SPARK NETWORKS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

1. The Company and Summary of Significant Accounting Policies

The Company

The common stock of Spark Networks, Inc., a Delaware corporation (the Company), is traded on the NYSE Amex.

On December 31, 2010, Spark Networks Limited (SNUK) distributed its shareholdings in each of HurryDate, LLC; MingleMatch, Inc.; Kizmeet, Inc.; SN Holdco, LLC; SN Events, Inc.; Reseaux Spark Canada Ltd. and Spark SocialNet, Inc. by transferring its shares in those companies to Spark Networks, Inc. Spark Networks, Inc. subsequently transferred all of its shares in the same companies to LOV USA, LLC, a newly formed and wholly owned subsidiary of Spark Networks, Inc. SNUK continues to hold all of the shares of Spark Networks (Israel) Limited, VAP AG and JDate Limited. In addition, SNUK now holds all of the shares of Spark Networks USA, LLC, a newly formed subsidiary into which SNUK has transferred all of its United States based assets.

The Company and its consolidated subsidiaries provide online personals services in the United States and internationally, whereby adults are able to post information about themselves (profiles) on the Company's Web sites and search and contact other individuals who have posted profiles.

Membership to the Company's online services, which includes the posting of a personal profile and photos, and access to its database of profiles, is free. The Company typically charges a subscription fee for varying subscription lengths (typically, one, three, six and twelve months) to members, allowing them to initiate communication with other members and subscribers utilizing the Company's onsite communication tools, including anonymous email, Instant Messenger, chat rooms and message boards. For most of the Company's services, two-way communications through the Company's email platform can only take place between paying subscribers.

The Company has evaluated all subsequent events through the date the financial statements were issued.

Basis of Presentation

The consolidated financial statements include the accounts of the Company and all of its majority owned subsidiaries. All significant intercompany accounts and transactions have been eliminated.

The accompanying unaudited consolidated interim financial statements reflect all adjustments, consisting of only normal recurring items, which, in the opinion of management, are necessary for a fair presentation of the results of operations for the periods shown. The results of operations for such periods are not necessarily indicative of the results expected for the full year or for any future periods.

The preparation of consolidated financial statements in conformity with generally accepted accounting principles in the United States (GAAP) requires management to make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to uncollectible receivables, the useful lives of long-lived assets including property and equipment, goodwill and other intangible assets, income taxes, and contingencies. In addition, the Company uses assumptions when employing the Black-Scholes option valuation model to calculate the fair value of granted stock-based awards. The Company bases its estimates of the carrying value of certain assets and liabilities on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, when these carrying values are not readily available from other sources. Actual results may differ from these estimates.

The consolidated financial statements on this Form 10-Q should be read in conjunction with the consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010. Certain information and footnote disclosures normally included in financial statements prepared in accordance

Table of Contents

with GAAP have been condensed or omitted pursuant to such rules and regulations. The consolidated balance sheet as of December 31, 2010 was derived from the Company's audited financial statements for the year ended December 31, 2010.

Comprehensive Income

Comprehensive income is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources. For the Company, comprehensive income consists of its reported net income and the net unrealized gains or losses on foreign currency translation adjustments. Comprehensive income for each of the periods presented is comprised as follows:

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Net (loss) income	\$ (81)	\$ 923	\$ (265)	\$ 1,852
Foreign currency translation adjustment, net of taxes	36	(83)	75	(45)
Total comprehensive income, net of taxes	\$ (45)	\$ 840	\$ (190)	\$ 1,807

2. Net Income per Share

The Company calculates and presents the net income per share of both basic and diluted net income per share. Basic net income per share is computed by dividing net income available to common stockholders by the weighted average number of shares of common stock outstanding. Diluted net income per share includes the effect of potential shares of stock outstanding, including dilutive stock options and warrants, using the treasury stock method.

(in thousands except per share data)	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Income per Share of Common Stock - Basic				
Net (loss) income applicable to common stock	\$ (81)	\$ 923	\$ (265)	\$ 1,852
Weighted average shares outstanding-basic	20,589	20,587	20,588	20,584
Basic Net (Loss) Income per Share	\$ (0.00)	\$ 0.04	\$ (0.01)	\$ 0.09
Income per Share of Common Stock - Diluted				
Net (loss) income applicable to common stock	\$ (81)	\$ 923	\$ (265)	\$ 1,852
Weighted average shares outstanding-basic	20,589	20,587	20,588	20,584
Dilutive options using the treasury stock method		11		3
Weighted average shares outstanding - diluted	20,589	20,598	20,588	20,587
Diluted Net (Loss) Income per Share	\$ (0.00)	\$ 0.04	\$ (0.01)	\$ 0.09

The effect of stock options on diluted weighted average shares outstanding has been excluded from the calculation of (loss) per share for the three and six months ended June 30, 2011 because it would have been anti-dilutive. Options to purchase approximately 3.1 million shares for the three and six months ending June 30, 2010, respectively, were not included in the computation of diluted net income per share because the options were anti-dilutive.

3. Revolving Credit Facility

As of June 30, 2011, the Company and its wholly-owned subsidiary, Spark Networks USA, LLC, had a \$15.0 million revolving credit facility with Bank of America which was entered into on February 14, 2008 with subsequent amendments (the Credit Agreement). The Credit Agreement matures on February 14, 2014. The per annum interest rate under the Credit Agreement is LIBOR, or Eurodollar rate under certain circumstances, plus 1.75%, 2.00% and 2.50% based upon a financial leverage ratio of less than 1.00, 1.00 to 1.49 and 1.50 and greater, respectively. In the event the Company elects to borrow under a base rate loan, the corresponding interest rates are increased to the prime rate plus, 0.75%, 1.00% and 1.50%, respectively. The Company pays a 0.250% to 0.375% per annum commitment fee on all funds not utilized under the facility, measured on a daily basis. The Company is required to maintain a consolidated leverage ratio of no greater than 2.00 to 1.00, and a fixed charge coverage ratio of no less than 1.50 to 1.00. The Company is permitted to repurchase or redeem equity interests or issue dividends of up to \$15 million during the first 365 days following February 7, 2011, the date of a subsequent amendment to the Credit Agreement.

On May 11, 2011, the parties executed a Third Amendment to the Credit Agreement (the Amendment). The Amendment requires the Company to maintain a consolidated adjusted EBITDA for each fiscal quarter ending on March 31, 2011 through September 30, 2011 of \$400,000; for the quarter ending on December 31, 2011 of \$750,000; for each quarter ending on March 31, 2012 through June 30, 2012 of \$1,000,000; for each quarter ending on September 30, 2012 through December 31, 2012 of \$1,500,000; and for each quarter ending on or after March 31, 2013 of \$2,000,000. In addition, the Amendment requires the Company to maintain a trailing twelve month contribution level of \$20,000,000 from its Jewish Networks segment for each fiscal quarter ending on or after March 31, 2011.

The Company was compliant with the Amended Agreement s customary affirmative and negative covenants, as of June 30, 2011.

At June 30, 2011, there was no outstanding amount under the Amended Agreement. In connection with the Initial Agreement and the Amended Agreement, the Company paid deferred financing costs of approximately \$446,000 and \$80,000, respectively. Costs associated with both the Initial and the Amended Agreements were included in prepaid expenses and other, and deposits and other assets. The deferred financing costs are amortized to interest expense in the Consolidated Statements of Operations over the full term of the Amended Agreement. Amortization expense for the deferred financing costs for the three and six months ended June 30, 2011 were \$29,000 and \$41,000, respectively. The deferred financing costs for the three and six months ended June 30, 2010 were \$35,000 and \$70,000, respectively.

4. Stockholders Equity

Re-Pricing of Employees Options

In 2009, the Company offered to re-price options for certain employees. These employees could surrender their existing options in exchange for a like number of options with a new grant date, a lower exercise price, a lower number of vested options and a modified vesting schedule. The exchange of options was treated as a synthetic re-pricing, which includes a cancellation and replacement of equity instruments. The incremental expense was approximately \$1 million and will be recognized over the four year vesting term of newly issued options. The incremental expenses recognized for the three and six months ended June 30, 2011 were \$43,000 and \$86,000 respectively. The incremental expenses recognized for the three and six months ended June 30, 2010 were \$43,000 and \$253,000 respectively.

Employee Stock Option Plans

On July 9, 2007, pursuant to the completion of the Scheme of Arrangement, the Company adopted the Spark Networks, Inc. 2007 Omnibus Incentive Plan (the 2007 Plan) authorizing and reserving 2.5 million options. In connection with the Company s Scheme of Arrangement, the 2004 Share Option Plan was frozen; however, all outstanding options previously granted thereunder continue in full force and effect.

Awards under the 2007 Plan may include incentive stock options, nonqualified stock options, stock appreciation rights (SARs), restricted shares of common stock, restricted stock units, performance stock or unit awards, other stock-based awards and cash-based incentive awards.

Table of Contents

The Compensation Committee may grant to a participant an award. The terms and conditions of the award, including the quantity, price, vesting periods and other conditions on exercise will be determined by the Compensation Committee.

The exercise price for stock options will be determined by the Compensation Committee in its discretion, but may not be less than 100% of the closing sale price of one share of the Company's common stock on the NYSE Amex (or any other applicable exchange on which the stock is listed) on the date when the stock option is granted. Additionally, in the case of incentive stock options granted to a holder of more than 10% of the total combined voting power of all classes of stock of the Company on the date of grant, the exercise price may not be less than 110% of the closing sale price of one share of common stock on the date the stock option is granted.

As of June 30, 2011, total unrecognized compensation cost related to unvested stock options was \$1.5 million. This cost is expected to be recognized over a weighted-average period of two years. The following table describes option activity for the six months ended June 30, 2011:

Stockholder Rights Plan

In July 2007, the Company adopted a stockholder rights plan. The rights accompany each share of common stock of the Company and are evidenced by ownership of common stock. The rights are not exercisable except upon the occurrence of certain takeover-related events. Once triggered, the rights would entitle the stockholders, other than a person qualifying as an Acquiring Person pursuant to the rights plan, to purchase additional common stock at a 50% discount to their fair market value. The rights issued under the Rights Plan may be redeemed by the board of directors at a nominal redemption price of \$0.001 per right, and the board of directors may amend the rights in any respect until the rights are triggered.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations is based upon our unaudited Consolidated Financial Statements, which have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these unaudited Consolidated Financial Statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to revenue recognition, uncollectible receivables, intangible and other long-lived assets, stock-based compensation and contingencies. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. There were no significant changes to our critical accounting policies during the six months ended June 30, 2011, as compared to those policies disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010.

Table of Contents**Key Metric Average Paying Subscribers**

Subscribers are defined as individuals for whom we collect a monthly fee for access to communication and Web site features beyond those provided to our non-paying members. Average paying subscribers for each month are calculated as the sum of the paying subscribers at the beginning and end of the month, divided by two. Average paying subscribers for periods longer than one month are calculated as the sum of the average paying subscribers for each month, divided by the number of months in such period.

Approximately 6.4% and 7.8% of our revenue for the three months ended June 30, 2011 and 2010, respectively, are generated through offline social and travel events, and advertising revenue. Revenue is presented net of credits and credit card chargebacks. Our subscriptions are offered in durations of varying length (typically, one, three, six and twelve months). Following their initial terms, most subscriptions renew automatically for subsequent one-month periods until subscribers terminate them.

Revenue increased 16.6% to \$12.0 million in the second quarter of 2011 compared to \$10.3 million in the second quarter of 2010. The increase can be attributed to higher subscription revenue in the Other Affinity Networks segment. Revenue for the Jewish Networks segment increased 1.0% to \$6.7 million in the second quarter of 2011 compared to a slightly lower amount in the second quarter of 2010. The increase in revenue is primarily driven by a higher average paying subscriber base, reflecting an increase in direct marketing spend. Revenue for our Other Affinity Networks segment increased 67.8% to \$4.7 million in the second quarter of 2011 compared to \$2.8 million in the second quarter of 2010. The increase in revenue is due to a 49.9% increase in average paying subscribers and a 12.9% increase in average revenue per user, (ARPU). The higher average paying subscriber base is primarily driven by a 240.9% increase in direct marketing investment while the higher ARPU reflects a shift in the mix of plans purchased by our subscribers and their related price points as we shifted our focus to a select group of brands within this segment.
