SAFE HARBOR STATEMENT

Selected statements contained in this Quarterly Report on Form 10-Q, including, without limitation, in PART I Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations, constitute forward-looking statements as that term is used in the Private Securities Litigation Reform Act of 1995 (the Act). Forward-looking statements reflect our current expectations, estimates or projections concerning future results or events. These statements are often identified by the use of forward-looking words or phrases such as believe, expect, anticipate, may, could, intend, estimate, plan, foresee, likely, will, should or other similar words or phrases. These forward-looking statements include, without limitation, statements relating to:

business plans or future or expected growth, performance, sales, volumes, cash flows, earnings, balance sheet strengths, debt, financial condition or other financial measures;

projected profitability potential, capacity, and working capital needs;

demand trends for us or our markets;

pricing trends for raw materials and finished goods and the impact of pricing changes;

anticipated capital expenditures and asset sales;

anticipated improvements and efficiencies in costs, operations, sales, inventory management, sourcing and the supply chain and the results thereof;

the ability to make acquisitions and the projected timing, results, benefits, costs, charges and expenditures related to acquisitions, newly-created joint ventures, headcount reductions and facility dispositions, shutdowns and consolidations; the alignment of operations with demand;

the ability to operate profitably and generate cash in down markets;

the ability to maintain margins and capture and maintain market share and to develop or take advantage of future opportunities, new products and new markets;

expectations for Company and customer inventories, jobs and orders;

expectations for the economy and markets or improvements therein;

expected benefits from transformation plans, cost reduction efforts and other new initiatives;

expectations for increasing volatility or improving and sustaining earnings, earnings potential, margins or shareholder value;

effects of judicial and governmental agency rulings; and

other non-historical matters.

Because they are based on beliefs, estimates and assumptions, forward-looking statements are inherently subject to risks and uncertainties that could cause actual results to differ materially from those projected. Any number of factors could affect actual results, including, without limitation, those that follow:

the effect of national, regional and worldwide economic conditions generally and within major product markets, including a prolonged or substantial economic downturn;

the effect of conditions in national and worldwide financial markets;

product demand and pricing;

adverse impacts associated with the recent voluntary recall of our MAP-PRO[®], propylene and MAAP[®] cylinders, including recall costs, legal and notification expenses, lost sales and potential negative customer perceptions of certain pressure cylinder products; changes in product mix, product substitution and market acceptance of our products;

fluctuations in the pricing, quality or availability of raw materials (particularly steel), supplies, transportation, utilities and other items required by operations;

effects of facility closures and the consolidation of operations;

the effect of financial difficulties, consolidation and other changes within the steel, automotive, construction and other industries in which we participate;

failure to maintain appropriate levels of inventories;

financial difficulties (including bankruptcy filings) of original equipment manufacturers, end-users and customers, suppliers, joint venture partners and others with whom we do business;

the ability to realize targeted expense reductions from headcount reductions, facility closures and other cost reduction efforts;

the ability to realize other cost savings and operational, sales and sourcing improvements and efficiencies, and other expected benefits from transformation initiatives, on a timely basis;

the overall success of, and the ability to integrate, newly-acquired businesses and achieve synergies and other expected benefits therefrom;

the overall success of newly-created joint ventures, including the demand for their products, and the ability to achieve the anticipated benefits therefrom;

capacity levels and efficiencies, within facilities, within major product markets and within the industry as a whole;

the effect of disruption in the business of suppliers, customers, facilities and shipping operations due to adverse weather, casualty events, equipment breakdowns, acts of war or terrorist activities or other causes;

changes in customer demand, inventories, spending patterns, product choices, and supplier choices;

risks associated with doing business internationally, including economic, political and social instability, foreign currency exposure and the acceptance of our products in new markets;

the ability to improve and maintain processes and business practices to keep pace with the economic, competitive and technological environment;

adverse claims experience with respect to workers compensation, product recalls or product liability, casualty events or other matters;

deviation of actual results from estimates and/or assumptions used by us in the application of our significant accounting policies; level of imports and import prices in our markets;

the impact of the outcome of judicial and governmental agency rulings as well as the impact of governmental regulations, including those adopted by the United States Securities and Exchange Commission and other governmental agencies as contemplated by the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, both in the United States and abroad; and

other risks described from time to time in our filings with the Securities and Exchange Commission, including those described in PART I Item 1A. Risk Factors of our Annual Report on Form 10-K for the fiscal year ended May 31, 2011.

We note these factors for investors as contemplated by the Act. It is impossible to predict or identify all potential risk factors. Consequently, you should not consider the foregoing list to be a complete set of all potential risks and uncertainties. Any forward-looking statements in this Quarterly Report on Form 10-Q are based on current information as of the date of this Quarterly Report on Form 10-Q, and we assume no obligation to correct or update any such statements in the future, except as required by applicable law.
