NOTE 1: BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS

a. **Basis of consolidation**

Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria (Cresud or the Company) consolidated on a line by line basis the Balance Sheet as of September 30, 2011 and 2010, the Statements of Income and the Statements of Cash Flows for the periods ended as of September 30, 2011 and 2010 with the financial statements of subsidiaries, following procedures established by Technical Resolution No. 21 of the Federación Argentina de Consejos Profesionales de Ciencias Económicas (FACPCE), approved by Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires and Comisión Nacional de Valores.

Significant transactions and balances with subsidiaries have been eliminated from the consolidation.

The financial statements as of September 30, 2011 and 2010 of the subsidiary companies Northagro S.A. (Northagro), Futuros y Opciones.Com S.A. (FyO.Com), Agrotech S.A. (Agrotech), Pluriagro S.A. (Pluriagro), FyO Trading S.A. (FyO Trading), Agropecuaria Acres del Sur S.A. (Acres), Ombú Agropecuaria S.A. (Ombú), Yatay Agropecuaria S.A. (Yatay), Yuchan Agropecuaria S.A. (Yuchan), Helmir S.A. (Helmir) and IRSA Inversiones y Representaciones Sociedad Anónima (IRSA) and the financial statements as of September 30, 2011 of Cactus Argentina S.A. (Cactus), and BrasilAgro-Companh a Brasileira de Propiedades Agr colas (BrasilAgro) have been used in order to determine line by line consolidation.

These Financial Statements and the corresponding notes are presented in thousand of Argentine Pesos.

On December 23, 2010, Cresud made a capital contribution in the amount of Ps. 16 million to Cactus, including additional paid-in capital. As a result of such capital contribution, our shareholding interest increased to 80% as of December 31, 2010.

As from December 31, 2010, Cresud consolidates its financial statements with those of Cactus, pursuant to the provisions of Accounting Standard Technical Resolution No. 21. Consequently, the consolidated financial statements of the company as of September 30, 2010 do not include information consolidated with Cactus.

NOTE 1: (Continued)

During the previous fiscal year, the Company has increased its share in BrasilAgro-Companhia Brasileira de Propiedades Agrícolas to 35.75%. Therefore, as from June 30, 2011, Cresud consolidates its financial statements with those of BrasilAgro, pursuant to the provisions of Accounting Standard Technical Resolution No. 21. Consequently, the consolidated financial statements of the company as of September 30, 2010 do not include information consolidated with BrasilAgro.

On September 13, 2010, Alto Palermo S.A. (APSA) sold its 80% interest in Tarshop S.A. Consequently, the consolidated balance sheet as of its comparative balances does not include Tarshop. However, the statements of income and the statement of cash flows presented comparatively include such company for the two-month period when APSA held control over it. Therefore, the compatibility of consolidated financial statements is affected.

The totals relevant of the Company's consolidated financial statements, assuming the consolidation with BrasilAgro had taken place as of September 30, 2010, are presented for comparative purposes in the following charts. Additionally, below is a summary of the effect the deconsolidation of Tarshop would have had on the statement of income and the statement of cash flows as of that date.

The Financial Statements of the Subsidiaries mentioned in Note 2 have been prepared based on accounting principles consistent with those followed by the Company for the preparation of its financial statements (See Note 2 of the basic financial statements).

Costs include land and land improvements, direct construction costs, construction overhead costs, financial costs and real estate taxes.

Inventories on which advance payments that establish price have been received, and the operation's contract terms and conditions assure that the sale will be effectively accomplished and that the income will be realized, are valued at net realizable value. Profits arising from such valuation are shown in the Gain from valuation of assets at net realizable value caption of the Statements of Income.

Properties held for sale are classified as current or non-current based on the estimated date of sale and the time at which the related receivable is expected to be collected by the Company.

NOTE 6: LAWSUITS AND CLAIMS IN COURSE

A. Agricultural Business

Ongoing litigation with the city of Villa Mercedes

The Misdemeanours Court Judge to the city of Villa Mercedes issued resolution No. 2980/08 about the situation of Cactus in such city, determining that the Company had a 36-month term to stop operating and transferring the establishment located on the Provincial Route 2B.

In such 36-month period, the Company shall not host over 18,500 head of cattle.

Such brief was appealed by Cactus before the Municipality, which was negatively answered on April 7, 2009, by means of Decree No. 0662/09, thus ratifying the Misdemeanour Court Judge's ruling. Under the administrative justice of the city of Villa Mercedes, Cactus would have until April 7, 2012 to conclude its operations and transfer the establishment.

Cactus has filed appeals with the High Court of Justice of the Province of San Luis, objecting the lawfulness of the rulings entered by the Misdemeanours Court Judge of Villa Mercedes. The appeals are pending and the High Court has not ruled on them.

The Company's legal advisors are optimistic about the possibilities of reversing the Misdemeanours Court Judge's ruling.

Irrespective of the above, Cactus is carrying out a plan to improve its relationship with the community of Villa Mercedes, seeking to strengthen the company's position as a valuable member in the social and economic activity in the region, whose purpose is that the scheduled moving be reconsidered by municipal authorities.

Provision for unexpired claims against Llao Llao Holding S.A.

The Llao Llao Holding S.A. (LLH) Company, predecessor of Llao Llao Resorts S.A. (LLR) as operator of the Llao Llao Hotel, was sued in 1997 by the National Parks Administration seeking collection of the unpaid balance of the additional sale price, in Argentine External Debt Bond (EDB) amounting to US\$ 2.9 million. In March 2004, after different stages of the judicial proceeding, LLH paid Ps. 9,156 in cash and EDB.

Based on the information provided by the legal advisors litigating these proceedings, LLR has booked under Other current liabilities Payables to National Parks Administration , the amount of fees described in the above paragraph.

At the same time, the plaintiff indicated that the deposited sums were consistent with the settlement statement approved by the court on December 5, 2007 and computed on June 30, 2007. As a result, argued that the interest accrued until actual payment were to be adjusted by application of the Argentine Central Bank 's borrowing interest rate. As estimated by the Argentine Agency of National Parks, the outstanding balance, to be deposited by LLR amounted US\$ 659. In addition, on September 22, 2010, the judge calculated that the fees payable to the auctioneer who took part in the proceedings amount to Ps. 1.8 million. LLR lodged an appeal against the award for considering the amount excessively high. The auctioneer, in turn, lodged his appeal against the award for considering the amount excessively low. After various judicial instances, the courts rendered a decision favorable to LLR and considered LLR 's debt was satisfied as it related to the liquidation approved in the record of proceedings. Furthermore, the appeal remedy regarding fees awarded to the auctioneer, which were reduced from Ps. 1.8 million to Ps. 1.1 million plus VAT.

Based on the information provided by the legal advisors litigating these proceedings, LLR has booked under Other current liabilities Payables to National Parks Administration , the amount of fees described in the above paragraph.

NOTE 6: (Continued)

Since LLR had a credit balance as regards the deposit made pursuant to settlement approved in the proceedings, on February 18, 2011 LLR filed a remedy for relief on the amount deposited in excess and order the eventual repayment to the defendant. Moreover, the auctioneer has requested payment of fees. LLR presented a proposal to pay the auctioneer's fees settled, which will be withheld from the funds seized, from the freely disposable funds and from the funds invested in time deposits in dollars. Likewise, LLR requested professional fees to be settled and resolution of the pending clarifying remedy as to the amount deposited in excess.

(Indarsa) to Puerto Retiro S.A. NOTE 7: (Continued)

Indarsa had acquired 90% of the capital stock of Tandanor S.A. to a formerly estate owned company privatized in 1991, engaged in the shipyard industry.

Indarsa did not comply with the payment of the outstanding price for the acquisition of the stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa, pursuing to extend the bankruptcy to Puerto Retiro S.A.

The evidence steps of the legal procedures have been completed Puerto Retiro S.A. appealed the precautionary measure, being the same confirmed by the Court on December 14, 2000. The parties have submitted their claims in due time. The file was passed for the judge to issue a pronouncement, the judge issued a decree adjourning the summoning of decisions to pronouncement in the understanding that there exists pre-judgment in respect of the penal cause filed against ex-officers of the Ministry of Defense and ex-directors of the Company. Consequently, the matter will not be solved until there is final judgment in penal jurisdiction.

Notice has been served upon the commercial court that the criminal cause of action was declared extinguished by operation of the statutes of limitation and that the accused were acquitted. However, this ruling was challenged by filing an appeal in cassation, which is why the other decision is still not final.

The Management and legal advisors of Puerto Retiro S.A. estimate that there are legal and technical issues sufficient to consider that the request for bankruptcy will be denied by the court. However, taking the circumstances into account and the progress of the legal action, this position cannot be considered final.

During fiscal year ended June 30, 2011, IRSA through its subsidiaries sold 2,542,379 common shares, in Hersha for a total of US\$ 16.1 million, which resulted in approximately US\$ 11.5 million gain.

As of September 30, 2011 IRSA's direct and indirect interest in Hersha represents 9.17%. On the other hand, upon exercise of the call option and assuming any Company's interest is not diluted due to newly issued shares, IRSA's interest in Hersha would be 12.12%. IRSA accounts for its investment in Hersha at cost while the call option has been accounted for at its fair value.

Hersha is a Real Estate Investment Trust (REIT) listed in the New York Stock Exchange (NYSE) under the HT symbol that holds majority interests in 78 hotels throughout the United States of America totaling approximately 10,443 rooms. These hotels are rated as select service and upscale hotels and they are mainly located in the Northeast coast of the US, including New York, New Jersey, Boston, Washington D.C. and Philadelphia, whilst a few are located in northern California and some others in Arizona. NOTE 8: (Continued)

During 2009 Metropolitan incurred significant losses, which resulted in negative equity mainly due to an impairment recognized in connection with the building. Since IRSA's share in Metropolitan's losses exceeded its equity interest; IRSA recognized a zero value on its investment although a liability of US\$ 1.5 million was booked representing its maximum commitment to fund Metropolitan's operations.

In December 2010 the negotiations geared towards restructuring the amounts owed under mortgage to Royal Bank of Canada came to a successful conclusion. The debt was reduced from US\$ 210.0 million to US\$ 130.0 million (excluding accrued interest) at a Libor plus 400 bp rate, which may not exceed a maximum rate of 6.25% and with a maturity date fixed at seven years. The junior indebtedness to Goldman, Sachs & Co., which had amounted to US\$ 45.0 million (excluding accrued interest), was cancelled through a US\$ 2.25 million payment.

Metropolitan 885 Third Avenue Leasehold LLC (Metropolitan Leasehold) will maintain the existing ground leases in the same terms and conditions in which they had been initially agreed upon, for a remaining 66 years term. The final consent to this restructuring has already been tendered by all the parties concerned and the closing was consummated on December 30, 2010, as that is when the company New Lipstick LLC (New Lipstick), a new Metropolitan Leasehold holding company, made a US\$ 15.0 million principal payment as repayment of the newly restructured mortgage debt, thus reducing it from US\$ 130.0 million to US\$ 115.0 million.

As a consequence of said closing, the Company has indirectly through New Lipstick increased its ownership interest in the Lipstick Building to 49%. This increase originated in a US\$ 15.3 million capital contribution and in the fact that the put option for 50% of the shareholding initially acquired in Metropolitan, which had amounted to approximately US\$ 11.3 million plus accrued interest, has been rendered ineffectual. Besides, the above-mentioned commitment, for US\$ 1.5 million, ceased to be in effect.

NOTE 12: SIGNIFICANT EVENTS

A. Agricultural Business

a) BrasilAgro - Maeda. Changes in Jaborandi Ltda. contract

On September 26, 2011, BrasilAgro released a communication note in the market to clarify that its participating stake in Jaborandi S.A., owner of Fazenda Jatobá, was not modified and thus BrasilAgro and Maeda still retain 90% and 10%, respectively, of the Jaborandi Ltda. company. Jaborandi Ltda. is an operator intended to develop and plant in Finca Jatobá, which ownership structure has been modified from 75% owned by BrasilAgro and 25% owned by Maeda, to a 50-50 structure between both parties.

On September 22, 2011 BrasilAgro executed an amendment to the ownership agreement of Jaborandi Ltda., whereby it assigns and transfers 1,766,038 of the shares in the Company's capital. Following this transfer, BrasilAgro holds 14,572,661 shares and Maeda 7,212,271 shares. This transaction led to an investment loss in BrasilAgro's results of operations of R\$ 1,135 (equal to Ps. 2,894). On that same date, as indicated in the Minutes of the Meeting of Shareholders, a decision was made to reduce the capital stock by R\$ 12,508 (or Ps. 28,369) by means of redemption and cancellation of 12,508,586 shares. Of this total, R\$ 7,775 (or Ps. 17,634) result from a capital reduction to offset against retained deficit by BrasilAgro while R\$ 4,733 (or Ps. 10,735) were repaid to BrasilAgro for they related to capital in excess in relation to the Company's purpose. Consequently, the capital stock of Jaborandi Ltda. was increased to R\$ 9,276 (or Ps. 21,039) and is composed of 9,276,346 shares, 50% of which are held by BrasilAgro while the remaining 50% is held by Maeda, so that each shareholder would have a 50% stake in the company, that is, 4,638,173 shares.

b) Green Ethanol

In May 2007 BrasilAgro acquired a 49.9% stake in Green Ethanol LLC (formerly Tarpon Ethanol LLC). Green Ethanol held 2.47% of the capital stock of Brenco, a privately-held Brazilian company which started up operations in 2007 in the sugar and ethanol segment. In September 2008, Green Ethanol reduced its share in Brenco to 1.55% and in December 2008 it increased it to 3.8% of Brenco capital stock. BrasilAgro, who saw its share diluted to 40.64% in Green Ethanol did not follow suit. In February 2010, ETH _ Bionenergía acquired substantially all the capital stock of Brenco, thus diluting Green Ethanol's share to 0.046%.

As a result, BrasilAgro has a share of 40.64% in Green Ethanol; however, it would not have a material influence. The social contract of Green Ethanol provide the controlling interest, as well as the voting rights on administrative and financial matters and decision making are vested on another investor.

As from this date and under professional accounting standards and as required by the enforcement agency, financial statements as of December 31, 2001 were no longer restated. As from January 1st, 2002 and under professional accounting standards, effects for inflation restarted to be recognized considering that accounting measurements restated for the change in the currency purchasing power until August 31, 1995, as those whose original date fell between such date and December 31, 2001, were stated in pesos as of such last date.

Notes to the Unaudited Financial Statements

NOTE 1: (Continued)

On March 25, 2003, the Federal Executive issued Decree No. 664, which established that the financial statements for year ended after such date should be stated in nominal currency. Consequently, in conformity with Resolution No. 441/03 issued by the CNV, the Company discontinued the restatement of financial statements as from March 1, 2003. Such method does not agree with current professional accounting standards, which require that financial statements should be restated until September 30, 2003. However, given the little significance of inflation rates from March through September 2003, this departure has not generated a significant effect on the financial statements taken as a whole.

The rate used for restatement of items until February 28, 2003 is the domestic whole revenue price index published by the National Institute of Statistics and Census.

c. Comparative Information

Amounts as of June 30, 2011 and September 30, 2010, which are disclosed for comparative purposes have been taken from the financial statements as of such dates.

The financial statements as of June 30, 2011 and September 30, 2010 originally issued have been subject to certain reclassifications required in order to present these figures comparatively with this period / year.

These financial statements have been prepared giving effect to the spin-off merger mentioned in Note 14; consequently, the stand-alone financial statements as of September 30, 2011 are not comparable with those issued as of June 30, 2011 and September 30, 2010.

This decision was taken to contribute to the decrease in the draw down and reduction of fluctuations in the listed price of the Company's shares aiming at contributing to strengthening the shares on the market, minimizing possible temporary imbalances that there may be between the supply and demand on the market, considering the excessive cost of capital that the current listed prices showed.

In accordance with the law of commercial companies, the Board of Directors shall dispose of the shares acquired within a period of one year unless an extension is provided for a Shareholders meeting. On November 13, 2009, the Board of Directors seeking to comply with the mandate granted by the Shareholders meeting held on October 29, 2009, resolved to start attributing and assigning on a prorate basis 25,000,000 proprietary treasury shares with a face value of Ps. 1 entitled to 1 vote each. Buenos Aires, November 11, 2011 - Cresud S.A.C.I.F. y A. (Nasdaq: CRESY BASE: CRES), one of the leading agricultural companies in Argentina, announces today its results for the first three months of fiscal year 2012 ended September 30, 2011.

In ARS MM	IQ 12	IQ 11	YoY Var
Agribusiness segment sales	324.1	161.7	100.4%
Agribusiness production income	140.8	35.1	300.7%
Real estate segment sales	343.5	307.3	11.8%
Gross income	289.5	259.4	11.6%
Operating income	191.7	183.6	4.4%
Net income	1.0	51.9	-98.0%

During the past fiscal year we increased our interest in BrasilAgro to 35.75%. Therefore, we present our financial statements in consolidated form to include the accounts of BrasilAgro.

During this period we have observed very good soil humidity conditions in most of the areas where the coarse crop planting process (including soybean, corn and sunflower) is set to begin. In addition, we have started planting activities in most of the areas allocated to wheat production.

On September 21, we acquired under a private transaction an additional 5.1% equity interest in IRSA for a total amount of USD 30.1 million. In this way, we increased our interest in IRSA to 63.2%.

During this quarter, sales from the agribusiness segment doubled as compared to those for the same period of the previous year. This was driven mainly by a 287.8% increase in the sale of Crops (as a result of the consolidation of BrasilAgro and sales of crops corresponding to the 2010/2011 season) which exceeded by ARS 153.9 million the sales recorded in the first quarter of fiscal year 2011. The Beef Cattle business contribution to sales was 51.4% higher, thanks to an increase in ton production and sustained price levels in the domestic market.

Production from the Agribusiness segment grew strongly thanks to the consolidation of our subsidiary BrasilAgro and the late harvesting of corn crops in our Argentine farms. All this led to a 439.4% increase in Crop production. In addition, we increased revenues from Beef Cattle Production by 235.0%.

Despite the increase in Sales and Production from the Agribusiness segment, Gross Profit from this segment grew to a lesser extent, as it was offset by the Gross Profit from the Sale of Farms segment, which was lower by ARS 15.1 million.

Sales from the Real Estate segment increased 11.8% thanks to the good performance of the rental segments, offset by the disposition and deconsolidation of the consumer finance business.

Gross Profit grew by 11.6%, explained by an increase of 32.5% in Gross Profit from the Agribusiness segment (which reached ARS 78.2 million), a 5.5% increase in Gross Profit from the Real Estate segment (which totaled ARS 211.5 million) and a gross loss of ARS 0.2 million from the Feed Lot/Meat Packing segment.

Edgar Filing: CRESUD INC - Form 6-K

Operating Income totaled ARS 191.7 million, an increase of 4.4%. This rise is explained by a fall of ARS 14.1 million in operating income from the Agribusiness segment due to lower income from Sales of Farms and Holdings of Beef Cattle, an ARS 4.3 million loss from the Feed Lot/Meat Packing segment, and an increase in operating income from the Real Estate segment (mainly Shopping Centers) which totaled ARS 26.4 million.

Table of Contents

Net Income for the period amounted to ARS 1.0 million compared to ARS 51.9 million in the first quarter of 2011. This was caused mainly by higher financial charges, which totaled ARS 167.3 million compared to ARS 74.3 million in the same quarter of the previous fiscal year. The reason for this decrease was a loss from changes in exchange rates resulting from the depreciation of the exchange rate that affects our liabilities denominated in dollars, for ARS 49.0 million (vs. ARS 2.4 million in the first quarter of fiscal year 2011) and a loss from other financial assets for ARS 62.4 million (vs. ARS 18.2 million) mostly due to the revaluation at market values of certain assets held of by our subsidiary IRSA.

As from this quarter we have started to consolidate results from our subsidiary BrasilAgro. For this reason, our Production Income has been much higher than in the past year (a 439.4% increase), mainly reflecting the production of sugarcane, which contributed 556,022 additional tons.

Moreover, revenues and income from production of crops at domestic level increased by 211.8% and 2,607.7%, respectively. This increase is explained by the fact that corn harvesting was completed during the quarter reported herein, i.e. after the closing of fiscal year 2011.

In addition, sales revenues were affected by the same reasons, namely, the consolidation of BrasilAgro and the impact of the 2010/2011 season during this period.

The delay in completing harvesting results from our diversification policy, not only in terms of geographic regions and crops, but also in planting timing. In this way, we diversify the weather risks to which our crops are exposed.

By consolidating BrasilAgro's production we experienced a strong increase in production volumes, led by sugarcane, offsetting the fall in the average price of our crops (60% lower) which reached ARS 179.4 per ton. Sugarcane is a voluminous crop with ton prices lower than the average prices of the other crops in our portfolio.

Sales revenues experienced the same effect, as they grew 287.8% as compared to the same period of the previous year. This increase is explained by an improvement of approximately six times in sales volumes, offset by a 43.4% decline in average prices, reaching an average sales price of ARS 364 per ton, also due to the impact of BrasilAgro's consolidation and the addition of sugarcane.

¹ Excludes Agro-Uranga S.A. (35.72% of 8,299 has). As of September 30, 2011 it includes information on BrasilAgro as a result of its consolidation as of June 30, 2011.

Own farms leased to third parties	30,906	8,705	255.0%
Total Area Assigned to Crop Production	206,917	131,577	57.3%

The 57.3% increase results from the fact that in this period we fully consolidated all the farms of our subsidiary BrasilAGro, thus adding 59,968 hectares to the own farms line. On the other hand, we added around 2,600 hectares from La Esmeralda and 2,600 hectares from La Suiza farms, which were transformed from livestock areas to agricultural areas. Besides, we added 1,200 new hectares that were under development in our farm in Paraguay and nearly 2,200 hectares in Bolivia, as a result of the sales and acquisitions made in the previous fiscal year.

During the season that starts in this quarter, we have reduced the area of leased farms assigned to crop production, driven mostly by our decision to apply a strict criterion regarding the target margin in each farm, given the higher volatility observed in the crops market.

The decrease in the area in operation assigned to crop production in the farms of Agropecuaria Anta (long term concession granted to Cresud) results from the fact that we have increased the area in operation in this farm which we lease to third parties.

In line with the foregoing, the increase by 22,201 hectares of farms leased to third parties is broken down as follows: 12,440 hectares correspond to BrasilAGro's farm Preferencia, 6,868 hectares from the concession and 2,893 from farms that Cresud has in Argentina, mainly Los Pozos.

During this quarter we started planting activities for the 2011/2012 season, with good soil humidity conditions. As of September 30, 2011, we had planted close to 12,000 hectares in Argentina, consisting mainly of 6,500 hectares of wheat, 2,500 of corn and 2,700 of sunflower.

² Includes surface area under double cropping totaling 19,386 hectares

³ Includes the San Cayetano, San Rafael, La Fon Fon and Las Londras farms, respectively, located in Santa Cruz, Bolivia, and the Jerovia farm, located in the District of Boquerón, Republic of Paraguay. As of September 30, 2011 includes the Cremaq, Jatoba, Alto Taquari, Araucaria, Chaparral, Nova Buriti, Preferencia and Horizontina farms located in the Federal Republic of Brazil.

Beef Cattle Production	1,258	918	37.0%
Beef Cattle Sales	3,153	2,484	26.9%

Production revenues tripled as compared to the same period of the previous year. This increase is explained by a 37.0% rise in tons produced and a 144.5% increase in the average price per ton produced.

Sales revenues increased 51.4% compared to the same period of the previous year. This rise was driven by a 27.0% increase in amounts sold and a 19.2% rise in prices, reaching an average sales price of ARS 7.29 per kilo.

Although our ton production was 37.0% higher than in the first quarter of fiscal year 2011, production costs increased by 61.3%. This was caused, *inter alia*, by the fact that we increased our production in Feed Lots (in Los Pozos farm) to the detriment of traditional production in pasturing farms. This allowed us to accelerate production and take advantage of the sustained prices prevailing in the beef cattle market.

Nevertheless, our holding results were lower than in the same quarter of the previous fiscal year as prices did not increase at the same rate as at that moment. This is why the business margin is 45.6% lower.

Gross profit from the milk segment for the first quarter of fiscal year 2012 was significantly lower than in the same period of the previous fiscal year. Such variation is explained by the fall in production volumes resulting from the sale of La Juanita farm, which could not be offset by the 12.1% improvement in average prices.

The first quarter of fiscal year 2012 has shown good results in terms of production, reaching 22.2 liters per milking cow per day. Our goal for this fiscal year is to ensure 20 liters per day, surpassing the 19 liters per day average recorded in the previous fiscal year.

In addition to the good production performance, sustained prices have been observed in the domestic market.

As the transaction was agreed for BRL 26.1 million, it generated a 153% gain over the invested amount.

Our stake in IRSA has a high impact on our results, therefore we recommend the reading of detailed information on IRSA provided in its webpage (www.irsa.com.ar), in the Argentine Comisión Nacional de Valores website (www.cnv.gob.ar) and in the Securities and Exchange Commission website (www.sec.gov).

- 4 EBITDA represents operating income plus depreciation and amortization (included in operating income). Our presentation of EBITDA does not reflect the methodology suggested by its acronym. We believe EBITDA provides investors with meaningful information with respect to our operating performance and facilitates comparisons to our historical operating results. However, our EBITDA measure has limitations as an analytical tool, and should not be considered in isolation, as an alternative to net income or as an indicator of our operating performance or as a substitute for analysis of our results as reported under Argentine GAAP. Some of these limitations include:

it does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;

it does not reflect changes in, or cash requirements for, our working capital needs;

it does not reflect our interest expense, or the cash requirements to service the interest or principal payments of our debt;

it does not reflect any cash income taxes or employees' profit sharing we may be required to pay;

it reflects the effect of non-recurring expenses, as well as investing gains and losses;

it is not adjusted for all non-cash income or expense items that are reflected in restatements of changes in financial position; and

other companies in our industry could calculate this measure differently than we do, which may limit its usefulness as a comparative measure.

Because of these limitations, our EBITDA measure should not be considered a measure of discretionary cash available to us to invest in the growth of our business or as a measure of cash that will be available to us to meet our obligations. EBITDA is not a recognized financial measure under Argentine GAAP. You should compensate for these limitations by relying principally on our Argentine GAAP results and using our EBITDA measurement supplementally.

Prospects for the Next Fiscal Year

During this period there have been optimum soil humidity conditions in most of the areas where the coarse crop planting process (including soybean, corn and sunflower) is set to begin. In addition, we have started planting activities in most of the areas allocated to wheat production. However, we remain alert to the probability of a slight La Niña effect at the beginning of the summer, that would bring droughts as it happened last year. By the end of the next quarter we will have a clearer view of the total number of hectares planted with crops and will be able to anticipate their yield.

In the past months crop market prices have shown to be volatile and the government has persistently intervened in the domestic market, leading to a certain degree of uncertainty. We do not expect that this scenario will change in the near future, and have thus maintained a more conservative position in connection with our hedging strategies.

Beef cattle and milk prices are expected remain steady, following the trend observed in the past months, and we project that production from our businesses will mirror the levels attained during this quarter.

As concerns agricultural development, we have made substantial transformations in La Suiza and La Esmeralda farms, converting them from beef cattle production lands-of lower economic performance-into agricultural production areas. On the other hand, we have started the development of new areas in Los Pozos and the concession which we expect to continue developing in the future.
