2006 through the first half of 2009. During the second half of 2009, the homebuyer tax credit positively impacted the number of transactions in many markets nationwide. We believe the third quarter of 2010 was challenged by the pull-forward of sales into the second quarter of 2010 due to the expiration of the 2010 tax credit as well as the continued weak economic conditions and high unemployment. Homesale transactions in the fourth quarter of 2010 continued to decline compared to the prior year fourth quarter as a result of the lapse of the 2010 federal homebuyer tax credit and due to increased transaction volume in late 2009 due to the 2009 federal homebuyer tax credit program.

	2010 vs. 2009			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
<b>Number of Homesales</b>				
<b>Industry</b>				
NAR (a)	12%	17%	(21%)	(20%)
Fannie Mae (a)	12%	17%	(21%)	(20%)
<b>Realogy</b>				
Real Estate Franchise Services	8%	11%	(19%)	(20%)
Company Owned Real Estate Brokerage Services	11%	16%	(25%)	(20%)

(a) Existing homesale data is as of the most recent NAR and Fannie Mae press release.

**Table of Contents**

The annual year over year trend in homesale transactions is as follows:

	2010 vs. 2009	2009 vs. 2008	2008 vs. 2007
<b>Number of Homesales</b>			
<b>Industry</b>			
NAR	(5%) (a)	5%	(13%)
Fannie Mae	(5%) (a)	5%	(13%)
<b>Realogy</b>			
Real Estate Franchise Services	(6%)	(1%)	(18%)
Company Owned Real Estate Brokerage Services	(7%)	%	(16%)

(a) Existing homesale data is as of the most recent NAR and Fannie Mae press release.

Existing homesale transactions were reported by NAR to be down 5% in 2010, or approximately 4.9 million homes for 2010 compared to 5.2 million homes in 2009 and 4.9 million homes in 2008. Results for the Company were consistent with NAR's reported industry trend as our homesale activity improved in the first and second quarters and then declined in the third and fourth quarters of 2010.

As of their most recent releases, NAR is forecasting a 7% increase in existing homesale transactions for 2011 compared to 2010, and a 6% increase in existing homesale transactions for 2012 compared to 2011. Fannie Mae is forecasting a 6% increase in existing homesale transactions for 2011 compared to 2010 and a 7% increase in existing homesale transactions for 2012 compared to 2011.

The table below shows NAR and Fannie Mae's forecast of homesale transactions for the four quarters of 2011 compared to 2010. As shown in the quarterly trend noted below, the first and second quarters of 2011 are expected to reflect year over year declines, while the third and fourth quarters of 2011 are expected to show significant year over year improvements. This anomaly is the result of the expiration of the homebuyer tax credit in mid 2010, which resulted in an unusual pattern of homesale activity throughout 2010. Homesale activity was pulled forward into the first half of 2010. This unusual pattern of activity in 2010 creates atypical year over year comparisons in 2011 when we expect homesale transactions to return to a more normal seasonal pattern.

	2011 vs. 2010			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
<b>Number of Homesales</b>				
NAR (a)	(2%)	(6%)	27%	14%
Fannie Mae (a)	(1%)	(7%)	26%	11%

(a) Existing homesale data is as of the most recent NAR and Fannie Mae press release.

**Table of Contents**

The table below shows NAR's estimate of seasonally adjusted annualized existing homesale transactions for the months of June 2010 through January 2011. As noted below, seasonally adjusted annualized existing homesale transactions dropped 26% from June to July, which we believe was based on the pull-forward of activity from the third quarter of 2010 to the second quarter of 2010 as a result of the federal homebuyer tax credit. However, the seasonally adjusted annualized existing homesale transactions increased an average of 3.6% per month from July 2010 (after the expiration of the tax credit) to February 2011.

	Seasonally Adjusted Annualized Unit Homesales	Sequential Month over Month Change
June 2010	5,230,000	(8%)
July 2010	3,860,000	(26%)
August 2010	4,240,000	10%
September 2010	4,410,000	4%
October 2010	4,380,000	(1%)
November 2010	4,640,000	6%
December 2010	5,220,000	13%
January 2011	5,400,000	3%
February 2011	4,880,000	(10%)

**Homesale Price**

Based upon information published by NAR, the national median price of existing homes sold increased from 2001 to 2005 at a compound annual growth rate, or CAGR, of 7.3% compared to a CAGR of 3.0% from 1972 to 2000. According to NAR, the rate of increase slowed significantly in 2006 and declined in 2007, 2008 and 2009. In 2009 the decrease in average homesale price for the Company Owned Real Estate Brokerage Services segment was impacted by a higher level of REO and short sale activity as well as a meaningful shift in the mix and volume of its overall homesale activity from higher price points to lower price points. In 2010, the percentage increase in the average price of homes brokered by our franchisees and company owned offices significantly outperformed the percentage change in median home price reported by NAR, due to the geographic areas they serve as well as a greater impact from increased activity in the mid and higher price point areas and less REO activity in our company owned offices compared to the prior year comparable quarters.

	2010 vs. 2009			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
<b>Price of Homes</b>				
<b>Industry</b>				
NAR (a)	(1%)	1%	(1%)	(1%)
Fannie Mae (a)	(1%)	1%	(1%)	(1%)
<b>Realogy</b>				
Real Estate Franchise Services	3%	5%	4%	5%
Company Owned Real Estate Brokerage Services	17%	12%	12%	9%

(a) Existing homesale price data is for median price and is as of the most recent NAR and Fannie Mae press release.

**Table of Contents**

The annual year over year trend in the price of homes is as follows:

	2010 vs. 2009	2009 vs. 2008	2008 vs. 2007
<b>Price of Homes</b>			
<b>Industry</b>			
NAR	%(a)	(13%)	(10%)
Fannie Mae	%(a)	(13%)	(10%)
<b>Realogy</b>			
Real Estate Franchise Services	4%	(11%)	(7%)
Company Owned Real Estate Brokerage Services	11%	(18%)	(10%)

(a) Existing homesale price data is for median price and is as of the most recent NAR and Fannie Mae press release.

With respect to homesale prices, NAR's most recent release is forecasting median homesale prices for 2011 compared to 2010 to decrease 1% and increase 3% for 2012 compared to 2011. However, Fannie Mae's most recent forecast shows a 2% decrease in median homesale price for 2011 compared to 2010 followed by a 1% increase for 2012 compared to 2011.

\*\*\*

While NAR and Fannie Mae are two indicators of the direction of the residential housing market, we believe that homesale statistics will continue to vary between us and NAR and Fannie Mae because they use survey data in their historical reports and forecasting models whereas we use data based on actual reported results. In addition to the differences in calculation methodologies, there are geographical differences and concentrations in the markets in which we operate versus the national market. For instance, comparability is impaired due to NAR's utilization of seasonally adjusted annualized rates whereas we report actual period over period changes and their use of median price for their forecasts compared to our average price. Additionally, NAR data is subject to periodic review and revision. NAR has recently issued a press release disclosing that it is engaged in a review of its sampling and methodology processes with respect to existing homesale data to ensure accuracy. NAR expects to conclude this analysis and publish any revisions in the summer of 2011. Any such changes could result in downward revisions of NAR's historical survey data but would have no impact on our reported financial results or driver information. While we believe that the industry data presented herein are derived from the most widely recognized sources for reporting U.S. residential housing market statistical data, we do not endorse or suggest reliance on this data alone but provide the data as a benchmark for the industry. We also note that forecasts are inherently uncertain or speculative in nature and actual results for any period may materially differ. See Market and Industry Data and Forecasts for a further discussion of the industry data and forecasts used in this prospectus.

**Housing Affordability Index**

According to NAR, the housing affordability index has continued to improve as a result of the homesale price declines which began in 2007. An index above 100 signifies that a family earning the median income has more than enough income to qualify for a mortgage loan on a median-priced home, assuming a 20 percent down payment. The housing affordability index improved to 174 for 2010 compared to 169 for 2009 and 138 for 2008. This housing affordability improvement could favorably impact a housing recovery.

**Other Factors**

During the downturn in the residential real estate market, certain of our franchisees have experienced operating difficulties. As a result, many of our franchisees with multiple offices have reduced overhead and consolidated offices in an attempt to remain competitive in the marketplace. In addition, we have had to terminate franchisees due to non-reporting and non-payment which could adversely impact reported transaction

---

## **Table of Contents**

volumes in the future. Due to the factors noted above, we significantly increased our bad debt and note reserves in prior years and continue to actively monitor the collectability of receivables and notes from our franchisees.

The real estate industry generally benefits from rising home prices and increased volume of homesales and conversely is harmed by falling prices and falling volume of homesales. The housing industry is also affected by mortgage rate volatility as well as strict mortgage underwriting criteria which may limit certain customers' ability to qualify for a mortgage. Typically, if mortgage rates fall or remain low, the number of homesale transactions increase as homeowners choose to move or renters decide to purchase a home because financing appears affordable. If inflation becomes more prevalent and mortgage rates rise, the number of homesale transactions may decrease as potential home sellers choose to stay with their current mortgage and potential home buyers choose to rent rather than pay these higher mortgage rates.

### **Key Drivers of Our Businesses**

Within our Real Estate Franchise Services segment and our Company Owned Real Estate Brokerage Services segment, we measure operating performance using the following key operating statistics: (i) closed homesale sides, which represents either the buy side or the sell side of a homesale transaction, (ii) average homesale price, which represents the average selling price of closed homesale transactions and (iii) average homesale broker commission rate, which represents the average commission rate earned on either the buy side or sell side of a homesale transaction. Our Real Estate Franchise Services segment is also impacted by the net effective royalty rate which represents the average percentage of our franchisees' commission revenues payable to our Real Estate Franchise Services segment, net of volume incentives achieved. The net effective royalty rate does not include the effect of non-standard incentives granted to some franchisees.

Prior to 2006, the average homesale broker commission rate was declining several basis points per year, the effect of which was more than offset by increases in homesale prices. From 2007 through 2010, the average broker commission rate remained fairly stable; however, we expect that, over the long term, the modestly declining trend in average brokerage commission rates will continue.

Our Company Owned Real Estate Brokerage Services segment has a significant concentration of real estate brokerage offices and transactions in geographic regions where home prices are at the higher end of the U.S. real estate market, particularly the east and west coasts, while our Real Estate Franchise Services segment has franchised offices that are more widely dispersed across the United States. Accordingly, operating results and homesale statistics may differ between our Company Owned Real Estate Brokerage Services segment and our Real Estate Franchise Services segment based upon geographic presence and the corresponding homesale activity in each geographic region.

Within our Relocation Services segment, we measure operating performance using the following key operating statistics: (i) initiations, which represent the total number of transferees we serve and (ii) referrals, which represent the number of referrals from which we earn revenue from real estate brokers. In our Title and Settlement Services segment, operating performance is evaluated using the following key metrics: (i) purchase title and closing units, which represent the number of title and closing units we process as a result of home purchases, (ii) refinance title and closing units, which represent the number of title and closing units we process as a result of homeowners refinancing their home loans, and (iii) average price per closing unit, which represents the average fee we earn on purchase title and refinancing title sides.

The decline in the number of homesale transactions and the decline in homesale prices has and could continue to adversely affect our results of operations by: (i) reducing the royalties we receive from our franchisees and company owned brokerages, (ii) reducing the commissions our company owned brokerage operations earn, (iii) reducing the demand for our title and settlement services, and (iv) reducing the referral fees we earn in our relocation services business. Our results could also be negatively affected by a decline in commission rates charged by brokers.

**Table of Contents**

The following table presents our drivers for the years ended December 31, 2010, 2009 and 2008. See Results of Operations below for a discussion as to how the material drivers affected our business for the periods presented.

	Year Ended December 31,			Year Ended December 31,		
	2010	2009	% Change	2009	2008	% Change
<b>Real Estate Franchise Services (a)</b>						
Closed homesale sides	922,341	983,516	(6%)	983,516	995,622	(1%)
Average homesale price	\$ 198,076	\$ 190,406	4%	\$ 190,406	\$ 214,271	(11%)
Average homesale broker commission rate	2.54%	2.55%	(1 bps)	2.55%	2.52%	3 bps
Net effective royalty rate	5.00%	5.10%	(10bps)	5.10%	5.12%	(2 bps)
Royalty per side	\$ 262	\$ 257	2%	\$ 257	\$ 287	(10%)
<b>Company Owned Real Estate Brokerage Services</b>						
Closed homesale sides	255,287	273,817	(7%)	273,817	275,090	%
Average homesale price	\$ 435,500	\$ 390,688	11%	\$ 390,688	\$ 479,301	(18%)
Average homesale broker commission rate	2.48%	2.51%	(3 bps)	2.51%	2.48%	3 bps
Gross commission income per side	\$ 11,571	\$ 10,519	10%	\$ 10,519	\$ 12,612	(17%)
<b>Relocation Services</b>						
Initiations (b)	148,304	114,684	29%	114,684	136,089	(16%)
Referrals (c)	69,605	64,995	7%	64,995	71,743	(9%)
<b>Title and Settlement Services</b>						
Purchase title and closing units	94,290	104,689	(10%)	104,689	110,462	(5%)
Refinance title and closing units	62,225	69,927	(11%)	69,927	35,893	95%
Average price per closing unit	\$ 1,386	\$ 1,317	5%	\$ 1,317	\$ 1,500	(12%)

- (a) Includes all franchisees except for our Company Owned Real Estate Brokerage Services segment.  
(b) Includes initiations of 26,087 for the year ended December 31, 2010, related to the Primacy acquisition in 2010.  
(c) Includes referrals of 4,997 for the year ended December 31, 2010, related to the Primacy acquisition in 2010.

**Table of Contents**

The following table represents the impact of our revenue drivers on our business operations.

The following table sets forth the impact on segment EBITDA for the year ended December 31, 2010 assuming actual homesale sides and average selling price of closed homesale transactions, with all else being equal, increased or decreased by 1%, 3% and 5%.

	Homesale Sides/Average Price (1) (units and price in thousands)	Decline of			Increase of		
		5%	3%	1%	1%	3%	5%
		(\$ in millions)					
<b>Homesale sides change impact on:</b>							
Real Estate Franchise Services (2)	922 sides	(\$ 12)	(\$7)	(\$ 2)	\$ 2	\$ 7	\$ 12
Company Owned Real Estate Brokerage Services (3)	255 sides	(\$ 45)	(\$27)	(\$ 9)	\$ 9	\$ 27	\$ 45
<b>Homesale average price change impact on:</b>							
Real Estate Franchise Services (2)	\$ 198	(\$ 12)	(\$7)	(\$ 2)	\$ 2	\$ 7	\$ 12
Company Owned Real Estate Brokerage Services (3)	\$ 436	(\$ 45)	(\$27)	(\$ 9)	\$ 9	\$ 27	\$ 45

- (1) Average price represents the average selling price of closed homesale transactions.
- (2) Increase (decrease) relates to impact on non-company owned real estate brokerage operations only.
- (3) Increase (decrease) represents impact on company owned real estate brokerage operations and related intercompany royalties to our real estate franchise services operations.

**Results of Operations**

Discussed below are our consolidated results of operations and the results of operations for each of our reportable segments. The reportable segments presented below represent our operating segments for which separate financial information is available and which is utilized on a regular basis by our chief operating decision maker to assess performance and to allocate resources. In identifying our reportable segments, we also consider the nature of services provided by our operating segments. Management evaluates the operating results of each of

**Table of Contents**

our reportable segments based upon revenue and EBITDA. EBITDA is defined as net income (loss) before depreciation and amortization, interest (income) expense, net (other than Relocation Services interest for securitization assets and securitization obligations) and income taxes, each of which is presented on our Consolidated Statements of Operations. Our presentation of EBITDA may not be comparable to similarly-titled measures used by other companies.

**Year Ended December 31, 2010 vs. Year Ended December 31, 2009**

Our consolidated results comprised the following:

	Year Ended December 31,		
	2010	2009	Change
Net revenues	\$ 4,090	\$ 3,932	\$ 158
Total expenses (1)	4,084	4,266	(182)
Income (loss) before income taxes, equity in earnings and noncontrolling interests	6	(334)	340
Income tax expense (benefit)	133	(50)	183
Equity in earnings of unconsolidated entities	(30)	(24)	(6)
Net loss	(97)	(260)	163
Less: Net income attributable to noncontrolling interests	(2)	(2)	
Net loss attributable to Realogy and Holdings	\$ (99)	\$ (262)	\$ 163

- (1) Total expenses for the year ended December 31, 2010 include \$21 million of restructuring costs and \$1 million of merger costs, offset by a net benefit of \$323 million of former parent legacy items primarily as a result of tax and other liability adjustments. Total expenses for the year ended December 31, 2009 include \$70 million of restructuring costs and \$1 million of merger costs offset by a benefit of \$34 million of former parent legacy items (comprised of a benefit of \$55 million recorded at Cartus related to WEX partially offset by \$21 million of expenses recorded at Corporate) and a gain on the extinguishment of debt of \$75 million.

Net revenues increased \$158 million (4%) for the year ended December 31, 2010 compared with the year ended December 31, 2009 principally due to an increase in the average price of homes sold and the impact of the Primacy acquisition.

Total expenses decreased \$182 million (4%) primarily due to a net benefit of \$323 million of former parent legacy items primarily as a result of tax and other liability adjustments compared to a net benefit of \$34 million of former parent legacy items during the same period in 2009 which was primarily comprised of \$55 million of tax receivable payments from WEX, as well as a decrease in restructuring expenses of \$49 million compared to the same period in 2009. The decrease in expenses was partially offset by an \$82 million increase in commission expenses paid to real estate agents due to increased gross commission income, the absence of a \$75 million gain on the extinguishment of debt included in expenses in 2009, as well as a \$21 million increase in interest expense.

Our income tax expense for the year ended December 31, 2010 was \$133 million and was comprised of the following:

\$109 million of income tax expense was recorded for the reduction of certain deferred tax assets as a result of our former parent company's IRS examination settlement of Cendant's taxable years 2003 through 2006;

\$22 million of income tax expense was recorded for an increase in deferred tax liabilities associated with indefinite-lived intangible assets; and

**Table of Contents**

\$2 million of income tax expense was recognized primarily for foreign and state income taxes for certain jurisdictions. No federal income tax benefit was recognized for the current period due to the recognition of a full valuation allowance for domestic operations.

Following is a more detailed discussion of the results of each of our reportable segments for the year ended December 31:

	Revenues (a)			EBITDA (b)(c)			Margin		
	2010	2009	% Change	2010	2009	% Change	2010	2009	% Change
Real Estate Franchise Services	\$ 560	\$ 538	4%	\$ 352	\$ 323	9%	63%	60%	3
Company Owned Real Estate Brokerage Services	3,016	2,959	2	80	6	1,233	3		3
Relocation Services	405	320	27	109	122	(11)	27	38	(11)
Title and Settlement Services	325	328	(1)	25	20	25	8	6	2
Corporate and Other (d)	(216)	(213)	*	269	(6)	*			
<b>Total Company</b>	<b>\$ 4,090</b>	<b>\$ 3,932</b>	<b>4%</b>	<b>\$ 835</b>	<b>\$ 465</b>	<b>80%</b>	<b>20%</b>	<b>12%</b>	<b>8</b>
Less: Depreciation and amortization				197	194				
Interest expense, net				604	583				
Income tax expense (benefit)				133	(50)				
<b>Net loss attributable to Realogy and Holdings</b>				<b>\$ (99)</b>	<b>\$ (262)</b>				

\* not meaningful

- (a) Revenues include elimination of transactions between segments, which consists of intercompany royalties and marketing fees paid by our Company Owned Real Estate Brokerage Services segment of \$216 million and \$213 million during the year ended December 31, 2010 and 2009, respectively.
- (b) EBITDA for the year ended December 31, 2010 includes \$21 million of restructuring costs and \$1 million of merger costs, offset by a net benefit of \$323 million of former parent legacy items primarily as a result of tax and other liability adjustments.
- (c) EBITDA for the year ended December 31, 2009 includes \$70 million of restructuring costs and \$1 million of merger costs offset by a benefit of \$34 million of former parent legacy items (comprised of a benefit of \$55 million recorded at Cartus related to WEX partially offset by \$21 million of expenses recorded at Corporate).
- (d) EBITDA includes unallocated corporate overhead and a gain on the extinguishment of debt of \$75 million for the year ended December 31, 2009.

As described in the aforementioned table, EBITDA margin for Total Company expressed as a percentage of revenues increased 8 percentage points for the year ended December 31, 2010 compared to the same period in 2009 primarily due to a \$289 million increase in former parent legacy benefits as well as improvements in operating results from our Real Estate Franchise Services and Company Owned Real Estate Brokerage Services segments.

On a segment basis, the Real Estate Franchise Services segment margin increased 3 percentage points to 63% from 60% in the prior period. The year ended December 31, 2010 reflected a decline in homesale transactions, primarily in the second half of the year, largely offset by higher average homesale prices. In addition, the segment had lower bad debt and notes reserve expense.

The Company Owned Real Estate Brokerage Services segment margin increased 3 percentage points to 3% from zero in the comparable prior period. The year ended December 31, 2010 reflected an increase in the average homesale price and lower operating expenses primarily as a result of restructuring and cost-saving activities

---

**Table of Contents**

partially offset by a decrease in the number of homesale transactions. Sales volume for the year ended December 31, 2010 benefited from the homebuyer tax credit in the first half of the year as well as a notable increase in activity at the mid and higher end of the housing market throughout the year.

The Relocation Services segment margin decreased 11 percentage points to 27% from 38% in the comparable prior period primarily due to the absence in 2010 of \$55 million of tax receivable payments from WEX in 2009, partially offset by reduced employee costs and other cost saving initiatives.

The Title and Settlement Services segment margin increased 2 percentage points to 8% from 6% in the comparable prior period primarily due to cost reductions which more than offset the slight decrease in revenue.

Corporate and Other EBITDA for the year ended December 31, 2010 increased \$275 million to \$269 million due to a net benefit of \$323 million of former parent legacy items primarily as a result of tax and other liability adjustments compared to a net cost of \$21 million of former parent legacy items for the same period in 2009. The increase was also due to the absence in 2010 versus 2009 of a \$14 million writedown of a cost method investment. The net increase was partially offset by the absence in 2010 versus 2009 of a \$75 million gain on debt extinguishment and \$11 million of proceeds from a legal settlement.

*Real Estate Franchise Services*

Revenues increased \$22 million to \$560 million and EBITDA increased \$29 million to \$352 million for the year ended December 31, 2010 compared with the same period in 2009.

Intercompany royalties from our Company Owned Real Estate Brokerage Services segment increased \$4 million from \$202 million in 2009 to \$206 million in 2010. These intercompany royalties are eliminated in consolidation through the Corporate and Other segment and therefore have no impact on consolidated revenues and EBITDA, but do affect segment level revenues and EBITDA. See *Company Owned Real Estate Brokerage Services* for a discussion as to the drivers related to this period over period revenue increase for real estate franchise services.

International revenue increased \$4 million during the year ended December 31, 2010, while third-party domestic franchisee royalty revenue decreased \$11 million compared to the prior year due to a 6% decrease in the number of homesale transactions partially offset by a 4% increase in the average homesale price. In addition, marketing revenue and related marketing expenses increased \$27 million and \$22 million, respectively.

The \$29 million increase in EBITDA was principally due to the increase in revenues discussed above, a \$17 million decrease in bad debt and note reserves expense as a result of improved collection activities compared to the prior period and a \$7 million decrease in expenses related to conferences and franchisee events. In 2011, we expect that bad debt expense will revert to a more normalized level and conference expenses will increase as we are holding conferences for all of our brands in 2011 which was not the case in 2010.

*Company Owned Real Estate Brokerage Services*

Revenues increased \$57 million to \$3,016 million and EBITDA increased \$74 million to \$80 million for the year ended December 31, 2010 compared with the same period in 2009.

Excluding REO revenues, revenues increased \$87 million primarily due to increased commission income earned on homesale transactions which was driven by an 11% increase in the average price of homes sold, partially offset by a 7% decrease in the number of homesale transactions and a decrease in the average broker commission rate. The increase in the average homesale price and lower average broker commission rate are primarily the result of a shift in homesale activity from lower to higher price points. We believe the 7% decrease in homesale transactions is reflective of industry trends in the markets we serve and the decrease may have been higher if the housing market was not aided by the 2010 homebuyer tax credit program in the first half of 2010.

**Table of Contents**

particularly in locations which have lower average homesale prices. Separately, revenues from our REO asset management company decreased by \$30 million to \$36 million in the year ended December 31, 2010 compared to the same period in 2009 due to generally reduced inventory levels of foreclosed properties being made available for sale. Our REO operations facilitate the maintenance and sale of foreclosed homes on behalf of lenders.

EBITDA increased \$74 million due to the \$57 million increase in revenues discussed above as well as:

a decrease in restructuring expense of \$35 million for the year ended December 31, 2010 compared to the same period in the prior year;

a decrease of \$60 million in other operating expenses, net of inflation, primarily due to restructuring and cost-saving activities as well as reduced employee costs;

an increase of \$6 million in equity earnings related to our investment in PHH Home Loans; and

a decrease of \$5 million in marketing costs due to cost reduction initiatives;  
partially offset by:

an increase of \$82 million in commission expenses paid to real estate agents as a result of the increase in revenues earned on homesale transactions; and

an increase of \$4 million in royalties paid to our Real Estate Franchise Services segment as a result of the increase in revenues earned on homesale transactions.

*Relocation Services*

Revenues increased \$85 million to \$405 million, including \$75 million related to Primacy, and EBITDA decreased \$13 million to \$109 million, despite an increase of \$14 million related to Primacy, for the year ended December 31, 2010 compared with the same period in 2009.

Relocation revenue, excluding the Primacy acquisition, increased \$10 million and was primarily driven by a \$7 million increase in international revenue due to higher transaction volume. The acquisition of Primacy in January 2010 contributed \$75 million of revenue during the year ended December 31, 2010, which primarily consisted of \$31 million of referral and domestic relocation service fee revenue, \$25 million of government at-risk revenue and \$14 million of international revenue.

EBITDA, excluding the Primacy acquisition, decreased \$27 million for the year ended December 31, 2010 compared with the same period in 2009 due to the absence in 2010 of \$55 million of tax receivable payments from WEX. Absent the impact of the WEX tax receivable payments and the Primacy results, EBITDA increased \$28 million primarily as a result of a \$12 million decrease in other operating expenses as a result of reduced employee costs and other cost-saving initiatives, a \$9 million decrease in restructuring expenses, and a \$4 million year over year reduction in legal expenses. EBITDA, excluding the impact of the WEX tax receivable payments, increased \$42 million.

*Title and Settlement Services*

Revenues decreased \$3 million to \$325 million and EBITDA increased \$5 million to \$25 million for the year ended December 31, 2010 compared with the same period in 2009.

The decrease in revenues was primarily driven by an \$11 million decrease in resale volume and a \$7 million decrease in volume from refinancing transactions partially offset by a \$13 million increase in underwriter revenue. The refinancing activity was weighted towards the

## Edgar Filing: REALOGY CORP - Form S-1

second half of 2010 when mortgage rates fell below 5% for an extended period of time. EBITDA increased \$5 million primarily due to \$7 million of cost reductions offset by the decrease in revenues discussed above.

**Table of Contents***2010 and 2009 Restructuring Programs*

During the years ended December 31, 2010 and 2009, the Company committed to various initiatives targeted principally at reducing costs and enhancing organizational efficiencies while consolidating existing processes and facilities. The following are total restructuring charges by segment as of December 31:

	<b>2010 Expense Recognized and Other Additions</b>	<b>2009 Expense Recognized and Other Additions (b)</b>
Real Estate Franchise Services	\$	\$ 3
Company Owned Real Estate Brokerage Services	13	52
Relocation Services	4(a)	9
Title and Settlement Services	3	3
Corporate and Other	2	7
	\$ 22	\$ 74

- (a) Includes \$1 million of unfavorable lease liability recorded in purchase accounting for Primacy which was reclassified to restructuring liability as a result of the Company restructuring certain facilities after the acquisition date.
- (b) During the year ended December 31, 2009, the Company reversed \$4 million in the Consolidated Statement of Operations related to restructuring accruals established in 2006 through 2008.

***Year Ended December 31, 2009 vs. Year Ended December 31, 2008***

Our consolidated results comprised the following:

	<b>Year Ended December 31,</b>		
	<b>2009</b>	<b>2008</b>	<b>Change</b>
Net revenues	\$ 3,932	\$ 4,725	\$ (793)
Total expenses (1)	4,266	6,988	(2,722)
Loss before income taxes, equity in earnings and noncontrolling interests	(334)	(2,263)	1,929
Income tax benefit	(50)	(380)	330
Equity in (earnings) losses of unconsolidated entities	(24)	28	(52)
Net loss
