Notes to Consolidated Financial Statements

June 30, 2011

(Unaudited)

Note 1: Nature of Operations

Description of Business

Speedemissions, Inc. is one of the largest test-only emissions testing and safety inspection companies in the United States. We perform vehicle emissions testing and safety inspections in certain cities in which vehicle emissions testing is mandated by the United States Environmental Protection Agency (EPA). As of June 30, 2011, we operated 38 vehicle emissions testing and safety inspection stations under the trade names of *Speedemissions* (Atlanta, Georgia and St. Louis, Missouri); *Mr. Sticker* (Houston, Texas); and *Just Emissions* (Salt Lake City, Utah). We also operate four mobile testing units in the Atlanta, Georgia area which service automotive dealerships and local government agencies. We manage our operations based on these four regions and we have one reportable segment. References in this document to Speedemissions, Company, we, us and our mean Speedemissions, Inc. and our consolidated subsidiaries.

We use computerized emissions testing and safety inspections equipment that test vehicles for compliance with vehicle emissions and safety standards. Our revenues are mainly generated from the test or inspection fee charged to the registered owner of the vehicle. As a service to our customers, we sell automotive parts and supplies such as windshield wipers, taillight bulbs and gas caps. In addition, we perform a limited amount of services including oil changes and headlight restorations at select locations. We do not provide major automotive repair services.

On June 22, 2010, the Company announced the launch of its first iPhone application, Carbonga. Carbonga diagnoses an automobile's computer systems using the on board diagnostic port on vehicles that are 1996 or newer. Carbonga can check over 2,000 vehicle fault codes. We launched version two of Carbonga on February 16, 2011. Version two improved the speed and performance of the application and has additional features including the ability to receive vehicle safety recalls and Technical Service Bulletins for an annual subscription fee.

Basis of Presentation

The accompanying unaudited consolidated financial statements of the Company are presented in accordance with accounting principles generally accepted in the United States of America (GAAP) as codified in the Financial Accounting Standards Board (FASB) Accounting Standards Codification. In the opinion of management, the accompanying unaudited consolidated financial statements reflect all adjustments consisting of normal recurring adjustments necessary for a fair presentation of its financial position and results of operations. Interim results of operations are not necessarily indicative of the results that may be achieved for the full year. The financial statements and related notes do not include all information and footnotes required by GAAP for annual reports. This quarterly report should be read in conjunction with the consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2010.

The Company has evaluated subsequent events through the date of filing its Form 10-Q with the Securities and Exchange Commission. Other than as described in Note 13: Subsequent Event, the Company is not aware of any significant events that occurred subsequent to the balance sheet date but prior to the filing of this report that would have a material impact on the Company's consolidated financial statements.

Consolidation

The accompanying consolidated financial statements include the accounts of Speedemissions and its non-operating subsidiaries, which are 100% owned by the Company. All significant intercompany accounts and transactions have been eliminated in consolidation.

Note 2: Significant Accounting Policies and Estimates

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and

Edgar Filing: SPEEDEMISSIONS INC - Form 10-Q

liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Significant estimates included in these financial statements relate to useful lives of property and equipment, the valuation allowance provided against deferred tax assets and the valuation of long-lived assets and goodwill. Actual results could differ from those estimates. For a description of Speedemissions' critical accounting policies see the Company's annual report on Form 10-K for the year ended December 31, 2010.

Table of Contents**Fair Value Measurements**

The Company uses a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

Level 1 Quoted prices in active markets for identical assets or liabilities. The Company has no Level 1 assets or liabilities.

Level 2 Observable inputs, other than quoted prices included in Level 1, such as quoted prices for markets that are not active; or other inputs that are observable or can be corroborated by observable market data. The Company has no Level 2 assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs. The Company has no Level 3 assets or liabilities.

Fair Value of Financial Instruments

The carrying amounts of cash, accounts receivable, accounts payable and accrued liabilities approximate their fair value because of the short-term nature of these accounts. Fair value of the equipment financing agreements, capital lease obligations, notes receivable and note payable approximate carrying value based upon current borrowing rates.

Note 3: Notes Receivable

On June 30, 2011, the Company sold all of the emissions testing and safety inspection equipment at one of its stores in Texas and subleased the facility. The Company received cash and a promissory note and personal guarantee from the purchaser for the equipment. The promissory note bears interest at 0.55% per annum and the term of the promissory note is twenty-four months. The principal amount of the promissory note is \$15,000. The notes receivable balance was \$112,153 and \$101,643 at June 30, 2011 and December 31, 2010, respectively.

Basic earnings per share (EPS) represents net loss divided by the weighted average number of common shares outstanding during a reported period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock, including stock options, warrants, and contingently issuable shares such as the Company's Series A and Series B preferred stock (commonly and hereinafter referred to as Common Stock Equivalents), were exercised or converted into common stock.

The following table sets forth the computation for basic and diluted net loss per share for the three and six month periods ended June 30, 2011 and 2010, respectively:

	Three Months Ended		Six Months Ended	
	June 30		June 30

These Common Stock Equivalents could be dilutive in future periods.

Edgar Filing: SPEEDEMISSIONS INC - Form 10-Q

Table of Contents

Note 9: Preferred and Common Stock

Preferred Stock

There were 5,133 shares of Series A convertible redeemable preferred stock (Preferred A Stock) issued and outstanding as of June 30, 2011 and December 31, 2010. For financial statement purposes, the Preferred A Stock has been presented outside of stockholders' equity on the Company's balance sheets as a result of certain conditions that are outside the control of the Company that could trigger redemption of the securities.

There were 63,981 and 215,981 shares of Series B convertible preferred stock (Preferred B Stock) issued and outstanding as of June 30, 2011 and December 31, 2010, respectively, all of which were held by Barron. Barron converted 152,000 shares of Preferred B Stock into 1,149,120 common shares during the six months ended June 30, 2011.

Common Stock

The Company issued a total of 1,149,120 common shares to Barron during the six months ended June 30, 2011. The issuances to Barron resulted from Barron's conversion of a total of 152,000 shares of Preferred B Stock during the six months ended June 30, 2011.

On April 15, 2011, the Board of Directors of the Company and GCA Strategic Investment Fund Limited (GCA) agreed to amend GCA's 4,000,000 common stock purchase warrants dated November 10, 2010. The closing price of the Company's common stock was \$0.013 on April 14, 2011. The exercise price per share of the common stock purchase warrants was reduced to \$0.016 from \$0.50. On April 15, 2011, GCA exercised the amended common stock purchase warrants and transferred \$64,000 to the Company on April 18, 2011, pursuant to an available exemption under Section 4(2) of the Securities Act of 1933, as amended. The Company will use the \$64,000 for working capital purposes.

On April 18, 2011, as explained more fully below in Note 10, 38 of the Company's directors, officers and employees exchanged a total of 5,596,058 stock options for restricted common shares.

Note 10: Share-Based Compensation

The Company estimates the fair value of stock options using the Black-Scholes valuation model, and determines the fair value of restricted stock units based on the number of shares granted and the quoted price of the Company's common stock on the date of grant. Such value is recognized as an expense over the requisite service period, net of estimated forfeitures, using the straight-line attribution method. The estimate of awards that will ultimately vest requires significant judgment, and to the extent actual results or updated estimates differ from the Company's current estimates, such amounts are recorded as a cumulative adjustment in the period estimates are revised. The Company considers many factors when estimating expected forfeitures, including types of awards, employee class and historical employee attrition rates. Actual results, and future changes in estimates, may differ substantially from the Company's current estimates.

Share-based compensation expense was \$54,842 and \$14,223 during the three months ended June 30, 2011 and 2010, respectively and \$54,842 and \$25,015 during the six months ended June 30, 2011 and 2010, respectively. Share-based compensation is included in general and administrative expenses in the consolidated statements of operations.

Stock Incentive Plans

The Company has granted options to employees and directors to purchase the Company's common stock under various stock incentive plans. Under the plans, employees and non-employee directors are eligible to receive awards of various forms of equity-based incentive compensation, including stock options, restricted stock, restricted stock units and performance awards, among others. The plans are administered by the Compensation Committee of the Board of Directors, which determines the terms of the awards granted. Stock options are generally granted with an exercise price equal to the market value of the Company's common stock on the date of grant, have a term of ten years or less, and generally vest over three years from the date of grant.

The following table sets forth the options granted under the Company's stock option plans during the six month period ended June 30, 2011:

Edgar Filing: SPEEDEMISSIONS INC - Form 10-Q

	Number of Shares	Weighted Average Exercise Price	Weighted Average Grant-date Fair Value
Options outstanding at December 31, 2010	5,760,308	\$ 0.35	
Granted			
Exercised/exchanged	(5,596,058)	0.34	
Expired	(100,250)	0.42	
Options outstanding at June 30, 2011	64,000	\$ 0.57	
Options exercisable at June 30, 2011	64,000	\$ 0.57	

Table of Contents

The aggregate intrinsic value of options outstanding and exercisable at June 30, 2011 was \$0. Intrinsic value is the amount by which the fair value of the underlying stock exceeds the exercise price of the options.

The Company estimates the fair value for stock options at the date of grant using the Black-Scholes option pricing model, which requires management to make certain assumptions. Expected volatility is based on the comparable company data. The Company bases the risk-free interest rate on U.S. Treasury note rates. The expected term is based on the vesting period and an expected exercise term. The Company does not anticipate paying cash dividends in the foreseeable future and therefore uses an expected dividend yield of 0%. Note 12: Contingencies

In the ordinary course of business, the Company may be from time to time involved in various pending or threatened legal actions. The litigation process is inherently uncertain and it is possible that the resolution of such matters might have a material adverse effect upon the Company's financial condition and/or results of operations.

During 2010, the Company filed a Demand for Arbitration claim for \$2,900,000 plus legal fees against the former owners of Mr. Sticker, Inc. (Mr. Sticker), David E. Smith, Barbara Smith and Grant Smith (the Smiths). The Company purchased Mr. Sticker from the Smiths on June 30, 2005 for \$3,100,000. The Company asserts that the Smiths interfered with the continuation of the acquired business and the renewal of certain leases held by the Smiths or by controlled entities of the Smiths related to the acquisition of Mr. Sticker by the Company. The Company further asserts breach of contract, fraud and fraudulent inducement and tortious interference by the Smiths. The arbitration claim has yet to be heard by the arbitrators. The Smiths have filed a counterclaim for damages in relation to attorney fees incurred on behalf of the Smiths, for which an amount has not been determined.

Note 13: Subsequent Event

On August 12, 2011, the Company's Board of Directors approved the issuance of 300,000 of our common shares, restricted in accordance with Rule 144, to Mr. Gerald Amato for consulting and investor relations services to be provided to the Company during the third quarter of 2011. Mr. Amato serves on the Company's Board of Directors. For financial reporting purposes, we valued the shares based on the value of the shares of our common stock on the date of issuance since our agreement to pay for the services was based on a fixed number of shares, instead of a fixed value. We recognized \$3,000 in expense related to the services performed in the third quarter of 2011.

Our Management's Discussion and Analysis of Financial Condition and Results of Operations contains not only statements that are historical facts, but also statements that are forward-looking. Forward-looking statements are statements we make based on our management's expectations, estimates, projections and assumptions and are, by their very nature, uncertain and risky. These risks and uncertainties include international, national and local general economic and market conditions; demographic changes; our ability to sustain, manage, or forecast growth; our ability to successfully make and integrate acquisitions; emission certificate cost; new product development and introduction; existing government regulations and changes in, or the failure to comply with, government regulations; adverse publicity; competition; the loss of significant customers or suppliers; fluctuations and difficulty in forecasting operating results; changes in business strategy or development plans; business disruptions; the ability to attract and retain qualified personnel; the ability to protect technology; and other risks that might be detailed from time to time in our filings with the Securities and Exchange Commission. The above examples are not exhaustive and new risks emerge from time to time. For a further discussion of risk factors relating to our business, see Part I, Item 1A. *Risk Factors* in our annual report on Form 10-K for the year ended December 31, 2010.

Although the forward-looking statements in this quarterly report reflect the good faith judgment of our management, such statements can only be based on facts and factors currently known by them. Consequently, and because forward-looking statements are inherently subject to risks and uncertainties, the actual results and outcomes may differ materially from the results and outcomes discussed in the forward-looking statements. You are urged to carefully review and consider the various disclosures made by us in this report and in our other reports as we attempt to advise interested parties of the risks and factors that may affect our business, financial condition, and results of operations and prospects.

We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Since our common stock is considered a penny stock, we are not eligible to rely on the safe harbor for forward-looking statements provided in Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and any references to these sections are for informational purposes only.

Overview

Speedemissions performs vehicle emissions testing and safety inspections in certain cities in which vehicle emissions testing is mandated by the Environmental Protection Agency (EPA). The federal government and a number of state and local governments in the United States (and in certain foreign countries) mandate vehicle emissions testing as a method of improving air quality. As of June 30, 2011, the Company operated 38 vehicle emissions testing and safety inspection stations under the trade names of *Speedemissions* (Atlanta, Georgia and St. Louis, Missouri); *Mr. Sticker* (Houston, Texas); and *Just Emissions* (Salt Lake City, Utah). The Company also operates four mobile testing units in the Atlanta, Georgia area. The Company manages its operations based on these four regions and has one reportable segment. We use computerized emissions testing and safety inspections equipment that test vehicles for compliance with vehicle emissions and safety standards. Our revenues are generated from the test or inspection fee charged to the registered owner of the vehicle. We do not provide automotive repair services.

On June 22, 2010, the Company announced the launch of its first iPhone application, Carbonga. Carbonga diagnoses an automobile's computer systems using the on board diagnostic port on vehicles that are 1996 or newer. Carbonga can check over 2,000 vehicle fault codes. We launched version two of Carbonga on February 16, 2011. Version two improved the speed and performance of the application and has additional features including the ability to receive vehicle safety recalls and Technical Service Bulletins for an annual subscription fee.

Critical Accounting Policies

The discussion and analysis of the Company's financial condition and results of operations are based upon its consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. In consultation with our Board of Directors, the Company has identified accounting policies related to valuation of our equity instruments, valuation of goodwill created as the result of business acquisitions, as key to an understanding of our financial statements.
